19. *Section 23.*—Greater facilities should I think be allowed for the realization of the cess. A solitary *peadah* cannot be expected to walk into a zemindar's residence in the interior of a district and attach some article of movable property; and the alternative procedure allowed by section 10 is inconvenient and to be avoided as much as possible. The procedure laid down in Act VII of 1868 is much more slow and cumbrous than it need be, but still it would be better than the one we have at present. I have always been myself of opinion that road cess should be realized as land revenue. I do not believe it would cause any hardship, or be one bit more felt than the enforced punctual payment of Government revenue is.

Paragraph 53 of the Board's Instructions.—I do not quite agree with what the Collector says on this point. The instructions may be difficult, or even impossible, to carry out in some districts, but they may not be so in others. At all events, whether difficult or not, as long as the latter part of section 70 remains unaltered, there must be some means provided for preventing the expenditure in one district of funds raised in another, except with the previous sanction of the Lieutenant-Governor.

20. In conclusion, it only remains for me to notice the remarks Mr. Barton has recorded on his subordinates. I can, and do, most thoroughly endorse all that he has said regarding Deputy Collector Baboo Okhoy Coomar Sen, who was in charge of the road cess department throughout the whole operations. I have twice inspected his office, and was on both occasions much struck with the thorough knowledge he had of his work, and the great intelligence he brought to bear on it. He has worked indefatigably throughout, and no small amount of the success that has attended the introduction of the Act is due to his untiring perseverance and energy. I beg therefore to support the Collector's recommendation that he may be promoted from the 6th to the 5th grade of Deputy Collectors. I am aware that he is low down in the 6th grade, but I venture to hope that the Board will agree with me in thinking that special services, such as the Deputy Collector has rendered, are worthy of special reward.

21. Baboo Trailokya Nath Sen was deputed to assist the Deputy Collector in charge of the department in May 1876, when the work was almost at its heaviest. The Collector speaks of him as having worked hard and well, and as having given him satisfaction.

22. Baboo Jadoo Nath Chowdhry's assistance was valuable, as he brought with him previous experience of the work. The Collector appears to have been perfectly satisfied with him.

23. Baboo Bhola Nath Das, the head clerk, is very highly spoken of by Mr. Barton, and there is no doubt that he has been both here and previously in Furreredpore a most efficient officer. He has worked with unceasing assiduity, as may be gathered from the fact that not only did he do his own legitimate work, but also examined the whole of the valuation rolls, amounting to 266,000. I trust the Board will support the recommendation that he may be appointed, on the occurrence of a suitable opportunity, a Sub-Deputy Collector.

24. The ministerial officers have, as a body, given satisfaction; and I shall be glad to do what I can in helping Mr. Barton to provide for them. Lastly, I have to beg that the Government may be pleased to express its approbation of Mr. Barton's own services in connection with the important work that has just been brought to a close. It has had his constant attention from first to last, and but for his close supervision, I feel certain that the work would not have been finished as soon as it has. His work, however, was by no means confined to mere supervision: references on matters of doubt were constantly made to him; special matters were laid before him for orders; and in a variety of ways demands were made upon his time. His services have been very important, and not the least of them is the compilation of the exhaustive and valuable report I now submit.

25. In conclusion, I have, at Mr. Barton's request, to beg that 30 copies of his report may be printed for distribution among the members of the District Road Cess Committee and for record in his office and mine; the cost will be paid from the Road Cess Fund.

No. 103, dated Burrisal, the 23rd June 1877.

From—E. J. BARTON, Esq, Offg. Collector of Backergunge,
To—The Offg. Commissioner of the Dacca Division.

I HAVE the honor to submit my final report on the valuation of the land of this district under the Road Cess Act X (B.C.) of 1871.

2. Under orders of the Government of Bengal, dated 5th October 1874, published at page 1556 of the *Calcutta Gazette*, Part I, of the 7th October 1874, the Road Cess Act was extended to this district with effect from the 1st November following. I took charge of the district in the beginning of that month; and the Road Cess Deputy Collector, Baboo Okhoy Coomar Sen, arrived at the latter end of it. It was some time, however, before the necessary forms and instructions were received, and consequently our work did not really begin till the middle of the next month (December). It has therefore taken us exactly two years and a half to complete the valuation of the lands of the district. During this period the road cess office was incessantly at work, and the enormously large quantity of work—over two lakhs and a half of valuations—that it has done will, I trust, show to your satisfaction that we have got through the work as quickly as, under the peculiar circumstances of the district, which will be set forth further on in this report, it was possible.

3. The valuation of the houses of this district has not yet been taken in hand. The reasons for the postponement of this work have been set forth in my letter No. 75 of the 10th April last, from which I beg leave to quote the following paragraph:—

“The levy of the road cess in this district from October 1876 was, as you will remember, ordered in September last. In the latter part of the same month the Road Cess Committee met to consider the budget for the present (then ensuing) year, and on the 30th of October, after the rate was struck, arrangements were made, with your permission, to carry out the house assessment, partly by paid assessors and partly by sub-inspectors of schools. Before,

however, the plan could be carried out, the district was overrun by a terrible cyclone, the like of which, in respect of destructiveness of human life and property, is probably unknown in the annals of any country. As you are aware, the effect of this cyclone on the kutchahouses of this district—and almost all the houses of the district are kutchahouses, pucca buildings being very rare—has been simply ruinous. Not to speak of the eastern portion of the district, consisting of the sub-division of Dukhin Shahbazzpore and a large part of that of Patoakhally, there is hardly a village, or *bundar*, or market in the district where the houses were not either blown down and demolished, or considerably damaged and rendered unfit for habitation. In consideration of this fact, the committee felt that to take in hand the valuation and assessment of the houses, in the condition in which they were then, would entail a great loss of revenue, and they accordingly determined to postpone this part of the district valuation until the houses were fully repaired and rebuilt. Accordingly the valuation and the assessment of the houses have not yet begun; nor do I propose to begin this work till June next, by which time I expect the people will have fully repaired and rebuilt their houses, or otherwise restored them to their original condition.”

4. The work of introducing the Act in this district has been, as you personally know, a very laborious and arduous duty, and it gives me pleasure to be able to report its completion. I began it in November 1874, with one Deputy Collector (Baboo Okhoy Coomarr Sen) and an establishment of two clerks and five mohurirs. Our work rapidly increased, and before three months elapsed we found the establishment insufficient and unable to keep abreast of the current duties. Returns began to pour in upon us in large numbers. In order to secure the timely registration of the estates and tenures and their valuation, we soon found ourselves under the necessity of employing a larger number of hands. This I did with your sanction in March, and I raised the establishment to four sections. Within a few months more, however, this number also proved insufficient, and the necessity of further strengthening the office became urgent. The establishment was accordingly increased, not all at once, but from time to time, as increase of work rendered it necessary to do so. Since September 1876 the office establishment has consisted of 18 sections, composed of 36 clerks and 36 mohurirs, besides the head-clerk and a staff of 100 peons.

5. The administration of the Act has been throughout under the special charge of Deputy Collector Baboo Okhoy Coomarr Sen, whose proceedings were watched and supervised by me. The road cess office was a most important branch of the collectorate and involved a large expenditure of public money, and the success of the entire scheme of district roads depended upon the correctness of its work. I had of course to transact a considerable quantity of work daily myself. In May 1876, when the office assumed very large proportions, and the work became almost unmanageable and beyond the powers of one officer, I deputed with your sanction Deputy Collector Baboo Trailokya Nath Sen upon road cess duty. In September last, before our valuations were concluded, the Government ordered the cess to be levied in this district. Also, in order to expedite the completion of the valuations, Deputy Collector Baboo Jadoo Nath Chowdhry was sent from Dacca and placed upon duty in the road cess office. He arrived here in October. Both these officers rendered very efficient assistance, and I have much pleasure in acknowledging their valuable services. Baboo Trailokya Nath Sen's connection with the office ceased in February, when the great pressure ended, and his services were utilized upon other work.

6. I now proceed to give as brief a narrative as possible of the work done during the past two years and a half.

7. The district has an area of 3,865 square miles, and is divided into 49 fiscal divisions, called either *pergunnahs*, or *tappas*, or *tarafs*. There are 33 *pergunnahs*, 14 *tappas*, and 2 *tarafs*. They are extremely unequal in their dimensions and are far from being always compact. The lands of one *pergunnah* or *taraf* are frequently found intermixed with those of another, and it not unfrequently happens that a small strip of land, sometimes a considerable area, belonging to one *pergunnah* lies far away from the main body of it.

8. These fiscal divisions contain, besides lands which pay no revenue to Government, 3,435 estates, of which 2,830 are permanently settled and 605 temporarily settled.

9. Lands which pay no revenue are of two kinds—(1) lands the revenue of which has been redeemed by their proprietors by payment of (generally) 20 years' revenue, and (2) lands which, under certain grants, whether valid or invalid, are enjoyed by their proprietors free of revenue. Both classes are commonly designated “*lakhiraj*,” a term which also includes lands which pay no rent to the *zemindar*. Also two or three large estates in the Soonderbuns have been alienated rent-free for ever under the Waste Land Rules.

10. The number of *lakhiraj* estates, or the quantity of land held under grants (valid or otherwise), has never been correctly ascertained. Endeavours have been made repeatedly to get the valid *lakhiraj* lands registered, but hitherto in vain. Whether the new Registration Act will enable us to do so remains to be seen; but it is certain that the number of invalid *lakhiraj* estates will never be accurately ascertained.

11. The number of invalid *lakhiraj* estates recorded in Register C of the collectorate is 27. The redeemed estates number 18, and the *chhapi* or concealed *lakhiraj* estates recorded in the survey registers number 7. These figures are no doubt greatly below the truth.

12. The distribution of these estates, both revenue-paying and revenue-free, among the fiscal divisions of the district is shown in Table A appended to this report.

13. These estates, together with the separate accounts opened under Act XI of 1859, each of which for purposes of valuation under the Road Cess Act is considered as a separate estate, have been brought on our Registers I and III in the manner shown below :—

Register I.

Permanently settled estates	Rs. 2,830
Separate accounts thereof	84
Lakhiraj lands	34
Total ...				2,948

Register III.

Temporarily settled estates	605
Separate accounts thereof
Redeemed estates	18
Total ...				623

GRAND TOTAL ... 3,571

14. These estates are extremely unequal both in extent and in the amount of revenue they pay to Government. There are estates which pay only a few piece of revenue a year, and others which pay over half a lakh of rupees. It is not, however, to be supposed that the amount of revenue that an estate pays is an index of its area. The estate which pays the largest amount of Government revenue is the Government estate of Tooshkhali yet it is by no means the biggest (in size) estate in the district. There have been great and most glaring inequalities in the fixing of the Government demands, chiefly in the permanently settled estates.

15. The largest estate in the district is undoubtedly the zemindaree of Edilpore, No. 3872 of the towjih, owned by Baboo Kalikrishna Tagore of Calcutta. Its revenue exceeds Rs. 65,000, and the valuation amounts to over Rs. 4,19,000. The smallest estates are almost all in pergunnah Bangrora, some of which comprise only a homestead each.

16. Of the 2,948 estates entered in Register I, two are entirely within municipal limits and have, under section 1 of the Road Cess Act, been exempted from valuation. Besides these, 15 are partially situated within municipal boundaries, and the lands so situated have also been excluded from our valuations. In allowing the deduction provided for in section 21, a corresponding deduction has been made from the revenue of these estates.

The revenue-free lands brought on Register I are all above Rs. 5 value. None of them therefore has been exempted from valuation.

Of the estates entered in Register III, one is wholly, and one partially, situated within municipal limits. Lands so situated have also been exempted from valuation under section 1 of the Road Cess Act. Also 18 diluviated estates and two ferry ghât mehals have been exempted from valuation. The following table will show the number of estates which have been exempted from valuation and assessment :—

1	2	3	4	5	6	7	8	9
Name of register.	Number of estates situated entirely within municipal limits.	Number of estates partially situated within municipal limits.	Number of estates entirely diluviated and otherwise exempted from valuation.	Value of lands mentioned in column 2.	Value of lands referred to in column 3.	Value of lands mentioned in column 4.	Total of columns 5, 6, and 7.	Amount of revenue upon which no deduction is allowed under section 21.
Register I	No.	No.	No.	Rs.	Rs.	Rs.	Rs.	Rs.
III	2	15	20	1,672	8,082	..	10,354	2,432
	1	1	..	208	227	163	598	565
Total ..	3	16	20	1,880	8,309	163	10,952	2,997

17. In all, therefore, 23 estates have been wholly, and 16 partially, exempted from valuation. The remaining estates in the district have all been valued with the following satisfactory result :—

1	2	3	4
Name of register.	Number of estates.	Amount of revenue. Rs.	Valuation. Rs.
Register I ...	2916	9,91,002	59,09,830
III ...	602	3,83,919	10,14,746
Total ...	3,548	13,74,921	69,24,576

The cess from lands alone is therefore expected to yield Rs. 1,94,910 a year.

18. The way in which these estates have been valued deserves some mention in this report. The usual course in other districts is to call upon the holders of all estates paying above Rs. 100 revenue to submit returns of their rent-rolls according to the form prescribed in schedule A attached to the Act, and to assess the smaller mehals (paying Rs. 100 revenue and less) summarily, according to either of the two principles laid down in section 8 of the Road Cess Act. The adoption of this procedure in its entirety in this district appeared to us open to grave objections, as it was known to every one acquainted with the land that its value here had greatly, in many cases enormously, increased since the permanent settlement in 1793, and that the Government revenue very frequently bore no fair proportion to that value. Apprehending, therefore, that a serious loss of cess would be the inevitable result if all estates paying Rs. 100 revenue and less were valued at three times their revenue, I referred the matter to you in my letter No. 22, dated 22nd February 1875, and with your and the Board's sanction we made it a rule to require a return for every estate paying Rs. 50 revenue and more, and to assess the smaller estates according to the quantity of land in them as shewn in the survey registers. Whenever, however, in the case of petty estates, the financial result arrived at under this system was less than what could be attained under the multiple principle, the latter was adopted. This procedure has no doubt considerably increased our work, but the result fully justified the extra labour bestowed upon the valuation, as will be shewn further on.

19. Of the 3,571 estates (including separate accounts and lakhiraj lands) borne on the revenue-roll of this district, 935 pay each above Rs. 100 revenue, and 259 pay a revenue of not less than Rs. 50 and not more than Rs. 100 each. The rest (2,377) are petty mehals paying less than Rs. 50 revenue.

20. Notices under sections 6 and 8 were issued in respect of every estate paying Rs. 50 revenue and more. The number of these estates, as shewn before, is 1,194; but as almost every estate is held in coparceny by several proprietors, in some cases by as many as 40 to 50 co-sharers, the number of notices (2,617) that we had to issue was much in excess of the number of these estates.

21. With hardly an exception the proprietors responded to our calls with alacrity. In a large number of cases, however, the preparation of the return was a matter of considerable difficulty and trouble, and the zemindars and talookdars, much against their will, were in consequence in many cases compelled to delay the submission of their papers beyond the period allowed by law. Extensions of time were liberally granted by me and the Deputy Collector, but the delays sometimes exceeded the additional time allowed.

22. The difficulties attending the preparation by the zemindars of these road cess returns in this district have their origin in the following among other causes :--

- (i.) In the same pergunnah the lands of several estates are often held ijmalī by more than one proprietor, and these lands are frequently so mixed up together that it is impossible to identify them.
- (ii.) The lands of different estates in different pergunnahs are often held ijmalī in the aforesaid manner.
- (iii.) Separate accounts are often opened for minute fractional parts of an estate held ijmalī by all the co-proprietors.

23. In the first two cases the preparation of a correct return for each of the several estates, the lands of which are held ijmalī, is next to impossible. The difficulty is again enhanced when, as happened in many instances, the owners themselves did not know the proportion which their shares bore to each other or to the whole. In such cases the apportionment of rent among the several estates concerned is a matter of extreme difficulty.

In the last-named case, viz the submission of a separate return for a minute fractional share of an estate, the apportionment of the rent is a work of great difficulty and trouble, especially when the estate is a large one, and the share for which the separate account is opened a very small one, e.g. the fractional part of a pie. An instance in point is the separate account which has been opened by the proprietor of a 1 gunda 1 kranta and 6½ teels share of pergunnah Sultanabad. This estate contains above 9,000 tenures, besides many thousand cultivating ryots. The mehal is held ijmalī by several proprietors, and the proprietor of this small fractional share is entitled to only 1 gunda 1 kranta and 6½ teels of every rupee of rent paid by each tenant or ryot. It is only when a tenant pays about Rs. 300 rent that this sharer gets a full rupee as his portion. The difficulty attending the apportionment of the rent in so many thousand cases is better imagined than described.

24. The peculiarity of this district is that cases attended with these difficulties are far more numerous than elsewhere.

25. Returns have been received for all estates paying a revenue of Rs. 50 and upwards. For almost every such estate more returns than one have been received, each co-proprietor having submitted a separate return for his share. These returns number about 3,000.

26. As a rule, all these estates, especially the bigger ones, abound to an almost incredible extent in under-tenures. There are several estates each of which contains more than 13,000 tenures.

27. These two facts—enormous subinfeudation, and extensive division of the estates among the co-sharing proprietors—rendered the valuation of this district a matter of complicated difficulty, requiring much time and labour. The submission of a separate return by each co-sharer for each fractional portion of an estate threw upon my office the duty of preparing one general return for the entire estate. This work imposed upon us great trouble. In most cases each of such returns contained in Part III the names of several hundred tenures which neither were of the same order in all the several returns, nor agreed with each other in the description given of them therein. The same tenure often occurred in different names in the different returns, and often different tenures were recorded in the same name. The general returns prepared in the office were from these causes necessarily often inaccurate, and it was only when the tenure-holders appeared that the errors could be discovered and corrected. The khatyans, as these general returns are called, which were prepared in the road cess office from the returns submitted by each of the co-sharing proprietors, are now generally free from errors and have been accepted by the estate-holders and tenure-holders.

28. This work was as a rule done out of office hours at home. The establishment gave their mornings and evenings to it, and it generally took several weeks to prepare these general returns. In one case the Deputy Collector had to devote his mornings for two months together to the preparation of one such general return from out of 30 returns submitted by as many co-sharers.

29. The enormous subinfeudation which prevails in this district also contributed to make our valuations a very arduous task. As will be shown further on in this report, we had to value in the district over 260,000 tenures of different grades. Our valuations began in March 1875 and ended in May 1877. We have, therefore, on an average done nearly 10,000 valuations a month. The average number of valuations done during the last five months of 1876 was still greater, viz. 17,025 a month.

30. The result of the valuation of the estates of this district is shown in the following tables:—

I.

Estates paying more than Rs. 100 revenue.

1	2	3	4	5
Name of register.	Number of estates.	Amount of revenue.	Amount of valuation	Ratio.
		Rs.	Rs.	
Register I ...	685	9,54,397	56,13,512	5.92
„ III ..	248	3,75,245	9,95,501	2.65
Total ...	933	13,29,642	66,09,013	4.99

II.

Estates the revenue of which does not exceed Rs. 100.

1	2	3	4	5
Name of register.	Number of estates.	Amount of revenue.	Amount of valuation.	Ratio.
Register I ...	2,261	36,605	2,96,318	8.09
„ III ...	354	8,674	19,245	2.21
Total ..	2,615	45,279	3,15,563	6.9

The total valuation of the district is shown in the following table:—

III.

1	2	3	4	5
Name of register.	Number of estates.	Amount of revenue.	Amount of valuation.	Ratio.
		Rs.	Rs.	
Register I ...	2,946	9,91,002	59,09,830	5.96
„ III ...	602	3,83,919	10,14,746	2.64
Total ..	3,548	13,74,921	69,24,576	5.03

31. Estates paying more than Rs. 100 revenue have all been valued on returns, and the result has been on the whole very satisfactory. The valuation of the permanently settled estates of this class (numbering 686) has amounted to Rs. 56,52,809, or 5.92 times the revenue paid in respect of them. The temporarily settled estates of this description (numbering 248) have been valued at Rs. 9,95,501, i.e. their valuation exceeds their revenue by 2.65 times.

32. As has been stated before, estates paying less than Rs. 100 have been valued partly on returns, partly upon the acreage principle, and partly upon the multiple system. By a judicious application of all these three different methods, we have obtained results (*vide* Table II) which are highly gratifying, and which have more than compensated the extra trouble and labour incurred. The permanently settled estates of this description pay a revenue of Rs. 36,605. Under the multiple system their highest valuation would have been Rs. 1,09,815. Under the plan followed by us their valuation has amounted to Rs. 2,57,021, or Rs. 1,47,206 in excess of the result attainable on the multiple principle. The extra labour and trouble bestowed upon the valuation of these small estates (numbering 2,260) have been compensated by an increase of Rs. 4,600 to the annual cess.

33. The valuation of the temporarily settled estates under our plan has amounted to Rs. 19,245, or Rs. 1,797 in excess of the result attainable upon the multiple principle. The increase is slight, but it should be remembered that these mohals are periodically assessed for the land revenue, and the margin left for profit is small.

34. The entire valuation of the district has amounted to Rs. 69,24,576, or considerably more than what we anticipated in the beginning of our operations. It is 5.03 times the Government revenue of the estates. In the permanently settled estates the valuation is nearly six times the revenue, and in the khas mohals a little more than 2½ times.

35. The biggest estates in the district will appear from the following table:—

1	2	3	4	5	6
Number on the towjph.	Name of estate.	Name of proprietor.	Amount of revenue.	Amount of valuation.	The ratio which the revenue bears to the valuation
			Rs.	Rs.	
3872	Zemindaree pergunnah Edilpore	Baboo Kalikrishna Tagore of Calcutta.	65,904	4,10,599	6.3
3840	Zemindaree pergunnah Selimabad; share 5 annas 15 gundas.	The Ghoshals of Bhukailash in Calcutta.	41,945	3,16,616	7.6
1720	Zemindaree Chandradeep pergunnah; share 8 annas 12½ gundas.	Baboo Rajballabh Roy, Mathuranath Roy, Dinabandhu Roy, Kalikumar Roy, and others of Madhabpasha in Backergunge.	44,538	2,67,226	6.0
1763	Zemindaree pergunnah Dukhin Shabbazpore; share 12 annas 18½ gundas.	J. B. Begram, P. N. Gasper, Baboo Ram Charan and Krista Charan Baisack and others of Dacca.	35,870	2,25,031	6.3
1413	Ayela huijhuri ..	Nawab Ashan-ullah of Dacca ...	372	2,20,508	592.7
3856	Zemindaree pergunnah Syadpore	Lala Mritunjay Sinha and Petam Kori of Dacca.	6,570	1,95,747	29.7
3558	Zemindaree pergunnah Sultanabad; share 15 annas 18½ gundas and 1 kanta	Nawab Ahman-ullah, Syed Zea-uddin Ali, Ali Hosoni Chowdry and others of Dacca.	23,048	1,68,779	7.2
2894	Zemindaree pergunnah Nazirpore.	Baboo Kalikrishna Tagore of Calcutta.	28,783	1,64,048	5.7
1681	Tulshiram Ghosh Taluq (Boora Mozundar.)	Baboo Chandra Kanta Mukerjee of Jonai in Hooghly	13,101	1,30,954	9.9
3841	Zemindaree pergunnah Selimabad; share 2 annas 17½ gundas.	The Ghoshal family of Bhukailash in Calcutta.	18,036	1,62,202	8.4
3036	Pergunnah Aurungpore; share 14 annas.	Baboo Baradakanta Roy and others of Kalshakati in Backergunge	12,568	1,17,779	9.3

36. The above list shows the biggest and most valuable estate in the district is pergunnah Edilpore, owned by Baboo Kalikrishna Tagore of Calcutta, valued at upwards of four lakhs of rupees a year.

Valuation of pergunnah Edilpore.

The valuation of this estate has, however, been comparatively an easy task, as subinfeudation does not prevail in it so extensively as in most of the other estates in the above list. There are in this estate 1,711 tenures, of which nearly one-half are nominal. The proprietary rights of this estate belong in equal shares to Maharajah Ramanath Tagore and Baboo Kalikrishna Tagore. Maharajah Ramanath's share is leased to Baboo Kalikrishna for a fixed net allowance of Rs. 24,000 a year. The latter gentleman, therefore, is virtually the proprietor of the entire estate. In making the valuation, however, the patni tenure under which Kalikrishna Baboo holds the Maharajah's share had to be valued as a distinct tenure of the 1st grade, and consequently all the tenures in the estate appear twice—viz., first as 1st grade tenures under Kalikrishna Baboo's share of the estate, and afterwards as 2nd grade tenures subordinate to the patni tenure belonging to the same gentleman. The actual number of tenures in this estate is 855; of which 163 are in the 1st, 380 in the 2nd, 269 in the 3rd, 38 in the 4th, and five in the 5th grade.

37. The next in importance is pergunnah (Selimabad share 5 annas 15 gundas), owned

Valuation of pergunnah Selimabad.

by the Ghoshals of Bhukailash. Revenue Rs. 41,945, valuation Rs. 3,16,616. Subinfeudation prevails in this estate, and indeed in this pergunnah, to a very large extent. There are in the estate alone 13,462 tenures; of which 1,734 are in the 1st, 7,328 in the 2nd, 3,024 in the 3rd, 1,067 in the 4th, 279 in the 5th, 29 in the 6th, and one in the 7th grade. Some of the tenures in this estate are remarkable for the smallness of their rent and the greatness of their value. These are mostly owned by the Biswashes of Jalabari in this district.

38. Pergunnah Chandraadeep (share 8 annas 12½ gundas) ranks next in size and importance. It has been valued in six different portions in consequence of an equal number of separate accounts having been opened by the proprietors. It was formerly owned by the Rajahs of Chandraadeep, who, in days long gone by, were proprietors of several other pergunnahs besides it—viz. Ratandikalikapore, Nazirpore, Uttar Shahbazpore, Ramnagar, &c., &c. It now belongs to the descendants of Rammanika Mudi, who purchased it at an auction sale for arrears of revenue in 1799. This estate abounds in under-tenures to such an enormous extent that there is hardly a village or hamlet that pays its rent direct to the estate-holder. The number of tenures in the six portions of which this estate is composed reaches the enormous figure of 43,818. Of this number, 4,563 are in the 1st, 31,030 in the 2nd, 6,426 in the 3rd, 1,529 in the 4th, 246 in the 5th, and 24 in the 6th grade.

39. Pergunnah Dukhin Shahbazpore (share 12 annas 18½ gundas), revenue Rs. 35,870, valuation Rs. 2,25,621. This estate contains 5,587 tenures; of which 223 are in the 1st, 4,177 in the 2nd, 1,147 in the 3rd, and 40 in the 4th grade.

40. The most important and the most interesting estate in the whole district is Ayela Phuljhuri, owned by Nawab Ashanullah of Dacca, who for a quit rent of Rs. 372 holds possession of a zemindaree valued at Rs. 2,20,508 annually. As usual it abounds in tenures, which in this estate number 3,893; of which 782 are in the 1st, 1,969 in the 2nd, 1,032 in the 3rd, 106 in the 4th, and 4 in the 5th grade.

41. Pergunnah Syadpore, owned by Lala Mritunjit Sinha and Petam Koor of Dacca, is another of our important estates. Its revenue is only Rs. 6,590, and the valuation Rs. 1,95,747. Although the gross valuation is large, the profits of the estate-holders are not very large. In their capacity of zemindars, Lala Mritunjit's and Petam Koor's profits amount to Rs. 8,383. It is in the tenures that the profits mainly lie. Some of these are as valuable as nearly half-a-lakh of rupees each annually. Taluq Brindaban Chundra Sen, a dependant tenure owned by the Baboos of Rajnagar, and which pays to the zemindars a quit-rent of Rs. 77, has been valued at Rs. 47,503. Some of the rich and valuable under-tenures belong to the estate-holders themselves. The estate contains as many as 13,803 under-tenures; of which 342 are in the 1st, 3,789 in the 2nd, 4,549 in the 3rd, 2,796 in the 4th, 1,862 in the 5th, 329 in the 6th, 125 in the 7th, and 11 in the 8th grade.

42. Pergunnah Sultanabad (share 15 annas 18½ gundas 1 kranti) is owned by several proprietors, and the rent-roll has been returned in seven portions. This mehal gave us great trouble in its valuation. It is replete with under-tenures. There are 9,846 tenures—1,373 in the 1st, 4,226 in the 2nd, 3,686 in the 3rd, 543 in the 4th, and 18 in the 5th grade.

43. Zemindaree Pergunnah Nazirpore.—It is owned by Baboo Kalikrishna Tagore of Calcutta, pays Rs. 28,783 revenue, and is valued at Rs. 1,64,048. It contains 5,106 tenures—252 in the 1st, 1,893 in the 2nd, 2,246 in the 3rd, 569 in the 4th, 138 in the 5th, 7 in the 6th, and 1 in the 7th grade.

44. Zemindaree Selimabad (share 2 annas 17½ gundas), owned by the Ghoshals of Bhukailash. Revenue Rs. 18,036, valuation Rs. 1,52,202. It contains 7,047 tenures—1,136 in the 1st, 3,668 in the 2nd, 1,694 in the 3rd, 471 in the 4th, 73 in the 5th, and 5 in the 6th grade.

45. Taluq Tulshiram Ghosh is owned by Baboo Chandra Kanta Mukerjee of Jonai. Revenue Rs. 13,101, valuation Rs. 1,30,594. It has 2,466 tenures—429 in the 1st, 1,186 in the 2nd, 577 in the 3rd, 237 in the 4th, 14 in the 5th, 19 in the 6th, and 4 in the 7th grade.

46. Zemindaree Pergunnah Aurungpore (share 14 annas) —It is under attachment and managed by the Court of Wards' manager, Mr. Owen. It pays a revenue of Rs. 12,568, and is valued at Rs. 1,17,779. It has a large number of tenures, viz. 5,372; of which 1,843 are in the 1st, 3,142 in the 2nd, 308 in the 3rd, 77 in the 4th, and 2 in the 5th grade.

47. I have in a previous paragraph shown the gratifying results that have attended our mode of valuation of the smaller estates of this district. The following tables will show how in individual cases the results have been extraordinary:—

Some particulars of results of our mode of valuing small estates of Rs. 100 or less revenue

Estates the valuation of which exceeds their revenue by 100 times.

48. Instances might be easily multiplied, but the above will I hope suffice to show the care and attention paid to valuation work in this district.

Registration of under-tenures.

49. I now come to the tenures. The number of these brought upon our Registers II and IV is as shown below:—

Name of register.	Rent-paying.	Rent-free.	Total.
Register II ...	250,174	14,639	264,813
„ IV ...	13,773	129	13,902
Total ...	263,947	14,768	278,715

and The way in which these are distributed among the several pergunnahs, tappas, is shown in Table B appended to this report.

tenures enormous, however, as this number is, it does not represent exhaustively all the under- and the which the district is covered. The number of estates summarily valued is 2,291, estates and of tenures similarly valued is 237,709. It must not be supposed that these and sub-tenures thus summarily valued are themselves unencumbered with tenures, do not valued in and inferior to them. But these latter, whatever their number, in our books, and there is every reason to believe that, if returns were

demanded for each of these summarily-valued estates and tenures, the number of sub-tenures would have been considerably greater than it now is, and probably would have exceeded three lakhs.

52. Like the estates, the tenures vary much in size and value. There are tenures consisting of several thousand acres of land, and others of less than a beegha each. As to value, some are worth above a lakh, and many as much as several thousand rupees, while others are not worth more than a few annas each a year. In several pergunnahs, notably in Solimabad and Chandradeep, we have several thousand sub-tenures worth only a few annas a year each.

53. In valuing these tenures we have exercised considerable discretion. No hard-and-fast rule was observed, but wherever it was found that the submission of a return would give results considerably in excess of the amount of valuation that could be attained under the ordinary rule of three times the rent, a return was demanded, no matter what the amount of rent it paid. Returns were of course demanded for every tenure paying above Rs. 100 rent, as the law allowed no discretion in their case. In all other cases our procedure was based upon these two principles:—

- (i.) Whenever it was known from personal knowledge or from information elicited from persons submitting the returns of estates or parent tenures, and whenever it was believed for other reasons that the rental of a tenure or of a class of tenures was considerably in excess of the amount we might attain under the multiple system of valuation, we exercised the discretion vested in us by law and the orders of the Board, and called for a return for the tenure, whatever was the amount of rent payable for it.
- (ii.) In the case of tenures owned or held by the owner of the parent estate itself we generally demanded a return for them, as it was notorious that the best paying tenures, viz. those with large rent-rolls and a nominal quit-rent, were generally in the possession of the estate-holders themselves.

54. The acreage principle, as you are aware, does not apply to tenures, as there is no means at our disposal of ascertaining their area. The only two modes, therefore, by which they can be valued are—(1) regularly on returns, and (2) summarily on the multiple principle. The summary method based upon the multiple principle is for the above reason unsafe, as the rent is no index of the size of the tenure. The enquiries made by the Deputy Collector in special charge at the beginning of our operations brought to our notice that in this district there were hundreds of tenures, the holders of which for a nominal quit-rent enjoyed very large profits, and which could not be adequately valued without calling for a return of their rent-roll. We therefore resolved to demand a return for all tenures the rent-roll of which was many times greater than their rent. At the same time, I considered that it would be most unnecessary to demand a return promiscuously in every case. To ascertain, therefore, where (in cases of tenures paying less than Rs. 100 rent) a notice should be issued and where not, the Deputy Collector in special charge, under my orders, sought for information from every person who submitted a return, or came to submit one, as to the amount of profits which these particular tenures fetched to their holders. This he noted down, and notices were afterwards issued in respect of all tenures which appeared to be very profitable, and which could not be valued adequately without a return of the rent-roll.

55. This was the procedure we adopted in making the valuation of the tenures. It necessarily involved great care, attention, and labour on the part of the Road Cess Deputy Collector, and I am glad to say that the results are in every way satisfactory.

56. Of the total number (278,715) of tenures brought on our Registers II and IV, 12,671 have been exempted from valuation, being lakhiraj lands worth less than Rs. 5 a year each. The rest (266,044) have all been assessed. Of these 11,034 pay above Rs. 100 rent, and the rest less. The number of tenures valued on returns is 28,335, and those valued summarily amount to 237,709. We, under this procedure, valued on returns 17,301 tenures which were capable of summary valuation. A return, however, was not called for in every one of these cases, as many were submitted by the tenure-holders voluntarily. In only 14,725 cases of this kind were returns actually called for. This number is insignificant, compared to the vast numbers (237,709) valued summarily upon the multiple principle.

57. The tenure-holders on the whole submitted their returns with fair punctuality. The difficulties which all kinds of tenure-holders had in submitting their returns, preparation of their returns was, as in the case of the estate-holders, in many instances a work of considerable difficulty. The opening of separate accounts in the Collector's and the zemindar's books, and the division and sub-division of the estates and tenures, rendered in preparation of returns by the under-tenure-holders a matter both difficult and complicated, frequently more so than in the case of the estate-holders themselves. In the account is opened by a co-proprietor of an estate, and a separate return is filed by the tenure-holders, and the holders of all kinds of sub-tenures under them again, by which a separate account is opened, and another for the remaining shares. If five

are opened (as they are in estate No. 1720) the tenure-holder has to submit six returns for one and the same tenure. In this case the troubles of the tenure-holder are six times as much as those of the estate-holder. If, again, a separate account is opened by the tenure-holder in the zemindar's books, the trouble attending the preparation of the under-tenure-holder's return is doubled. The opening of separate accounts in the zemindar's books in this district is of pretty frequent occurrence; consequently the under-tenure-holders have as a rule experienced great difficulty in the preparation and submission of their papers. Every circumstance that increases the difficulty of an estate-holder in the preparation of his returns applies with greater force to the tenure-holders of all kinds under him, and their difficulties are further enhanced by the division of tenures and the opening of separate accounts in the zemindar's books. This fact accounts to a large extent for the delay with which in many cases the holders of tenures and under-tenures submitted their returns.

58. One peculiarity of the tenures of this district, to which I would especially draw your attention, is that, of the many grades, often as many as eight, which intervene between the estate-holder and the actual cultivator of the land, several of these grades of tenures are in many cases owned and held by the estate-holder himself. This feature in the tenure of lands is rather common here than otherwise. It is common to find, for instance, the dependant taluq and the subordinate osat-taluq in an estate held by the estate-holder himself. The subordinate howla is held by a second party, and often the nim-howla below it belongs again to the estate-holder. An instance from real facts is cited below:—

Estate No. 1628, proprietors—(1) Afsaruddin, (2) Ataparuddin Chowdhury, (3) Afzal-unnessa, (4) Wazeedunnessa, (5) Mamtazuddin, and (6) Hurannessa.

						Holders.
1st	grade	patni taluq	No 63	Nos. 1 to 4
2nd	„	dar-patni taluq	„ 1	„ 1 to 4 and 6.
3rd	„	nimast taluq	„ 42	„ 1, 3, 4, and 6.
4th	„	howla,	„ 1	„ 1, 3, 4, and 6.
5th	„	osat-howla,	„ 2	Mir Sarwarjan.
6th	„	merash-ijarah,	„ 1	Nos. 1, 3, 4, and 6.
7th	„	Jagobandhu Nag and others.

There are, again, tenures in which all the grades belong to the estate-holder.

59. This peculiarity has its origin in the following circumstances:—

- (i.) At the time of the decennial settlement the greater part of the district was waste, and in order to bring it into cultivation the sooner and the more easily, the proprietors often gave away considerable areas of land on permanent leases. The holders of these, for the same reason, permanently leased away portions of their land to others. The process went on from one grade down to another till the entire estate was split into thousands of tenures. The profits were eaten up by these tenures, and in course of time the estate-holders either ousted the holders or bought them up. The general practice of old was dispossession by violence, and this procedure is by no means abandoned now.
- (ii.) Tenures and sub-tenures have been recently created with a view to provide against decrees, misfortunes, sales, and bad times generally, and to enable the estate-holder to retain his lien on the land, even after the 1st or 2nd grade tenures have been sold or otherwise alienated from him. The manner in which Backergunge zemindars and tenure-holders cling to their land has been compared, not inaptly, to the way in which the Athenian sailors clung to their ships at the battle of Salamis: when they were driven over the side, they hung on by their hands; and when they lost their hands, they hung on by their teeth, and could only be got rid of finally by decapitation.

60. These peculiar features in the land tenures greatly increased our work, for they greatly increased the number of the tenures. But every advantage was taken capable of expediting the submission of the returns. Every estate-holder was required to submit along with the return of his estate returns of all tenures held by himself subordinate to his own estate. Similarly, every holder of a tenure was required to file along with the return of his own tenure papers for all the under-tenures within that tenure belonging to himself. This demand the estate-holders and the tenure-holders cheerfully complied with, and this plan saved us in many hundreds of cases the trouble of issuing notices and the necessity of waiting for the returns for months together. This circumstance enabled us to complete the valuations sooner than would have been possible otherwise. It probably saved us a good year's delay.

61. As has been stated before, the tenures of this district number 278,715; of this 264,813 are in the permanently settled estates, and 13,702 in the temporarily settled mehals. The quantity of work to be done in the road cess office of a district may to some extent be measured by the number of tenures brought under valuation. A comparison of our tenures

with those of other districts and divisions will throw some light on the extremely heavy work that we have had to do here :—

- (i.) In the Presidency Division there are 19,220 tenures in the 24-Pergunnahs, 8,370 in Nuddea, 51,979 in Jessore, and 17,219 in Moorshedabad. We have valued in all 266,044 tenures; and our work, therefore, was nearly 14 times as heavy as that in the 24-Pergunnahs, 33 times as much as in Nuddea, five times as much as in Jessore, 15 times as much as in Moorshedabad, and over $2\frac{1}{2}$ times as heavy as in all the districts of the Presidency Division put together.
- (ii.) In the Rajshahye Division there are 19,935 tenures in Dinagepore, 2,562 in Maldah, 10,171 in Rajshahye, 4,276 in Bogra, 6,174 in Pubna, and 6,107 in Julpigoree. (The number in Rungpore is not known.) Our work, therefore, was nearly 14 times as heavy as in Dinagepore, 125 times as much as in Maldah, 26 times as much as in Rajshahye, 66 times as much as in Bogra, 44 times as much as in each of the districts of Pubna and Julpigoree, and over five times as heavy as in all the districts of the Rajshahye Division put together.
- (iii.) In the Burdwan Division there are 77,015 tenures in Burdwan, 6,651 in Bankoora, 9,052 in Beerbhoom, and 15,201 in Hooghly. (The number in Midnapore is not known.) We had, therefore, to do more than three times as much work as in Burdwan, nearly 44 times as much as in Bankoora, nearly 29 times as much as in Beerbhoom, nearly 17 times as much as in Hooghly, and over twice as much as in all the above districts of the Burdwan Division put together.
- (iv.) In the Dacca Division there are 15,984 tenures in Dacca, 33,527 in Furreedpore including Madaripore, 29,381 in Mymensingh, and 24,813 in Tipperah. Our work, therefore, was nearly 17 times as much as in Dacca, nearly eight times as much as in Furreedpore, nearly nine times as much as in Mymensingh, nearly 11 times as much as in Tipperah, and over twice as much as in all these districts combined.
- (v.) Patna Division.—There are in all 70,733 tenures in all the districts together of the division, with the exception of Shahabad, the number of tenures in which is not yet known. Our work has therefore been more than $3\frac{1}{2}$ times that of all these districts in the Patna Division put together.
- (vi.) There are in all 25,583 tenures in the combined districts of Monghyr, Bhagulpore, and Purneah, in the Bhagulpore Division. We, therefore, had to do nearly 10 times as much valuation work here as in the whole of this division.
- (vii.) In the whole of the Orissa Division there are 34,091 tenures. Our valuation work, therefore, was nearly eight times as much as that in the whole of that division.

62. Of the 252,261 tenures (exclusive of the 12,552 lakhiraj plots worth less than Rs. 5 a year each) on Register II, 67,207 are in the 1st grade, that is to say rents for these tenures are payable directly to the estate-holders; 126,608 are in the 2nd grade, that is their rents are payable to the holders of the 1st grade tenure; 43,826 are in the 3rd grade, the rents of which are payable to their superior holders of the 2nd grade; 10,899 are in the 4th grade, the rents of which are payable to their superior holders of the 3rd grade; 3,099 are in the 5th grade, paying rents as above to the 4th grade tenure-holders; 474 are in the 6th grade, paying rents as above to the 5th grade-tenure-holders; 137 are in the 7th grade, paying rents to the holders of the 6th grade tenures; and 11 are in the 8th grade, paying rents to their superior holders of the 7th grade.

In the khas mohals there are 3,369 tenures in the 1st grade, 6,402 in the 2nd, 2,779 in the 3rd, 805 in the 4th, 310 in the 5th, 81 in the 6th, and 37 in the 7th grade—or 13,783 in all, exclusive of the 119 lakhiraj plots worth less than Rs. 5 a year each.

63. The above figures show more conclusively than any words could do the enormous extent to which subinfeudation has been carried on in this district. But even these figures do not show it to its fullest extent; for, as has been stated before, these figures do not show all the tenures, nor all the grades of tenures, in this district. The fact is there is hardly an estate of any extent here (excepting some of the recently settled khas mohals) which is devoid of sub-tenures. All estates are, as a rule, more or less leased by the proprietors to their tenants, and by the latter to their sub-tenants, and so on from one grade of tenant down to another, until the cultivating ryot is removed by eight or nine steps from the holder of the estate. In this way all estates, especially the bigger ones, are covered, or rather honey-combed, with many thousands of tenures, and the district possesses the abnormally large number of several hundreds of the *sanas* of tenures. As the above figures will have shown, there is not another district in all Bengal, Behar, and Orissa in which subinfeudation has been carried to such an enormous extent as here.

64. As instances of the results we have achieved, under the plan I have described in a previous paragraph, of making the valuation of tenures, I beg leave to quote the following figures:—

Tenures the valuation of which exceeds the rent thereof by 100 times.

1 Number of estates on the towjil.		2 Number of tenures in Registers II and IV.		3 Rent.			4 Valuation.

66. As I have already remarked in my annual report for 1875, we experienced considerable difficulty in this district in serving our notices under sections 6 and 8, and our rolls under section 16, in respect of the smaller estates, owing to the exceedingly defective and almost always erroneous information which was available in the collectorate books regarding their present holders. In the case of the petty estates, the proprietor's column in Register A of the collectorate shews as a rule the names of the holders at the time of the decennial settlement. The almost endless changes among the proprietors which have taken place since then are unrecorded. Also in the case of the larger estates the present holders have not always had their names recorded. The peons, therefore, had in a large number of cases to grope in the dark, and the service of the first notices was in consequence attended with some loss of time and much difficulty.

67. The returns received are in my opinion generally correct and represent very fairly the actual rental of the estates and the tenures to which they refer. In many cases revised returns were received from the holders of estates and tenures in consequence of errors having crept into the returns originally filed by them. This circumstance is a sure evidence of the fact that the landholders of the district are fully alive to the necessity of submitting correct returns, and that they have as a rule given accurate papers. Proper care and diligence were exercised by the Deputy Collector in special charge in making sure that the proper persons filed the returns and that no deception was practised by the people. With the exception of one case, which has been the subject of a separate report, there has not come to light a single instance of deception. In that case the mooktears were duped and deceived by a man who pretended to be the servant of another man, the holder of a howla. No possible care and vigilance on the part of any man could have prevented the occurrence. No case of intentional under-statement of the rental has come to notice, and there is no reason to believe that any such occurred. There is, however, some reason to believe that in some cases the rentals shown in the returns filed in the first stage of our work are in excess of the amounts actually realized, an impression having gained ground in the district among the petty class of holders that the courts would not hereafter allow any enhancement upon the rents which were shown in the road cess returns. This impression has since been corrected, and the later returns are not open to this charge of over-statement of rents.

68. The orders of the Board contained in their letter No. 22A, dated 9th January 1873, require an expression of my opinion on any point connected with the administration of the Act that may appear to me defective, and any suggestions that I may have to offer in connection therewith. In this matter I have, for obvious reasons, but little to say, as all, or almost all, the defects in the Act have been remedied by the orders which the Board issued before its introduction into this district. I may, however, here notice the following points which appear to me to be susceptible of improvement:—

Section 5.—The form of return prescribed in the section requires some slight modifications.

Column 2, Parts II and III.—In addition to the name of the village, the name of the thana ought to be required. There are several villages of the same name in the same pergunnah, and considerable difficulty is often experienced, in the absence of information as

to the thana, in serving notices under sections 6 and 8 for returns of tenures, and in serving the rolls under section 17. Also in Part III a column ought to be added stating the name and thana of the village in which the mál-cutchery is situated. This information is very urgently required in connection with section 17.

Section 6.—The three months allowed by this section for the submission of returns is not required in all cases. In the majority of cases one month is enough, as the returns filed shew in the majority of cases the returns could have been submitted within one month, if not earlier, provided the proprietors of estates and holders of tenures paid sufficient attention to our call. But whatever may have been the reason for allowing this period in the first valuation of the lands of a district, it is certain that in future valuations under section 92 one month should be enough. In the case of the big estates, the Collector will have, as now, discretion to extend the period, and this will prevent any hardship that a shortening of the time might otherwise entail.

Section 17.—Under this section the service of the roll prepared under section 16, either at the mál-cutchery, or, failing the cutchery, at some conspicuous place in the estate or tenure to which it relates, is compulsory. This is very inconvenient; for, as happens in this district, there are hundreds of estates and thousands of tenures upon or in which there is no mál-cutchery at all, and several thousand tenures of which the lands are extremely difficult of identification. These latter are small plots of rice land held by the tenants under a heritable and transferable lease often sub-let to cultivators, but more generally cultivated by themselves. In the latter case, service according to the Act is next to impossible, and in the former it is useless. The service of a notice or of a roll in the estate is useless; for, as experience has shewn, the ryots seldom give intimation of the service to the superior holder concerned. If the ryot do so at all, he does so too late for the proprietor of the estate or the holder of the tenure to prefer his objection, or to prepare and submit his return in time. This defect may be easily corrected by allowing rolls to be served upon the holder of the estate and tenure personally as well as at the mál-cutchery. I am also inclined to think that in the case of very petty tenures, the rent of which is less than a rupee, the necessity of publishing the roll at all according to section 17 should be dispensed with. In such cases the cost of publication exceeds the cess realizable by many times. The publication of the roll in such cases is unnecessary, as, even if the amount of summary valuation be greater than the actual rental, it would not be profitable to the holder of the tenure to prefer an objection, the cost of doing which would be much greater than the cess payable under the summary valuation.

Section 16.—A register of rolls in addition to the valuation statement is both redundant and unnecessary. It is redundant, because the statement gives all the necessary information, and more than all that is to be had in the register of rolls. It is therefore also unnecessary. The register of rolls should therefore be done away with at once.

Section 23.—The provisions of this section are insufficient for the speedy realization of the cess. The procedure prescribed is cumbrous and difficult of application. Experience has shown that the attachment of a zemindar's moveable property, situated out of, and distant from, the sudder station, by a common peon is not feasible, and that, unless the zemindar chooses to pay in the cess voluntarily, the provisions of the Act about attachment of moveable property cannot help us much. The adoption of the alternative provision of the law, viz. the appointment of a tehsildar for the collection of the cess from the ryots of the defaulting estates, is, for obvious reasons, not desirable. Bearing in mind that, under the orders of the Government of India, at least 95 per cent. of the demand must be realized within the year, it is necessary to give better facilities for collecting the tax. It appears to me that a better way would be to render the defaulter's property of all sorts, both moveable and immoveable, liable to attachment and sale in the manner provided in the Civil Procedure Code. If, however, for any reason of policy, such a course does not recommend itself to Government, the provisions of sections 15 and 16 of Act VII of 1868 might be applied to recover arrears. Either of these modes could not fail to enable us to realize the arrears of cess better than we can do now, without causing any great hardship to the estate-holders.

Paragraph 53 of Board's Instructions.—It does not appear that the instruction contained in this paragraph is warranted by the Act; at all events it is vexatious and unnecessary. It seems to me that it cannot be carried out accurately, as, from the returns submitted in the form prescribed in schedule A annexed to the Act, it is next to impossible to shew separately the valuation of lands borne on the revenue-roll of one district, but situated within the local boundaries of another. From the general admixture of lands, and the way in which tenures often consist of land in more districts than one, this cannot, so far as I can see, be done accurately. This provision was I think made with an eye to section 4, which provides that, when the Act is extended to a district, only such immoveable properties as are situated within its local boundaries should be liable to payment of the cess. Originally the Act was not extended to all the districts within the territories subject to the Lieutenant-Governor of Bengal, and I think it was therefore provided by the Board that the valuation of lands situated in a district, other than that on the revenue-roll of which it is borne, should be shown separately, in order that, if the Act had not been extended to it, the people might not be called on to pay. As, however, the Act has now been extended to all the districts in the Lower Provinces of Bengal, this provision is unnecessary. It merely increases work without tangible advantage. It matters little whether a district gains or loses a few hundred rupees, so long as the cess is paid and spent for the object for which it is raised.

69. The expenditure incurred in completing the valuation of the district amounted to Rs. 38,978.

70. I have in conclusion to bring prominently to the attention of the Commissioner the manner in which Deputy Collector Baboo Okhoy Coomar Sen, who was in immediate charge from the beginning to the end of the assessment and valuation of the district under Act X of 1871, has always discharged his most important, responsible, and onerous duty. In organizing, supervising, and directing all the operations he invariably displayed great business capacity, method, intelligence, knowledge of his work, and a persevering laboriousness which deserve both commendation and notice. No ordinary difficulties, as the above report will shew, had to be overcome, and no ordinary labour had to be undergone in introducing Act X of 1871 into Backergunge. This Deputy Collector, in his dealings with the thousands of people, zemindars, and others who came into contact with him, and in his mode of managing his large office, acted throughout with so much tact, discretion, and judgment that the entire business proceeded from first to last without a hitch. I have previously called attention to the manner in which he has done other work, notably to the assistance he gave me on the occurrence of the disastrous cyclone of 31st October last, which devastated large areas of this district. For this he received the thanks of Government. But the successful introduction of the road cess into a district like Backergunge is work of no ordinary magnitude, and will, I respectfully hope, be deemed worthy of special recognition. I trust, therefore, it will not be deemed an act of presumption or unreasonableness on my part to ask you to recommend him to Government for one step of promotion, viz. from the 6th to the 5th grade of Deputy Collectors and Magistrates. It is true that he only became a Deputy Collector and Magistrate on 3rd April 1872; i.e. more than five years ago, but he was for long before that date in the Educational Service.

Deputy Collector Baboo Trailokya Nath Sen was deputed by me in May 1876 to the road cess office, when the work there had overwhelmed the Special Deputy Collector, and gave very valuable assistance in the valuation and assessment of the district for nearly a year. Deputy Collector Baboo Jadoo Nath Chowdhry was prevented, by illness in his family, from joining his appointment here at once. Deputy Collector Baboo Trailokya Nath Sen, although his services elsewhere could ill be dispensed with, was sent to the road cess office in order that his aid might serve to avert an imminent and most serious block in the work and the accumulation of arrears. I am glad to be able to report that he worked hard and well and gave me complete satisfaction.

The services of Deputy Collector Baboo Jadoo Nath Chowdhry next deserve recognition from me. He was specially deputed to this district on road cess duty when the work became quite beyond the control of one Deputy Collector, and joined the office here in October 1876. His previous knowledge of road cess work made his services and assistance very valuable. He was punctual, laborious, intelligent, and generally efficient in the discharge of his duty. He rendered much assistance, and his services fully deserve my commendation.

Not the least important man in the office was the head clerk, Baboo Bhola Nath Dass. The head clerk is, in my opinion, not only an excellent man of business, but well educated and intelligent. He did not only all the duties of a head clerk, but examined himself all the valuation rolls. This latter was of course not only an important and responsible, but a most laborious work, when it is considered that no less than 266,000 valuations were completed. I have always found the head clerk to be a thoroughly efficient, trustworthy, hard-working man. He came with the highest character from the Collector, Mr. Wells, from Furreredpore, where he was road cess head clerk during the valuation and assessment of that district. He has been road cess head clerk here for more than two years, has had most laborious duties to perform, and has done them well. He passed the lower civil service examination in March 1874 in Bengali, surveying, engineering, and drawing, and criminal and revenue laws. Mr. Wells, the Collector of Furreredpore, on 20th February 1873, recommended him to your predecessor for a sub-deputyship. On the 1st March 1876 I endorsed a similar application from Baboo Bhola Nath Dass. I think his services in a very responsible position both here and at Furreredpore, for the long period of six years, and the great assistance he has rendered in introducing the Road Cess Act, should receive some special recognition. I now again beg to recommend him for a sub-deputyship, and I am pretty certain that, if he gets one, he will turn out a hard-working, sensible, and intelligent officer.

I am glad also to be able to state that the great majority of the clerks and mohurirs in the road cess office worked hard and well. I should like to provide for all those who proved themselves really efficient, but unfortunately my means are very limited. I shall be glad if you can give me some help in this direction.

E. J. BARTON,
Offg. Collector.

HEALTH OFFICER'S REPORT FOR THE SECOND QUARTER OF 1877.

No. 3945, dated Calcutta, the 25th August 1877.

From—H. H. RISLEY, Esq., Officiating Under-Secretary to the Government of Bengal,
To—The Chairman of the Corporation of the Town of Calcutta.

IN continuation of the letter from this Office, No. 2775, dated the 4th June last, I am directed to forward a copy of a letter No. 159, dated the 14th August, from the Secretary to the Government of India in the Home Department, containing the observations of the Government of India on the report of the Health Officer of Calcutta for the second quarter of the current year. The letter will be published in the *Calcutta Gazette*.

No. 159, dated Simla, the 14th August 1877.

From—ARTHUR HOWELL, Esq., Officiating Secretary to the Government of India,
Home Department,

To—The Secretary to the Government of Bengal, Judicial Department.

I AM directed to acknowledge your letter No. 3392, dated the 17th ultimo, forwarding the report of the Health Officer of Calcutta for the second quarter of 1877.

2. The chief points worthy of notice in this report are a marked diminution in the prevalence of cholera in the town, and the fact that further precautionary measures, urged by the Health Officer in one of the most fatal months of the disease, were discontinued owing to want of funds. The introduction of the Bombay "Malalcore system" of conservancy, though at first much opposed by the sweepers, seems to have been ultimately carried out with success, and it is hoped that the measure will effect much improvement in the conservancy arrangements of Calcutta.

Dated Calcutta, the 9th July 1877

From—SURGEON-MAJOR ARTHUR J. PAYNE, M.D., Health Officer, Calcutta,
To—The Chairman of the Corporation of the Town of Calcutta.

I HAVE the honor of reporting on the health of Calcutta and on the working of this office during the second quarter of the current year.

In my report on the first quarter of the year, I mentioned that doubt existed concerning registration of births and deaths among certain classes of Asiatic people other than the Hindu and Mussulman communities, and that a full inquiry was in progress. This inquiry was completed in the month of April, and resulted in the removal of the doubt. It was shown that some members of the classes had registered their children as East Indians, others as Mussulmans. Very few births are allowed to take place in Calcutta among the Parsees, who remove women to Bombay in anticipation, and it is only among the Jews that registration has been really evaded. Coercive measures have been necessary with some of this community.

The progress of birth registration in the town generally has been noted in the monthly memoranda. During the first quarter the numbers recorded, though they exceeded considerably those of previous corresponding periods, fell short of those of the later months of 1875 and 1876. Throughout the decade the first three months had been a period of low numbers, but defective records threw doubt on the accuracy of the numbers. There was no reason to suppose that in the first quarter of 1877 registration had been neglected, but it remained for the later months to furnish direct evidence on this point. Accordingly, in April, the birth number rose to 706, and appeared to support a conclusion of few births in the first quarter; but in May a great and sudden fall took place, which is as yet quite unexplained. The Deputy Commissioner of Police made full inquiry through his Inspectors, but nothing was elicited to show that there had been omission; still the number was below that of the last two years, and below even that of the average of the decade. In June there was some recovery, but the number was again much lower than might be expected.

TABLE No. I.

Decennial Statement of Births during the Second Quarter of the year.

BIRTHS IN						April.	May.	June.	Total.
1867	351	341	351	1,043
1868	528	407	609	1,534
1869	440	540	420	1,400
1870	328	397	332	1,057
1871	410	368	348	1,126
1872	345	340	305	990
1873	373	354	300	1,027
1874	317	349	343	1,009
1875	778	606	570	1,954
1876	541	509	566	1,616
Mean numbers	442	429	404	1,275
1877	706	497	491	1,694

The mortality in Calcutta, distinguished, as it must always be, from the mortality of Calcutta, was less during this period than that of the two preceding years, though an average number of deaths occurred.

The course of cholera was very favourable. The number of deaths in April, viz. 184, was one of the lowest on record for that month, as that of March had also been. In May the death number was the lowest on record with two exceptions, and in June the lowest with the single exception of the year 1871, which it exceeded by only five.

There had been very little rain in March, 0·88 inches, against an average fall of 1·8. In April an average quantity fell. In May the average was slightly exceeded, but in June, against an average quantity of 12·5, there fell this year only 4·70 inches.

The deaths ascribed to fever during the quarter were also less than in the two previous years, though above the average of the decade.* Some trouble has been taken to separate from the registers cases which have not seemed to be rightly entered as simple fever, and to transfer them from the zymotic list to the column of "other causes;" and it is possible that in some degree the reduction of number in the one case, and the increase in the other, may be more apparent than real. But uncertainty of diagnosis, as I have said before, renders analysis of the general fever record unprofitable, and forbids inference from ordinary fluctuations. Dysentery and diarrhoea showed an average prevalence. Small-pox was little more than nominally present, and deaths from other causes were higher even than in 1875 and 1876.

TABLE No. 2.

Decennial Statement of Deaths during the Second Quarter of 1877.

During the period in review, advantage has been taken of the prompter information mentioned in my last report respecting deaths from cholera; and it is hoped that before long the occurrence of cases of cholera sickness may be made known as speedily as the deaths. Action, to be effectual in such a case, must be prompt, for in the interval between seizure and death there may be time for much mischief.

Isolated cases of cholera have of course occurred in various parts, whose cause could not be traced; but nowhere has there been a threatened outbreak without the presence and the use of filthy water, nor has there been a single example of the removal of the water which has not been followed by arrest of the disease. Sometimes under direct urgency of disease itself, sometimes from complaints of the people against neighbouring tanks, and in a few instances from surpassing filthiness of the water, the work of evacuation has been carried on to the utmost limit of available means. This limit, unfortunately, was soon reached, and, at the end of April, the Chairman was forced to return my requisition for immediate action, with "no money available" endorsed upon it.

It is possible, under the law, to require the proprietor of a condemned tank to discharge the water and fill the hollow; but a month's notice is necessary for the purpose. If summary proceedings are taken, the cost of them must be borne by the municipality, unless the proprietor take it on himself. In some instances the proprietors have done this; but in many we have been driven to the alternative of issuing notices, and have thus practically abandoned preventive work for the occasion.

Nevertheless the afforded means and opportunities, as far as they have served, have seemed to work to good results. In the North Division of the town the evacuation of 13 tanks, previously commenced, was completed during the quarter, and 33 others were completely emptied. In the South Division the numbers were 17 and 15 respectively, making a total of 78 tanks. Good progress has also been made with the filling in of the hollows. This was completed in 21 cases, and in two others was advancing at the end of June. During the rains the work must be suspended, but disease is also suspended at this time from causes already detailed.

The evidence on which I continue to urge the adoption of these measures is as before, the fact that wherever cholera has prevailed there has been foul water, and where the water

has been removed cholera has diminished. I do not seek to ascribe the greatly reduced cholera of the past season entirely, or even mainly, to the work that has been done. The latter has not been sufficiently extended for such an inference; and although the tanks attacked have been those which were proving themselves to be, on this occasion, the most pernicious, no one can say that the disease which appeared would, if left alone, have grown to an ordinary quantity; nor must it be overlooked that cholera in the suburbs, as far as is yet known, has followed a course which, though less favourable than that of the town, has not been dissimilar in character. The season has been favourable to the entire locality, and it would be as imprudent to affirm a definite effect of the work on the cholera death-rate as it would to deny the apparent value of each operation on the evidence of its sequel.

With regard to the often repeated objection that the entire obliteration of tanks would cause great scarcity of water in the town, it need only be said that there are populous sections where practically no tanks exist, and others where their evacuation has caused no complaint of scarcity. In some places the ground is almost honeycombed with wells, of which thousands exist in Calcutta. Some of these are very filthy, and must be closed; but of those in private enclosures the majority may be left until a more copious supply of pure water shall be obtained. The worst result of the filling of tanks in this respect will be that the poorer classes, who resort to them and poison themselves, will be denied their daily immersion, and compelled to bathe in the manner customary with their wealthier neighbours.

Respecting the use of road sweepings for filling tanks, I find that, for some years past, the Sanitary Commissioner for Bengal, Dr. Coates, has adopted it in all provincial municipalities; and the Officiating Sanitary Commissioner, Dr. Lethbridge, urges its continuance during his incumbency. The practice is common in European towns.

The increase of the supply of filtered water has received much attention during the past quarter, and I believe definite proposals will shortly be placed before the Corporation.

Filtered water-supply.

An important change in the conservancy arrangements of the town has been made during the past quarter in the introduction of what is called the "Halalcore system" of Bombay. It consists in the entire removal of night-soil by paid servants of the municipality, controlled by its officers. This duty has been hitherto very badly discharged by private employes, and very commonly not done at all; while the offence of keeping night soil in houses has passed unpunished, on the plea that householders have paid their mehters for work which they have done or not, as they pleased. The utter inefficiency of the system was well considered by the framers of the new law, and provision was made for the improvement which has now been introduced. That it has been both possible and necessary to include the entire town in a single effort of reform has been due to a determined "strike" of the old mehters, who, having on a former occasion successfully resisted the municipal officers, refused all compromise at the present time.

Removal of night-soil.

Under the existing nominal disposition of work, these proceedings would naturally be reported as a part of conservancy administration under the Engineer. The relation, however, of the subject to the public health is close and obvious; and the enlarged night-soil department has naturally taken its place as an expansion of a small establishment which has existed under the Health Officer for the service of some houses whose occupants have applied for aid, and for the duties of night-soil depôts and certain public latrines. Accordingly, the formation and working of the new department have been entrusted by the Chairman to the Health Officer.

It will be remembered that, under the representations of this office, a committee was appointed some months ago to consider and carry out sanitary improvements in the Toltolla Ward. As a part of this work, it was indispensable to provide for the regular cleansing of latrines. Tola mehters, privately employed, had been scattered through the ward, without order or control; latrines were in a filthy state, either loaded with night-soil or, by slow discharge, converting surface drains into receptacles of ordure, and tanks into cess-pools. The attempt to introduce regularity was made in the manner least calculated to affect the interests of the old mehters. It was not proposed to disturb even their private employment, but to arrange it in a manner which, while it enabled us to fix the responsibility for neglect, should make each mehter's duty easier of performance, by causing him to work within a circumscribed area on which no other mehter would be allowed to trespass.

On the 2nd April the men were assembled and informed of the Chairman's wish that each of them should hold a license for the cleaning of a particular block of houses, for which he was to be responsible, and not the occupier. It was pointed out to him, at the same time, that he was at present working illegally, inasmuch as under section 242 he could not, without a license, continue to be a tola mehter. The proposal was rejected at once, the men stoutly maintaining that they would submit to no change whatever, but would work as they had done hitherto, and in no other way. They were then told not to leave their work, but to do it as before for the present.

The same evening the head mehters met in consultation and organized a strike in every portion of the town except the Hastings section. The strike was carried out in a single night. On the 6th April inquiry was made for the ringleaders, the self-appointed head-men, who had for years been receiving enormous sums of money from the labours of the whole body.

These men were recognised, and on the following day three-fourths of the mehters returned to work, and the rest on the 8th April.

Meanwhile, however, recruiting had of necessity been undertaken on the part of the Corporation, and the work of Toltolla was being gradually done by the recruits. By the 14th April enough men for the Toltolla Ward were collected and they were put in charge of the work; not now under license to be privately paid, but as paid servants of the municipality, that the ward might have full advantage of the law at once, as provided in section 244.

Within three days there was again a strike of the old mehters throughout the rest of the town. Every endeavour was made to induce them to work as they had done, but without effect. The influence of the head-men was too strong, who probably foresaw gradual extension of the Toltolla change and the cessation of their illicit gains. For some time there was inconvenience to householders, and every artifice was adopted by the head mehters to hinder the work of the officers and rouse the Commissioners and the people to resistance. Nevertheless, recruiting proceeded briskly in town, and from outlying districts men came in numbers which far exceeded expectation, though they were met on the road by emissaries of the old mehters, who tried with the utmost ingenuity of falsehood and intimidation to turn them back.

It soon became evident not only that the difficulty would be overcome, but that it would be converted into an opportunity of doing for the entire town what it had only been hoped to accomplish partly in a single ward. The old mehters were still leniently treated to the extent of offering them employment if they would take municipal service. It was no longer necessary to use the very imperfect method of a license; we were strong enough to insist on absolute service and nothing else; and the men's own obduracy had disintituled them to any further concession. Still the head-men, sustained by hope of aid among the Commissioners, persisted, and the movement went on to the entire substitution of a body of paid municipal servants from end to end of the town, and the formation of an establishment of Inspectors for that close supervision of which the want is sorely felt in every branch of municipal work.

There is now a corps of new mehters sufficiently numerous for all purposes, with a reserve against accidents. The precise strength and quality of the establishment which will be permanently required can only be known after a little experience shall have been gained. For the present there is, besides the daily duty of the mehters, much work to be done for the removal of the enormous accumulations of night-soil in the houses of wealthy men, to which I have before drawn attention, but which prosecution, under the old law, has altogether failed to reach. The plea of inability can no longer be advanced, for the Corporation is prepared, at a moderate charge, to do whatever may be necessary.

For the introduction of the new system under sudden and extraordinary emergency; for the conversion of a great difficulty into an opportunity of making a reform which, under ordinary circumstances, would have required many years and many contests to effect; for the recruitment of over sixteen hundred men from the interior, the erection of dwelling-houses for them, the formation of an inspectoral establishment, and the construction of several new night-soil depôts, all within a period of two months, the town is indebted mainly to the unfailing spirit and energy of Mr. C. Dissent, to whom every detail of the work has been entrusted from the beginning, and who has devoted, and still devotes, himself night and day to the task of bringing it to a successful issue.

APPENDIX.

THE working of the establishments controlled by the office is set forth for the past quarter in the following statements.

The undermentioned cases were inquired into, the localities inspected by the officers of the department, reports furnished, and the cases finally disposed of:—

- 11 registry certificates for dangerous and offensive trades granted.
- 24 applications for ditto rejected.
- 130 registry certificates for druggists' shops granted.
- 93 complaints inquired into.
- 312 applications attended to.
- 931 miscellaneous cases disposed of.

Confiscations comprised the following articles, which were all destroyed, with exception of the grain sold to owners of piggeries:—

108lb beef.	900 mds. rice.
67 „ mutton.	150 „ gram.
251 „ fish.	

The total number of cattle of each description slaughtered during the quarter at the slaughter-houses is given below:—

Description of cattle.	April.	May.	June.	TOTAL.
1st class cows	1,057	1,079	1,301	3,337
2nd ditto	3,993	4,998	5,583	14,572
Calves	1,321	1,074	966	3,361
Sheep	5,375	5,511	5,032	15,918
Goats	2,780	2,487	3,078	8,335
Kids	2,577	2,780	2,831	8,188
Total	16,983	17,927	18,691	53,601

The prices of the principal articles of consumption have ranged as follows:—

Mutton in carcase, per lb.		Beef in carcase, per lb.		Rice, per seer.		Dholl, per seer.	Ghee, per seer.	Oil, per seer.	Fuel, per maund.	
First class.	Second class.	First class.	Second class.	Table.	Ballam.	Six kinds, average.	Best.	Mustard.	Firewood.	Charcoal.
Maximum 8 annas, minimum 7 annas - mean 7 annas 6 pie.	Maximum 5 annas 9 pie, minimum 5 annas 3 pie: mean 5 annas 6 pie.	Maximum 3 annas 6 pie, minimum 3 annas: mean 3 annas 3 pie.	Maximum 2 annas, minimum 1 anna 6 pie: mean 1 anna 9 pie.	2 annas to 1 anna 9 pie.	1 anna 6 pie to 1 anna 3 pie.	1 anna 6 pie.	1 rupee.	5 annas 6 pie.	9 annas 6 pie to 8 annas.	1 rupee 4 annas to 1 rupee 8 annas.

The following sums were collected in this department during the quarter:—

MONTH.	Rent of public tatties.	Fees from tola depôts.	Removing night-soil from public institutions.	Removing night-soil from private houses.	Fees for death certificates.	License fees for public tatties.	Rent of fish ghât, S.-W. Lakes.	Slaughter-houses.	Municipal market.	Dhurumtollah bazar.	Grand Total.
	Rs.	Rs. A. P.	Rs.	Rs. A. P.	Rs.	Rs.	Rs.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.

**ABSTRACT OF REPORTS ON DISTRICT STOCKS OF RICE AND MOVEMENTS OF
PRICE IN BENGAL, RECEIVED UP TO THE 28TH AUGUST 1877.**

N.B.—No reliance can be placed on the accuracy of figured estimates of stocks in the interior; at best a rough approximation is all that can be expected.

Burdwan, 25th August 1877.—The supplies of grain at the markets are ample, and prices stationary. Exports from the district during past week were estimated at 40,000 maunds, of which 26,000 were from Raneeunge alone. Export by rail from Burdwan amounted to only 557 maunds.

Bunkoora, 25th August 1877—About 7,000 maunds of rice have been exported from the district during the week.

Beebhoom, 25th August 1877.—The price of common rice ranges from 13 to 17 seers, the average being 15½ seers, which is higher than the price during the previous week. The railway having now resumed carrying, prices will rise, following the Calcutta market. Whilst Calcutta pays highly, the people here will export all their stocks that they can spare and get carriage for. During the previous week ending 18th August, the exports by the East Indian Railway were 28,000 maunds of rice to Calcutta, besides 2,000 maunds by road.

Midnapore, 25th August 1877.—Stocks may be estimated as before, except that every week it is being diminished by exportation. The exportation in July by canal and otherwise was about 10 lakhs of maunds of paddy, the largest ever known. The surplus stock may be estimated at 36 lakhs, which is being reduced at the rate of two lakhs per week.

Hooghly, 25th August 1877.—Stocks in the interior are likely to last about 80 days. Stocks at Chandernagore and other places on the Hooghly are estimated at 95,000 maunds. Exports and imports are going on, but the former exceed the latter. There is a slight rise in the prices; coarse rice is selling at 11 to 12 seers the rupee.

Howrah, 25th August 1877.—In the sudder there is nothing new to report. In Mohesrekha sub-division there has been an inundation in Khanakul, caused by a rise in the Selye or Dwarkeshur river. Four lakhs of maunds of paddy were in store in the sub-division on the 15th instant. Prices had slightly risen and ranged from Rs. 2½ to 3½ per maund. Exportation to Calcutta has not yet commenced on a large scale.

24-Pergunnahs, 25th August 1877.—Rice continues to be exported to Calcutta, and high prices are maintained. The supply of food-grains is considered sufficient everywhere. At Baraset the early rice has made its appearance and is selling at 15 seers the rupee.

Nuddea, 25th August 1877.—Prices remain moderate, and the Collector doubts whether there is any part of the district where a maund of coarse rice is not procurable for Rs. 2-8. The usual price is less.

Jessore, 25th August 1877.—In Bagirhat sub-division the high prices quoted last week still continue; there is no lack of supplies. In Narail prices of common rice have fallen from 11½ to 16 seers per rupee. In Magoora the price is 15 seers per rupee. In Jhenidah there is sufficient stock. In Khoolnah prices have fallen from 14½ to 18 seers. The exports are—Khoolnah 1,958 maunds and Jhenidah 50. The Khoolna river traffic registration office shows 9,029 maunds of rice exported to Calcutta from the district during the week from 15th to 22nd instant.

Moorshedabad, 25th August 1877.—The price of common rice at Berhampore is from 11 to 13 seers, at Lalbagh 12 seers, and at Jungypore from 14 to 16 seers. The prices have an improved tendency, but it will soon be checked by sufficient quantities of the *aus* coming into the market. Export of rice sent to Calcutta is estimated at 30,000 maunds.

Dinapore, 25th August 1877.—The exports during July amounted to 6,61,687 maunds from the district, and in August 1,407 maunds from Chintaman.

Rajshahye, 25th August 1877.—The exports from theseveral marts and gunges during the past week were 8,602 maunds 13 seers. About 1,900 maunds of pulses were exported to Calcutta, 300 maunds to Serajgunge, and 200 maunds to Pubna. The price of common rice varied from 15 seers 6 chittacks to 15 seers. The stock of rice available for export is a little less than 6 lakhs of maunds.

Rungpore, 24th August 1877.—Rice is selling at head-quarters cheaper than last week. In Gaibanda sub-division the stock of rice is stated to be six lakhs, and the amount available for exportation one lakh of maunds.

Bogra, 25th August 1877.—Ascertained exports from the district during the week amounted to 17,650 maunds. The price of rice varies from 15½ to 24 seers per rupee, the quotation at Bogra station being 18 seers.

Pubna, 25th August 1877.—At Pubna sudder station and Serajgunge there has been no change in the price of rice. At Dulai the price is 23 or 24 seers, at Mothoora 20 seers, at Shazadpore and Rygunge 16 seers the rupee. About 1,000 maunds were exported to Calcutta. Dinapore, Bogra and other districts are importing into this district.

Julpigoree, 25th August 1877.—No change in the condition of stocks. Prices are still low at Mynagoree. In the Western Doars common rice is selling at 16 seers. Stock at Boda sufficient for local requirements.

Cooch Behar, 22nd August 1877.—Prices are the same as in last week. No large stocks of rice anywhere in the State, and no exportation is going on at present.

Dacca, 25th August 1877.—Market much the same as last week, and the supply is ample everywhere. Paddy at Mirpore is little dearer. Exports of rice by boat from Naraingunge to Calcutta and Goalundo were 17,180 maunds; only 850 maunds went elsewhere, showing that the pressure in Chittagong, Backergunge, and Noakholly is over. 5,575 maunds of paddy were sent to these districts. 15,000 maunds of rice were exported from Dacca and Naraingunge to Calcutta by the Eastern Bengal Railway.

Furreedpore, 25th August 1877.—Markets continue to be fairly supplied. The average price of common rice is the same as in last week, i.e. 16 seers the rupee. There is very little exportation from the district. The non-agricultural population in the north and middle of the district depend chiefly on rice imported from Bogra, Dinagapore, and Rungpore.

Backergunge.—The price of rice ranges from Rs. 2-10 to Rs. 4 a maund. This high price is due to exportation, which prevailed some time ago, but which is now checked.

Mymensingh, 24th August 1877—Exportation is slack and supply of rice plentiful.

Tipperah, 24th August 1877—The average price of common rice throughout the district is Rs. 2-4 to Rs. 2-10 per maund. Best rice sells for Rs. 2-5 to Rs. 3-4. The stock is about the same as last week. Exports continue to Calcutta and other places in large amounts.

Hill Tipperah, 22nd August 1877.—There is no change in the state of the markets. Supplies continue fully to meet the demand, and the price of coarse rice has fallen to 22 seers at Agurtolla, owing to the new *aus* coming into the market. There has been no exportation to Calcutta.

Chittagong, 16th August 1877.—In the extreme south of the district rice is selling at five and six seers the rupee, but it is hoped this high price is temporary, till the *aus* is fairly in. In other parts the price is twelve to nine and eight seers the rupee. Imports small; exports none. If the rain, which has done much injury to the crops, continues and floods increase, the state of the people will be very bad.

The 18th August 1877.—The heavy rain of the 16th, 17th, and 18th will, the Collector fears, have caused serious additional damage to the *aus*; the country has been flooded heavily, many natives being drowned out of their houses. The Commissioner does not believe that the Collector's fears about the crops are well founded. The rain has damaged the *aus*, but not the *amun*, which is the principal crop. The partial loss of the *aus*, therefore, the appearance of which in the market was expected to lower prices, is not such a grave disaster as the Collector fears.

The 23rd August 1877—Exports none.

Noakholly, 16th August 1877.—Prices are slowly getting easier. Common *aus* sells for 20 seers and *amun* 17 seers a rupee. The markets are badly supplied. There is no exportation from the district; the exportation going on is of rice from other districts which finds its way through Noakholly. Stocks have never been so reduced as during the present year; the rice now found in the marts is chiefly imported from Tipperah and Naraingunge, though Noakholly is well known as a rice-growing district. This is owing to the surplus stock in the south of the district being destroyed by the cyclone and inundation of 31st October and 1st November 1876, and the extensive exportation from the north to Chittagong and Calcutta up to June last. There are now about four lakhs of maunds of rice in the district, which, together with the *aus* now being harvested, will, it is expected, be sufficient for home consumption till the *amun* crop is harvested.

The 23rd August 1877—Prices are about the same as in last week, with a tendency to cheapness. Markets are better supplied. The general condition of the people is getting better owing to the supply of new *aus*. There is no exportation from the district at present.

Chittagong Hill Tracts, 21st August 1877.—Rice is imported in the district from Chittagong by traders and shop-keepers in small quantities, and is now sold at Rungamuttee at Rs. 4-8 to Rs. 5 a maund, at Chingree Rs. 5, and at Fenny from Rs. 2-8 to Rs. 3-8 per maund.

Patna, 25th August 1877.—The prices are fairly low, but with a tendency to rise. The markets are well supplied.

Gya, 25th August 1877.—The prices have been nearly stationary, except in Jehanabad, where they have been cheaper. There have been no exports. There have been some imports of food-grains in the district.

Durbhunga, 24th August 1877.—Prices are much the same as in last week, but with a tendency to tightness as regards rice, and towards easiness as regards millets. There is no exportation, but some importation of food-grain. It may be looked for as certain that this district will supply no grain for export from stocks now in hand till these are replenished by the produce of the next harvest.

Mosufferpore, 25th August 1877.—There is nothing new to report. Very small quantities of grain are being exported.

Sarun, 25th August 1877.—The total stock of food-grains in all the bazars of the district is estimated at 2½ lakhs of maunds. The stock in the Revelgunge, Doorigunge, and Ohupra bazars amount to 48,650 maunds. The export to Calcutta was only 6,000 maunds of wheat. The prices are—wheat 16½ seers, barley 24½, best rice 10, common rice 14½, gram 23½ seers per rupee.

Chumparun, 25th August 1877.—No change in prices and supply of food-grain. No export from eleven principal marts.

Monghyr, 25th August 1877.—The stocks for sale during the week were—rice 8,150 maunds, dhan 2,543, wheat 30,212, barley 756, gram 22,565, rahar 13,062, &c.

Bhagulpore, 26th August 1877.—Supplies plentiful. Only 900 maunds of rice were exported during the week. Prices unchanged from last week.

Purneah, 25th August 1877.—Exports to Calcutta are reported from all the marts. Prices have slightly risen. The continued want of good rain is causing some anxiety. Rice continues to come into the district from Nepal.

Maldah, 25th August 1877.—The average price of rice last week was about 19½ seers. This week it is 18½ seers. There is no exportation worth mentioning.

Sonthal Pergunnah, 26th August 1877.—*Deoghur Sub-division.*—The stock for sale and their prices are—Paddy 56 maunds, at from 26 to 35 seers a rupee; common rice 301 maunds, at from 16 to 18 seers a rupee. *Gpdda:*—Markets well supplied; no export or import. *Rajmehal:*—There are about 15,000 maunds of rice. *Sahibgunge:*—14,000 maunds of rice and cereals. In the other bazars of Rajmehal sub-division there are 15,000 maunds of rice.

Cuttack, 25th August 1877.—Exportation by False Point has been 1,203 maunds (Cuttack). Coarse rice sells from 13 seers in the town, to 24 seers in the outlying parts of the district. Stocks are ample for consumption and exportation at present rate. Cuttack takes five-sixths of the food-grain exports of Sumbulpore, which in the last three years have trebled themselves, amounting now to 43,000 maunds a year. In the last three months 14,000 maunds were received from Sumbulpore, or nearly six times as much as during the same period last year.

Pooree, 23rd August 1877.—Rice is obtainable in all parts of the district. Export to Cuttack by land and the Chilka continues. Price varies from 13½ seers in Pooree city to 21 seers in the extreme north-east.

Balasore, 24th August 1877.—There has been no export from Balasore during the week; 89 cwt. of paddy and 2,508 cwt. of rice were exported to Calcutta from Chandballi, besides a moderate export by land towards Contai. Prices have been very unsteady, the last quotation for clean red rice being Rs. 2 per maund in Balasore, and Rs. 1-15 in Chandballi. Stocks held up for exportation are gradually increasing. There are 2,461 tons of rice in Balasore town and 2,632 tons at Chandballi.

Hazareebagh, 24th August 1877.—The markets are fully supplied with food-grains without alteration of prices. No export from the district.

Loharduggah, 25th August 1877.—The bazars are well supplied with food-grains. Exportation cannot go on from head-quarter's division during the rains, as the pack-bullocks cannot bear exposure in the carriage. From Palamow there has been no unusual exportation.

Singbhoom, 24th August 1877.—The supply of food-grains continues plentiful, and prices have not altered since last report, except at Bellipahari in Dhulbhoom, where rice sells at 20 seers a rupee.

Manbhoom, 25th August 1877.—Export continues, say, at the rate of at least 100 tons a week, chiefly from Purulia and the north of the district. The district is, on the whole, well off for all food-grains. The price of coarse rice in Patoum in the south-west is 32 seers, while at Gobindpore it is 14 to 15 seers per rupee.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 25th August 1877.

No.	District, and date of return.	Rainfall at Sudder Station in inches	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.			
<i>Western Districts.</i>			
BURDWAN DIVN.	1 Burdwan, Aug 25 '77	7.49	Rainfall at Culna has been 7.07 inches, at Cutwa 14.17 inches, at Bood-Bood 4.86 inches, at Rancegunge 4.09 inches, and at Jehanabad 5.02 inches. Paddy crops are doing well. Transplantation of <i>amun</i> paddy is nearly finished. No injury from floods is reported as yet. Fever is prevalent. Cholera is reported in Ookhra.
	2 Bankoora, „ 25 „	2.62	Weather—Showery. Reports from all parts of the district continue favourable.
	3 Beerbhoom, „ 25 „	9.39	Very heavy rain on the 19th and 20th instant. The crops are now everywhere doing well.
	4 Midnapore, „ 25 „	1.00	The rainfall of the week has been generally heavier in the district than at the Sudder station. The <i>aus</i> is a fair average crop, and the prospects of the <i>amun</i> are very good except in the inundated tracts.
	5 Hooghly, „ 25 „	4.68	Alternate rain and sunshine. Heavy rain in the night of the 19th instant. Harvesting of early rice is going on, and transplanting of late rice is almost over. All crops on the ground are doing well. Fever is slightly on the increase.
	Howrah, „ 25 „	3.87	Weather—Seasonable. There has been sufficient rain in all parts of the district. The harvesting of early rice is going on. Some injury to the crops is reported by the sub-divisional officer of Moheshrekha owing to a late flood in the Silye.
<i>Central Districts.</i>			
PRESIDENCY DIVN.	6 24-Pergunnas, Aug. 25 '77	2.87	Weather—Cloudy and rainy, with good intervals of sunshine. Transplantation of late rice is still going on, and the plants already on the ground are getting on well. It would be well for the crops if the rain held off now for a little. The harvesting of early rice and jute has begun. The health of the district is generally good.
	7 Nudda, „ 25 „	6.42	Very heavy rain in many parts of the district. In Koshtoa upwards of 23 inches fell. In the latter part of the week the weather was clear and hot. The heavy rain is said to have done harm to some of the early rice, but the Collector doubts that the damage is considerable. Chillies have suffered from excessive wet in the Choodanga sub-division. The harvesting of early is going on.
	8 Jessore, „ 25 „	7.61	Steady rain every day throughout the week. <i>Aus</i> harvest has been almost entirely gathered in; it will be finished during this month. The yield promised to be a very good one, but was somewhat damaged by heavy rain. A twelve-anna crop may be expected. Prospect of <i>amun</i> rice is good.
	9 Moorshedabad, „ 25 „	8.07	Weather—Seasonable. Very heavy rain at the beginning of the week and followed by sunny weather. 5.32 inches registered at Jungypore up to 23rd instant, and 6.89 inches and 11.51 inches at Rampore Hat and Lalbagh respectively up to 24th. In a few places some damage has been done to the early rice, but it is very small in comparison to the improvement in the prospects of the <i>amun</i> rice crop, which are now decidedly good. Sugarcane and mulberry promise well.
RAJSHAHY AND COOCH BEHAR DIVN.	10 Dinagepore, Aug. 25 „	1.93	There has been some good rain during the week: 4.06 inches registered at Roygunge. State and prospects of the crops are very good. Slight complaints are made of the <i>bhadai</i> being injured by rain, which the Collector believes to be unfounded. There are some complaints also from the eastern thanas of the jute crop not being good.
	11 Rajshahye, „ 25 „	8.18	In the first part of the week there was heavy rain in all parts of the district, and some of the paddy in low lands has been submerged and partially damaged; otherwise the prospects are good. Autumn rice and jute are being cut. <i>Ropa dhan</i> is still being transplanted and has benefited by the rain. Fever is still prevalent throughout the district.
	12 Rungpore, „ 24 „	3.99	Heavy rain with high wind in the first part of the week. On the 21st instant a rather severe shock of earthquake accompanied with a loud rumbling noise was felt at head-quarters, but no damage was done. From the same day the weather has been fair and dry. Rainfall at Gaibanda has been 5.17 inches, and at Kurigram 2.61 inches. State and prospects of all crops continue to be very good. <i>Aus</i> is being reaped and a full outturn is expected. Transplantation of <i>amun</i> is going on very actively. Fever and dysentery are rather common.
	13 Bogra, „ 25 „	2.10	Weather—Rainy during the greater part of the week. The crops are doing well. In Panchbesee and Adamdighi it is reported they have been damaged to a certain extent by the flood and the late high wind.

No.	District, and date of return	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—(Continued.)			
Central Districts			
RAJSHAHY AND COCH BEHAR DIVN.	14 Pubna, Aug. 25 '77	21.98	Weather—Stormy, with heavy rains from the 17th to the 20th instant. A slight shock of earthquake was perceived on the 21st at 5.30 P.M., and from that day the weather has become fine. The harvesting of <i>aus dhan</i> is nearly finished, and the prospects of <i>amun dhan</i> have much improved since the late heavy rains. Fever is very prevalent.
	15 Darjeeling	Return not received.
	16 Julpigoree, .. 25 ..	19	Somewhat more rain has fallen and the temperature is tolerably cool. In the western portion of the district the <i>bhadoi</i> has suffered from want of rain, the loss being estimated at about four annas; in the eastern portion the damage has been slighter. The crop is almost entirely reaped over the whole of the district. The <i>kaimuti</i> transplantation continues, and the prospects are generally favourable. Patgram alone appears to have escaped the recent rain, and the seedlings there are withering.
	Cooch Behar, .. 23 ..	45	Weather—Not very hot; light clouds prevail. The sun is, however, sometimes very powerful. The showers were few and partial. Dew has begun to fall, which is a bad sign for continued rains. A sharp shock of earthquake was felt on the 21st instant at 5 P.M. Rainfall at Mekligunge has been 1.96 inches, and at Mathabhanga 2.16 inches. Report from Dinhatia not received. State and prospects of the crops are not so favourable. The long break in the rain has permanently destroyed the chance of a first-rate harvest. With fair rains there may yet be a fair harvest, and in no part anything like actual scarcity is at present apprehended, but the State will not have much superfluous stock.
Eastern Districts			
DACCA DIVN.	17 Dacca, Aug. 25 '77	6.55	Heavy rain up to the night of the 20th instant. Weather fine since 21st. State and prospects of the crops are still favourable, but the rivers are not rising as they ought. If they do not rise some of the <i>amun</i> will suffer to a certain extent.
	18 Furreedpore, .. 25 ..	7.15	Rainfall at Madaripore has been 8.19 inches. Return from Goalundo not received. The <i>aus</i> crop has been gathered, but only a small quantity has yet been brought into the market. The outturn is believed to be fair, but it is certainly not above the average. The river is again falling, and the <i>baron</i> rice, which depends on inundation more than rain, will suffer if a rise does not shortly take place. No actual damage, however, has yet been done.
	19 Backergunge, .. 23 ..	2.83	Weather—Seasonable and propitious for agricultural operations. In the sub-division of Dakhin Shabazpore three-fourths of the area usually sown with <i>amun</i> rice are believed to be planted up to date and cultivation still continues. The <i>aus</i> crop has been almost harvested. The cattle are generally healthy. Also there is not more than the usual sickness among the inhabitants of the district.
	20 Mymensingh, .. 24 ..	9.75	Weather—Showery during the last few days. Very heavy rain on the 16th, 17th, 18th, and 19th instants, which did damage to the crops. Prospects on the whole are fair.
CHITTAGONG DIVN.	21 Tipperah, .. 24 ..	11.93	Weather—Very rainy throughout the week. 11.68 inches registered at Bishmunbaria. The rice crops are good throughout the district except in thanas Laksham and Hajee-gunge, where there have been floods submerging the crops and damaging them.
	22 Chittagong, .. 23 ..	18.36	Heavy rain in the early part of the week; last two days were fine. Barometer high. The prospects are very bad for the low lands, unless a little more light rain falls to help a second planting of seedlings. Seedlings first planted have been drowned. Upland crops are good.
	23 Noakholly, .. 23 ..	7.59	Weather—Seasonable. On the 17th instant, about midday, a severe storm accompanied with heavy rain passed over the station. The reaping of the early rice and the transplanting of the late rice continue. Public health is fair.
	24 Chittagong Hill Tracts, .. 21 ..	23.01	Weather—Cloudy, with incessant fall of rain throughout the week. The country is unusually overflowed with water, like a regular inundation. The paddy crops on the plains bordering the river are under water; those in early <i>jooms</i> sown on the hills are being gathered, but are much wasted by the rains.
	Hill Tipperah, .. 22 ..	11.38	There was very heavy rain on the 17th instant (5.45 inches) followed by showers during the remainder of the week. The rivers have overflowed and swamped large tracts grown with rice. Both the <i>aus</i> crop, which is being harvested, and the young <i>amun</i> crop will suffer, but not seriously, as the water has run off rapidly. Public health remains good.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.			
PATNA DIV.	25 Patna, Aug 25 '77	·66	In the district the rainfall has been from ·1 to ·2 of an inch. <i>Bhadoi</i> has been benefited and rice seedlings kept alive. Some of the smaller rivers have risen and enabled the ryots to transplant rice on the flooded lands. The Gange and Soane are still very low. Heavy rain is much wanted for the rice crop. Health is good.
	26 Gya, „ 25 „	2 06	Weather—Cooler than last week. Maximum thermometer 95°8' in the shade. ·87 of rain registered at Nowada, ·74 at Jehanabad, and 1·58 at Aurungabad. Transplantation of rice is going on partially. More rain is still much required. Accounts from Nowada are not as cheerful as they were last week. Prospect of the <i>bhadoi</i> crop are fair, though the outturn in places is not expected to exceed eight annas of an average crop.
	27 Shahabad, „ 25 „	·61	Weather—Cloudy and hot. ·36 at Buxar and no rain at Bhubbobah. Rain is urgently needed throughout the district especially in Bhubbobah, where a hot dry wind has absorbed much of the splendid fall of the last week. <i>Bhadoi</i> is very good everywhere except in Bhubbobah, where it was very backward from lack of moisture, and is now reported as suffering from want of rain. Throughout the north of the district it is being gathered and is a full crop. The ryot within the area irrigable from the canals are exceedingly obstinate. The major portion still holds out, and refuses to take water even at 10 annas for the <i>khurreef</i> .
	28 Darbhanga, „ 25 '77	3 66	In the north and centre of the district the prospects continue satisfactory, but in the south, where the rainfall for the last fortnight has been scanty, transplantation of the winter rice is retarded.
	29 Mozufferpore, „ 25 „	1·18	Weather—Hot and occasionally cloudy. In the Sudder sub-division the <i>bhadoi</i> crops are generally doing well, but heavy rain is greatly wanted for the rice crop. In the Seetamurhee sub-division the rainfall of the week has been 3·5 inches, and all crops except <i>murwa</i> are reported to be in fair condition. In the Hajepore sub-division ·45 of an inch of rain has fallen. The prospects of <i>makai</i> are satisfactory, but much rain is wanted for the rice crop.
	30 Sarun, „ 25 „	54	Weather—Cloudy. Occasional slight showers. ·52 of an inch registered at Sewan. Heavy rain still holds off, and no doubt the rice crop must be seriously affected. But in most parts of the district the <i>bhadoi</i> crops have been kept in good condition by the light showers, and from the look of the sky it would seem that heavy rain might fall at any moment.
BHAGULPORE DIV.	31 Chumparun, „ 25 „	1 36	Weather—Cloudy and much cooler. The prospects of the <i>bhadoi</i> are excellent, but more rain is required for the <i>aghani</i> rice, the transplanting of which is being delayed.
	32 Monghyr, „ 25 „	·98	Weather—Generally hot and unseasonable. Very little rain: ·26 of an inch registered at Beguserai and 13 of an inch at Jamui. Rain is required greatly in Jamui and to a less extent in Beguserai. The rice crops will certainly be under eight annas, and may be less.
	33 Bhagulpore, „ 26 „	2 88	Alternate rain and sunshine with easterly wind. The prospects are excellent. Everything is progressing most favourably.
	34 Purneah, „ 25 „	98	Weather—Showery. ·70 of an inch registered at Kissengunge and 1 60 inches at Arrurrah. More rain is required for the winter rice, and unless it fall within the next ten days, not more than three-fourths of the transplanted rice will be got into the ground. The <i>bhadoi</i> is being reaped, and the outturn is from ten to twelve annas.
	35 Maldah, „ 25 „	1·18	More rain in the interior than at head-quarters. A slight earthquake on the 21st instant. State and prospects of the crops continue to be satisfactory, although the annual inundation is excessively deficient.
	36 Sonthal Pergah, „ 26 „	4 32	The best rain of the year fell round Doonka on the 20th and 21st instant—steady, and never very heavy. There has been plenty of rain everywhere. 2·02 inches registered at Deoghur, 3·82 inches at Godda, and 1·8 inches at Rajmchal. It is said that insects have done some mischief, and that some of last year's seed was bad; otherwise the prospects now are quite as good as they can ever be.
ORISSA.			
ORISSA DIV.	37 Cuttack, Aug. 25 „	50	Weather—Cloudy. Scanty rain falling periodically has been sufficient to avert injury. The <i>beali</i> is ripening and is being cut. The late floods did a little damage, but immense good. The Mahanudi is again rising rapidly. Public health is good.
	38 Pooree, „ 23 „	·94	Weather—Hot and occasionally cloudy. There has been slight rainfall in part of the district; ·87 of an inch registered at Khoordah. The flood water passing through sluices, and in many places through breaches of embankments, will do much good to the <i>sarad</i> rice plants, which were suffering from want of rain, but it has proved injurious to the <i>beali</i> crop, which was in ear. Public health is good.
	39 Balaasore, „ 24 „	2·14	Weather—Showery and cloudy. In the north of the district there has been sufficient rain and prospects are fair. In the south the fall has been very scanty, and more rain is much required. The small crop of early rice is promising. Transplantation of late rice is still being carried on where there is sufficient moisture in the fields.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
CHOTA NAGPORE.			
	<i>South-West Frontier Agency.</i>		
40	Hazareebagh, Aug. 24 '77	8.45	Weather seasonable. The rainfall of the week has been general and of great benefit. Transplantation of rice is nearly completed. <i>Bhadoi</i> crops are very good. General health is also very good.
41	Lohardugga, „ 25 „	7.88	The weather has been seasonable in the head-quarters sub-division, and the prospects of the crops are good. Transplantation of paddy is going on. Fever is prevalent. In the Palamow sub-division there was a rainfall of .70 of an inch only during the week ending 21st instant, but it was raining heavily at the time of report, and if this heavy rain continued, the prospects of the crops would be favourable.
42	Singbhoom, „ 24 „	4.09	Weather—Seasonable. The prospects of the crops are very favourable. The district is healthy.
43	Manbhoom, „ 25 „	4.72	Weather—Seasonable. In one or two places in the district there seems to have been a failure of rain. Prospects on the whole are very satisfactory. <i>Bhadoi</i> crops are yielding an average outturn.

Published for general information.

* Fell since 8-28 P.M. of the 20th.

	Inch.
The mean pressure of the seven days	29.712
The average pressure of the corresponding period for 20 years	29.599

	°
The mean temperature of the seven days	80.3
The average temperature of the corresponding period for 20 years	83.0
The extreme variation of temperature during the seven days	16.8
The maximum temperature during the seven days	89.8

	%
The mean humidity during the seven days	90
The average humidity of the corresponding period for 24 years	87

	Inch.
The total fall of rain from 19th to 25th August	2.77
The average fall of the corresponding period for 24 years	3.17
The total fall from 1st January to 25th August	47.43
The average fall of the corresponding period for 24 years	46.66

The mean pressure, temperature, &c, are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard (Newman's No. 86) at the Surveyor-General's Office.

The hygrometric elements are obtained from tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modification of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, *g* gloomy *t* thunder, *d* drizzling.

JOHN ELLIOT, M.A., *Meteorological Reporter to the Government of Bengal,
for Meteorological Reporter to the Government of India.*

PART I.

Orders and Notifications by the Lieut.-Governor of Bengal,
the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

REVENUE AND GENERAL DEPARTMENTS.

NOTIFICATION.

The 21st August 1877.—The following general instructions are notified for the guidance of officers corresponding directly with the Government of Bengal during the time His Honor the Lieutenant-Governor is at Darjeeling:—

As a general rule, all communications should be sent, as usual, to the Secretary's Office in Calcutta; but communications which are urgent, and which can be made complete in themselves, so as not to require reference to papers at the Presidency, may be sent direct to the Secretary with the Lieutenant-Governor at Darjeeling.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

No. 4686A.

GENERAL.—*The 27th August 1877.*—Sir W. J. Herschel, Bart., Magistrate and Collector, Hooghly, is allowed subsidiary leave for a period not exceeding thirty days, with effect from the 8th, instead of from the 12th September 1877, as previously notified.

The 30th August 1877.—Baboo Rai Churn Ghose, Fourth Special Commissioner under the Chota Nagpore Tenures' Act, having resumed charge of his duties on the forenoon of the 1st instant, the unexpired portion of the leave granted to him under the orders of the 23rd April last, is cancelled.

Baboo Rutton Lal Ghose, Deputy Magistrate and Deputy Collector, on leave, is posted to the Sudder Station of Moorshedabad.

The 31st August 1877.—Baboo Soshi Sikur Dutt, Deputy Magistrate and Deputy Collector, Furreedpore, is allowed leave for one month, under the rules in Chapter VII of the Civil Leave Code, with effect from the 3rd September next, or such subsequent date as he may avail himself of it.

The 4th September 1877.—Mr. R. Cornish, Officiating Joint-Magistrate and Deputy Collector, Mozufferpore, is vested with the powers of a Collector under Act VII (B.C.) of 1868.

Mr. C. R. Marindin, Officiating Joint-Magistrate and Deputy Collector, in charge of the Buxar division of the Shahabad district, is vested with the powers of a Collector under Act VII (B.C.) of 1868.

The orders of the 8th ultimo, published in the *Calcutta Gazette* of the 18th idem, transferring Mr. G. C. M. Smith, Deputy Magistrate and Deputy Collector, employed under the Public Works Department, Irrigation Branch, of this Government, to the Rajshahye and Couch Behar Division, are cancelled.

The services of the following officers are placed at the disposal of the Government of Madras for famine relief duty:—

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

ERRATUM.

The 3rd September 1877.—In the Notification under Sections 2 and 70 of the District Road Cess Act, 1871, for the Lohardugga district, published at page 1089 of Part I of the *Calcutta Gazette* of the 22nd August 1877, for the word "September" in line 7, read "August."

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal

NOTIFICATION.

The 30th August 1877.—The following Resolution of the Government of India in the Financial Department is published for general information :—

No. 2067, dated Simla, the 28th July 1877.

RESOLUTION—By the Government of India, Financial Department.

READ—

A letter from the Director-General of Telegraphs in India, to the Secretary to the Government in the Public Works Department, No. 481ET, dated 16th March 1877, submitting a bill for Rs. 13-12 for fees and cost of medicines paid to a private medical practitioner by Signaller A. D'Souza on board the river steamer *Oudh* while he was proceeding on duty from Dhulia to Gowhatty in November 1876.

RESOLUTION.—The Governor-General in Council regrets that this charge cannot be sanctioned, the Government not having undertaken to reimburse to a public servant, who is entitled to the gratuitous attendance of a Government medical officer, or to medicines from a Government dispensary, fees which he may have occasion to pay to a medical practitioner not in the public service, or the cost of medicines which he may purchase privately.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 4th September 1877.—The Lieutenant-Governor of Bengal is pleased to sanction the following alterations in the local jurisdictions of thanas in district Chittagong, with effect from the 1st October 1877 :—

- 1st.—The outposts of Seetakund and Kootubdia, which are at present independent, are made subordinate to thanas Kumira and Mascal respectively.
- 2nd.—The police-station of Oekhia has been removed to Teknaff, and Oekhia converted into an outpost. The Oekhia outpost shall be subordinate to thana Teknaff.
- 3rd.—The independent outpost of Anwarah shall be treated and designated as thana Anwarah, and the dependent outpost of Pakrec shall remain subordinate to Anwarah.
- 4th.—The independent outpost of Juldee shall be treated and designated as thana Juldee, and the dependent outpost of Banskhalee shall remain subordinate to Juldee.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

ROAD CESS NOTIFICATION.

DISTRICT OF PURNEAH.

The 1st September 1877.—It is notified, under Section 75 of Act X (B.C.) of 1871 (the District Road Cess Act), that the Road Cess Committee of the district of Purneah have, under Section 74 of the Act, determined to levy the cesses under that Act for the road cess year commencing from the 1st October 1877 at the following rates, being the maximum rates, and the said rates are published accordingly:—

I. Six pies, or two pice, on every rupee of the annual value of lands under Part II of the Act.

II. The following rates on non-agricultural houses and shops estimated to be of the present value of—

		Yearly Cess.	
		Rs.	A. P.
Not less than Rs. 100, but less than Rs. 500	...	1	0 0
„ 500, „ 1,000	...	3	0 0
„ 1,000, „ 2,000	...	4	8 0
„ 2,000 and upwards, Rs. 3 for every Rs. 1,000 or part thereof of the estimated present value.			

Shops and buildings used for purposes of trade, whose estimated present value is more than Rs. 25 and less than Rs. 100, to pay a yearly tax of one rupee.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 1st September 1877.—Under Section 70 of the District Road Cess Act, 1871, the Lieutenant-Governor is pleased to determine that the month in which the District Committee of Shahabad shall meet to prepare estimates of income and expenditure for the cess year commencing on the 1st October 1877, as in the said section provided, shall be September 1877 in the said district.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 4th September 1877.—Under Section 18, Act VI of 1871, the Lieutenant-Governor has been pleased to direct that from and after the 6th October next the limits of the Raojan Moonsif's jurisdiction in the district of Chittagong shall become conterminous with those of the Raojan thana, as extended in the notification of the Government of Bengal of the 13th instant. From the same date the separate jurisdiction of the Moonsif of Rangoneah will be abolished, and he will become an Additional Moonsif of Raojan, but will ordinarily hold his court at Rangoneah.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 4th September 1877.—The Lieutenant-Governor of Bengal has been pleased to sanction that the portion of the Seetakund Moonsif's remaining after the transfer of thana Mirkasarai to Noakhally, and which is now in the civil jurisdiction of Chittagong, shall be amalgamated with the Chittagong Town Chowkey; and also that the Moonsif of Seetakund be appointed an Additional Moonsif of the Town Chowkey of Chittagong, and do ordinarily hold his court at Kumira, with effect from the 6th October next.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

[First Publication.]

The 3rd September 1877.—The Lieutenant-Governor is pleased to order the publication of the following letter for general information:

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

No. 6A, dated Cuttack, the 23rd August 1877.

From—The Superintendent of Telegraphs, Ganjam Division,
To—The Secretary to the Government of Bengal.

I HAVE the honor to inform you that a telegraph office was yesterday opened at False Point (Jambu location) for the receipt and despatch of messages.

For the present messages addressed to ships at the anchorage will be delivered by post from False Point.

[First Publication.]

The 1st September 1877.—The Lieutenant-Governor is pleased to order the publication of the following Notification for general information.

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

NOTICE TO MARINERS.

(No. 18.)

Bay of Bengal—Coast of Burma.

DESTRUCTION OF KRISHNA SHOAL LIGHT-HOUSE.

Information has been received that the above Screw-pile Light-house has been entirely washed away.

NOTICE.—Steamers must now trust entirely to the deep sea lead when rounding the Baragua Flats, never shoaling under 10 fathoms there or in rounding the Krishna.

When bound for Rangoon, after bringing Alguada Reef Light to bear north 5 miles off, an E. $\frac{1}{2}$ S. course for a distance of 55 miles should put the vessel into 10 fathoms (low water) at 5 miles off the Flats.

Should a current set the vessel only half a point in shore of her course she will get depths of 10 fathoms when only 35 miles from Alguada Light. On the contrary, if strong ebbs from the Irrawaddy delta have swept her half a point off shore, she will not be able to get bottom without stopping the engines.

When well past the Krishna, do not shoal under 6 fathoms till China-Bakeer Light is visible.

[The bearings are magnetic. Variation 2° 15' Easterly in 1877.]

By direction of the Government of India,

A. DUNDAS TAYLOR, Comdr. (late I. N.),

Superintendent, Marine Survey of India.

MARINE SURVEY DEPARTMENT, CALCUTTA, 27TH AUGUST 1877.

This Notice affects the following Admiralty Charts—Gulf of Martaban, No. 823; Bay of Bengal No. 706; Indian Ocean, No. 748b; also Admiralty Light List, India, &c., page 16. No. 96; Marine Survey Department Light List, No. 87; and Taylor's Sailing Directory, Vol. I., page 498.

If this Notice is received on boardship, the substance of it should be inserted on the charts affected by it and introduced into the Sailing Directions to which it relates.

[First Publication.]

The 3rd September 1877.—The Lieutenant-Governor is pleased to order the publication of the following Notification for general information.

A. MACKENZIE.

Offg. Secy. to the Govt. of Bengal.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

NOTICE TO MARINERS.

(No. 17.)

India—Bay of Bengal.

INTERMEDIATE LIGHT-SHIP, ENTRANCE TO RIVER HOOGHLY.

With reference to Notice to Mariners, No. 11 of 1877, issued from this Department information has been received from the Government of Bengal that the "Intermediate" light-ship has been shifted from the position therein notified, and that, as a temporary or experimental measure, it is now placed in the following position:—

Lower Gasper Light-vessel	N. by W. $\frac{1}{2}$ W. 12 miles.
Centre Sangor Sand Buoy	N. $\frac{1}{2}$ E. 5 miles.
Bell Buoy	N. W. by N. $4\frac{1}{2}$ miles.
Upper Reef Buoy	W. by S. $\frac{1}{2}$ S. $6\frac{1}{2}$ miles.
Lower Reef Buoy	S. by W. $8\frac{1}{2}$ miles.

The vessel lies in $6\frac{1}{4}$ fathoms at low-water, and will exhibit the station lights as notified in the above referred to Notice.

[All bearings are magnetic, Variation $2^{\circ} 45' E.$]

By direction of the Government of India,

A. DUNDAS TAYLOR, *Comdr. (Late I. N.),*
Superintendent, Marine Survey of India.

MARINE SURVEY DEPARTMENT, CALCUTTA, 20th August 1877.

This Notice affects the following Admiralty Charts:—Hooghly River, No 136a; Sea face of Sunderbuns, No. 138a, Palmyras Point to Chittagong, No 1681; Bay of Bengal. No. 70a; Indian Marine Survey Chart No. 115: also Admiralty Light List (India), 1877; Indian Marine Survey Light List, 1877; and Taylor's Sailing Directory, Vol. I., page 476.

If this Notice is received on boardship, the substance of it should be inserted on the charts affected by it, and introduced into the Sailing Directions to which it relates.

[First Publication.]

NOTIFICATION.

The 3rd September 1877.—In accordance with the provisions of Section 6. Act VIII of 1876 (the Native Passenger Ships' Act, 1876), it is hereby notified that the Lieutenant-Governor has fixed Calcutta, Chittagong, False Point, Balasore, Dhamra with Chandbally, and Pooree, to be ports from which native passenger ships shall proceed on voyages, or at which they shall discharge passengers.

The following officers, or any assistants authorized by them, have been appointed by the Lieutenant-Governor to exercise or perform the powers and duties conferred or imposed by Sections 7, 8, 18, 20, and 36 of the above-cited Act:—

The Master-Attendant in Calcutta.
The Conservator of the Port in Chittagong.
The Harbour Master at False Point and Pooree.
The Harbour Master at Balasore and Chandbally.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

The 27th August 1877.—The Lieutenant-Governor is pleased to order the publication of the following notification for general information.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

GOVERNMENT OF INDIA,
DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

NOTICE TO MARINERS

No. 16.

Bay of Bengal, Coast of Tenasserim, Mergui Archipelago.

DANGEROUS ROCKS IN FORREST STRAIT.

THE following information has been received from the Commander of the late S. S. *Kurrachee*, recently wrecked on a rocky patch off The Gregorys, in Forrest Strait, Mergui Archipelago.

A sunken rock (Kurrachee Rock), with only 5 feet on it at low water, lies in mid-channel in the following position:—

Centre of Large Gregory	W. by N. $\frac{1}{4}$ N. ;	distant $1\frac{1}{2}$ miles.
South Gregory	S. W. $\frac{1}{4}$ W. southerly ;	" $3\frac{1}{2}$ "
Turret Island	S. E. by S. $\frac{1}{4}$ S. ;	" $7\frac{1}{2}$ "

The rock is a complete pinnacle with deep water close to all round, 7 to 12 fathoms were obtained within a boat's length of the wreck, and 16 fathoms about 100 yards off.

Another sunken rock lies to the north of The Gregorys, and less than two miles to the westward of the beaten track, in the following position :—

Bold promontory of Sullivan's Island	W. by S. $\frac{1}{2}$ S.
North Gregory	S. E. by S. $\frac{3}{4}$ S.
Canister	N. E. $\frac{1}{4}$ N. northerly.

RICHELIEU ROCK OFF KOPAH INLET.

Captain Richelieu, of the Siamese Navy, reports a rock (Richelieu Rock) awash at low water, sometimes breaking heavily. It lies 13 miles due west of Hayes Island, or in lat. $9^{\circ} 20' 30''$ N., long. $98^{\circ} 6' 45''$ E. (Admiralty Chart).

NOTE—As this Archipelago is only partially examined, and several rocks have recently been discovered, great caution is necessary in the navigation.

[The bearings are magnetic. Variation $2^{\circ} 15'$ Easterly in 1877.]

By direction of the Government of India,

A. DUNDAS TAYLOR, Comdr., (late I. N.),
Supdt., Marine Survey of India.

MARINE SURVEY DEPARTMENT, CALCUTTA,
The 17th August 1877.

This notice affects the following Admiralty Charts :—Mergui Archipelago No. 216a, and b : Bay of Bengal No. 70b, and Taylor's Sailing Directory, Vol. I, page 511.

If this notice is received on board ship, the substance of it should be inserted on the charts affected by it, and introduced into the sailing directions to which it relates.

[Second Publication.]

NOTIFICATION.

Dated 28th August 1877.

(1)

Rules for the Examination of, and grant of Certificates of Competency to, Masters, Mates, and Engineers of Vessels under the Merchant Shipping (Colonial) Act, 1869.

HER MAJESTY THE QUEEN, by the following order in Council, dated the 27th June 1876, having been pleased to extend to the presidency of Bengal the provisions of section 8 of the Merchant Shipping (Colonial) Act, 1869, the Lieutenant-Governor is pleased to order the publication of the following rules for the examination of, and grant of certificates of competency to, persons who intend to become masters, mates, and engineers of foreign-going vessels, for general information.

“AT THE COURT AT WINDSOR,

“The 27th day of June 1876.

“Present :

“THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

“WHEREAS by the Merchant Shipping (Colonial) Act, 1869, it is (among other things) enacted, that where the legislature of any British possession provides for the examination of, and grant of certificates of competency to, persons intending to act as masters, mates, or engineers on board British ships, and the Board of Trade report to Her Majesty that they are satisfied that the examinations are so conducted as to be equally efficient as the examination for the same purpose in the United Kingdom under the Acts relating to Merchant Shipping, and that the certificates are granted on such principles as to show the like qualifications and competency as those granted under the said Acts, and are liable to be forfeited for the like reasons and in the like manner, it shall be lawful for Her Majesty, by order in Council—

“(1) to declare that the said certificates shall be of the same force as if they had been granted under the said Acts :

“(2) to declare that all or any of the provisions of the said Acts which relate to certificates of competency granted under those Acts shall apply to the certificates referred to in the said order :

“(3) to impose such conditions and to make such regulations with respect to the said certificates, and to the use, issue, delivery, cancellation, and suspension thereof, as to Her Majesty may seem fit, and to impose penalties, not exceeding fifty pounds, for the breach of such conditions and regulations.

“And that upon the publication in the *London Gazette* of any such order in Council as last aforesaid, the provisions therein contained shall, from a date to be mentioned for the purpose in such order, take effect as if they had been contained in the Act; and that it shall be lawful for Her Majesty in Council to revoke any order made as aforesaid.

"And whereas the Governor-General of India in Council has by an Act, entitled 'An Act for the Amendment of the law relating to Merchant Seamen, No. 1 of 1859,' and the Lieutenant-Governor of Bengal in Council has by an Act, entitled 'The Steam Boat Survey Amendment Act of 1868,' provided for the examination of, and grant of certificates of competency for foreign ships to, persons intending to act as masters, mates, or engineers on board British ships, which certificates are hereinafter denominated Colonial Certificates of Competency, and the Board of Trade have reported to Her Majesty that they are satisfied that the said examinations are so conducted as to be equally efficient as the examinations for the same purpose in the United Kingdom under the Acts relating to Merchant Shipping, and that the certificates are granted on such principles as to show the like qualifications and competency as those granted under the said Acts, and are liable to be forfeited for the like reasons and in the like manner:

"Now, therefore, Her Majesty, in exercise of the powers vested in Her by the said first recited Act by and with the advice and consent of Her Privy Council, is pleased—

"(1) to declare that the said Colonial Certificates of Competency granted by the Lieutenant-Governor of the said British possession of Bengal shall be of the same force as if they had been granted under the said Acts:

"(2) to declare that all the provisions of the said Acts which relate to certificates of competency for the Foreign Trade granted under those Acts, except so much of the 139th section of the Merchant Shipping Act, 1854, and the 10th section of the Merchant Shipping Amendment Act, 1862, as requires the delivery by the Board of Trade to any master, mate, or engineer of a copy of any certificate to which he appears to be entitled as therein mentioned, so much of the third paragraph of the 23rd section of the said last-mentioned Act as requires at the conclusion of a case relating to the cancelling or suspending of a certificate, such a certificate, if cancelled or suspended, to be forwarded to the Board of Trade, and the whole of the provisions of the 4th paragraph of the same section shall apply to such Colonial Certificates of Competency:

"(3) to impose and make the conditions and regulations following, numbered 1 to 10 respectively, with respect to the said Colonial Certificates of Competency, and to the use, issue, delivery, cancellation, and suspension thereof, and to impose for the breach of such conditions and regulations the penalties therein mentioned:—

"Form of Certificate.

"1. Every such Colonial Certificate of Competency shall be on parchment, and as nearly as possible similar in shape and form to the corresponding Certificate of Competency for the foreign trade granted by the Board of Trade under the Acts relating to Merchant Shipping.

"Name of possession to be inserted.

"2. Every such Colonial Certificate of Competency shall have the name of the said possession of Bengal inserted prominently on its face and back.

"Certificates to be numbered consecutively.

"3. Such Colonial Certificates of Competency shall be numbered in consecutive order.

"Lists of certificates granted, cancelled, &c., to be sent to Registrar-General of Seamen.

"4. The Government of the said possession shall furnish the Registrar-General of Seamen in London from time to time with accurate lists of all such Colonial Certificates of Competency as may be granted by the Lieutenant-Governor of the said possession as aforesaid, or as may for any cause whatsoever be cancelled, suspended, renewed or re-issued, and shall also furnish him with duplicates of the applications for examination made by the persons to whom such certificates are granted.

"Three years' domicile or service necessary.

"5. Such Colonial Certificates of Competency shall be granted only to any person who for a period of three years immediately preceding his application for such colonial certificate, or for several periods amounting together to three years, the earliest of which shall have commenced within five years prior to such application, has been domiciled in, or has served in, a ship or ships registered in any part of Her Majesty's Indian dominions.

"Certificates of Competency granted contrary to this regulation shall be regarded as improperly granted.

"Certificates not to be granted when former are cancelled.

"6. Such Colonial Certificates of Competency shall not be granted to any person who may have had a certificate, whether granted by the Board of Trade or by the Government of a British possession, cancelled or suspended under the provisions of the said Acts or of any Act for the time being in force in any part of Her Majesty's dominions, unless the period of suspension has expired, or unless intimation has been received from the Board of Trade, or the Government by whom the cancelled or suspended certificate was originally granted, to the effect that no objection to the grant of such Colonial Certificate is known to exist, or unless a new certificate has been granted to him by such Board or Government; and in the last-named event no such Colonial Certificate of Competency shall be for a higher grade than the certificate so last granted as aforesaid.

"Colonial certificates of competency granted contrary to this regulation shall be regarded as improperly granted.

"Certificates improperly granted may be cancelled without formal investigation."

"7. Any such Colonial Certificate of Competency which appears from information subsequently acquired, or otherwise, to have been improperly granted, whether in the above or in any other respect, may be cancelled by the Lieutenant-Governor of the said possession, or by the Board of Trade in the United Kingdom, without any formal investigation, under "The Merchant Shipping Act, 1854," and the holder of such certificate shall thereupon deliver it to the Board of Trade or the Lieutenant-Governor of the said possession, or as they or either of them may direct, and in default thereof shall incur a penalty not exceeding fifty pounds in the United Kingdom, or five hundred rupees in India, which shall be recoverable in the same manner as penalties imposed by the Acts relating to Merchant Shipping are thereby made recoverable.

"Cancellation, &c., of a Certificate shall involve cancellation of all the other Certificates possessed by its owner."

"8. Every decision with respect to the cancellation or suspension of a certificate pronounced by any Board, naval or other court, or tribunal under the provisions of the said Acts, shall extend equally to all the Colonial Certificates at the time possessed by the person in respect of whom the decision is made, as well as to all certificates granted to him under any of the Acts relating to Merchant Shipping, and whether such certificates be specified in such decision or not.

"Certificates believed to be fraudulent may be demanded."

"9. Any officer of the Board of Trade, or the Registrar-General of Seamen, or any of his officers or a superintendent of a mercantile marine office, or a consular officer, or duly appointed shipping officer in a British possession, may demand the delivery to him of any such Colonial Certificate of Competency which he has reason to believe has been improperly issued, or is forged, altered, cancelled, or suspended, or to which the person using it is not justly entitled, and may detain such certificate for a reasonable period for the purpose of making inquiries respecting such issue, forgery, alteration, cancellation, suspension, or possession; and any person who, without reasonable cause, neglects or refuses to comply with such demand shall incur a penalty not exceeding twenty pounds, or two hundred rupees, which shall be recoverable in the same manner as penalties imposed by the Acts relating to Merchant Shipping are thereby made recoverable.

"Suspended Certificates to be re-issued only by Colony by which originally granted."

"10. Any such Colonial Certificates of Competency which has from any cause been cancelled or suspended, whether by a tribunal in Bengal or elsewhere, shall be renewed or re-issued only by the Lieutenant-Governor of Bengal.

"This order shall take effect in the said possession of Bengal from and after the date hereof.

"C. L. PEEL."

INTRODUCTORY RULES.

I. CANDIDATES are to apply to the Master Attendant for the application paper to be examined, form EXN2. The printed instructions contained on it are to be strictly attended to, to prevent delay; it should be returned with testimonials as early as possible, when each form will be numbered consecutively, and the candidate informed of the date and hour he is to appear for examination.

II. Candidates are required to appear punctually at the time appointed for examination.

III. Candidates undergoing examination will be allowed only the books and paper found for their use; any infraction of this rule will subject the offender to all the penalties of a failure.

IV. Candidates spoiling or defacing any of the books belonging to the Board will be required to replace such books: examination papers will be detained till this is done; further, the defaced books will not be removed.

V. Candidates discovered in copying from another, or affording assistance, or giving information, or in any way communicating with another, will be subject to a failure.

VI. Candidates will not be allowed slates or waste paper to work their problems on.

VII. Candidates will not be allowed to leave the room until they have handed in their papers.

VIII. Candidates will be allowed to work out the problems by the methods and tables they have been accustomed to use. The time allotted is five hours; if then unfinished, they have failed.

IX. Candidates will use the hourly difference given in the Nautical Almanac to correct the declination and equation of time. Corrections by inspection, such as tables IX, XI, and XXI of Norie's Epitome, and as given in many works on navigation, will not be allowed: every correction must appear on the examination papers.

X. Candidates will bring their answers to all problems within one mile of position of correct results:—in finding the longitude by chronometer the logarithms used in finding the hour angle should be taken out for seconds of arc; in all other problems the logarithms to the nearest minute will be sufficiently correct.

XI. Candidates are enjoined to request their Commanders, when granting them testimonials, to note character, sobriety, experience, ability, and conduct during the time they may have served with such Commander; and applicants not producing them will not be examined.

XII. Testimonials of service of foreigners, and of British seamen serving in foreign ships, must be confirmed either by the Consul of the country to which the ship belongs, or by some recognized official of that country, or by some creditable person on the spot having personal knowledge of the facts requiring to be established; and

XIII. In cases where there is doubt, the applicants will have to prove to the Master Attendant, by the articles of the ship or official log-book, the verification of their services, or they will not be considered qualified.

XIV. Candidates will not be considered qualified unless they can prove themselves to have been domiciled in India for at least three years.

FOR CERTIFICATES OF COMPETENCY FOR FOREIGN-GOING SHIPS.

Rules for Qualifications.

A Second Mate must be seventeen years of age, and must have served four years at sea.

An Only Mate must be nineteen years of age, and have served five years at sea.

A First Mate must be nineteen years of age, and have served five years at sea, of which one year must have been as either Second or Only Mate.

A Master must be twenty-one years of age, and have served six years at sea, of which one year must have been as First Mate and one year as Second Mate.

Rules for examination.

1. THE forms used in working the various problems in navigation will be in all essentials facsimiles of those in use by the Board of Trade.

2. The Examiners will inscribe on candidates' examination papers the words "passed" or "failure."

3. If a candidate fails in navigation three times, he will be turned back for three months; should he fail in seamanship, he will not be re-examined until after a lapse of six months. In all cases of failure the candidate must be re-examined *de novo*.

4. A Second Mate, in navigation, must write a legible hand and understand the first five rules in arithmetic and the use of logarithms. He must be able to work a day's work complete, including bearings and distance of the port he is bound to by Mercator's sailing, to correct the sun's declination for longitude, to find the latitude by meridian altitude of the sun, and to work such other easy problems of a like nature as may be put to him. He must understand the use of the sextant, be able to observe with it and read off the arc. He must be acquainted with the International Code of Signals for the use of all nations.

In seamanship, he must give satisfactory answers as to the rigging and unrigging of ships, stowing of holds, &c.; must understand the measurement of the log-line, glass, and lead-line; be conversant with the rule of the road as regards both steamers and sailing vessels, and the lights and fog-signals carried by them.

5. An Only Mate, in navigation, must, in addition to the qualifications required for a Second Mate, be able to observe and calculate the amplitude of the sun and deduce the variation of the compass therefrom, and be able to find the longitude by chronometer by the usual methods: he must know how to lay off the place of the ship on the chart, both by bearing of known objects and by latitude and longitude; he must be able to determine the error of a sextant, and to adjust it; also to find the time of high-water from the known time at full and change.

In seamanship, in addition to what is required for a Second Mate, he must know how to make and unmake and to keep a clear anchor; to carry out an anchor, to stow a hold, and to make the requisite entries in the ship's log-book. He will also be questioned as to his knowledge of the use and management of the mortar and rocket-lines in the case of the stranding of a vessel, as explained in the official log-book.

6. A First Mate, in navigation, must, in addition to the qualifications required for an Only Mate, be able to observe azimuths and compute the variation, compare chronometers and keep their rates, and find the longitude by them from an observation of the sun, to work the latitude by a single altitude of the sun of the meridian, and be able to use and adjust the sextant by the sun. He will also give written answers to as many questions under the head of definitions as the Examiners may mark for that purpose.

In seamanship, in addition to the qualifications required for an Only Mate, a more extensive knowledge of seamanship will be required, as to the shifting of large spars and sails, managing a ship in stormy weather, taking in and making sail, shifting yards and masts, &c., getting heavy weights, anchors, &c., in and out, casting a ship on a lee-shore, and securing the masts in the event of accident to the bowsprit.

7. A Master; in navigation, in addition to the qualifications required for a First Mate, must be able to find the latitude by a star, &c. He will be asked questions as to the nature of the attraction of the ship's iron upon the compasses, and as to the method of determining it; he will be examined in so much of the tides as is necessary to enable him to shape a course, and to compare his soundings with the depths marked on the chart; he will also, in addition to giving written answers to questions on definitions, give written answers to at least eight of the questions in form EXN7.

In seamanship, in addition to the qualifications required for a First Mate, he will be examined as to his competency to construct jury-rudders and rafts, and as to his resources for the preservation of the ship's crew in the event of wreck. He must possess a sufficient knowledge of what is required to be done by law as to entry and discharge, and the management of his crew, and as to penalties and entries to be made in the official log-book, and of a knowledge of the measures for preventing and checking the outbreak of scurvy on boardship. He will be questioned as to his knowledge of invoice, charter party, Lloyd's Agents, and as to the nature of bottomry, and he must be acquainted with the leading lights of the coast and channels he has been accustomed to navigate or which he is going to use.

The fees to be paid by candidates for certificates of competency for foreign-going ships will be—for Second Mate ten rupees, First Mate and Only Mate, if previously possessing an inferior certificate, five rupees, if not, ten rupees; Master twenty rupees on their applying to the Master Attendant for the form EXN2; and in the event of the candidate failing to pass, half the fee he has paid will be returned to him with his testimonials, on his producing to the Clerk, Local Marine Board, form EXN17, which will be given him by the Examiners. If the candidate passes, he will have given him form EXN16, on which he will get his certificate of competency, together with his testimonials, from the Master Attendant. The fee for the renewal of any certificate will be five rupees.

Voluntary Examination in Steam.

Masters, First and Only Mates, who are possessed of a certificate of competency, or entitled to such certificates, will be allowed voluntary examinations in the practical knowledge of the use and working of the steam-engine. Any Master or Mate desirous to be examined in steam must deliver to the Master Attendant a statement, in writing, to that effect upon form of application EXN2; if the applicant has a certificate of competency, such certificate must be delivered with his statement; if he is about to pass an examination for a certificate of competency at the same time, the applications should be sent in together.

The examination will be *vidæ roce* and extend to general knowledge of the practical use and working of the steam engine, and the various valves, fittings, and pieces of machinery connected with it. Intricate theoretical questions on calculations of horse power, or area of cylinders and valves, or any of the more difficult questions which appertain to steam-engines and boilers, will not be asked. The examination, in fact, will be confined to such questions as a Master of a steam-vessel may be called on to perform in a case of death, incapacity, or delinquency of the Engineers. If the applicant fails to answer some few of the questions, but shall, in the opinion of the Examiner, have a sufficient knowledge to perform the work in view, the Examiner shall exercise his discretion as to whether he has a sufficient knowledge or not. The Examiner will provide drawings and working sections, on a sufficiently large scale, of the various parts of a steam-engine and of the valves and slides, &c., as may be necessary, and will require the applicant to make use of them in giving his answers to the various questions; should an opportunity offer, the applicant will be permitted, under the guidance of the Examiner, to start and stop the engines of some vessel which may have steam up. A fee of ten rupees must be paid by the applicant for his examination in steam. If he fails, his certificate will be returned to him, but no part of his fee will be returned. If he passes, the form EXN16 will be given him, and the Master Attendant will write the words "passed in steam," with date, place, and number on the certificate and its counterpart; the former, with testimonials, will be returned to the applicant.

Examination of Engineers.

Certificates of competency will be granted to those persons who pass the requisite examination and otherwise comply with the requisite conditions.

2. The same introductory rules are to be observed by Engineers in making application to be examined, and in forwarding testimonials, &c., &c., &c., as in the case of applications by Masters and Mates.

For a Certificate of Competency as Second Class Engineer.

A candidate must be twenty-one years of age.

A.—He must have completed the usual apprenticeship on shore and have been employed two years as an Engineer or Engine-driver, at least one year of which must have been at sea in the engine-room of a steamer.

B.—He must be able to give a description of the boilers, and the method of staying them, together with the use and management of the different valves, cocks, pipes, and connections.

C.—He must be able to state how a temporary or permanent repair could be effected in case of derangement of part of the machinery, or of a total break-down.

D.—He must understand the use of the barometer, thermometer, hydrometer, and salinometer.

E.—He must state the cause, effects, and usual remedies for incrustation and corrosion.

F.—He must write a legible hand and understand the first five rules of arithmetic and decimals.

G.—He must be able to pass a creditable examination as to the various constructions of paddle and screw-engines in general use, and as to the details of the different working parts, external and internal, with the use of each part.

H.—He must be able to make rough working drawings of the different parts of the engines and boilers.

For a Certificate of Competency as First Class Engineer.

A candidate must be twenty-two years of age, and in addition to the qualifications required of a Second Class Engineer—

A.—He must have served at sea for not less than one year in the capacity of a Second Class Engineer with a Second Class Engineer's certificate, or in a higher capacity.

B.—He must be able to make rough working drawings of the different parts of the engines and boilers.

C.—He must also be able to take off and calculate indicator diagrams.

D.—He must be conversant with surface condensation, superheating, and the working of steam expansively.

E.—He must also be conversant with the principles of the different kinds of compound engines.

F.—He must be able to calculate safety-valve pressures and the strength of the boiler.

G.—He must be able to explain the method of testing and altering the setting of the slide valves, and of testing the fairness of the paddle and screw shafts, and of adjusting them.

H.—He must be able to state the general proportions borne by the principal parts of the machinery to each other.

In addition to the above, every candidate will have to prove by his testimonials his service, character, sobriety, experience, ability, and conduct; and no candidate not showing his character for sobriety will be allowed to pass on any pretext whatever.

Examination and Fees.

The *viva voce* examination will be directed specially to the foregoing points, and also to the duties and business of an Engineer generally.

2. If the candidate passes the *viva voce* examination creditably, a set of questions will be given him to work out.

3. A candidate will be allowed six hours to work out these questions, according to the methods he has accustomed to use; and

A.—If at the expiration of the time allowed he has correctly worked out the whole of the questions set him, he will be declared to have passed.

B.—If at the expiration of the time allowed he has not worked out the whole of the questions set him, but if the result of the *viva voce* examination, taken in connection with the answers to such of the questions as he has worked out, are sufficient to satisfy the Examiners that the applicant is competent, he will be declared to have passed.

C.—In other cases he will be declared to have failed.

4. If the applicant passes he will receive form EXN16 from the Examiners, on which he will get his certificate of competency, with his testimonials, from the Master Attendant. If the applicant fails, half the fee will be returned to him by the clerk on his producing form EXN17, which will be given him by the Examiner. Applicants may be re-examined *de novo* after a lapse of three months.

5. The fees are as follows, viz for second class certificate of competency, fifteen rupees; first class certificate of competency, twenty rupees. The fee for the renewal of any certificate will be five rupees.

(2.)

Revised Rules for the Examination of, and grant of Certificates of Competency to, Masters, Mates, and Engineers of Vessels under the Indian Acts.

IN supersession of the rules published at page 1387 of the *Calcutta Gazette* of 28th July 1869, and at page 1817 of the *Calcutta Gazette* of 11th October 1871, the following revised rules under section 10 of Act I of 1859, passed by the Legislative Council of the Government of India, for the examination of, and grant of certificates of competency to, persons who intend to become Masters and Mates of Home trade ships, or who wish to procure certificates of service, and under section 8 of Act I of 1868, passed by the Lieutenant-Governor of Bengal in Council, for the examination of, and grant of certificates of competency to, persons who intend to become Engineers of steamers, are published for general information.

GENERAL.

1. WHEN a home trade ship is engaged in voyages that require a knowledge of navigation on the part of the Master and Mates, they must hold certificates of competency under the rules applying to foreign trade ships. The following rules apply only to the Masters and Mates of ships making local coasting voyages:—

Rules for Home Trade Coasting Ships.

I. CANDIDATES are to apply to the Master Attendant for the application paper to be examined, form EXN2. The printed instructions contained on it are to be strictly attended to, to prevent delay; it should be returned with testimonials as early as possible, when each form will be numbered consecutively, and the candidate informed of the date and hour he is to appear for examination.

II. Candidates are required to appear punctually at the time appointed for examination.

III. Candidates undergoing examination will be allowed only the books and paper found for their use; any infraction of this rule will subject the offender to all the penalties of a failure.

IV. Candidates spoiling or defacing any of the books belonging to the Board will be required to replace such books; examination papers will be detained till this is done; further, the defaced books will not be removed.

V. Candidates discovered in copying from another, or affording assistance, or giving information, or in any way communicating with another, will be subject to a failure.

VI. Candidates will not be allowed slates or waste paper to work their problems on.

VII. Candidates will not be allowed to leave the room until they have handed in their papers.

VIII. Candidates will be allowed to work out the problems by the methods and tables they have been accustomed to use. The time allotted is five hours; if then unfinished, they have failed.

IX. Candidates will use the hourly difference given in the Nautical Almanac to correct the declination and equation of time. Corrections by inspection, such as tables IX, XI, and XXI of Norie's Epitome, and as given in many works on navigation, will not be allowed: every correction must appear on the examination papers.

X. Candidates will bring their answers to all problems within one mile of position of correct results: in finding the longitude by chronometer the logarithms used in finding the hour angle should be taken out for seconds of arc; in all other problems the logarithms to the nearest minute will be sufficiently correct.

XI. Candidates are enjoined to request their Commanders, when granting them testimonials, to note character, sobriety, experience, ability, and conduct during the time they may have served with such Commander; and applicants not producing them will not be examined.

XII. Testimonials of service of foreigners and of British seaman serving in foreign ships must be confirmed either by the Consul of the country to which the ship belongs, or by some recognized official of that country, or by some creditable person on the spot, having personal knowledge of the facts requiring to be established; and

XIII. In cases where there is doubt, the applicants will have to prove to the Master Attendant, by the articles of the ship or official log-book, the verification of their services, or they will not be considered qualified.

Qualifications and Rules for Examination for Certificates of Competency for Home Trade Passenger Ships.

A MATE must be nineteen years of age, and must have served four years in a home trade or other vessel; he must write a legible hand and understand the first four rules in arithmetic; he must know and understand the rule of the road, and describe and show that he understands the Admiralty Regulations as to lights and fog-signals; he must be able to take a bearing by compass, and prick off the ship's course on a chart; he must know the marks on the lead-line and be able to mark and heave the log; and he must possess a knowledge of handling a sailing vessel.

A Master must be twenty-one years of age, and must have served six years in the home trade or other vessels, of which one year must have been as mate of a home trade vessel.

In addition to the qualifications required for a Mate, he must show that he is capable of navigating a ship along any coast,—for which purpose he will be required to draw upon a chart produced by the Examiners the courses and distances he will run along shore from headland to headland,—and to give, in writing, the courses and distances corrected for variation and the bearings of the head-lands and lights, and to show when the courses should be altered either to clear any danger or to adapt it to the coast. He must understand how to make his soundings according to the state of the tide, and he must be acquainted with the lights of the coast and channels he has been accustomed to navigate, or those which he is going to use. He will further be required to handle a sailing vessel. He will also be questioned as to his knowledge of the use and management of the mortar and rocket-lines in the case of the stranding of a vessel, as explained in the official log-book.

Note.—The International Code of Signals will form part of every candidate's examination in navigation, and the Examiners will have a small set of flags, &c., for use in the Board room.

The fees to be paid by candidates for certificates of competency for home trade passenger ships, will be for Mate five rupees and for Master ten rupees, on their applying to the Master Attendant for the form EXN2; and in the event of the candidate failing to pass, half the fee he has paid will be returned to him with his testimonials, on his producing to the Clerk, Local Marine Board, form EXN17, which will be given him by the Examiners. If the candidate passes, he will have given him form EXN16, on which he will get his certificates of competency, together with his testimonials, from the Master-Attendant.

Voluntary Examination in Steam.

Masters, First and Only Mates, who are possessed of a certificate of competency, or entitled to such certificates, will be allowed voluntary examinations in the practical knowledge of the use and working of the steam-engine. Any Master or Mate desirous to be examined in steam must deliver to the Master-Attendant a statement, in writing, to that effect upon form of

application EXN2: if the applicant has a certificate of competency, such certificate must be delivered with his statement; if he is about to pass an examination for a certificate of competency at the same time, the applications should be sent in together.

The examination will be *visd voce* and extend to general knowledge of the practical use and working of the steam-engine, and the various valves, fittings, and pieces of machinery connected with it. Intricate theoretical questions on calculations of horse-power, or area of cylinders and valves, or any of the more difficult questions which appertain to steam-engines and boilers, will not be asked. The examination, in fact, will be confined to such questions as a Master of a steam-vessel may be called on to perform in case of death, incapacity, or delinquency of the Engineers. If the applicant fails to answer some few of the questions, but shall, in the opinion of the Examiner, have a sufficient knowledge to perform the work in view, the Examiner shall exercise his discretion as to whether he has a sufficient knowledge or not. The Examiner will provide drawings and working sections, on a sufficiently large scale, of the various parts of a steam-engine and of the valves and slides, &c., as may be necessary, and will require the applicant to make use of them in giving his answers to the various questions; should an opportunity offer, the applicant will be permitted, under the guidance of the Examiner, to start and stop the engines of some vessel which may have steam up. A fee of ten rupees must be paid by the applicant for his examination in steam. If he fails, his certificate will be returned to him, but no part of his fee will be returned. If he passes, the form EXN16 will be given him and the Master-Attendant will write the words "passed in steam," with date, place, and number on the certificate and its counterpart; the former, with testimonials, will be returned to the applicant.

Certificates of Service.

Act I of 1859, Section 12.—Certificates of service, differing in form from certificates of competency, shall be granted as follows (that is to say):—

(1) Every person who, before the passing of this Act, has served as Master in the British Merchant Service, or as Master of any foreign-going ship registered under Act X of 1841, or who has attained or shall attain the rank of Lieutenant, Master, Passed Mate or Second Mate, or any higher rank in the service of Her Majesty or of the Indian Government, shall be entitled to a certificate of service as Master of foreign-going ships.

(2) Every person who, before the passing of this Act, has served as Mate in the British Merchant Service, or as Mate of any such ship as aforesaid, shall be entitled to a certificate of service as Mate for foreign-going ships.

(3) Every person who, before the passing of this Act, has served as Master or Mate of a home trade ship of a burden exceeding three hundred tons shall be entitled to a certificate of service as Master or Mate (according to such previous service) for such home trade ship.

And each of such certificates of service shall contain particulars of the name and of the length and nature of the previous service of the person to whom it is delivered; and the local Government, or such other authority (Master-Attendant) as aforesaid, shall deliver such certificates of service to the various persons respectively entitled thereto, upon their proving themselves to have attained such rank or to have served as aforesaid, and upon their giving a full and satisfactory account of the particulars aforesaid.

Section 13.—No foreign-going ship or home trade ship of a burden exceeding three hundred tons shall go to sea from any port in India, unless the Master, and one officer besides the Master, have obtained and possess valid and appropriate certificates either of competency or service under this Act or under the Merchant Shipping Act, 1854; and whoever, having been engaged to serve as Master or Mate, goes to sea as aforesaid as such Master or Mate without being at the time entitled to, and possessed of, such a certificate as hereinbefore required, and whoever employs any person as such Master or Mate without ascertaining that he is at the time entitled and possessed of such certificate, shall for each offence be liable to a penalty of five hundred rupees.

Section 14.—Every certificate of competency for a foreign-going ship shall be deemed to be of a higher grade than the corresponding certificate for a home trade ship, and shall entitle the lawful holder thereof to go to sea in the corresponding grade in such last-mentioned ship; but no certificate for a home trade ship shall entitle the holder to go to sea as Master or Mate of a foreign-going ship.

Section 15.—All certificates, whether of competency or service, shall be made in duplicate, and one part shall be delivered to the person entitled to the certificate, and the other shall be kept and recorded as the local Government shall direct (by Master-Attendant). A note of all orders made for cancelling, suspending, altering, or otherwise affecting any certificate in pursuance of the powers herein contained shall be entered in the record of certificates.

Section 16.—Whenever any Master or Mate proves to the satisfaction of the local Government, or such other authority as aforesaid, that he has, without fault on his part, lost or been deprived of any certificate already granted to him, a copy of the certificate to which, by the record so kept as aforesaid, he appears to be entitled shall be delivered to him and shall have all the effect of the original.

The fee for a certificate of service, or the renewal of any certificate, will be five rupees.

Examination of Engineers.

1. No steam-vessel shall obtain a clearance to proceed to sea for any port in British India, and no steam-vessel shall ply on any of the rivers or waters within the provinces subject to the Lieutenant-Governor of Bengal, and no steam-vessel coming within the meaning of this Act

(Act I of 1868, B.C.) or of Act V of 1862 (B.C.), shall be permitted to run or ply without having in charge of the engines thereof an Engineer possessing a certificate of competency or a certificate of service, provided that small river steam-boats or ferry steamers, with engines not exceeding 50 nominal horse-power, shall be permitted to run or ply on condition of having in charge of their engines a certificated native engine-driver.

2. Certificates of competency will be granted to those persons who pass the requisite examination and otherwise comply with the requisite conditions.

3. The same introductory rules are to be observed by Engineers in making application to be examined, and in forwarding testimonials, &c., &c., &c., as in the case of applications by Masters and Mates.

For a Certificate of Competency as Native Engine-driver.

I. Such certificates of competency will be granted only to those persons who possess the qualifications hereinafter detailed and otherwise comply with the requisite conditions.

II. Applications for such certificates of competency are to be made to the Master-Attendant, who will appoint Examiners to test the qualifications of candidates under the following rules.

III. A candidate for a certificate of competency under these rules must have attained the age of twenty-two years.

IV. He must have been three years principal native serang or tindal in the engine-room of a steamer; or have been for three years in charge of the engine of a factory or mill under a European manager or Engineer, as well as one year principal native serang or tindal in the engine-room of a steamer under a certificated Engineer.

V. He must pass a *viva voce* examination before the Board of Examiners as to the working of an engine and the use of its different parts.

VI. He must have the testimonial, shown in one of the appendices to this code of rules, filled up by the Engineer with whom he has last served, or his other testimonials must contain all the particulars therein required.

VII. He must be able to show his practical qualifications by one week's trial in a Government steamer, after fulfilling the other tests to which he will be subjected.

VIII. The fee for examination under these rules will be fifteen rupees, and the amount must be remitted with the application to the Master-Attendant. If a candidate fails, half the fee he has paid will be returned to him by the Master-Attendant.

IX. Such certificates will be granted by the Master-Attendant in the form prescribed in one of the appendices to this code.

X. In case of failure, candidates may be re-examined *de novo* after a lapse of six months, if the past examination showed that they might reasonably be expected to qualify.

For a Certificate of Competency as Second Class Engineer.

A candidate must be twenty-one years of age.

A.—He must have completed the usual apprenticeship on shore and have been employed two years as an Engineer or Engine-driver, at least one year of which must have been at sea in the engine-room of a steamer.

B.—He must be able to give a description of the boilers and the method of staying them, together with the use and management of the different valves, cocks, pipes, and connections.

C.—He must be able to state how a temporary or permanent repair could be effected in case of derangement of part of the machinery, or of a total break-down.

D.—He must understand the use of the barometer, thermometer, hydrometer, and salinometer.

E.—He must state the cause, effects, and usual remedies for incrustation and corrosion.

F.—He must write a legible hand and understand the first five rules of arithmetic and decimals.

G.—He must be able to pass a creditable examination as to the various constructions of paddle and screw engines in general use, and as to the details of the different working parts, external and internal, with the use of each part.

H.—He must be able to make rough working drawings of the different parts of the engines and boilers.

For a Certificate of Competency as First Class Engineer.

A candidate must be twenty-two years of age, and in addition to the qualifications required of a Second Class Engineer—

A.—He must have served at sea for not less than one year in the capacity of a Second Class Engineer with a Second Class Engineer's certificate, or in a higher capacity.

B.—He must be able to make rough working drawings of the different parts of the engines and boilers.

C.—He must also be able to take off and calculate indicator diagrams.

D.—He must be conversant with surface condensation, superheating, and the working of steam expansively.

E.—He must also be conversant with the principles of the different kinds of compound engines.

F.—He must be able to calculate safety-valve pressures and the strength of the boiler.

G.—He must be able to explain the method of testing and altering the setting of the slide valves, and of testing the fairness of the paddle and screw shafts, and of adjusting them.

H.—He must be able to state the general proportions borne by the principal parts of the machinery to each other.

In addition to the above, every candidate will have to prove by his testimonials his service, character, sobriety, experience, ability, and conduct; and no candidate not showing his character for sobriety will be allowed to pass on any pretext whatever.

For a Certificate of Competency as a Voluntary Extra First Class Engineer.

1. A candidate for this, the highest grade of certificate granted by the Bengal Government, must be in possession of a first class certificate of competency.

2. He must possess a through knowledge of the construction and working of marine engines and boilers in all their parts, and be so far acquainted with the elements of theoretical mechanics as to comprehend the general principles of the working of the machine.

3. He must understand how to apply the indicator and draw the proper conclusions from the diagrams.

4. He must be acquainted with the principles of expansion, and able to prove, or at least to illustrate, the use of the expansion gear.

5. He must be able to draw rough sketches of any part of the machinery, with figured dimensions, fit to work from.

Examination and Fees.

The *vivâ voce* examination will be directed specially to the foregoing points, and also to the duties and business of an Engineer generally.

2. If the candidate passes the *vivâ voce* examination creditably, a set of questions will be given him to work out.

3. A candidate will be allowed six hours to work out these questions, according to the methods he is accustomed to use; and

A.—If at the expiration of the time allowed he has correctly worked out the whole of the questions set him, he will be declared to have passed.

B.—If at the expiration of the time allowed he has not worked out the whole of the questions set him, but if the result of the *vivâ voce* examination, taken in connection with the answers to such of the questions as he has worked out, are sufficient to satisfy the Examiner that the applicant is competent, he will be declared to have passed.

C.—In other cases he will be declared to have failed.

4. If the applicant passes, he will receive form EXN16 from the Examiners, on which he will get his certificate of competency, with his testimonials, from the Master Attendant. If the applicant fails, half the fee will be returned to him by the Clerk on his producing form EXN17, which will be given him by the Examiner. Applicants may be re-examined *de novo* after a lapse of three months.

5. The fees are as follows, viz. for second class certificate of competency fifteen rupees; first class certificate of competency twenty rupees; voluntary extra first class certificate of competency thirty rupees. The fee for a certificate of service, or the renewal of any certificate, will be five rupees.

Certificate of Service.

Every person being twenty-two years of age, who, before the passing of this Act (Act I of 1868), has served for not less than one year as First or Only Engineer in any steam-vessel, or who has attained, or shall attain, the rank of First Assistant Engineer in the service of Her Majesty, provided he has not been dismissed for drunkenness or other gross misconduct, shall be entitled to a certificate of service.

(3)

Rules for the Appointment of a Board for the Examination of Masters, Mates, and Engineers of Vessels.

THE following rules for the appointment of a qualified Board for the examination of Masters, Mates, and Engineers of vessels, which have received the approval of the Governor-General in Council and were published by this Government in the *Calcutta Gazette* of the 31st May 1876, are republished for general information.

RULES.

THE Examination Board for conducting the examinations for granting certificates of competency to seamen shall be constituted as follows:—

1. Senior Officer of the Royal Navy present, for the time being, at the head-quarters of the Marine Survey Department, shall be *ex-officio* Examiner in navigation, provided that he be an officer of the navigating branch of the Royal Navy, and of not lower rank than a Staff Lieutenant.

2. (a)—The Examiners in seamanship shall be three experienced masters who have been recently in successful command of merchant vessels. These may be selected either from the commanders of vessels lying in the port of Calcutta or from the surveyors of shipping in the port.

(b)—They shall be appointed by the Lieutenant-Governor, on the nomination of the Master-Attendant.

(c)—The permanent President of the Seamanship Examiners shall be the Deputy Master-Attendant.

3. (a)—Three Engineers shall be appointed by the Lieutenant-Governor, on the nomination of the Chief Engineer of the Dockyard, as Examiners in steam. These will usually be selected from the Superintending Engineers of the different steam companies in the port.

(b)—The Chief Engineer of the Dockyard shall be the permanent President of the Engineer Examiners.

4. The examinations shall be held quarterly, on the first Monday of January, April, July, and October, or on the first open day thereafter, if the day fixed should be an authorized holiday.

5. The Examiners shall receive the following fees for each examination :—

				Rs.
Seamanship Examiners	32 each.
Engineer Examiners	32 „

NOTICE TO MARINERS.

(No. 15.)

Sindh Coast—Kurrachee.

1.—ALTERATION IN MANORA POINT LIGHT.

With reference to Notice to Mariners, No. 1, of 20th March 1877, on the intended alteration in Manora Point light,—

The Harbour Authorities at Kurrachee have further notified that, on the 15th August 1877, the present light will be discontinued and the new *revolving* light exhibited, which will attain its greatest brilliancy every two minutes, and be visible from a distance of 20 miles in every direction seaward.

Position.—Lat. $24^{\circ} 47' 21''$ N. ; long. $66^{\circ} 58' 15''$ E.

Red Sea—Coast of Arabia.

2.—DISCOVERY OF A BANK NEAR TOWAK ISLAND.

The *Hydrografische Nachricht* No. 6 of 1877, announces that the Master of the Austrian Lloyd's steamer *Oreste* reports having touched on a bank, not shown on the Admiralty Charts, which, according to his statement, lies about two miles north-east of Towak Island in the Red Sea in lat. $16^{\circ} 19' 30''$ N., and long. $42^{\circ} 38'$ E. The bank extends one cable in an east and west direction, and has a depth of 13 feet over it.

By direction of the Government of India,

A. DUNDAS TAYLOR, *Comdr. (late I. N.)*,*Superintendent, Marine Survey of India.*

MARINE SURVEY DEPARTMENT, Calcutta, 8th August 1877.

(1) This notice will affect the following Admiralty Charts:—Kurrachee harbour, No. 40; Indus tidal channels from Manora Point to Kaha river, No. 41; Sindh and Kutch coasts, No. 42; Maskat to Kurrachee, No. 38; Kurrachee to Vingorla, No. 826; and Indian Ocean, northern portion, No. 748b; also Admiralty list of lights in South Africa, East Indies, &c., 1877; the West Coast of Hindostan Pilot, page 237; the Supplement to the Persian Gulf Pilot, page 24; the Indian Marine Survey Light List, 1877, No. 10; and Taylor's Sailing Directory, Vol. I., pages 309 and 334.

(2) Red Sea, Khor Nowarat, &c., No. 8d; Red Sea, No. 2523; and Juba Islands to Maskat, &c., No. 98; also Admiralty Red Sea Pilot, page 190; and Taylor's Sailing Directory, Vol. I., page 177.

If this notice is received on board ship, the substance of it should be inserted on the charts affected by it, and introduced into the sailing directions to which it relates.

[Third Publication.]

NOTIFICATION.

The 17th August 1877.—Under Section 2 of the District Road Cess Act, 1871, the Lieutenant-Governor is pleased to direct that the cesses leviable under the said Act shall take effect in the district of Lohardugga from the 1st October 1877.

Under Section 70 of the aforesaid Act, the Lieutenant-Governor is pleased to determine that the month in which the District Committee shall meet to prepare estimates of income and expenditure for the cess year commencing on the 1st October 1877, as in the said section provided, shall be September 1877 in the said district.

This declaration is made under Section 6 of Act X of 1870 to all whom it may concern.

The land plans of the above portion of the Railway can be seen at the office of the Executive Engineer, Somastipore division, at Mozufferpore on any day, Sundays and holidays excepted, between the hours of 11 A.M. and 5 P.M.

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

JUDICIAL DEPARTMENT.

No. 4685A.

The 29th August 1877.—Baboo Upendra Chandra Ghose, Extra Moonsif of Barripore, 24-Pergunnahs, is transferred to the Sudder Station of that district, for employment at Sealdah and Alipore, with effect from the 15th August 1877.

The 1st September 1877.—The name of Baboo Hurry Mohun Sen, who was appointed an Honorary Magistrate for the Naraingunge Bench, in the district of Dacca, under orders of the 2nd May 1877, is removed from the list of Honorary Magistrates for that Bench, as he has left the station.

Mr. J. C. Lloyd, temporary Sub-Deputy Collector of Khoolnah, in Jessore, is vested with the powers of a Magistrate of the Third Class.

The 3rd September 1877.—Baboo Rampershad, Second Subordinate Judge of Patna, on deputation to Mozufferpore, is allowed leave for one month and eighteen days, under the rules in Chapter VII of the Civil Leave Code, with effect from the 17th August 1877.

The 4th September 1877.—The Moonsif of Kudwah, in the district of Purneah, is also appointed to be Additional Moonsif of Arrareah, in that district.

Baboo Srigopal Chatterjee, M.A., B.L., is appointed to officiate as Second Moonsif of Nassirnuggur, in the district of Tipperah, from the re-opening of the Civil Courts after the ensuing Dusserah vacation, during the absence, on leave, of Baboo Joygopal Sinha, or until further orders.

LEAVE OF ABSENCE TO MOONSIFS.—*The 4th September 1877.*—Baboo Joygopal Sinha, Second Moonsif of Narsinuggur, in the district of Tipperah, is allowed leave of absence for two months and 15 days, under the rules in Chapter VII of the Civil Leave Code, with effect from the 7th October 1877, or from such subsequent date as he may avail himself of it.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 29th August 1877.—It is hereby notified for general information that the Lieutenant-Governor has been pleased to extend Section 34 of Act V of 1861 (an Act for the regulation of police) to the Municipality of Serajgunge, in the district of Pubna.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 29th August 1877.—The following bye-laws, framed by the Municipal Commissioners of Colgong at a meeting, under Section 313, Act V (B.C.) of 1876, having been confirmed by the Lieutenant-Governor under Section 314 thereof, are hereby published for general information:—

For Regulating the Time and Mode of Collecting the Taxes.

Every officer authorized to grant receipts shall be provided with a certificate of his authority to collect, and every certificate shall bear the seal of the Municipality and the signature of the Chairman. Every collecting officer at the time of demanding payment shall show his certificate, if required.

2. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish, shall send such schedule or return to the office of the Commissioners within two weeks from the date of service of the requisition, in the manner described in section 367 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs 5 for the omission, and to a penalty not exceeding one rupee for every day the omission shall, after warning, continue. Any person submitting a false or incorrect schedule or return shall be liable to a penalty not exceeding Rs. 20, provided that nothing in this bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code, should the facts appear to warrant such a proceeding.

3. Payment of purchase-money for the property sold, and delivery of the property, shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer, at his discretion, to sell the property again on the same day or any other day; and the first purchaser shall in such case be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

For Regulating the Conduct of Persons Employed by the Commissioners.

4. All persons employed by the Commissioners whose services may be no longer required shall be liable to discharge after receipt of previous notice or pay in advance for the period of one month, and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

5. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix; and any person failing to furnish such security within reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment and may be removed from office.

For Regulating the Disposal of Offensive Matter, Rubbish, and Dead Bodies of Animals.

6. Every person within whose premises any animal may die shall, within four hours after its death, or, if death occurs at night, within two hours after daylight, either remove at his own expense the carcass to such place as may be set apart by the Commissioners for the reception of such carcass, or report its death to the conservancy overseer of the division, and in such latter case shall pay to the said overseer the expense of removing the carcass at such a rate as the Commissioners may determine; and in cases in which the said person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense, and such expense shall be recoverable as a debt due to the Commissioners. No overseer, when called upon, shall neglect to remove a carcass.

Penalty for infringement, not exceeding Rs. 10.

7. No person shall deposit, or cause to be deposited, any carcass, or any part of a carcass, in any place other than such places as may from time to time be appointed by the Commissioners for the reception of such carcass.

Penalty for infringement, not exceeding Rs. 10.

For Regulation and Management of Privies.

8. Every owner or occupier of any house, land, or premises from which offensive matter is not removed by the said owner or occupier shall give free access to the servants of the Municipality to his house, land, or premises, for the removal of any night-soil or filth, within such hours as may have been fixed on by the Municipal Commissioners.

Penalty for infringement, not exceeding Rs. 5.

9. On receipt of a notice from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well-privy, or other noxious or improperly constructed privy may be situated shall fill up, close, or otherwise alter the construction of the said privy as may be directed in the notice; and if the orders contained in the notice be not carried out within 15 days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expense incurred in so doing shall be recoverable as a debt due to the Commissioners.

10. No owner or occupier of any house, land, or premises in or on which any privy may be situated shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, water-course, river, tank, hollow, or excavation, or any place containing waste or stagnant water.

Penalty for infringement, not exceeding Rs. 20.

11. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cesspool into any river, tank, khal, water-course, or receptacle for water, or dispose of the above-mentioned kinds of offensive matter, in any other way than as the Municipal Commissioners may from time to time direct.

Penalty for infringement, not exceeding Rs. 20.

12. The Municipal Commissioners may direct the use of lime, coal-tar, carbolic acid, or other deodorants or disinfectants in any privy or premises; if at any time it seem to them necessary for preservation of public health, or for the prevention of infection or spread of disease: provided that the Municipal Commissioners shall be bound to supply such deodorants, &c., at cost price, and the price shall be recoverable as a debt due to the Commissioners.

13. No person shall carry night-soil through the streets otherwise than in a closely covered receptacle, of such description and pattern as shall be required from time to time by the Municipal Commissioners, and between such hours as the Municipal Commissioners may from time to time direct.

14. No person shall perform any office of nature in any place outside private premises other than such as may have been appointed by the Commissioners, provided that such places have been set apart by the Commissioners.

Penalty for infringement, not exceeding Rs. 5.

15. No person shall build, or cause to be built, or keep after prohibition by the Commissioners, any latrine, privy, cesspool, or urinal within 10 feet if constructed of bricks, and 20 feet in other cases, of any public road or street or in any compound so small as not to admit of that distance being maintained.

Penalty for infringement, not exceeding Rs. 10; penalty for continued infringement after notice, not exceeding Rs. 3 daily.

For Regulating Traffic in the Streets.

16. Every carriage or cart plying on the streets after one hour after sunset shall carry a light or lights.

Penalty for infringement, not exceeding Rs. 3.

17. No owner of any carriage shall allow it to be driven by a driver under 14 years of age.

Penalty for disobedience on the owner's part, not exceeding Rs. 5.

Regulating or prohibiting the use of Fire-balloons, Fire-works, Fire-arms, or any other missile in the vicinity of Public Roads.

18. No one shall let off any fire-balloons, fire-works, fire-arm, or any missile in or near a public street without the consent of the Municipal Commissioners previously obtained.

Penalty for infringement, not exceeding Rs. 10.

GENERAL BYE-LAWS.

19. No person shall put, or cause to be put, on any house or other building, any spout or other thing intended for the conveyance and discharge of water which shall be so placed that the water discharged therefrom shall be thrown or fall upon any public road or thoroughfare, and the Commissioners shall have power to take down and alter any such spout now in existence, and to recover the costs as a debt due to the Commissioners.

Penalty for infringement, not exceeding Rs. 5.

20. No person shall construct, or place over, or by the side of any public drain any bridge, platform, building, or structure of any kind, except by, and with the written permission of, the Commissioners, and in such manner as they shall direct.

Penalty for infringement, not exceeding Rs. 10; and penalty for continued infringement after notice, not exceeding Rs. 3 daily.

21. If any house, wall, or other erection, or any part thereof, fall upon any public highway or into any public drain, the owner of such house, wall, or erection shall remove it after notice within the time prescribed by the Commissioners.

Penalty for infringement, not exceeding Rs. 10; penalty for continued infringement after notice, not exceeding Rs. 3 daily.

22. No person shall prepare any channel or convey water by any channel across any public thoroughfare, except in such manner as shall have been first approved by the Commissioners.

Penalty for infringement, not exceeding Rs. 10; penalty for continued infringement after notice, not exceeding Rs. 2 daily.

23. No person shall steep in any river, khal, tank, or ditch within municipal limits, any jute, hemp, bamboos, or other vegetable matter likely to render the water of such river, khal, tank, or ditch offensive or noxious to the neighbourhood.

Penalty for infringement, not exceeding Rs. 5; penalty for continued infringement after notice, not exceeding Rs. 2 daily.

24. No person shall, without the written permission of the Commissioners, set up any obstruction in any nullah or water-course, and the Commissioners may order the removal of any such obstruction on grounds of public health.

Penalty for infringement, not exceeding Rs. 10; penalty for continued infringement after notice, not exceeding Rs. 2 daily.

25. The owner or occupier of any part of the bank of any nullah or water-course shall keep it free from filth, dense vegetation or other obstruction, and shall at times allow the Commissioners, or any of their servants duly authorized, to have access to such nullah or water-course for any purpose of public conservancy.

Penalty for infringement, not exceeding Rs. 10; penalty for continued infringement after notice, not exceeding Rs. 5 daily.

26. No person shall let loose, or cause, or allow to be let loose, or allow to get loose, any diseased or worn-out animal on any highway or into any place whence such animal can escape into any highway.

Penalty for infringement, not exceeding Rs. 5.

27. No person shall bury, or cause to be buried, any corpse, or part of a corpse, in any burial ground in a grave constructed of masonry in such manner that the top of the coffin, or the body where no coffin is used, shall be at a less depth than five feet from the surface ground.

Penalty for infringement, not exceeding Rs. 10.

28. No person shall bury, or cause to be buried, in any burial ground any corpse, or part of a corpse, in a grave not constructed of masonry which shall be less than six feet deep.

Penalty for infringement, not exceeding Rs. 10.

29. No person shall build or dig, or cause to be built or dug, any grave in any burial ground at a less distance than two feet from any other existing grave.

Penalty for infringement, not exceeding Rs. 10.

30. No person shall build or dig, or cause to be built or dug, a grave in any burial place in any other line than that marked out by the Commissioners.

Penalty for infringement, not exceeding Rs. 20.

31. No grave once used shall be opened for the burial of another body without the permission of the Commissioners.

Penalty for infringement, not exceeding Rs. 20.

32. No one shall carry a corpse, or part of a corpse, through any highway, unless it be decently covered and totally concealed from public view.

Penalty for infringement, not exceeding Rs. 5.

33. No person shall picket animals, or collect carts, or form any encampment upon any public ground without the permission of the Commissioners.

Penalty for infringement, not exceeding Rs. 5.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 18th August 1877.—It is hereby notified that the Lieutenant-Governor has been pleased, under the provisions of Section 321, Act V (B.O.) of 1876, to withdraw, from the 1st September 1877, the Union of Patuakhali, in the district of Backergunge, from the operation of Chapter III of the said Act.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 21st August 1877.—It is hereby notified for general information that, on the recommendation of the Commissioners of the Municipality of Kendraparah, in the district of Cuttack, at a meeting, the Lieutenant-Governor has been pleased, under Section 234 of Act V (B.C.) of 1876, to authorize the extension to that Municipality from the 1st September 1877 of the provisions of Sections 251 and 252, 257 to 260, and 278 to 284 of Part VII Chapter II of the said Act.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 13th August 1877.—It is hereby notified, under the provisions of Section 15 of Act V of 1861, that the villages of Deotula, Bhyjoora, Karaitollah, Koochnichora, Talleshur Sonbaria, Jaffurkhali, Amtolee, and Bamna, in the Perozepore sub-district, in the district of Backergunge, being in a disturbed and dangerous state owing to the existence of disputes regarding the possession of lands and the collection of rents, the Lieutenant-Governor has sanctioned, with effect from 1st August 1877, the employment for three months of a special police force consisting of one Sub-Inspector, three head-constables, and fifteen constables to be quartered at the said villages. The cost of the force noted below will be assessed and levied from the inhabitants of the villages in proportion to their respective means:—

Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 25th August 1877.—Under Act I (B.C.) of 1876, the Lieutenant-Governor is pleased to appoint Moulvi Fuzlur Rahman to be the Marriage Registrar of the Kamariya sub-district, in the district of Chittagong.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 16th August 1877.—The following Bye-laws, framed by the Municipal Commissioners of Balasore at a meeting, under Section 313, Act V (B.C.) of 1876, having been confirmed by the Lieutenant-Governor under Section 314 thereof, are hereby published for general information :—

For Regulating the Time and Mode of Collecting the Taxes.

1. Every officer authorized to grant receipts shall be provided with a certificate of his authority to collect, and every such certificate shall bear the seal of the Municipality and the signature of the Chairman. Every collecting officer at the time of demanding payment shall be bound to show this certificate, if required.

2. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish shall send such schedule or return to the office of the Commissioners within one week from the date of the service of the requisition, in the manner described in section 367 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs. 5 for the omission, and to a penalty not exceeding Rs. 2 for every day the omission shall, after warning, continue. Any person submitting a false or incorrect schedule or return shall be liable to a penalty of Rs. 20, provided that nothing in this bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code, should the facts appear to warrant such a proceeding.

3. Payment of purchase-money for property sold, and delivery of the property, shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer, at his discretion, to sell the property again on the same or any other day, and the first purchaser shall in such case be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

For Regulating the Conduct of Persons Employed by the Commissioners.

4. All persons employed by the Commissioners whose services may be no longer required shall be liable to discharge after the receipt of previous notice or pay in advance for the period of one month; and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

5. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix; and any person failing to furnish such security within a reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment, and may be removed from office.

For Regulating the Disposal of Offensive Matter, Rubbish, and Dead Bodies of Animals.

6. Every person within whose premises any animal may die shall, within four hours after its death, or, if death occurs at night, within two hours after daylight, either remove at his own expense the carcass to such place as may be set apart by the Commissioners for the reception of such carcass, or report its death to the town daroga; and in such latter case, shall pay to the said daroga the expense of removing the carcass at such rate as the Commissioners may determine; and in cases where the said person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense, and such expense shall be recoverable as a debt due to the Commissioners. The daroga, when called upon, shall not neglect to remove a carcass.

Penalty for infringement, Rs. 10.

7. No person shall deposit, or cause to be deposited, any carcass, or any part of a carcass, in any place other than such places as may from time to time be appointed by the Commissioners for the reception of such carcass.

Penalty for infringement, Rs. 10.

8. No person shall carry night-soil through the streets otherwise than in a closely-covered receptacle of such description and pattern as shall be required from time to time by the Municipal Commissioners, and between such hours as the Municipal Commissioners may from time to time direct.

For Regulating Traffic in the Streets.

9. No person shall drive any vehicle of any description at any time between the three-quarters of an hour after sunset and one hour before sunrise without a sufficient light, except when there may be sufficient moonlight to render such light unnecessary.

Penalty for infringement, Rs. 5.

10. No owner of any carriage shall allow it to be driven by a driver under 14 years of age.

Penalty for disobedience on the owner's part, Rs. 10.

11. No elephant or camel shall at any time be taken through any of the principal streets without the written permission of the Chairman or Vice-Chairman.

Penalty for infringement, Rs. 50.

For the Regulation and Management of Privies.

12. Every person shall construct his privy above ground, and shall provide his privy or premises with a suitable moveable receptacle of metal or earthenware.

Penalty for infringement after notice, Rs. 20.

13. Every owner or occupier of any house, land, or premises from which offensive matter is not removed by the said owner or occupier shall give free access to the servants of the Municipality to his house, land, or premises, for the removal of any night-soil or filth, within such hours as may have been fixed on by the Municipal Commissioners.

Penalty for infringement, Rs. 5.

14. On receipt of a notice from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well-privy or other noxious or improperly constructed privy may be situated shall fill up, close, or otherwise alter the construction of the said privy, as may be directed in the notice; and if the orders contained in the notice be not carried out within 15 days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expense incurred in so doing shall be recoverable as a debt due to the Commissioners.

15. No owner or occupier of any house, land, or premises, in or on which any privy may be situated, shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, water-course, river, tank, hollow, or excavation (or any place containing waste and stagnant water).

Penalty for infringement, Rs. 20.

16. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cesspool, into any river, tank, khal, water-course, or receptacle for water, or dispose of the above-mentioned kinds of offensive matter in any other way than as the Municipal Commissioners may from time to time direct.

Penalty for infringement, Rs. 20.

17. The Municipal Commissioners may direct the use of lime, coal-tar, carbolic acid, or other deodorants or disinfectants in any privy or premises, if at any time it seem to them necessary for the preservation of public health, or for the prevention of infection or spread of disease: provided that the Municipal Commissioners shall be bound to supply such deodorants, &c., at cost price, and the price shall be recoverable as a debt due to the Commissioners.

For Regulating or Prohibiting the Use of Fire-balloons, Fire-works, Fire-arms, or Missiles in the Vicinity of Public Roads.

18. No one shall let off any fire-balloon, fire-works, fire-arms, or any missile in or near a public street without the consent of the Municipal Commissioners previously obtained.

Penalty for infringement, Rs. 10.

General Bye-laws.

19. No person shall construct, or place over, or by the side of, any public drain any bridge, platform, building, or structure of any kind, except by, and with the written permission of, the Commissioners, and in such manner as they shall direct.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 3 daily.

20. If any house, wall, or other erection, or any part thereof, fall upon any public highway or into any public drain, the owner of such house, wall, or erection, shall remove it after notice within the time prescribed by the Commissioners.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 5 daily.

21. No person shall prepare any channel, or convey water by any channel, across any public thoroughfare except in such manner as shall have been first approved by the Commissioners.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 2 daily.

22. No person shall steep in any river, khal, tank, or ditch within municipal limits any jute, hemp, bamboos, or other vegetable matter likely to render the water of such river, khal, tank, or ditch offensive or noxious to the neighbourhood.

Penalty for infringement, Rs. 5; penalty for continued infringement after notice, Rs. 2 daily.

23. No person shall bathe or wash dirty clothing in, or otherwise defile, any tank, or well, or reservoir set apart by the Commissioners for drinking purposes.

Penalty for infringement, Rs. 5; penalty for continued infringement after notice, Rs. 2 daily.

24. No person shall, without the written permission of the Commissioners, set up any obstruction in any nulla or water-course; and the Commissioners may order the removal of any such obstruction on grounds of public health.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 4 daily.

25. The owner or occupier of any part of the bank of any nulla or water-course shall keep it free from filth, dense vegetation, or other obstruction, and shall at all times allow the Commissioners, or any of their servants duly authorized, to have access to such nulla or water-course for any purpose of public conservancy.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 5 daily.

26. No person shall let loose, or cause or allow to be let loose, or allow to get loose, any diseased or worn-out animal on any highway, or into any place whence such animal can escape into any highway.

Penalty for infringement, Rs. 20.

27. No person shall bury, or cause to be buried, any corpse, or part of a corpse, in any burial ground in a grave constructed of masonry in such manner that the top of the coffin, or the body where no coffin is used, shall be at a less depth than five feet from the surface ground.

Penalty for infringement, Rs. 10.

28. No person shall bury, or cause to be buried, in any burial ground any corpse, or part of a corpse, in a grave not constructed of masonry which shall be less than six feet deep.

Penalty for infringement, Rs. 10.

29. No person shall build or dig, or cause to be built or dug, any grave in any burial ground at a less distance than two feet from any other existing grave.

Penalty for infringement, Rs. 20.

30. No person shall build or dig, or cause to be built or dug, a grave in any burial place in any other line than that marked out by the Commissioners.

Penalty for infringement, Rs. 20.

31. No grave once used shall be opened for the burial of another body without the permission of the Commissioners.

Penalty for infringement, Rs. 20.

32. No one shall carry a corpse, or part of a corpse, through any highway, unless it be decently covered and totally concealed from public view.

Penalty for infringement, Rs. 10.

33. Every person who shall bring or convey, or cause to be conveyed, any corpse, or part of a corpse, to any burning ground shall burn, or cause the same to be burnt, within twelve hours after its arrival at the said burning ground.

Penalty for infringement, Rs. 20.

34. No person, when burning, or causing to be burnt, any corpse, or part of a corpse, in any burning ground shall permit the same or any part thereof to remain without the flesh thereof being completely consumed to ashes, or shall permit the bones, clothes, or other articles connected with the burning of such corpse to remain at or near such burning ground unless the same be completely reduced to ashes.

Penalty for infringement, Rs. 20.

35. No person, while carrying any corpse, or part of any corpse, through the precincts falling within municipal limits, shall deposit it in or near any highway except for the purpose of ordinary relief.

Penalty for infringement, Rs. 10.

36. No person shall pocket animals, or collect carts, or form any encampment, upon any public ground or road without the permission of the Commissioners.

Penalty for infringement, Rs. 10.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 25th August 1877.—It is hereby notified for general information that, under the provisions of Section 39 of Act IV (B.C.) of 1876, the Lieutenant-Governor has been pleased to confirm the following rules for regulating the grant of pensions and gratuities to the officers of the Calcutta Municipality, made by the Commissioners of that Municipality at a special meeting held on the 7th April 1877.

HORACE A. COCKERELL,

Offg. Secy. to the Govt. of Bengal.

** Pension Rules for Officers in the service of the Calcutta Municipality, as finally revised and approved by the Commissioners at a Special Meeting held on the 7th April 1877.*

1. For all continuous service in posts regularly sanctioned by the Corporation, except service on salaries on or below Rs. 10, pension may be granted.
2. Service does not qualify unless the officer holds a substantive office on a permanent establishment; but if an officer on a permanent establishment is detached on temporary duty, on the understanding that, when the temporary duty ceases, he will return to the permanent establishment, he continues to count service as if he had remained on the permanent establishment.
3. Press servants on the fixed establishment are entitled to pension.
4. Servants of the Corporation, whose pay is either Rs. 10 or less, are not entitled to pension, but may be allowed such gratuity as the Commissioners shall, at a special meeting, on a consideration of the circumstances, adjudge proper. Authorised leave in the case of such servants counts as continuous service.
5. Time passed under suspension, pending inquiry into conduct, counts for pension, if the suspension is immediately followed by reinstatement. Time passed under suspension adjudged as a specific penalty does not count.
6. A break in the continuity of service entails forfeiture of past service, except in the following cases:—
 - (a) Authorised leave.
 - (b) Absence prolonged after the end of leave. Provided that, if an officer remains absent for more than a week after the end of privilege leave, his past services are forfeited, unless the Chairman, or the Commissioners in meeting, as the case may be, re-appoint the officer, and make a declaration in writing that his past services, or part of them, shall qualify. Whenever the Chairman shall make such a declaration, the same shall be laid before the Commissioners at meeting for information and confirmation. If the officer remains absent for more than a month, his past services cannot count without a special order of the Commissioners in meeting.
 - (c) Suspension immediately followed by reinstatement, which need not necessarily be to the same office.
 - (d) Abolition of office not followed by a gratuity or by re-appointment within two years.
7. Resignation of service, or removal from it on account of misconduct or inefficiency, entails forfeiture of past service.
8. Compensation pension or gratuity may be awarded to an officer either when discharged from the service of the Corporation or on a reduction of establishment.
9. An invalid pension or gratuity may be awarded on retirement from the service of the Corporation to an officer who, by bodily or mental infirmity, is permanently incapacitated as established by medical certificate—
 - (a) For active employment.
 - (b) For the particular branch to which he belongs.
10. Such retirement may be either voluntary or forced.
11. It will suffice for the Chairman to be satisfied of, and to certify to, the incapacity of officers appointed under section 36 of Act IV of 1876; and in the case of officers appointed under section 32 of the Municipal Act, it shall suffice that two-thirds of the Commissioners at a special general meeting are satisfied of the incapacity of the officer concerned.
12. Forced retirement of officers appointed under section 32 of the Municipal Act IV. (B.C.) of 1876, is by that section subject to the approval of the Local Government.
13. If incapacity for further service is the result of irregular or intemperate habits, no pension or gratuity can be granted.
14. A superannuation pension or gratuity may be granted to an officer compelled to retire.
15. The amount of pension or gratuity that may be granted shall be determined by length of service as set forth below:—
 - (a) After a service of less than 20 years, a gratuity not exceeding one month's emoluments for each completed year of service, but not, under any circumstances, exceeding 12 months' emoluments in all, broken periods of a year not being taken into account in making the calculation.

* These rules do not apply to officers lent to the Municipality or directly appointed by Government.

- (b) After a service of not less than 20 years, but less than 30 years, a pension not exceeding one-third of the officer's average emoluments, and also not exceeding Rs. 3,000 a year; or, if the officer's average emoluments do not exceed Rs. 12,000 a year, Rs. 2,000 a year.
- (c) After a service of not less than 30 years, a pension not exceeding one-half of the officer's average emoluments, and also not exceeding Rs. 5,000 a year; or, if the officer's average emoluments do not exceed Rs. 12,000 a year, Rs. 4,000 a year.

16. The above shall be the rule ordinarily followed in respect of claims to invalid pension and gratuity. It is optional with the Commissioners in meeting to deal exceptionally with cases of a special nature.

17. A retiring pension may be granted after an approved service of not less than 35 years. It may be the same in amount as an invalid pension admissible after 30 years' service.

18. Pension and gratuity shall be calculated on the following principles, viz.—

- (a) "Pay" means substantive allowances.
- (b) "Emoluments" do not include personal, house, or horse allowance, or fees, or commission, or percentage drawn by officers.
- (c) "Average emoluments" mean the average calculated upon the last five years of service.

19. If during the last five years of his service an officer has been absent on leave with allowances, or, having been suspended, has been reinstated without loss of service, his emoluments, for the purpose of ascertaining the average, should be taken at what they would have been had he not been absent on leave or suspended.

20. If during the last five years of his service an officer has been for a period without allowances, or suspended under such circumstances that the period of suspension does not count as service, such period should be disregarded in the calculation of the average, an equal period before the five years being included: *e.g.*—A is on leave for two years without pay. This period is not to be calculated in determining the average salary of the past five years, but an equal period immediately before the five should be included.

21. Excepting as provided in Rules 19 and 20, only emoluments actually received can be included in the calculation.

22. If an officer has held more than one appointment in respect of each of which, if he had held it separately and alone, pension or gratuity would have been admissible to him, the pension or gratuity, or pension and gratuity, admissible to him is the sum of the several pensions or gratuities, or pensions and gratuities, which would have been admissible to him if he had held each office separately and alone. The consolidated pension thus admissible is subject to the limitations prescribed in Rule 15.

23. An officer is not entitled for service in an office conjointly with another office to any pension or gratuity which would not have been admissible to him if he had held the office separately and alone.

24. An officer who is appointed for a limited time only, or for a specified duty, on the completion of which he is discharged, has no claim to pension or gratuity.

25. An officer who is not a servant of the Municipality solely, but who holds office under Government, or some other public body, private firm, or person, or is in receipt of pension from Government, is not entitled to pension or gratuity.

26. Service as an apprentice does not qualify for pension or gratuity.

27. Periods of absence on leave, other than privilege leave, do not count as service for pension.

APPLICATIONS FOR PENSION OR GRATUITY.

28. Every officer in the service of the Municipal Commissioners shall be required to keep a service-book, being an exact copy of the office register, in which shall be entered a statement of every step in his official life, each entry being attested at the time by the Vice-Chairman or the Secretary. The following directions are given regarding the service-book:—

I. The opening page should be divided for entries in the following form:—

- (1) Name of officer. (2) Caste or race. (3) Residence. (4) Father's name and residence. (5) Age. (6) Exact height by measurement. (7) Personal marks for identification. (8) Date on which page is filled up. (9) Signature of officer. (10) Signature and designation of the head of the office.

The entries in this page should be renewed or re-attested at least every five years.

II. The remaining page should be divided for entries in the following form:—

- (1) Name of appointment. (2) Whether substantive or acting, and whether permanent or temporary. (3) If acting, the substantive appointment should be stated. (4) Pay. (5) Acting allowance. (6) Date of commencement of appointment. (7) Signature of officer. (8) Character of officer. (9) Signature and designation of immediate superior officer. (10) Date of termination of appointment. (11) Reason of termination (such as promotion, transfer, dismissal, &c). (12) Signature of superior officer.

No entries need be made in column 8 except when there is anything especially good or bad to be recorded.

III. Leave of every description (except casual), every period of suspension from employment, and every other break of service, should be noted, with full detail of its duration, by an entry written across the page and attested by the head of the office.

IV. A service-book is supplied, at his own cost, to every officer on his first appointment.

V. Every officer is charged with the duty of seeing that his own service-book is properly kept up, and that all erasures in it are properly attested. If the book is not carefully kept up, difficulties may arise as to verification of service, should the officer afterwards apply for pension or gratuity.

29. An applicant for pension or gratuity shall submit his application to the Chairman, who, after verification of the applicant's services, shall lay the matter before a special meeting of the Commissioners.

MANNER OF PAYMENT.

30. When the application for pension or gratuity shall have been confirmed, or when, in case of forced retirement, the amount of pension or gratuity shall have been determined, the amount, if it be gratuity, may be paid at once, or by such instalments as the Commissioners may think fit; but if it be pension, it shall ordinarily be paid monthly at the office of the Commissioners in Calcutta to the pensioner in person, or otherwise in accordance with the following rule.

31. A pensioner who is unable to appear in consequence of bodily illness or infirmity, or is exempted from personal appearance, may receive his pension upon the production of a life-certificate signed by a responsible officer of Government, or by some other well-known and trustworthy person. In such cases the disbursing officer, who is personally responsible for any payments wrongly made, must take all possible precautions to prevent imposition, and must, before the first payment in each year, require proof not only of the existence of the pensioner, but also, if the pensioner has not been exempted from personal appearance, of his inability to attend in person to receive payment.

32. Unless specially exempted, a pensioner must take payment in person after identification by comparison with the permanent order.

33. It shall be the duty of the Finance Committee yearly to make provision in the budget estimate to meet the cost of pensions and gratuities.

34. If a pensioner or a person entitled to gratuity dies, payment of any arrear actually due may be made to his heirs, provided that they apply within six months after his death. Even if the pension or gratuity has not been sanctioned before the death of the officer, the payment may be made under the orders of the Commissioners in meeting. If an officer dies before actually retiring or being discharged, his heirs have no claim to anything.

35. Future good conduct is an implied condition of every grant of pension. The Commissioners reserve to themselves the right of withholding a pension, if the pensioner be convicted of serious crime or be guilty of grave misconduct.

36. It shall always be at the discretion of the Commissioners to suspend the above rules either in individual cases or generally.

[Third Publication.]

NOTIFICATION.

The 10th August 1877.—It is hereby notified for general information that, under Section 299 of Act V (B.C.) of 1876, the Lieutenant-Governor has been pleased, on the recommendation of the Commissioners of the Municipality of Hazareebagh at a meeting, to extend to that Municipality the provisions of Part IX, Chapter II of the said Act V (B.C.) of 1876.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 31st July 1877.—It is hereby notified that such portion of the Notification published in the *Calcutta Gazette* of the 11th July 1877 as relates to Section 4 of the Regulations made by Government under Section 6, Act XX, 1865, for conducting the examination of applicants for admission as pleaders and mookhtars in the Mofussil Courts subordinate to the High Court, has been cancelled by the Lieutenant-Governor, and that the following has been substituted:—

For Section 4—

“The examination of candidates for pleaderships of the higher grade shall be held in Calcutta; the examination for lower grade pleaders shall be held at Calcutta and Cuttack; the examination for mookhtarships shall be held at Calcutta, Patna, Dacca, and Cuttack.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 16th August 1877.—Under the power vested in him by Section 54 of Act V (B.C.) of 1866 (an Act to make better provision for the regulation of hackney carriages and palankens), the Lieutenant-Governor is hereby pleased to extend from the 1st October 1877 the provisions of that Act to the Military Cantonment of Dinapore.

Under Section 2 of the Act, it is further notified that the Bazar Sergeant for the time being shall be the registering officer within the limits of the said cantonment, and that every act, matter, or thing done by him under the Act shall be subject to the order, disposition, and control of the Cantonment Magistrate for the time being.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[First Publication.]

DECLARATION.

The 1st September 1877.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz. for the construction of an outpost in Manglabagh, in the town of Cuttack, it is hereby declared that for the above purpose a piece of land measuring 1 rood 22 poles, more or less, and bounded on the north by land belonging to Bodya Nath Pundit and Chowdhury Biswa Nath Dass, the *Asthan* of Mangla Takoarani, and the houses of Nand Runna and others; on the east by the road leading to the General Hospital; on the south by that leading to Bridge No. 1 of the Taldonda Canal; and on the west by the pukka house of Apartec Barick, is required within the aforesaid town of Cuttack.

This declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

DECLARATION.

The 20th August 1877.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the public expense for a public purpose, viz. giving a road frontage to the Shaik Mitteh Gurhee, in the town of Patna, it is hereby declared that for the above purpose a plot of land measuring 4 beeghas and 5½ dhoores, more or less, local measurement, and bounded on the north, south, and west by the newly formed lands of Shaik Mitteh Gurhee aforesaid, and on the east by the new chowk road, is required within the town of Patna, pergunnah Azimabad, district Patna.

The plan of the above plot may be inspected in the Patna municipal office between the hours of 10 A.M. and 4 P.M. any day, Sundays and authorized holidays excepted.

This declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

CHARLES H. TAWNEY, *Registrar.*

SENATE HOUSE, the 31st August 1877.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 986B.

NOTICE is hereby given that the Ninth Sale of Opium, the provision of 1875-76, will be held at the Government Opium Sale-room, No. 2, Bankshall Street, on Wednesday the 5th September 1877, at 11 A.M., and will comprise 4,000 chests, viz.—

					Chests.
Behar	Opium	2,080
Benares	,,	1,920
Total					4,000

2. The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 14th November 1876, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3. The latest dates for deposit and clearance will be the 10th and 20th September 1877 respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room, will be received after 4 P.M. of Monday, the 10th September 1877, and no Bank of Bengal Receipts in full payment of lots will be accepted after 4 P.M. of Thursday, the 20th September 1877.

4. In addition to the quantity above advertised for sale, the following quantities, more or less, of Behar and Benares Opium will be brought to sale in the present year on or about the dates specified below. The Board, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so:—

Dates.		Behar, about Chests.	Benares, about Chests.	Total, about Chests.
On or about Wednesday, 3rd October 1877	...	2,080	1,920	4,000
On or about Friday, 2nd November „	...	2,080	1,920	4,000
On or about Monday, 3rd December „	...	2,080	1,920	4,000
Total	...	6,240	5,760	12,000

By order of the Board of Revenue, L. P.,

W. H. GRIMLEY, *Offg. Secretary.*

BOARD OF REVENUE, L. P., FORT WILLIAM, the 31st July 1877.

No. 1121B.

NOTICE is hereby given that the Tenth Sale of Opium, the provision of 1875-76, will be held at the Government Opium Sale-Room, No. 2, Bankshall Street, on Monday, the 1st October 1877, at 11 A.M., and will comprise 4,000 chests, viz.—

					Chests
Behar	Opium	2,080
Benares	,,	1,920
Total					4,000

2. The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 14th November 1876, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3. The latest dates for deposit and clearance will be the 8th and 24th October 1877 respectively, that is to say, no Bank of Bengal receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale-Room will be received after 4 P.M. of Monday, the 8th October 1877, and no Bank of Bengal receipts in full payment of lots will be accepted after 4 P.M. of Wednesday, the 24th October 1877.

4. In addition to the quantity above advertised for sale, the following quantities, more or less, of Behar and Benares Opium will be brought to sale in the present year on or about the dates specified below. The Board of Revenue, Lower Provinces, however reserve to themselves the right of altering these dates should circumstances render it expedient to do so:—

DATES.		Behar, about Chests.	Benares, about Chests.	Total, about Chests.
On or about Friday, 2nd November 1877	...	2,080	1,920	4,000

No. 1131B.

The following notice is published for general information:—

EXCISE, STAMPS, AND OPIUM.
C. T. BUCKLAND, Esq.

Every petition of appeal to the Board of Revenue against an order passed by the local officers in the Excise, Stamps, and Opium Departments, should be presented to the Board within one month from the date of such order, and should bear a court fee stamp of the value of Rs. 2. The petition should be accompanied by the order appealed against in original, or by an authenticated copy of it, or the omission to produce such copy should be explained.

By order of the Board of Revenue, L. P.,

W. H. GRIMLEY, *Offg. Secretary.*

FORT WILLIAM, the 29th August 1877.

The Calcutta Gazette.

WEDNESDAY, SEPTEMBER 5, 1877.

PART I A.

Orders and Notifications by the Government of India.

The following order, issued by the Government of India in the Home Department, is republished for general information :—

No. 205.—Notification.—Simla, the 18th August 1877.—Education.—Under Section 12, Act II of 1857, the Governor-General in Council is pleased to authorize the affiliation of the Rungpur High School to the Calcutta University with effect from the 1st January 1877 and up to the standard for the First Examination in Arts.

The following orders, issued by the Government of India in the Department of Revenue, Agriculture, and Commerce, are republished for general information :—

No. 1092F.—Simla, the 24th August 1877.—Notifications.—Forests.—The Hon'ble the President in Council has been pleased to appoint Mr. W. M. Green to officiate as a Sub-Assistant Conservator of Forests in Bengal, with effect from the 28th May 1877, the date on which he reported his arrival at Chittagong.

No. 181.—The 20th August 1877.—Famine.—The services of Mr. S. C. Bayley, C.S.I., Secretary to the Government of Bengal in the Judicial and Political Departments, which were placed at the disposal of this Department by the notification of the Government of Bengal, dated the 6th instant, are transferred to the Financial Department.

The following orders, issued by the Government of India in the Financial Department, are republished for general information :—

No. 2660.—Simla, the 16th August 1877.—Notifications.—Expenditure.—Administration.—Mr. S. C. Bayley, C.S.I., Bengal Civil Service, is appointed temporarily to be Additional Secretary to the Government of India in the Financial Department, for the purpose of accompanying His Excellency the Governor-General to Madras.

No. 2767.—The 24th August 1877.—Pensions, Gratuities, &c.—The Governor-General in Council directs the publication of the following Addenda and Corrigenda to the Codes of the Financial Department :—

CIVIL PENSION CODE.

Section 43 (a), (page 20).

Add the following as a note under this section :—

[NOTE.—It is not intended by this section that an inferior servant should count service as superior in virtue of his voluntarily assisting in the office in superior work. It provides for the case of a person who is engaged under due authority to do superior work though with an inferior designation.]

CIVIL LEAVE CODE.

Section 24, Rule 8, (page 126).

After the words "by a Local Government," insert the words "or, in the case of a military officer in civil employ, by the Government of India, Madras, or Bombay, in the Military Department," and again after the words "the Local Government" insert the words "or, in the case of a military officer in civil employ, the Government of India, Madras, or Bombay, in the Military Department, at the instance of the Local Government."

Section 38 (page 144).

Insert the following as Rule 11A :—

11A. An application* by a military officer in civil employ for furlough *out of India*† must be submitted in the manner prescribed in G. G. O. Military Department No. 34, dated 11th January 1869, to the Local Government. Any Local Government receiving such an application from an officer of the Bengal Army will, if it thinks it should be granted, submit it to the Government of India in the Military Department at Calcutta.

The Government of Madras or Bombay receiving such an application from an officer belonging to its own army will, if it consider in the Civil Department that it should be granted, transfer it to be disposed of in the Military Department.

Any other Local Government receiving such an application by an officer of the Madras or Bombay Army, shall, if it consider that it should be granted, forward it to the Government of Madras or Bombay, as the case may be, in the Military Department.

In forwarding such an application the Local Government in the Civil Department will always state, with careful reference to the note prefixed to Chapter VI, the amount of subsidiary leave to be allowed to the officer, if his application is granted; and the Government of India, Madras or Bombay, in the Military Department, as the case may be, will, when granting the furlough, at the same time grant the subsidiary leave recommended by the Local Government in the Civil Department.

ACTING ALLOWANCE CODE.

Section 25 (page 234).

Insert the following as an example under this section :—

EXAMPLE.—The effect of the Proviso in this section is, *inter alia*, that, unless the Local Government thinks it necessary to make the declaration indicated in Rule 1 under Section 23, Clause (c), an officer is not entitled to any allowance for taking charge of an office the pay of which is not higher than that of his own substantive office.

The following order, issued by the Government of India in the Military Department, is republished for general information :—

No. 763.—*Simla, the 24th August 1877.*—The following extract from List No. 14, dated the 27th July 1877, received from the India Office, is published for general information :—

Retirements.

Surgeon-Major R. Moir,—16th June 1877.

* * * * *

* N.B.—This rule does not apply to the case of Medical Officers whose applications must be forwarded through the Local Government to the Adjutant-General.

† As to furlough in India, see the note prefixed to Chapter IV.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

The Calcutta Gazette.

WEDNESDAY, SEPTEMBER 5, 1877.

PART II.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

NOTICE is hereby given that the undermentioned plots of land, no longer required by the Government, situated in the district of Nuddea, will be put up to sale at the Kooشتهa sub-divisional cutcherry at 1 P. M. on Monday, the 10th September 1877, corresponding with 26th Bhadro 1284 B. S.

The purchasers of these plots will be subject to the following conditions :—

1. If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid down at once.
2. If the amount of purchase money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled, the sum deposited being forfeited to Government, and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.
3. The plots will be sold revenue free to the highest bidders.
4. The purchasers shall be put in possession on receipt of the orders of the Collector confirming the sales. But such possession shall be liable to be disturbed in the case of the final sanction of the Member of the Board in charge should not be accorded to the proceedings.

The 2nd August 1877.

CHANDRA SEKHAR BANARJI, Deputy Collector.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Hazareebagh, will be put up to sale at the Hazareebagh Collectorate on the fourth day of the month of October 1877, corresponding with 12th Assin 1285 Fuslee.

The purchasers will be subject to the following conditions of sale:—

Conditions of sale.

1. The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.
2. The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.
3. If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.
4. If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

Lot No. 2.—Also all that brick-built messuage or dwelling-house with the piece or parcel of land or ground thereunto belonging, and on part whereof the same is erected and built, containing by estimation three cottahs, more or less, situate, lying, and being at and formerly No. 111-1, Shambazar Street, now No. 6, Shambazar Street, Ram Chunder Moitry's Lane, in Calcutta, and bounded on the south by the house belonging to the late Ramgopal Dass and Petumbur Dass, on the east by the house of Denonath Dass and Madhub Chunder Dass; on the north by the houses of the late Thakoordass Sircar and Sreemutty Kristomutty Dabee, and Sreemutty Rammoney Dabee; on the east by the public lane called Ram Chunder Moitry's lane.

Lot No. 3.—Also all that undivided moiety or half part or share of and in all those putnee talooks called Dodhara and Sacknara, containing two mouzahs Dodhara and Sacknara, in pergunnah Toomer Sahee, in the district of Hooghly, in the registration district of Hooghly, and in the registration sub-district of Dhoneekally, thana Dhoneekally, being lot No. 12 in Burdwan Collector's toujee, subject to payment of annual jumma or revenue of rupees one thousand four hundred and sixty-seven three annas and two pias to the Rajah of Burdwan.

Lot No. 4.—And also all those putnee talooks called Auttee, Chokkara, Guddhee, Harat, and Chapsarah, containing mouzahs Butta, Chokkara, Guddhee, Harat, and Chapsarah, in the pergunnah of Chowmaha, in the district of Hooghly, in the registration district of Hooghly, and in the registration sub-district of Dhoneekally, thana Dhoneekally, being lot No. 46 in the toujee of the Collectorate of Hooghly, subject to payment of annual jumma or revenue of rupees two thousand six hundred and fifty to Kallydass Bannerjee and Rajkristo Bannerjee, of Taleeneparrah.

The conditions of sale and abstract of title may be seen at the Office of the Registrar of the High Court in its Original Jurisdiction and at the Office of the plaintiff's attorneys, Messrs. Swinhoe, Law and Company, on any day before the sale, and will be produced at the sale.

R. BELCHAMBERS, Registrar.

SWINHOE, LAW AND CO., Plaintiff's Attorneys.

HIGH COURT, ORIGINAL SIDE,

The 21st August 1877.

(1408—1)

TO be peremptorily sold, pursuant to a decree and order of the High Court in its Ordinary Original Civil Jurisdiction, made in suit No. 202 of 1873 [wherein Ramdhone Khan is plaintiff and Prosonno Coomar Shaw is defendant], and dated the 17th September 1873 and 21st December 1876 respectively, by the Registrar of the said Court at the Court-house on Saturday, the 22nd day of September next, at the hour of 12 o'clock at noon, the undermentioned properties:—

Lot No. 1.—All and singular all those brick-built messuages or dwelling-houses together with the piece or parcel of land thereunto belonging and on part whereof the same are erected and built, containing by estimation 10 cottahs, more or less, situate at and being Nos. 19 and 20, Wellesley Street, in the town of Calcutta, and butted and bounded on the north by the tenanted house of Shakhawath Ally; on the south by Korim Bux's Lane; on the east by Wellesley Street; and on the west by a tenanted house belonging to Gooroo Churn Sing, which are described in Schedule C annexed to the return of the Commissioners of Partition as Nos. 19 and 20, Wellesley Street house.

Lot No. 2.—All and singular all that brick-built messuage or dwelling-house together with the piece of parcel of land thereunto belonging and on part whereof the same is erected and built, containing by estimation 1 beegha and 3 cottahs, more or less, situate at and being No. 86, South Collingah Street, in the town of Calcutta, and butted and bounded on the north by the tenanted land belonging to Sreenath Tacoor; on the south by South Collingah Street, on the east by a Government drain and tenanted land of Tarney Churn Banerjee; and on the west by the lane leading to the tenanted land of Sreenath Tacoor, which is described in Schedule C annexed to the return of the Commissioners of Partition as No. 86, South Collingah house.

Lot No. 3.—All and singular all that piece or parcel of tenanted land or ground, containing by admeasurement 1 cottah, more or less, situate at and being No. 35, Free School Street, in the town of Calcutta, and butted and bounded on the north by the tenanted land of Kanye Lal Chunder; on the south by Mott's Lane; on the east by Free School Street; and on the west by the tenanted house of Sreemutty Mohamoya Dassor, which is described in Schedule C annexed to the return of the Commissioners of Partition as No. 35, Free School Street land.

Lot No. 4.—All and singular all that brick-built messuage or dwelling-house, together with the piece or parcel of land or ground thereunto belonging, and on part whereof the same is erected and built, containing by estimation four cottahs, more or less, situate at and being No. 11, Netye Baboo's Lane, in the said town of Calcutta, and butted and bounded on the north by a Government drain and tiled house of Khetter Mohon Bysack; on the south by the tenanted house of Brogondro Coomar Roy; on the east by Netye Baboo's Lane; and on the west by a Government drain and dwelling-house of Boiconto Nauth Kopali, which is described in Schedule C annexed to the return of the Commissioners of Partition as No. 11, Netye Baboo's Lane house.

Lot No. 5.—All and singular all that brick-built godown occupied by a wine shop together with the land thereunto belonging, containing by estimation 4 cottahs, more or less, situate at Burrah Bazar in Burdwan, in the registration district of Burdwan, bounded on the north by a public road; on the south by the dwelling-house of Enyet Kholipa; on the east by the

tenanted house of Enyet Kholipa; on the west by the godown belonging to Gesaidoss Kurmukor.

Lot No. 6.—All that brick-built godown occupied by a blacksmith's shop together with the land thereunto belonging, containing by estimation one cottah, more or less, situate in front of the property hereinbefore mentioned and described, bounded on the east by the tenanted house of Omroo Khan; on the west by the shop belonging to Boycantonaath Neoghy; on the north by the dwelling-house of Omroo Khan; and on the south by the public road, which are described in Schedule C annexed to the return of the Commissioners of Partition as in Burra Bazar in Burdwan, one wine shop and one blacksmith's shop in front thereof.

Lot No. 7.—All that piece or parcel of bermohter paddy land or ground in Belsur sub-district and thana Byria, in the zillah of Burdwan, in the registration district of Jahanabad, containing by estimation 10 beeghas, more or less, which is described in Schedule C annexed to the return of the Commissioners of Partition as bermohter paddy land in Belsur.

Lot No. 8.—All that three and half-annas share of the family dwelling-house and land in front thereof situate at Khajanabare, in the suburbs of the city of Burdwan, in the zillah of Burdwan, in the registration district of Burdwan, containing by estimation 10 cottahs, more or less, which is distinguished and separated in a certain plan or drawing made by the Commissioners Hurrinath Roy and Bhobunmohun Banerjee, annexed to and forming part of their return, and which comprises the space within the boundary colored yellow and marked A, B, and C in the said plan or drawing, which is now remaining filed in the records of the High Court Original Jurisdiction in suit No. 266 of 1866, wherein Mohamaya Dosssee was plaintiff and Prosonno Coomar Shaw and others are defendants.

The abstract of title and the conditions of sale may be seen at the Office of the Registrar of the High Court in its Original Jurisdiction or at the Office of Baboo Gonesh Chunder Chunder, Attorney for the plaintiff, at No. 5, Hastings Street, on any day before the sale, and will be produced at the sale.

R. BELCHAMBERS, Registrar.

GONESH CHUNDER CHUNDER, Plaintiff's Attorney.

HIGH COURT ORIGINAL SIDE,

The 21st July 1877.

(1473—1)

Notes on Forestry.

By C. F. AMERY,

Deputy Conservator, Forests, N. W. Provinces.

THIS little work, published with the approval of the Government of India, treats of the general principles of forest management in all its branches, and is recommended not only to forest officers, but to all who are interested in the progress of forest management in this country.

May be obtained of Messrs. King, King & Co., Bombay, and of Messrs. Wyman & Co., Calcutta. Price Rs. 3-8, or including postage, Rs. 4. Or of the publishers, Messrs. Trübner & Co., Ludgate Hill, London. Price five shillings.

The following books are for sale at the Office of the Superintendent Government Printing, No. 8, Hastings Street. No orders can be attended to unless accompanied by a remittance. When postage stamps are forwarded, one anna additional should be sent for every rupee's worth of stamps for discount in exchanging them for cash. Service labels are not received.

Books required on the public service are only supplied when authorized by local Governments and Administrations.

Indian Statute-Book.

OBSTRUCTION TO DRAINAGE AS A CAUSE OF FEVER IN BALLY.

Dated Bally, the 23rd July 1877.

To—His Honor the Lieutenant-Governor of Bengal.

THE humble memorial of the Bally Rate-payers' Association—

MOST RESPECTFULLY SHEWETH:

THAT your memorialists feel grateful to your Honor for the appointment of a Committee to inquire into, and report on, the causes of the epidemic fever in the metropolitan districts.

The town of Bally has been afflicted with this fell disease since 1873, and though numbers of persons, men, women and children, have been carried away by it, and many are still suffering from it, this is the first time the Government has been pleased to take any notice of their condition. But your memorialists deeply regret to state that the hurried and imperfect manner in which the Committee seem to have conducted their inquiry fills them with an apprehension that the Committee have not been put in full possession of the facts of the case, and that their conclusions might therefore have been based on imperfect data. The Committee, without giving any previous notice, came only for two hours, visited only the north-west corner of the town, and after questioning a few men whom they chanced to meet they went away; and it might be easily imagined whether such inquiry could be at all satisfactory, far less conclusive.

Your memorialists are humbly of opinion that the present unhealthiness of the town is mainly, if not wholly, due to obstructed drainage. The town being situate on the western side of the river Hooghly, its drainage level must necessarily be towards the west; and this is clearly evidenced by the presence in that direction of the paddy-fields and "jullas." The

East Indian Railway line, which passes between the town and the said paddy-fields, was provided with large culverts, expressly designed to allow free egress to the drainage of the town into those paddy-fields and "jullas," so no great impediment was offered by the railway to the drainage of the town in finding its natural outfall. In 1872, however, the railway surplus lands lying between the town and the line, and over which the drainage of the town flowed in its passage to the culverts in the railway, were sold by Government to private individuals, and the purchasers have since raised those lands by converting them into several tanks and gardens, thereby completely preventing the drainage of the town from finding its way into the culverts. Further, since the construction of the railway, a portion of the drainage of the town used to find its way into the Bally Khal through a culvert in the station road made for the purpose. But the drain beyond the road, which conducted the drainage from the culvert into the Khal, has been gradually filled up at its mouth without any notice being taken of it. The result is that the drainage can no longer find its way into the Khal through the abovementioned culvert. Obstructions to drainage have been also offered by raising the level of a number of cutcha roads crossing the lines of the drainage. The drainage used to find its way towards the west by either flowing over them or making breaches in them.

Now these roads have been raised and breaches filled up, substituting for them pipes of very small diameter, quite insufficient to give free vent to the drainage. The drainage of the town being thus shut out from its natural channels, a road running parallel to the railway line, which was cutcha before, was raised and partly metalled, and provided with drains on either side, by the Howrah Municipality in the early part of 1873. The drain on the east side of this road was connected with the drain on the south side of the Choytalpara road, with a view to conduct the drainage of the whole town to the Khal through a culvert under the station road, known as Gopisahab's culvert, situated almost on the north-eastern extremity of the Town. But the direction which the Municipality designed to give to the drainage of the town being diametrically opposite to its natural drainage level, which, as before observed, is from east to west, the monsoon water cannot run out of the town, and is to a great extent absorbed in the subsoil, and as a natural consequence the town has become unusually damp. It is also worthy of notice that the town has become unhealthy since September and October of 1873, the very year in the early part of which the drainage of the town, being cut off from its natural level towards the west, was attempted to be diverted to a diametrically opposite direction, namely towards the culvert, situated almost on the north-eastern extremity of the town.

Your memorialists would also desire respectfully to submit that the culvert in the Choytalpara road, through which the drainage of the whole town is designed to pass to the drain on the other side of the road in its way to its ultimate outfall, the Bally Khal, measures only 4 feet in width at the base and 3 feet in height. Your memorialists need hardly say that the capacity of the culvert is totally insufficient to convey to its intended outfall the rainfall over the whole town, covering an area of nearly a mile and a half square, the rainfall being not unfrequently from two to three inches within twelve hours. The consequence, as is naturally to be expected under the above state of things, is that the monsoon water, not finding easy egress through that culvert, accumulates in different parts of the town and settles in the subsoil. Your memorialists would also beg to submit that the channel through which it is now designed to drain the whole town remains quite inoperative during the flood tides, that is for 7 to 8 hours in every 24, when, instead of serving as a channel of drainage, it, on the contrary, brings more water into the town than it can convey out of it in the course of a day.

Your memorialists venture to solicit that if the above facts have not been noted by the Committee a fresh inquiry may be made to test the truth of their statements.

That, as the disease has been making serious ravages every year, your memorialists look up to your Honor for the preservation of their health and life. They accordingly would earnestly pray that due steps may be taken for the removal of the present obstruction to the drainage of the town, and for the adoption of such other remedial measures as to your Honor may seem fit.

And your memorialists, as in duty bound, shall ever pray.

SRI CHURN MUKERJEE,

Honorary Secy., Bally Rate-payers' Association

No. 2371.

FORWARDED in original to the Sanitary Commissioner of Bengal for report.

By order of the Lieutenant-Governor of Bengal,

RAJENDRA NATH MITRA,

Acting Asst. Secretary to the Govt. of Bengal.

CALCUTTA,

The 6th August 1877.

Dated Calcutta, the 26th August 1877.

From—A. S. LETHBRIDGE, Esq., M.D., Offg. Sanitary Commissioner for Bengal,
To—The Secretary to the Government of Bengal.

WITH reference to your endorsement No. 2371, dated the 6th instant, I have the honor to report that I held a local inquiry at Bally regarding the statements made in a petition addressed to His Honor the Lieutenant-Governor by the Rate-payers' Association.

2. To enable the representatives of the rate-payers to be present the day selected for the inquiry was Sunday, the 19th instant, and due notice was sent by the Magistrate to the Secretary of the Association. The amount of rainfall for some days previous having been unusually heavy, the day named was a most favourable one for any inquiry into obstructions to drainage.

At the meeting the Municipality of Howrah was represented by the Chairman, Mr. Pellew; the Secretary, Mr. Donnithorne; and the representative of Bally, Baboo Juggut Chunder Banerjee, Honorary Magistrate.

Mr. Whitfield, an officer particularly well qualified to speak on the subject of drainage, was present to render his professional assistance, and the Rate-payers' Association was represented by the members mentioned in the margin.

Baboo Sri Churn Mukerjee
" Berransur Chatterjee
" Purno Churn Buttacharjee.
" Nund Lall Buttacharjee
" Nemi Churn Banerjee
" Brindabun Chunder Mookerjee

" Bolah Nath Chuckerbutty.
" Ghosh Chunder Ghosal

3. It is necessary here to state that the so-called Rate-payers' Association is a self-constituted body, which does not actually represent the rate-

payers of Bally, a large section of whom disown all connection with it and its proceedings. Both Mr. Pellew and Mr. Whitfield will bear me out when I assert that it would be difficult to meet a body of men so ignorant of the subject of drainage.

4. The inquiry commenced by my reading to those present the petition, and noting at the time the different points that called for investigation. Before proceeding to the localities mentioned, it was necessary to ascertain the truth of the charge made against the late Drainage Committee, which is contained in the following words of the petition:—"But your memorialists deeply regret to state that the hurried and imperfect manner in which the Committee seem to have conducted their inquiry fills them with an apprehension that the Committee have not been put in full possession of the facts of the case, and that their conclusions might therefore have been based on imperfect data. The Committee, without giving previous notice, came only for two hours, visited only the north-west corner of the town, and after questioning a few men whom they chanced to meet they went away; and it might easily be imagined whether such an inquiry could be at all satisfactory, far less conclusive." Thinking that the truth could best be elicited by a series of questions put to the rate-payers' representatives themselves, I asked them to answer the following:—

(1) Are you aware that before the Committee met at Bally that place was visited for three or four days by one of the members, Assistant Surgeon Amrito Lall Mozoomdar, who made an inquiry into the drainage, the history of the fever, and the present health of the inhabitants, by examining the locality and a number of people, including the medical men and native gentlemen mentioned on the margin, and that he also medically examined the boys of the Bally school?
Answer.—No: they were not aware of it.

Baboo Motty Lall Sen Gupta, Medical Practitioner.
" Kedra Nath Chatterjee, L.M.S.
" Okul Chunder Paul, " "
" Tukoor Dass Gangohi.
" Kali Nath Ganguli
" Dwarka Nath Chatterjee
" Bhut Nath Buttacharjee.
" Ramjewan Ghose
" Romesh Chunder Mookerjee

(2) Are you aware of the fact that the Assistant Surgeon submitted a full report on the subject, which is now in my hand, and which was laid before the Committee? *Answer.*—No.

(3) Are you aware that a Sub-Committee, consisting of all the native members—Baboos Peary Mohun Mookerjee, Hem Chunder Kur, and Amrito Lall Mozoomdar—spent a day in Bally for the purpose of gathering information for the Committee's meeting? *Answer.*—No; but some of those present had seen them coming from the station.

- (4) Are you aware that Rajah Digumber Mitter was represented at the Committee's local inquiry by a special agent armed with a memorandum and plan from himself? *Answer.*—Yes.
- (5) Are you aware that your own Honorary Secretary, Baboo Sri Churn Mukerjee, the gentleman whose signature is on the petition, was present when the Committee met at Bally, and that he made no remarks or suggestions at the time. *Answer.*—Yes.
- (6) Are you aware that when the Committee met all the municipal officers, including the representative of Bally, Baboo Juggut Chunder Banerjee, were present? *Answer.*—Yes.
- (7) Are you aware that the Committee walked on foot for nearly four hours wherever Rajah Digumber Mitter's agent chose to take them? *Answer.*—No.
- (8) Are you aware that before coming to any conclusion the Committee had a careful survey made and levels taken of the part of Bally in which the drainage was said to be obstructed? *Answer.*—No.
- (9) Not being aware of all these facts, which took place in your little town, and not having taken any trouble to ascertain them, do you consider that you were justified in giving publicity to the untruths contained in the passage I have already quoted?

The answer to this question was, as might be expected, an unsatisfactory one. "They did not mean what they had actually written: if the statement made was a falsehood, there was an 'if' somewhere at the end of the petition which qualified it."

5. The next subject referred to in the petition is the present state of the general health. As I particularly requested to be shewn every case of sickness in the houses passed during a five hours' walk through the town, I am in a position to speak with some confidence on this subject. There is little doubt that the people have suffered more or less severely from malarious fever for the last few years; but during my visit, with the exception of the quarter known as Barrackpore, all the cases seen (ten or twelve) were old standing cases of enlarged spleen, the result of attacks of fever in previous years. In Barrackpore there were a number of fresh cases of ague of a mild type; but, strange to say, all those sick were residents of pucca houses situated on the banks of the Hooghly, and quite beyond the influence of the alleged obstructions. The conditions under which these people lived were highly favourable to the development of malaria: the houses were damp, being surrounded by trees and vegetation, which effectually prevented either the sun or wind drying them. The overcrowding in the houses was said by the medical practitioner in charge to be serious, being due to the practice of having three and four families all living together. From the general appearance of the inhabitants of Bally, I should say that the place is comparatively healthy. In another month or so the usual malarious fever of the country will, no doubt, make its appearance; but there are no indications that it will assume the character of what has hitherto been known as epidemic fever.

6. Under the present drainage system, which removes the water from the railway embankment to the Bally Khali, the tanks and gardens constructed on the railway surplus land cannot possibly obstruct the drainage. Regarding this point a discovery has been made which completely settles the point as regards the best outfall for the drainage of Bally. The enclosed sketch, giving levels, was made by Mr. Whitfield, and he has forwarded it with the following remarks:—

"These levels completely dispose of the question of obstructed drainage in its natural outflow towards the jheels, for, as shown by the level heights, the water in the jheel is 13.02, and that in the side drains of the road 12.22 and 12.25, falling down to 11.12 at the junction of the Choytalpara road. The water in the drain channels is therefore from nine inches to one foot ten inches below the present level of the water in the jheel: by the middle of September the difference will have increased by at least a foot more. It follows, then, that if the only outlet of the drainage had been into the jheel, supposing the railway and all other obstructions to the "natural drainage" to be swept away, the level of water throughout Bally would be from nine inches to two feet higher

SKETCH PLAN OF PORTION OF BALLY

than it now is; and in the middle of September, when the water in the jheel has risen, as it will do, a foot higher, then the water in Bally would be from one foot seven inches to three feet higher than it now is. Moreover, if a connection be made between the jheel and the roadside drains, the jheel would drain into them."

7. The unusual rainfall enabled me to judge how the present drainage system was working, and I can assert with confidence that I have not seen a better drained country town in Bengal. The drainage being carried on by cutcha drains, they naturally require looking after every year to keep them open. This the Municipality has on the whole done well. In four or five places only did I see that petty obstructions caused the water to stand in the side ditches. The culvert near the railway-station, which is referred to in the petition, was not acting, and the result was that about 4 beghas of low lying land, out of which the earth had been taken for the main road, were under water. As will be seen from the enclosed sketch, all this area is entirely isolated from the main drainage system, and is at the extreme corner of the Municipality. The manager of the Bally Mills was not at home, and I was in consequence not allowed on the premises; but Mr. Pellew has promised to examine the locality, with the view of ascertaining the cause of the obstruction.

8. There is a gross misstatement in the petition regarding the flood water passing up to the town through Gopisaheb's culvert. Before the date of this petition a self-acting sluice was put in to prevent the water from finding its way in, and I saw that it effected its purpose well. As regards the culvert in the Choytalpara road, the size (4 feet by 3 feet) can be proved mathematically to be sufficient to drain a much larger area than that of Bally; and that it did so effectually, I myself witnessed during a heavy shower.

9. It is asserted that epidemic fever first appeared in 1873, and consequently followed the sale of the railway surplus lands. As a fact it was very severe in 1872.

10. As regards all other points, I would refer to the Drainage Committee's report, as being a fair and unprejudiced view of the drainage system of this town. Indeed I cannot help saying that the place is so effectually drained that opponents of the obstructed drainage theory might well take it as an instance of fever occurring in a properly drained locality. In conclusion I desire to express my obligations to Mr. Pellew and Mr. Whitfield for their great assistance.

Dated Bally, the 25th August 1877.

To—His Honor the Lieutenant-Governor of Bengal.

THE memorial of the undersigned inhabitants and rate-payers of Bally, in the district of Howrah—

MOST HUMBLY SHEWETH:

THAT your memorialists beg most respectfully to protest against the petition of the so-called Rate-payers' Association, dated the 23rd July 1877, which was presented to your Honor without the knowledge and consent of your memorialists.

That the said Association is not recognized by all the rate-payers and inhabitants of Bally, and that they are not represented by the Association.

That the members of the Association have not been elected by the rate-payers and inhabitants of Bally.

That your memorialists are therefore not liable for the acts of the said Association.

That your memorialists always represent their grievances, when necessary, directly to the proper authorities, and not through any Association, as there is no such recognized Association at Bally.

That your memorialists did not know anything about the petition dated 23rd July 1877 when it was presented to your Honor, and wherein great dissatisfaction was expressed against the investigation and inquiry held at Bally by the Drainage Committee.

That on the 19th day of the current month, when the Sanitary Commissioner, Executive Engineer, and the Magistrate of Howrah, came to Bally to inquire about the said petition of the 23rd July last, your memorialists first became aware of the said petition.

That your memorialists express their deep regret at the conduct of the said Association in giving your Honor so much unnecessary trouble in a matter which was already carefully investigated by the Drainage Committee on a previous occasion to the satisfaction of the inhabitants.

Your memorialists therefore humbly beg to submit that, under the circumstances stated above, the statements contained in the said petition dated 23rd July 1877 are incorrect and unfounded, and that your memorialists are not responsible for them.

• • And your memorialists, as in duty bound, shall ever pray, &c.

SREEKRISTO BANERJEE,

MADHUB CHUNDER BANERJEE,

GOOROODOSS MOOKERJEE,

and 255 other inhabitants and rate-payers of Bally.

● FINANCIAL DEPARTMENT--SANITATION.

Calcutta, the 3rd September 1877.

RESOLUTION.

Read—

The memorial of the Bally Rate-payers' Association, objecting to the sufficiency of the inquiry made by the Special Committee appointed for that purpose into the condition of the drainage of the town of Bally.

Read—

A letter from the Officiating Sanitary Commissioner, dated 26th August, reporting the result of a further local inquiry held by him with reference to the statements in the above memorial.

Read also—

A memorial from 258 inhabitants and rate-payers of Bally, repudiating the statements made in the memorial above quoted.

THE Lieutenant-Governor considers that Dr. Lethbridge has conclusively shown that the statements made in the first memorial, with reference to the obstructed condition of the drainage of the town of Bally, and the effect of this upon the health of the place, are entirely unwarranted by the facts; and that there is no reason whatever for doubting that the report made by the Special Committee was both based on sufficient inquiry, and correct in its conclusions.

2. It also appears that the statements in the memorial of the so-called Rate-payers' Association are repudiated by a large number of the leading inhabitants and rate-payers.

3. Under these circumstances no further action on the part of Government appears to be called for.

• By order of the Lieutenant-Governor of Bengal,

A. MACKENZIE,

Offg. Secretary to the Govt. of Bengal.

STATISTICAL DEPARTMENT,
The 4th September 1877.A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

ABSTRACT OF REPORTS ON DISTRICT STOCKS OF RICE AND MOVEMENTS OF PRICE IN BENGAL, RECEIVED UP TO THE 4TH SEPTEMBER 1877.

N.B.—No reliance can be placed on the accuracy of figured estimates of stocks in the interior; at best a rough approximation is all that can be expected.

Burdwan, 1st September 1877.—Prices now are nearly the same as last week. Exportation is going on briskly, chiefly by river. Importation into Burdwan is at the rate of 10,000 maunds a day, nearly half of which is despatched down country. Exports during the week were—from Cutwa 7,000 maunds, and from Bood-hood 5,000 maunds.

Bancoorah, 1st September 1877.—About 15,000 maunds of rice have been exported during the week.

Beerbhoom, 1st September 1877.—There is still an upward tendency in prices. The average price is 14½ seers per rupee. Exportation by rail was between 12 and 13 thousand maunds for the week ending 24th August 1877, and some 15,000 maunds may be counted as having been exported by all outlets during that week.

Hooghly, 1st September 1877.—Stocks in the interior likely to last 73 days. Stocks at Chandernagore and other places at Hooghly are estimated at about a lakh of maunds, while about 55,000 maunds were exported from Chandernagore to Calcutta. Prices are on the increase. Coarse rice sells from 10 to 10½ seers a rupee at Hooghly.

Howrah, 1st September 1877.—The prices in the town are—of best rice Rs. 4-8, and of common rice Rs. 3-4 per maund; in the mofussil—best rice Rs. 4 to 3½, common rice Rs. 3 to Rs. 2½ per maund. The stocks are—rice 13,886 maunds, paddy 2,44,278 maunds, and wheat 141 maunds.

24-Pergunnahs, 24th August 1877.—The stocks in the district, exclusive of Baraset sub-division, are—paddy 43,91,579 maunds, and rice 9,93,018 maunds. Prices as a rule, throughout the district, follow those of Calcutta. The price of common rice ranges from Rs. 2-8 to Rs. 3-1-3, of rice ordinarily used from Rs. 3 to Rs. 3-15, and of best rice from Rs. 3-12 to Rs. 5.

The 31st August 1877.—Prices continue to range high with, however, a somewhat lower tendency, owing to the new rice supply being sufficient.

Nuddea, 1st September 1877.—9,120 maunds of food-grain were imported during the week into the Kooshtea sub-division, and out of this 5,400 maunds were taken to Calcutta by rail. The Nuddea toll office return shows an export from the district of only 1,275 maunds rice, 1,625 maunds gram, 75 maunds of kalai, 3,050 maunds of pulse, and 50 maunds barley, but no rice or paddy passed the Kissengunge office from the Nuddea district. Thus no very large quantities of food-grain produced in the district are leaving it, and the existing stock is quite enough to carry the district through till the next harvest. No change in the prices since last report.

Jessore, 1st September 1877.—The same prices as reported last week continue. The stocks of rice in the sub-divisions are reported sufficient. The Khulnah registration office shows 540 maunds of rice exported from that sub-division and 8,105 maunds from other parts of the district.

Moorshedabad, 1st September 1877.—The down river exports registered at Jungypore were—wheat 456 maunds, pulses 1,080 maunds, rice 6,654 maunds, other cereals 1,662 maunds, and the exports by rail from Rampore Haut were 7,154 maunds. The total exports of the week are estimated at 25,000 maunds. The prices are still high. They are—common rice from 11½ to 14 seers, coarse rice from 13½ to 15 seers, wheat from 14 to 16 seers, and gram from 18 to 21 seers the rupee.

Dinajepore, 31st August 1877.—The exports during July amounted to 12,55,466 maunds, and during August to 54,697 maunds.

Rajshahye, 1st September 1877.—The export of rice from the several marts and gunges during the past week amounted to 5,314,½ maunds. The stock available for export is, according to police returns, 4,79,095½ maunds, but according to the Collector's calculations 5½ lakhs of maunds. The price of common rice ranged from 14 seers 1 chuttaek to 14 seers 4 chuttaeks per rupee.

Rungpore, 31st August 1877.—There has been no change worth mentioning in the price of rice. In Kurigram prices remain about the same, showing as if exportation were going on less briskly. From Gaibunda 4,000 maunds have been exported to Assam, Goalundo, and Serajgunge. No exportation is reported from Bagdogra. 30,767 maunds of rice were taken during the week to the different markets in the district. Exportations to Assam, Calcutta, and Serajgunge have been reported from the following places:—Nagessury, Barabari, Kumargunge, Bhowanigunge, and Sundergunge.

Bojra, 1st September 1877.—There have been no imports of rice during the past week. Rice has been exported to Calcutta only from thanas Sherpore, Shibgunj, and Panchbibi, from which places 3,500, 6,270, 4,100 maunds respectively have been despatched. 350 maunds of rice and 200 maunds of paddy have also been exported from Gohail outpost. The supply in the district is good, and the price varies from 16½ to 20 seers a rupee.

Pubna, 1st September 1877.—The price of rice at Pubna station is Rs. 2-2 per maund. The exportation to Calcutta of 4 or 5,000 maunds during the week has raised the price. At Dulai station there is no change in the price. At Serajgunge *amun* is sold at Rs. 3-3 to 3-9, and *aus* at Rs. 2-10 a maund. 1,237 maunds of rice were exported to Calcutta. A

stoppage of exports and imports is threatened owing to the lowness of the rivers. At Shazadpore and Raigunge stations rice is sold at 16 seers, at Mothura station 21 seers, and at Chatmohur station 25 seers per rupee.

Darjeeling, 24th August 1877.—Prices have not risen during the past week, and will fall shortly when early rice is expected in the market. The present prices are decidedly lower than they were this time last year. The stock of food-grains is ample and the people are contented.

The 31st August 1877.—Prices have fallen during the past week, and will go on falling as the new rice comes in. The stock is well kept up.

Julpigoree, 1st September 1877.—There is no exportation, and there is at present sufficient food-supply for local consumption. Prices have not hitherto been much affected.

Cooch Behar, 30th August 1877.—No rice is being exported from this State. If the prospects of the *haimanti* dhan do not improve, the price will rise, and there may be some importation. As yet prices have not risen. Coarse rice is selling at Rs. 2-12, and rice of better quality at Rs. 3 a maund. Prices in the interior are reported to be rising. There is no deficiency in the supply of food-grains.

Dacca, 1st September 1877.—Markets still well supplied, but prices rising. During the week the price ranged from Rs. 2-10 to Rs. 3, the Naraingunge rates being from Rs. 2-11 to Rs. 2-14. Price of paddy has risen 2 annas, owing to fears caused by the fall in the rivers. Registered exports of rice to Calcutta and Goalundo 19,925 maunds, and to Chittagong 1,100 maunds, besides 14,700 maunds exported to Calcutta by India General Steam Navigation Company and 10,000 maunds by Eastern Bengal Railway steamer. 2,655 maunds of paddy were exported from Naraingunge to Chittagong, Burrisal, Tipperah, and Noakholly.

Furzedpore, 1st September 1877.—The price of rice has risen all over the district, the average rate being not over 13 seers per rupee. The markets for some days past have been scantily supplied, and ryots are bringing small quantities of rice into the markets. There is no exportation from the district.

Backergunge, 30th August 1877.—Importation of food-grains into the wave-stricken tract continues. Exportations to Calcutta are now inconsiderable. Prices vary from Rs. 2-8 in Dukhin Shabazpore to Rs. 3-5 and Rs. 3-12 in other parts of the district.

Mymensingh, 31st August 1877.—Rice much dearer than last week everywhere except at Jamalpore. Exportation slack.

Tipperah, 31st August 1877.—The stock is the same as last week. Exports continue to Calcutta and other districts. Prices have fallen slightly, and will probably fall a little more notwithstanding the large exports, as the autumn rice is now ready for the market, and the prospects of the winter rice seem good. Prices now vary from Rs. 2-5 to Rs. 3 a maund for good rice, and from Rs. 2-4 to Rs. 2-8 for coarse rice.

Chittagong Hill Tracts, 28th August 1877.—Rice is imported here from Chittagong by traders and shop-keepers in small quantities, and is sold at Rangamuttee at Rs. 4, at Chennagiri Rs. 4-8, and at Feuny from Rs. 3-8 to Rs. 4 per maund.

Hill Tipperah, 29th August 1877.—There is nothing to add to previous reports. Prices have been stationary since last week.

Patna, 1st September 1877.—Exports easy. Prices are rising steadily, especially of wheat. Indian-corn is very cheap and abundant.

Gya, 1st September 1877.—120 maunds of gram and 201½ maunds of rice, third quality, were exported from the Sudder Bazar to Patna, and 161 maunds of gram from Aungubad to Shahabad. In Jehanabad the prices of wheat and gram are stationary, but those of barley and rice have risen slightly.

Durbhunga, 1st September 1877.—Prices remain unaltered, but the importations previously noted are falling off.

Mozufferpore, 1st September 1877.—Prices remain almost stationary. Small quantities of grain are being exported. There is nothing new to report regarding stocks.

Saran, 1st September 1877.—The imports during the week from Jungypore, Purneah, Fyzabad, Nowabgunge, and Shahabad amounted to 21,600 maunds, and the exports were 2,000 maunds of wheat to Calcutta, 10,000 maunds of rice to Fyzabad, and 5,000 maunds of rice to Patna. The stocks of food-grains amount to 39,325 maunds. The prices during the week were—wheat 17 seers, barley 22½ seers, rice best sort 10½ seers, rice common sort 13 seers, gram 21½ seers the rupee.

Monghyr, 1st September 1877.—The estimated stocks of food-grains on sale at the different marts in the district during the week were—rice 13,157 maunds, rahar 12,447 maunds, wheat 77,170 maunds, dhan 6,997 maunds, gram 28,113 maunds, &c.

Bhagulpore, 2nd September 1877.—No exports this week, but large purchases have been made by local dealers either for exportation to the famine districts or in expectation of a rise in the market. Prices have risen slightly during the week.

Purneah, 1st September 1877.—The traders from the south have during the week been making purchases in the northern markets for exportation to Calcutta. This increased demand for export has not raised the prices owing to the new crop being now in the market.

Maldah, 1st September 1877.—The average price of coarse rice is 17½ seers; dearer than last week (18½). This is owing to there being no importation during the week. There is no export worth mentioning.

Sonthal Pergunnahs, 1st September 1877.—In *Deoghur* sub-division the price of rice vary at different places from 16 to 18 seers, and of paddy from 26 to 35 seers per rupee.

No export from this sub-division during the week. In *Godda* the bazars are sufficiently supplied, and there is no export or import. In *Rajmehal* there is nothing new to report.

Pooree, 30th August 1877.—Rice is obtainable in all parts of the district and in inland marts, but in small quantities. The price in the city is 11 seers 13 chuttacks, and in the interior it ranges from 15½ to 21 seers per rupee. Traders from Madras have commenced to purchase rice in the north-eastern extremity of the district. Export continues by land to Cuttack, and by land, the Chilka, and sea to Madras.

Balasore, 31st August 1877.—During the past week there has been no export from Balasore port though several Madras sloops have arrived and await the N. E. monsoon to clear with grain cargoes. At Chandballi the exports to Calcutta during the week amounted to 1,329 cwts of rice and 304 cwts. of paddy while three barques of considerable burden are loading. In the north the land export towards Contai has continued, though now interrupted by the recent heavy rain. Prices have risen steadily, the price at Balasore being Rs. 2-4, at Chandballi, on the 28th August, Rs. 2-6. The stock for exportation is increasing in Balasore and decreasing at Chandballi. It amounts to 2,725 tons of rice at the former place and 1,587 tons at the latter.

Hazareebagh, 31st August 1877.—No changes of importance. The markets are fully supplied, and the prices are unaltered, with a tendency to fall. No export from the district.

Loharaugga, 1st September 1877.—The bazars of the district are well supplied with food-grains, and there is no unusual exportation going on. Prices steady at Palamow. They have risen in the head-quarters division.

Singhoom, 31st August 1877.—The supply of food-grains continues to be plentiful, and the prices have not altered during the week. There has been less exportation owing to heavy rain.

Maunbhoon, 1st September 1877.—Export of grain continues from Rughoonathpore and Purulia, as also from the direction of Govindpore. The reserves of rice in the south and south-west seem to have been touched but little owing to want of roads. If the demand continues, and the harvest is a good one, there will be heavy exports from the south in the cold weather. The supply of food-grains is fair.

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 1st September 1877.

No.	District, and date of return.	Rainfall at Sudder Station in inches	Character of the weather, state and prospects of the crops, and state of health at date
BENGAL			
<i>Western Districts.</i>			
BUDDWAN DIVS.	1 Burdwan, Sept 1 '77	2 96	No rain at Culca, '57 of an inch at Cutwa, 3 38 inches at Bood-bood, '66 of an inch at Jehanabad, and return from Raneejung not received. The crops are doing very well. No injury from floods has been reported. Fever is prevalent.
	2 Bankoora, „ 1 „	3 58	Rain at intervals. It was heavy on the 30th and 31st August. The <i>aus</i> , or early rice crop, is now safe. Prospects of the <i>amun</i> , or cold-weather rice crop, are very good. The heavy rain affected indigo manufacture injuriously.
	3 Beerbhoom, „ 1 „	2 41	Weather—tolerably seasonable. Rain sufficient. State and prospects of the crops continue to be very fair. There is no reason why there should not be an average crop.
	4 Midnapore, „ 1 „	2 32	Weather—fine at the beginning and stormy at the end of the week. Some fifty miles of country have been inundated, and, as the river continues rising and falling, will probably get no crops. Elsewhere the prospects are very good.
	5 Hooghly, „ 1 „	1 03	Weather—dry on the 26th, 27th, and 28th August. Cloudy, with strong wind, on the 29th and 30th. Early rice is being harvested. Transplantation of late rice is over. Slight damage has been caused to <i>pulbuts</i> by excessive rain. All other crops are doing well. Many cases of fever reported.
	Howrah, „ 1 „	2 86	Heavy rain with high wind in the middle of the week. No injury is reported as yet. Transplantation of late rice is nearly finished, and the plants already on the ground are getting on well. It would be well for the crops if the rain held off now for a little.
<i>Central Districts</i>			
PRESIDENCY DIVS.	6 24-Pergunnahs, Sept 1 '77	4 20	In the latter part of the week there were high winds throughout the district with heavy rain. State and prospects of the crops are generally excellent. Transplantation of <i>amun</i> rice is complete. Health is good.
	7 Nuddea, „ 1 „	3 06	Weather—fine in the early part of the week. Moderate rain, with strong wind, on the 30th August. The prospects of rice and sugarcane are good. The transplantation of chillies has commenced. The harvest of early rice is progressing favourably. Slight damage has been done by excessive rain of last week.
	8 Jessore, „ 1 „	3 08	The weather at the Sudder station and throughout the district has been the same; frequent light showers alternating with sunshine; very hot at times. The harvesting of the <i>aus</i> crop continues. The prospects of the <i>amun</i> crop are good though fears are entertained that it may suffer from too early subsiding of the inundation.
	9 Moorshedabad, „ 1 „	4 41	The first four days of the week were intensely hot. State and prospects of the crops are favourable. The bright hot weather after the heavy rain of last week has brought on the <i>aus</i> crop, which is now being cut in many parts of the district. Little transplantation of the <i>amun</i> now remains uncompleted. Health of the district is generally good for the time of year.
RAJSHAHY AND COOCH BEHAR DIVS.	10 Dinagore, Aug. 31 „	3 31	Weather—dry and hot till the night of the 29th August, when rain fell. No rain at Roygunge. The prospects of the crops are good. Transplantation is nearly finished. Prices are rising slightly in spite of the good <i>bhadoi</i> crop which is now being harvested.
	11 Rajshahye, Sept. 1 „	1 84	Moderate rain throughout the district. The cutting of <i>aus</i> rice and jute proceeds, and the outturn is an average one. Cholera is still very prevalent.
	12 Rungpore, Aug. 31 „	5 58	Weather—dry and hot. '30 of an inch at Gaibanda, and no rain at Kurigram. The state and prospects of the crops continue to be satisfactory; but more rain is wanted for transplanting the <i>amun</i> seedlings. Public health is good for this season of the year.
	13 Bogra, Sept 1 „	5 56	Weather—hot and cloudy, with occasional rain. <i>Amun</i> and other standing crops are promising. Much of the <i>aus</i> crop towards the west of the district has been destroyed by the heavy rains. Fever is still prevalent in the western part.
	14 Pubna, „ 1 „	1 34	Weather—fine and seasonable. Rain on the night of the 29th August. The harvesting of <i>aus dhan</i> is nearly completed. The upland <i>amun</i> crop in some places is about to be injured by the lowness of the rivers. More rain is wanted. Fever is prevalent in the town.

No	District, and date of return	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
● BENGAL.—(Continued)			
Central Districts			
RAJSHAHYE AND COOCH BEHAR DIVN.	15 Darjeeling, Aug 31 ..	1 71	Very little rain during the week; most of it fell on the night of the 30th August. The want of rain throughout the district has not yet seriously affected the crops, but unless there be a heavy fall soon the <i>hammuti</i> rice, the principal crop of the year, will fall short considerably. As it is, there will be some deficiency in outturn.
	16 Julpigoree, .. 1 ..	52	Weather—exceedingly hot and oppressive. It is very unseasonable, and the rainfall for the month is unprecedentedly small, being 5 06 inches against 19 66 inches, the average of the preceding five years. The prospects of the <i>hammuti</i> crop are becoming gloomy. The dry weather has withered up the transplanted seedlings, and until heavy rain falls, no further transplantation can take place. The drought has also injured the <i>bhados</i> , the prospects of which were favourable. In most of the thanas six or seven annas of the <i>bhados</i> have been destroyed, particularly in Boda where the drought has been most severely felt.
	Cooch Behar, .. 30 ..	13	Weather—generally bright and sunny; very hot. Mekligunge had no rain, Mathabhanga 36, and Dinhatta 25. Prospects are becoming gloomy. If there be not rain soon the rice crop will fail. Much damage has been done by the protracted break with hardly a shower to vary it. The <i>dhan</i> seedlings are all turning yellow, and transplantation has quite ceased, except in the low lands. Early and sufficient rain is urgently required to give even an average crop.
Eastern Districts.			
Dacca DIVN.	17 Dacca, Sept 1 '77	1 37	Weather—seasonable. The prospects are favourable as yet, but the rivers have not risen to their proper height, and are falling, which will damage the <i>amun</i> crop and interfere with jute steeping. A rise now would still prevent damage.
	18 Furreedpore, .. 1 ..	1 68	The early part of the week was very hot. The rainfall has been rather short 2 66 inches fell at Madaripore. The prospects of the winter rice crop will be seriously affected if a rise in the river does not very soon take place. A rise, however, is reported at Mirzapore. If a gradual rise of the river now takes place, and there is an abundant rainfall, there should still be a good harvest.
	19 Backergunge, Aug. 30 ..	1 23	Weather—cool, rainy, and seasonable. The general condition and the prospects of the district crop (rice) continue to be good. In Dakhin Shabazpore the <i>aus</i> has been harvested and a good crop secured. In the wave-stricken tracts very considerable areas of the <i>amun</i> , or cold-weather rice crop, have been already planted, and the laying out of this important crop is still progressing briskly everywhere. The health of the people is fairly good, but there is as usual a considerable amount of sporadic sickness. The cattle are in good health, except in three thanas.
	20 Mymensingh, .. 31 ..	94	Weather—fair and sultry, with a few showers at intervals. The outturn of <i>aus</i> rice is considerably less than was expected. Excessive rain and floods, appear to have injured the <i>amun</i> seedlings to a considerable extent, especially in the Tangail sub-division.
CHITTAGONG DIVN.	21 Tipperah, .. 31 ..	1 09	Weather—fine and hot, with a few showers of rain. 28 of an inch registered at Brahmunbariah. The autumn rice has nearly all been harvested. The winter rice has been largely sown and the prospects are good.
	22 Chittagong ..	.	Return not received.
	23 Noakholly ..	.	Return not received.
	24 Chittagong Hill Tracts, Aug 28 ..	99	Weather—sunny, with occasional falls of rain throughout the week. Paddy is being gathered in early <i>jooms</i> . The flood is now subsiding. It has destroyed the paddy plants transplanted by the plough cultivators. Reports from the thanas have been called for.
	Hill Tipperah, .. 29 ..	38	Very light showers on three days of the week. Weather hotter than it has been for some weeks past. The crops have mostly recovered from the bad effects of the recent floods where damage was caused. Where they were entirely destroyed new seedlings have been planted.
BEHAR			
PATNA DIVN.	25 Patna, Sept 1 ..	1 31	The <i>bhados</i> crops have been much benefitted by the recent rain. More rain is still wanted for transplanting rice on the high lands.
	26 Gya, .. 1 ..	1 90	Weather—cooler for the past few days. High wind on the 30th August. Maximum thermometer 97° in the shade. 1 89 inches of rain registered at Jehanabad, 62 of an inch at Nowada, and 07 at Aurangabad. Prospects are much the same as last week. <i>Makui</i> has been cut in places. Public health is fairly good, but in Gya town there is a good deal of fever.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.—(Continued.)			
PATNA DIVN.	27 Shahabad, Sept 1 ..	·94	Weather—cloudy and hot. Buxar reports a small fall (·15 of an inch) on the 26th August, which has done good to the <i>bhadoi</i> on low lands. But rain is much wanted for the rice crop which is withering, and in some places ploughed up as hopeless. No rain in Sassorani, where paddy crop is drying up, though rain within a week will save it. People are said to be losing hope. Water is being taken from the canal. There was a little rain in Bhadooh (·56 of an inch). It is much wanted for <i>khuref</i> , and unless it comes very shortly the crop will be destroyed.
	28 Durbhanga, „ 1 '77	·70	Weather—oppressively hot. Rainfall partial. The winter rice crop is in want of rain especially in the Tajpore sub-division, where the <i>bhadoi</i> crop also has somewhat suffered. Elsewhere in the district the <i>bhadoi</i> is in fair condition, and in some parts is being harvested.
	29 Mozufferpore, „ 1 ..	·40	Weather—cool and cloudy with strong east wind. In the Mozufferpore sub-division the want of rain is severely felt. The rice crop is very stunted and backward, and the late sown <i>bhadoi</i> crop seems likely to fail without early and heavy rain. In the Hajepore sub-division there has been a fall of 1·59 inches at Hajepore, and the prospects of the <i>bhadoi</i> crops are generally good; but in the eastern part, near Mowhweh, where rain has been very deficient, the <i>makai</i> crop is reported to be almost a total failure. In the Seetamurhee sub-division no rain has fallen, and both the <i>bhadoi</i> and <i>aghami</i> crops are suffering. <i>Murwa</i> crop has failed. The health of the district is good.
	30 Sarun, „ 1 „	1·11	Weather—cloudy, with occasional slight showers. 1·46 inches registered at Sowani. Heavy rain still holds off, and no doubt the <i>aghami</i> rice must be seriously affected; but last year the cultivators were enabled to plant but some rice as late as the 22nd September. The <i>bhadoi</i> crops would still do fairly well with good rain. Indigo has done very well though the outturn has been somewhat diminished here and there for want of water.
	31 Chumparun, „ 1 „	·08	Weather—cloudy. Prospects continue so far good, but unless rain in sufficient quantities falls soon, the consequences to the <i>aghami</i> rice crop will be very disastrous. Rain is much wanted for the rice on the high lands.
BHAGULPORE DIVN.	32 Moughyr, „ 1 „	·23	Very little rain anywhere. ·17 of an inch fell at Beguserai and 47 at Jamooe. The prospects of rice are bad in Jamooe and Beguserai. In the Sudder, especially in Kurruckpore, a fair crop may be expected.
	33 Bhagulpore, „ 1 „	32	Alternate cloud and sunshine with high wind. The prospects are still good, but more rain is wanted on the high lands.
	34 Purneah, „ 1 „	1·92	Weather—showery. 41 of an inch registered at Kiseengunge and 1·62 inches at Arrareah. The rain which has fallen during the week has been very partial. The drought has seriously affected the transplanting of the winter rice.
	35 Maldah, „ 1 „	·77	Weather—fair, with occasional clouds. Temperature very hot. Slight showers of rain fell on the 29th and 30th August. An earthquake on the evening of the 28th. State and prospects of the crops continue to be satisfactory.
	36 Sonthal Pergha, „ 1 „	2·33	Very hot sun in the early part of the week. On the 30th August rain fell and there were heavy showers on the 31st. 1·31 inches registered at Deoghur, and 39 of an inch at Goida. At present the prospects are very good everywhere. Some <i>dhan</i> is still being planted out.
ORISSA.			
ORISSA DIVN.	37 Cuttack,	Return not received.
	38 Pooree, Aug 30 „	·10	Weather—hot and occasionally cloudy. ·41 of an inch registered at Khoordah. There were light showers of rain in some parts of the district, but weeding and transplanting of the <i>sarad</i> rice plants on the higher lands are stopped for want of sufficient rain, and in some places the plants have begun to suffer. The flood caused by heavy rains on the hills did some good, but much land is submerged, so that the crops thereupon are in danger of perishing. There has been no rain in the tract between the Chilka and the sea, and weeding and transplanting there have been stopped.
	39 Balasore, „ 31 „	3·20	Weather—showery, with a strong sun between the showers, which have been very heavy on the 30th and 31st August. Sufficient rain has fallen throughout the district, and the main crop is in a thriving condition. The harvest of the small autumn crop has commenced. Public health is good.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
CHOTA NAGPORE.			
	<i>South-West Frontier Agency.</i>		
40	Hazareebagh, Aug. 31 '77	1 23	Weather—seasonable. In the Sudder sub-division the rice has all been transplanted and the prospects are fairly good. In the Pachumba sub-division matters are not so favourable. Little or no rain has fallen during the week. Transplantation has been stopped, and the high land rice is withering, and without an immediate and a good fall of rain will be lost. The <i>bhadoi</i> crops, however, are good everywhere throughout the district.
41	Lohardugga, Sept. 1 ..	6 0	In the head-quarters sub-division the weather has been seasonable; prospects of the crops good; and fever less prevalent. The Sub-divisional Officer of Palamow reported on the 28th August that one inch of rain fell on the 21st and 22nd idem, and since then there was scorching sunshine most unfavourable to the crops. Three-fourths of the transplanting of late rice had been done, but further work had stopped for want of rain. The <i>makai</i> was flourishing, but other <i>bhadoi</i> crops were failing for want of rain.
42	Singbhoom, Aug. 31 ..	3 02	Weather—seasonable. The prospects of the crops are favourable, but Indian-corn is reported to be poor. The district is healthy.
43	Manbhoom, Sept 1 ..	4 96	Weather—dry in the first part of the week. Heavy rain off and on from the evening of 29th August. State and prospects of the crops are satisfactory on the whole. The Deputy Commissioner has heard of a partial blight or barrenness in the transplanted rice, and is making inquiries about it.

Published for general information.

The mean temperature of the seven days ... 81.6
 The average temperature of the corresponding period for 20 years ... 83.5
 The extreme variation of temperature during the seven days ... 13.5.
 The maximum temperature during the seven days ... 90.7

%
 The mean humidity during the seven days ... 89
 The average humidity of the corresponding period for 24 years ... 85

Inch.
 The total fall of rain from 26th August to 1st September ... 4.02
 The average fall of the corresponding period for 24 years ... 2.01
 The total fall from 1st January to 1st September ... 51.45
 The average fall of the corresponding period for 24 years ... 48.67

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard (Newman's No. 86) at the Surveyor-General's Office.

The hygrometric elements are obtained from tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modification of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, g gloomy, d drizzling, l lightning, l^r lightning reflection, t thunder, s strong wind.

PART I.

Orders and Notifications by the Lieut.-Governor of Bengal,
the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

REVENUE AND GENERAL DEPARTMENTS.

No. 4737A.

GENERAL.—*The 2nd September 1877.*—Baboo Gopal Chundra Mitra, Second Special Commissioner under the Chota Nagpore Tenures' Act, is allowed leave for two months, under the rules in Chapter VII of the Civil Leave Code, with effect from 1st October next, or from any day within one month of that date on which he may avail himself of it.

The 7th September 1877.—Baboo Otool Chunder Chatterjee, Deputy Magistrate and Deputy Collector, Balasore, is vested with the powers of a Collector under Act X of 1870 in that district.

Mr. E. A. Bradbury, c.s., is allowed subsidiary leave for seven days, under Rule 3, Section 24 of the Civil Leave Code, in extension of the subsidiary leave granted to him by the Government of Fort St. George.

The 8th September 1877.—Mr. J. O'Kinealy, Officiating District and Sessions Judge, 24-Pergunnahs, is appointed, under Section 3 of Act X of 1870, to perform the functions of a Judge in the town of Calcutta for the purpose of disposing of cases of land acquisition under the provisions of that Act.

The services of the following officers are placed at the disposal of the Government of Madras, instead of Messrs. A. Rattray and H. E. Wintle, whose deputation to Madras, as notified in the *Calcutta Gazette* of the 5th instant, is hereby cancelled:—

Mr. H. Rattray, Deputy Magistrate and Deputy Collector, Bogra.
Mr. H. G. C. Clarke, Assistant Sub-Deputy Opium Agent, Bettiah.

The 11th September 1877.—The Right Hon'ble the Secretary of State for India has been pleased to grant an extension of leave to Major T. H. Lewis, B.S.C., for two months on medical certificate.

The leave granted to Mr. G. N. Barlow, C.S.I., Officiating Commissioner of the Bhagulpore Division, under the orders of the 1st ultimo, published in the *Calcutta Gazette* of the 8th idem, will have effect from the 7th, instead of from the 1st, instant, as previously notified.

Moonshee Shere Ally, Officiating Deputy Magistrate and Deputy Collector, Sonthal Pergunnahs, was on privilege leave from the 10th June to the 12th July 1877.

Mr. K. G. Gupta, Officiating Joint-Magistrate and Deputy Collector, Patuakhally, in the Backergunge district, is appointed to have charge of the Perozepore division of that district.

Baboo Kristo Chunder Dutt, Deputy Magistrate and Deputy Collector, in charge of the Perozepore division of the Backergunge district, is appointed to have charge of the Patuakhally division of that district.

The above appointments will have effect from the first open day after the ensuing Doorga Poojah holidays.

The orders of the 4th instant, published in the *Calcutta Gazette* of the 5th idem, placing the services of the officers named below at the disposal of the Government of Madras, are hereby cancelled:—

Mr. W. H. M. Gun.
 „ C. J. O'Donnell.
 „ G. A. Grierson.

Mr. J. D. Gael.
 „ W. D. Blyth.

POLICE.—*The 2nd September 1877.*—Mr. W. B. Savi, Assistant Superintendent of Police, Naga Hills, is appointed to act in the First Grade of Assistant Superintendents of Police, with effect from the 24th May last.

The 11th September 1877.—Mr. E. St. George Kaye, Officiating Assistant Superintendent of Police, Jessore, was in charge of the office of District Superintendent of Police of that district from the afternoon of the 21st June to the forenoon of the 20th July last.

REGISTRATION.—*The 1st September 1877.*—Kazi Syed Mahomed Buksh was temporarily employed as Sub-Registrar of Sherghotty, in Gya, from the 23rd March to the 3rd June 1877, both days inclusive.

The 5th September 1877.—Baboo Khetter Chunder Bose, M.A. and B.L., was temporarily employed as Sub-Registrar of Ranchi, in Lohardugga, from the 14th March to 8th August 1877, *vice* Mr. R. H. Renny, transferred.

Baboo Rash Behary Bose, Deputy Magistrate and Deputy Collector, is also appointed to be Sub-Registrar of Ranchi, in Lohardugga, with effect from the 9th August 1877.

EDUCATION.—*The 7th September 1877.*—Baboo Bani Madhub Dey, M.A., Head Master, Bhagulpore Zillah School, is appointed to be Head Master of the Howrah Government School, *vice* Baboo Radha Govind Das, deceased.

The 8th September 1877.—Baboo Radhica Prosunno Mookerjee, Officiating Head Master of the Hooghly Normal School, is appointed to be a member of the School Committee of the amalgamated district of Hooghly and Howrah. Baboo Radhica Prosunno Mookerjee will also act as Secretary to the above Committee during the absence, on deputation, of Baboo Brohmo Mohun Mullick.

MEDICAL.—*The 6th September 1877.*—The services of Third Grade Assistant Surgeon Amirto Lall Mookerjee, a supernumerary at the Presidency, are placed temporarily at the disposal of the Government of India in the Home Department for employment in Madras.

The following gentlemen are appointed to be members of the Committee for the management of the Charitable Dispensary at Roygunge, in the district of Dinagepore:—

Baboo Amirto Lall Koar, Zemindar's Tehsildar.
 „ Gobind Chunder Ghose, Pleader, Moonsif's Court.
 „ Ambika Churn Koar, ditto ditto.

The 10th September 1877.—The services of the undermentioned Supernumerary Assistant Surgeons are placed temporarily at the disposal of the Government of India in the Home Department for employment in Madras:—

Assistant Surgeon Jogendra Nath Ghose.
 „ „ Nohce Bhoosan Sing.
 „ „ Gunga Gobind Sarkara.
 „ „ Bangabut Chundra Rudra.
 „ „ Lal Behari Roy.
 „ „ Nitro Gopal Mittra.
 „ „ Depin Behary Gupta.

The following gentlemen are appointed to be members of the Committee for the management of the Charitable Dispensary at Gya, in addition to the members appointed under orders of the 3rd July 1876 :—

Baboo Gokhul Chand Parohit	...	} Zemindars.
" Thakur Pershad Sing	...

NOTICE TO MARINERS.

(No. 18.)

Bay of Bengal—Coast of Burma.

DESTRUCTION OF KRISHNA SHOAL LIGHT-HOUSE.

INFORMATION has been received that the above Screw-pile Light-house has been entirely washed away.

NOTICE.—Steamers must now trust entirely to the deep sea lead when rounding the Baragua Flats, never shoaling under 10 fathoms there or in rounding the Krishna.

When bound for Rangoon, after bringing Alguada Reef Light to bear north 5 miles off, an E. $\frac{1}{2}$ S. course for a distance of 55 miles should put the vessel into 10 fathoms (low water) at 5 miles off the Flats.

Should a current set the vessel only half a point in shore of her course, she will get depths of 10 fathoms when only 35 miles from Alguada Light. On the contrary, if strong ebbs from the Irrawaddy delta have swept her half a point off shore, she will not be able to get bottom without stopping the engines.

When well past the Krishna, do not shoal under 6 fathoms till China-Bakeer Light is visible.

[*The bearings are magnetic. Variation 2° 15' Easterly in 1877.*]

By direction of the Government of India,

A. DUNDAS TAYLOR, *Comdr. (late I. N.),**Superintendent, Marine Survey of India.*

MARINE SURVEY DEPARTMENT, CALCUTTA, 27TH AUGUST 1877.

INTERMEDIATE LIGHT-SHIP, ENTRANCE TO RIVER HOOGHLY.

WITH reference to Notice to Mariners, No. 11 of 1877, issued from this Department, information has been received from the Government of Bengal that the "Intermediate" light-ship has been shifted from the position therein notified, and that, as a temporary or experimental measure, it is now placed in the following position:—

Lower Gasper Light-vessel	N. by W. $\frac{1}{2}$ W. 12 miles.
Centre Saugor Sand Buoy	N. $\frac{1}{2}$ E. 5 miles.
Bell Buoy	N. W. by N. $4\frac{1}{2}$ miles.
Upper Reef Buoy	W. by S. $\frac{1}{2}$ S. $6\frac{1}{2}$ miles.
Lower Reef Buoy	S. by W. $8\frac{1}{2}$ miles.

The vessel lies in $6\frac{1}{2}$ fathoms at low-water, and will exhibit the station lights as notified in the above referred to Notice.

[All bearings are magnetic. Variation $2^{\circ} 45' E.$]

By direction of the Government of India,

A. DUNDAS TAYLOR, *Comdr. (late I. N.),*
Superintendent, Marine Survey of India.

MARINE SURVEY DEPARTMENT, Calcutta, 20th August 1877.

This Notice affects the following Admiralty Charts:—Hooghly River, No. 136a; Sea face of Sunderbuns, No. 138a, Palmyras Point to Chittagong, No. 1681; Bay of Bengal, No. 70a; Indian Marine Survey Chart No. 115; also Admiralty Light List (India), 1877; Indian Marine Survey Light List, 1877; and Taylor's Sailing Directory, Vol. I., page 476.

NOTICE TO MARINERS

No. 16.

Bay of Bengal, Coast of Tenasserim, Mergui Archipelago.

DANGEROUS ROCKS IN FORREST STRAIT.

THE following information has been received from the Commander of the late S. S. *Kurrachee*, recently wrecked on a rocky patch off The Gregorys, in Forrest Strait, Mergui Archipelago.

A sunken rock (Kurrachee Rock), with only 5 feet on it at low water, lies in mid-channel in the following position:—

Centre of Large Gregory	W. by N. $\frac{1}{2}$ N.;	distant $1\frac{1}{2}$ miles.
South Gregory	S. W. $\frac{1}{2}$ W. southerly;	" $3\frac{1}{2}$ "
Turret Island	S. E. by S. $\frac{1}{2}$ S.;	" $7\frac{1}{4}$ "

The rock is a complete pinnacle with deep water close to all round, 7 to 12 fathoms were obtained within a boat's length of the wreck, and 16 fathoms about 100 yards off.

Another sunken rock lies to the north of The Gregorys, and less than two miles to the westward of the beaten track, in the following position :—

Bold promontory of Sullivan's Island	W. by S. $\frac{1}{4}$ S.
North Gregory	S. E. by S. $\frac{3}{4}$ S.
Canister	N. E. $\frac{1}{4}$ N. northerly.

RICHELIEU ROCK OFF KOPAH INLET.

Captain Richelieu, of the Siamese Navy, reports a rock (Richelieu Rock) awash at low water, sometimes breaking heavily. It lies 13 miles due west of Hayes Island, or in lat. $9^{\circ} 20' 30''$ N., long. $98^{\circ} 6' 45''$ E. (Admiralty Chart).

NOTE—As this Archipelago is only partially examined, and several rocks have recently been discovered, great caution is necessary in the navigation.

NOTIFICATION.

Dated 28th August 1877.

(1)

Rules for the Examination of, and grant of Certificates of Competency to, Masters, Mates, and Engineers of Vessels under the Merchant Shipping (Colonial) Act, 1869.

HER MAJESTY THE QUEEN, by the following order in Council, dated the 27th June 1876, having been pleased to extend to the presidency of Bengal the provisions of section 8 of the Merchant Shipping (Colonial) Act, 1869, the Lieutenant-Governor is pleased to order the publication of the following rules for the examination of, and grant of certificates of competency to, persons who intend to become masters, mates, and engineers of foreign-going vessels, for general information.

“AT THE COURT AT WINDSOR,

“The 27th day of June 1876.

“Present :

“THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

“WHEREAS by the Merchant Shipping (Colonial) Act, 1869, it is (among other things) enacted, that where the legislature of any British possession provides for the examination of, and grant of certificates of competency to, persons intending to act as masters, mates, or engineers on board British ships, and the Board of Trade report to Her Majesty that they are satisfied that the examinations are so conducted as to be equally efficient as the examination for the same purpose in the United Kingdom under the Acts relating to Merchant Shipping, and that the certificates are granted on such principles as to show the like qualifications and competency as those granted under the said Acts, and are liable to be forfeited for the like reasons and in the like manner, it shall be lawful for Her Majesty, by order in Council—

“ (1) to declare that the said certificates shall be of the same force as if they had been granted under the said Acts :

“ (2) to declare that all or any of the provisions of the said Acts which relate to certificates of competency granted under those Acts shall apply to the certificates referred to in the said order :

“ (3) to impose such conditions and to make such regulations with respect to the said certificates, and to the use, issue, delivery, cancellation, and suspension thereof, as to Her Majesty may seem fit, and to impose penalties, not exceeding fifty pounds, for the breach of such conditions and regulations.

“ And that upon the publication in the *London Gazette* of any such order in Council as last aforesaid, the provisions therein contained shall, from a date to be mentioned for the purpose in such order, take effect as if they had been contained in the Act, and that it shall be lawful for Her Majesty in Council to revoke any order made as aforesaid.

"And whereas the Governor-General of India in Council has by an Act, entitled 'An Act for the Amendment of the law relating to Merchant Seamen, No. I of 1859,' and the Lieutenant-Governor of Bengal in Council has by an Act, entitled 'The Steam Boat Survey Amendment Act of 1868,' provided for the examination of, and grant of certificates of competency for foreign ships to, persons intending to act as masters, mates, or engineers on board British ships, which certificates are hereinafter denominated Colonial Certificates of Competency, and the Board of Trade have reported to Her Majesty that they are satisfied that the said examinations are so conducted as to be equally efficient as the examinations for the same purpose in the United Kingdom under the Acts relating to Merchant Shipping, and that the certificates are granted on such principles as to show the like qualifications and competency as those granted under the said Acts, and are liable to be forfeited for the like reasons and in the like manner:

"Now, therefore, Her Majesty, in exercise of the powers vested in Her by the said first recited Act by and with the advice and consent of Her Privy Council, is pleased—

"(1) to declare that the said Colonial Certificates of Competency granted by the Lieutenant-Governor of the said British possession of Bengal shall be of the same force as if they had been granted under the said Acts:

"(2) to declare that all the provisions of the said Acts which relate to certificates of competency for the Foreign Trade granted under those Acts, except so much of the 139th section of the Merchant Shipping Act, 1854, and the 10th section of the Merchant Shipping Amendment Act, 1862, as requires the delivery by the Board of Trade to any master, mate, or engineer of a copy of any certificate to which he appears to be entitled as therein mentioned, so much of the third paragraph of the 23rd section of the said last-mentioned Act as requires at the conclusion of a case relating to the cancelling or suspending of a certificate, such a certificate, if cancelled or suspended, to be forwarded to the Board of Trade, and the whole of the provisions of the 4th paragraph of the same section shall apply to such Colonial Certificates of Competency:

"(3) to impose and make the conditions and regulations following, numbered 1 to 10 respectively, with respect to the said Colonial Certificates of Competency, and to the use, issue, delivery, cancellation, and suspension thereof, and to impose for the breach of such conditions and regulations the penalties therein mentioned:—

"Form of Certificate.

"1. Every such Colonial Certificate of Competency shall be on parchment, and as nearly as possible similar in shape and form to the corresponding Certificate of Competency for the foreign trade granted by the Board of Trade under the Acts relating to Merchant Shipping.

"Name of possession to be inserted.

"2. Every such Colonial Certificate of Competency shall have the name of the said possession of Bengal inserted prominently on its face and back.

"Certificates to be numbered consecutively.

"3. Such Colonial Certificates of Competency shall be numbered in consecutive order.

"Lists of certificates granted, cancelled, &c., to be sent to Registrar-General of Seamen.

"4. The Government of the said possession shall furnish the Registrar-General of Seamen in London from time to time with accurate lists of all such Colonial Certificates of Competency as may be granted by the Lieutenant-Governor of the said possession as aforesaid, or as may for any cause whatsoever be cancelled, suspended, renewed or re-issued, and shall also furnish him with duplicates of the applications for examination made by the persons to whom such certificates are granted.

"Three years' domicile or service necessary.

"5. Such Colonial Certificates of Competency shall be granted only to any person who for a period of three years immediately preceding his application for such colonial certificate, or for several periods amounting together to three years, the earliest of which shall have commenced within five years prior to such application, has been domiciled in, or has served in, a ship or ships registered in any part of Her Majesty's Indian dominions.

"Certificates of Competency granted contrary to this regulation shall be regarded as improperly granted.

"Certificates not to be granted when former are cancelled.

"6. Such Colonial Certificates of Competency shall not be granted to any person who may have had a certificate, whether granted by the Board of Trade or by the Government of a British possession, cancelled or suspended under the provisions of the said Acts or of any Act for the time being in force in any part of Her Majesty's dominions, unless the period of suspension has expired, or unless intimation has been received from the Board of Trade, or the Government by whom the cancelled or suspended certificate was originally granted, to the effect that no objection to the grant of such Colonial Certificate is known to exist, or unless a new certificate has been granted to him by such Board or Government; and in the last-named event no such Colonial Certificate of Competency shall be for a higher grade than the certificate so last granted as aforesaid.

"Colonial certificates of competency granted contrary to this regulation shall be regarded as improperly granted.

"Certificates improperly granted may be cancelled without formal investigation."

"7. Any such Colonial Certificate of Competency which appears from information subsequently acquired, or otherwise, to have been improperly granted, whether in the above or in any other respect, may be cancelled by the Lieutenant-Governor of the said possession, or by the Board of Trade in the United Kingdom, without any formal investigation, under "The Merchant Shipping Act, 1854," and the holder of such certificate shall thereupon deliver it to the Board of Trade or the Lieutenant-Governor of the said possession, or as they or either of them may direct, and in default thereof shall incur a penalty not exceeding fifty pounds in the United Kingdom, or five hundred rupees in India, which shall be recoverable in the same manner as penalties imposed by the Acts relating to Merchant Shipping are thereby made recoverable.

"Cancellation, &c., of a Certificate shall involve cancellation of all the other Certificates possessed by its owner."

"8. Every decision with respect to the cancellation or suspension of a certificate pronounced by any Board, naval or other court, or tribunal under the provisions of the said Acts, shall extend equally to all the Colonial Certificates at the time possessed by the person in respect of whom the decision is made, as well as to all certificates granted to him under any of the Acts relating to Merchant Shipping, and whether such certificates be specified in such decision or not.

"Certificates believed to be fraudulent may be demanded."

"9. Any officer of the Board of Trade, or the Registrar-General of Seamen, or any of his officers or a superintendent of a mercantile marine office, or a consular officer, or duly appointed shipping officer in a British possession, may demand the delivery to him of any such Colonial Certificate of Competency which he has reason to believe has been improperly issued, or is forged, altered, cancelled, or suspended, or to which the person using it is not justly entitled, and may detain such certificate for a reasonable period for the purpose of making inquiries respecting such issue, forgery, alteration, cancellation, suspension, or possession; and any person who, without reasonable cause, neglects or refuses to comply with such demand shall incur a penalty not exceeding twenty pounds, or two hundred rupees, which shall be recoverable in the same manner as penalties imposed by the Acts relating to Merchant Shipping are thereby made recoverable.

"Suspended Certificates to be re-issued only by Colony by which originally granted."

"10. Any such Colonial Certificates of Competency which has from any cause been cancelled or suspended, whether by a tribunal in Bengal or elsewhere, shall be renewed or re-issued only by the Lieutenant-Governor of Bengal.

"This order shall take effect in the said possession of Bengal from and after the date hereof.

"C. L. PEEL."

INTRODUCTORY RULES.

I. CANDIDATES are to apply to the Master Attendant for the application paper to be examined, form EXN2. The printed instructions contained on it are to be strictly attended to, to prevent delay; it should be returned with testimonials as early as possible, when each form will be numbered consecutively, and the candidate informed of the date and hour he is to appear for examination.

II. Candidates are required to appear punctually at the time appointed for examination.

III. Candidates undergoing examination will be allowed only the books and paper found for their use; any infraction of this rule will subject the offender to all the penalties of a failure.

IV. Candidates spoiling or defacing any of the books belonging to the Board will be required to replace such books; examination papers will be detained till this is done; further, the defaced books will not be removed.

V. Candidates discovered in copying from another, or affording assistance, or giving information, or in any way communicating with another, will be subject to a failure.

VI. Candidates will not be allowed slates or waste paper to work their problems on.

VII. Candidates will not be allowed to leave the room until they have handed in their papers.

VIII. Candidates will be allowed to work out the problems by the methods and tables they have been accustomed to use. The time allotted is five hours; if then unfinished, they have failed.

IX. Candidates will use the hourly difference given in the Nautical Almanac to correct the declination and equation of time. Corrections by inspection, such as tables IX, XI, and XXI of Norie's Epitome, and as given in many works on navigation, will not be allowed: every correction must appear on the examination papers.

X. Candidates will bring their answers to all problems within one mile of position of correct results:—in finding the longitude by chronometer the logarithms used in finding the hour angle should be taken out for seconds of arc; in all other problems the logarithms to the nearest minute will be sufficiently correct.

XI. Candidates are enjoined to request their Commanders, when granting them testimonials, to note character, sobriety, experience, ability, and conduct during the time they may have served with such Commander; and applicants not producing them will not be examined.

XII. Testimonials of service of foreigners, and of British seamen serving in foreign ships, must be confirmed either by the Consul of the country to which the ship belongs, or by some recognized official of that country, or by some creditable person on the spot having personal knowledge of the facts requiring to be established; and

XIII. In cases where there is doubt, the applicants will have to prove to the Master Attendant, by the articles of the ship or official log-book, the verification of their services, or they will not be considered qualified.

XIV. Candidates will not be considered qualified unless they can prove themselves to have been domiciled in India for at least three years.

FOR CERTIFICATES OF COMPETENCY FOR FOREIGN-GOING SHIPS.

Rules for Qualifications.

A Second Mate must be seventeen years of age, and must have served four years at sea.

An Only Mate must be nineteen years of age, and have served five years at sea.

A First Mate must be nineteen years of age, and have served five years at sea, of which one year must have been as either Second or Only Mate.

A Master must be twenty-one years of age, and have served six years at sea, of which one year must have been as First Mate and one year as Second Mate.

Rules for examination.

1. THE forms used in working the various problems in navigation will be in all essentials *fac similes* of those in use by the Board of Trade.

2. The Examiners will inscribe on candidates' examination papers the words "passed" or "failure."

3. If a candidate fails in navigation three times, he will be turned back for three months; should he fail in seamanship, he will not be re-examined until after a lapse of six months. In all cases of failure the candidate must be re-examined *de novo*.

4. A Second Mate, in navigation, must write a legible hand and understand the first five rules in arithmetic and the use of logarithms. He must be able to work a day's work complete, including bearings and distance of the port he is bound to by Mercator's sailing, to correct the sun's declination for longitude, to find the latitude by meridian altitude of the sun, and to work such other easy problems of a like nature as may be put to him. He must understand the use of the sextant, be able to observe with it and read off the arc. He must be acquainted with the International Code of Signals for the use of all nations.

In seamanship, he must give satisfactory answers as to the rigging and unrigging of ships, stowing of holds, &c.; must understand the measurement of the log-line, glass, and lead-line; be conversant with the rule of the road as regards both steamers and sailing vessels, and the lights and fog-signals carried by them.

5. An Only Mate, in navigation, must, in addition to the qualifications required for a Second Mate, be able to observe and calculate the amplitude of the sun and deduce the variation of the compass therefrom, and be able to find the longitude by chronometer by the usual methods: he must know how to lay off the place of the ship on the chart, both by bearing of known objects and by latitude and longitude; he must be able to determine the error of a sextant, and to adjust it; also to find the time of high-water from the known time at full and change.

In seamanship, in addition to what is required for a Second Mate, he must know how to moor and unmoor and to keep a clear anchor; to carry out an anchor, to stow a hold, and to make the requisite entries in the ship's log-book. He will also be questioned as to his knowledge of the use and management of the mortar and rocket-lines in the case of the stranding of a vessel, as explained in the official log-book.

6. A First Mate, in navigation, must, in addition to the qualifications required for an Only Mate, be able to observe azimuths and compute the variation, to compare chronometers and keep their rates, and find the longitude by them from an observation of the sun, to work the latitude by a single altitude of the sun of the meridian, and be able to use and adjust the sextant by the sun. He will also give written answers to as many questions under the head of definitions as the Examiners may mark for that purpose.

In seamanship, in addition to the qualifications required for an Only Mate, a more extensive knowledge of seamanship will be required, as to the shifting of large spars and sails, managing a ship in stormy weather, taking in and making sail, shifting yards and masts, &c., getting heavy weights, anchors, &c., in and out, casting a ship on a lee-shore, and securing the masts in the event of accident to the bowsprit.

7. A Master; in navigation, in addition to the qualifications required for a First Mate, must be able to find the latitude by a star, &c. He will be asked questions as to the nature of the attraction of the ship's iron upon the compasses, and as to the method of determining it; he will be examined in so much of the tides as is necessary to enable him to shape a course, and to compare his soundings with the depths marked on the chart; he will also, in addition to giving written answers to questions on definitions, give written answers to at least eight of the questions in form EXN7.

In seamanship, in addition to the qualifications required for a First Mate, he will be examined as to his competency to construct jury-rudders and rafts, and as to his resources for the preservation of the ship's crew in the event of wreck. He must possess a sufficient knowledge of what is required to be done by law as to entry and discharge, and the management of his crew, and as to penalties and entries to be made in the official log-book, and of a knowledge of the measures for preventing and checking the outbreak of scurvy on boardship. He will be questioned as to his knowledge of invoice, charter party, Lloyd's Agents, and as to the nature of bottomry, and he must be acquainted with the leading lights of the coast and channels he has been accustomed to navigate or which he is going to use.

The fees to be paid by candidates for certificates of competency for foreign-going ships will be—for Second Mate ten rupees, First Mate and Only Mate, if previously possessing an inferior certificate, five rupees, if not, ten rupees; Master twenty rupees on their applying to the Master Attendant for the form EXN2; and in the event of the candidate failing to pass, half the fee he has paid will be returned to him with his testimonials, on his producing to the Clerk, Local Marine Board, form EXN17, which will be given him by the Examiners. If the candidate passes, he will have given him form EXN16, on which he will get his certificate of competency, together with his testimonials, from the Master Attendant. The fee for the renewal of any certificate will be five rupees.

Voluntary Examination in Steam.

Masters, First and Only Mates, who are possessed of a certificate of competency, or entitled to such certificates, will be allowed voluntary examinations in the practical knowledge of the use and working of the steam-engine. Any Master or Mate desirous to be examined in steam must deliver to the Master Attendant a statement, in writing, to that effect upon form of application EXN2; if the applicant has a certificate of competency, such certificate must be delivered with his statement; if he is about to pass an examination for a certificate of competency at the same time, the applications should be sent in together.

The examination will be *visd voce* and extend to general knowledge of the practical use and working of the steam engine, and the various valves, fittings, and pieces of machinery connected with it. Intricate theoretical questions on calculations of horse power, or area of cylinders and valves, or any of the more difficult questions which appertain to steam-engines and boilers, will not be asked. The examination, in fact, will be confined to such questions as a Master of a steam-vessel may be called on to perform in a case of death, incapacity, or delinquency of the Engineers. If the applicant fails to answer some few of the questions, but shall, in the opinion of the Examiner, have a sufficient knowledge to perform the work in view, the Examiner shall exercise his discretion as to whether he has a sufficient knowledge or not. The Examiner will provide drawings and working sections, on a sufficiently large scale, of the various parts of a steam-engine and of the valves and slides, &c., as may be necessary, and will require the applicant to make use of them in giving his answers to the various questions; should an opportunity offer, the applicant will be permitted, under the guidance of the Examiner, to start and stop the engines of some vessel which may have steam up. A fee of ten rupees must be paid by the applicant for his examination in steam. If he fails, his certificate will be returned to him, but no part of his fee will be returned. If he passes, the form EXN16 will be given him, and the Master Attendant will write the words "passed in steam," with date, place, and number on the certificate and its counterpart; the former, with testimonials, will be returned to the applicant.

Examination of Engineers.

1. Certificates of competency will be granted to those persons who pass the requisite examination and otherwise comply with the requisite conditions.

2. The same introductory rules are to be observed by Engineers in making application to be examined, and in forwarding testimonials, &c., &c., as in the case of applications by Masters and Mates.

For a Certificate of Competency as Second Class Engineer.

A candidate must be twenty-one years of age.

A.—He must have completed the usual apprenticeship on shore and have been employed two years as an Engineer or Engine-driver, at least one year of which must have been at sea in the engine-room of a steamer.

B.—He must be able to give a description of the boilers, and the method of staying them, together with the use and management of the different valves, cocks, pipes, and connections.

C.—He must be able to state how a temporary or permanent repair could be effected in case of derangement of part of the machinery, or of a total break-down.

D.—He must understand the use of the barometer, thermometer, hydrometer, and salinometer.

E.—He must state the cause, effects, and usual remedies for incrustation and corrosion.

F.—He must write a legible hand and understand the first five rules of arithmetic and decimals.

G.—He must be able to pass a creditable examination as to the various constructions of paddle and screw-engines in general use, and as to the details of the different working parts, external and internal, with the use of each part.

H.—He must be able to make rough working drawings of the different parts of the engines and boilers.

For a Certificate of Competency as First Class Engineer.

A candidate must be twenty-two years of age, and in addition to the qualifications required of a Second Class Engineer—

A.—He must have served at sea for not less than one year in the capacity of a Second Class Engineer with a Second Class Engineer's certificate, or in a higher capacity.

B.—He must be able to make rough working drawings of the different parts of the engines and boilers.

C.—He must also be able to take off and calculate indicator diagrams.

D.—He must be conversant with surface condensation, superheating, and the working of steam expansively.

E.—He must also be conversant with the principles of the different kinds of compound engines.

F.—He must be able to calculate safety-valve pressures and the strength of the boiler.

G.—He must be able to explain the method of testing and altering the setting of the slide valves, and of testing the fairness of the paddle and screw shafts, and of adjusting them.

H.—He must be able to state the general proportions borne by the principal parts of the machinery to each other.

In addition to the above, every candidate will have to prove by his testimonials his service, character, sobriety, experience, ability, and conduct; and no candidate not showing his character for sobriety will be allowed to pass on any pretext whatever.

Examination and Fees.

The *viva voce* examination will be directed specially to the foregoing points, and also to the duties and business of an Engineer generally.

2. If the candidate passes the *viva voce* examination creditably, a set of questions will be given him to work out.

3. A candidate will be allowed six hours to work out these questions, according to the methods he has accustomed to use; and

A.—If at the expiration of the time allowed he has correctly worked out the whole of the questions set him, he will be declared to have passed.

B.—If at the expiration of the time allowed he has not worked out the whole of the questions set him, but if the result of the *viva voce* examination, taken in connection with the answers to such of the questions as he has worked out, are sufficient to satisfy the Examiners that the applicant is competent, he will be declared to have passed.

C.—In other cases he will be declared to have failed.

4. If the applicant passes he will receive form EXN16 from the Examiners, on which he will get his certificate of competency, with his testimonials, from the Master Attendant. If the applicant fails, half the fee will be returned to him by the clerk on his producing form EXN17, which will be given him by the Examiner. Applicants may be re-examined *de novo* after a lapse of three months.

5. The fees are as follows, viz for second class certificate of competency, fifteen rupees; first class certificate of competency, twenty rupees. The fee for the renewal of any certificate will be five rupees.

(2.)

Revised Rules for the Examination of, and grant of Certificates of Competency to, Masters, Mates, and Engineers of Vessels under the Indian Acts.

In supersession of the rules published at page 1387 of the *Calcutta Gazette* of 28th July 1869, and at page 1817 of the *Calcutta Gazette* of 11th October 1871, the following revised rules under section 10 of Act I of 1859, passed by the Legislative Council of the Government of India, for the examination of, and grant of certificates of competency to, persons who intend to become Masters and Mates of Home trade ships, or who wish to procure certificates of service, and under section 8 of Act I of 1868, passed by the Lieutenant-Governor of Bengal in Council, for the examination of, and grant of certificates of competency to, persons who intend to become Engineers of steamers, are published for general information.

GENERAL.

1. WHEN a home trade ship is engaged in voyages that require a knowledge of navigation on the part of the Master and Mates, they must hold certificates of competency under the rules applying to foreign trade ships. The following rules apply only to the Masters and Mates of ships making local coasting voyages:—

Rules for Home Trade Coasting Ships.

I. CANDIDATES are to apply to the Master Attendant for the application paper to be examined, form EXN2. The printed instructions contained on it are to be strictly attended to, to prevent delay; it should be returned with testimonials as early as possible, when each form will be numbered consecutively, and the candidate informed of the date and hour he is to appear for examination.

- II. Candidates are required to appear punctually at the time appointed for examination.
- III. Candidates undergoing examination will be allowed only the books and paper found for their use; any infraction of this rule will subject the offender to all the penalties of a failure.
- IV. Candidates spoiling or defacing any of the books belonging to the Board will be required to replace such books; examination papers will be detained till this is done; further, the defaced books will not be removed.
- V. Candidates discovered in copying from another, or affording assistance, or giving information, or in any way communicating with another, will be subject to a failure.
- VI. Candidates will not be allowed slates or waste paper to work their problems on.
- VII. Candidates will not be allowed to leave the room until they have handed in their papers.
- VIII. Candidates will be allowed to work out the problems by the methods and tables they have been accustomed to use. The time allotted is five hours; if then unfinished, they have failed.
- IX. Candidates will use the hourly difference given in the Nautical Almanac to correct the declination and equation of time. Corrections by inspection, such as tables IX, XI, and XXI of Norie's Epitome, and as given in many works on navigation, will not be allowed: every correction must appear on the examination papers.
- X. Candidates will bring their answers to all problems within one mile of position of correct results: in finding the longitude by chronometer the logarithms used in finding the hour angle should be taken out for seconds of arc; in all other problems the logarithms to the nearest minute will be sufficiently correct.
- XI. Candidates are enjoined to request their Commanders, when granting them testimonials, to note character, sobriety, experience, ability, and conduct during the time they may have served with such Commander; and applicants not producing them will not be examined.
- XII. Testimonials of service of foreigners and of British seaman serving in foreign ships must be confirmed either by the Consul of the country to which the ship belongs, or by some recognized official of that country, or by some creditable person on the spot, having personal knowledge of the facts requiring to be established; and
- XIII. In cases where there is doubt, the applicants will have to prove to the Master Attendant, by the articles of the ship or official log-book, the verification of their services, or they will not be considered qualified.

Qualifications and Rules for Examination for Certificates of Competency for Home Trade Passenger Ships.

A MATE must be nineteen years of age, and must have served four years in a home trade or other vessel; he must write a legible hand and understand the first four rules in arithmetic; he must know and understand the rule of the road, and describe and show that he understands the Admiralty Regulations as to lights and fog-signals; he must be able to take a bearing by compass, and prick off the ship's course on a chart; he must know the marks on the lead-line and be able to mark and heave the log; and he must possess a knowledge of handling a sailing vessel.

A Master must be twenty-one years of age, and must have served six years in the home trade or other vessels, of which one year must have been as mate of a home trade vessel.

In addition to the qualifications required for a Mate, he must show that he is capable of navigating a ship along any coast,—for which purpose he will be required to draw upon a chart produced by the Examiners the courses and distances he will run along shore from headland to headland,—and to give, in writing, the courses and distances corrected for variation and the bearings of the head-lands and lights, and to show when the courses should be altered either to clear any danger or to adapt it to the coast. He must understand how to make his soundings according to the state of the tide, and he must be acquainted with the lights of the coast and channels he has been accustomed to navigate, or those which he is going to use. He will further be required to handle a sailing vessel. He will also be questioned as to his knowledge of the use and management of the mortar and rocket-lines in the case of the stranding of a vessel, as explained in the official log-book.

Note.—The International Code of Signals will form part of every candidate's examination in navigation, and the Examiners will have a small set of flags, &c., for use in the Board room.

The fees to be paid by candidates for certificates of competency for home trade passenger ships, will be for Mate five rupees and for Master ten rupees, on their applying to the Master Attendant for the form EXN2; and in the event of the candidate failing to pass, half the fee he has paid will be returned to him with his testimonials, on his producing to the Clerk, Local Marine Board, form EXN17, which will be given him by the Examiners. If the candidate passes, he will have given him form EXN16, on which he will get his certificates of competency, together with his testimonials, from the Master-Attendant.

Voluntary Examination in Steam.

Masters, First and Only Mates, who are possessed of a certificate of competency, or entitled to such certificates, will be allowed voluntary examinations in the practical knowledge of the use and working of the steam-engine. Any Master or Mate desirous to be examined in steam must deliver to the Master-Attendant a statement, in writing, to that effect upon form of

application EXN2: if the applicant has a certificate of competency, such certificate must be delivered with his statement; if he is about to pass an examination for a certificate of competency at the same time, the applications should be sent in together.

The examination will be *visd voce* and extend to general knowledge of the practical use and working of the steam-engine, and the various valves, fittings, and pieces of machinery connected with it. Intricate theoretical questions on calculations of horse-power, or area of cylinders and valves, or any of the more difficult questions which appertain to steam-engines and boilers, will not be asked. The examination, in fact, will be confined to such questions as a Master of a steam-vessel may be called on to perform in case of death, incapacity, or delinquency of the Engineers. If the applicant fails to answer some few of the questions, but shall, in the opinion of the Examiner, have a sufficient knowledge to perform the work in view, the Examiner shall exercise his discretion as to whether he has a sufficient knowledge or not. The Examiner will provide drawings and working sections, on a sufficiently large scale, of the various parts of a steam-engine and of the valves and slides, &c., as may be necessary, and will require the applicant to make use of them in giving his answers to the various questions; should an opportunity offer, the applicant will be permitted, under the guidance of the Examiner, to start and stop the engines of some vessel which may have steam up. A fee of ten rupees must be paid by the applicant for his examination in steam. If he fails, his certificate will be returned to him, but no part of his fee will be returned. If he passes, the form EXN16 will be given him and the Master-Attendant will write the words "passed in steam," with date, place, and number on the certificate and its counterpart; the former, with testimonials, will be returned to the applicant.

Certificates of Service.

Act I of 1859, Section 12.—Certificates of service, differing in form from certificates of competency, shall be granted as follows (that is to say):—

(1) Every person who, before the passing of this Act, has served as Master in the British Merchant Service, or as Master of any foreign-going ship registered under Act X of 1841, or who has attained or shall attain the rank of Lieutenant, Master, Passed Mate or Second Mate, or any higher rank in the service of Her Majesty or of the Indian Government, shall be entitled to a certificate of service as Master of foreign-going ships.

(2) Every person who, before the passing of this Act, has served as Mate in the British Merchant Service, or as Mate of any such ship as aforesaid, shall be entitled to a certificate of service as Mate for foreign-going ships.

(3) Every person who, before the passing of this Act, has served as Master or Mate of a home trade ship of a burden exceeding three hundred tons shall be entitled to a certificate of service as Master or Mate (according to such previous service) for such home trade ship.

And each of such certificates of service shall contain particulars of the name and of the length and nature of the previous service of the person to whom it is delivered; and the local Government, or such other authority (Master-Attendant) as aforesaid, shall deliver such certificates of service to the various persons respectively entitled thereto, upon their proving themselves to have attained such rank or to have served as aforesaid, and upon their giving a full and satisfactory account of the particulars aforesaid.

Section 13.—No foreign-going ship or home trade ship of a burden exceeding three hundred tons shall go to sea from any port in India, unless the Master, and one officer besides the Master, have obtained and possess valid and appropriate certificates either of competency or service under this Act or under the Merchant Shipping Act, 1854; and whoever, having been engaged to serve as Master or Mate, goes to sea as aforesaid as such Master or Mate without being at the time entitled to, and possessed of, such a certificate as heretofore required, and whoever employs any person as such Master or Mate without ascertaining that he is at the time entitled and possessed of such certificate, shall for each offence be liable to a penalty of five hundred rupees.

Section 14.—Every certificate of competency for a foreign-going ship shall be deemed to be of a higher grade than the corresponding certificate for a home trade ship, and shall entitle the lawful holder thereof to go to sea in the corresponding grade in such last-mentioned ship; but no certificate for a home trade ship shall entitle the holder to go to sea as Master or Mate of a foreign-going ship.

Section 15.—All certificates, whether of competency or service, shall be made in duplicate, and one part shall be delivered to the person entitled to the certificate, and the other shall be kept and recorded as the local Government shall direct (by Master-Attendant). A note of all orders made for cancelling, suspending, altering, or otherwise affecting any certificate in pursuance of the powers herein contained shall be entered in the record of certificates.

Section 16.—Whenever any Master or Mate proves to the satisfaction of the local Government, or such other authority as aforesaid, that he has, without fault on his part, lost or been deprived of any certificate already granted to him, a copy of the certificate to which, by the record so kept as aforesaid, he appears to be entitled shall be delivered to him and shall have all the effect of the original.

The fee for a certificate of service, or the renewal of any certificate, will be five rupees.

Examination of Engineers.

1. No steam-vessel shall obtain a clearance to proceed to sea for any port in British India, and no steam-vessel shall ply on any of the rivers or waters within the provinces subject to the Lieutenant-Governor of Bengal, and no steam-vessel coming within the meaning of this Act

(Act I of 1868, B.O.) or of Act V of 1862 (B.C.), shall be permitted to run or ply without having in charge of the engines thereof an Engineer possessing a certificate of competency or a certificate of service, provided that small river steam-boats or ferry steamers, with engines not exceeding 50 nominal horse-power, shall be permitted to run or ply on condition of having in charge of their engines a certificated native engine-driver.

2. Certificates of competency will be granted to those persons who pass the requisite examination and otherwise comply with the requisite conditions.

3. The same introductory rules are to be observed by Engineers in making application to be examined, and in forwarding testimonials, &c., &c., &c., as in the case of applications by Masters and Mates.

For a Certificate of Competency as Native Engine-driver.

I. Such certificates of competency will be granted only to those persons who possess the qualifications hereinafter detailed and otherwise comply with the requisite conditions.

II. Applications for such certificates of competency are to be made to the Master-Attendant, who will appoint Examiners to test the qualifications of candidates under the following rules.

III. A candidate for a certificate of competency under these rules must have attained the age of twenty-two years.

IV. He must have been three years principal native serang or tindal in the engine-room of a steamer; or have been for three years in charge of the engine of a factory or mill under a European manager or Engineer, as well as one year principal native serang or tindal in the engine-room of a steamer under a certificated Engineer.

V. He must pass a *viva voce* examination before the Board of Examiners as to the working of an engine and the use of its different parts.

VI. He must have the testimonial, shown in one of the appendices to this code of rules, filled up by the Engineer with whom he has last served, or his other testimonials must contain all the particulars therein required.

VII. He must be able to show his practical qualifications by one week's trial in a Government steamer, after fulfilling the other tests to which he will be subjected.

VIII. The fee for examination under these rules will be fifteen rupees, and the amount must be remitted with the application to the Master-Attendant. If a candidate fails, half the fee he has paid will be returned to him by the Master-Attendant.

IX. Such certificates will be granted by the Master-Attendant in the form prescribed in one of the appendices to this code.

X. In case of failure, candidates may be re-examined *de novo* after a lapse of six months, if the past examination showed that they might reasonably be expected to qualify.

For a Certificate of Competency as Second Class Engineer.

A candidate must be twenty-one years of age.

A.—He must have completed the usual apprenticeship on shore and have been employed two years as an Engineer or Engine-driver, at least one year of which must have been at sea in the engine-room of a steamer.

B.—He must be able to give a description of the boilers and the method of staying them, together with the use and management of the different valves, cocks, pipes, and connections.

C.—He must be able to state how a temporary or permanent repair could be effected in case of derangement of part of the machinery, or of a total break-down.

D.—He must understand the use of the barometer, thermometer, hydrometer, and salinometer.

E.—He must state the cause, effects, and usual remedies for incrustation and corrosion.

F.—He must write a legible hand and understand the first five rules of arithmetic and decimals.

G.—He must be able to pass a creditable examination as to the various constructions of paddle and screw engines in general use, and as to the details of the different working parts, external and internal, with the use of each part.

H.—He must be able to make rough working drawings of the different parts of the engines and boilers.

For a Certificate of Competency as First Class Engineer.

A candidate must be twenty-two years of age, and in addition to the qualifications required of a Second Class Engineer—

A.—He must have served at sea for not less than one year in the capacity of a Second Class Engineer with a Second Class Engineer's certificate, or in a higher capacity.

B.—He must be able to make rough working drawings of the different parts of the engines and boilers.

C.—He must also be able to take off and calculate indicator diagrams.

D.—He must be conversant with surface condensation, superheating, and the working of steam expansively.

E.—He must also be conversant with the principles of the different kinds of compound engines.

F.—He must be able to calculate safety-valve pressures and the strength of the boiler.

G.—He must be able to explain the method of testing and altering the setting of the slide valves, and of testing the fairness of the paddle and screw shafts, and of adjusting them.

H.—He must be able to state the general proportions borne by the principal parts of the machinery to each other.

In addition to the above, every candidate will have to prove by his testimonials his service, character, sobriety, experience, ability, and conduct; and no candidate not showing his character for sobriety will be allowed to pass on any pretext whatever.

For a Certificate of Competency as a Voluntary Extra First Class Engineer.

1. A candidate for this, the highest grade of certificate granted by the Bengal Government, must be in possession of a first class certificate of competency.

2. He must possess a through knowledge of the construction and working of marine engines and boilers in all their parts, and be so far acquainted with the elements of theoretical mechanics as to comprehend the general principles of the working of the machine.

3. He must understand how to apply the indicator and draw the proper conclusions from the diagrams.

4. He must be acquainted with the principles of expansion, and able to prove, or at least to illustrate, the use of the expansion gear.

5. He must be able to draw rough sketches of any part of the machinery, with figured dimensions, fit to work from.

Examination and Fees.

The *visd voce* examination will be directed specially to the foregoing points, and also to the duties and business of an Engineer generally.

2. If the candidate passes the *visd voce* examination creditably, a set of questions will be given him to work out.

3. A candidate will be allowed six hours to work out these questions, according to the methods he is accustomed to use; and

A.—If at the expiration of the time allowed he has correctly worked out the whole of the questions set him, he will be declared to have passed.

B.—If at the expiration of the time allowed he has not worked out the whole of the questions set him, but if the result of the *visd voce* examination, taken in connection with the answers to such of the questions as he has worked out, are sufficient to satisfy the Examiner that the applicant is competent, he will be declared to have passed.

C.—In other cases he will be declared to have failed.

4. If the applicant passes, he will receive form EXN16 from the Examiners, on which he will get his certificate of competency, with his testimonials, from the Master Attendant. If the applicant fails, half the fee will be returned to him by the Clerk on his producing form EXN17, which will be given him by the Examiner. Applicants may be re-examined *de novo* after a lapse of three months.

5. The fees are as follows, viz. for second class certificate of competency fifteen rupees; first class certificate of competency twenty rupees; voluntary extra first class certificate of competency thirty rupees. The fee for a certificate of service, or the renewal of any certificate, will be five rupees.

Certificate of Service.

Every person being twenty-two years of age, who, before the passing of this Act (Act I of 1868), has served for not less than one year as First or Only Engineer in any steam-vessel, or who has attained, or shall attain, the rank of First Assistant Engineer in the service of Her Majesty, provided he has not been dismissed for drunkenness or other gross misconduct, shall be entitled to a certificate of service.

(3)

Rules for the Appointment of a Board for the Examination of Masters, Mates, and Engineers of Vessels.

THE following rules for the appointment of a qualified Board for the examination of Masters, Mates, and Engineers of vessels, which have received the approval of the Governor-General in Council and were published by this Government in the *Calcutta Gazette* of the 31st May 1876, are republished for general information.

RULES.

THE Examination Board for conducting the examinations for granting certificates of competency to seamen shall be constituted as follows:—

1. Senior officer of the Royal Navy present, for the time being, at the head-quarters of the Marine Survey Department, shall be *ex-officio* Examiner in navigation, provided that he be an officer of the navigating branch of the Royal Navy, and of not lower rank than a Staff Lieutenant.

2. (a)—The Examiners in seamanship shall be three experienced masters who have been recently in successful command of merchant vessels. These may be selected either from the commanders of vessels lying in the port of Calcutta or from the surveyors of shipping in the port.

(b)—They shall be appointed by the Lieutenant-Governor, on the nomination of the Master-Attendant.

(c)—The permanent President of the Seamanship Examiners shall be the Deputy Master-Attendant.

3. (a)—Three Engineers shall be appointed by the Lieutenant-Governor, on the nomination of the Chief Engineer of the Dockyard, as Examiners in steam. These will usually be selected from the Superintending Engineers of the different steam companies in the port.

(b)—The Chief Engineer of the Dockyard shall be the permanent President of the Engineer Examiners.

4. The examinations shall be held quarterly, on the first Monday of January, April, July, and October, or on the first open day thereafter, if the day fixed should be an authorized holiday.

5. The Examiners shall receive the following fees for each examination :—

				Rs.
Seamanship Examiners	32 each.
Engineer Examiners	32 „

NOTIFICATION.

The 8th September 1877.—It is hereby notified that, under Section 7 of Act III of 1877 (the Indian Registration Act), the Lieutenant-Governor has been pleased to sanction the abolition of the Sub-Registry Office at Belgachi, in the district of Furreedpore, and the re-attachment of thana Belgachi to the Registration sub-district of Goalundo. The changes will have effect from the 1st October 1877.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 2nd September 1877.—THE following bye-laws, framed by the Municipal Commissioners of Purneah at a meeting, under Section 313, Act V (B.C.) of 1876, having been confirmed by the Lieutenant-Governor under Section 314 of the Act, are hereby published for general information :—

For Regulating the time and Mode of Collecting the Taxes.

1. Every collecting officer shall be provided with a certificate of his authority to collect, and every such certificate shall bear the seal of the Municipality and the signature of the Chairman. Every collecting officer at the time of demanding payment shall be bound to show the certificate, if required.

2. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish, shall send such schedule or return to the office of the Commissioners within one week from the date of the service of the requisition, in the manner described in Section 367 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs. 5 for the omission, and to a penalty not exceeding Rs. 2 for every day the omission shall, after warning, continue. Any person submitting a false or incorrect schedule or return shall be liable to a penalty of Rs. 20; provided that nothing in this bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code, should the fact appear to warrant such a proceeding.

3. Payment of purchase-money for property sold, and delivery of the property, shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer, at his discretion, to sell the property again on the same or any other day, and the first purchaser shall in such case be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

For Regulating the Conduct of Persons employed by the Commissioners.

4. All persons employed by the Commissioners whose services may be no longer required shall be liable to discharge after receipt of previous notice or pay in advance for the period of one month, and no such person shall withdraw from the duty of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

5. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix; and any person failing to furnish such security within reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment, and may be removed from office.

• *For Regulating the Disposal of Offensive Matter, Rubbish, and Dead Bodies of Animals.*

6. Every person within whose premises any animal may die shall, within four hours after its death, or, if death occurs at night, within two hours after daylight, either remove at his own expense the carcass to such place as may be set apart by the Commissioners for the reception of such carcass, or report its death to the conservancy overseer of the division within which such premises may be situated, and in such latter case shall pay to the said overseer the expense of removing the carcass at such rate as the Commissioners may determine; and in cases where the said person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense, and such expense shall be recoverable as a debt due to the Commissioners. No overseer when called upon shall neglect to remove a carcass.

Penalty for infringement, Rs. 10.

7. No person shall deposit, or cause to be deposited, any carcass, or any part of a carcass, in any place other than such places as may from time to time be appointed by the Commissioners for the reception of such carcass.

Penalty for infringement, Rs. 10.

For the Regulation and Management of Privies.

8. Every owner or occupier of any house, land, or premises from which offensive matter is not removed by the said owner or occupier shall give free access to the servants of the Municipality to his house, land, or premises, for the removal of any night-soil or filth, within such hours as may have been fixed on by the Municipal Commissioners.

Penalty for infringement, Rs. 5.

9. Every person shall construct his privy above ground, and shall provide his privy or premises with a suitable moveable receptacle of metal or earthenware.

Penalty for infringement after notice, Rs. 20.

10. On receipt of a notice from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well-privy or other noxious or improperly constructed privy may be situated shall fill up, close, or otherwise alter the construction of the said privy as may be directed in the notice; and if the orders contained in the notice be not carried out within fifteen days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expense incurred in so doing shall be recoverable as a debt due to the Commissioners.

11. No owner or occupier of any house, land, or premises in or on which a privy may be situated shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, watercourse, river, tank, hollow, or excavation (or any place containing waste and stagnant water), or into any other receptacle but one of the nature described in bye-law 9.

Penalty for infringement, Rs. 20.

12. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cesspool into any river, tank, khal, watercourse, or receptacle for water, or dispose of the above-mentioned kind of offensive matter in any other way than as the Municipal Commissioners may from time to time direct.

Penalty for infringement, Rs. 20.

13. The Municipal Commissioners may direct the use of lime, coal-tar, carbolic acid, or other deodorants or disinfectants in any privy or premises if at any time it seem to them necessary for the preservation of public health, or for the prevention of infection or spread of disease: provided that the Municipal Commissioners shall be bound to supply such deodorants, &c., at cost price, and the price shall be recoverable as a debt due to the Commissioners.

14. No person shall carry night-soil through the streets otherwise than in a closely covered receptacle of such description and pattern as shall be required from time to time by the Municipal Commissioners, and between such hours as the Municipal Commissioners may from time to time direct.

For Regulating Traffic in the Streets.

15. Every carriage or cart plying in the streets after one hour after sunset shall carry a light or lights.

Penalty for infringement, Rs. 5.

16. No owner of any carriage shall allow it to be drawn by a driver under 14 years of age.

Penalty for disobedience on the owner's part, Rs. 10.

17. No person shall, without the permission of the Commissioners, take an elephant along any of the public roads within the limits of the Municipality, except by such routes as shall be fixed for the purpose by the Municipal Commissioners.

Penalty for infringement, Rs. 20.

18. Every cart laden with bamboos shall not use the public road within the limits of the Municipality, except the cart is attended with a driver and another man.

Penalty for infringement, Rs. 2.

For Regulating or Prohibiting the use of Fire-balloons, Fire-works, Fire-arms, or Missiles in the vicinity of Public Roads.

19. No one shall let off any fire-balloons, fire-works, fire-arms, or any missile in or near a public street without the consent of the Municipal Commissioners previously obtained.

Penalty for infringement, Rs. 10.

General Bye-laws.

20. No person shall put, or cause to be put, on any house or other buildings any spout or other thing intended for the conveyance and discharge of water, which shall be so placed that the water discharged therefrom shall be thrown or fall upon any public road or thoroughfare, and the Commissioners shall have power to take down and alter any such spout now in existence, and to recover the cost as a debt due to the Commissioners.

Penalty for infringement, Rs. 5.

21. No persons shall construct, or place over, or by the side of any public drain, any bridge, platform, building, or structure of any kind, except by, and with the written permission of, the Commissioners, and in such manner as they shall direct.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 3 daily.

22. If any house, wall, or other erection, or any part thereof, fall upon any public highway or into any public drain, the owner of such house, wall, or erection shall remove it after notice within the time prescribed by the Commissioners.

Penalty for infringement, Rs. 10 ; penalty for continued infringement after notice, Rs. 5 daily.

23. No person shall prepare any channel, or convey water by any channel, across any public thoroughfare, except in such manner as shall have been first approved by the Commissioners.

Penalty for infringement, Rs. 10 ; penalty for continued infringement after notice, Rs. 2 daily.

24. No person shall steep in any river, khal, tank, or ditch within municipal limits any jute, hemp, bamboos, or other vegetable matter likely to render the water of such river, khal, tank, or ditch offensive or noxious to the neighbourhood.

Penalty for infringement, Rs. 5 ; penalty for continued infringement after notice, Rs. 2 daily.

25. No person shall, without the written permission of the Commissioners, set up any obstruction in any nullah or watercourse, and the Commissioners may order the removal of any such obstruction on grounds of public health.

Penalty for infringement, Rs. 10 ; penalty for continued infringement after notice, Rs. 4 daily.

26. Every owner, occupier, or farmer of any bazar shall, within 14 days after receipt of notice from the Commissioners, provide such latrines and urinals as in the opinion of the Commissioners may be necessary to secure the cleanliness and health of the bazar.

Penalty for infringement, Rs. 20 ; penalty for continued infringement, Rs. 5 daily.

27. The owner or occupier of any part of the bank of any nullah or watercourse shall keep it free from filth, dense vegetation, or other obstruction, and shall at all times allow the Commissioners, or any of their servants duly authorized, to have access to such nullah or watercourse for any purpose of public conservancy.

Penalty for infringement, Rs. 10 ; penalty for continued infringement after notice, Rs. 5 daily.

28. No person shall let loose, or cause or allow to be let loose, or allow to get loose, any diseased or worn-out animal on any highway, or into any place whence such animal can escape into any highway.

Penalty for infringement, Rs. 20.

29. No person shall bury, or cause to be buried, any corpse, or part of a corpse, in any burial ground, in a grave constructed of masonry, in such manner that the top of the coffin, or the body where no coffin is used, shall be at a less depth than five feet from the surface ground.

Penalty for infringement, Rs. 10.

30. No person shall bury, or cause to be buried, in any burial ground any corpse, or part of a corpse, in a grave not constructed of masonry which shall be less than six feet deep.

Penalty for infringement, Rs. 10.

31. No person shall build or dig, or cause to be built or dug, any grave in any burial ground at a less distance than two feet from any other existing grave.

Penalty for infringement, Rs. 20.

32. No person shall build or dig, or cause to be built or dug, a grave in any burial place in any other line than that marked out by the Commissioners.

Penalty for infringement, Rs. 20.

33. No grave once used shall be opened for the burial of another body without the permission of the Commissioners.

Penalty for infringement, Rs. 20.

34. No one shall carry a corpse, or part of a corpse, through any highway unless it be decently covered and totally concealed from public view.

Penalty for infringement, Rs. 10.

35. No person shall picket animals, or collect carts, or form any encampment upon any public ground without the permission of the Commissioners.

Penalty for infringement, Rs. 10.

NOTIFICATION.

The 29th August 1877.—It is hereby notified for general information that the Lieutenant-Governor has been pleased to extend Section 34 of Act V of 1861 (an Act for the regulation of police) to the Municipality of Serajgunge, in the district of Pubna.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 29th August 1877.—The following bye-laws, framed by the Municipal Commissioners of Colgong at a meeting, under Section 313, Act V (B.C.) of 1876, having been confirmed by the Lieutenant-Governor under Section 314 thereof, are hereby published for general information:—

For Regulating the Time and Mode of Collecting the Taxes.

Every officer authorized to grant receipts shall be provided with a certificate of his authority to collect, and every certificate shall bear the seal of the Municipality and the signature of the Chairman. Every collecting officer at the time of demanding payment shall show his certificate, if required.

2. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish, shall send such schedule or return to the office of the Commissioners within two weeks from the date of service of the requisition, in the manner described in section 367 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs. 5 for the omission, and to a penalty not exceeding one rupee for every day the omission shall, after warning, continue. Any person submitting a false or incorrect schedule or return shall be liable to a penalty not exceeding Rs. 20, provided that nothing in this bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code, should the facts appear to warrant such a proceeding.

3. Payment of purchase-money for the property sold, and delivery of the property, shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer, at his discretion, to sell the property again on the same day or any other day; and the first purchaser shall in such case be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

For Regulating the Conduct of Persons Employed by the Commissioners.

4. All persons employed by the Commissioners whose services may be no longer required shall be liable to discharge after receipt of previous notice or pay in advance for the period of one month, and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

5. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix; and any person failing to furnish such security within reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment and may be removed from office.

For Regulating the Disposal of Offensive Matter, Rubbish, and Dead Bodies of Animals.

6. Every person within whose premises any animal may die shall, within four hours after its death, or, if death occurs at night, within two hours after daylight, either remove at his own expense the carcass to such place as may be set apart by the Commissioners for the reception of such carcass, or report its death to the conservancy overseer of the division, and in such latter case shall pay to the said overseer the expense of removing the carcass, at such a rate as the Commissioners may determine; and in cases in which the said

person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense, and such expense shall be recoverable as a debt due to the Commissioners. No overseer, when called upon, shall neglect to remove a carcass.

Penalty for infringement, not exceeding Rs. 10.

7. No person shall deposit, or cause to be deposited, any carcass, or any part of a carcass, in any place other than such places as may from time to time be appointed by the Commissioners for the reception of such carcass.

Penalty for infringement, not exceeding Rs. 10.

For Regulation and Management of Privies.

8. Every owner or occupier of any house, land, or premises from which offensive matter is not removed by the said owner or occupier shall give free access to the servants of the Municipality to his house, land, or premises, for the removal of any night-soil or filth, within such hours as may have been fixed on by the Municipal Commissioners.

Penalty for infringement, not exceeding Rs. 5.

9. On receipt of a notice from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well-privy, or other noxious or improperly constructed privy may be situated shall fill up, close, or otherwise alter the construction of the said privy as may be directed in the notice; and if the orders contained in the notice be not carried out within 15 days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expense incurred in so doing shall be recoverable as a debt due to the Commissioners.

10. No owner or occupier of any house, land, or premises in or on which any privy may be situated shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, water-course, river, tank, hollow, or excavation, or any place containing waste or stagnant water.

Penalty for infringement, not exceeding Rs. 20.

11. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cesspool into any river, tank, khal, water-course, or receptacle for water, or dispose of the above-mentioned kinds of offensive matter, in any other way than as the Municipal Commissioners may from time to time direct.

Penalty for infringement, not exceeding Rs. 20.

12. The Municipal Commissioners may direct the use of lime, coal-tar, carbolic acid, or other deodorants or disinfectants in any privy or premises, if at any time it seem to them necessary for preservation of public health, or for the prevention of infection or spread of disease: provided that the Municipal Commissioners shall be bound to supply such deodorants, &c., at cost price, and the price shall be recoverable as a debt due to the Commissioners.

13. No person shall carry night-soil through the streets otherwise than in a closely covered receptacle, of such description and pattern as shall be required from time to time by the Municipal Commissioners, and between such hours as the Municipal Commissioners may from time to time direct.

14. No person shall perform any office of nature in any place outside private premises other than such as may have been appointed by the Commissioners, provided that such places have been set apart by the Commissioners.

Penalty for infringement, not exceeding Rs. 5.

15. No person shall build, or cause to be built, or keep after prohibition by the Commissioners, any latrine, privy, cesspool, or urinal within 10 feet if constructed of bricks, and 20 feet in other cases, of any public road or street or in any compound so small as not to admit of that distance being maintained.

Penalty for infringement, not exceeding Rs. 10; penalty for continued infringement after notice, not exceeding Rs. 3 daily.

For Regulating Traffic in the Streets.

16. Every carriage or cart plying on the streets after one hour after sunset shall carry a light or lights.

Penalty for infringement, not exceeding Rs. 3.

17. No owner of any carriage shall allow it to be driven by a driver under 14 years of age.

Penalty for disobedience on the owner's part, not exceeding Rs. 5.

Regulating or prohibiting the use of Fire-balloons, Fire-works, Fire-arms, or any other Missile in the vicinity of Public Roads.

18. No one shall let off any fire-balloons, fire-work, fire-arm, or any missile in or near a public street without the consent of the Municipal Commissioners previously obtained.

Penalty for infringement, not exceeding Rs. 10.

GENERAL BYE-LAWS.

19. No person shall put, or cause to be put, on any house or other building, any spout or other thing intended for the conveyance and discharge of water which shall be so placed that the water discharged therefrom shall be thrown or fall upon any public road or thoroughfare, and the Commissioners shall have power to take down and alter any such spout now in existence, and to recover the costs as a debt due to the Commissioners.

Penalty for infringement, not exceeding Rs. 5.

20. No person shall construct, or place over, or by the side of any public drain any bridge, platform, building, or structure of any kind, except by, and with the written permission of, the Commissioners, and in such manner as they shall direct.

Penalty for infringement, not exceeding Rs. 10; and penalty for continued infringement after notice, not exceeding Rs. 3 daily.

21. If any house, wall, or other erection, or any part thereof, fall upon any public highway or into any public drain, the owner of such house, wall, or erection shall remove it after notice within the time prescribed by the Commissioners.

Penalty for infringement, not exceeding Rs. 10; penalty for continued infringement after notice, not exceeding Rs. 3 daily.

22. No person shall prepare any channel or convey water by any channel across any public thoroughfare, except in such manner as shall have been first approved by the Commissioners.

Penalty for infringement, not exceeding Rs. 10; penalty for continued infringement after notice, not exceeding Rs. 2 daily.

23. No person shall steep in any river, khal, tank, or ditch within municipal limits, any jute, hemp, bamboos, or other vegetable matter likely to render the water of such river, khal, tank, or ditch offensive or noxious to the neighbourhood.

Penalty for infringement, not exceeding Rs. 5; penalty for continued infringement after notice, not exceeding Rs. 2 daily.

24. No person shall, without the written permission of the Commissioners, set up any obstruction in any nullah or water-course, and the Commissioners may order the removal of any such obstruction on grounds of public health.

Penalty for infringement, not exceeding Rs. 10; penalty for continued infringement after notice, not exceeding Rs. 2 daily.

25. The owner or occupier of any part of the bank of any nullah or water-course shall keep it free from filth, dense vegetation or other obstruction, and shall at times allow the Commissioners, or any of their servants duly authorized, to have access to such nullah or water-course for any purpose of public conservancy.

Penalty for infringement, not exceeding Rs. 10; penalty for continued infringement after notice, not exceeding Rs. 5 daily.

26. No person shall let loose, or cause, or allow to be let loose, or allow to get loose any diseased worn-out animal on any highway or into any place whence such animal can escape into any highway.

Penalty for infringement, not exceeding Rs. 5.

27. No person shall bury, or cause to be buried, any corpse, or part of a corpse, in any burial ground in a grave constructed of masonry in such manner that the top of the coffin, or the body where no coffin is used, shall be at a less depth than five feet from the surface ground.

Penalty for infringement, not exceeding Rs. 10.

28. No person shall bury, or cause to be buried, in any burial ground any corpse, or part of a corpse, in a grave not constructed of masonry which shall be less than six feet deep.

Penalty for infringement, not exceeding Rs. 10.

29. No person shall build or dig, or cause to be built or dug, any grave in any burial ground at a less distance than two feet from any other existing grave.

Penalty for infringement, not exceeding Rs. 10.

30. No person shall build or dig, or cause to be built or dug, a grave in any burial place in any other line than that marked out by the Commissioners.

Penalty for infringement, not exceeding Rs. 20.

31. No grave once used shall be opened for the burial of another body without the permission of the Commissioners.

Penalty for infringement, not exceeding Rs. 20.

32. No one shall carry a corpse, or part of a corpse, through any highway, unless it be decently covered and totally concealed from public view.

Penalty for infringement, not exceeding Rs. 5.

33. No person shall picket animals, or collect carts, or form any encampment up on any public ground without the permission of the Commissioners.

Penalty for infringement, not exceeding Rs. 5.

NOTIFICATION.

The 25th August 1877.—Under Act I (B.C.) of 1876, the Lieutenant-Governor is pleased to appoint Moulvi Fuzlur Rahman to be the Marriage Registrar of the Kamariya sub-district, in the district of Chittagong.

HORACE A. COCKERELL,
Offg. Secy. to the Gort. of Bengal.

[Third Publication.]

NOTIFICATION.

The 16th August 1877.—The following Bye-laws, framed by the Municipal Commissioners of Balasore at a meeting, under Section 313, Act V (B.C.) of 1876, having been confirmed by the Lieutenant-Governor under Section 314 thereof, are hereby published for general information :—

For Regulating the Time and Mode of Collecting the Taxes.

1. Every officer authorized to grant receipts shall be provided with a certificate of his authority to collect, and every such certificate shall bear the seal of the Municipality and the signature of the Chairman. Every collecting officer at the time of demanding payment shall be bound to show this certificate, if required.

2. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish shall send such schedule or return to the office of the Commissioners within one week from the date of the service of the requisition, in the manner described in section 367 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs. 5 for the omission, and to a penalty not exceeding Rs. 2 for every day the omission shall, after warning, continue. Any person submitting a false or incorrect schedule or return shall be liable to a penalty of Rs. 20, provided that nothing in this bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code, should the facts appear to warrant such a proceeding.

3. Payment of purchase-money for property sold, and delivery of the property, shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer, at his discretion, to sell the property again on the same or any other day, and the first purchaser shall in such case be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

For Regulating the Conduct of Persons Employed by the Commissioners.

4. All persons employed by the Commissioners whose services may be no longer required shall be liable to discharge after the receipt of previous notice or pay in advance for the period of one month; and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

5. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix; and any person failing to furnish such security within a reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment, and may be removed from office.

For Regulating the Disposal of Offensive Matter, Rubbish, and Dead Bodies of Animals.

6. Every person within whose premises any animal may die shall, within four hours after its death, or, if death occurs at night, within two hours after daylight, either remove at his own expense the carcass to such place as may be set apart by the Commissioners for the reception of such carcass, or report its death to the town daroga; and in such latter case, shall pay to the said daroga the expense of removing the carcass at such rate as the Commissioners may determine; and in cases where the said person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense, and such expense shall be recoverable as a debt due to the Commissioners. The daroga, when called upon, shall not neglect to remove a carcass.

Penalty for infringement, Rs. 10.

7. No person shall deposit, or cause to be deposited, any carcass, or any part of a carcass, in any place other than such places as may from time to time be appointed by the Commissioners for the reception of such carcass.

Penalty for infringement, Rs. 10.

8. No person shall carry night-soil through the streets otherwise than in a closely-covered receptacle of such description and pattern as shall be required from time to time by the Municipal Commissioners, and between such hours as the Municipal Commissioners may from time to time direct.

For Regulating Traffic in the Streets.

9. No person shall drive any vehicle of any description at any time between the three-quarters of an hour after sunset and one hour before sunrise without a sufficient light, except when there may be sufficient moonlight to render such light unnecessary.

Penalty for infringement, Rs. 5.

10. No owner of any carriage shall allow it to be driven by a driver under 14 years of age.

Penalty for disobedience on the owner's part, Rs. 10.

11. No elephant or camel shall at any time be taken through any of the principal streets without the written permission of the Chairman or Vice-Chairman.

Penalty for infringement, Rs. 50.

For the Regulation and Management of Privies.

12. Every person shall construct his privy above ground, and shall provide his privy or premises with a suitable moveable receptacle of metal or earthenware.

Penalty for infringement after notice, Rs. 20.

13. Every owner or occupier of any house, land, or premises from which offensive matter is not removed by the said owner or occupier shall give free access to the servants of the Municipality to his house, land, or premises, for the removal of any night-soil or filth, within such hours as may have been fixed on by the Municipal Commissioners.

Penalty for infringement, Rs. 5.

14. On receipt of a notice from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well-privy or other noxious or improperly constructed privy may be situated shall fill up, close, or otherwise alter the construction of the said privy, as may be directed in the notice; and if the orders contained in the notice be not carried out within 15 days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expense incurred in so doing shall be recoverable as a debt due to the Commissioners.

15. No owner or occupier of any house, land, or premises, in or on which any privy may be situated, shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, water-course, river, tank, hollow, or excavation (or any place containing waste and stagnant water).

Penalty for infringement, Rs. 20.

16. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cesspool, into any river, tank, khal, water-course, or receptacle for water, or dispose of the above-mentioned kinds of offensive matter in any other way than as the Municipal Commissioners may from time to time direct.

Penalty for infringement, Rs. 20.

17. The Municipal Commissioners may direct the use of lime, coal-tar, carbolic acid, or other deodorants or disinfectants in any privy or premises, if at any time it seem to them necessary for the preservation of public health, or for the prevention of infection or spread of disease: provided that the Municipal Commissioners shall be bound to supply such deodorants, &c., at cost price, and the price shall be recoverable as a debt due to the Commissioners.

For Regulating or Prohibiting the Use of Fire-balloons, Fire-works, Fire-arms, or Missiles in the Vicinity of Public Roads.

18. No one shall let off any fire-balloon, fire-works, fire-arms, or any missile in or near a public street without the consent of the Municipal Commissioners previously obtained.

Penalty for infringement, Rs. 10.

General Bye-laws.

19. No person shall construct, or place over, or by the side of, any public drain any bridge, platform, building, or structure of any kind, except by, and with the written permission of, the Commissioners, and in such manner as they shall direct.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 3 daily.

20. If any house, wall, or other erection, or any part thereof, fall upon any public highway or into any public drain, the owner of such house, wall, or erection, shall remove it after notice within the time prescribed by the Commissioners.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 5 daily.

21. No person shall prepare any channel, or convey water by any channel, across any public thoroughfare except in such manner as shall have been first approved by the Commissioners.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 2 daily.

22. No person shall steep in any river, khal, tank, or ditch within municipal limits any jute, hemp, bamboos, or other vegetable matter likely to render the water of such river, khal, tank, or ditch offensive or noxious to the neighbourhood.

Penalty for infringement, Rs. 5; penalty for continued infringement after notice, Rs. 2 daily.

23. No person shall bathe or wash dirty clothing in, or otherwise defile, any tank, or well, or reservoir set apart by the Commissioners for drinking purposes.

Penalty for infringement, Rs. 5; penalty for continued infringement after notice, Rs. 2 daily.

24. No person shall, without the written permission of the Commissioners, set up any obstruction in any nulla or water-course; and the Commissioners may order the removal of any such obstruction on grounds of public health.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 4 daily.

25. The owner or occupier of any part of the bank of any nulla or water-course shall keep it free from filth, dense vegetation, or other obstruction, and shall at all times allow the Commissioners, or any of their servants duly authorized, to have access to such nulla or water-course for any purpose of public conservancy.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 5 daily.

26. No person shall let loose, or cause or allow to be let loose, or allow to get loose, any diseased or worn-out animal on any highway, or into any place whence such animal can escape into any highway.

Penalty for infringement, Rs. 20.

27. No person shall bury, or cause to be buried, any corpse, or part of a corpse, in any burial ground in a grave constructed of masonry in such manner that the top of the coffin, or the body where no coffin is used, shall be at a less depth than five feet from the surface ground.

Penalty for infringement, Rs. 10.

28. No person shall bury, or cause to be buried, in any burial ground any corpse, or part of a corpse, in a grave not constructed of masonry which shall be less than six feet deep.

Penalty for infringement, Rs. 10.

29. No person shall build or dig, or cause to be built or dug, any grave in any burial ground at a less distance than two feet from any other existing grave.

Penalty for infringement, Rs. 20.

30. No person shall build or dig, or cause to be built or dug, a grave in any burial place in any other line than that marked out by the Commissioners.

Penalty for infringement, Rs. 20.

31. No grave once used shall be opened for the burial of another body without the permission of the Commissioners.

Penalty for infringement, Rs. 20.

32. No one shall carry a corpse, or part of a corpse, through any highway, unless it be decently covered and totally concealed from public view.

Penalty for infringement, Rs. 10.

33. Every person who shall bring or convey, or cause to be conveyed, any corpse, or part of a corpse, to any burning ground shall burn, or cause the same to be burnt, within twelve hours after its arrival at the said burning ground.

Penalty for infringement, Rs. 20.

34. No person, when burning, or causing to be burnt, any corpse, or part of a corpse, in any burning ground shall permit the same or any part thereof to remain without the flesh thereof being completely consumed to ashes, or shall permit the bones, clothes, or other articles connected with the burning of such corpse to remain at or near such burning ground unless the same be completely reduced to ashes.

Penalty for infringement, Rs. 20.

35. No person, while carrying any corpse, or part of any corpse, through the precincts falling within municipal limits, shall deposit it in or near any highway except for the purpose of ordinary relief.

Penalty for infringement, Rs. 10.

36. No person shall picket animals, or collect carts, or form any encampment, upon any public ground or road without the permission of the Commissioners.

Penalty for infringement, Rs. 10.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 25th August 1877.—It is hereby notified for general information that, under the provisions of Section 39 of Act IV (B.C.) of 1876, the Lieutenant-Governor has been pleased to confirm the following rules for regulating the grant of pensions and gratuities to the officers of the Calcutta Municipality, made by the Commissioners of that Municipality at a special meeting held on the 7th April 1877.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

** Pension Rules for Officers in the service of the Calcutta Municipality, as finally revised and approved by the Commissioners at a Special Meeting held on the 7th April 1877.*

1. For all continuous service in posts regularly sanctioned by the Corporation, except service on salaries on or below Rs. 10, pension may be granted.
2. Service does not qualify unless the officer holds a substantive office on a permanent establishment; but if an officer on a permanent establishment is detached on temporary duty, on the understanding that, when the temporary duty ceases, he will return to the permanent establishment, he continues to count service as if he had remained on the permanent establishment.
3. Press servants on the fixed establishment are entitled to pension.
4. Servants of the Corporation, whose pay is either Rs. 10 or less, are not entitled to pension, but may be allowed such gratuity as the Commissioners shall, at a special meeting, on a consideration of the circumstances, adjudge proper. Authorised leave in the case of such servants counts as continuous service.
5. Time passed under suspension, pending inquiry into conduct, counts for pension, if the suspension is immediately followed by reinstatement. Time passed under suspension adjudged as a specific penalty does not count.
6. A break in the continuity of service entails forfeiture of past service, except in the following cases :—
 - (a) Authorised leave.
 - (b) Absence prolonged after the end of leave. Provided that, if an officer remains absent for more than a week after the end of privilege leave, his past services are forfeited, unless the Chairman, or the Commissioners in meeting, as the case may be, re-appoint the officer, and make a declaration in writing that his past services, or part of them, shall qualify. Whenever the Chairman shall make such a declaration, the same shall be laid before the Commissioners at meeting for information and confirmation. If the officer remains absent for more than a month, his past services cannot count without a special order of the Commissioners in meeting.
 - (c) Suspension immediately followed by reinstatement, which need not necessarily be to the same office.
 - (d) Abolition of office not followed by a gratuity or by re-appointment within two years.
7. Resignation of service, or removal from it on account of misconduct or inefficiency, entails forfeiture of past service.
8. Compensation pension or gratuity may be awarded to an officer either when discharged from the service of the Corporation or on a reduction of establishment.
9. An invalid pension or gratuity may be awarded on retirement from the service of the Corporation to an officer who, by bodily or mental infirmity, is permanently incapacitated as established by medical certificate—
 - (a) For active employment.
 - (b) For the particular branch to which he belongs.
10. Such retirement may be either voluntary or forced.
11. It will suffice for the Chairman to be satisfied of, and to certify to, the incapacity of officers appointed under section 36 of Act IV of 1876; and in the case of officers appointed under section 32 of the Municipal Act, it shall suffice that two-thirds of the Commissioners at a special general meeting are satisfied of the incapacity of the officer concerned.
12. Forced retirement of officers appointed under section 32 of the Municipal Act IV (B.C.) of 1876, is by that section subject to the approval of the Local Government.
13. If incapacity for further service is the result of irregular or intemperate habits, no pension or gratuity can be granted.
14. A superannuation pension or gratuity may be granted to an officer compelled to retire.
15. The amount of pension or gratuity that may be granted shall be determined by length of service as set forth below :—
 - (a) After a service of less than 20 years, a gratuity not exceeding one month's emoluments for each completed year of service, but not, under any circumstances, exceeding 12 months' emoluments in all, broken periods of a year not being taken into account in making the calculation.

* These rules do not apply to officers lent to the Municipality or directly appointed by Government.

(b) After a service of not less than 20 years, but less than 30 years, a pension not exceeding one-third of the officer's average emoluments, and also not exceeding Rs. 3,000 a year; or, if the officer's average emoluments do not exceed Rs. 12,000 a year, Rs. 2,000 a year.

(c) After a service of not less than 30 years, a pension not exceeding one-half of the officer's average emoluments, and also not exceeding Rs. 5,000 a year; or, if the officer's average emoluments do not exceed Rs. 12,000 a year, Rs. 4,000 a year.

16. The above shall be the rule ordinarily followed in respect of claims to invalid pension and gratuity. It is optional with the Commissioners in meeting to deal exceptionally with cases of a special nature.

17. A retiring pension may be granted after an approved service of not less than 35 years. It may be the same in amount as an invalid pension admissible after 30 years' service.

18. Pension and gratuity shall be calculated on the following principles, viz.—

(a) "Pay" means substantive allowances.

(b) "Emoluments" do not include personal, house, or horse allowance, or fees, or commission, or percentage drawn by officers.

(c) "Average emoluments" mean the average calculated upon the last five years of service.

19. If during the last five years of his service an officer has been absent on leave with allowances, or, having been suspended, has been reinstated without loss of service, his emoluments, for the purpose of ascertaining the average, should be taken at what they would have been had he not been absent on leave or suspended.

20. If during the last five years of his service an officer has been for a period without allowances, or suspended under such circumstances that the period of suspension does not count as service, such period should be disregarded in the calculation of the average, an equal period before the five years being included: *e.g.*—A is on leave for two years without pay. This period is not to be calculated in determining the average salary of the past five years, but an equal period immediately before the five should be included.

21. Excepting as provided in Rules 19 and 20, only emoluments actually received can be included in the calculation.

22. If an officer has held more than one appointment in respect of each of which, if he had held it separately and alone, pension or gratuity would have been admissible to him, the pension or gratuity, or pension and gratuity, admissible to him is the sum of the several pensions or gratuities, or pensions and gratuities, which would have been admissible to him if he had held each office separately and alone. The consolidated pension thus admissible is subject to the limitations prescribed in Rule 15.

23. An officer is not entitled for service in an office conjointly with another office to any pension or gratuity which would not have been admissible to him if he had held the office separately and alone.

24. An officer who is appointed for a limited time only, or for a specified duty, on the completion of which he is discharged, has no claim to pension or gratuity.

25. An officer who is not a servant of the Municipality solely, but who holds office under Government, or some other public body, private firm, or person, or is in receipt of pension from Government, is not entitled to pension or gratuity.

26. Service as an apprentice does not qualify for pension or gratuity.

27. Periods of absence on leave, other than privilege leave, do not count as service for pension.

APPLICATIONS FOR PENSION OR GRATUITY.

28. Every officer in the service of the Municipal Commissioners shall be required to keep a service-book, being an exact copy of the office register, in which shall be entered a statement of every step in his official life, each entry being attested at the time by the Vice-Chairman or the Secretary. The following directions are given regarding the service-book :—

I. The opening page should be divided for entries in the following form :—

- (1) Name of officer. (2) Caste or race. (3) Residence. (4) Father's name and residence. (5) Age. (6) Exact height by measurement. (7) Personal marks for identification. (8) Date on which page is filled up. (9) Signature of officer. (10) Signature and designation of the head of the office.

The entries in this page should be renewed or re-attested at least every five years.

II. The remaining page should be divided for entries in the following form :—

- (1) Name of appointment. (2) Whether substantive or acting, and whether permanent or temporary. (3) If acting, the substantive appointment should be stated. (4) Pay. (5) Acting allowance. (6) Date of commencement of appointment. (7) Signature of officer. (8) Character of officer. (9) Signature and designation of immediate superior officer. (10) Date of termination of appointment. (11) Reason of termination (such as promotion, transfer, dismissal, &c). (12) Signature of superior officer.

No entries need be made in column 8 except when there is anything especially good or bad to be recorded.

III. Leave of every description (except casual), every period of suspension from employment, and every other break of service, should be noted, with full detail of its duration, by an entry written across the page and attested by the head of the office.

IV. A service-book is supplied, at his own cost, to every officer on his first appointment.

V. Every officer is charged with the duty of seeing that his own service-book is properly kept up, and that all erasures in it are properly attested. If the book is not carefully kept up, difficulties may arise as to verification of service, should the officer afterwards apply for pension or gratuity.

29. An applicant for pension or gratuity shall submit his application to the Chairman, who, after verification of the applicant's services, shall lay the matter before a special meeting of the Commissioners.

MANNER OF PAYMENT.

30. When the application for pension or gratuity shall have been confirmed, or when, in case of forced retirement, the amount of pension or gratuity shall have been determined, the amount, if it be gratuity, may be paid at once, or by such instalments as the Commissioners may think fit; but if it be pension, it shall ordinarily be paid monthly at the office of the Commissioners in Calcutta to the pensioner in person, or otherwise in accordance with the following rule.

31. A pensioner who is unable to appear in consequence of bodily illness or infirmity, or is exempted from personal appearance, may receive his pension upon the production of a life-certificate signed by a responsible officer of Government, or by some other well-known and trustworthy person. In such cases the disbursing officer, who is personally responsible for any payments wrongly made, must take all possible precautions to prevent imposition, and must, before the first payment in each year, require proof not only of the existence of the pensioner, but also, if the pensioner has not been exempted from personal appearance, of his inability to attend in person to receive payment.

32. Unless specially exempted, a pensioner must take payment in person after identification by comparison with the permanent order.

33. It shall be the duty of the Finance Committee yearly to make provision in the budget estimate to meet the cost of pensions and gratuities.

34. If a pensioner or a person entitled to gratuity dies, payment of any arrear actually due may be made to his heirs, provided that they apply within six months after his death. Even if the pension or gratuity has not been sanctioned before the death of the officer, the payment may be made under the orders of the Commissioners in meeting. If an officer dies before actually retiring or being discharged, his heirs have no claim to anything.

35. Future good conduct is an implied condition of every grant of pension. The Commissioners reserve to themselves the right of withholding a pension, if the pensioner be convicted of serious crime or be guilty of grave misconduct.

36. It shall always be at the discretion of the Commissioners to suspend the above rules either in individual cases or generally.

[Second Publication.]

DECLARATION.

The 1st September 1877.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz. for the construction of an outpost in Manglabagh, in the town of Cuttack, it is hereby declared that for the above purpose a piece of land measuring 1 rood 22 poles, more or less, and bounded on the north by land belonging to Bodya Nath Pundit and Chowdhury Biswa Nath Dass, the *Asthan* of Mangla Takoorani, and the houses of Nand Runna and others; on the east by the road leading to the General Hospital; on the south by that leading to Bridge No. 1 of the Taldonda Canal; and on the west by the pukka house of Apartee Barick, is required within the aforesaid town of Cuttack.

This declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[Third Publication.]

DECLARATION.

The 20th August 1877.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the public expense for a public purpose, viz. giving a road frontage to the Shaik Mitteh Gurhee, in the town of Patna, it is hereby declared that for the above purpose a plot of land measuring 4 beeghas and 5½ dhoores,

more or less, local measurement, and bounded on the north, south, and west by the newly formed lands of Shaik Mitteh Gurhee aforesaid, and on the east by the new chowk road, is required within the town of Patna, pergunnah Azimabad, district Patna.

The plan of the above plot may be inspected in the Patna municipal office between the hours of 10 A.M. and 4 P.M. any day, Sundays and authorized holidays excepted.

This declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

„ R. Atkins, ditto, ditto.
Baboo Daniel Sahoo, ditto, ditto.
„ Dwarka Nath Ghose, ditto, ditto.
„ A. Peermaloo Pillay, ditto, ditto.

No. 292.—*Appointment.*—Baboo B. Kamajee, Probationary Overseer, Third Grade, Brahminee Division, is permanently appointed to the Public Works Department in that grade.

F. T. HAIG, Col., R.R.,

*Joint-Secy. to the Govt. of Bengal,
in the P. W. Dept., Irrigation Branch.*

HIGH COURT NOTICES.

Circular Orders issued by Authority of the High Court of Judicature at Fort William in Bengal.

CIVIL.

No. 13, dated the 18th July 1877.

HIGH COURT,—CIVIL SIDE.—*Present:*—The Full Court.

The following rules for the preparation and arrangement of records in suits and miscellaneous cases are to be strictly adhered to by all judicial officers:—

The object of these rules is twofold :

1st.—To ensure the proper making up of the record, and the personal attention of judicial officers thereto: and

2nd.—To enable the Judges, as well of the courts of first instance as of the superior courts, to see at once the progress of every suit or miscellaneous case from its institution to its close.

Rules.—In all original suits, as the trial proceeds, the Judge before whom it takes place, whether the trial be *ex parte* or not, shall gradually form a record, to be called the “trial nuthee,” which shall be constituted of the undermentioned papers and documents put up in order as shown herein, and of those only :

1. The plaint, together with any schedule which may be annexed thereto, and where the claim is founded on a written instrument, such instrument : in miscellaneous cases, the petition or written application of the party setting the court in motion will take the place of the plaint.

2. The written statements of the parties, if any; or, in miscellaneous cases, the counter-petition, if any

3. The answers to any preliminary questions put under sections 125, 139, and 140 of the Civil Procedure Code, and any documents called for under the provisions of the latter section.
Chapters IX and XI, Code of 1877.

4. Memorandum of the issues, if any, agreed upon between the parties, or settled by the court, with amended or additional issues, if any.

5. References to arbitration, if any, with the application and vakalutnamah and the award or other final return of the arbitrators, together with the proceedings, depositions, and exhibits submitted therewith.

6. Injunctions or attachment orders obtained before judgment with the returns of the Nazir, and all petitions relating to the same.

7. The depositions of the witnesses taken down in open court during the trial, placed usually in the order in which the witnesses were examined.

8. The depositions of witnesses, if any, taken on commission before the trial, distinguishing those which may have been *read out in open court* during the trial (section 179, Civil Procedure Code), and the returns of ameens, if any, with maps and evidence appended thereto, in both cases with the commission or perwannah annexed.

9. The documents or exhibits received in open court during the trial as evidence between the parties, each marked with a distinct number* and date to be put upon it, and signed by the Judge who is trying the case at the time when it is so received.

10. Razinamahs or solehnamahs, if any.

11. The judgment.

12. The formal decree.

For the purpose of forming the trial nuthee, *every* document which is tendered and received in evidence, and which the court has the power to retain, and also copies of material parts of those documents (to be made by the parties) which the court has not the power to retain, must be put upon the trial record.

Every document which is tendered and not received, as also every document which, after having been lodged in court, has not been used at the trial, must, after being duly marked, be returned to the party or person to whom it belongs, and *must not in any case be retained by the court*. The former must be distinctly marked as “rejected,” the latter as “returned,” the date being also added

If a document which is in any way used in evidence already forms part of another record from which it cannot properly be withdrawn, or if it is an entry in any shop book, &c., which cannot reasonably be detained away from its proper place, it should not be permanently attached to the trial nuthee, but after having been proved, when proof is requisite, and inspected by the court and the parties, it must be marked and restored to its place (if it has been removed), and an authenticated copy of it must be put upon the trial nuthee instead, bearing an endorsement indicating the place of custody of the original.

Whenever a Judge, in the exercise of the power conferred upon him by section 138 of the Code, sends for the record of another suit or case or other official papers, and uses any part of such record or papers as evidence in a trial before him, he shall direct that an authenticated copy of the part so used shall be put up with the trial nuthee, and shall further direct by which party such copy shall be made.
Section 137, Code of 1877.

If any exhibit is of such a nature that it cannot be attached to the record, and that a copy will not answer the purpose for which it is tendered in evidence, a separate paper, duly numbered or marked, must be placed in the trial nuthee, describing as briefly as may be the nature of the exhibit and the custody in which it is deposited, the exhibit itself, when practicable, being marked to correspond.

13. An “order sheet” or *roodad*.

This paper is to contain a note of every hearing, as well as every order made in the suit or case from the commencement to the close.

The practice of writing orders on petitions, perwannahs or ameens’ reports, and such like papers, is strictly prohibited; orders shall be written on the order sheet only, excepting judgments or other orders referred to above in heads 11 and 12. On every petition, return or report, requiring an order to be made upon it, there shall be entered at the head thereof a note of the date of the order made and no more; the order and the reasons for making it, when any require to be recorded, must appear only in the order sheet.

*When a number of documents of the same nature is filed, as, for instance, a series of collectors’ or zemindars’ receipts for revenue or rent, the whole may bear one number, a letter being added to distinguish each paper of the series.

The preliminary examinations referred to under heading 3 may, if the court thinks fit, be entered on the back of the written statement of the party, but nothing else shall be written on the plaint or written statement except the register number of the suit, the date of filing, and a reference to the order sheet. If the person to be examined is present in court, an order for examination is unnecessary; but the fact of such examination shall be noted in the order sheet. The issues, as already provided above in heading 4, are to be written on a separate sheet; a note of the recording thereof must be made in the order sheet opposite the proper date. Additional or amended issues are to be noted in the same way.

The final order (headings 11 and 12) will not be written *in extenso* in the order sheet, but the making of it is to be similarly noted.

On the case being called on for trial, if there are any witnesses in attendance, a note of the fact shall be entered in the order sheet, and as the witnesses are called their names will be shown there.

If evidence taken under a commission is read, this fact with the name of each witness shall be also noted.

A similar note shall be made when the return of an ameen is read.

There shall likewise be a note of all documentary evidence used at the trial, giving the numbers of the documents used by each party. There shall be one series of numbers for the whole; those of the party who has the right to begin commencing from No. 1, and those of the other parties following in regular order.

The date on which the formal decree is signed by the Judge shall also be noted.

The same course shall be adopted if there is any subsequent application for review of judgment or for amendment of the decree.

The order sheet should be ordinarily in the handwriting of the Judge himself. It shall be kept in charge of the same officer who has custody of the trial nuthee, and at the conclusion of the trial shall be permanently attached thereto.

Orders of the kind frequently made, such as *misal shamil* and the like, should never, or very rarely, occur.

Applications shall always be heard at the first sitting of the court, and ordinarily they ought not to be heard at any other time; though in cases of urgency the courts will, of course, exercise their discretion in allowing deviations from this rule. Pleaders having applications to make in respect of pending suits must give notice to the opposite party when he has appeared, and should likewise give notice to the proper officer that he may have the record at hand.

Appellate courts will be guided by the spirit of these rules in making up the appeal records.

The order sheet must have columns ruled off to the right and left—one for the date and the other for the signature of the presiding officer.

Prefixed to each record there shall be a fly-leaf or index of its contents: this must be prepared as soon as the trial is terminated. In this general index the exhibits contained in the record will only be mentioned by number, but there must be a supplementary index showing separately for each party to the suit the documents used by them. The entries in these subordinate indices shall specify the nature of each document with its date.

Whenever documents used in evidence are withdrawn either before or after judgment, a note of the number of the document withdrawn shall be made in the index, which shall state whether a copy has been substituted or not.

Papers other than those heretofore specified shall be kept apart, where they ought to be kept at all, and form the Process Record.

In proceedings after decree for the execution thereof, the decree holder's application under section 212, also applications under sections 208 and 211, notices under section 216, writs of attachment or possession, proclamations of sale, returns of service of the foregoing, and the proceedings of the court holding a sale, as well as all applications by the defendant objecting to the execution proceeding, and by the decree-holder granting time, will be put up in the trial record. Statements of accounts under the decree, and all receipts and acknowledgments admitting satisfaction in whole or in part, must also form part of it.

Proceedings under sections 246 and 269, like other proceedings commonly known as miscellaneous cases, require no special orders, as they are insufficiently provided for by the foregoing rules, which are to be applied *mutatis mutandis*.

By order of the High Court,

J. CRAWFORD, *Offg. Registrar*.

No 14, dated the 19th July 1877

HIGH COURT.—CIVIL SIDE.—*Present*:—The Full Court.

In supersession of the circular orders noted in the margin, the following rules are laid down for the guidance of the subordinate civil courts in the destruction of useless records and papers.

No. 167,	dated 3rd March	1852.
" 181	" 22nd June	1852.
" 183	" 30th June	1852.
" 16	" 4th July	1853.
" 18	" 28th August	1853.
" 96	" 16th May	1857.

The division of the records of suits, and miscellaneous cases of the nature of suits, into two portions, respectively styled the *trial record* and the *process record*, has been recently enjoined by Circular Order No. 13 of 18th July 1877.

This division substantially corresponds with that prescribed by circular order of the late Sudder Court, No. 167, dated 3rd March 1852.

When the time for the destruction of the B or process record of suits decided before the recent circular order shall come into operation, the records must be examined, and if necessary re sorted in accordance with the rules contained therein. Subject to this provision, the terms *trial nuthee* and *process nuthee* are to be taken as the equivalents of the present *A and B nuthees* respectively.

None of the papers in the *trial nuthee* shall be destroyed until the periods mentioned below shall have expired. At the end of that time the following papers shall be separated and preserved, and the remainder shall be destroyed :—

Papers to be preserved.

- The numbers attached to these are the }
 numbers they bear in Circular Order } The general index of the trial record.
 No. 13 of 18th July 1877.

1. The plaint with the papers annexed.
2. The written statements in suits for immoveable property.
5. Award of arbitrators.
6. Orders for attachment before decree with the return showing when and how attachment was effected, and orders for discharging the attachment.

The other papers mentioned under this head shall be destroyed :—

9. Documents.
10. Razinamahs, &c.
11. The judgment.
12. The decree.

Documents (No. 9) produced by the parties or their witnesses [excepting those attached to the plaint, and on which it is based] shall be removed from the trial nuthee to be separately dealt with.

The periods for which the trial nuthee shall be preserved entire shall be as follows :—

In suits for money or damages, or for the specific performance of contracts relating to moveable property, or for the recovery of moveable property,—*three years*.

In suits for or affecting immoveable property, or in respect of succession to an office, or to establish or set aside an adoption, or otherwise determine the status of an individual; and in suits or proceedings under the Indian Succession Act (X of 1865,) and the Hindu Wills Act (XXI of 1870),—*twelve years*.

In proceedings under Regulation XVII of 1806, for foreclosure of mortgage by way of conditional sale,—*fifteen years*.

In cases under Act XXVII of 1860, Act XIX of 1841, Acts XXXV and XL of 1858,—*twelve years*.

Provided that all accounts filed in court under any of these Acts shall form part of the permanent record.

In proceedings taken in execution of decrees, including proceedings under sections 246 and 269 of Act VIII of 1859,—*three years*.

* Proceedings under sections 229 and 230 are regular suits; the records of them must be dealt with accordingly.

In cases relating to moveable property of deceased persons under Regulation V of 1799, section 7,—*three years*.

All other miscellaneous cases,—*three years*.

The periods prescribed above shall be taken to run from the date of the final order of decree of the court of first instance, or, in the event of an appeal, from that of the decision of the appeal.

In foreclosure proceedings under Regulation XVII of 1806, the final order shall be deemed to be made on the expiry of the year of grace.

In cases under Acts XXXV and XL of 1858, the final order shall be taken to be made on the termination of the guardianship in consequence of the recovery or death of the lunatic or on the attaining of majority or death of the minor.

In execution of decree the final order is to be taken as made when the decree is satisfied in full, or in executions not proceeded with when three years have elapsed since the last application.

In cases under Regulation V of 1899, section 7, the date of the receipt of the orders of Government for disposing of the property is to be taken to be the final order.

The process records shall be entirely destroyed on the expiry of one year from the final order in the suits or cases to which they belong, the year being reckoned as provided above.

Periodical statements received from the lower courts and from civil court amins.

Proceedings of other courts and offices forwarding notices, proclamations, &c.

Proceedings of the lower courts calling for records, asking for information, &c.

Reports from ministerial officers not relating to particular suits or cases.

Applications for leave, or from candidates for employment, and any other proceedings, reports, and applications not relating to suits or cases in the courts, shall be destroyed at the expiry of one year.

In respect of these papers the Judges must exercise their discretion in preserving reports, returns, and proceedings likely to be useful in the future, as containing the results of enquiries or other information, or the opinions of experienced officers on matters connected with the general administration of justice.

NOTIFICATION.

Dated the 8th September 1877.

UNDER Rule 7, paragraph 2 of the rules for the qualification, admission, and enrolment of pleaders and mookhtars in mofussil courts dated the 12th September 1874, the High Court direct that attendance upon a full course of lectures in law at the High School, Chittagong, shall, during the incumbency of the present law lecturer Baboo Nobin Chunder Dass, M.A., B.L., be accepted as sufficient to qualify a person to present himself for the examination mentioned in rule 6, clause 2nd.

J. CRAWFORD *Offg. Registrar.*

SMALL CAUSE COURT NOTICES.

UNDER Section 14, Act XI of 1865, it is hereby notified, in supersession of the notification of the 12th December 1873, published in the *Calcutta Gazette* of the 17th idem, that the Judge of the Courts of Small Causes of Hooghly, Serampore, and Howrah, will, subject to the orders of Government, hold sittings each month from the 1st November 1877 in the three different Courts on the dates mentioned below :—

In the Small Cause Court at Hooghly, from the 1st to 8th of each month.
Ditto ditto Howrah, from the 9th to 17th of each month.
Ditto ditto Serampore, from the 18th to 25th of each month.
Ditto ditto Howrah, from the 26th to the end of each month.

MOHENDRO NATH BOSE, *Judge.*

HOOGHLY COURT OF SMALL CAUSES, the 6th September 1877.

UNDER Section 14, Act XI of 1865, notice is hereby given that, subject to the orders of Government, the Judge of the Court of Small Causes at Narail will sit again in that Court on the dates mentioned below :—

Monday, the 17th September 1877.
 Tuesday, the 18th September 1877.
 Wednesday, the 19th September 1877.

JOHN WESTON, *Judge.*

NARAIL SMALL CAUSE COURT, the 7th September 1877.

TREASURY NOTICE.

UNCOVENANTED DEPUTY COLLECTOR MOULVIE IKRAM RUSSOOL has been placed in charge of the 24-Pergunnahs treasury, and authorized to draw bills on other treasuries.

R. L. MANGLES, *Offg. Commissioner.*

COMMR.'S OFFICE, PRESY. DIVN., CALCUTTA, the 27th August 1877.

EDUCATIONAL NOTICE.

Orders by the Vice-Chancellor and Syndicate of the Calcutta University.

THE University Examinations in Arts of 1877-78 will be held on the undermentioned dates :—

Entrance Examination and First Examination in Arts on Monday, the 26th November, and following days.

B. A. Examination on Monday, the 31st December, and following days.

Applications from candidates for admission to the Entrance and First Arts Examinations must be lodged with the Registrar before the 26th October.

Applications from candidates for admission to the B. A. Examination must be lodged with the Registrar before the 1st December.

All candidates from the same Institution must appear at one and the same place of examination.

CHARLES H. TAWNEY, *Registrar.*

SENATE HOUSE, the 31st August 1877.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 1121B.

NOTICE is hereby given that the Tenth Sale of Opium, the provision of 1875-76, will be held at the Government Opium Sale-Room, No. 2, Bankshall Street, on Monday, the 1st October 1877, at 11 A.M., and will comprise 4,000 chests, viz.—

				Chests.
Behar	Opium	2,080
Benares	,,	1,920
Total				4,000

2. The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 14th November 1876, and published in the *Government and Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3. The latest dates for deposit and clearance will be the 8th and 24th October 1877 respectively, that is to say, no Bank of Bengal receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale-Room will be received after 4 P.M. of Monday, the 8th October 1877, and no Bank of Bengal receipts in full payment of lots will be accepted after 4 P.M. of Wednesday, the 24th October 1877.

4. In addition to the quantity above advertised for sale, the following quantities, more or less, of Behar and Benares Opium will be brought to sale in the present year on or about the dates specified below. The Board of Revenue, Lower Provinces, however reserve to themselves the right of altering these dates should circumstances render it expedient to do so:—

DATES.		Behar, about Chests.	Benares, about Chests.	Total, about Chests.
On or about Friday, 2nd November 1877	...	2,080	1,920	4,000
On or about Monday, 3rd December 1877	...	2,080	1,920	4,000
Total	...	4,160	3,840	8,000

* The 3rd of October which by the general notification of 14th November 1876 was fixed as the date of the 10th sale of opium having been found inconvenient, the Board have fixed the 1st as the date of the sale.

By order of the Member in Charge,

W. H. GRIMLEY, *Offg. Secretary.*

BOARD OF REVENUE, L. P., FORT WILLIAM, the 28th August 1877.

No. 1131B.

THE following notice is published for general information:—

EXCISE, STAMPS, AND OPIUM.
C. T. BUCKLAND, Esq.

Every petition of appeal to the Board of Revenue against an order passed by the local officers in the Excise, Stamps, and Opium Departments, should be presented to the Board within one month from the date of such order, and should bear a court fee stamp of the value of Rs. 2. The petition should be accompanied by the order appealed against in original, or by an authenticated copy of it, or the omission to produce such copy should be explained.

By order of the Board of Revenue, L. P.,

W. H. GRIMLEY, *Offg. Secretary.*

CALCUTTA CUSTOM HOUSE, the 7th September 1877. .

The Calcutta Gazette.

WEDNESDAY, SEPTEMBER 12, 1877.

PART I A.

Orders and Notifications by the Government of India.

The following orders, issued by the Government of India in the Home Department, are republished for general information :—

No. 718.—Simla, the 28th August 1877.—Notifications.—Establishments.—The Hon'ble F. B. Kemp, a Judge of the High Court of Judicature at Fort William in Bengal, resumed his seat on the Bench of the High Court on the forenoon of the 14th instant.

No. 727.—The 30th August 1877.—Appointment.—Mr. J. K. Wight, c.s., Assistant Commissioner of the 3rd grade in Assam, to be Assistant Commissioner of the 2nd grade, vice Captain T. B. Michell transferred to Bengal.

The following order, issued by the Government of India in the Department of Revenue, Agriculture, and Commerce, is republished for general information :—

No. 45.—The 31st August 1877.—Fibres and Silk.—In 1871 the Government of India offered a price of £5,000 to the inventor of the best machine or process for the preparation of the fibre of the *Böhméria nivea* (popularly known under the names of rheea, ramie, and china grass), and the terms on which machines would be admitted to competition were widely notified in India, in Europe, and in America. Many persons declared their intention to compete, but ultimately only one machine was actually brought to the place of trial. The machine having been carefully tested at Saharanpur in the autumn of 1872, was found imperfect in some important respects, and the inventor was adjudged not entitled to the full reward. He was, however, presented with £1,500 in consideration of the partial measure of success he had attained after great perseverance.

2. This machine has not since been adapted by the inventor to practical use, and no improved process of preparing the fibre of the rheea has been yet discovered by other persons. Meanwhile the demand for rheea continues, and the conditions which induced the Government of India in 1871 to offer a prize remain substantially unchanged.

3. His Honour the President in Council therefore considers that it is desirable to renew the offer, and it is accordingly hereby notified that a reward of fifty thousand rupees will be paid to the inventor of the best machine or process which will separate the bark and fibre from the stem, and the fibre from the bark, of the *Böhméria nivea*.

4. A smaller reward not exceeding ten thousand rupees will be given to the inventor of the next best machine or process, provided it is adjudged to possess merit, and to be capable without difficulty of adaptation to practical use.

5. What is required is a machine or process capable of producing, by animal, water, or steam power, a ton of dressed fibre of a quality which shall average in value not less than £45 per ton in the English market, at a total cost, including all processes of preparation and all needful allowance for wear and tear, of not more than £15 per ton, laid down at an

port of shipment in India and £30 in England, after payment of all the charges usual in trade before goods reach the hands of the manufacturer. The processes of preparation are to be understood to include all the operations required subsequent to the cutting of the stems from the plants in the field, until the fibre is in a condition fit to be packed for conveyance to the market.

6. The machinery employed must be simple, strong, durable, and inexpensive, and should be suited for erection in the plantations where the rhea is grown. It must be adapted for treatment of the fresh stems as cut from the plant. The treatment of dried stems offers certain difficulties, and the fibre prepared from them must moreover always be much more costly than the fibre produced from green stems. Except during the hot dry weather preceding the rains in Upper India (where rhea grows best), it is very difficult so to dry the stems that no fermentation or mildew shall occur. But during this season the stems are comparatively short and the crop poor and stunted, unless it is artificially irrigated, and such irrigation greatly increases the cost of cultivation. In the rainy season the plant is in fine condition, but at this season it is almost impossible to dry the stems in quantity without injuring the fibre, unless recourse is had to artificial means of desiccation, which greatly increase the cost of the material. It is therefore obvious that the attention of inventors should be given to the discovery of a process for the treatment of the green stems.

7. The trials will be held at Saháranpur in the North-Western Provinces, in the months of August and September 1879. Machines entered for competition should be placed *in situ*, and be ready for work not later than the 15th August, the competition commencing on the next day. The judges will be appointed by the Government, and they will watch the whole of the trials. But the machines shall be worked and adjusted by the competitors themselves, and no person shall touch a machine without the consent of the inventor.

8. The Government of India will provide proper shelter and accommodation at Saháranpur for all the competing machines as well as the motive power required. It will also pay for the transport from the sea-coast to Saháranpur of all machines up to the limit of one ton each, the freight on any excess weight to be defrayed by the owners. The present rate of freight by rail from Calcutta to Saháranpur is Rs. 3-10 per maund or Rs. 98-11 per ton, and from Bombay to Saháranpur Rs. 4-1 per maund or Rs. 110-9 per ton. A free second class ticket to Saháranpur will also be given to any person in charge of a machine.

9. The owner or owners of the successful machine or machines shall not be entitled to receive the reward offered except on the following conditions, viz.—

- (1) That a complete technical description of the machine, illustrated by plans drawn to scale, shall be prepared and published (Government paying the cost) for the information of the public.
- (2) That after the expiry of three years from the date on which the award is made, the public shall have the right of manufacturing similar machines, on payment to the owner of a royalty of 10 per cent. on the cost of each machine so manufactured.

10. All persons desiring to compete under the terms and on the conditions specified above are requested to make known their intention not later than the 31st December 1878, giving the following particulars :—

1. Name in full and residence.
2. Profession or occupation.
3. Number of different kinds of machines entered for competition.
4. Brief description of each machine.

Intending competitors will at the same time declare themselves bound (under penalty of disqualification of the competing machines and forfeiture of all claim to the Government reward) to conform to all rules which may be prescribed by Government or by the judges appointed by Government in connection with the conduct of the trials.

All notices of intention to compete and applications for information should be addressed to the Secretary to the Government of India, Department of Revenue, Agriculture, and Commerce, Calcutta.

11. A limited quantity of rhea will be grown in the Botanic Gardens, Calcutta, and persons desirous of testing their machines before entering them for public competition may obtain green stems in small quantities from the Superintendent of the gardens through this Department.

The following orders, issued by the Government of India in the Foreign Department, are republished for general information :—

No. 2412G.—*Simla, the 29th August 1877.—Notifications.—General.*—The services of Colonel A. Elderton, Officiating Political Agent, 1st Class, and Officiating Agent to the Governor-General with the King of Oudh and Superintendent of Political Pensions, are replaced at the disposal of the Military Department from the date on which he is relieved by Lieutenant E. L. Durand.

No. 2414G.—Lieutenant E. L. Durand, Officiating Political Agent, 3rd Class, is posted as Officiating Agent to the Governor-General with the King of Oudh and Superintendent of Political Pensions, until further orders, with effect from the date of assuming charge, *vice* Colonel Elderton.

The following order, issued by the Government of India in the Financial Department, is republished for general information :—

No. 2882.—*Simla, the 31st August 1877.—Notifications.—Pensions, Gratuities, &c.*—The Governor-General in Council directs the publication of the following Addenda and Corrigenda to the Codes of the Financial Department :—

CIVIL PENSION CODE.

Section 37 (page 16).

Substitute as follows for the proviso :—

Provided—

- (1) that the transfer is made on public grounds, and not only in the private interest of the officer transferred ;
- (2) that no officer be transferred without the consent of the Local Government, and
- (3) that no officer be transferred for service under a Native State without the consent of the Government of India in the Foreign Department.

Section 70 (a), (page 39).

Substitute the following for item (4) :—

Field allowances, i.e., horse and tent allowances, of any officer of the Survey Department in the Bengal Presidency who retires from the service on or before the 1st September 1882.

Insert in Clause (b), (page 40), the following as item (3 A) :—

“(3 A). Field allowances (i.e., horse and tent allowances) of officers of the Survey Department, excepting officers in Bengal who retire before 1st September 1882.”

Supplement A, Section 6 (page 102).

Insert the following Rule under this Section, together with the note appended :—

1. An officer leaving India on resignation of the service, must report the date of the departure of the vessel in which he sails, if he is a member of the Bengal Civil Service, to the Government of India in the Financial Department, and if he is a member of the Madras or Bombay Civil Services, to the Governments of Madras or Bombay, as the case may be.

[NOTE.—A copy of this Rule should be furnished by the Accountant-General to every officer (if he be in India) who applies to resign, with an intimation that there will be delay in the commencement of his annuity, if he does not report the date of his departure. This copy should be sent to the officer when the Accountant-General prepares his No-Demand certificate.]

CIVIL LEAVE CODE.

Section 30, Rule 5 (page 129).

Substitute the following for the second sentence of this Rule :—

But if the Local Government considers that his default was due to circumstances beyond his control, it may remit the penalty.

ACTING ALLOWANCE CODE.

Section 38 (page 241).

Insert the following as case (a 2) under this Section :—

(a 2.) The Government of India may grant to a Minister appointed by the Church of Scotland for service in any station, an allowance of Rs. 100 a month whenever not less than one hundred Presbyterian soldiers are quartered at the station, and of Rs. 150 a month when the number of such soldiers at the station exceeds two hundred.

The following orders, issued by the Government of India in the Military Department, are republished for general information :—

No. 777.—*Simla, the 31st August 1877.—Appointments and Promotions.*—The under-mentioned officers of the Bengal Staff Corps having completed 20 years' service, are promoted to the rank of Major from the dates specified, under the provisions of G. G. O. No. 808 of the 26th September 1866, subject to Her Majesty's approval :—

* * * * *

Captain Richard Percival Davis,—22nd August 1877.

No. 789.—REPORTS OF DEPARTURE—

* * * * *

Captain W. J. W. Muir, Bengal Staff Corps, G. G. O. No. 605 of 1877.—*Deccan*, 13th July 1877, from Bombay.

The Calcutta Gazette.

WEDNESDAY, SEPTEMBER 12, 1877.

PART II.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Hazareebagh, will be put up to sale at the Hazareebagh Collectorate on the fourth day of the month of October 1877, corresponding with 12th Assin 1285 Puslec.

The purchasers will be subject to the following conditions of sale:—

Conditions of sale.

1. The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2. The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3. If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4. If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

Number in statement of Government estates.	Number on the district roll.	Name of estate and pergunnah.	Approximate area in acres.	Government revenue assessed.	Upset price.	REMARKS.
106	193	Ghosechasko Gadi Gawan, pergunnah Khurrukdih.	Acres. Chains. 130 66	Rs. 15	Rs. 60	The village has been settled directly with the ryots for twenty years. This settlement will expire on the 30th Bhador 1288 (F.S.) corresponding with September 1881. After settlement the whole village was leased to the present farmer. This lease will expire on the 30th Bhador 1288 (F.S.), corresponding with September 1881, simultaneously with the settlement made with the ryots.

H. M. BODDAM, Colonel, Deputy Commissioner.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Hazareebagh, will be put up to sale at the Hazareebagh Collectorate on the fourth day of the month of October 1877, corresponding with 12th Assin 1285 Fusaloe.

The purchasers will be subject to the following conditions of sale:—

Conditions of sale.

1. The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

R. E. HAMILTON,

Offg. Asst. Commr. of Paper Currency.

PAPER CURRENCY DEPT., the 11th September 1877.

Wanted

A SHERISTADAR on a salary of Rs. 40, rising to Rs. 60 by biennial increment of Rs. 2, in the Moonsif's Court of Birganja, in the district of Dinagepore. The candidate must be well versed in English and acquainted with the procedure of the civil courts. He must possess a knowledge of Bengali sufficient to enable him to carry on his duties in that language. None need apply who have not passed the Entrance Examination at least in the Second Division. Applications, with copies of testimonials, will be received on or before the 19th of November next, when the post will be permanently filled up.

KALI KUMAR BOSE, Moonsif.

BIRGANJA, the 6th September 1877.

Notice

WANTED two Mohurirs for the Office of the Moonsif of Doobrajapore. Salary Rs. 20, rising to Rs. 30 by biennial increment of one rupee.

None need apply who have not passed the Entrance Examination or at least the Minor Scholarship Examination, and do not possess competent knowledge of the routine work of a Moonsif's Court.

Candidates should send their applications to the undersigned on or before the 20th of September 1877. Candidates are also required to be present at the examination to be held by the undersigned in his Court-house on the 24th September 1877.

NILMONI NAG, Moonsif.

DOOBRAJPORE, the 22nd August 1877.

Notice.

Oudh Forest Department.

BYRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet in length, at Rs. 2-10 per cubic foot.			
22 "	"	2-12	"
23 "	"	2-14	"
24 "	"	3	"

Above the lengths given two annas per foot run will be charged.

Any inches over the foot will be charged as a foot.

SCANTLINGS.—From 12 to 20 feet, at Rs. 2-8 per c. ft.

Under 12 and over 7, at " 2-4 "

Under 7 feet, at " 2 "

The above prices are for ordinary building purposes.

For *Planking Sleepers*, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator, Oudh Forests,

SIMPSON HILLIERS, Asst. Conservator of Forests.

The 1st June 1877.

THE interest and responsibility of the estate of the late C. H. B. Wilson in the undermentioned firm ceased on the 30th June last.

W. H. FITZ & Co.

CALCUTTA, the 10th September 1877. (1485—1)

IN pursuance of Rule 17 of the High Court rules dated 11th September 1873, notice is hereby given that the undersigned intends to apply to the High Court to be admitted to practise as pleader of the said Court.

G. C. CHAPMAN, First Grade Pleader, Tirhoot.

(1447—4)

THE interest and responsibility of Mr. Henry Fornaro in our firm ceased on the 31st December 1876. Mr. Charles Fornaro will continue to carry on the said firm on his own account under the same name and style.

FORNARO BROTHERS.

CALCUTTA, the 1st September 1877.

Isabella Young, deceased.**STATUTORY NOTICE TO CREDITORS.**

PURSUANT to "the Trustees and Mortgagees Powers Act, 1866," being Act XXVIII of 1866 of the Governor-General of India in Council, notice is hereby given that all creditors and other persons having any claims or demands upon or against the estate of Isabella Young, formerly of Hurrinbarry Lane, and late of No. 11, Chattawalla Gully, in the town of Calcutta, widow, who died at No. 11, Chattawalla Gully aforesaid, on the 26th day of May 1877, and Letters of Administration with the will annexed of whose property and credits were duly granted to the Most Reverend Walter Steins, Archbishop of Bosra and Vicar Apostolic of Western Bengal of the Catholic Cathedral House, Moorgheehatta, in the town of Calcutta, the sole residuary legatee under the will of the said Isabella Young, deceased, by the High Court of Judicature at Fort William in Bengal in its Testamentary and Intestate Jurisdiction, on the 28th day of August 1877, are hereby required to send in writing the particulars of their claims or demands to the undersigned Messrs. Dignam and Robinson, the Solicitors of the said Walter Steins, at their office at No. 7, Old Post Office Street, in the town of Calcutta, on or before the 31st day of December 1877, and notice is hereby also given that at the expiration of the last mentioned day the said Walter Steins will be at liberty to distribute the assets of the said Isabella Young or any part thereof amongst the parties entitled thereto having regard to the claims of which the said Walter Steins has then had notice, and that the said Walter Steins will not be liable for the assets or any part thereof so distributed to any person of whose claim the said Walter Steins has not had notice at the time of such distribution.

Dated this 8th day of September 1877.

DIGNAM & ROBINSON, *Solicitors*

(1486-1) for the said MOST REVEREND WALTER STEINS.

High Court Notice.

In the matter of the Trust for the Creditors of Radha Nauth Bose.

NOTICE is hereby given that Radha Nauth Bose of Bhojanipore, in the suburbs of Calcutta, executed, on the 19th day of June 1877, a deed of trust and assignment whereby he assigned all his property, credits and effects to the Official Trustee of Bengal in trust for the benefit of his creditors.

All property, assets, and debts belonging or due to the estate of the said Radha Nauth Bose on the said 19th day of June last should be forthwith made over and paid to the Official Trustee of Bengal, who is alone entitled to grant effectual receipts and discharges for the same. All persons having claims prior to the said 19th day of June last against the said estate are requested to communicate with the undersigned, and to forward affidavits or solemn declarations duly verified of their claims supported by vouchers or other proofs without delay.

The deed in question, which was registered on the 3rd of September instant, can be inspected on application to the undersigned.

F. J. FERGUSON, Official Trustee of Bengal.

OFFICIAL TRUSTEE'S OFFICE, TOWN HALL.

CALCUTTA, the 11th September 1877. (1489 f.n.)

In the Court for the Relief of Insolvent Debtors at Calcutta.

IN the matter of the petition of Sreenath Dutt, residing at Joggomohun Shaw's Lane, in Mooktaram Bahoo's Street, in the town of Calcutta, and carrying on business at Monohur Doss's Street in Burrabazar, in the said Town of Calcutta as a cloth shop-keeper seeking the benefit of the Act of the eleventh year of the reign of Her present Majesty, entitled an Act to consolidate and amend the Laws relating to Insolvent Debtors in India.

PURSUANT to order made in the above on and bearing date the seventh day of August last, Tuesday, the fourth day of December next, has been appointed for the hearing for proof of claims in this matter, and the creditors of the said Insolvent are required, within ten days before the said fourth day of December next, to file in the Office of the Chief Clerk of this Court a statement of the account of their respective claims against the estate of the said Insolvent duly verified by affidavit, and that the Chief Clerk do form a schedule from the claim so to be filed.

A. B. MILLER, Official Assignee.

NOBIN CHUND BURAL, Attorney. (1484-2)

INSOLVENT NOTICES.

In the Court for the Relief of Insolvent Debtors at Calcutta.

IN the matter of WILLIAM REES GORE, an Insolvent.

On Tuesday, the 28th day of August last, it was ordered that the matters of the petition of the said Insolvent be heard on Tuesday, the 20th day of November next, and that the said Insolvent do then attend to be examined before the said Court.

Pramathanatha Basu, Attorney.

IN the matter of HORATIO BARLOW BRADFORD, an Insolvent.

On Tuesday, the 28th day of August last, it was ordered that the matters of the petition of the said Insolvent be heard on Tuesday, the 28th day of November next, and that the said Insolvent do then attend to be examined before the said Court.

H. R. Fink, Attorney.

Chief Clerk's Office, the 4th September 1877.

IN the matter of BEER CHUND COONDOP, GOSSAIN DOSS COONDOP, and KHETTER MOHUN SEN, Insolvents.

Notice that an application for an *ad interim* protection order has been this day made by the said Insolvents, and that such application will be heard and disposed of by the Acting Commissioner of the Insolvent Court on Tuesday, the 2nd day of October next, at the hour of 10 o'clock in the forenoon.

Any Creditor of the said Insolvents desirous of opposing such application must appear before the said Court at the time and place aforesaid.

Pittar & Wheeler, Attorneys.

IN the matter of BEER CHUND COONDOP, GOSSAIN DOSS COONDOP, and KHETTER MOHUN SEN, Insolvents.

On Wednesday, the 5th day of September instant, it was ordered that the matters of the petition of the said Insolvents be heard on Tuesday, the 20th day of November next, and that the said Insolvents do then attend to be examined before the said Court.

Pittar & Wheeler, Attorneys.

IN the matter of NITTANUNDO DOSS, an Insolvent.

On Tuesday, the 7th day of August last, by an order of this Court the said Insolvent was adjudged entitled to his personal discharge under the Act XI Vic., Chap. XXI, as to all persons named in his schedule as creditors or claiming to be creditors respectively.

A. St. John Carruthers, Attorney.

IN the matter of EDMUND FRANCIS, an Insolvent.

On Tuesday, the 4th day of September instant, by an order of this Court the said Insolvent was adjudged entitled to his personal discharge under the Act XI Vic., Chap. XXI, as to all persons named in his schedule as creditors or claiming to be creditors respectively, except the debt due to J. N. Mookerjee for Rs. 4-7-6, who appears not to have been served in due time with the notice of the day of hearing in this matter.

H. R. Fink, Attorney.

IN the matter of UMBICCA NUNDUN BISWAS, an Insolvent.

On Thursday, the 3rd day of May last, it was ordered that the hearing of the matters of the petition of the said Insolvent do stand adjourned to the first court-day in May 1878, with liberty to the opposing creditor to apply for an earlier hearing and the said Insolvent undertaking to appear whenever the Official Assignee or the Court may require him to attend on notice to his solicitor. This Court doth hereby make this *ad interim* protection order for the protection of the said Insolvent from arrest, to take effect from the date hereof in respect of all the debts and liabilities mentioned in the schedule of the said Insolvent filed in this Court, which protection shall continue in force until the said first court-day in May 1878; and also ordered that the said Insolvent do personally attend before this Court on the said first court-day in May 1878.

W. F. Watson, Attorney.

Chief Clerk's Office, the 11th September 1877.

The Indian Law Reports

Published under Authority of the Governor-General in Council.

THE Reports appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance.

	Without postage.	With postage.
For the Calcutta Series...	Rs. 35	Rs. 40
„ Madras Series ...	„ 8	„ 9
„ Bombay Series...	„ 8	„ 9
„ Allahabad Series	„ 8	„ 9

STATISTICAL DEPARTMENT,
The 10th September 1877.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

ABSTRACT OF REPORTS ON DISTRICT STOCKS OF RICE AND MOVEMENTS OF PRICE IN BENGAL, RECEIVED UP TO THE 11th SEPTEMBER 1877.

N. B.—No reliance can be placed on the accuracy of figured estimates of stocks in the interior; at best a rough approximation is all that can be expected.

Burdwan, 8th September 1877.—About 40,000 maunds of rice are in store in the hands of dealers. Exports during the week have been—from Outwa 6,000 maunds, from Bood-Bood 3,000 maunds, from Jehanabad 6,000 maunds, and from Raneegunge 30,000 maunds. Most of this rice is from Bankoora and Beerbhoom. Prices steady.

Bankoora, 8th September 1877.—About 10,000 maunds of rice were exported from the district during the week.

Beerbhoom, 8th September 1877.—The prices in the different marts in the district are stationary, the average being 14 seers 5 chittacks per rupee. Stocks are being very rapidly depleted as the confidence in the crop now growing is confirmed. During the past week 37,000 maunds were taken away from Bolpore alone; the Collector estimates that not less than 45,000 maunds were exported in all. The railway authorities have refused to furnish information regarding food exports from the stations.

Hooghly, 8th September 1877.—Stocks in the interior are likely to last 66 days. About 30,000 maunds of rice have been imported to Chandernagore and other places on the Hooghly. Stocks in hand at Chandernagore and other places on the Hooghly are estimated at 55,000 maunds. There has been a slight fall in the prices. Coarse rice is selling at Hooghly at from 11 to 11½ seers the rupee.

Howrah, 8th September 1877.—Prices are slightly higher than last week; the supply has scarcely kept pace with the depletion of stocks.

24-Pergunnahs, 8th September.—The reported exports to Calcutta are from Diamond Harbour sub-division 15,000 maunds rice and the same quantity of paddy; from Satkhira, 5,000 maunds rice. Nothing else is reported for the week, but export goes on, a good deal of it through the smallest dealers, and ryots are believed to be running their stocks as low as they can. Lowest reported price of rice is Rs. 2-8 at Satkhira. New *aus* at Baraset sells for 14 seers the rupee.

Nuddea, 8th September 1877.—The position of affairs is almost unchanged; 8,825 maunds of rice were imported into Kushteah, and 6,197 maunds exported by rail during the week. 6,500 maunds of wheat and gram were exported from Meherpore to Calcutta. A little *aus* is being sent from Ranaghat, and 1,538 maunds of rice were sent from Bongong. The Kishongunge toll-office reports the following exports during the week:—Rice 525, wheat 50, barley 100, pulses 3,760 maunds. The Nuddea toll-office report shows the following exports:—Rice 400, wheat 225, gram 4,005, pulses 254 maunds. Prices have slightly fallen at Kushteah, but have generally risen a little. The price last paid for rice at Kishnaghur jail was Rs. 2-12-6 a maund.

Jessore, 8th September 1877.—Prices continue as they have been for the last fortnight. The stocks of rice in the different bazars are considered sufficient for the wants of the people. The Khulnah boat registration office reports that 10,099 maunds were exported from the district during the week ending 6th September 1877.

Moorshedabad, 8th September 1877.—The exports down river according to Jungypore returns were rice 27,900, paddy 1,100, pulses 31,450, gram 2,050, wheat 2,350 maunds, &c. The imports were rice 37,925, paddy 3,000, pulses 11,200, gram 3,605, wheat 5,785 maunds, &c. The exports are again increasing and check the fall in prices anticipated from the *aus* harvest. The prices are—fine rice from 10 to 12 seers, common rice from 11 to 14½ seers, coarse rice from 13½ to 15 seers, wheat from 14 to 16 seers, gram from 18 to 20 seers.

Dunagapore, 7th September 1877.—The price of common rice rose considerably this week. The exports of grain from the district during July amounted to 13,27,214 maunds, and in August to 67,697 maunds. The quantity in hand in July was 2,90,550 maunds, and in August 70,346 maunds.

Rajahmhye, 8th September 1877.—The export of rice from the several marts and gunges during the past week amounted to 2,549 maunds. The stock available for export is nearly 5½ lakhs of maunds. Prices are rising slightly. Common rice is 13½ seers, paddy 20½ seers, wheat 15 seers, and barley 18 seers per rupee.

Rungpore, 7th September 1877.—Regarding the state of the rice market and stocks there is nothing worth mentioning, except that large exportations are reported to have been made from Gaibanda to Assam, Serajgunge, and Goalundo, and that boats have come up from the latter two places to take rice. In Kurigram but little exportation is going on at present. *Amun* rice is selling there at 16 seers, and *aus* at 18 seers per rupee. From Bagdogra there is no export of rice.

Bogra, 8th September 1877.—The price of rice is about the same as reported last week, being a little dearer in three principal marts, cheaper in two, and the same in four. There has been no importation. About 5,800 maunds of rice and paddy have been exported to Calcutta.

Pubna, 8th September 1877.—At sudder station the prices are—common rice Rs. 2-6-3, coarse rice Rs. 2-1-6, and wheat Rs. 2 3-6 per maund. The stoppage of importation owing to the lowness of the rivers has raised the price of rice. At *Dulai aus* sells for Rs. 1-4, and *amun* Rs. 2 a maund. At Mathoora the price is Rs. 2, at Raigunge Rs. 2-4, and at Shazadpore Rs. 3-4. At Serajgunge the prices are—rice, best sort, Rs. 3-10; middle

sort Rs. 3-1; common rice Rs. 2-9; *aus* Rs. 2-8; *atub*, best sort, Rs. 4-8; *atub*, middle sort, Rs. 3-4. Throughout the district, except Raigunge, *amun* dhan is suffering from lowness of the rivers and want of heavy rainfall.

Darjeeling, 7th September 1877.—The stock of food-grains is well sustained. The prices continue to fall slightly.

Julpi-goree, 8th September 1877.—Prices are rising slightly. At Alipore bhadoi is being sold at 15 seers, and old coarse rice at 13 seers the rupee. At Fallacotta common rice is selling at 13 seers, and old rice is being hoarded. There is slight exportation going on to Cooch Behar. Stocks will be generally sufficient till the winter crop is reaped.

Cooch Behar, 6th September 1877.—The long break in the rains raised the price of rice to Rs. 3 during the week, though there was no deficiency of supply anywhere. The favourable turn the weather has taken will stop the further rise in prices. New *bitri* rice is selling at Rs. 2-4 a maund. About 1,000 maunds of rice were lately exported to Serajgunge.

Dacca, 8th September 1877.—The registered exports of rice to Calcutta and Goalundo by boat amount to 23,950 maunds, and elsewhere 917 maunds. Exports by Eastern Bengal Railway were 13,500 maunds. The exports of paddy to Chittagong and Backergunge were 2,575 maunds. Naraingunge, Dacca, and Mirpur are well supplied. Rice is scarce in Manickgunge. The prices are, at Dacca and Naraingunge, Rs. 2-12 to Rs. 2-14, and at Manickgunge Rs. 2-11 to Rs. 3 4.

Furreedpore, 9th September 1877.—The price of common rice has risen all over the district. The average is not more than 12 seers a rupee. At this season the district to a great extent depends on imported rice, which, owing to demands elsewhere, is not coming in as abundantly as usual. There is no exportation. The indifferent prospects of the winter rice are likely to cause a further rise of price.

Backergunge, 6th September 1877.—In the Sudder and Perozepore sub-divisions food is abnormally dear, owing to the enormous exportation incited by the demand in the famine tracts and the diminished production last year consequent on the cyclone. Coarse rice is selling at Rs. 3-4, and finer kinds at Rs. 3-8 and Rs. 3-12 a maund. Exportation on a small scale to Calcutta continues, and the following figures are reported:—from Backergunge 2,075 maunds, Perozepore 1,250, and Sharupkati 2,160 maunds. Rice is being imported in larger quantities than has been known in recent years; the total amounted to 23,460 maunds during the week. In Dukhin Shabazpore importations continue. The *aus* lately cut is now coming largely into the market and is selling at Rs. 3 to Rs. 3-4 a maund. The new *aus* with the *amun*, which is being imported, will be sufficient for the requirements of the people. In Patuakhali the price of *amun* is from 9½ to 10½ seers, and of *aus* from 12 to 13½ seers the rupee. There is some importation of food-grains this year, the people having sold what in other years they kept for home consumption.

Tipperah, 7th September 1877.—No change in prices or stocks of rice during last week. Exports to large amounts continue, and keep prices high. But there must be a fall soon with the prospects of a good winter rice crop.

Chittagong, 6th September 1877.—The north of the district is well off; best rice sells from 10 to 14 seers the rupee. The poor in the south are somewhat pressed, but the distress is mainly owing to difficulties of communication. In Teknaaf rice is 4 seers unhusked, 3 to 3½ seers husked; at Nhila 5 to 5½ seers; at Ukhia 7 to 7½ seers. But the Teknaaf Mughls eat snakes, frogs, &c., with relish. There have been large imports this week, aggregating 1,00,000 maunds. This will ease prices. No exports.

Noakholly, 6th September 1877.—Prices of food-grains in almost every station are higher than those previously reported. At the Sudder coarse rice is 13 seers a rupee. The markets in the north of the district are well supplied. In the south not so well supplied as was expected. There is no exportation.

Chittagong Hill Tracts, 4th September 1877.—Rice is imported from Chittagong by traders and shop-keepers in small quantities, and now sells at Rangamati at Rs. 4, and at Fenny at Rs. 2-8 a maund. The hill people at Chengri Valley get their supplies from their jooms.

Hill Tipperah, 5th September 1877.—The markets continue to be adequately supplied. The price of common rice at Agurtollah is 20 seers the rupee.

Patna, 8th September 1877.—Prices are still rising, especially of rice and wheat. Coarser grain is still cheap and plentiful. Exports are steady.

Gya, 8th September 1877.—There was an export of 435 maunds of rice, 3rd quality, 434 maunds of gram, and 20 maunds of rice, 1st sort, to Patna from the sudder bazar. The prices are rising. From Jehanabad grain is being exported.

Shahabad, 8th September 1877.—At Sasseram prices are still rising, and at head-quarters they have risen very high owing to dealers holding out.

Durbhunga, 8th September 1877.—Importations dull. Prices steady at previous rates.

Mozufferpore, 8th September 1877.—During the week prices rose very rapidly—common rice from 14 to 10 seers per rupee by the evening of 5th instant. Since the recent rain prices have again fallen, and are now nearly the same as on 31st ultimo. Some up-country traders have been buying up grain in Mozufferpore for exportation.

Surun, 8th September 1877.—The food-grains imported from Goruckpore, Shahabad, Fyzabad, and Nowabgunge amounted to 13,040 maunds, including 1,200 maunds of common rice, 2,025 maunds of gram, 7,390 maunds of barley, &c. The exports were 5,000 maunds of wheat to Calcutta, and 8,000 maunds of rice to Fyzabad. The prices are—common rice 12 seers 11 chittacks, gram 21 seers 3 chittacks, wheat 15½ seers, barley 20½ seers, &c.

Chumparun, 8th September 1877.—No exports; prices of food-grains have increased.

Monghyr, 8th September 1877.—The stocks in the different marts and gunges during the week were—rice 19,848, rahar 17,936 wheat 52,969, dhan 8,868, gram 60,550 maunds, &c.

Bhagulpore, 9th September 1877.—Small quantities of rice were exported by river and rail, some to North-Western Provinces and some to Calcutta. Prices are slightly higher, but the last rain has raised all hopes.

Purneah, 8th September 1877.—There has been a considerable falling off in the exportation during the week. The outturn of the new bhadoi, which has been reaped, has not been quite as good as was expected, much of it being light in the ear. At the beginning of the week prices rose suddenly from 20 to 13 seers. They have, since the improvement in the weather, fallen again to 19 seers at sudder. In Raneegunge the price is 25 and 26 seers the rupee.

Maldah, 8th September 1877.—The price of food-grains is gradually increasing. The average price of coarse rice this week is 16½ seers against 17½ seers last week. There is no other change.

Southal Pergunnahs, 9th September 1877.—About 500 maunds of food-grains were exported to Calcutta during the week from Deoghur sub-division. The amount of food-grains supplied in the markets of that sub-division during the week were—paddy 71 maunds, wheat 12½, ordinary rice 256, best rice 67, Indian-corn 14, and gram 25 maunds.

Cuttack, 1st September 1877.—The stocks in Kendraparah have been estimated by the Deputy Collector at 15 lakhs of maunds. But the Collector thinks that there would have been larger export transactions if there were such large stocks. The exports last week were only 31,926 maunds, and for last month 52,401 maunds. A month ago the estimate for the whole district was 19 lakhs, and the district could easily bear exportation of one lakh of maunds. The smaller estimate is probably nearer the mark. There will now be a more brisk export owing to the report that Government wish rice to be exported to the Nellore ports. Already 3,500 maunds have been consigned to Kistnapatam, and other merchants would follow suit if they had means of transport. Prices have remained as last reported.

The 8th September 1877.—The reports from the Catoongoes are not so favourable this week. The general forecast is that there is plenty of rice for local consumption and for a certain amount of export, but nearly all agree that the market cannot stand large exportations. Prices are high both in the town and all over the interior. Exports last week were 5,492 maunds as against 31,926 maunds of the previous week, and yet the prices have a tendency to rise. Seven ships are loading at False Point, but the difficulty still is want of means of transport from Cuttack.

Pooree, 6th September 1877.—Rice is obtainable in all parts of the district. The prices are 11 seers 13 chittacks in the city, and from 13½ to 15½ seers in the mofussil. Traders from Madras are purchasing rice for export in the city, and in the western and south-eastern parts of the district. Export by land to Cuttack, and by land, the Chilka and the sea to Madras continues.

Balasore, 7th September 1877.—During the past week the exports from Chandbally were 23,802 maunds of rice to Madras, and 1,540 maunds rice and 718 maunds paddy to Calcutta, and a small quantity by land towards Contai. Clean red rice sells in Balasore town at Rs. 2-6, and in Chandbally Rs. 2-8. Stocks held for export in Balasore town amount to 77,000 maunds, and in Chandbally to 49,146 maunds.

Hazareebagh, 7th September 1877.—The markets are well-supplied. The young Indian-corn is now coming freely into the market, but more as a vegetable than as a food-grain, and is sold very cheap, showing that the crop is a full one. A small quantity of wheat (50 maunds) was exported towards Raneegunge, but more than three times that quantity was imported. Prices continue unchanged.

Lohardugga, 8th September 1877.—The bazars are well-supplied. Prices have risen again at head-quarters, but are steady at Palamow. There is no unusual exportation.

Singbhoon, 7th September 1877.—The supply of food-grains continues plentiful. There have been no changes in their prices. Exportations nil, owing to weather.

Manbhoom, 8th September 1877.—Nothing new to report about export of rice, which continues at the same rate. From Purulia, however, the exports are larger, as the harvest being a fair one, the ryots are selling off the surplus stock of rice. The condition of other food-grains is satisfactory. There will not be a bumper rice harvest, as *khorka*, or barren blight, has appeared.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 8th September 1877.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.			
<i>Western Districts.</i>			
BURDWAN DIVN.	1 Burdwan, Sept 8 '77	·79	Rainfall at Raneejung has been 6·21 inches, at Jehanabad 2·69 inches, at Culna ·46 of an inch, and at Cutwa ·15 of an inch. Bood-hood had no rain during the week. Prospects of the crops are good. Fever is prevalent.
	2 Bankoora, „ 8 „	1·48	Not much rain during the early part of the week, but the weather was showery towards the close. Prospects of the crops continue favourable.
	3 Beerbhoom, „ 8 „	1·39	Weather—very hot in the early part of the week. Fair rain on the 7th and 8th instant, which promises to continue. State and prospects of the crops continue fair.
	4 Midnapore, „ 8 „	1·72	Weather—fine at the beginning of the week and stormy at the end. The prospects of late rice continue excellent, especially in the south and south-west of the district.
	5 Hooghly, „ 8 „	·87	Weather—warm. Slight rain on the 6th, 7th, and 8th instant. The harvesting of early rice is going on. The break in the rain was on the whole beneficial, but rain is again needed, and is being given, the Collector writes, in fulness. All crops on the ground are doing well. Public health is normal.
	Howrah, „ 8 „	2·08	Weather—fair and sultry at the beginning, and cloudy with moderate rain at the end of the week. The crops have benefited greatly by the comparative cessation of rain. But little rice now remains to be transplanted.
<i>Central Districts.</i>			
PRESIDENCY DIVN.	6 24-Pergunnahs, Sept 8 '77	1·06	Weather—fair and hot during most part of the week. The <i>aus</i> harvest is going on, and the outturn is so far good. The condition of other crops is very good and promising. The health in general is good for the season.
	7 Nuddea, „ 8 „	·13	Weather—fine, with slight rain occasionally. The early rice harvest is progressing rapidly and favourably. Part of the late rice requires either floods or very heavy rain. Chillies, sugarcane, &c, are reported to be promising.
	8 Jessore, „ 8 „	1·30	Weather—very sultry. Slight rain on three days at the Sudder Station. The heaviest rainfall reported is from Khoollua—2·11 inches. Early rice is gathered and the yield is fair. <i>Amun</i> promises well. At Magoorah and Nural fears are expressed about the <i>amun</i> on account of the rapid fall of the rivers.
	9 Moorshedabad, „ 8 „	·93	Weather—extremely hot in the early part of the week; windy and comparatively cool in the latter part. The <i>aus</i> harvest generally appears to be a fair one and is still in progress. More rain is wanted for the <i>amun</i> . General health is good.
RAJSHAHY AND COOCH BEHAR DIVN.	10 Dinagopore, „ 7 „	3·49	Oppressive heat prevailed till the night of the 5th instant, when rain fell, and the weather has since been much cooler. ·65 of an inch registered at Roygunge. State and prospects of the crops are generally good. The jute is not so good as the <i>bhadoi</i> . The Collector hears that the planting of the <i>harmants</i> rice is interfered with by general sickness among the people.
	11 Rajshahye, „ 8 „	·50	Weather—cloudy with occasional scanty showers of rain. The cutting of the <i>aus dhan</i> is nearly finished; the yield is said to be an average one. With the rise of the rivers an improvement was expected in the state of the <i>amun</i> crop, but the sudden and untimely receding of the inundation water is said very likely to cause ultimate injury to the crop.
	12 Rungpore, „ 7 „	1·40	Up to 6th instant the weather was dry and hot, since then it has become cooler. ·68 of rain registered at Gaibanda and ·30 at Kurigram. The dry weather has been relieved by the heavy and seasonable rain of the 6th. Jute is now being cut all over the district and the crop is a good one. Fever is prevalent in the Gaibanda sub-division and small-pox in the Barobari thana of Kurigram: otherwise the public health is good for this time of the year.
	13 Bogra, „ 8 „	·47	Alternate rain and sunshine with easterly wind. The prospects of the crops are on the whole satisfactory though rain is wanted, and in Sherepore police station it is reported that the <i>amun</i> crop is somewhat backward. The ruin of the 7th instant has done much good. Fever is reported to be prevalent in the three western police stations and in Mudhoopore outpost; in other parts the district is healthy.

No.	District, and date of return	Rainfall at Sudder Station in inches	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—(Continued.)			
Central Districts			
RAJSHAHYE AND COCH BEHAR DIVN.	14 Pubna, Sept 8 '77	1 56	Weather—cloudy and showery. The reaping of <i>aus dhan</i> is almost completed and a 12-anna outturn is expected. State and prospects of all crops, especially jute, continue to be good, with the exception of the <i>amun</i> crop, which is suffering from lowness of the rivers and from want of heavy rain. Fever is very prevalent in the town.
	15 Darjeeling, „ 7 „	5.08	The rainfall has been somewhat more seasonable during the week, but more is needed. The <i>kaimanti</i> rice on the high lands have suffered for want of rain, but no serious loss has yet been experienced.
	16 Julpigoree, „ 8 „	10 52	Water—rainy and seasonable. Cooler and much less oppressive. Rain fell on two days at head-quarters. It is hoped that it was general. It has done much good. The <i>kaimanti</i> rice, which was withering for want of rain, has been saved, and transplantation is active throughout the district. Except in Boda, where the <i>kaimanti</i> has suffered exceptionally, a 10 to 12-anna crop is anticipated. In Boda the <i>bhadoi</i> is generally a failure and the <i>kaimanti</i> will be poor.
	Cooch Behar, „ 6 „	2.65	Weather—hot and oppressive in the beginning of the week. It began to rain from the night of the 4th instant, and the weather became cool. 35 registered at Mathabhangra, 87 at Mekligunge, and 33 at Dinhatta. The prospects of the <i>kaimanti</i> were becoming very gloomy. Good showers of rain have, however, begun, and if there be a sufficient fall, people will still be able to finish transplanting, the seedlings already transplanted will flourish, and though even an average harvest cannot be expected, there will be no cause for serious anxiety. The outturn of the jute crop is expected to be good. Tobacco seeds have lately been sown in some places.
Eastern Districts.			
Dacca Divn.	17 Dacca, Sept 8 '77	.91	Weather—fair up to 6th instant; since then heavy clouds and showers. Rice on high lands usually subject to inundation from rivers is already suffering, and even plentiful rain will not save it from being a poor crop. The prospects of the <i>amun</i> crop now depend entirely on the river not falling as fast as it has been doing. If it does, there will be great loss; if not, only partial.
	18 Furreedpore, „ 9 „	1 32	Weather—hot in the early part of the week; cooler during the last two or three days. Rainfall at Goalundo has been 1 57 inches, and at Madaripore 2.60 inches. The rivers are still falling, and the prospects of the <i>barun</i> , or long-stemmed rice, are unfavourable. It is almost too late to hope for a rise of the rivers now, but if there is an abundant rainfall, taking one kind of winter rice with another, a tolerable crop may be obtained.
	19 Backergunge, „ 6 „	1 33	Weather—seasonable. Prospects of the crops everywhere continue good. Transplantation of <i>amun</i> is still going on with great activity in all the wave-stricken tracts, and notwithstanding the recent fearful destruction of human life, it is expected that very little land will be left uncultivated. Fever and general sickness are prevalent; also hoof disease among cattle in a few places.
	20 Mymensingh „ „ „	Return not received
CHITTAGONG DIVN.	21 Tipperah, „ 7 „	.02	Weather—hot and fine. 1 62 of rain registered at Brahmunbariah. Prospects of the crops are good, but more rain is wanted soon. The floods have done some damage in thanas Kotwali and Kosba.
	22 Chittagong, „ 6 „	7.00	Weather—fine. On the night of the 3rd instant 6 inches of rain fell in six hours. The prospects of the <i>amun</i> crop are very good. The north of the district is well off, but in the south the poor are suffering, and the distress is mainly owing to difficulties of communication.
	23 Noakholly, „ 6 „	1 35	Weather—fair and very hot. There was a little rain during the week and more is wanted. The reaping of early rice and transplantation of <i>amun</i> still continue. Public health is fair.
	24 Chittagong Hill Tracts, „ 4 „	1 76	Weather—sunny with occasional showers of rain throughout the week. Paddy is being gathered in early <i>jooms</i> . The cotton plants are thriving well.
	Hill Tipperah, „ 5 „	1.27	Very slight rainfall. Weather very warm. More rain is wanted for the recently transplanted <i>amun</i> crop. Other crops are doing well.
BEHAR.			
PATNA DIVN.	25 Patna, „ 8 '77	.79	Rainfall at Barrh has been 2.41, at Behar 52, and at Dinapore 67. Rain is still insufficient to complete transplantation of rice on high lands. <i>Bhadoi</i> is good everywhere. Health is good. Since reported on the 10th instant:—Good steady rain all on the 9th and continued on the 10th: though too late to save all rice, it has much brightened the prospects.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.—(Continued.)			
PATNA DIVISION.	26 Gya, Sept. 8 77.	·94	Weather—cloudy with a light breeze blowing. Maximum thermometer in the shade 98° 4". 2·52 inches of rain registered at Nowada, ·66 at Jehanabad, and 1·42 at Aurungabad. Much transplantation of <i>dhan</i> still remains uneffected for want of rain. If effected in this (the purba) <i>nachhitra</i> , the yield cannot be more than 8 annas, and only one more <i>nachhitra</i> remains within which the ryots will transplant. Gratuitous distribution of water from the canal has done good. Cutting of the <i>bhadoi</i> is going on. The yield is estimated at an average of from 10 to 12 annas in Nowada, 8 to 10 annas in the Sudder sub-division, and 6 to 8 annas in Aurungabad. A loss already of 8 annas of the <i>dhan</i> crop is reported from Jehanabad.
	27 Shahabad, " 8 "	·10	Weather—cloudy with high east wind. Heavy rain still holds off. Rain in Sasseram has been 1·39, and more is wanted to perfect the <i>bhadoi</i> crop. Good rain now would improve the prospects of the <i>khurreef</i> crop. Water is being freely taken from the canals. Rain in Buxar has been 74. It is not sufficient for the <i>bhadoi</i> . The winter rice has sustained much damage, and will be lost unless water is supplied by rain or canals. Rain in Bhubbanoah has been 1·39, and there was general rain all over the sub-division, which has done good to the dying crops. <i>Bhadoi</i> is being harvested. Rice crop is being irrigated. All water available from the canals has been applied for throughout the district, and a large area is being irrigated daily. The <i>bhadoi</i> is estimated at 8 annas at the outside. In the headquarters sub-division much rain is wanted for the <i>rubbes</i> . General health is good.
	28 Durbhunga, " 8 "	5·70	Throughout the Mudhoobani and the Sudder sub-divisions there was heavy rain on the 5th and 6th instant, which has proved very beneficial. In the former sub-division the <i>bhadoi</i> crop had suffered, but in the latter no injury had been done by the drought. In both sub-divisions the prospects of the winter rice are good. The rain does not seem to have extended to Tajpore, which had previously been suffering. Want of rain was felt almost in all parts of that sub-division. A good downpour is needed to save the <i>bhadoi</i> crop from injury.
	29 Mozufferpore, " 8 "	2·49	Weather—hot and oppressive in the early part of the week, but cool and cloudy with strong east wind since 6th instant, when rain fell throughout the district. The fall at Hajenore has been 2·10 inches, and at Seetamurhee 2·01 inches. A good average <i>bhadoi</i> harvest may now be expected with favourable weather. The rain has greatly benefited the rice crop, and the transplantation of seedlings is now being completed.
	30 Sarun, " 8 "	1·80	Weather—cloudy with occasional slight showers. There was a sharp storm on the night of the 5th instant. Slight rain fell in most part of the district, and there was a good downpour at head-quarters on the night of the 5th ·05 registered at Sewan. The rainfall varies so much in different parts of the district that it is difficult to say yet what the general result is. It would seem, however, that in many places appreciable good has been done. Very much indeed depends now on the late rains, but there is hope for them, as the clouds are still driving up from the eastward.
	31 Chumparan, " 8 "	·19	Weather—very hot up to 6th instant; since then cooler in consequence of the rain. Rain, which was urgently needed, fell on the night of the 6th, and has materially affected the prospects of the crops for the better. No rain, however, is reported from Bettiah. Cholera is on the decrease. More rain is required.
BAGULPORE DIVISION.	32 Monghyr, " 8 "	1·26	Weather—hot with some heavy rain. No rain at Jamui, and only ·02 at Begoo-serai. The rice crop in Jamui and Begoo-serai looks badly. In the Sudder things are better.
	33 Bhagulpore, " 9 "	·98	Weather—extremely hot and sunshiny during the first four days of the week; the last three days were cloudy with refreshing showers. If this rain has been general the crops may be considered safe. <i>Bhadoi</i> is being rapidly harvested with fair average outturn.
	34 Purneah, " 8 "	1·20	Weather—stormy with very cool east wind. 4·19 inches of rain registered at Kiseengunge and 3·15 inches at Arrareah. The transplanted <i>aghani</i> has been retarded by the drought during August and the first few days of this month. Rain has fallen during the last few days, and if it continues the main winter crop will be saved.
	35 Maldah, " 8 "	·87	Great heat at the beginning of the week. The crops want rain. It was falling favourably at the time of report at head-quarters, and, it is hoped, all over the district.
	36 Sonthal Pergah, " 9 "	1·76	Rain had been threatening for some time and came down well on the 8th instant. It has probably been general over the district. ·48 registered at Godda, 1·1 at Rajmehal, and ·45 at Deoghur. The prospects of the crops are very good if the rain of the 8th fell over a wide area.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
ORISSA.			
ORISSA DIV.	37 Cuttack, Sept. 8 '77	1.94	Weather—warm. Fair showers of rain daily during latter end of the week. Accounts from all quarters are satisfactory. <i>Beali</i> crop is being rapidly reaped, and the estimated outturn is 12 annas. The floods in the rivers have subsided. Cholera is reported in the town and a few cases in the Mofussil; otherwise the public health is generally good.
	38 Pooree, „ 6 „	.77	Weather—hot and occasionally cloudy. There were light showers of rain in almost all parts of the district, but more is required. The <i>sarad</i> rice plants on high lands are suffering. A portion of the crop submerged by the flood has perished. There was no sufficient rain in the tract between the Chilka and the sea, and the rice plants have begun to suffer.
	39 Balasore, „ 7 „	1.25	There has been more rain in the interior than at head-quarters. The small autumn crop is still being harvested. The winter crop is in good condition and the people are busy weeding it. Sporadic cholera has broken out in several places.
CHOTA NAGPORE.			
South-West Frontier Agency.			
40	Hazareebagh, Sept 7 '77	.98	Weather—very hot and trying. A break in the rains exists. No change to report about the crops. Transplanting in the northern sub-division is stopped, in the southern sub-division it is completed. The <i>khadoi</i> crops are now being gathered, and the outturn is reported good. Cattle disease has appeared, but not in a very severe form, in different parts of the district.
41	Lohardugga, „ 8 „	.65	In the head-quarters sub-division the weather has been seasonable, and the prospects of the crops and the public health are good. The sub-divisional officer of Palamow reported on the 4th instant that the weather there was still unseasonable. There was a gale of wind and two inches of rain on the 30th August; since then the weather had been clear, bright, and very hot. Khurreef prospects were not good. Transplanting was not entirely completed, and everything was backward.
42	Singbhoom „ 7 „	1.81	Weather—seasonable. The prospects of the crops continue favourable. The district is healthy.
43	Manbhoom, „ 8 „	.23	Weather—seasonable; hot sun for the first few days, followed by showers towards the end of the week. The rice crop on the whole is good. In the extreme north rain is still wanted in places. The blight <i>khorka</i> reported last week is noticed generally throughout the district, but not to an alarming extent.

Published for general information.

* Fell at 6-20 P.M. of the 2nd.

The mean pressure of the seven days	Inch.
The average pressure of the corresponding period for 20 years	29.692
			29.650

The mean temperature of the seven days	⊕
The average temperature of the corresponding period for 20 years	82.9
The extreme variation of temperature during the seven days	83.5
The maximum temperature during the seven days	16.2
			92.9
			%

The mean humidity during the seven days	88
The average humidity of the corresponding period for 24 years	86

The total fall of rain from 2nd to 8th September	Inch.
The average fall of the corresponding period for 24 years	1.39
The total fall from 1st January to 8th September	2.97
The average fall of the corresponding period for 24 years	52.84
			51.64

The mean pressure, temperature, &c, are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard (Newman's No. 86) at the Surveyor-General's Office.

The hygrometric elements are obtained from tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modification of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, *d* drizzling, *g* gloomy, *t* thunder, *p* passing temporary showers.

PART I.

Orders and Notifications by the Lieut.-Governor of Bengal,
the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

REVENUE AND GENERAL DEPARTMENTS.

NOTICE.

The 18th September 1877.—The attention of Shippers and Dealers in grain is drawn to the fact that the selling price of rice in Nellore last week was 5·5 seers (of 80 tolahs each) per rupee. The landing arrangements at Kottapatam are believed to be adequate to the discharge of 4,000 to 5,000 bags daily. Grain could also probably be landed without difficulty at other Nellore ports.

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

No. 4789A.

GENERAL.—*The 10th September 1877.*—Mr. J. Samuel Armstrong, Magistrate and Collector, Pooree, is appointed to act in the First Grade of Magistrates and Collectors until further orders.

Mr. F. Wyer, Officiating Magistrate and Collector, Bogra, is appointed to act in the First Grade of Magistrates and Collectors until further orders.

Mr. C. F. Worsley, Magistrate and Collector, Mozufferpore, is appointed to act in the First Grade of Magistrates and Collectors until further orders.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

The 18th September 1877.—The following Regulations for the Examination of Candidates for the Civil Service of India to be held in April 1878 are published for general information :—

EXAMINATIONS FOR THE CIVIL SERVICE OF INDIA.

REGULATIONS FOR THE OPEN COMPETITION OF EASTER, 1878.

N.B.—The Regulations are applicable to this Examination only.

1. On April 9th, 1878, and following days an Examination of Candidates will be held in London. At this examination not fewer than Candidates will be selected, if so many shall be found duly qualified. Of these, will be selected for the Presidency of Bengal [for the Upper Provinces, and for the Lower Provinces,] for that of Madras, and for that of Bombay.*—Notice will hereafter be given of the days and place of examination.

2. Any person desirous of competing at this examination must produce to the Civil Service Commissioners before the 1st of February 1878 evidence showing—

- (a) that he is a natural-born subject of Her Majesty ;
- (b) that his age on the 1st March 1878 will be above seventeen years and under twenty-one years. [*N.B.—In the case of Natives of India this must be certified by the Government of India, or of the Presidency or Province in which the Candidate may have resided*];
- (c) that he has no disease, constitutional affection, or bodily infirmity unfitting him, or likely to unfit him, for the Civil Service of India;†
- (d) that he is of good moral character.

He must also pay such fee as the Secretary of State for India may prescribe.‡

3. Should the evidence upon the above points be *prima facie* satisfactory to the Civil Service Commissioners, the Candidate will, upon payment of the prescribed fee, be admitted to the examination. The Commissioners may, however, in their discretion, at any time prior to the grant of the Certificate of Qualification hereinafter referred to, institute such further inquiries as they may deem necessary; and if the result of such inquiries in the case of any Candidate should be unsatisfactory to them in any of the above respects, he will be ineligible for admission to the Civil Service of India, and if already selected, will be removed from the position of a Probationer.

4. The examination will take place only in the following branches of knowledge :—

	Marks.
English Composition	500
History of England—including that of the Laws and Constitution	500
English Language and Literature	500
Language, Literature, and History of Greece	750
" " " Rome	750
" " " France	375
" " " Germany	375
" " " Italy	375
Mathematics (pure and mixed)	1,250
Natural Science: that is (1) Chemistry, including Heat; (2) Electricity and Magnetism; (3) Geology and Mineralogy; (4) Zoology; (5) Botany	1,000
. The total (1,000) marks may be obtained by adequate proficiency in any two or more of the five branches of science included under this head.	
Moral Sciences that is, Logic, Mental and Moral Philosophy	500
Sanskrit Language and Literature	500
Arabic Language and Literature	500

Candidates are at liberty to name before February 1, 1878, any or all of these branches of knowledge. No subjects are *obligatory*.

5. The merit of the persons examined will be estimated by marks, and the number set opposite to each branch in the preceding regulation denotes the greatest number of marks that can be obtained in respect of it.

6. No Candidate will be allowed any marks in respect of any subject of examination, unless he shall be considered to possess a *competent knowledge* of that subject. §

* The number of appointments to be made, and the number in each Presidency, &c., will be announced hereafter. It will probably be about half the usual number.

† Evidence of health and character must bear date not earlier than the 1st January 1878.

‡ The fee for this examination will be £5, payable by means of a special stamp according to instructions which will be communicated to candidates.

§ "Nothing can be further from our wish than to hold out premiums for knowledge of wide surface and of small depth. We are of opinion that a Candidate ought to be allowed no credit at all for taking up a subject in which he is a mere smatterer."—Report of Committee of 1864. A deduction of marks will be made under each subject, including Mathematics.

7. The examination will be conducted by means of printed questions and written answers, and by *vidé voce* examination, as may be deemed necessary.

8. The marks obtained by each Candidate in respect of each of the subjects in which he shall have been examined will be added up, and the names of the Candidates who shall have obtained a greater aggregate number of marks than any of the remaining Candidates will be set forth in order of merit, and such Candidates shall be deemed to be selected Candidates for the Civil Service of India, provided they appear to be in other respects duly qualified. Should any of the selected Candidates become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled up or not. In the former case, the Candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a selected Candidate. A selected Candidate declining to accept the appointment which may be offered to him will be disqualified for any subsequent competition.

9. Selected Candidates before proceeding to India will be on probation for two years, during which time they will be examined periodically, with a view of testing their progress in the following subjects :—*

	Marks.
1. Oriental Languages—	
Sanskrit	500
Vernacular† Languages of India (each)	400
2. The History and Geography of India	350
3. Law	1,250
4. Political Economy	350

In these examinations, as in the open competition, the merit of the candidates examined will be estimated by marks, and the number set opposite to each subject denotes the greatest number of marks that can be obtained in respect of it at any one examination. The examination will be conducted by means of printed questions and written answers, and by *vidé voce* examination, as may be deemed necessary. The last of these examinations will be held at the close of the second year of probation, and will be called the "Final Examination," at which it will be decided whether a selected Candidate is qualified for the Civil Service of India.

10. Any Candidate who at any of the periodical examinations shall appear to have wilfully neglected his studies, or to be physically incapacitated for pursuing the prescribed course of training, will be liable to have his name removed from the list of selected Candidates.

11. The selected Candidates who at the final examination shall be found to have a competent knowledge of the subjects specified in Regulation 9, and who shall have satisfied the Civil Service Commissioners of their eligibility in respect of age, health, and character, shall be certified by the said Commissioners to be entitled to be appointed to the Civil Service of India, provided they shall comply with the regulations in force at the time for that service.

12. Applications from persons desirous to be admitted as Candidates are to be addressed to the Secretary to the Civil Service Commissioners, London, S. W., from whom the proper form for the purpose may be obtained.

June 1877.

The Civil Service Commissioners are authorized by the Secretary of State for India in Council to make the following announcements :—

(1.) Selected Candidates will be permitted to choose,‡ according to the order in which they stand in the list, resulting from the open competition, as long as a choice remains, the Presidency (and in Bengal the Division of the Presidency) to which they shall be appointed, but this choice will be subject to a different arrangement, should the Secretary of State, or Government of India deem it necessary.

(2.) No Candidate will be permitted to proceed to India before he shall have passed the final examination, and received a certificate of qualification from the Civil Service Commissioners, or after he shall have attained the age of twenty-four years.

(3.) The seniority in the Civil Service of India of the selected Candidates shall be determined according to the order in which they stand on the list resulting from the final examination.

(4.) It is the intention of the Secretary of State to allow the sum of £250 after each of the three first half years of probation, and £150 after the last half year, to each selected Candidate who shall have passed the required examinations to the satisfaction of the Commissioners, and shall have complied with such rules as may be laid down for the guidance of selected Candidates.

(5.) All selected Candidates will be required, after having passed the second periodical examination, to attend at the India Office for the purpose of entering into an agreement binding themselves, amongst other things, to refund in certain cases the amount of their allowance in the event of their failing to proceed to India. For a Candidate under age a surety will be required.

(6.) After passing the final examination, each Candidate will be required to attend again at the India Office, with the view of entering into covenants. The stamps payable on these documents amount to £1.

(7.) Candidates rejected at the final examination of 1880 will in no case be allowed to present themselves for re-examination.

* Full instructions as to the course of study to be pursued will be issued to the successful candidates as soon as possible after the result of the open competition is declared.

† Including, besides the languages prescribed for the several Presidencies, such other languages as may, with the approval of the Commissioners, be taken up as subjects of examination.

‡ This choice must be exercised immediately after the result of the open competition is announced, on such day as may be fixed by the Civil Service Commissioners.

CIVIL SERVICE OF INDIA.

FORM OF APPLICATION TO BE FILLED UP BY CANDIDATES.

** * This Form must be sent so as to be received at the Office of the Civil Service Commission before the 1st of February 1878.*

Date _____

SIR,

I BEG to inform you that I desire to be a Candidate at the forthcoming Examination for the Civil Service of India.

As required by the Regulations, I transmit herewith—

(1) If a General Register Office certificate cannot be obtained, the instructions printed on the other side will show what evidence should be supplied. If evidence is already in the hands of the Commissioners, strike out "A certificate of my birth," and insert "Evidence is already in the possession of the Commissioners."

- (1) a certificate of my birth, showing that I was born on the day of 18 , and that therefore my age on March 1, 1878, will be above 17 years (complete) and under 21 years ;

(2) The terms indicated by the marks of quotation must appear in the certificate, which must be given after personal examination, and bear date not earlier than 1st January 1878.

- (2) a certificate signed by

of my having "no disease, constitutional affection, or bodily infirmity unfitting me for the Civil Service of India ;"

(3) Two testimonials must be sent bearing date not earlier than 1st January 1878. One of them should be given by an intimate acquaintance (not a relative) of not less than three or four years' standing; the other, if the candidate has recently left school, should be given by his late schoolmaster, or, if he has had employment of any kind, by his late employer. If the candidate has been at any University, he should send a certificate of good conduct from his college tutor.

- (3) proof of my moral character, viz.—

1—A testimonial from

2—A testimonial from

(4) If mathematics be named, state whether pure or mixed, or both are intended; if natural science be mentioned, state which branches.

- (4) a statement of the branches of knowledge in which I desire to be examined, viz.—

I have also to state, with reference to Section 2, Clause (a) of the Regulations, that I am a natural-born subject of Her Majesty.

I am, SIR,

Your obedient Servant,

Name in full _____

Address _____

To the Secretary,

Civil Service Commission.

EVIDENCE OF AGE TO BE REQUIRED FROM CANDIDATES FOR THE CIVIL SERVICE
OF INDIA.

I.—EVERY Candidate born in England or Wales should produce a certificate from the Registrar-General of Births, Marriages, and Deaths, or from one of his provincial officers. The certificate may be obtained at Somerset House, or from the Superintendent Registrar of the district in which the birth took place.

II.—A Candidate who is a native of India must have his age certified by the Government of India, or of the Presidency or Province in which he may have resided.

III.—Every other Candidate *not producing the certificate* mentioned in Clause I must prove his age by Statutory Declaration, and should also, if possible, produce a record of Birth or Baptism from some official register; under which term may be included the Parochial Registers of Baptisms, the non-Parochial Registers of Baptisms and Births deposited at Somerset House under Acts of Parliament, the Register kept at the India Office of persons born in India, &c., &c. This Regulation applies—

1. To all Candidates not born in England or Wales.
2. To Candidates who, though born in England or Wales, cannot produce the Registrar-General's certificate.

The Civil Service Commissioners reserve to themselves the right of deciding in each case upon the sufficiency of the evidence produced, but they subjoin the following general rules for the guidance of Candidates:—

- (a) The Declaration should specify precisely the date and place of birth, and should, if possible, be made by the father or mother of the Candidate. If made by any other person, it should state the circumstances which enable the Declarant to speak to the fact. If an entry in a Bible or other family record be referred to, the Bible or other record must be produced at the time of making the Declaration, and must be mentioned in the Declaration as having been so produced.
- (b) If the Candidate was born in England or Wales, the Declaration must contain a statement that, after due inquiry, no entry has been found in the books of the Registrar-General; or a separate Declaration must be made to that effect.
- (c) If no extract from any register is produced, the Declaration must contain a statement that, after due inquiry, no such record is believed to exist; or a separate Declaration must be made to that effect.
- (d) Statutory Declarations must be exactly in the form prescribed by the Act of 5 and 6, William IV., c. 62. A printed form, if required, will be supplied on application to the Civil Service Commissioners.

N.B.—Clergymen, as such, are not qualified to take Declarations.

The 30th August 1877.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 17th September 1877.—Under the provisions of Section 83, Act V (B.C.) of 1870 (an Act to appoint Commissioners for making Improvements in the Port of Calcutta), the following Bye-laws for landing and delivery of goods at the jetties, as proposed by the Commissioners, are published for general information, in supersession of the Notification dated the 20th February 1872, which was published at page 551 of the *Calcutta Gazette* of the 21st February 1872 and in the two subsequent issues:—

Bye-laws to be observed at the Port Commissioners' Jetties.

THE allotment of jetties shall be entirely at the discretion of the Commissioners, but as a general rule vessels shall be accommodated in the order of their arrival off the jetties. Vessels discharging or loading at the jetties shall move from one jetty to another when ordered.

2. The master of every vessel lying alongside any of the Commissioners' jetties shall provide at least one gangway plank not less than two feet six inches wide, and of sufficient length, thickness, and strength to form a convenient communication between the jetty and the gangway of the vessel, and such gangway plank shall be properly and securely placed between the gangway of the vessel and the jetty during the whole time the vessel remains alongside the jetty.

3. Masters of vessels about to discharge at the jetties shall not break bulk until a copy of the manifest or the masters' copies of the bills of lading have been deposited in the Jetty Office. The copies of the bills of lading, if deposited, shall be returned after discharge of the inward cargo.

4. Ships lying at the jetties shall not discharge cargo into boats, if such cargo is to be subsequently landed on the Calcutta bank of the river between Chitpore Canal and Tolly's Nullah.

5. Packages of cargo shall be slung in the hatchway, and under no circumstances whatever shall the cranes be employed in breaking out cargo or removing it from under the combings.

6. Single packages over three tons shall not be hoisted until the correct weight shall have been ascertained, and when packages weighing more than three tons are being hoisted, the Superintendent of the cranes shall invariably be present.

7. Masters of vessels shall furnish special notice to the shed officers before landing packages containing articles liable to ignition or explosion, or which are otherwise dangerous.

8. Packages shall not be opened for appraisement except in the presence of the consignee or his representative, and under an application to the shed officer from the appraiser endorsed on the bill of entry.

9. No person shall remove from the wharf any goods other than those covered by the Customs bill of entry and the jetty chullau. In the event of any person removing goods not covered by such documents, the Commissioners may detain any goods of such person until all questions connected with the erroneous removal shall have been adjusted, and all moneys due to the Commissioners paid.

10. Smoking and the use of any unprotected fire or light in any office, shed, or warehouse within the jetty enclosure is strictly prohibited.

11. Excepting persons passing to and from ships lying at the jetties, no person shall be allowed inside the jetty enclosure after twilight.

12. No person, unless duly permitted by the Commissioners, shall take inside the jetty premises carpenters' tools or instruments used for opening cases, and no cooper shall be allowed to work in the sheds without license from the Commissioners.

13. Any person committing an infringement of any of the foregoing bye-laws shall be liable for the first offence to a fine not exceeding Rs. 100, and for continuance of that offence, after notice shall have been given him by the Commissioners of his having committed the offence, to a further fine of Rs. 50 per day.

14. Goods landed at the jetties shall only be delivered on production of the bills of lading accompanied by a delivery order from the master or agent of the vessel, and no delivery orders unsupported by the bills of lading will be accepted.

15. When discharging iron, drainage pipes, or other goods, which, from their description or want of proper distinguishing marks, there will be difficulty in delivering correctly to consignees, the master of the vessel shall separate before landing, or in course of landing, the various marks and consignments, failing which the Commissioners will refuse to receive the goods.

16. When iron, drainage pipes, or other goods, from their want of description or want of proper distinguishing marks, or from any other cause, are landed in a mixed condition, the

master or agent of the vessel will be allowed two clear days to sort and make over the goods to the Commissioners and, until the goods have been made over and the usual receipt granted, they will remain on the wharf at the risk of the vessel. Such goods, if not made over to the Commissioners within two clear days, will, at the expiration of that time, be subject to wharf-rent at the schedule rates, the rent incurred being payable by the vessel. After receipt of such goods by the Commissioners, consignees will be allowed two clear days to take delivery before incurring wharf-rent charges. This exemption shall not be extended to goods the consignees of which refuse or neglect to forward their invoices within 24 hours after the vessel commences to discharge.

17. Packages containing jewellery, precious stones, or specie, shall be taken delivery of by consignees direct from the jetties as soon as they are landed.

18. All goods transhipped from one vessel to another without being landed, and without the assistance of the jetty cranes, are exempted from all charges, provided notice of transshipment is given by consignees or vessels' agents to the Jetty Superintendent immediately after the vessel hauls alongside a jetty to discharge. If goods for transshipment are landed on the jetties, they will be allowed to remain in the sheds free of wharf-rent for five clear running days.

19. Masters of vessels are responsible for the proper slinging of cargo on board, and for directing the crane-drivers when discharging or loading.

20. The special sanction of the Commissioners shall be necessary to work the jetties before and after regular hours and on Sundays and authorized holidays; and no overtime work shall be performed by any of the servants of the Commissioners without permission. In order to facilitate discharge of vessels, they will be allowed to work on holidays, so long as accommodation can be conveniently provided for cargo in the jetty sheds, on payment of double jetty hire and the usual overtime fees to the establishments employed.

21. The sanctioned holidays recognized by the Commissioners shall be—

	Days.		Days.
New Year's day . . .	1	Juggodhatree . . .	1
Sree Puchoomy . . .	1	Christmas . . .	2
Good Friday . . .	1		—
Queen's Birthday . . .	1	Total . . .	20
Doorga and Luckhee Poojah . .	12		—
Kally Poojah . . .	1		

22. Working hours shall be from 6 A.M. to 6 P.M. All fees for overtime work and for working on holidays shall be regulated by the sanctioned pay of each employé. The rule shall be one and a half hour's pay for one hour's work, working days being calculated at 26 days in the month, and for holidays or part of a holiday one day's pay. All fees for overtime work shall be paid to the Commissioners.

23. Two clear days, exclusive of Sundays and the holidays recognised by the Commissioners, shall be allowed to consignees for the removal of goods from the jetty sheds.

24. Consignees applying for delivery of goods shall fill up the jetty chullan showing the quantities, weights, or measurements, and the landing charges payable thereon. This form, accompanied by the Custom House bill of entry, shall be presented at the office of the Commissioners, where the amount of the landing charges will be received and a receipt granted in original and duplicate, if required. The jetty chullan, accompanied by the bill of lading and delivery order from the master or agents of the vessel, shall then be handed to the shed officer, who will examine the documents, and on being satisfied that they are in order, will grant delivery and authorize the gate officer to pass the goods.

25. Permission to consignees from the Collector of Customs to open packages shall be countersigned by the Superintendent of the Jetties. The opening of any package without the condition of the package being previously questioned will be treated as delivery of the goods by the Commissioners to the consignee, and no claim for loss or damage subsequently discovered will be admitted.

26. Damaged goods for which a claim is brought against the ship shall not be charged wharf-rent until the fourth day after landing, provided notice of survey is given to the Jetty Superintendent within 48 hours after the goods have been received from the ship.

27. Goods taken delivery of, but not removed from the jetty compound, shall lie at the risk of the owner, consignee, or agent.

28. The following goods will not be received in the sheds in course of shipment, nor will any receipt be granted for such goods by the Commissioners, viz. assafœtida, cutch, safflower, camphor, turmeric, aniseed, hogslard, ghee, all oils, India-rubber, molasses, myrabollams, treacle, and wet sugar. Such goods will only be allowed inside the jetty compound on the production of an order from officer of the ship that they are to be received on board the same day.

29. Shippers of goods shall fill up the jetty chullan showing the quantities, weights, or measurements, and the shipping charges payable thereon. This form, accompanied by the Custom House shipping bill, shall be presented at the Office of the Commissioners, where the amount of the shipping charges will be received and a receipt granted in original and duplicate, if required. The jetty chullan, accompanied by the stamped shipping order and shipping bill, shall be handed to the shed officer, who will examine the documents, and, on being satisfied that they are in order and all charges paid, will authorize the gate officer to pass the goods in at the jetty gate.

30. Every package, bale, or case sent for shipment at the jetties shall be entered in a cart ticket in the form prescribed, and no goods unaccompanied by this ticket will be allowed to pass into the jetty enclosure. Every cart ticket shall contain the date, name of vessel on which the goods are to be shipped, the exporter's name, the marks, quantity and description of articles shipped, and the current license number of the cart.

31. Exporters must provide their own coolies for unloading carts. Carts will be allowed to unload in the order in which they pass in at the gate.

32. The Commissioners do not undertake to receive goods into the jetty sheds until the jetty charges have been paid, and the jetty chullan, the shipping order, and the Custom House shipping bill have been deposited with the shed officer.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 18th September 1877.—In supersession of Rule 4 of the Rules for the management of the zemindari dāk under Act VIII (B.C.) 1862, which were published at page 1003 of the *Calcutta Gazette* of the 15th August 1877, the following rule is published for general information :—

"4. The Sub-Inspector of Post-offices will annually, on or before the 1st October, prepare, under the instructions of the Magistrate, an estimate of the total cost of the establishments and contingencies required for the year commencing on the 1st April following. The Magistrate, after including in this the cost of his own office establishment, and any extra provision necessary for keeping up communications with his own camp while on tour, will forward the budget to the Post-Master-General, who will, after passing or modifying it (in communication with the Magistrate), return it to the Magistrate for insertion in the budget of the estimated balance at the close of the current year, and the total sum necessary to be levied with reference to the provisions of Section 10 of the Act, with a note of the rate at which he proposes to levy the cess

"Having thus completed the budget estimate, the Magistrate will forward it for the approval and sanction of the Commissioner, who, after passing it, will forward it to the Accountant-General not later than the 15th November of each year."

A. MACKENZIE,
Offg. to the Govt. of Bengal.

NOTIFICATION.

The 14th September 1877.—The Lieutenant-Governor of Bengal is pleased to sanction the undermentioned transfer of villages from thana Lallpore to thana Charghat, in district Rajshahye, and to declare that the following shall be the revised boundaries of those thanas, in modification of the boundaries defined by the Notification dated 24th February 1875, and published in the *Calcutta Gazette* of the 10th March following :—

Thanas	Boundaries.
Charghat ...	<p>On the North and North-West—Thanas Nattore, Pootheea, and Bulleah.</p> <p>On the West—The zillah boundary.</p> <p>On the South and East—The boundary shall remain the same as defined in the Notification of the 24th February 1875, between the village of Chus Meejung and that of Arpara; from this point the following villages, viz. Shureefabad, Bhowancepore Baosadeegur, Dhonduh, Amurpore, Digha, Chitleea, Ghatkhoer, Kumurhatee, Kureempore, and Sob will be included and form the boundary.</p>
Lallpore ...	<p>On the North and North-West—Thanas Bureegaon, Nattore, and Charghat.</p> <p>On the West and South—The boundaries of the zillah.</p> <p>On the East—Thana Bureegaon.</p>

The villages mentioned below are hereby transferred from thana Lallpore to thana Charghat, in district Rajshahye:—

The 1st September 1877.—The Lieutenant-Governor is pleased to order the publication of the following Notification for general information.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

GOVERNMENT OF INDIA,

DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

NOTICE TO MARINERS.

(No. 18.)

Bay of Bengal—Coast of Burma.

DESTRUCTION OF KRISHNA SHOAL LIGHT-HOUSE.

Information has been received that the above Screw-pile Light-house has been entirely washed away.

NOTICE.—Steamers must now trust entirely to the deep sea lead when rounding the Baragua Flats, never shoaling under 10 fathoms there or in rounding the Krishna.

When bound for Rangoon, after bringing Alguada Reef Light to bear north 5 miles off, an E. $\frac{3}{4}$ S. course for a distance of 55 miles should put the vessel into 10 fathoms (low water) at 5 miles off the Flats.

Should a current set the vessel only half a point in shore of her course, she will get depths of 10 fathoms when only 35 miles from Alguada Light. On the contrary, if strong ebb from the Irrawaddy delta have swept her half a point off shore, she will not be able to get bottom without stopping the engines.

When well past the Krishna, do not shoal under 6 fathoms till China-Bakeer Light is visible.

[The bearings are magnetic. Variation 2° 15' Easterly in 1877.]

By direction of the Government of India,

A. DUNDAS TAYLOR, Comdr. (late I. N.),
Superintendent, Marine Survey of India.

MARINE SURVEY DEPARTMENT, CALCUTTA, 27TH AUGUST 1877.

This Notice affects the following Admiralty Charts—Gulf of Martaban, No. 823; Bay of Bengal, No. 706; Indian Ocean, No. 7486; also Admiralty Light List, India, &c., page 16, No. 96; Marine Survey Department Light List, No. 87; and Taylor's Sailing Directory, Vol. I., page 498.

If this Notice is received on boardship, the substance of it should be inserted on the charts affected by it and introduced into the Sailing Directions to which it relates.

[Third Publication.]

The 3rd September 1877.—The Lieutenant-Governor is pleased to order the publication of the following Notification for general information.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

GOVERNMENT OF INDIA,

DEPARTMENT OF REVENUE, AGRICULTURE, AND COMMERCE.

NOTICE TO MARINERS.

(No. 17.)

India—Bay of Bengal.

INTERMEDIATE LIGHT-SHIP, ENTRANCE TO RIVER HOOGHLY.

With reference to Notice to Mariners, No. 11 of 1877, issued from this Department, information has been received from the Government of Bengal that the "Intermediate" light-ship has been shifted from the position therein notified, and that, as a temporary or experimental measure, it is now placed in the following position:—

Lower Gasper Light-vessel	N. by W. $\frac{1}{2}$ W. 12 miles.
Centre Saugor Sand Buoy	N. $\frac{1}{2}$ E. 5 miles.
Bell Buoy	N. W. by N. $4\frac{1}{2}$ miles.
Upper Reef Buoy	W. by S. $\frac{1}{2}$ S. $6\frac{1}{2}$ miles.
Lower Reef Buoy	S. by W. $8\frac{1}{2}$ miles.

The vessel lies in $6\frac{1}{2}$ fathoms at low-water, and will exhibit the station lights as notified in the above referred to Notice.

[All bearings are magnetic. Variation $2^{\circ} 45' E.$]

By direction of the Government of India,

A. DUNDAS TAYLOR, *Comdr. (late I. N.),*
Superintendent, Marine Survey of India.

MARINE SURVEY DEPARTMENT, Calcutta, 20th August 1877.

This Notice affects the following Admiralty Charts:—Hooghly River, No. 136a; Sea face of Sunderbuns, No. 138a, Palmyras Point to Chittagong, No. 1681; Bay of Bengal, No. 70a; Indian Marine Survey Chart No. 115; also Admiralty Light List (India), 1877; Indian Marine Survey Light List, 1877; and Taylor's Sailing Directory, Vol. I., page 476.

If this Notice is received on boardship, the substance of it should be inserted on the charts affected by it, and introduced into the sailing directions to which it relates.

[Third Publication.]

NOTIFICATION.

The 3rd September 1877.—In accordance with the provisions of Section 6, Act VIII of 1876 (the Native Passenger Ships' Act, 1876), it is hereby notified that the Lieutenant-Governor has fixed Calcutta, Chittagong, False Point, Balasore, Dhamra with Chandbally, and Pooree, to be ports from which native passenger ships shall proceed on voyages, or at which they shall discharge passengers.

The following officers, or any assistants authorized by them, have been appointed by the Lieutenant-Governor to exercise or perform the powers and duties conferred or imposed by Sections 7, 8, 18, 20, and 36 of the above-cited Act:—

The Master-Attendant in Calcutta.
 The Conservator of the Port in Chittagong.
 The Harbour Master at False Point and Pooree.
 The Harbour Master at Balasore and Chandbally.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 4th September 1877.—Under Section 18, Act VI of 1871, the Lieutenant-Governor has been pleased to direct that from and after the 6th October next the limits of the Raojan Moonsif's jurisdiction in the district of Chittagong shall become conterminous with those of the Raojan thana, as extended in the notification of the Government of Bengal of the 13th August. From the same date the separate jurisdiction of the Moonsif of Rangoneah will be abolished, and he will become an Additional Moonsif of Raojan, but will ordinarily hold his court at Rangoneah.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 4th September 1877.—The Lieutenant-Governor of Bengal has been pleased to sanction that the portion of the Seetakund Moonsif's remaining after the transfer of thana Mirkasara to Noakhally, and which is now in the civil jurisdiction of Chittagong, shall be amalgamated with the Chittagong Town Chowkey; and also that the Moonsif of Seetakund be appointed an Additional Moonsif of the Town Chowkey of Chittagong, and do ordinarily hold his court at Kumira, with effect from the 6th October next.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

[Third Publication.]

The 3rd September 1877.—The Lieutenant-Governor is pleased to order the publication of the following letter for general information.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

No. 6A, dated Cuttack, the 23rd August 1877.

From—The Superintendent of Telegraphs, Ganjam Division,
 To—The Secretary to the Government of Bengal.

I have the honor to inform you that a telegraph office was yesterday opened at False Point (Jambu location) for the receipt and despatch of messages.

For the present messages addressed to ships at the anchorage will be delivered by post from False Point.

[First Publication.]

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[First Publication]

NOTIFICATION.

The 10th September 1877.—It is hereby notified for general information that, under Section 78 of the Bengal Municipal Act, V (B.C.) of 1876, the Lieutenant-Governor has been pleased, on the recommendation of the Commissioners of the Municipality of Baraset, in the 24 Pergunnahs district, made at a special meeting, to sanction the imposition from the 1st October 1877 by the Commissioners, under Section 122 of the Act, of a tax on carriages, horses, and other animals mentioned below at the rates specified against them respectively :—

		Per quarter.		
		Rs.	A.	P.
For every four-wheeled carriage drawn by two horses		4	8	0
" " " drawn by one horse or a pair				
" of ponies under thirteen hands	...	1	2	0
For every two-wheeled carriage	...	0	12	0
" horse	...	2	0	0
" pony under thirteen hands and for every mule and donkey	...	0	6	0
For every elephant	...	6	0	0
" camel	...	2	0	0

The Lieutenant-Governor has been also pleased to sanction, on the recommendation of the Commissioners at a meeting the registration by them, under Section 133 of the Act, of all carts kept or habitually used within the Baraset Municipality, and the levy under Section 134, from the 1st October 1877, of a half-yearly fee of Re 1 upon every cart for such registration.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 8th September 1877.—It is hereby notified for general information that, on the recommendation of the Commissioners of the Municipality of Bydobatty, in the district of Hooghly, made at a special meeting, the Lieutenant-Governor has been pleased, under Section 78 of Act V (B.C.) of 1876, to sanction the registration by the Commissioners, under Section 133 of the Act, of all carts kept or habitually used within the Municipality and the levy, from the 1st October 1877, of a fee upon every cart for such registration at the rate mentioned below :—

For every cart kept or habitually used within the Municipality, Rs. 4 per annum, or Rs 2 per half-year.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION

The 8th September 1877.—It is hereby notified that, under Section 7 of Act III of 1877 (the Indian Registration Act), the Lieutenant-Governor has been pleased to sanction the abolition of the Sub-Registry Office at Belgachi, in the district of Furreedpore, and the re-attachment of thana Belgachi to the Registration sub-district of Goalundo. The changes will have effect from the 1st October 1877.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 2nd September 1877.—The following bye-laws, framed by the Municipal Commissioners of Purneah at a meeting, under Section 313, Act V (B.C.) of 1876, having been confirmed by the Lieutenant-Governor under Section 314 of the Act, are hereby published for general information :—

For Regulating the time and Mode of Collecting the Taxes.

1. Every collecting officer shall be provided with a certificate of his authority to collect, and every such certificate shall bear the seal of the Municipality and the signature of the Chairman. Every collecting officer at the time of demanding payment shall be bound to show the certificate, if required.

2. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish, shall send such schedule or return to the office of the Commissioners within one week from the date of the service of the requisition, in the manner described in Section 367 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs. 5 for the omission, and to a penalty not exceeding Rs. 2 for every day the omission shall, after warning, continue. Any person submitting a false or incorrect schedule or return shall be liable to a penalty of Rs. 20; provided that nothing in this bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code, should the fact appear to warrant such a proceeding.

3. Payment of purchase-money for property sold, and delivery of the property, shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer, at his discretion, to sell the property again on the same or any other day, and the first purchaser shall in such case be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

For Regulating the Conduct of Persons employed by the Commissioners.

4. All persons employed by the Commissioners whose services may be no longer required shall be liable to discharge after receipt of previous notice or pay in advance for the period of one month, and no such person shall withdraw from the duty of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

5. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix; and any person failing to furnish such security within reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment, and may be removed from office.

For Regulating the Disposal of Offensive Matter, Rubbish, and Dead Bodies of Animals.

6. Every person within whose premises any animal may die shall, within four hours after its death, or, if death occurs at night, within two hours after daylight, either remove at his own expense the carcass to such place, as may be set apart by the Commissioners for the reception of such carcass, or report its death to the conservancy overseer of the division within which such premises may be situated, and in such latter case shall pay to the said overseer the expense of removing the carcass at such rate as the Commissioners may determine; and in cases where the said person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense, and such expense shall be recoverable as a debt due to the Commissioners. No overseer when called upon shall neglect to remove a carcass.

Penalty for infringement, Rs. 10.

7. No person shall deposit, or cause to be deposited, any carcass, or any part of a carcass, in any place other than such places as may from time to time be appointed by the Commissioners for the reception of such carcass.

Penalty for infringement, Rs. 10.

For the Regulation and Management of Privies.

8. Every owner or occupier of any house, land, or premises from which offensive matter is not removed by the said owner or occupier shall give free access to the servants of the Municipality to his house, land, or premises, for the removal of any night-soil or filth, within such hours as may have been fixed on by the Municipal Commissioners.

Penalty for infringement, Rs. 5.

9. Every person shall construct his privy above ground, and shall provide his privy or premises with a suitable moveable receptacle of metal or earthenware.

Penalty for infringement after notice, Rs. 20.

10. On receipt of a notice from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well-privy or other noxious or improperly constructed privy may be situated shall fill up, close, or otherwise alter the construction of the said privy as may be directed in the notice; and if the orders contained in the notice be not carried out within fifteen days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expense incurred in so doing shall be recoverable as a debt due to the Commissioners.

11. No owner or occupier of any house, land, or premises in or on which a privy may be situated shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, watercourse, river, tank, hollow, or excavation (or any place containing waste and stagnant water), or into any other receptacle but one of the nature described in bye-law 9.

Penalty for infringement, Rs. 20.

12. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cesspool into any river, tank, khal, water-course, or receptacle for water, or dispose of the above-mentioned kind of offensive matter in any other way than as the Municipal Commissioners may from time to time direct.

Penalty for infringement, Rs. 20.

13. The Municipal Commissioners may direct the use of lime, coal-tar, carbolic acid, or other deodorants or disinfectants in any privy or premises if at any time it seem to them necessary for the preservation of public health, or for the prevention of infection or spread of disease: provided that the Municipal Commissioners shall be bound to supply such deodorants, &c., at cost price, and the price shall be recoverable as a debt due to the Commissioners.

14. No person shall carry night-soil through the streets otherwise than in a closely covered receptacle of such description and pattern as shall be required from time to time by the Municipal Commissioners, and between such hours as the Municipal Commissioners may from time to time direct.

For Regulating Traffic in the Streets.

15. Every carriage or cart plying in the streets after one hour after sunset shall carry a light or lights.

Penalty for infringement, Rs. 5.

16. No owner of any carriage shall allow it to be drawn by a driver under 14 years of age.

Penalty for disobedience on the owner's part, Rs. 10.

17. No person shall, without the permission of the Commissioners, take an elephant along any of the public roads within the limits of the Municipality, except by such routes as shall be fixed for the purpose by the Municipal Commissioners.

Penalty for infringement, Rs. 20.

18. Every cart laden with bamboos shall not use the public road within the limits of the Municipality, except the cart is attended with a driver and another man.

Penalty for infringement, Rs. 2.

For Regulating or Prohibiting the use of Fire balloons, Fire-works, Fire-arms, or Missiles in the vicinity of Public Roads.

19. No one shall let off any fire-balloons, fire-works, fire-arms, or any missile in or near a public street without the consent of the Municipal Commissioners previously obtained.

Penalty for infringement, Rs. 10.

General Bye-laws.

20. No person shall put, or cause to be put, on any house or other buildings any spout or other thing intended for the conveyance and discharge of water, which shall be so placed that the water discharged therefrom shall be thrown or fall upon any public road or thoroughfare, and the Commissioners shall have power to take down and alter any such spout now in existence, and to recover the cost as a debt due to the Commissioners.

Penalty for infringement, Rs. 5.

21. No persons shall construct, or place over, or by the side of any public drain, any bridge, platform, building, or structure of any kind, except by, and with the written permission of the Commissioners, and in such manner as they shall direct.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 3 daily.

22. If any house, wall, or other erection, or any part thereof, fall upon any public highway or into any public drain, the owner of such house, wall, or erection shall remove it after notice within the time prescribed by the Commissioners.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 5 daily.

23. No person shall prepare any channel, or convey water by any channel, across any public thoroughfare, except in such manner as shall have been first approved by the Commissioners.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 2 daily.

24. No person shall steep in any river, khal, tank, or ditch within municipal limits any jute, hemp, bamboos, or other vegetable matter likely to render the water of such river, khal, tank, or ditch offensive or noxious to the neighbourhood.

Penalty for infringement, Rs. 5; penalty for continued infringement after notice, Rs. 2 daily.

25. No person shall, without the written permission of the Commissioners, set up any obstruction in any nullah or watercourse, and the Commissioners may order the removal of any such obstruction on grounds of public health.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 4 daily.

26. Every owner, occupier, or farmer of any bazar shall, within 14 days after receipt of notice from the Commissioners, provide such latrines and urinals as in the opinion of the Commissioners may be necessary to secure the cleanliness and health of the bazar.

Penalty for infringement, Rs. 20; penalty for continued infringement, Rs. 5 daily.

27. The owner or occupier of any part of the bank of any nullah or water-course shall keep it free from filth, dense vegetation, or other obstruction, and shall at all times allow the Commissioners, or any of their servants duly authorized, to have access to such nullah or water-course for any purpose of public conservancy.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 5 daily.

28. No person shall let loose, or cause, or allow to be let loose, or allow to get loose, any diseased or worn-out animal on any highway, or into any place whence such animal can escape into any highway.

Penalty for infringement, Rs. 20.

29. No person shall bury, or cause to be buried, any corpse, or part of a corpse, in any burial ground, in a grave constructed of masonry, in such manner that the top of the coffin, or the body where no coffin is used, shall be at a less depth than five feet from the surface ground.

Penalty for infringement, Rs. 10.

30. No person shall bury, or cause to be buried, in any burial ground any corpse, or part of a corpse, in a grave not constructed of masonry which shall be less than six feet deep.

Penalty for infringement, Rs. 10.

31. No person shall build or dig, or cause to be built or dug, any grave in any burial ground at a less distance than two feet from any other existing grave.

Penalty for infringement, Rs. 20.

32. No person shall build or dig, or cause to be built or dug, a grave in any burial place in any other line than that marked out by the Commissioners.

Penalty for infringement, Rs. 20.

33. No grave once used shall be opened for the burial of another body without the permission of the Commissioners.

Penalty for infringement, Rs. 20.

34. No one shall carry a corpse, or part of a corpse, through any highway unless it be decently covered and totally concealed from public view.

Penalty for infringement, Rs. 10.

35. No person shall picket animals, or collect carts, or form any encampment upon any public ground without the permission of the Commissioners.

Penalty for infringement, Rs. 10.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 29th August 1877.—Under Section 3, Act I (B.O.) of 1876 (an Act to provide for the voluntary registration of Mahomedan marriages and divorces), the Lieutenant-Governor has been pleased to grant a license to Moonshi Mahatabooddeen, authorizing him to register Mahomedan marriages and divorces, and to exercise the other functions of a Mahomedan Registrar within the police-station of Manickgunge, in the district of Dacca, during the absence of Moulvi Khulil Ullah, the present incumbent, on leave.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 29th August 1877.—It is hereby notified for general information that the Lieutenant-Governor has been pleased to extend Section 34 of Act V of 1861 (an Act for the regulation of police) to the Municipality of Serajgunge, in the district of Pubna.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 29th August 1877.—The following bye-laws, framed by the Municipal Commissioners of Colgong at a meeting, under Section 313, Act V (B.O.) of 1876, having been confirmed by the Lieutenant-Governor under Section 314 thereof, are hereby published for general information:—

For Regulating the Time and Mode of Collecting the Taxes.

Every officer authorized to grant receipts shall be provided with a certificate of his authority to collect, and every certificate shall bear the seal of the Municipality and the signature of the Chairman. Every collecting officer at the time of demanding payment shall show his certificate, if required.

2. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish, shall send such schedule or return to the office of the Commissioners within two weeks from the date of service of the requisition, in the manner described in section 367 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs. 5 for the omission, and to a penalty not exceeding one rupee for every day the omission shall, after warning, continue. Any person submitting a false or incorrect schedule or return shall be liable to a penalty not exceeding Rs. 20, provided that nothing in this bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code, should the facts appear to warrant such a proceeding.

3. Payment of purchase-money for the property sold, and delivery of the property, shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer, at his discretion, to sell the property again on the same day or any other day; and the first purchaser shall in such case be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

For Regulating the Conduct of Persons Employed by the Commissioners.

4. All persons employed by the Commissioners whose services may be no longer required shall be liable to discharge after receipt of previous notice or pay in advance for the period of one month, and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

5. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix; and any person failing to furnish such security within reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment and may be removed from office.

For Regulating the Disposal of Offensive Matter, Rubbish, and Dead Bodies of Animals.

6. Every person within whose premises any animal may die shall, within four hours after its death, or, if death occurs at night, within two hours after daylight, either remove at his own expense the carcass to such place as may be set apart by the Commissioners for the reception of such carcass, or report its death to the conservancy overseer of the division, and in such latter case shall pay to the said overseer the expense of removing the carcass at such a rate as the Commissioners may determine; and in cases in which the said person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense, and such expense shall be recoverable as a debt due to the Commissioners. No overseer, when called upon, shall neglect to remove a carcass.

Penalty for infringement, not exceeding Rs. 10.

7. No person shall deposit, or cause to be deposited, any carcass, or any part of a carcass, in any place other than such places as may from time to time be appointed by the Commissioners for the reception of such carcass.

Penalty for infringement, not exceeding Rs. 10.

For Regulation and Management of Privies.

8. Every owner or occupier of any house, land, or premises from which offensive matter is not removed by the said owner or occupier shall give free access to the servants of the Municipality to his house, land, or premises, for the removal of any night-soil or filth, within such hours as may have been fixed on by the Municipal Commissioners.

Penalty for infringement, not exceeding Rs. 5.

9. On receipt of a notice from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well-privy, or other noxious or improperly constructed privy may be situated shall fill up, close, or otherwise alter the construction of the said privy as may be directed in the notice; and if the orders contained in the notice be not carried out within 15 days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expense incurred in so doing shall be recoverable as a debt due to the Commissioners.

10. No owner or occupier of any house, land, or premises in or on which any privy may be situated shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, water-course, river, tank, hollow, or excavation, or any place containing waste or stagnant water.

Penalty for infringement, not exceeding Rs. 20.

11. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cesspool into any river, tank, khal, water-course, or receptacle for water, or dispose of the above-mentioned kinds of offensive matter, in any other way than as the Municipal Commissioners may from time to time direct.

Penalty for infringement, not exceeding Rs. 20.

12. The Municipal Commissioners may direct the use of lime, coal-tar, carbolic acid, or other deodorants or disinfectants in any privy or premises, if at any time it seem to them necessary for preservation of public health, or for the prevention of infection or spread of disease: provided that the Municipal Commissioners shall be bound to supply such deodorants, &c., at cost price, and the price shall be recoverable as a debt due to the Commissioners.

13. No person shall carry night-soil through the streets otherwise than in a closely covered receptacle, of such description and pattern as shall be required from time to time by the Municipal Commissioners, and between such hours as the Municipal Commissioners may from time to time direct.

14. No person shall perform any office of nature in any place outside private premises other than such as may have been appointed by the Commissioners, provided that such places have been set apart by the Commissioners.

Penalty for infringement, not exceeding Rs. 5.

15. No person shall build, or cause to be built, or keep after prohibition by the Commissioners, any latrine, privy, cesspool, or urinal within 10 feet if constructed of bricks, and 20 feet in other cases, of any public road or street or in any compound so small as not to admit of that distance being maintained.

Penalty for infringement, not exceeding Rs. 10; penalty for continued infringement after notice, not exceeding Rs. 3 daily.

For Regulating Traffic in the Streets.

16. Every carriage or cart plying on the streets after one hour after sunset shall carry a light or lights.

Penalty for infringement, not exceeding Rs. 3.

17. No owner of any carriage shall allow it to be driven by a driver under 14 years of age.

Penalty for disobedience on the owner's part, not exceeding Rs. 5.

Regulating or prohibiting the use of Fire-balloons, Fire-works, Fire-arms, or any other Missile in the vicinity of Public Roads.

18. No one shall let off any fire-balloons, fire-work, fire-arm, or any missile in or near a public street without the consent of the Municipal Commissioners previously obtained.

Penalty for infringement, not exceeding Rs. 10.

GENERAL BYE-LAWS.

19. No person shall put, or cause to be put, on any house or other building, any spout or other thing intended for the conveyance and discharge of water which shall be so placed that the water discharged therefrom shall be thrown or fall upon any public road or thoroughfare, and the Commissioners shall have power to take down and alter any such spout now in existence, and to recover the costs as a debt due to the Commissioners.

Penalty for infringement, not exceeding Rs. 5.

20. No person shall construct, or place over, or by the side of any public drain any bridge, platform, building, or structure of any kind, except by, and with the written permission of, the Commissioners, and in such manner as they shall direct.

Penalty for infringement, not exceeding Rs. 10; and penalty for continued infringement after notice, not exceeding Rs. 3 daily.

21. If any house, wall, or other erection, or any part thereof, fall upon any public highway or into any public drain, the owner of such house, wall, or erection shall remove it after notice within the time prescribed by the Commissioners.

Penalty for infringement, not exceeding Rs. 10; penalty for continued infringement after notice, not exceeding Rs. 3 daily.

22. No person shall prepare any channel or convey water by any channel across any public thoroughfare, except in such manner as shall have been first approved by the Commissioners.

Penalty for infringement, not exceeding Rs. 10; penalty for continued infringement after notice, not exceeding Rs. 2 daily.

23. No person shall steep in any river, khal, tank, or ditch within municipal limits, any jute, hemp, bamboos, or other vegetable matter likely to render the water of such river, khal, tank, or ditch offensive or noxious to the neighbourhood.

Penalty for infringement, not exceeding Rs. 5; penalty for continued infringement after notice, not exceeding Rs. 2 daily.

24. No person shall, without the written permission of the Commissioners, set up any obstruction in any nullah or water-course, and the Commissioners may order the removal of any such obstruction on grounds of public health.

Penalty for infringement, not exceeding Rs. 10; penalty for continued infringement after notice, not exceeding Rs. 2 daily.

25. The owner or occupier of any part of the bank of any nullah or water-course shall keep it free from filth, dense vegetation or other obstruction, and shall at times allow the Commissioners, or any of their servants duly authorized, to have access to such nullah or water-course for any purpose of public conservancy.

Penalty for infringement, not exceeding Rs. 10; penalty for continued infringement after notice, not exceeding Rs. 5 daily.

26. No person shall let loose, or cause, or allow to be let loose, or allow to get loose any diseased worn-out animal on any highway or into any place whence such animal can escape into any highway.

Penalty for infringement, not exceeding Rs. 5.

27. No person shall bury, or cause to be buried, any corpse, or part of a corpse, in any burial ground in a grave constructed of masonry in such manner that the top of the coffin, or the body where no coffin is used, shall be at a less depth than five feet from the surface ground.

Penalty for infringement, not exceeding Rs. 10.

28. No person shall bury, or cause to be buried, in any burial ground any corpse, or part of a corpse, in a grave not constructed of masonry which shall be less than six feet deep.

Penalty for infringement, not exceeding Rs. 10.

29. No person shall build or dig, or cause to be built or dug, any grave in any burial ground at a less distance than two feet from any other existing grave.

Penalty for infringement, not exceeding Rs. 10.

30. No person shall build or dig, or cause to be built or dug, a grave in any burial place in any other line than that marked out by the Commissioners.

Penalty for infringement, not exceeding Rs. 20.

31. No grave once used shall be opened for the burial of another body without the permission of the Commissioners.

Penalty for infringement, not exceeding Rs. 20.

32. No one shall carry a corpse, or part of a corpse, through any highway, unless it be decently covered and totally concealed from public view.

Penalty for infringement, not exceeding Rs. 5.

33. No person shall picket animals, or collect carts, or form any encampment upon any public ground without the permission of the Commissioners.

Penalty for infringement, not exceeding Rs. 5.

DECLARATION.

The 1st September 1877.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz. for the construction of an outpost in Manglabagh, in the town of Cuttack, it is hereby declared that for the above purpose a piece of land measuring 1 rood 22 poles, more or less, and bounded on the north by land belonging to Bodya Nath Pundit and Chowdhury Biswa Nath Dass, the *Asthan* of Mangla Takoorani, and the houses of Nand Runna and others; on the east by the road leading to the General Hospital; on the south by that leading to Bridge No. 1 of the Taldonda Canal; and on the west by the pukka house of Apartee Barick, is required within the aforesaid town of Cuttack.

This declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

ESTABLISHMENT.

The 14th September 1877.

No. 244.—Notification.—Baboo Bakshi Ram Sing, Engineer Apprentice, joined the Darjeeling Division on the 31st July 1877, before noon.

No. 245.—Leave of Absence.—Mr. W. McCullagh, Sub-Engineer, First Grade, availed himself of the privilege leave granted to him from the 28th August 1877, before noon.

No. 246.—Baboo Hem Chunder Biswas, Sub-Engineer, Third Grade, attached to the Patna Division, for two months on medical certificate, under Civil Leave Code, Supplement F, Section 3, with effect from the 5th August 1877, before noon.

No. 247.—Baboo Loke Nath Mitter, Overseer, Third Grade, attached to the Nuddea Rivers Division, is allowed privilege leave for one month, under Civil Leave Code, Supplement F, Section 12, with effect from the 1st August 1877, before noon.

No. 248.—Notification.—The following order, issued by the Government of India in the Public Works Department, is republished for information :—

No. 374.—Simla, the 27th August 1877.—Notification.—Establishment.—The following is republished for information and guidance in the Public Works Department :—

FINANCIAL DEPARTMENT.

NOTIFICATION,—ACCOUNTS.

Simla, the 10th August 1877.

No. 2459.—The following Financial despatch from Her Majesty's Secretary of State for India, to His Excellency the Right Hon'ble the Governor-General of India in Council, No. 229, dated 5th July 1877, is published for general information :—

" I have considered in Council your Financial letter dated the 17th May 1877, No. 134, in which you request that the privilege of making family remittances at present conceded to mechanics and others of a similar class engaged in England may be extended to mechanics and artisans who have been engaged in India for the service of Government.

2. I sanction the extension of the privilege as requested by you, it being distinctly understood that all remittances should be *bonâ fide* for the support of families, and that the rate of exchange at which they shall be adjusted is that annually fixed between this Office and the Lords Commissioners of Her Majesty's Treasury, and that no remittance shall exceed one-half the salary of the person remitting, and in no case be more than £12 a month."

No. 391.—The 7th September 1877.—The following is republished for information and guidance in the Public Works Department :—

" Military Department General Order No. 670. of 27th July 1877.

" Under the authority of the Right Hon'ble the Secretary of State for India, His Excellency the Governor-General in Council is pleased to notify that in future non-commissioned officers of Departments on the Unattached List who may be granted furlough out of India on medical certificate will be allowed the British pay of the rank they hold on that list, and 6 pence a day ration money during the whole period of their absence, in addition to half staff pay for the first 6 months. Non-commissioned officers of Departments who draw Infantry, Cavalry, Horse Artillery, Foot Artillery, or the Engineer rates of pay in India, will draw the British pay of those arms while on furlough.

" 2. In the case of non-commissioned officers in receipt of consolidated salaries, half staff pay will be a moiety of the difference between such consolidated salaries and the pay of their rank on the Unattached List for a month of 30 days. Last pay certificates should show that the half staff pay has been calculated on this principle."

DISTRICT ROAD FUND.

NOTIFICATION.

No. 249.

The 17th August 1877.

UNDER Section 89 of Act X (B.C.) of 1871, the following annual accounts and reports of the Road Cess Committees of Burdwan, Bankoora, Beerbhoom, Midnapore, and Hooghly with Howrah, of works done and in progress during the past cess year 1875-76, together with the remarks thereon of the Commissioner of the Burdwan Division, are published for general information.

G. A. D. ANLEY, C.E.,
Asst. Secy. to the Govt. of Bengal
in the Public Works Dept.

No. 15, dated Burdwan, the 6th December 1876.

From—E. HOGGAN, Esq., District Engineer of Burdwan,
To—The Chairman, District Road Committee, Burdwan.

WITH reference to your memorandum No. 253, dated 5th September last, and subsequent reminder No. 18, dated 31st ultimo, I have the honor to submit the annual report of road works executed during the cess year 1875-76.

2. The establishment was appointed in January last, and the brick-moulding season had passed when the estimates were prepared; so it was ordered that all masonry works should be postponed to the current year, keeping in repair the existing bridges and culverts.

3. Nearly all the works undertaken have been completed within the year, except some extensive works, which were ordered to be done in the latter end of the year.

ORIGINAL WORKS.

4 *Mancoor and Dignagger Road*—Out of the total amount of expenditure (Rs. 75,140-6-2) Rs. 12,858-6-8 have been expended on original works, viz. Rs. 11,137-8-3 for metalling part of the road from Mancoor to Dignagger and also of the feeder road at Rajbund.

Mancoor to Dignagger Road, No. 36 in the general list, 9 miles in length.

This road was constructed during the famine to connect the railway station at Gooshkerah on the loop line to Mancoor on the chord, and in continuation of the metalled road from Gooshkerah to Dignagger. The first 5 miles near Mancoor have been metalled, and some metal has been collected for the rest. Provision has been made in this year's budget to complete metalling the whole length of the road and constructing culverts as far as the fund would allow. The work was estimated to cost Rs. 11,033, and was completed within the year at a cost of Rs. 10,630-3-3.

Rajbund Feeder, No. 34 in the general list, 2 miles in length.

Part of this feeder as far as grand trunk road, total length 2,700 feet, has been metalled, and two small irrigation culverts have been constructed with Messrs. Burn and Company's stoneware pipes, and Rs. 507-5-0 spent.

5 *Repairs*.—Nearly all the metalled roads in the district required a new coat of metalling, which has been laid on those most urgently requiring it.

Sreekhund to Bera Road, No. 52, 6 miles in length.

- (1) Two estimates for Rs. 440, as per margin, were sanctioned for repairing this road. The work of raising and filling up gaps on the road, turfing the slopes, and levelling and dressing throughout was completed, and Rs. 427-3-9 was spent.
- | | |
|--------------------|---------|
| Estimate No. 1 for | Rs. 311 |
| " " 2 " | " 129 |
| Total | " 440 |

Kurjonah to Pooranohat, No. 54, 13 miles in length.

- (2) Two estimates amounting to Rs. 208, as per margin, were sanctioned for levelling and dressing the road surface and turfing the slopes. The works were completed, and Rs. 171-1-9 spent.
- | | |
|--------------------|---------|
| Estimate No. 2 for | Rs. 178 |
| " " 58 " | " 30 |
| Total | " 208 |

Burdwan to Bankoora Road, No. 20 in general list.

- (3) The length of the road in this district is 32 miles. Four estimates amounting to Rs. 8,682, as detailed in the margin, were sanctioned in March and April 1876 for raising the road and turfing the slopes from the Damooda to Rosoolpore, renewing some woodwork of the bridges on that part, and repairing, metalling earthen sides, turfing in patches, and repairing the culverts from Rosoolpore to Sonamookhy, and Rs. 7,626-13-10 spent.
- | | |
|----------------|-----------|
| Estimate No. 3 | Rs. 5,184 |
| " " 22 | " 2,437 |
| " " 48 | " 248 |
| " " 61 | " 813 |
| Total | " 8,682 |
- Accounts show Rs. 8,125-12-10.
The difference is owing to payment of Rs. 498-15-0 on account of arrears for relief works.

Khundghose to Indus Road, No. 29 in the general list, 6 miles in length.

- (4) Two estimates for Rs. 3,317, as per margin, were sanctioned for raising the road and turfing the slopes. Part of the 3rd mile in the village Rhol was abandoned, as the true line of the road could not be settled. The rest has been completed as estimated, and Rs. 2,675-1-1 spent.
- | | | |
|----------------|-----|-------|
| Estimate No. 4 | Rs. | 3,070 |
| " " 59 | " | 277 |
| Total | Rs. | 3,317 |

Burdwan to Cutwa Road, Nos. 1 and 23 in the general list, 34 miles in length.

- (5) Estimate No. 17 was sanctioned for metalling the road from Burdwan to Kurjonah with Gooshkerah kunkur, and on completion of the collection, the road became so muddy that it was expedient to sole the road, where it was very bad, before laying the kunkur. Estimate No. 63 was sanctioned for the purpose in August 1876, and the work was completed within the year. The road has been properly levelled, earthwork on the sides and slopes, and turfing the latter throughout the whole length, has been done, and Rs. 14,445-6-0 spent. Estimate No. 32 was sanctioned for petty repairs to the road from Kurjonah to Cutwa. The work of raising the earthen sides, turfing the slopes, and levelling and dressing on those parts where the road is metalled was completed, and Rs. 756-7-10 was spent. Estimate No. 5, amounting to Rs. 43, was granted for repairing the wooden bridge on the first mile, and Rs. 43 was spent.
- | | | |
|----------------|-----|--------|
| Estimate No. 5 | Rs. | 43 |
| " " 17 | " | 11,662 |
| " " 32 | " | 976 |
| " " 63 | " | 9,295 |
| Total | Rs. | 21,976 |

Sreekhund to Munglecote Road, No. 51 in the general list, 11 miles in length.

- (6) Two estimates as per margin, amounting to Rs. 897, were sanctioned for raising, filling up breaches, levelling road surface, and turfing the slopes. But before the settling of the earthwork and turfing, the road was very much damaged by the overflowing of the river *Koomoor*, especially near Pooranohat. The small breaches have been repaired, leaving the large one, about 500 feet in length, for the cold weather. All the works were completed within the year, and Rs. 841-9-10 spent.
- | | | |
|----------------|-----|-----|
| Estimate No. 6 | Rs. | 751 |
| " " 51 | " | 146 |
| Total | Rs. | 897 |

Burrakur Feeder, No. 7 in the general list, $\frac{1}{2}$ mile in length.

- (7) Estimate No. 7, amounting to Rs. 810, for putting new coat of metalling and repairing earthen sides and culverts was sanctioned. But for the large coal traffic on the road, it was afterwards found that more metal was required than what was provided, and estimate No. 44 for Rs. 714 was sanctioned. The road was completed within the year at a cost of Rs. 1,449-7-9.

Assensole Feeder, No. 5 in the general list, $\frac{1}{2}$ mile in length.

- (8) The road is in fair order. For petty repairs to metalling and sides Rs. 43 were sanctioned, as per estimate No. 9, and Rs. 43-4-9 spent.

Raneegunge Feeder, No. 8 in the general list, 2 miles in length.

- (9) Estimate No. 10, amounting to Rs. 2,747, for remetalling the road and repairing culverts and sides was sanctioned, and Rs. 2,621-11-9 was spent, and the road is in a fair state.

Raneegunge to Munglepore, No. 22 in the general list, 2 miles in length.

- (10) Estimate No. 11, amounting to Rs. 763, was sanctioned for filling up ruts, completing metalling, and repairing culverts, and Rs. 732 spent.

Raneegunge to Doobrajapore, No. 8 in the general list, 14 miles in length.

- (11) Estimate No. 12, amounting to Rs. 3,426, was sanctioned for remetalling the road as far as Chokidungah, and coal-tarring and repairing the iron bridges on the road and other petty works. The bridges have been repaired, leaving all other works for the current year. The contract account has not yet been settled; the payment will be made as soon as it is settled.

Searsole to Domohance Road, No. 32 in the general list, 13 miles in length.

- (12) This road was constructed during the famine, and since then no repairs have been done. Estimate No. 13, amounting to Rs. 1,145, was sanctioned for repairing this road, and the work was completed at a cost of Rs. 993-12-0.

Rajbund to Gopal, No. 34 in the general list, length 2 miles.

- (13) An estimate for Rs. 83 was sanctioned for filling up gaps and levelling road surface, and the work was finished (in 1875-76), but the payment has been made during 1876-77.

Cutwa to Pattia Road, No. 45 in the general list, length 12 miles.

- (14) Two estimates as per margin, amounting to Rs. 3,121, were sanctioned for filling up the flood breaches, raising and levelling the road surface, and turfing the slopes and putting new mile-posts soon after the earthwork was completed; the road was very much damaged by the sudden overflowing of the river Adjai, when the earthwork was not consolidated at all, and several breaches occurred on the road. However, the small breaches were filled up, and the road was completed as far as the 10th mile, leaving the rest for the present year. All other works were completed within the year, and Rs. 2,823-0-7 was spent.

Estimate No. 15	...	Rs.	2,402
" " 57	"	"	659
Total	..	"	3,121

Burdwan to Jehanabad Road, No. 19 in the general list, 27 miles in length.

- (15) Two estimates as per margin, amounting to Rs. 9,869, were sanctioned for putting a new coat of metalling to the road on the 1st and 27th miles with red kunkur, earthwork for filling up breaches, raising and levelling road surface and slopes, and turfing the latter. All works were completed except metalling to the 27th mile, as kunkur from a distance of 14 miles could not be carted across the country over a kutchra road during the rains. Rs. 6,564-4-3 spent.

Estimate No. 16	...	Rs.	9,080
" " 50	"	"	789

Mancoor to Bood-bood, No. 12 in the general list, 2 miles in length.

- (16) An estimate amounting to Rs. 1,581 was sanctioned for remetalling and raising earthen sides and repairing culverts on the road. The work was completed within the year, and Rs. 1,507-2-7 spent.

Bood-bood to Sonamookhy, No. 38 in the general list, length 11 miles.

- (17) An estimate for Rs. 314 was sanctioned for levelling the road and surface, and the work was performed at a cost of Rs. 299-14-0.

Gooskherah to Dignagger Road, No. 13 in the general list, length 6 miles.

- (18) An estimate for Rs. 1,059 for raising sides and slopes, and turfing the slopes and repairing bridges and culverts of this road, was sanctioned in March 1876. The work was finished in August 1876 at a cost of Rs. 1,008-4-7.

Mymaree to Gangooria, No. 61 in the general list, length 3 miles.

- (19) An estimate for Rs. 130 for petty repairs and filling up gaps of this road was sanctioned. The work was completed, and Rs. 130 spent.

Mymaree to Satgachia Road, No. 21 in the general list, length 8 miles.

- (20) An estimate for Rs. 15 for petty repairs to the first mile of the road was sanctioned, and Rs. 15 expended.

Paneegher to Elambazar, No. 10 in the general list, length 14 miles

- (21) An estimate for Rs. 2,099 for metalling first 2 miles of the road and petty repairs and metalling to the rest, as well as repairing bridges and culverts on the road, was sanctioned in April 1876. The work was completed in September 1876, and Rs. 2,003-3-3 spent

Burdwan to Culna Road, No. 18 in the general list, length 32 miles.

- (22) An estimate amounting to Rs. 6,321 was sanctioned for remetalling 3 miles near Culna and earthwork on the rest of the road. The work was not completed within the year, and Rs. 3,291-6-3 only expended.

Mancoor to Dignagger, No. 36 in the general list, length 9 miles

- (23) An estimate for levelling the road and filling up breaches was sanctioned for Rs. 351. The work was finished, and Rs. 339-2-4 expended.

Oochahun to Midnapore, No. 25 in the general list, length 17 miles

- (24) An estimate for Rs. 4,677 was sanctioned in April 1876 for raising the road and filling up breaches. The work was completed in September at a cost of Rs. 4,438-0-9.* Another estimate for turfing the slopes was sanctioned in August 1876 for Rs. 598. Rs. 493-15-8 was spent and the work completed.

* Rs. 4,350-3-0 spent during the year and the rest, Rs. 78-13-9, during 1876-77

Kanoo Junction Feeder, No. 9 in the general list, length 2 miles.

- (25) An estimate for Rs. 64 for raising earthen sides, petty repairs to metalling and culverts, was sanctioned. The work was completed, and Rs. 64-1-4 spent.

Kanoo to Shahebgunge, No. 44 in the general list, length 8 miles.

- (26) An estimate for Rs. 235 for filling up gaps and levelling road surface was sanctioned. The work was finished at a cost of Rs. 230-7-3.

Old Benares Road, No. 26 in the general list; length of this road in this district 38 miles.

- (27) An estimate for Rs. 195 for petty repairs and supplying new mileposts was sanctioned. Only the new mileposts have been put, and Rs. 96 expended.

Cutwa to Patooly Road, No. 14 in the general list, length 12 miles.

- (28) An estimate for Rs. 465 was sanctioned for repairing part of this road as far as Dewangunge and making a new road round the *bheel* at Bohora. The road has been completed as far as the fund allowed. Rs. 443 expended.

Assensole to Domohanee, No. 31 in the general list, length 5 miles.

- (29) This road was constructed during the famine, and no repairs appear to have been done since then. The road was cut up in many places. An estimate for Rs. 918 for levelling the road surface and slopes, and turfing the latter, was sanctioned. The work was completed at a cost of Rs. 874-11-0.

Gooshkerah to Nittyannundpore, No. 3 in the general list, length 14½ miles.

- (30) An estimate amounting to Rs. 8,174 was sanctioned for remetalling 8 miles of this road and raising earthen sides. The work is completed, and Rs. 2,118-9-0 spent.

Bohor to Sreedharpore.

- (31) This road is not in the list, but joins the Burdwan to Culna road with Mymaree to Gangooria road; length 5 miles. This road is only a track, and Rs. 109 was sanctioned for smoothing and levelling the road surface. This was completed within the year at the expense of Rs. 100.

Baboo Hittal Misser's Road, No. 32.

- (32) This road is part of the Mancoor and Dignagger road on the 14th and 15th mile. An estimate for Rs. 230 for rebuilding the arch of an old culvert and five other small culverts with Messrs. Burn and Company's stone-ware pipes was sanctioned. The work was completed in September, and Rs. 226-9-4 spent.

Cutwa to Sooree Road, No. 24 in the general list, length 15 miles.

- (33) An estimate for Rs. 31 for renewing some planks and hand-rails of a wooden bridge was sanctioned. The work was finished, and Rs. 31-10-0 expended.

- (34) The following inspection bungalows were repaired:—

	Rs.	A.	P.
Kurjonah inspection bungalow on the Cutwa road ...	35	3	1*
Shooshundighi, Sreekhund, and Cutwa bungalows on the same road ...	47	0	0†

Oochalun bungalow on the Burdwan to Jehanabad road ...	50	0	0
Mymaree bungalow on the Mymaree and Jamalpore road...	11	0	0‡

6. With regard to the Overseer Beedhoosheker Banerjea and Sub-overseer Mr. Alexander, I have much pleasure in stating that they have worked well and hard; in fact with such a scattered district, and work going on all over, it would have been impossible for me to have got on had they not exerted themselves very much. This was especially the case with Overseer Beedhoosheker Banerjea, who was often required to do work which did not really belong to him owing to the small establishment. I would beg that this may be taken into consideration for this year. With such a large area and a lot of small culverts it is going on, three men can scarcely do justice to the whole work. I would suggest a few temporary sub-overseers on a small pay where masonry works are going on, such as third grade sub-overseers in the Public Works Department, who receive Rs. 32-8-0 a month.

Dated Burdwan, the 31st January 1877.

From—The Vice-Chairman and three Members of the District Road Committee of Burdwan, being the Sub-Committee for auditing the annual accounts for 1875-76,

To—The Chairman, District Road Committee of Burdwan.

As Sub-Committee appointed under section 88 of the Road Cess Act at the meeting held on the 13th December last, we have the honor to submit the accounts of the cess year 1875-76 with the following report.

We find that the fund had in the beginning of the year a balance of Rs. 5,782-4-5, inclusive of a sum of Rs. 204-1 at debit of advance account, and liabilities amounting to

* Paid in 1876-77.

† The accounts show Rs. 119-4-0; the difference is due to rents, &c., of the bungalows.

‡ Total payment Rs. 26, i.e. Rs. 11 for repair and Rs. 15 for rent.

Rs. 1,16,586-9-8. Out of grant of Rs. 1,16,563-12-9 sanctioned by Government in March last, the committee has liquidated the debts mentioned above, with the exception of a sum of Rs. 1,234-12, being an amount overdrawn from the treasury during 1871-72 on account of grants-in-aid for the year—*vide* Bengal Government, Public Works Department No. 1549 of 18th March 1873. This sum remains unadjusted pending instructions from the Examiner of Public Works Accounts, Bengal.

The following statement, we hope, will more clearly explain the present position of the fund:—

	Rs.	A.	P.	Rs.	A.	P.
Balance in treasury on 1st October 1875	...			5,578	3	5

Add due to fund on account of outstanding advances	6,468	4 8
				<hr/>		
Total balance available for the fund	15,275	15 11

As Mr. Wilson, the Assistant Examiner of Public Works Accounts, inspected the office since the accounts were made up, we took his inspection report for our guidance, and did not think it essential to make any minute examination of the several books, but confined ourselves chiefly to the examination of the accounts laid before us.

We have very carefully gone into the cash transactions, and have found the account to be correct. On the disbursement side we have checked every item of expenditure throughout the year. We have found, with the exception of a few items enumerated below, the expenditure in every case to be supported by the proper authority, and have also traced each item in the treasury pass-book. We have further cancelled all vouchers not already cancelled.

We have also satisfied ourselves that all money disbursed has been actually received by the payees, except in the case of payments made through sub-divisional or other Government officers, in which case acknowledgment for the cheques only are received in this office, the actual payees' receipts being kept by the officers through whom the payment is made.

We append a list of items respecting which the vouchers appeared to be defective. In conclusion, we beg to state that the delay in the submission of this report has been caused by the necessity of minutely examining every item of expenditure, which we considered essential to enable us to certify to the correctness of the cash account.

In submitting this report, we desire to express our opinion of the satisfactory and efficient manner in which the present accountant, Baboo Umhica Churn Mitter, performs his duties.

C. O. QUINN.
R. T. SEVENTRE.
BISSESSUR MALIAH.
RAM LAUL MOOKERJEE.

* The treasury pass-book shows cash balance of Rs. 32,875-1-10 to the credit of the fund at the close of the year.

C. C. QUINN,
Vice-Chairman.

No. 116, dated Burdwan, the 20th February 1877.

Memorandum by A. C. BRETT, Esq., Vice-Chairman, District Road Committee, Burdwan.

COPY, with that of the audit report and the accounts for 1875-76, forwarded to the Commissioner of the Burdwan division with reference to his circular No. 266, dated 15th November last, with the intimation that the road works provided in the budget estimate already sent will be executed in the current year, excepting the metalling of the Kurjonah to Shishundighoo road. The proposed Sitarampore road under the Manbhoom authorities will also be repaired at the cost of this district road fund.

No. 259, dated Burdwan, the 29th June 1877.

From—E. H. WHINFIELD, Esq., Collector of Burdwan, Ω
To—The Commissioner of the Burdwan Division.

WITH reference to your letter No. 330, dated the 26th instant, to the address of the Chairman to the Road Cess Committee, I have the honor to submit the report on the working of the road cess in this district for the year 1875-76.

2. The statements of the demands, collections, and arrears of road cess on lands and mines for the above year were submitted to your office on the 2nd April last. This statement shows that out of a total demand of Rs. 1,50,671, including Rs. 9,737 on account of cess on mines, and Rs. 41,412 on account of collections for other districts, Rs. 1,44,023 was realized, the collection being more than 95 per cent. of the demand as required in the India Government letter, No. 494, dated 7th July, forwarded with your office circular No. 126, dated 10th August. The rate of cess levied was three-fourths of the maximum rate.

3. The arrear amounting to Rs. 6,648 was partly on account of petty revenue-free estates summarily valued in consequence of the addresses of the proprietors being unknown, and partly on account of joint, undivided estates. The difficulty in respect of the first will probably be removed when the land registration work is completed. The difficulty in

respect of the second cannot be overcome without an alteration in the provision of the Road Cess Act regarding realization of the cess. I would recommend either the extension of the provisions of Act VII (B.O.) of 1868 to arrears of road cess, or the insertion of a provision for the arrest and imprisonment of the defaulters.

4. The cess on account of mines was realized with very little difficulty. When the coal trade is dull as it was last year, some of the companies make no profits at all, and it seems hard to make them pay road cess in such years, simply because they made some profits some years previous.

5. The house cess was levied in 450 villages, the demand on account of the house cess was 6,828, out of which Rs. 5,587 were realized, leaving a balance of Rs. 1,291. From this remission to the amount of Rs. 350 was granted on account of the poverty of the people and destruction of the houses in the cyclone. The house cess valuations of this district were completed in the year 1873, and the cess was not realized till October 1875. During this interval many changes naturally occurred. Hence considerable difficulty was experienced in getting in the cess, and many remissions had to be made.

6. A few complaints of levy of excessive cess by talukdars have been made, but not nearly so many as might have been expected. Many petitions for remission of house cess were made for the reasons specified in paragraph 5 of this letter.

7. The officer in charge of the road cess work is Deputy Collector Baboo Bogola Nund Mookerjee. He has managed the work in the most satisfactory way, and deserves great credit for it.

Statement showing particulars of the Meetings of the Road Committees held during the year 1875-76.

No. 25, dated Bankoora, the 20th December 1876.

From—W. R. LARMINIE, Esq., Magistrate and Chairman of the District Road Cess Committee, Bankoora,

To—The Commissioner of the Burdwan Division.

I HAVE the honour to submit the following annual report on the operation of the Bankoora Road Fund for the cess year from 1st October 1875 to 30th September 1876.

2. The following gentlemen were members of the committee during the year under review, and the subjoined table shows the number of meetings attended by each.

Table showing the number of meetings attended to by each member:—

Names of members.	Number of meetings attended.	Number at which absent.	Total number of meetings.
W. R. Larminie, Esq. ...	6	0	6

„ Ram Lal Misser ...	1	5	6
„ Nadir Chand Roy ...	3	3	6
„ Nobin Chunder Chatterjee ...	5	1	6

3. No changes occurred in the committee during the year. There were six meetings of the committee held, at which an average of seven members attended. The attendance of the members on the whole was fair. There was only one member who was absent from all the meetings.

4. I submit herewith a statement of particulars regarding the meetings of the committee in the form prescribed in paragraph 10 of Government resolution No. 1286, dated 18th March 1876.

5. Baboo Juggobandho Khan held the office of Vice-Chairman of the committee throughout the year, and rendered valuable assistance in the preparation and submission of accounts, &c.

6. All work under the committee was carried on by the Public Works staff attached to this district, subject to the supervision of the Executive Engineer of the Midnapore Division, from the commencement of the year to the end of June 1876; but as the system of employing the Public Works agency entailed on the committee much unnecessary expense, inasmuch as they had to pay a large proportion of the whole establishment employed and caused unnecessary delay (the orders of the Divisional Engineer having in each instance to be obtained), the committee, at their meeting held on the 13th March 1876, resolved that an overseer be appointed under the committee to carry out direct the orders of the committee.

7. The sanction of Government was obtained to this arrangement, and the services of Baboo Nobogopal Banerjee, overseer of the Public Works Department, who was well acquainted with the district, were placed under the disposal of the committee from 1st July 1876.

8. A consolidated salary of Rs. 125 per month was sanctioned by the committee for the overseer.

9. A draftsman was also appointed to assist the overseer in drawing out plans, &c., when required by the committee.

10. The committee, in consideration of the small income of the district, could not think of appointing any officer higher in grade than an overseer; and most of the works which will be carried out for several years being of a petty nature, no higher order of professional ability is required.

11. As all work in connection with the valuation of road cess, &c., was completed, it was no longer necessary to entertain a separate establishment under the Road Cess Deputy Collector. The committee therefore, at a meeting held on the 22nd June 1877, amalgamated the road cess collection office with that of the district road fund office, and sanctioned an establishment consisting of one head clerk on Rs. 40 rising to Rs. 50, and a second clerk on Rs. 20 rising to Rs. 30 per month by an annual increment of Rs. 2, respectively, and two peons.

12. The following were the principal subjects which engaged the attention of the committee during the year

13. The committee at a meeting at which six members were present, held on the 11th November 1875, resolved unanimously to levy the maximum rates of cesses during the year, to enable them to repair thoroughly the existing roads, and to complete the construction of such roads as were commenced during the scarcity and left unfinished during the past year from want of funds.

14. The estimated income and expenditure for the year under report was prepared by the committee at a meeting held on the 12th August 1875. The receipts were estimated at first at Rs. 24,164, and the expenditure at Rs. 24,164; but the estimate was returned by the Commissioner, with an intimation that provision should be made for the deficit balance outstanding against the fund as well as for village roads. As the committee were involved in great pecuniary difficulties in consequence of the famine, and as many of their roads undertaken for affording relief to the labourers were deteriorating for want of funds to complete

them, they postponed the construction of village roads till funds were available for the purpose.

15. To provide for the deficit balance to meet the cost of work done during the previous year, *i.e.* 1874-75, which was not paid till after the close of that year, and to leave a fair sum to complete some of the most important works, the committee applied for a loan of Rs. 15,000; but this was not allowed by Government.

16. The committee accordingly submitted a revised estimate on the 13th December 1875, after duly providing for the large amount outstanding, leaving a sum of Rs. 8,040, only for repairs and original works. Subsequently, however, a grant of Rs. 63,578-7-9 was made by Government for the purpose of clearing off the outstanding cash liabilities of the district road fund in connection with the relief operations, and the balance, after meeting all charges on account of Government grain, amounting to Rs. 10,808, was allotted to works. Thus the total amount available for works became Rs. 18,848.

17. Finally, a revised budget estimate was submitted on the 26th June 1876 showing a total income of Rs. 93,619-7-3, including the sum of Rs. 63,578-7-9 granted by Government, and Rs. 1,500 contributed by the Bengal Stone Company, towards the completion of the road from Sussunia to Mejia. The expenditure shown was Rs. 93,619-7-3. The actual receipts during the year were Rs. 90,048-11-5. The difference is due to a portion of the amount leviable on account of road cess not having been realized till after the close of the year.

18. The amount actually spent was Rs. 86,045-11-9 against Rs. 93,619-7-3 estimated. The difference is due to deferred payments and to cheapened rates. The total amount sanctioned for repairs was Rs. 5,550, of which Rs. 2,768-5-6 were paid during the year and Rs. 2,257 are still due to contractors. There will be a saving of Rs. 525 to the fund in consequence of an improved system of proposing for tenders. In this district contractors are numerous, and apply for contracts at rates considerably below those estimated. Similarly, Rs. 648 will also be saved under the head of "original works;" the amount sanctioned by the committee being Rs. 9,186, the amount paid during the year Rs. 5,419, and that still due to contractors Rs. 3,119.

19. I may mention here that the quality of the work done during the year has been in no wise inferior to that done in former years at full estimated rates.

20. Of the amount actually spent—Rs. 86,045-11-9—the sum of Rs. 64,477-11-3, being the total outstanding balance against the fund on the 30th September 1875, represented the amount of Government grain issued to the Executive Engineer during the relief operations, as well as the price of land taken up for relief roads of Rs. 1,819-11-9 represented the total cost of the establishment entertained for the collection of revenue and under committee's control; Rs. 2,768-5-6, the cost of repairing the existing roads of the district; Rs. 11,706-14-6, the cost of original works executed during the year, including Rs. 6,287, the price of land taken up for relief roads; and Rs. 4,435, the total cost of establishment incurred in the execution of the committee's work. This last item included Rs. 4,000, which the committee was called upon by Government to pay as their contribution towards the entertainment of the Public Works staff employed in this district during the previous year.

21. At a meeting of the committee held on the 15th July 1876, the committee sanctioned the undernoted "repairs" and "original works" executed during the year.

The following four roads were thoroughly repaired during the year:—

Bankoora to Sonamookhy.

Ditto to Raghunathpore, first eleven miles; the rest partially repaired.

Ditto to Judpore.

Town and station roads.

The following seven roads were only partially repaired:—

Bankoora to Taldangra.

Ditto to Badulara.

Bishenpore to Namchura.

Gangajolghati to Saltora.

Mejia to Morulu.

Dalpore to Mohisna.

Beliator to the Damooda *via* Burjora.

Original works.—No new lines of roads were opened in this district during the year. The amount spent under this head was for the construction of culverts on some of the roads which were commenced during the famine and were not bridged last year from want of funds. The most important of these roads is that from Sussunia to Mejia. The whole length of this road has been bridged and macadamized. The road is now in capital order for traffic. This road saves 10 miles to traffic from Raneegunge to Manbhoom *via* Sussunia. The total number of culverts constructed on this road is 38; from 2 to 12 feet span (single and double).

Dalpore to Mohisna Road.—First six miles of this road have been bridged. The number of culverts constructed is 11 (from 2 to 6 feet span).

22. Two ferries on the Dalkeshur river are the only ferries under the control of the committee. They were worked fairly during the year under report.

23. The toll gates on the several roads of the district were managed by their farmers in a satisfactory manner during the year under review.

24. The accounts were examined by the audit committee specially appointed for the purpose. The accounts were carefully scrutinized and checked by the members of the audit committee assisted by the Vice-Chairman, Baboo Juggobandho Khan. The Assistant Controller of Public Works Accounts also examined the district road fund accounts on

the 9th December 1876 and found them all correct. The report of the audit committee is annexed:—

"We, the undersigned members of the road cess committee appointed under section 84 of the Road Cess Act to examine the Vice-Chairman's accounts, beg leave to report that we have examined the said accounts and found them to be correct."

"W. H. CORNISH,

"BABOO KANTI CHUNDER CHATTERJEE, } *Members.*

"BABOO JUGGOBANDHO KHAN, } *Vice-Chairman.*

25. The committee have allotted Rs. 8,450 for repairing the following roads during the current year:—

The road from Bankoora to Sonamookhy.
Ditto ditto to Raghunathpore.
Ditto ditto to Judpore.
Ditto ditto to Taldangra.
Ditto ditto to Badulara.

Five miles' run station road.

The road from Bishenpore to Namchura.
Ditto ditto to Sonamookhy.
Ditto Onda to Taldangra.
Ditto Morulu to Mejia.
Ditto Maliara to Doolavapore.
Ditto Chhatna to Sussunia.
Ditto Dalpore to Mohisna.
Ditto Behator to the Damooda.

26. We have allotted Rs. 500 to village roads. We propose to construct a road through the village of Mejia, and two other roads through the villages of Bikna Sanbanda, which are very close to the town of Bankoora.

27. Under the head of "original works" the following have also been provided for:—

Bankoora to Taldangra road.—We have provided Rs. 4,000 for the construction of culverts on this road. It is one of the main roads of the district, and is the only direct line of communication between the station and the Taldangra outpost. This was undertaken during the famine and was left unfinished from want of funds.

Chhatna to Sussunia.—This is a continuation of the road from Sussunia to Mejia, and was not completed with the other portion during the last year from want of funds. A sum of Rs. 1,600 has been provided for the construction of culverts on the road.

Behator to the Damooda via Burjora.—This is one of the important lines of communication in the district. It will make a fine railway feeder when completed. Rs. 1,200 only have been provided for the construction of culverts on this road. This sum, however, is not sufficient to complete the whole line. This road is crossed by deep *khals* and will require substantial bridging, the expense of which is likely to be very large, and much more than the committee can afford to pay for some time to come.

Dalpore to Mohisna.—A sum of Rs. 1,500 has been estimated for the construction of culverts on this road. This is a very important road, and will be most useful now that the Manbhoom authorities have constructed a road on their side to Purulia.

Bishenpore to Sonamookhy.—This is a continuation of the Pancegher railway feeder. It was long under the contemplation of the committee to take up this portion of the road, a part of which was undertaken during the famine and was left unfinished for want of funds. The want of a road from Bishenpore to the road which runs through Joyranpore to Pancegher is greatly felt, and the committee have now found an opportunity of having the want supplied.

28. In conclusion, I beg to state that, in spite of the pecuniary difficulties under which the committee laboured in consequence of the heavy demands made upon their funds during the late famine, much has been done towards facilitating communication throughout the district. There is scarcely any part of the district which has not in its neighbourhood a road metalled and bridged.

29. Baboo Noboopal Banerjee, the overseer under the committee, has worked satisfactorily, and has given valuable assistance in our efforts to combine economy with good work.

Abstract of particulars regarding Meetings of District Road Committee, Bankoora, for the cess year 1875-76.

JUGGOBANDHO KHAN,
Vice-Chairman.

No. 7, dated Sooroe, the 12th January 1877.

From—R. D. HIME, Esq., Chairman, District Road Cess Committee, Beerbhoom;
To—The Commissioner of the Burdwan Division.

I BEG to submit the annual district road report and accounts of the cess year 1875-76.

2. The metalled and unmetalled roads of the district were repaired during the year, as usual, at a cost of Rs. 16,688-13-6. The original works executed during the year were as follows:—

The construction of bridges on the road from Poorunderpore to river Adjai, leading to Burdwan, was almost completed during the year at a cost of Rs. 5,318-9-6; three large bridges—one over Gorgorah Kander, and two over rivers Buckessur and Kopy—remain to be constructed. The road from Balpore to Bangchattra was partially bridged during the year at a cost of Rs. 3,588-13-3. Three bridges remain to be constructed, two of which, those over Byere bheel and Balpore Kander, are proposed to be constructed this year. This road is one of the most important of the district, as it carries most of the traffic to the market at Balpore, where there is a railway station. The road from Doobrajapore to Elambazar was also bridged during the year at a cost of Rs. 3,820-9-3; two bridges remaining unfinished are taken up this year. The road from Balpore to Soorool was bridged and metalled during the year at a cost of Rs. 732-5-3. Bridging the road from Cynthea railway station to Andee was commenced during the year, and will be completed in the current year, with the exception of two large bridges. Rs. 4,442-15-6 were expended on this road, which is one of the most important in the district, being the direct highway to Moorshedabad. During the year two bridges—one at Abadanga and another at Dhondanga—were constructed on the road

from Soorool to Ghosemattee, one of the old roads of the district, at a cost of Rs. 765-11-9. The four culverts on the Bulpore to Sakoolipore road, remaining to be constructed from 1874-75, were constructed during the year under report at a cost of Rs. 1,026-15-6. Two large bridges still remain to be constructed on the road to make it passable in all seasons. Several pottery drains have been constructed on several roads of the district for irrigation purposes. The construction and repairs of the following village roads were executed during the year under report at a cost of Rs. 429-11-3 :—

- (1) Gobra village road.
- (2) Kendwah ditto.
- (3) Kaddia ditto.
- (4) Hoosnabad ditto.
- (5) Rajepore ditto.
- (6) Nagori ditto.
- (7) Chandupore to Tantipara village road.
- (8) Tantipara to Buckessur.
- (9) Hefampore school road.
- (10) Nulliapore village road.

A bridge of some importance was constructed on the Gobra village road at a cost of Rs. 371-10-9.

3. There were nine meetings of the Road Cess Committee during the year. It is found a matter of difficulty to get a meeting together at any time, the members appearing content to leave everything to the Chairman. Five members were struck off the committee during the year on account of non-attendance, by order of Government, on the report of the Chairman.

Appendix A.

Abstract of particulars regarding meetings of District Road Committee for the cess year 1875-76.

R. D. HIME,
Chairman.

No. 213, dated Midnapore, the 14th February 1877.

From—J. F. BRADBURY, Esq., Vice-Chairman, Road Cess Committee, Midnapore,
To—The Commissioner of the Burdwan Division.

BEFORE reviewing the administration of the District Road Fund of Midnapore for the year ending with 30th September last, I beg to explain that the delay in the preparation of this report has been, as far as I am concerned, unavoidable. I joined the district on the 18th December last, and found that though the annual accounts had been duly audited by a sub-committee as prescribed by section 88 of Act X of 1871, they had not been submitted to a meeting of the full committee. I accordingly convened a meeting of the committee for the 15th January to consider and pass the accounts, but unfortunately on that date a quorum was not present, and I was compelled to adjourn the meeting till the 1st instant, when at length the accounts were passed.

2. The sub-committee who audited the accounts consisted of Mr. Norton, the then Vice-Chairman, Mr. Larymore, Baboo Gooroo Churn Dutt, and Baboo Nobin Chunder Nag, who all examined and signed the accounts.

3. During the year under report there were 22 members on the committee, and the *personnel* thereof was the same as in the previous year, except that Mr. Cochrane went on furlough in March and was succeeded in the Vice-Chairmanship by Mr. Norton.

4. There were four meetings held during the year, with an average attendance of eight members; and at the last of these meetings the committee resolved to levy the cess at the maximum rate authorized by section 74 of Act X of 1871, and appointed Baboo Gopal Chunder Bose, District Engineer, with a staff of three overseers, six sub-overseers, and an accountant subordinate to him. The names of the individuals of this subordinate staff have already been communicated to you in our letters No. 66 of 11th December 1876 and No. 74 of 15th idem. At the first three meetings no business deserving of special mention was transacted, but a Vice-Chairman was elected, and estimates were framed or revised and passed.

5. The nomination of the District Engineer has been approved by Government, and the rolls of the members of his staff have been submitted to you.

6. The total income of the committee during the year 1875-76, including the Government grant of Rs. 12,788-6-6, and a sum of Rs. 2,139-4 deposited with the committee by ferry farmers and others as a security for the due performance of their duties, was Rs. 36,920-2-8; and in addition we have been allowed to overdraw our account with the treasury to the extent of Rs. 11,889-7-2, making in all Rs. 48,809-9-10. The salaries and contingent expenses of the establishment employed under the Road Cess Deputy Collector absorbed Rs. 10,386-8-8, and the balance was expended in the improvement and repair of the lines of communication and the payment of the subordinates employed on such work.

7. The establishment of the District Engineer, including the District Engineer himself, did not exist till after the close of the period under review, but the committee entertained a small staff of sub-overseers and others, some of whom acted under the Vice-Chairman and the rest under the Executive Engineer.

8. The only realizations under the Road Cess Act consisted of fines imposed on defaulters, and these aggregated Rs. 2,841-7-3. I have the satisfaction of announcing that the work of the Road Cess Deputy Collector has at length been completed, and that his final report either has been, or will shortly be, submitted. The collection of the cess began last month, and the instalment payable with the land revenue on the 12th ultimo amounted to Rs. 38,635-10-9. The sum actually paid up to date is Rs. 31,311-2-2. We shall, therefore, now start with a clear balance in our favour.

9. The road establishment cost Rs. 4,753-0-11, and we expended on original works Rs. 11,685-3-7, on repairs Rs. 15,712-3-11, and Rs. 228-9-2 on ferries. We also had to refund for various reasons Rs. 196-15-11, and our total disbursements thus amounted to Rs. 4,395-10-2. The outstanding advances for work aggregate Rs. 4,851-15-8, and thus we account for our income of Rs. 48,809-9-10.

10. The subjoined table shows the nature and cost of each original work undertaken, completed, or paid for during the year under review :—

No. of work	Description of work.	Cost.
<i>Road No. 3, Lodhasy to Purrihaty.</i>		
1.	One-pucca culvert of one span constructed at a cost of	Rs. 344 10 3
<i>Road No. 4, Bombay Road.</i>		
2.	Completion of two timber bridges and a causeway ... [N.B.—This work was done in the previous year, but was paid for in the year under report.]	2,242 11 9
3.	Completion of a culvert of two spans ...	312 12 2
4.	Ditto of the metalling of about two miles of the road ...	2,043 10 6
<i>Road No. 5, Ghattal to Chunderkona.</i>		
5.	Construction of a diversion line of road on the 3rd mile, including its metalling and the cutting off of two loops in the road ...	1,042 12 3
<i>Road No. 6, Burdwan Road.</i>		
6.	Reconstruction of a pucca culvert of one span of five feet ...	321 12 9
<i>No. 8, Lodhasole to Mohapal.</i>		
7.	Furniture supplied to the inspection bungalow at Lodhasole ...	26 8 0
<i>No. 12, Contai to Tumlook. (Section I, or Kalinuggur section.)</i>		
8.	Construction of two pucca culverts, each of one span (one not completed as yet) ...	666 5 6
<i>No. 13, Contai to Tumlook. (Section II, or Nurgat section.)</i>		
9.	Construction of two pucca culverts, each of one span of five feet ...	832 6 0
<i>No. 17, Belda to Contai.</i>		
10.	Completion of two pucca culverts, each of one span of five feet ...	932 13 4
<i>No. 19, from Khurgopore to Kesiari.</i>		
11.	Construction of one pucca culvert of one span ...	357 14 3
<i>No. 25, Doheguri to Ramgurh.</i>		
12.	Construction of about one mile of the road between Doheguri to Lallgurh ...	191 6 0
<i>No. 30, Satpati to Gowaltore.</i>		
13.	Construction of a portion of road ... [N.B.—This work was done in the previous year, but was paid for during the year under review.]	37 5 6
<i>No. 31, Egra to Puttaspore.</i>		
14.	Completion of a pucca bridge at Khar ...	287 1 9
<i>Road No. 23, Keshpore to Narajole.</i>		
15.	Construction of five palm-tree bridges with pucca piers and supports ...	199 14 9
16.	Compensation for lands taken up for the construction of the new lines of road opened during the famine year 1873-74 ...	1,845 2 10
Total ...		11,685 3 7

11. Other minor original works were undertaken during the year, but they have not been completed, nor have the accounts relating to them been adjusted; I therefore do not deem it necessary to mention them in detail.

12. Each of the roads specified in the detailed statement given below was repaired or improved during the year under report at the cost noted against it in column 4 of the statement:—

Number of road.	Name of road.	Length of road.	Total cost.
		Miles.	Rs. A. P.
1	Twelve station roads, including the Gope roads ...	12	734 1 4
2	From Panchkoora to Tumlook ...	16	677 11 3
3	" Lodhasy to Purrihaty ...	26½	993 8 3
4	Bombay Road ...	33	933 0 8
5	From Ghattal to Chunderkona ...	16	342 0 0
6	Burdwan road ...	35½	2,092 1 5
8	From Lodhasole to Mohapal ...	9½	56 0 0
9	" Gurbet to Ramgurh ...	26	750 13 3
10	" Chunderkona to Amlagora ...	16	660 14 3
11	" Ditto to Gowaltore ...	23	691 2 4
12	" Contai to Tumlook (section I, Kalinuggur section) ...	18	245 14 0
13	" Ditto to ditto (ditto II, Nurghat ditto) ...	20½	319 10 0
14	" Ditto to Ramnuggur ...	15	688 2 0
15	" Ditto to Khedgree ...	16	96 3 6
16	" Balighie to Jelassore ...	19	325 14 5
17	" Belda to Contai ...	35½	1,944 4 7
18	" Kolabaria to Satpati ...	9½	150 0 0
19	" Khurgopore to Keshiari ...	16½	1,759 8 0
21	" Kheerpoy to Buddungunge ...	12	140 14 6
22	" Chuttergunge to Ramjobunpore ...	9	145 11 9
23	" Keshpore to Narajole ...	8	245 13 3
24	" Dohijuri to Silda ...	13½	68 5 6
25	" Ditto to Ramghur ...	16	66 2 3
26	" Sogri to Jhargram ...	8	131 15 9
28	" Satpati to Katapuhari ...	13	220 2 2
29	" Keshoregaria to Chunderkona ...	7½	187 2 0
30	" Satpati to Gowaltore ...	12	170 0 0
31	" Egra to Puttashpore ...	8½	483 2 0
33	" Binpore to Ramgurh ...	13	37 15 6
	For village roads and other petty work, &c.	354 2 3
	Total	15,712 3 11

N.B.—The work on the roads Nos. 1, 4, 6, 17 and 19 was partly done in the previous year and partly in the year under review.

13. We were unable from want of funds to repair roads Nos. 7, 20, 27 and 32.

14. The sum of Rs. 223-9-2 was spent in repairing nine ferry boats. Two new ferry boats were also constructed during the past year, but the bills for the cost thereof have not yet been passed.

15. Subjoined is a schedule describing the most important proposed operations of the current year. Some of these have already been undertaken:—

No. of work.	Description of work.	Estimated cost.
	<i>Repairs.</i>	Rs.
1.	Widening and raising the road No. 3, from Lodhasy to Purrihaty, and for repairing its existing bridges ...	6,700
2.	Repairing the damages caused by floods on the road from Ghattal to Chunderkona ...	6,650
3.	Repairs to the metalled and unmetalled portions of the Burdwan road, including its bridges ...	3,100
4.	Repairs of road No. 2, from Panchkoora to Tumlook, including its bridges ...	2,000
5.	Repairs of road No. 17, from Belda to Contai and its bridges ...	2,000
6.	Repairs of road No. 19, from Khurgopore to Keshiari ...	2,000
7.	Repairing and improving the village roads of the district ...	5,000
	Total ...	27,450

No. of work.	Description of work.	Estimated cost.
<i>Original works.</i>		
1.	Bridging the road No. 3, from Lodhasy to Purrihaty, up to the 24th mile, and metalling the same road from 11th to 24th mile	Rs. 18,000
2.	Bridging the Scooli khal on the road No. 4, Bombay road, and constructing two causeways and two culverts on the same road	5,000
3.	Construction of a causeway on the 1st mile of road No. 5, from Ghattal to Chunderkona	4,000
4.	Construction of a portion of road No. 23, from Keshpore to Narajole, about three miles in length	1,500
5.	Construction of five masonry culverts, each of one span of five feet, on road No. 31, from Egra to Puttaspoore	2,000
Total		30,800

D. NORTON, C.S., Vice-Chairman.

No. 63, dated Hooghly, the 10th January 1877.

From—F. H. PELLEW, Esq., Chairman of the Road Cess Committee, Hooghly,
To—The Commissioner of the Burdwan Division.

I HAVE the honour to submit the following report on the administration of the Hooghly and Howrah District Road Fund for the cess year 1875-76. I joined office after the close of the year.

2. The following is a list of the official and non-official members of the District Road Committee:—

Sir W. J. Herschel, *Bart.*, *Chairman*.
Baboo Hurro Chunder Ghose, *Vice-Chairman*.

Members.

Mr. T. J. C. Grant, *Magistrate of Howrah*.
„ T. D. Beighton, *Sub-divisional Officer, Serampore; left*.
„ W. D. Pratt, *District Superintendent of Police, Hooghly*.
„ W. H. Wells, *District Engineer, Hooghly and Howrah*.
„ W. H. Nightingale, *Executive Engineer, Burdwan Division*.
Baboo Joykissen Mookerjee.
„ Chunder Kanto Mookerjee.
„ Kedar Nath Mookerjee.
„ Sutto Doyal Banerjee.
„ Poornoo Chunder Roy.
„ Juggessur Sing.
„ Lolit Mohun Sing.
„ Poornendro Deb Roy.
„ Obhoy Churn Nundy.
„ Opendro Narain Nundy.
„ Brojo Nath Mitter.

3. The following changes took place amongst the members during the year:—

Mr. A. Weekes made over charge of the office to Sir W. J. Herschel, *Bart.*, in November 1875, who (the latter) was the Chairman throughout the year excepting the last six weeks, when Mr. H. J. Newberry, Officiating Magistrate and Collector, filled the office of Chairman.

The Vice-Chairman, Baboo Hurro Chunder Ghose, formerly in the executive service of Government and now a Government pensioner, was elected in March last. Previously the Chairman undertook the duties of the Vice-Chairman in addition to those of Chairman.

Baboo Poornendro Deb Roy, zemindar, resident of Bausberiah, and Baboo Brojo Nath Mitter, attorney-at-law, were appointed members during the year.

4. Eight meetings of the committee were held during the year, of which one was at Howrah and the rest at Hooghly. All the meetings were well attended, as will be seen from the accompanying statement (appendix A, column 8).

5. *Receipts of the year.*—The year opened with a minus balance of Rs. 29,359-10-1.

The total receipts during the year, under different heads, amounted to Rs. 1,31,093-10-2½, as noted in the margin. Deducting, therefore, the said sum of Rs. 29,359-10-1 from the total receipts, the fund at the disposal of the committee amounted to Rs. 1,01,734-0-1½.

6. *Expenditure.*—The total expenditure during the year under report amounted to Rs. 1,00,009-0-8, and may be shown under the heads marginally noted. It is to be remarked that the amount shown under head “collection of revenue” includes Rs. 1,298-5-6, expended on account of road cess establishments, &c, under the Collector for making valuations of estates during the year 1871-72.

7. *System of work.*—All the works of the district were carried on by contracts as much as possible, under the rules laid down in Bengal Government’s circular No. 1209, dated 8th March 1875.

A list of all contractors who have previously worked in this district, and who have from time to time applied for work, is kept in the District Engineer’s office, and revised copies thereof are sent from time to time to the overseers for information.

In the case of works over Rs. 1,000, a printed notice in the shape of postal cards is sent from the District Engineer’s office to each regular contractor, and in addition to this other means of advertisement adopted according to circumstances.

In the case of works estimated to cost between Rs. 200 and Rs. 1,000, a notice-card is sent to every known contractor, including petty contractors.

In cases under Rs. 200, the notices are issued by the overseer.

8. *Sitting of the Board.*—Tenders for district works exceeding Rs. 2,500 are opened by the Chairman, Vice-Chairman, and the District Engineer sitting jointly, in the presence of the tendering contractors, on a day fixed for the purpose and notified to them, and the best tenders are accepted.

	Rs.	A.	P.
Road cess	98,981	3	½
One per cent. cess on khas mehals ...	251	3	8
Road, ferry and canal tolls ..	16,618	9	3

Engineering establishment ...	20,932	12	5
Contingencies ...	1,341	4	3
Tools and plant ...	633	9	3
Total ...	1,00,009	0	8

9. *Occasion for piece or day-work.*—All works are as a rule carried out by open competition under the contract system, with the following exceptions, viz. (1) when tenders are all found unsatisfactory; (2) when a contractor has failed and the Engineer decides to employ day or piece-work; (3) when the case allows no time to enter into contract; (4) when it is too petty to be worth the trouble of seeking a contractor.

10. All the works entered in the budget for the year 1875-76 were undertaken, with the exception of the following five roads:—

Connagore station road,
Bally ditto,
Bora village roads,
Chunditolla ditto,
Gooroo ditto,

as the first two were subsequently found to be situated within municipal limits, and the remaining three were not repaired, as other village roads demanded the consideration of the committee earlier.

11. *Original works.*—Of the original works that were undertaken during the year, the following were the most important:—

Howrah to Juggutbullubpore road, No. 13 in the general list, length 17 miles.—Three miles of this road were metalled during the year under review; four miles had been metalled during the year 1874-75, and three more miles have been budgetted for in the current year's estimate, so by the end of this year the greater portion of this road will be metalled. The remaining portion of it, however, will not be neglected, as this is one of the most important roads in this district, and there is a toll-bar on it.

Ooterparah to Callipore road, No. 33 in the general list, length 4 miles.—The metalling of two miles of this road was estimated for and completed during the year under report; one mile was done in the previous year, and the remaining mile has been entered in the budget for the current year, which will complete the road throughout. There was some delay in completing the road owing to the failure of contract. The work had to be taken out of the hands of the contractor and completed by task-work by the overseer.

Bydebatty feeder road, No. 2 in the general list, length 9½ miles.—One mile of this road had been new metalled with stone during the year 1875-76, making eight miles so metalled, and the remaining 1½ miles was brick-metalled. There is a very heavy traffic on this road, and it is consequently subject to greater wear and tear than any in this district. At some future date it will possibly be entirely metalled with stone.

Constructing a bridge over the Koontee river to carry the Mugarh to Meria road. The bridge consists of seven spans of 20 feet each, of combined masonry and timberwork; two spans being of timber superstructure over masonry and five spans over sal-piling driven into the bed of the river. It was much required, as the road was practically useless before the construction of this bridge. It was completed during the year, with the exception of some finishing details, which could not be done in September last, as the river was then at its full height.

Construction of four thatched inspection bungalows in different parts of the district, viz., Dwarhatta, Juggutbullubpore, Dhuneakhally, and Inchoorah, at a total estimated cost of Rs. 3,000. None of these could be completed within the year owing partially to contractors having failed to supply good bricks and the difficulty of procuring skilled labour in the interior.

12. *Kind of repairs executed—Class I roads.*—The metalling of this class of roads was all put into good order, and the culverts of the roads renewed and repaired where necessary, and other repairs of ordinary kind executed.

Class II roads.—The surface dressing of this class of roads was all done sufficiently to make them driveable.

13. *General condition of roads, bridges, &c.*—All roads under class I have been kept in good driveable order throughout the year, and those under class II during the dry season. The condition of old culverts is being improved; the old and unsafe ones changed as soon as they show signs of giving way.

The alignment of the slopes of road might be improved, but this cannot be done till all culverts are put in thoroughly good order, which is of greater importance.

14. *Stone metalling.*—Stone metal laid down on the Bydebatty feeder road three years ago still stands well, and promises to come up to the expectations formed of its wear and tear, compared with its cost against that of brick metal.

15. *Relief works.*—No relief works were carried out in this district during the year 1875-76.

16. *Roads having toll-bars.*—Though, these roads, like others, must unavoidably be closed for repair for a certain length of time, still it is desirable that the repairs of such roads should be executed with greater despatch than those relating to ordinary ones. Instructions will be issued to the District Engineer for strict supervision and for the adoption of some good method which may lead to fair results.

17. *Village roads.*—An extension of the village road system has been adopted and funds assigned for the purpose. Though only Rs. 1,600 were entered in the budget for village roads, at the latter part of the year an additional sum of Rs. 6,400 was voted by the committee for the maintenance, &c., of these roads.

18. *Southern part of the district.*—The Howrah portion of the district being comparatively roadless, due attention is paid to any proposal made for roads in that part. Of the

assignment of Rs. 8,000 mentioned in the preceding paragraph for village roads, nearly Rs. 6,000 were set apart for the sub-divisions of Howrah and Moheerekha and Rs. 2,000 for the Hooghly and Serampore sub-divisions. Again, of the sum of Rs. 10,000 entered in the budget for the current year, two-thirds, or Rs. 6,666-10-8, have been allotted to the two former, and one-third, or Rs. 3,333-5 4, to the latter sub-divisions. Thus the interests of the rate-payers living in the interior or at a distance from the main roads are not neglected. At the same time the committee recognise the claims of Howrah to a larger share of the proceeds of the cess than they at present receive. The difficulty consists in the fact that, there being few existing roads in Howrah, all expenditure there involves a heavy previous expenditure for land acquisition. I think a certain sum should be put by annually for Howrah till sufficient is obtained to construct a useful road. More representatives for Howrah should be on the committee.

19. *Trees planted by roadside.*—Trees planted by the sides of two district roads, as an experiment, are not thriving so well as was expected, owing partly to their being placed too near the road for want of land, which causes them to be covered with dust and thereby stunts their growth, and partly owing to the neighbouring ryots, who destroy the plants by nipping off the tops at night, apprehending that in time these trees will be very large and shade their adjoining lands and thereby affect the annual yield of the crops, and also injure their thatched houses when near.

20. *Future schemes.*—Provision has been made for the following original works :—The construction of a bridge over the Koontee river at Rajhaut on the Hooghly and Bhastora road, at an estimated cost of Rs. 8,000 ; metalling three miles of the Howrah and Juggutbullubpore road at Rs. 13,500, and metalling one mile of the Ooterpara and Callipore road at Rs. 5,000.

21. *Repairs.*—Repairing the Hooghly feeder road at an estimated cost of Rs. 2,830 ; Pandooah to Culna road at Rs. 6,200 ; Bydebatty to Bhola road at Rs. 6,000 ; Howrah to Juggutbullubpore road at Rs. 5,000 ; and old Benares road at Rs. 4,500, besides others of less importance. The clearance of the Gyeghatta khal in Howrah is under contemplation, for which Rs. 3,000 have been entered in the budget, and the work will be commenced if the irrigation authorities raise no objection, as the safety of their bunds has to be considered.

22. *Establishment.*—The works of the district are carried out by the District Engineer, Mr. W. H. Wells, c.e., taken over from the Public Works Department on a consolidated salary and travelling allowance of Rs. 1,000 per mensem, including the contribution made by him towards furlough and pension allowance. Mr. Wells is an Engineer of experience and ability, and carries on his work to the satisfaction of the committee.

The subordinate engineering establishment consisted of one overseer on Rs. 120 per month and Rs. 30 travelling allowance, and two sub-overseers on Rs. 50 each and Rs. 15 horse allowance, all three of whom were taken from the Public Works Department. Another overseer was taken outside the Public Works Department on similar allowances. Each of these officers is in charge of a sub-division, the most important one being under the charge of Baboo Moheesh Chunder Bose, overseer.

23. *Cost of establishment.*—At first sight it may appear that the cost of establishment compared with the value of work done was heavy, but it is to be remarked that payments on account of several works, though completed, or nearly so, within September, were not made within that time, as the works done by the contractors were not inspected by the District Engineer till after the close of the year. Bills relating to such works or portions thereof were therefore paid during the current year, although they were completed in the year under review. Hence the cost of establishment is apparently heavy. Besides, the sum of Rs. 5,521 shown in paragraph 6 against the head "establishment" includes Rs. 1,300 expended on account of valuation of estates during the year 1872, but credited into the treasury during the year under report in accordance with the instructions of the Accountant-General; and the sum of Rs. 2,103 shown against the head "contingencies" includes Rs. 1,071-14-9, paid to Government on account of interest for the loan of Rs. 25,000 contracted during the year 1874-75.

24. In conclusion, I beg to remark that the road cess appears to have already become popular in Hooghly, and will, I hope, in a few years effect very great improvement in its communications and increase enormously the wealth and happiness of the inhabitants. Already works such as the bridge over the Koontee river, the metalling of the Bydebatty feeder road and of the Callipore road, which have been crying wants for years, have been accomplished. The difficulties in improving Howrah are, as above explained, greater, but the proper metalling of the Howrah-Juggutbullubpore road is itself a work of no mean importance, and it is to be hoped that some day a road may be made along the river bank to Oolaberiah, opening up that rich and important tract on which the Fort Gloucester Mills are situated, and connecting Calcutta for foot-passengers with the Midnapore district.

F. H. PELLEW,
Chairman.

No. 213, dated Burdwan, the 3rd May 1877.

From—H. A. COCKERELL, Esq., Commissioner of the Burdwan Division,
To—The Secretary to the Government of Bengal, Public Works Department.

With reference to your No. 12A, of the 11th January last, and subsequent reminders, I have the honour to send in original, for publication in the *Calcutta Gazette*, the annual reports and accounts submitted by the Chairman of the several District Road Committees on the operations of the district road fund during the past cess year 1875-76.

2. The following tables show the financial results of the working of the District Road Committees in this division during the past three years :—

RECEIPTS.			
	1873-74.	1874-75.	1875-76.
	Rs.	Rs.	Rs.
Cess under Act X (B.C.) of 1871 ...	25,620	51,860	2,50,306
Fines under the above Act ...	33	1,616	3,223
Road cess otherwise levied ...	5,873	2,203	2,954
Tolls on roads ...	24,927	32,422	33,690
„ on ferries ...	17,152	22,957	24,578
„ on canals and rivers ...	10,119	4,050	3,408
Miscellaneous receipts ...	3,890	18,741	3,372
Fines and refunds ...	1,846	655	5
Total ordinary receipts ...	89,460	1,34,504	3,21,536
Grants-in-aid from Provincial reserve fund ...	5,45,377	1,15,271	2,82,941
Total receipts of the year ...	6,34,837	2,49,775	6,04,477

EXPENDITURE.			
Particulars of expenditure.	1873-74.	1874-75.	1875-76.
	Rs.	Rs.	Rs.
On establishment on collection of revenue and committee's control ...	19,226	22,771	34,166
On original works—			
Roads and bridges ...	2,95,656	2,49,324	96,837
River and canal works ...	94
Maintenance and repairs—			
Road and bridges ...	2,98,306	2,33,814	1,33,458
River and canal works ...	253
Ferries ...	3,487	1,947	1,289
On establishment on works ...	5,862	8,382	56,168
„ tools and plant ...	13,991	935	786
„ refunds ...	17,568	10,721	1,476
Compensation for lands	8,029
Total ...	6,54,443	5,35,923	3,24,190

The cess year 1873-74 being the year of scarcity, a large grant was made from the Provincial reserve fund for carrying out relief works in the division. Hence the total receipts during that year was Rs. 6,34,837 against Rs. 2,49,775 in 1874-75; the grant-in-aid being Rs. 5,45,377 in 1873-74 against Rs. 1,15,271 in 1874-75. The total expenditure during the year 1874-75 was Rs. 5,35,923, the deficit being Rs. 2,86,148, of which Rs. 41,715 was covered by the surplus balance of the previous year, leaving a net deficit of Rs. 2,44,433, which was carried as minus balance to the accounts of the following year. It is on account of this large deficit balance that the accounts for 1875-76 show a total of Rs. 6,04,477 under the head of "receipts" and Rs. 3,24,190 under that of "expenditure," and only Rs. 34,355 as the balance in hand at the close of the year. The receipts for 1874-74 include Rs. 4,501 overdrawn from the treasury in the district of Midnapore. This amount has been included in item "miscellaneous."

The following statement shows the income and expenditure in each district during the past year :—

District.	Income.	Expenditure.
	Rs.	Rs.
Burdwan ...	1,21,843	1,06,567
Bankoora ...	25,571	21,568
Beerbhoom ...	74,403	52,088
Midnapore ...	36,494	43,957
Hooghly-cum-Howrah ...	1,01,734	1,00,009
Total ...	3,60,015	3,24,189

	Rs.
* Total receipts ...	6,04,447
Deduct—	
Minus balance of preceding year ...	2,44,432
Balance ...	3,60,015

The above figures include the grants-in-aid made to the several districts from the Provincial reserve fund. No cess was levied in the district of Midnapore during the year under review, the work of valuation having been completed at the close of the year, when there was a deficit balance of Rs. 11,889-7-2 in the accounts of the road fund. In the district of Burdwan, the cess year 1875-76 opened with a deficit balance of Rs. 1,10,804-5-3, which the District Road Committee had to make good from the total receipts of the year. Deducting therefore this amount from the total income, the committee had only Rs. 1,21,842-14-7 at their disposal. Similarly, there was a deficit balance on the 1st October 1875 of Rs. 64,177-11-3 against the District Road Fund of Bankoora, Rs. 47,257-11-8 against the district of Beerbhoom, and Rs. 29,359-10-1 against the district of Hooghly-cum-Howrah, which the District Committees had to make good from the total receipts of the year.

Operations of the committees.—The operations of the several Road Committees were chiefly confined to the bridging, metalling, and remetalling of important roads in the several districts. In the district of Bankoora no new lines of communication were opened during the year, and the income of the committee was mostly spent in completing the works which were executed during the famine of 1874, but were left unfinished for want of funds.

Original works and repairs.—The following table shows the amount spent in each district on original works and repairs during the year:—

Districts	AMOUNT EXPENDED ON					
	Original works.			Repairs.		
	Rs.	A.	P.	Rs.	A.	P.
Burdwan	12,858	6	8	63,281	15	6
Bankoora	11,706	14	6	2,768	5	6
Beerbhoom	25,544	0	0	18,328	2	6
Midnapore	11,685	3	7	15,935	13	1
Hooghly-cum-Howrah ...	35,042	4	3	34,433	6	0

Of the original works executed during the year the most important are—

Bankoora—The construction of culverts on the road from Sussunia to Mejia, and from Dalpore to Mohisua.

Beerbhoom—Construction of the Bolepore to Bungochattrra road, and of bridges on the roads from Bolepore to Sacoopore, Doobrajore to Elambazar, Poorunderpore to river Adjai, and Sainia to Andee.

Burdwan—Metalling the Mancoor to Dignagger road.

Hooghly and Howrah—Metalling 3 miles of the Howrah to Juggutbullubpore road, 2 miles of Otterpara to Callipore road, construction of a timber bridge over the Koontee river on the Mugarh to Meria road, and the renewing 1 mile of the Bydebatty to Bhola road.

Midnapore—Metalling the Bombay road, and completing two wooden bridges, one pucca culvert and causeway on that road, and metalling the Ghattal to Chunderkouna road.

Stone metalling—Stone metalling has proved a success in the district of Hooghly, and the Chairman reports that the metal laid on the Bydebatty feeder three years ago still stands well, and promises to come up to the expectations formed of its wear and tear compared with its cost against that of brick metal.

Village roads.—The construction and repair of village roads were more or less undertaken in all the districts in this division during the past cess year except Bankoora, where nothing was done under this head for want of funds. The District Road Committee have, however, provided a sum of Rs. 500 during the current year for the construction of roads through the villages of Mejia, Bikna and Sanbanda, the last two of which are very close to the town of Bankoora.

The cost of establishment on district works during the year in each district is shown in the margin. In the district of Beerbhoom an additional sum of Rs. 4,000 was paid during the year from the funds of the Committee on account of Public Works charges. In the district of Hooghly the cost of establishment appears to be heavy compared with the value of work done during the year, but this is accounted for by the fact that payments for certain works executed towards the close of the year had been deferred to the current year till these works were inspected by the District Engineer. The small expenditure in the district of Midnapore under this head is due to the full complement of the establishment having only been entertained from the current year.

Meetings of committee—The meetings of the District Road Committees of Bankoora and Hooghly are reported to have been well attended during the year. Only one member of the Bankoora Committee, viz. Baboo Bany Madhub Banerjee, of Ajudhya, and two members of the Hooghly District Committee, viz. Baboo Poorna Chundra Roy, of Scorafooly, and Baboo Sutto Doyal Banerjee, of Telimparah, are said not to have attended any meeting during the year. Mr. Larminie observes that he is not aware of any reason for the non-attendance of the absent members, but thinks that the members might be called upon either to resign or to express an intention of being more regular in future. Mr. Pellew states that the non-attendance of one member was due to ill-health, and of the other to absence from the district on private business; but he thinks that both of them are landlords of such a position that, whether they attend or not, they ought to have an option of attending. In the districts of Beerbhoom, Burdwan, and Midnapore the meetings were not regularly attended, and it is reported that it is difficult to get the non-official members together at any time.

In Midnapore eight members named in margin did not attend any meeting. The Chairman observes that the non-official members take little or no interest in the work of the committee, and that at each meeting half the quorum consisted of officials, but for whose attendance no meeting could have been held. Annexed to each district report is a statement giving the particulars of the meetings of the road committees, which has been drawn up in the form given in Appendix A of the Government resolution No. 1286 of the 13th March 1876. The particulars of the meetings of the road committee of Beerbhoom are given in the body of the report.

The delay in the submission of this report is owing to my having had to call for further information from the several districts on points, notice of which had been omitted in the first instance; the last reply was only received in this office on the 10th ultimo.

No. 376, dated Howrah, 14th July 1877.

From—HORACE A. COCKERELL, Esq., Commissioner of the Burdwan Division,
To—The Secretary to the Government of Bengal, Public Works Department.

In reply to your No. 477A of the 13th ultimo, calling for further particulars in connection with the annual reports and accounts of the several district road committees in this division for the past cess year 1875-76, I have the honor to submit the following remarks.

2. In the district of Bankoora the Chairman reports that the road cess system has worked fairly. The cess was levied without complaint, and the sums due from proprietors of revenue-paying as well as revenue-free estates have been generally realized without difficulty, the chief defaulters being ghatwals and petty non-resident landholders whom it is difficult to reach. In Burdwan little difficulty was experienced in realizing the cess, but considerable difficulty was experienced in both this as well as in the district of Bankoora in collecting the house cess, and many remissions had to be made. The Chairman of the Bankoora Committee adds that the assessment in the first instance was not satisfactorily made and requires revision. In Beerbhoom Mr. Grant reports that large arrears accrued from the previous year owing to neglect in enforcing regularity in the payment of the cess, and that it was a most difficult task to realize these outstandings. I beg to enclose copies of the letters quoted in the margin, which contain all the information required by Government regarding the districts of Burdwan and Beerbhoom.

No. 259, dated 20th June 1877, from
Collector of Burdwan.

No. 293, dated 7th July 1877, from
Magistrate of Beerbhoom.

3. The Chairman of the Midnapore Road Committee states that the small establishment which the district committee could afford to entertain before the payments on account of the cess commenced had worked fairly well.

4. It is reported that the branch road cess committee at Serampore was never brought into active life since its formation; consequently no statement showing the attendance at the meetings of the committee can be submitted.

DISTRICT ROAD FUND.

NOTIFICATION.

No. 250.

The 17th August 1877.

UNDER Section 89 of Act X (B.C.) of 1871, the following annual accounts and reports of the Road Cess Committees of the Hazareebagh, Lohardugga, Singbhoom, and Manbhoom districts, of works done and in progress during the past cess year 1875-76, together with the remarks thereon of the Commissioner of the Chota Nagpore Division, are published for general information.

G. A. D. ANLEY, C.E.,
*Asst. Secy to the Govt. of Bengal
 in the Public Works Dept.*

No. 24, dated Hazareebagh, the 13th November 1876.

From—COLONEL H. M. BODDAM, Chairman, Road Cess Committee, Hazareebagh,
 To—The Commissioner of Chota Nagpore, Ranchee.

I HAVE the honor to submit the following report on the operations of the district road fund during the cess year ending 30th September 1876.

2. The subjoined is a table showing the names of the members who formed the committee during the year under review and the number of meetings attended by each.

Number	Names of Members.	Total number of meetings.	Number of meetings attended.	REMARKS.
1	Colonel H. M. Boddam, Deputy Commissioner, Chairman...	7	5	<i>Ex officio.</i>
2	A. G. Wilson, Esq., Assistant Commissioner and Road Cess Deputy Collector, Vice-Chairman.	7	7	Ditto.
3	Surgeon E. A. Birch, Civil Surgeon ...	7	Ditto.
4	Captain Lillingstone, Superintendent of Jails ...	7	2	Ditto.
5	Rai Jadu Nath Mookerjee, Government Pleader ...	7	6	Ditto.
6	J. F. Parkinson, Esq., Executive Engineer ...	7	2	Ditto.
7	Captain L. Blathwayt, Assistant Commissioner ...	7	5	Official.
8	W. Parry Davis, Esq., District Superintendent ...	7	4	Ditto.
9	Moonshi Doorga Prosad ...	7	1	Manager, Court of Wards.
10	J. Bowman, Esq. ...	7	0	} Manager, tea plantations.
11	Max Liebert, Esq. ...	7	0	
12	A. H. Thompson, Esq. ...	7	0	
13	Bahadoor Alli ...	7	0	Non-official.
14	Raj Khan ...	7	0	Ditto.
15	Bhekari Bhuggut ...	7	0	Ditto.
16	Moonshi Bishen Prosad ...	7	6	Ditto.
17	Jekait Chooramon Singh ...	7	0	Ditto.
18	Dharm Nath Missir ...	7	7	Ditto.
19	Thakur Dhurj Narain Singh ...	7	1	Ditto.
20	Gosain Goor Charn Gir ...	7	1	Ditto.
21	Hur Charn Singh ...	7	0	Ditto.
22	Kazi Ilafat Hossen ...	7	1	Ditto.
23	Baboo Kali Das Gosain ...	7	1	Ditto.
24	" Mohan Singh ...	7	1	Ditto.
25	" Nam Narain Singh ...	7	0	Ditto.
26	" Roghobir Sohoy ...	7	0	Ditto.
27	Bukshi Ram Das ...	7	1	Ditto.
28	" Ram Lal ...	7	3	Ditto.
29	Raja Shib Lal Singh ...	7	0	Ditto.
30	Baboo Sitaram ...	7	0	Ditto.
31	Shaik Amir Ali ...	7	0	Ditto.
32	Chowdri Goordial Das ...	7	6	Ditto.

3. As there was no separate Road Cess Deputy Collector in the district, the Senior Assistant Commissioner was in charge of the road cess office throughout the year; his name is not therefore separately entered in the above table.

4. Another member, Mr. G. T. Peppe, late manager of the Dhanwar estate, having left the district, his name is removed from the list of members.

5. There were seven meetings during the year; of these five were presided by the Chairman and two by the Vice-Chairman, to which the Chairman could not attend in consequence of his absence from head-quarters during his last cold-weather tour.

6. Further particulars regarding the meetings of the committee during the year under report are abstracted in the following statement:—

District.	NUMBER OF MEMBERS FORMING COMMITTEE.		Number required to form quorum.	Number of meetings held.	Meetings at which there was no quorum.	Average attendance at meetings.	Number of members who did not attend any meeting.	NUMBER OF MEMBERS WHO ATTENDED						Percentage of average attendance to whole Committee.	REMARKS
	Official.	Non-official.						One meeting.		Two meetings.		Three meetings.			
								Official.	Non-official.	Official.	Non-official.	Official.	Non-official.		
Hazareebagh	8	24	11	7	4	About 9	14	...	7	2	1	Above 1, but less than 1.	

7. Of the seven meetings held during the year three were only attended by quorum. Of the rest (four) two were adjourned meetings, and therefore no quorum was required; consequently there were only two meetings in which no business was transacted.

8. From the statement given above it will be seen that the attendance of members during the year was more unsatisfactory even than it had been in the previous years. Some 13 of the non-official members did not attend, and never do attend the meeting at all, and seven attended only one meeting. From this it is evident that the majority of the non-official members take very little interest in the discharge of the duties imposed by the Act. I consequently consider that the list of members should be revised. I would exclude those members who have never attended any of the meetings, and by adding the names of some others residing at and near the station who would be likely to attend, reduce the number of members from 33 to 24.

9. More than ten days' notice was given of every meeting held during the year, and the business to be transacted was duly notified.

10. The proceedings of every meeting have been recorded in the minute-book kept under section 61 of the Act.

11. The committee has no separate office building of its own. The Deputy Commissioner has provided accommodation in one of the buildings attached to his office. Formerly no rent was charged for such accommodation, but Government having ruled in circular No. 31, dated 3rd June 1876, that all road cess offices which are accommodated in Government buildings should be charged rent in proportion to the space occupied in such buildings, the Executive Engineer has charged the Committee Rs. 24 per mensem, a most exorbitant rent, for the two rooms of the old circuit-house which the road cess offices now use, and claims back rent from the date of occupancy of the building, although no allusion whatever by the Government to a retrospective claim to rent was made in the circular quoted above.

12. The principal business transacted by the committee during the year are these:—

- (1) Annual accounts of 1874-75 were passed after examination by the Vice-Chairman and three members of the committee appointed for that purpose.
- (2) Preparation of the budget estimate for the year 1875-76.
- (3) Determination of rates of assessment for the year 1876-77.
- (4) Revision of budget estimates for 1875-76, which was found necessary in consequence of the Government having withdrawn a moiety of its grant allotted to this district.
- (5) Appointment of a sub-committee to examine the accounts of the cess year 1875-76.

13. No branch committee was appointed in this district during the year.

	Rs.	A.	P.
Cess on lands	22,040	6	7
" mines	707	5	3
" houses	1,608	9	0
Penalty for default of payment of house cess	134	6	0
Total	24,490	10	10

14. The collections under Act X (B.C.) of 1871 during the year amounted to Rs. 24,490-10-10, as detailed in the margin.

15. The amount shown against "other cesses" in the annual accounts, viz. Rs. 3,392-2-2, was received from the Collector of the district as assignment from the Government Estate Improvement Fund. This was an additional income to the committee during the year under review.

16. When the budget estimates for the year were prepared, Government sanctioned a grant of Rs. 10,000, but a moiety of the grant was subsequently withdrawn. The actual amount received was therefore Rs. 5,000 only. Besides this there was a special grant made to this district for adjustment of rice accounts. There was a sum of Rs. 29,686 due to Government on account of value of rice supplied during the time of famine, and in order to clear off this debt Government granted a sum of Rs. 29,586-6-6. This amount, though treated in the accounts as grant-in-aid, was not received in cash, as it was transferred to the credit of Government.

17. The total receipts, including the sum of Rs. 29,586-6-6 granted by Government for adjustment of rice accounts during the year, was Rs. 62,570-3-3, as per details given in the annual accounts.

18. The total expenditure during the year amounted to Rs. 28,688-12-6.

19. The charges for establishment for collection of revenue amounted to Rs. 1,010, and that for committee's office establishment Rs. 1,182-8, against Rs. 954 and Rs. 1,100 in the budget respectively. The offices having been closed on account of the Doorga Poojah holidays from the 23rd September last, the pay of the establishment for that month was paid in September instead of in the following month as usual; hence the expenditure under the head of establishment exceeded the budget grant.

20. The charges for contingencies during the year was Rs. 495-1-2 against Rs. 500 in the budget.

21. Rs. 115-13-8 was refunded to the Rajah of Serampore during the year under review on account of road cess recovered from him during the previous two years for lands held in his estate by the East Indian Railway Company, who, under orders of the Supreme Government, are exempt from payment of road cess.

22. The total outlay on works amounted to Rs. 19,108-0-8, viz. Rs. 12,912-13-4 on original works and Rs. 6,195-3-4 on repairs. As no regular estimates of any of the original works in progress was prepared by the former Assistant Engineer, the present District Engineer was engaged for the greater part of the year in surveying, levelling, and preparing these estimates, and the necessary plans, sections, &c.; consequently the works proposed to be done during the year were commenced late in the season: consequently they could not be completed before the close of the year.

23. The total charges for establishment employed on work was Rs. 5,292-1-6.

24. There was a sum of Rs. 1,485-3-6 expended under the head of tools and plant during the year. A full detail of this has been given in the annual account, and therefore need not be here repeated.

ORIGINAL WORKS.

25. *Hazareebagh and Chuttra road.*—Although the work on this road was commenced and partly completed by the former Assistant Engineer, there were no regular estimates prepared and submitted by him; and as the gradients in some places were very steep, it was with a view to improve these gradients, so as to make the road easier for traffic, that the first 22 miles of the road were surveyed and levelled during the year by Mr. Gantzer, the present District Engineer, and estimates with necessary plans, drawings, &c., were prepared and submitted to the Commissioner; and in July last, on receipt of his sanction, the work on this portion of the road was commenced. Mr. Gantzer reports that about 9 lakhs of earthwork and cutting were executed before the close of the year, including dressing and turfing; besides, a part of the first mile and the whole of the second mile of the road has been metalled. The amount actually paid on account of this road during the year was Rs. 3,386-6-10. The work done during the year could not be fully paid for in consequence of the offices being closed during the latter end of September on account of the Doorga Poojah holidays.

26. *Paharpore and Boggoohur road.*—Estimates for 18 pucca masonry culverts varying from 2 to 4 feet span were sanctioned by the committee during the year under report, but of this eleven along the first 8 miles were only completed; besides, the first 15 miles of the road were surveyed and levelled. The amount paid on account of the above works during the year was Rs. 1,106-2-8.

27. *Giridi and Khurukdiha.*—Some 6 out of the 25 culverts built on this road last year by the former Assistant Engineer were ordered to be pulled down and re-built at the cost of the contractor, as they were constructed of bad materials and were found unsafe. As the designs of these culverts were altered and improved, the additional work done by the contractor is to be paid for by the committee. The sum of Rs. 35-2 charged against this road in the annual account was on account of petty repairs done to culverts and earthwork on the portion of the road from Giridi to Pachumba.

28. *Pachumba and Buddiha.*—When the road was first constructed very little was done to improve the river ghâts, and it was with a view to improve them, and to reduce the gradients along the other portions of the road, that an estimate for earthwork amounting to Rs. 490 was sanctioned by the committee. Besides, three culverts of 2 feet span, each at a cost of Rs. 452-11-5, have been built on this road. The earthwork and cuttings have nearly been finished, but nothing has been paid for as yet.

29. *Burhee and Gawan.*—There was no work done on this road during the year for want of the necessary funds. The sum of Rs. 10 charged against this road in the accounts was on account of pay of chowkidars, &c., who had charge of tools at Kodurmah.

30. *Churwa bridge on the old Benares road.*—The work on this bridge was commenced in 1873-74 by the Department Public Works along with the station roads, but was stopped by the Executive Engineer under orders of Government and made over to the committee unfinished. In 1874-75 the Government however, on a representation having been made by the Chairman, granted a sum of Rs. 1,400 for the completion of the bridge. The work was commenced in that year, but was stopped owing to the setting in of the rains, which carried away the centring. The bridge has since been completed at a cost of Rs. 1,205 and opened to traffic.

31. *Gonda bridge on the 1st mile of the Hazareebagh and Chuttra road.*—The sum of Rs. 4,806-8-9 charged against this bridge was paid to the Public Works Department under

orders of Government for expenditure incurred by the Executive Engineer prior to the transfer of the bridge to this department. This bridge was also commenced along with station roads by the Executive Engineer by orders of Government and made over to the committee unfinished.

32. *Village roads*.—The road from Hazareebagh to Khapriwan, length 2 miles and 5 chains, was thoroughly improved with three new wooden culverts during the year, the amount paid being Rs. 321-10.

33. Another village road from Bonadag to Koosombha, length 11,000 feet, has been constructed during the year at a cost of Rs. 494-3-8.

34. *Inspection bungalows*.—Four 3rd class inspection bungalows have been built, viz. at Lepo, Peterbar, Pachumba, and Mirzagunge, during the year under review, as these were much needed. Of the four bungalows three have been paid for. There was a sum of Rs. 200 due at the close of the year for the Mirzagunge bungalow.

35. The Ramghur bungalow, against which Rs. 500 has been charged in the accounts, was constructed during the previous year by the District Superintendent, by order of the Magistrate, out of the balance of the old staging bungalow fund, but the amount was subsequently recovered by the Accountant-General from the road cess money.

REPAIRS.

36. *Chuttra and Chowparon road*.—This is a metalled road. A sum of Rs. 1,192-6-7 was expended during the year in keeping the road in proper repairs. More than twelve thousand cubic feet of metal has been collected for repairs and about sixty thousand cubic feet of metal consolidated, besides earthening sides and dressing.

37. *Baloomut and Sherghatty*.—Fourteen miles of this road have been thoroughly repaired with earth taken from side drains. The side drains and several steep gradients on the Bhoraghat have also been improved. Several hill torrents that used to wash away the road every year have been diverted. The total outlay during the year amounted to Rs. 2,385-9-9.

38. *Station roads*.—A sum of Rs. 833-7-3 was expended during the year in the repairs of the station roads. Thirty thousand cubic feet of gravel were collected, spread, and consolidated on different roads and thirty-three culverts repaired.

39. *Ramghur and Gola*.—A sum of Rs. 485-15-5 were expended in repairing this road. About one lakh and forty-three thousand cubic feet of earthwork were executed in the surface repairs; besides this twelve culverts have been repaired.

40. *Gola and Govindpore*.—The expenditure incurred in repairing this road during the year amounted to Rs. 1,198-11. The culverts between Gola and Peterbar, nineteen in number, which were in a dilapidated state, have been repaired, and earthwork for about a lakh and 38 thousand cubic feet executed in surface repairs.

41. *Inspection bungalows*.—The sum of Rs. 99-0-6 charged in the accounts against the head of buildings was paid in repairing the bungalow at Chowparan. The Pitiz bungalow was also repaired, but no payments made within the year.

42. The following are the works proposed to be taken in hand during the ensuing year. The sums allotted by the committee are noted against them:—

Original Works.

	Rs.
Giridi and Khurukdiha road	2,000
Paharpore and Buggodur	4,000
Hazareebagh and Chuttra	8,000
Chuttra and Daltongunge	1,500
Burhee and Gawan	5,478

Repairs.

Chuttra and Chowparon	2,500
Station roads	1,000
Baloomut and Sherghatty	3,500
Pachumba and Buddiha	200
Ramghur to Gola and Gola to Dimra	1,000
Gola and Govindpore	2,000
Seven inspection bungalows	700
Village roads	2,000

43. All the works in the district were under charge of Mr. A. H. Gantzer, District Engineer. There was no work entrusted to the Department Public Works during the year under review.

44. None of the works executed during the year has yet been inspected by me.

45. The accompanying statement shows in detail the quantity of work actually done and paid for, and allotments made by the committee in its Budget estimate for expenditure during the year.

W E. WILSON, Vice-Chairman.

No. 34, dated Ranchi, the 21st December 1876.

From—CAPTAIN C. H. GARBETT, Chairman, District Road Committee, Loharduggah,
To—The Commissioner of Chota Nagpore.

WITH reference to the Government orders noted in the margin, I have the honor to submit the accompanying accounts showing the receipts and expenditure of the District Road Fund for the year ending 30th September 1876.

2. The valuations under the Road Cess Act not having been completed, no collections were made during the year under report. The grant from the Provincial Reserve Fund, supplemented by small receipts from other sources, the details of which are given in the accounts, was therefore the sole income for the year.

3. It is to be noticed that the amount originally allotted to this district under Government notification No. 364, dated 20th July 1875, was Rs. 25,000, half of which was subsequently withdrawn in the middle of the year under Government orders No. 1725, date 8th April 1876, necessitating the revision of the budget estimates.

	Rs.	A.	P.
Balance of last year	3,876	7	6
Grant-in-aid	12,600	0	0
Amount specially sanctioned to adjust the claims of the Civil Department for grants expended in relief works in 1873-74	2,921	5	8
Other receipts...	Rs. 878	A. 2	P. 0
Fines under District Road Cess Act ..	440	9	10
Other cesses ..	80½	0	0
Ferry tolls ..			
	2,222	11	10
Total	21,520	9	0

4. The table in the margin will shew the aggregate receipts of the year, amounting to Rs. 21,520-9-0, of which a sum of Rs. 10,704-3-0 was swallowed up by the establishment and other charges as detailed below :—

	Rs.	A.	P.
Road cess office establishment under the head of collection of revenue and committee's control	7,649	9	6
General working establishment	2,985	12	9
Tools and plant	68	10	0
Total	10,704	0	3

leaving a balance of Rs. 10,816-8-9 available for works. From this the balance in hand at the close of the year, Rs. 1,040-10-3, is to be deducted; the amount to be accounted for being Rs. 9,775-14-6, which was expended in the two main divisions of the district, as shown in the following table :—

	Original works.			Repairs.			Total.		
	Rs.	A.	P.	Rs.	A.	P.	Rs.	A.	P.
Chota Nagpore Proper or Sudder sub-division	1,684	4	9	3,664	9	9	5,348	14	6
Palamow sub-division			4,427	0	0	4,427	0	0
Total	1,684	4	9	8,091	9	9	9,775	14	6

5. The annexed statements contain a brief account of the general condition of the several roads in the district, and the manner in which the money has been laid out.

6. The fund at the disposal of the committee during the current year is also very limited; no important works can therefore be undertaken till next year, when collections will be made under the Road Cess Act, the valuations being about to be completed. All that is proposed to be done this year is to complete the Moorgoo bridge referred to in paragraph 4 of the statement, and to keep the important lines of road in a passable order.

Statement showing the work done on the several roads in the District of Lohardugga during the year ending 30th September 1876.

CHOTA NAGPORE PROPER OR SUDDER SUB-DIVISION.

Repairs.
Earthwork ... 112,330 c. ft.
Grouting ... 300 "
One wooden bridge renewed.
One hill pass and river ghats repaired.

Repairs.
Earthwork ... 810,830 c. ft.
Turfing ... 378,800 s. ft.
Twenty-one wooden bridges repaired and two renewed.
Petty repairs to gravelling.

Original works.
Pucca brickwork ... 8,959 c. ft.
Centring for two bridges, one of 20 feet and the other 14 feet span; excavation, foundation, &c.

Lohardugga and Chuttra road, 42 miles.—There is a very heavy traffic over this line for eight months of the year.

One hill pass about 2 miles in length and 5 miles of road have been repaired at a cost of Rs. 315-9-9.

Ranchi and Lohardugga road, 46 miles.—A diversion line about a mile in length, cutting off an angle of the road near Hingla village, has been completed, and also 18 miles of road and 23 wooden bridges repaired at a cost of Rs. 1,350-7-9.

Of the two bridges that were in course of construction on this line, one (Bramba bridge) of 14 feet span has been completed with the exception of parapets and plastering, and the other (Moorgoo bridge) of 20 feet span has been built 5 feet above the foundation. Cost Rs. 1,684-4-9.

Kuru and Lateyhar road, 28 miles.—This is an important line leading to the headquarters of the Palamow sub-division. Some 10 miles of the road passes over a very steep and difficult ghât, and consequently the injury done annually by the rains is considerable. One hill pass about a mile and a half in length and 15 miles of road, as well as 12 wooden bridges and the Chaudwa bungalow on the road, have been repaired at a cost of Rs. 924-5-9.

Repairs.
Earthwork ... 220,200 c. ft.
Six wooden bridges repaired and six renewed.
Chaudwa bungalow and one hill pass repaired.

Repairs.
Earthwork ... 13,280 c. ft.
½ mile regravelling.

Ranchee and Bundgaon road, 38 miles.—Petty repairs have been done to three-quarters of a mile, including earthwork and gravelling, for Rs. 89-3-9.

Repairs.
Earthwork ... 155,965 c. ft.
Turfig ... 44,000 s. ft.
Three wooden bridges repaired.

Ranchi and Palkote road, 53 miles.—Two miles of bank and three wooden bridges have been repaired. Cost Rs. 453-2-0.

Repairs.
Earthwork ... 2,100 c. ft.

Ranchi and Pulmah road, 16 miles.—Petty repairs to bank at a cost of Rs. 8-7-6.

Ranchi and Pethourea road, 10 miles.—This is a portion of the old road to Hazareebagh which was abandoned on account of difficult hill passes.

Repairs.
Earthwork ... 31,620 c. ft.
Turfig ... 92,200 s. ft.
Gravelling ... 7,400 s. ft.

Half a mile of gravelled road and 1½ miles bank have been repaired at a cost of Rs. 259-3-6.

Ranchi and Golah road, 10 miles.—This road branches off from Ormanjhi on the Ranchi and Hazareebagh road (provincial road) about 13 miles from Ranchi. Repairs to 3 miles of road and petty repairs to gravelling have been effected at a cost of Rs. 115-3-3.

Repairs.
Earthwork ... 20,000 c. ft.
Petty repairs to gravelling.

PETTY WORKS.

A sum of Rs. 135-10-6 was laid out in petty repairs.

Chattra road repaired at a cost of Rs. 96-9-0.

Argara road ditto ditto Rs. 39-1-6.

VILLAGE ROADS.

A wooden bridge has been constructed over a nulla between the villages of Patratu and Badea at a cost of Rs. 13-4-0. It is on the road leading to Kuchu market.

PALAMOW SUB-DIVISION.

Daltongunge station roads.—The small sum allowed for the station roads this year did not admit of much work being done. The ground on the border of the tank was raised a foot over a length of about 700 feet by 150 feet, levelled, and planted with trees. Some of the town roads that required it were superficially repaired with metal, and the drains on each side kept clear of drainage deposits. Four hundred young seedlings were transplanted from the nursery to the roadside and properly protected and cared for.

Repairs
110,200 c. ft. of earthwork.
350 s. ft. of road repaired with metal
27,315 s. ft. drains cleared
Protecting and planting trees.

The total cost for repairs was Rs. 312-9-9.

Daltongunge and Lateyhar road, 42 miles.—The sum spent upon this road was devoted chiefly to the repair of that portion of the road lying between Daltongunge and Ranchi, a distance of 19 miles. This was necessary, as it was over this part of the road the cart traffic was passing. The remaining 11 miles of road were only superficially repaired here and there where most needed, and the roadway cleared of jungle. Seventeen temporary wooden bridges were repaired to admit of the free passage of the timber carts. About 20 miles of this road is in fair order, that is heavy timber carts can pass over it without much inconvenience. The remainder of the road is not fit for anything but pack-bullocks and foot passengers, except here and there where level flats occur which do not extend for any distance and are separated by broken country.

The total cost for repairs was Rs. 1,062.

Daltongunge and Behar road, 36 miles.—The small sum allotted to this road was expended in filling up breaches in the road made during the previous rains and in rendering such places passable. The roadway was also cleared of jungle. The whole of this road is passable for cart traffic, but with inconvenience for the last 10 or 12 miles. From the first 12 miles out from Daltongunge the roadway is in very fair order, but from there for the next 10 miles the soil is not good, and the roadway suffers considerably during the rainy season.

Repairs
128,876 c. ft. earthwork done.
10 miles jungle cleared.

The total cost for repairs was Rs. 297.

Daltongunge and Gurwah road, 20 miles.—The work on this road consisted in raising the roadway one foot near the village of Tildag, where it traverses some lowlying rice country, and in superficially repairing the roadway and clearing the jungle. With the exception of places here and there which require bridging, this road is in excellent order throughout its length.

Repairs.
147,000 c. ft. earthwork done
6 miles jungle cleared.

The cost for repairs was Rs. 300.

Gurwah and Untari road, 28 miles.—The repairs to this road consisted of filling up breaches here and there and in superficially repairing the roadway for the first 5 miles out from the town of Gurwah. There is no cart traffic on this road, but it is in fair order for the pack-bullock trade.

Repairs.
20,000 c. ft. earthwork done.
5 miles road superficially repaired.
20 miles of jungle cleared.

The total cost for repairs was Rs. 102-10-6.

Gurwah and Majeewan road, 14 miles.—This road is in fair order throughout its length, and for a portion of the year there was some cart traffic on it. It carries more trade perhaps than any other road in the sub-district. The earthwork done consisted in raising and widening the embankment that runs nearly a mile through the village of Dulliale.

Repairs.
107,130 c. ft. earthwork done.
2 miles of road superficially repaired.

The total cost for repairs was Rs. 200.

Majeewan and Jupla road, 26 miles.—This road throughout its length passes over a very heavy clay soil, which renders it almost impassable during the rainy season. A good deal has been done during the year to improve the roadway where most needed. The roadway passes along an embankment near the village of Mahomed-gunge, which was raised and widened to facilitate the passage of carts.

Repairs.
145,570 c. ft. earthwork done.
72,000 c. ft. earthwork dressed.
4½ miles jungle cleared.
3 miles road superficially repaired.

Daltongunge and Moharajunge road, 42 miles.—The work in this road was chiefly confined to that portion of the road lying between the Rajhera coal mines and the Sultani ghât 5 miles north of Chatterpore, a distance of 25 miles. The condition of the road has been so far improved that the carriage of coal and timber has now been transferred to it from the old coal road along the Koel river, the distance saved thereby being 15 miles. The pack-bullock trade along this road has very largely increased owing to the improved roadway along the ghâts, and the greater safety ensured owing to the clearing of jungle. The total cost for repairs was Rs. 814.

Repairs.
197,000 c. ft. earthwork done.
29 miles road superficially repaired.
13 temporary bridges repaired.
8 miles jungle cleared.

Leshgunge and Pankey road, 38 miles.—This road was raised one foot about 2 miles between Dhungaon and Harlong, and two miles were superficially repaired. This road, which is a new one, is yet incomplete, and much is to be done before it can be rendered fit for anything but cart traffic. The line is a very fair one from Leshgunge to 2 miles beyond Pankey, after that to the boundary of pergunnah Tori it traverses some very difficult country and steep passes requiring much cutting.

Repairs.
16,000 c. ft. earthwork done.
2 miles road superficially repaired.
2 miles jungle cleared.

The cost for repairs was Rs. 420.

VILLAGE ROADS.

Shahpore to Chainpore.—A good road has been made from the banks of the Koel river at Shahpore to Chainpore. This road now connects Chainpore, a bazar and market town of importance, with Daltongunge and the several roads branching from it. This road was commenced last year, but owing to its not being sufficiently raised, it suffered considerably during the rains by the breaking of several reservoirs. The roadway has now been raised and dressed off.

The total cost for repairs was Rs. 191-15-9.

Shahpore to Gurwah; 17,100 cubic feet earthwork.

Repaired at a cost of Rs. 75.

Chainki to Pakraha; 35,300 cubic feet earthwork.

Repaired at a cost of Rs. 197.

Pakraha to Kumand; 16,470 cubic feet earthwork.

Repaired at a cost of Rs. 95.

Amanut river to Tirhuni; 7,000 cubic feet earthwork.

Repaired at a cost of Rs. 60.

C. H. GARBETT, Captain,
Chairman.

LOHARDUGGA, the 21st December 1876.

Report on the condition of the Lohardugga District Roads,—No. 43, dated Ranchi, the 18th December 1876.

THE following remarks apply to all the roads in the district:—

1st.—There are no raised roads in the district; all are on ground level, and as the country throughout is undulating and hilly, great injury is done to them by the rains.

2nd.—All the district roads are bridged roads, but the bridges are chiefly rough wooden bridges which require annual repairs. The extent of damage both to roads and bridges depend on the rainfall (see section J). The rainfall was unusually great last season, and the damage done was proportionately large.

3rd.—From my report No. 4 it will be seen that all the roads could not be repaired last season, as the amount sanctioned for the works was small and the length of roads requiring repairs great.

4th.—The establishment for district works consists of one District Engineer, one orderly peon, and one chowkidar in charge of bungalow.

2. I have not had time to inspect all the district roads, the original works, Bramba and Moorgoo bridges. The most important work of the season has engaged my time, but as soon as all the arrangements for these works are made I will again start on inspection duty.

3. The following will give approximately a general idea of the condition of the roads :—

Lohardugga and Chuttra road, length 42 miles.—From Lohardugga to Baloomut in passable order. The wooden bridges require repairs, and the slopes to rivers and valleys beyond Baloomut to district boundary, 10 miles, in bad order.

Ranchi and Lohardugga road, length 48 miles.—The whole length in fair passable order. The wooden bridges require petty repairs and the slopes to valley levelling.

Kooroo and Lateyhar road, length 28 miles.—From Kooroo to Chundwa in fair passable order. The slopes of the Amjhoria hill pass requires levelling and the wooden bridges repairs. From Chundwa to Lateyhar the wooden bridges over deep streams are in bad order, also the river ghâts. These are now under repairs.

Ranchi and Bundgaon road, length 38 miles.—From Ranchi to Hattia in good order; from Hattia to Bundgaon petty repairs required in valleys both to road and bridges.

Ranchi and Palkot road, length 53 miles.—From Hattia general repairs required to road and bridges.

Ranchi and Gola road, length 10 miles.—From Ormanghee to Bhoosar (8 miles) in fair order; from Bhoosar to boundary extensive repairs required.

Ranchi and Terai road, length 52 miles.—Very extensive repairs required both to wooden bridges and road.

Ranchi and Culma road, length 15 miles.—Ranchi to Nagri in passable order; from Nagri to Palma road not yet laid out.

Ranchi and Cittoria road, length 10 miles.—Four miles to Pundra river in fair order; the rest requires repairs.

J. PICKARD, *District Engineer.*

FORWARDED in original. As the undersigned has not had an opportunity of personally going over the roads, he is unable to add to the remarks of the District Engineer.

The 21st December 1876.

C. H. GARRETT, Capt, Chairman

No. 887, dated Chyebassa, the 15th November 1877.

From—W. H. HAYES, Esq., Deputy Commissioner of Singhbhum,
To—The Commissioner of Chota Nagpore.

Repairs.—I have the honor to report on works of local improvement in this district for the cess year ending 30th September 1876.

2 During the year under review the surface repairs of all the roads and their bridges noted below were entirely completed :—

(1)	Midnapore road	68 miles.
(2)	Bahoragorah „	21 „
(3)	Burrakur „	29 „
(4)	Khursowah „	16 „
(5)	Bandgaon „	41 „
(6)	Garjon „	71 „
(7)	Jyutghur „	35 „
(8)	Bamunghatty „	20 „
(9)	Seraikyla to Chuckerdhurpore road	25 „
	Village roads	111½ „

3. *Original Works*—Twelve arched masonry culverts on the Midnapore road were constructed and the Kapurgadec Ghât was improved.

4. Eighteen arched masonry culverts were constructed on the Burrakur road, and the Kharijoona bridge at Dugui, which was commenced in 1874-75, was completed.

5. During the cess year 1876-77 the Committee have determined to undertake the following works :—

- (1) To repair roads Nos. 1 to 9 noted and their bridges.
- (2) *Works proposed to be undertaken during 1876-77.*—To construct seventeen arched masonry culverts to replace temporary wooden platform culverts on the Midnapore road, and to further improve the Kapurgadec Ghât on this road.
- (3) To construct five arched masonry culverts on the portion of Bandgaon road lying in the Kolhan.

SINGBHOOM DISTRICT.

No. 146, dated Camp Raipore, the 1st December 1876.

From—LIEUT.-COLONEL B. W. MORTON, Deputy Commissioner of Manbhoon,
To—The Commissioner of Chota Nagpore.

WITH reference to the instructions contained in your letter No. 3095, dated the 18th instant, I have the honor to submit the following report upon the working of the Road Cess Act up to the date of the close of the last cess year (30th September 1876) in the district of Manbhoon.

2. Owing to the famine, from which the greater portion of this district suffered, the Road Cess Act was at first extended to only seven pergunnahs of Manbhoon. The income derived from the Act was at first very small, but the District Road Committee had large stocks of rice, which remained over after the close of the famine operations, and which were made over to them, by means of which they were able to make progress with the numerous roads taken in hand as relief works during the famine.

Had this rice been collected in one place, the District Committee would have been able to concentrate their work, and to have completed one or more roads throughout their length. As it was, the rice was scattered throughout the district, and as a result, roads aggregating upwards of 500 miles were more or less worked whilst not one single road could be completed.

3. The Act was brought into full operation during the year ending the 30th September 1876. The estimate for the year shewed an expected income, exclusive of arrears and balance in hand, of Rs. 33,700-1-6, viz.—

			Rs.	A.	P.
From land cess	29,464	3	9
House cess*	3,209	0	0
Miscellaneous	1,026	13	9
Total			33,700	1	6

Under the above heads during the year the following income was actually realized, viz.—

			Rs.	A.	P.
From land cess...	27,566	15	2
House cess	4,680	0	0
Miscellaneous	1,165	3	0
Total			33,412	2	2

4. The land cess would have been collected in full had it not been that the last instalment fell due at the very end of the year when the offices were closed. From my experience of the working of the Act, I believe that the land tax will be easily realized; and as the landed proprietors come to see the benefit to the district from good roads, it will be willingly paid.

5. I cannot say as much for the house-tax. In the first place the assessments appear to have been very badly made. The nature of the tax appears not to have been understood: persons had been assessed who were not liable to the tax; others who were liable had escaped assessment. During the year I struck off Rs. 887-8-0 from and added Rs. 677-8-0 to the house assessments. In the second place, I have found the house tax difficult of realization. This is not to be wondered at when it is remembered that some Rs. 6,000 have to be collected in dribblets of from Re. 1 to Rs. 3 from people scattered over a district the area of which is in round numbers 5,000 square miles.

I cannot adopt the plan of collecting through heads of villages, for the reason that whilst heads of villages would probably collect quickly enough, they would not be so prompt to pay. My experience as manager of petty encumbered estates teaches me this.

Under your instructions I have been utilizing my two darogahs of excise, under whom I have placed headahs paid by the Road Committee. I have, on the whole, met with a fair amount of success, though not with the success I understand the Deputy Commissioner of Hazareebagh has met with; who, however, has only (in round numbers) one-fourth of the amount of tax in this district to collect, with double the number of collecting darogahs under my orders to do the work.

6. As regards the house-tax itself, my belief is that it causes some petty irritation, and that it opens a number of little doors for rascality on the part of the collecting officers, which it is difficult to ascertain, and which, when ascertained, can only be punished at petty but worrying inconvenience to the witnesses, who have to come in miles to court to give their evidence.

It may be said that, as a rule, a man who has been cheated or robbed of a few pice would prefer to put up with his loss to taking the other to come to court and get the offender punished.

* The house cess was under-estimated, as it was known that wrong assessment had been made.

7. I have the honor to submit, in the form which accompanied your letter under acknowledgment, a statement shewing the number of the committee and the manner in which the members worked, as evinced by the number of members present at the several meetings. My belief is that the district road and the economic committees are those which command the heartiest support on the part of non-official members.

8. The work done by the Committee may be summarised as follows:—

- (a) Annual accounts for 1874-75 scrutinized and passed.
- (b) Appointment of a standing sub-committee by the members, of which the accounts are audited quarterly.
- (c) Determination of the rates of assessment for the year.
- (d) Scrutiny of and discussion over the estimates for 1876-77.
- (e) Selection of a new vice-chairman.
- (f) Selection of a new road overseer as District Engineer under the Committee.

9. The Committee in all expended in cash, exclusive of a repayment of a loan of Rs. 7,000, Rs. 26,545-11-4, as follows:—

	Rs.	A.	P.	Rs.	A.	P.
Establishment	6,187	6	2
Viz. road cess office ...	1,891	3	1			
District road establishment ...	4,796	3	1			
Total ...	6,187	6	2			
Original works	15,849	15	0
Repairs	3,488	13	7
Contingencies and other charges not included in the above heads, as per margin				1,019	8	7
Contingencies ...	432	7	4			
Interest on loan of Rs. 7,000	275	10	0			
Refunds ...	311	7	3			
Total ...	1,010	8	7	26,545	11	4

Out of the sum of Rs. 19,338-12-7 shewn under the heads of Original works and Repairs the following payments were made:—

	Rs.	A.	P.
Paid for works actually executed in previous year (earth-work and masonry) ...	4,455	4	1
Paid for materials received from the famine contractor under contract made with him during famine ...	5,661	0	9
Paid on account of sum due by Committee of relief works for 1873-74 ...	1,544	5	3
Original works done and paid for during year under review:—			
No. 10, Purulia and Gobindpur road ...	1,625	3	8
„ 2, ditto and Bankura road ...	355	2	0
Minor works, viz. turfing done and paid for during year under review ...	2,208	15	3
Repairs done and paid for during year under review:—			
No. 2, Purulia and Bankura road ...	1,815	2	6
„ 4, Roghunathpur and Raniganj road ...	250	0	0
„ 5, Purulia and Manbazar road ...	7	0	0
Purulia station roads (Note.—No separate estimate was made for the repairs of these roads as they are in reality portions of the great roads of the district) ...	1,416	11	1
Total ...	19,338	12	7

10. Besides what has been shewn, work was done on the following roads during the year under review, for which bills have been or will be presented during the current year to the extent shewn.

	Rs.	A.	P.
No. 2, Purulia and Bankura road (metalling) ...	309	0	0
„ 4, Roghunathpore and Raniganj (turfing) ...	38	11	0
„ 10, Barrakur and Gobindpore and Raniganj (earth-work) ...	411	0	0
Total ...	758	11	0

11. The attention of the Road Committee will be chiefly directed during the current season to the following important works :—

Completion, with exception of one heavy bridge, of road from Purulia to Bankura boundary. (No. 2) This road will be well passable throughout the year for carts. I may here mention that arrangements are in hand for an efficient patrol of the road by rural police. The Committee has also the promise of a good reserve from which to take material for repairs. This reserve will be where possible brought under cultivation at a trifling expense to the Committee, as it will be leased out on the waste land rule peculiar to this part of India—so many years rent-free—then rent payable at 6 annas for the ryot and 10 annas for the zemindar. I consider that this communication, when thoroughly opened will be a great blessing to the district. The Committee will have to spend some money in putting down metal throughout the length of the road, but the cost of this will probably be spread over some years to come.

Redefining fairly passable road to Manikoi Ghât towards Chaibassa (No. 1). The estimate for the completion of this road with bridges (a very heavy one) is hanging fire somewhere in the direction of the Executive Engineer or Superintending Engineer's office, but I do not think it matters much. From the experience I have had I am opposed to spending money at present on heavy bridges. Carts in these parts, I am inclined to think, go better up hill and down dale than over a continuous road. I think the Chief Engineer's suggestion a capital one. Instead of having splendid bridges on a few roads let us have Irish bridges (so called, i.e. metalled causeways) on all roads at a tithe of the cost of the former.

No. 10 Burrakar Road to Gobindpur. This road will be dealt with as the road just referred to. It is an important road, as it forms the direct communication between the headquarters and sub-divisional station of this district. Something will be done for the roads from Purulia to Manbazar and thence to Raipur (Nos. 5 and 20) during the current year. These are important roads, as, when completed towards Bankura and Midnapore, they will be very helpful in the event of famine.

12. In connection with famine I think it right to bring to notice a capital suggestion of my predecessor (Colonel Rowlett), himself a good amateur engineer. He observed that it was the fashion to bridge small ravines and get rid of the water. He determined to dam this water with his roads, providing the latter with culverts towards the higher lands to regulate the supply of the former, so as to prevent a breach. He has done this in places on the Manbazar road with the happiest effect. This system has probably occurred to others besides Colonel Rowlett; but I refer to it as in a rolling, jungly district like Manbhoom such a system, if carried out fully, would prove an invaluable blessing to the ryots. Every road as it was made would not only open up the country, but would considerably add to the store of water, lessening the chance of famine, and considerably increasing the cereal products of the district. Emigration from such thinly populated districts as Manbhoom would cease, and crime would be appreciably lessened, for the budmashes would find it on the whole safer and more remunerative to cultivate easily irrigated lands than to help themselves to their neighbour's goods.

13. Surface repairs have been or will be done during the current year to No. 4, Raghunathpore and Kaniganj road, and to the station roads as portions of the roads already referred to.

Lastly, the Committee have arranged during the current year to save from decay some of the famine bungalows. These will come in very useful as inspection bungalows, and will also be a comfort to any unfortunate wights who may have to travel about the district during the rains.

PURULIA,
The 30th October 1876. }

H. M. KISCH,
Vice-Chairman.

No. 70T, dated Camp Purulia, the 24th January 1877.

From—W. LK. F. ROBINSON, Esq., Commissioner of Chota Nagpore,
To—COLONEL J. E. T. NICOLS, R.E., Secretary to the Government of Bengal in the
Public Works Department.

WITH reference to the Government orders noted on the margin,* I have the honor to submit herewith the local improvement reports† and returns from the district committees in this division for the cess year 1875-76.

* No. 4952, dated 24th September 1872.
No. 50, dated 23rd July 1873.
Circular No. 8, dated 4th April 1876.
† Hazareebagh, No. 24, dated 13th November 1876.
Lohardugga, No. 34, dated 21st December 1876.
Singbhoom, No. 887, dated 16th November 1876.
Manbhoom, No. 146, dated 1st December 1876.

2. In the Hazareebagh district the road cess was levied during the year at three-fourths of the maximum rates, as in the preceding two years. The total collections of the year on account of cesses on lands, mines, and houses amounted to Rs. 24,491. There was a balance of Rs. 809 of the land cess outstanding at the close of the year, owing to the fourth instalment falling due on the 30th September, when the offices were closed in consequence of the Doorga Poojah holidays;

but it is satisfactory to note that the percentage of collections under this head was 96·6, or something in excess of the rate prescribed in the Supreme Government orders, No. 494 of 7th July 1876.

The percentage was still higher in the collection of the house-tax, being 98·1, and under the head of mines an increase was obtained in the demand by two new valuations. On the whole the realizations of the cesses were made without any difficulty or recourse to stringent measures. Only in two instances was it found necessary to issue orders for attachment of defaulter's landed properties, but eventually the cesses due from the parties were paid in and no attachment had to be made.

3. The year under review was the first year of the road cess collections throughout the whole of the Manbhoom district. In the preceding year the cess was collected from only seven pergunnahs, in consequence of the scarcity that had prevailed in the district during 1873-74. The percentage of land cess collections of the year under notice was something above 93, or a little below the rate wanted by the Government of India. This was owing to the same cause as in Hazareebagh, but the Deputy Commissioner reports

that the "land tax will be easily realized, and as the landed proprietors come to see the benefit to the district from good roads, it will be willingly paid."

4. In regard to the house-tax, Colonel Morton brought to notice that errors had been committed, in the first instance, by those who were entrusted with the assessments under this head, and that consequently he had to strike off Rs. 887-8-0 from and to add Rs. 677-8-0 to the assessment previously made. The cess appears to have been put on at first rather as a cess on property or income than a *bond fide* house cess. This is now being put right, as the alterations noted above show.

5. Colonel Morton finds the house-tax very difficult to realize, because it has to be collected in very small sums from people scattered over an area of about 5,000 square miles. He does not think it safe to entrust this collection to heads of villages, who, he says, would probably make the collection quickly enough, but would not pay in the money so promptly. There is some truth in this, and consequently I had last year directed Colonel Morton to employ his excise establishment in this duty, as it has proved a success in Hazareebagh. It will be seen that this mode has met with a fair amount of success in Manbhoom, though Colonel Morton says the result in his district has not turned out so satisfactory as in Hazareebagh.

6. In the Loharduggah district the valuations under the Road Cess Act have not been completed yet, but it is hoped that they will be brought to a close before the expiry of the current financial year; and then I think the road cess in this district will be able to be collected from the commencement of the next cess year.

7. In regard to the action of the road committees in this division, I am satisfied that as a body they have all been very useful and beneficial to their respective districts, but I beg to repeat that the work is done by the official members, and that the non-official members, and particularly those of the land-owning class, do seldom or never make their appearance in the meetings of these committees, and never take any interest in their proceedings when they attend at any time. It will be seen that Colonel Boddam speaks very unfavourably of the non-official members of his district road committee, and he has been since obliged to revise the list of his members.

8. In the Hazareebagh district the total amount at the disposal of the Committee during the year, including the Government grant and the unexpended balance of the preceding year, was Rs. 62,570, and the total expenditure was Rs. 28,689. Of this latter sum Rs. 12,913 was expended on original works and Rs. 6,195 on repairs. In explanation of the comparatively small sum laid out on works the Chairman states that "as no regular estimate of any of the original works in progress was prepared by the former Assistant Engineer, the present District Engineer was engaged for the greater part of the year in surveying, levelling, and preparing these estimates and the necessary plans, sections, &c.; consequently the works proposed to be done during the year were commenced late in the season; consequently they could not be completed before the close of the year."

9. The details of works executed during the year are given in the Committee's report.

10. During the year under review the Lohardugga District Road Committee had in their hands a total sum of Rs. 21,599. Of this only Rs. 1,684 was spent in original works and Rs. 8,092 on repairs. The remainder, minus Rs. 1,041, which was the balance in hand at the close of the year, was swallowed up by establishment and other miscellaneous charges. The charges for establishment must, as a matter of course, be heavy in a district where the valuation work under the Road Cess Act is still going on, but it is hoped to finish this work by March next and to commence collecting the cesses from the beginning of the next cess year, and then some money will be available for road-making. Full details of the works done during the year will be found in the Committee's report.

11. In the Singbhoom district the total amount to the credit of the Road Fund was Rs. 13,420, and the total expenditure amounted to Rs. 13,033, leaving a balance of Rs. 387 at the close of the year. No orders for extending the Road Cess Act to Dhulbhoom have been received yet. During this year the expenditures on original works and repairs were nearly equal.

12. During the year of report the total amount at the disposal of the Manbhoom Road Committee was Rs. 44,185, and the total expenditure amounted to Rs. 26,546; but of this latter sum Rs. 15,850 were spent on original works and only Rs. 3,489 on repairs. The details of these works have been given in the Committee's report.

13. The proposal made by the Manbhoom Deputy Commissioner, that the Road Cess Committee should take a lease of jungle lands on either side of the roads and settle cultivators on them, making advances to the cultivators to clear the jungle and bring the land into cultivation, as alluded to in paragraph 11 of the report, is one which I have negatived, as I do not consider it proper, for obvious reasons, that road cess committees should become landholders, and spend road cess collections in making advances to ryots. I have, at the same time, pointed out to the Deputy Commissioner that he has ample power to compel the zemindars to clear the sides of the roads from jungle where there is fear of thieves or wild beasts attacking passing travellers.

14. With regard to the district roads in the division generally little need he said. They are, as a rule, of the worst description owing to the nature of the ground and the way the roads are cut up in the rainy season. All is done that can be with the means at present available to keep them in order, and that is all that can be expected, until in process of time they can be bridged throughout and metalled also. This is of course a slow process, but there is, under the circumstances, no help for it.

LOCAL ACCOUNTS.

The 18th September 1877.

No. 252.—Notification.—With reference to Section 72 of Act X (B.C.) of 1871, His Honor the Lieutenant-Governor has been pleased to make the following assignments to the undermentioned districts for the cess year 1877-78, from 1st October 1877 to 30th September 1878:—

IRRIGATION.

NOTIFICATION—ESTABLISHMENT.

The 11th September 1877.

No. 293.—Notifications.—With reference to the orders marginally noted, Baboo Benode Behary Banerjee, Overseer, Third Grade, left the Buxar Division on the forenoon of the 3rd September 1877 to join the establishment under the Director of State Railways, Western System.

No 272, dated 6th September 1877

No. 294.—With reference to the orders marginally noted, Mr F. Taylor, Executive Engineer, Fourth Grade, reported his departure for Madras on the forenoon of the 6th September 1877.

No. 243, dated 13th August 1877.

No. 295.—In continuation of the orders marginally noted, the services of Mr. O. Taylor, Assistant Engineer, Second Grade, Buxar Division, are placed at the disposal of the Government of Madras for employment on famine relief works.

No. 287, dated 10th September 1877.

No. 296.—The declarations Nos. 264 and 181, dated the 28th November 1871 and 15th July 1872 respectively, on account of lands required for branches B, I, and K of Distributary No. 4, and for Distributary No. 19, in the district of Midnapore, which were published at pages 2089 and 47 of the *Calcutta Gazette* of the 29th November 1871 and 17th July 1872, are hereby cancelled, as the lands will not be taken up.

No. 297.—In continuation of this Department Notification No. 73, dated the 24th August 1869, it is hereby notified, under Section 6 of the Canals Act, V of 1864, that seven miles of the Kendrapara canal extension below Marsaghai will be open for traffic from the 1st October 1877, when the usual tollage of eight annas per 100 maunds for passing into the new Marsaghai lock leading into the extension will be levied.

The 12th September 1877.

No. 298.—With reference to the orders marginally noted, Mr. T. W. Daly, Overseer, Second Grade, left the Buxar Division on the forenoon of the 1st September 1877 to join the establishment under the Director of State Railways, Western System.

No 272, dated 6th September 1877.

The 15th September 1877.

No. 299.—With reference to the orders marginally noted, the undermentioned officers reported their departure from Bengal for relief works in the Madras Presidency on the dates opposite their names:—

No. 287, dated 10th September 1877.

Mr. J. P. Armstrong, Executive Engineer, Second Grade, forenoon of 12th September 1877.

Mr. F. B. Pemberton, Executive Engineer, Third Grade, 11th September 1877.

The 17th September 1877.

No. 300.—Baboo T. T. Naidoo, Sub-Overseer, First Grade, Buxar Division, returned from sick leave on the forenoon of the 1st September 1877.

No. 301.—*Transfer*.—Mr. J. P. Cleghorn, Assistant Engineer, Second Grade, is transferred, in the interests of the public service, from the Arrah to the Buxar Division, which he joined on the afternoon of the 30th August 1877.

No. 302.—*Notification*.—With reference to the orders marginally noted, Mr. G. W. Rayner, Overseer, Second Grade, left the Arrah Division on the forenoon of the 1st September 1877 to join the Western System of State Railways.
No. 272, dated the 8th September 1877.

The 18th September 1877.

No. 303.—*Notification*.—With reference to the orders marginally noted, Colonel G. A. Searle, M.S.C., Executive Engineer, First Grade, left Calcutta for Madras on the 18th September 1877.
No. 287, dated 10th September 1877.

No. 304.—*Appointments*.—Mr. P. Grieff, Probationary Overseer, Second Grade, recently transferred to Madras for famine relief works, is permanently appointed to the Public Works Department in that grade.

No. 305.—Mr. S. Street, Probationary Supervisor, First Grade, Arrah Division, is permanently appointed to the Public Works Department in that grade.

F. T. HAIG, Col., R.E.,
Joint-Secy. to the Govt. of Bengal,
in the P. W. Dept., Irrigation Branch.

JAIL DEPARTMENT.

No. 6923, dated 14th September 1877.—Baboo Surendro Nath Pal Chowdhoozy received charge of the Baraset Jail from Mr. Henry Lee, c.s., in the afternoon of the 21st August 1877.

H. BEVERLEY,
Offg. Inspector-General of Jails, Bengal.

HIGH COURT NOTICES.

Original Side.

Dated 18th September 1877.

MR. JOHN CAMERON MACGREGOR, Barrister-at-Law, Receiver of the High Court, has obtained twelve months' leave of absence on medical certificate, under Sections 4 and 12, Supplement C of the Civil Leave Code, with effect from the 23rd instant.

By order,
R. BELCHAMBERS, Registrar.

Rules of the High Court of Judicature at Fort William in Bengal (in its Appellate Jurisdiction), relating to the admission of Appeals to Her Majesty in Council, and to the transmission of such Appeals to England.

1. The Court will ordinarily sit to hear applications in matters connected with the Privy Council appeals once in every week, at such time as the Judge in the Privy Council shall appoint.

2. If in any urgent matter it is necessary to make an application to the Court at any other time, notice shall be given to the Clerk in charge of the Privy Council Department, who will communicate with the Judge and obtain an appointment for the purpose. No application whatever, having reference to Privy Council Appeals, will be heard except upon the regular day without such previous appointment.

3. Every application to the Court shall be by petition bearing the proper stamp.

4. Every such petition shall be neatly and legibly written on paper of foolscap size with a margin of two inches, and shall contain about twenty lines in each full page. The petition shall be divided into paragraphs numbered consecutively.

5. Every such petition shall be filed with the Clerk in charge of the Privy Council Department not later than four o'clock in the afternoon of the day but one previous to the sitting of the Court at which the application is to be made, at which time any affidavit intended to be used with the petition shall also be filed.

6. Affidavits in accordance with the rules of Court of 15th May 1871 shall be filed where necessary; but it will not be necessary to set out in the petition, or in the affidavit, any document which is a part of the record, nor will it be necessary to produce any affidavit

of any facts found in the course of the suit or other proceeding out of which the appeal arises by this Court or any of the Courts below, provided that such finding has not been reversed on appeal; but the petition shall state shortly all facts upon which it is intended to rely, and shall give the number, letter, title, or other description of all documents on the record to which it is intended to refer.

7. If the party making the application can himself speak to the facts stated in the petition no separate affidavit need be filed, but an affirmation may be attached to the petition.

8. Affidavits shall be written in the same manner as petitions, and be divided into paragraphs numbered consecutively. Petitions and affidavits not in the form herein prescribed will not be filed, but will be returned to the parties by the Clerk in charge of the Privy Council Department.

9. Applications (1) for an order to transmit orders in Council for execution to the Lower Courts, where no special directions are required, (2) to transmit securities to the mofussil Courts for investigation as to their sufficiency, and (3) for repayment of money deposited in Court, may, under ordinary circumstances, be made without notice to the opposite party. A separate list will be made of such applications, and they will be called on at the sitting of the Court, when the Court will determine whether notice must be given.

10. In all other applications notice is necessary.

11. In all cases in which it is necessary that notice to any party shall issue, such notice shall be given by delivering to the proper person a copy of the petition, together with a notice in the following form:—

Take notice that this application will be made in Court on the day of 187 , at o'clock in the forenoon, when you are required to attend and show cause against the application, if you are desirous to do so.

12. Any notice which it is necessary to serve under these rules, or under Act VI of 1874, may be served upon any vakeel who appeared for the party to whom notice is to be given in the appeal to this Court, unless the vakalatnama of such vakeel has been cancelled with the sanction of the Court. If there is no vakeel upon whom notice can be served, then, unless the Judge shall otherwise direct, the notice must be served upon the party in Calcutta through the Sheriff, or in the mofussil through the Court, on paying the usual fee. Such payment to be made by stamps affixed to the notice intended to be served. Notices to be served by the Sheriff or in the mofussil, will be signed by a Judge, if left with the Clerk in charge of the Department for that purpose.

13. If the notice is to be served in Calcutta, it shall be served 24 hours before the sitting of the Court at which the application is to be made; if it is to be served in the mofussil, then the time is to be regulated by circular order No. 10 of 1869.

14. If the proper notice shall not have been duly served, the hearing of the application (except in cases of urgency) will be postponed to the next sitting, unless the parties entitled to notice are present and willing to proceed at once. In all cases the parties opposing the application will be at liberty to apply for a postponement, in order to answer the affidavits, or for any other good and sufficient cause.

15. No affidavits in answer shall be read, without the special leave of the Court, which have not been filed with the Clerk of the Privy Council Department, by half-past ten of the day upon which the application is to be heard.

16. It will be the duty of the Clerk in charge of the Department to have ready in Court all documents contained in the records in his charge which the parties shall, at any time before half-past ten of the forenoon of the day on which they are required, have given him notice to produce. Unless by the special order of the Court, documents will not be produced from the record-room during the sitting of the Court.

17. No orders *nisi*, or rules to show cause, will hereafter issue; but under special circumstances, an *ex-parte* application may be heard before notice is issued.

18. The prayer of the petition shall state clearly the nature of the order which it is intended to ask for. If at the hearing the applicant desires to change the nature of the application or of the order sought, this will only be permitted upon such terms as to postponement, costs and otherwise as the Court may direct.

19. All applications of which notice has been given to the Clerk in charge of the Department will be set down in a list in the order in which they are notified to him. The cases in the list will be called on peremptorily in their turn; and if, by the fault of the applicant, the application cannot be proceeded with, it will be liable to be dismissed.

20. With the petition to be presented under Section 7 of Act VI of 1874, the party desirous to appeal shall file an application, accompanied by a fee of Rs 16, to the Clerk of Privy Council Appeals to prepare an estimate of the expense of translating, transcribing or printing, and forwarding to the Registrar of the Privy Council the record of the case.

21. The Clerk shall, with as little delay as possible, prepare such estimate and deliver the same to the applicant or to his vakeel.

22. The application for estimate shall state whether or not the record is to be printed in India.

23. The applicant may, at the next sitting of the Court, object to such estimate; but such objection is not to delay the making of the deposit.

24. All documents which are not originally in the English language, and which have not been translated for the use of the Court, shall be translated into English; and all translations made or used shall be revised and certified by the Sworn Examiner.

25. An index of all the documents included in the transcript shall be prepared and annexed to the record in the form now in use, and shall be followed by a list of all other papers, documents, and exhibits in the cause not included in the transcript; the draft of this index and list shall be furnished to the parties, who shall be at liberty to object thereto within three weeks from date of receipt.

26. In the index and transcript the papers shall be placed in the following order:—

Plaint.

Written statements.

Examination of parties, or their agents, &c.

Injunctions.

Orders of attachment, &c. (if any) obtained before judgment.

Issues framed (if any).

Exhibits of plaintiff.

———— of defendant

Depositions of witnesses for plaintiff.

———— for defendant.

Report of Commissioner (if any) with maps, depositions, &c, annexed.

Judgment and decree

Memorandum of appeal.

Cross-appeal, or memorandum of objections under Section 348 (if any).

Proceedings in Appellate Court (if any).

Judgment and decree of that Court.

Petition of appeal to Privy Council, affidavits, &c.

Appendix (if any).

List of Papers omitted under Clause 2 of Her Majesty's Order in Council, and under Section 11, Act VI, 1874

The following charges shall be payable in respect of the matters specified:—

	Rs.	A.	P.
Estimate of costs	16	0	0
Translation of Vernacular portion of record per 1,000 words	6	10	8
Examination of ditto	3	5	4
Copying English portion of record, for every 1,440 words, or part thereof	1	0	0
Examining ditto for every 1,440 words, &c.	0	8	0
Transcribing (one copy) per folio of 72 words ...	0	2	0
(Or at the option of appellant.)			
Printing (55 copies) per printed page	2 to 3	0	0
Examination of transcript record, for every 72 words, or part thereof	0	1	0
Ditto of proofs for every 750 words ...	1	0	0
Certifying to copies of printed record, for every 10 printed or manuscript pages, or part of 10 pages ...	1	0	0
Preparation of index, for every 16 papers or part of 16 papers	1	0	0

The above rates will be subject to alteration.

27. The estimate shall include these several matters, and be framed in accordance with the charges above specified, and any appellant who has filed his petition of appeal shall be deemed to have incurred the charges for the preparation of an index and estimate, whether the appeal be admitted or not

28. In all cases the security offered under Section 11 of Act VI of 1874 shall consist either of cash, or Government securities, or immovable property, and in the latter case the party finding the security shall file a mortgage bond duly registered, together with a specification of the title to the property.

29. When such bond has been filed, the Court shall, if the property be situate in Calcutta, direct the security to be tested by the Registrar on the original side; if in the Mofussil, by the Judge of the district in which the immovable property offered as security is situate

30. Upon the arrival of any report as to the sufficiency of any security the Clerk in charge of the Department will give notice thereof by a list to be hung up at such places as the Judge in the Privy Council Department shall direct. All parties desirous of objecting thereto shall, within six days of the case being inserted in such list, file a notice specifying their objections, and serve a copy of such notice upon the other parties to the appeal. All such objections will be disposed of at the next sitting but one after the arrival of the report.

31. The same rules as to affidavits, postponements, production of documents and otherwise, will be applicable to such notices of objection as are applicable to applications by petition.

32. If the security tendered be found insufficient, the appellant shall be bound, within six weeks of the date of such finding, to deposit cash or Government securities to the extent of Rs. 4,000, or to such amount as will bring up the value of the security to Rs. 4,000.

33. In case the last day for making the deposit or giving the security under section 11 of Act VI of 1874 shall fall on a day upon which the offices of the Court are closed, the deposit may be made, or the security given, upon the first day upon which the offices re-open. But no other extension of the time specified in the Act for making the deposit or giving the security will be allowed, except that specified in rule 32.

34. All applications by or on behalf of an infant or a person of unsound mind shall be made in the name of the infant or person of unsound mind by the person whose name is on the record as his next friend or his guardian; and whenever any application is consented to or opposed by an infant or person of unsound mind, the infant or person of unsound mind shall in like manner be represented by the person who appears in the record as his next friend or guardian.

35. In case there is no next friend or guardian upon the record, a separate application for appointment of a next friend or guardian must be made.

36. The foregoing rules shall come into force on the first day of November next, and shall apply to all petitions then pending for the admission of appeals.

22, CHOWRINGHEE, CALCUTTA, the 17th September 1877.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 1121B.

NOTICE is hereby given that the Tenth Sale of Opium, the provision of 1875-76, will be held at the Government Opium Sale-Room, No. 2, Bankshall Street, on Monday, the 1st October 1877, at 11 A.M. and will comprise 4,000 chests, viz.—

				Chests.
Behar	Opium	2,080
Benares	"	1,920
Total				4,000

2. The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 14th November 1876, and published in the *Government* and *Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3. The latest dates for deposit and clearance will be the 8th and 24th October 1877 respectively, that is to say, no Bank of Bengal receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the Sale-Room will be received after 4 P.M. of Monday, the 8th October 1877, and no Bank of Bengal receipts in full payment of lots will be accepted after 4 P.M. of Wednesday, the 24th October 1877.

4. In addition to the quantity above advertised for sale, the following quantities, more or less, of Behar and Benares Opium will be brought to sale in the present year on or about the dates specified below. The Board of Revenue, Lower Provinces, however reserve to themselves the right of altering these dates should circumstances render it expedient to do so:—

DATES.		Behar, about Chests	Benares, about Chests.	Total, about Chests.
On or about Friday, 2nd November 1877	...	2,080	1,920	4,000
On or about Monday, 3rd December 1877	...	2,080	1,920	4,000
Total	...	4,160	3,840	8,000

* The 3rd of October which by the general notification of 14th November 1876 was fixed as the date of the 10th sale of opium having been found inconvenient, the Board have fixed the 1st as the date of the sale.

By order of the Member in Charge,

W. H. GRIMLEY, *Offg. Secretary*

BOARD OF REVENUE, L. P., FORT WILLIAM, the 25th August 1877.

No. 1131B.

THE following notice is published for general information:—

Every petition of appeal to the Board of Revenue against an order passed by the local officers in the Excise, Stamps, and Opium Departments, should be presented to the Board within one month from the date of such order, and should bear a court fee stamp of the value of Rs. 2. The petition should be accompanied by the order appealed against in original, or by an authenticated copy of it, or the omission to produce such copy should be explained.

By order of the Board of Revenue, L. P.,

W. H. GRIMLEY, *Offg. Secretary*.

PART I A.

Orders and Notifications by the Government of India.

The following orders, issued by the Government of India in the Foreign Department, are republished for general information :—

No. 2144 P.—Simla, the 4th September 1877.—Notifications—Political.—With reference to notification No. 1009 P, dated 8th May 1877, the recognition by the Government of India of the appointment of Monsieur A. Eydin as in charge of the office of the Consul-General for Italy at Calcutta, during the absence of Chevalier G. Gallian, has been confirmed by Her Majesty's Government.

No. 2161 P.—The 7th September 1877.—Whereas by Treaty, Capitulation, Agreement, Grant, Usage, Sufferance and other lawful means, the Governor-General of India in Council has, in the countries or places hereinafter in that behalf mentioned, power and jurisdiction to administer justice among and over Indian British subjects, and for that purpose to make the appointments hereinafter appearing :—

In exercise of the powers conferred by Sections 4 and 5 of the Foreign Jurisdiction and Extradition Act, 1872 (Act XI of 1872), the Governor-General of India in Council hereby delegates to the officer holding, for the time being, the office of Political Resident in the Persian Gulf, the powers and jurisdiction of a Magistrate of the 1st Class as described in the Code of Criminal Procedure (Acts X of 1872 and XI of 1872), to be exercised over Native Indian subjects of Her Majesty according to the procedure prescribed by the said Code, within the undermentioned territories beyond the limits of British India in which the said officer is accredited as the representative of the British Government: that is to say, the Coast line from Gwadar westward to the Persian Gulf, all the shores of the Persian Gulf, and the Gulf of Oman, with the islands situated in these Gulfs, and the territories of the Sultan of Muscat in Arabia.

In exercise of the aforesaid powers, the Governor-General in Council is further pleased to delegate to the said Political Resident in the Persian Gulf the powers and jurisdiction of a Sessions Judge, as described in the abovementioned Code of Criminal Procedure, to be exercised over Native Indian subjects of Her Majesty, within the aforesaid territories, according to the procedure prescribed by the said Code.

No. 2512 G.—The 6th September 1877.—Rules IX and X of the revised rules published under Foreign Department Notification No. 1330 G, dated 6th July 1875, for giving effect to Article IX of the Treaty between the British Government and His Highness the Maharaja of Jummoo and Cashmere, dated 2nd May 1870, for the furtherance of trade with Eastern Turkistan, are hereby cancelled, and the following revised Rules IX and X are substituted for them :—

IX. The holder of a certificate granted under Rule VII will only be entitled to claim a refund on such certificate after it has been attested either—

* NOTE.—The name and designation of the said officials are at present as follows.—

At Jummoo, Partab Sing, Farmer of Customs.

At Srinuggur, Bodh Sing, ditto.

Any change in their name or designation will be notified in the Gazette.

1. By the customs official* of His Highness the Maharaja on arrival of the goods at Jummoo or Srinuggur of His Highness' dominions, or

2. By the British Joint Commissioner at Leh on arrival of the goods at Leh, or

3. During the absence of the British Joint Commissioner from Leh by the Cashmere Joint Commissioner.

When any of the abovenamed officials are called upon to attest the certificate, they will examine the packages to see that the seals are untampered with, and that the number and weight of packages correspond with the certificate accorded.

X. The owner or his Agent may then present this certificate either to the British Joint Commissioner at Leh, or during the absence of the British Joint Commissioner, to the Cashmere Joint Commissioner at Leh, or in the case of goods sealed and declared at Calcutta or Bombay, to the Collector at Calcutta or Bombay respectively, or in the case of goods sealed and declared at Umritsar, to the Deputy Commissioner at Umritsar, and obtain payment of the amount of duty stated therein. No refunds will be paid at Sultanpore.

The following order, issued by the Government of India in the Financial Department is republished for general information :—

No. 3021.—*Simla, the 7th September 1877.—Notification.—Pensions, Gratuities, &c.*—The Governor-General in Council directs the publication of the following Addendum to the Civil Pension Code of the Financial Department :—

CIVIL PENSION CODE.

Section 6 (page 4).

Add the following to the Note to Exception (4) under this section :—

(4A.) But if such a clerk is subsequently employed in the Civil Department, he may count his service in the Military office, provided he takes his discharge within twelve months after joining his appointment in the Civil Department.

The following orders, issued by the Government of India* in the Military Department are republished for general information :—

No. 803.—*Simla, the 7th September 1877.—Calcutta Volunteer Rifle Corps.*—Mr. Frederick Lewis Brando Siddons* to be Lieutenant, *vice* J. T. B. Siddons, resigned.

* Subject to his passing the prescribed examination in drill

No. 818.—*Subordinate Medical Department.*—In view to encourage industry and application in the Hospital Apprentice class, the Hon'ble the President in Council is pleased to direct that the position on the list of a Passed Hospital Apprentice, and his consequent promotion to the warrant grade, will depend on the place he takes at the penultimate and final examination at the Medical College.

2. This rule, however, will not be enforced in the case of students enrolled in the military class of the Medical College prior to the commencement of the present session in June last, but will be carried out in the case of all subsequent admissions to the class.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

PART II.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Hazareebagh, will be put up to sale at the Hazareebagh Collectorate on the fourth day of the month of October 1877, corresponding with 12th Assin 1286 Fualoo.

The purchasers will be subject to the following conditions of sale:—

Conditions of sale.

1. The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2. The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3. If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4. If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

Number in statement of Government estates.	Number on the district roll.	Name of estate and pergunnah.	Approximate area in acres.	Government revenue assessed.	Upset price.	REMARKS.
106	105	Ghosekhako Gadi Gawan, pergunnah Khurrakdiba.	Acres. Chajga. 130 00	Rs. 15	Rs. 60	The village has been settled directly with the ryots for twenty years. This settlement will expire on the 30th Bhador 1296 (F.S.), corresponding with September 1881. After settlement the whole village was leased to the present farmer. This lease will expire on the 30th Bhador 1298 (F.S.), corresponding with September 1891, simultaneously with the settlement made with the ryots.

H. M. BODDAM, Colonel, Deputy Commissioner.

HIGH COURT, CALCUTTA,
18th September 1877.

L. P. D. BROUGHTON,
Administrator-General.
(1501—1)

TO be peremptorily sold, pursuant to a decree of the High Court of Judicature at Fort William in Bengal in its Ordinary Original Civil Jurisdiction, made in suit No 388 of 1876 (wherein Khetter Mohun Ghose of Banstollah Street in the Town of Calcutta, merchant, is the plaintiff, and Madhubloll Dutt of Mooktaram Baboo's Street in the Town of Calcutta aforesaid, inhabitant, is the defendant) and dated the 26th of July 1876, by the Registrar of the said Court at his sale-room in the Court-house on Saturday, the 29th day of September 1877, at the hour of 12 o'clock at noon, the following property, namely:—

Lot No 1.—All that range of lower-roomed brick-built godowns and the piece or parcel of land or ground thereunto belonging and on part whereof the same are erected and built, containing by estimation two cottahs five chuttacks and thirty five feet, be the same more or less, situate at and being No 5, Chineeputty Burrā Bazar, in the Town of Calcutta, and butted and bounded in manner following, that is to say on the west by Ram-comar Rakht's Lane; on the north by Burtollah Street; on the south by the house belonging to Juggernaut Sikh, and on the east by the premises of Johurreeloll Dutt.

The abstract of title and the conditions of sale may be seen at the office of the Registrar of the High Court on its Original Side and at the office of the plaintiff's attorney Mr Hart on any day before the sale, and will be produced at the sale.

R BELCHAMBERS, *Registrar.*

JOHN HART, *Plaintiff's Attorney.*

CALCUTTA HIGH COURT, ORIGINAL SIDE,
The 5th September 1877

(1494—1)

In the Court for the Relief of Insolvent Debtors at Calcutta.

IN the matter of the petition of Sreenath Dutt, residing at Joggomohun Shaw's Lane, in Mooktaram Baboo's Street, in the town of Calcutta, and carrying on business at Monohur Doss's Street in Burrabazar, in the said Town of Calcutta as a cloth shop-keeper seeking the benefit of the Act of the eleventh year of the reign of Her present Majesty, entitled an Act to consolidate and amend the Laws relating to Insolvent Debtors in India.

PURSUANT to order made in the above on and bearing date the seventh day of August last, Tuesday, the fourth day of December next, has been appointed for the hearing for proof of claims in this matter, and the creditors of the said Insolvent are required, within ten days before the said fourth day of December next, to file in the Office of the Chief Clerk of this Court a statement of the account of their respective claims against the estate of the said Insolvent duly verified by affidavit, and that the Chief Clerk do form a schedule from the claim so to be filed.

A. B. MILLER, *Official Assignee.*

NOBIN CHUND BUKAL, *Attorney.*

(1484—2)

INSOLVENT NOTICES.

In the Court for the Relief of Insolvent Debtors at Calcutta.

IN the matter of BEER CHUND COONDOO, GOSSAIN DOSS COONDOO, and KHETTER MOHUN SEN, Insolvents.

On Wednesday, the 5th day of September instant, it was ordered that the matters of the petition of the said Insolvents be heard on Tuesday, the 20th day of November next, and that the said Insolvents do then attend to be examined before the said Court.

Pittar & Wheeler, *Attorneys.*

Chief Clerk's Office, the 11th September 1877.

IN the matter of GEORGE ALEXANDER HODGE, an Insolvent.

On Tuesday, the 4th day of September instant, an account of the receipts and disbursements of the Official Assignee, from the 8th day of July 1873 to the 31st day of August last, was filed in the Office of the Chief Clerk, and it was ordered that Tuesday, the 20th day of November next, be appointed for the further hearing of this matter for the purpose of making a dividend.

Any creditor or other person interested, who may intend to establish or oppose any claim upon the estate of the said Insolvent, may attend and be heard, having given notice to the Chief Clerk three clear days before the day of hearing.

A. B. Miller, *Official Assignee.*

IN the matter of WILLIAM HOLLOWAY, an Insolvent.

On Tuesday, the 4th day of September instant, an account of the receipts and disbursements of the Official Assignee, from the 1st day of April 1869 to the 31st day of August last, was filed in the Office of the Chief Clerk, and it was ordered that Tuesday, the 20th day of November next, be appointed for the further hearing of this matter for the purpose of making a dividend.

RESOLUTION ON THE ANNUAL GENERAL REPORT ON THE PRESIDENCY DIVISION FOR 1876-77.

GENERAL DEPARTMENT

Calcutta, the 18th September 1877.

READ—

The Annual General Report on the Presidency Division for 1876-77.

THE report is submitted by Mr. R. L. Mangles, the Officiating Commissioner, who, although he did not take charge until after the close of the year, has, with the aid of his district officers, succeeded in making it both full and interesting.

2. The Magistrates of Moorshedabad and Jessore, and most of the sub-divisional officers in the division, seem to have made tolerably extensive tours through their respective jurisdictions; but the district officers of the 24-Pergunnahs and Nuddea were unable to attend properly to this duty. It is explained by Mr. Wilson that his desk work was too heavy to admit of his leaving Alipore for more than a few days at a time, and Mr. Stevens was detained at head-quarters by the discovery of defalcations in his Road Cess Office and at Bongong. The Lieutenant-Governor is not satisfied with the reasons given for the very short tour of Mr. Kelleher, the Assistant Magistrate of Kooshtea, and directs that Baboo Dinonath Mookerjee, late Sub-Divisional Officer of Kooshtea, be called on to explain clearly why he failed to make any tour at all.

3. Throughout all the districts of the division the rainfall was sufficient and well distributed, and the rice crops were generally above the average, rising in many places to a bumper harvest. Heavy rain in the end of the cold weather did some damage to the rubber crops here and there; but, on the whole, the cultivators had a very good year.

Weather and crops; health and condition of the people.

4. The public health was fairly satisfactory and better than in the year preceding. Cholera prevailed as usual in all districts, but not with any special virulence. A severe outbreak of fever was reported from the north of Nuddea, but was found on inspection to differ in character from the epidemic fever, and disappeared with the setting in of the cold weather. It is said that Mr. Skrine, the Sub-Divisional Officer of Chooadanga, "with the assistance of the zemindars and other inhabitants, succeeded in thoroughly reforming the villages in which the disease was chiefly prevalent by removing the jungle and underwood, cutting drains, making roads, &c." The Lieutenant-Governor would be glad to see more of this laudable spirit of self-help manifest itself under similar conditions elsewhere.

5. The Magistrates of the 24-Pergunnahs, Nuddea, and Jessore concur in testifying to a general improvement in the material condition of the lower classes. Mr. Smith, who has had long experience of Jessore, declares that he sees a gradual and steady improvement. "The peasantry are now better fed, better clothed, and better housed than they were ten years ago. Almost every ryot now bears a cloth umbrella and a carpet bag, articles which were formerly considered as luxuries for people in the higher grades of life." Mr. Stevens of Nuddea thinks that, while the lower classes are improving, the overstocking of the professions and of Government service has affected injuriously the status of the better classes, and believes that in many families there is a real struggle for subsistence. The Lieutenant-Governor fears that there is much truth in this. The undue attention paid to the teaching of very bad English in our middle class schools, and the natural tendency of all Bengalees of the writer and higher classes to despise manual labor, have no doubt tended to create a large class of discontented, half educated men who cannot find work, but are not, as Mr. Stevens says, ashamed to beg from their wealthier relatives. The evil must to a great extent work its own cure. As the idlers increase, they will eventually be driven to work, and the difficulty of finding work may in time have the effect of postponing marriage and effecting other great social reforms. These are symptoms that the time is approaching when these classes will take to mechanical pursuits. Any disposition of this sort will be encouraged by Government, and when a real demand exists for teaching of a practical kind it will be given.

6. Mr Hodgkinson, the Officiating Magistrate of Moorshedabad, while admitting that the means of the people have improved, owing to an abundant harvest and a temporary revival of the silk industry, declares the lower classes of that district to be improvident, poor, and deeply in debt to the mahajuns. The Lieutenant-Governor doubts whether this description applies to the great bulk of the ordinary ryotty class. No doubt there are in Moorshedabad large numbers of petty Mahomedan co-sharers, and a considerable thriftless population in and about the towns, brought together originally by the existence of the nizamat and the cantonments. There are also large numbers of low-caste workers in silk filatures. But the state of the general body of cultivating ryots in the district is probably quite as good as that of their neighbours in Nuddea, where Mr. Stevens tells us the general standard of living is certainly rising.

7. In spite of the abundant harvests, the prices of food were everywhere high, owing to the great demand for rice for exportation. In the 24-Pergunnahs and Jessore the prices of labor also showed a rise, attributed in the first case to the growth of jute and other industries, and in the latter to the development of the district trade.

Prices of food and labor.

8. The indigo season both in Jessore and Nuddea was poor, and the results in some concerns disastrous. The Collector of Nuddea observes that much cultivation has had to be given up, and remarks that, in his opinion, "indigo-planting on high lands, and depending on borrowed capital, is not likely for many years longer to repay

Manufactures, &c.

the expense of European supervision. The co-operative system which was tried a few years ago, under which the plant was grown by the ryot and the profits shared with the manufacturer, has not been successful, the ryots finding it unprofitable." There can be no doubt that the natural tendency of profits in the various departments of trade to equalise themselves and to fall to a minimum must in time drive out that unsound system of indigo-planting which can only flourish while the cultivator gives his share of the product at inadequate rates, and which even then is dependent on the speculative results of a lucky year to meet the liabilities incurred in keeping up the concern in ordinary times. The Lieutenant-Governor, however, believes that indigo may still be cultivated to a profit like jute or any other staple, and we may yet see small capitalists taking up and working single factories to their own advantage and that of the country at large.

9. The year was a good one for the sugar manufacturers, owing to partial failure of the beet in France and the maple in America. The silk industry in Moorshedabad benefited also by the failure of the Japan silk crop; but the revival here was, it is feared, only temporary.

10. Trade was brisk in all departments. A full account of the character and movements is given by the Commissioner, and further information will be found in Mr. Cotton's report on the internal trade of Bengal.

11. In the district of Jessore, it seems that most of the business in piece-goods and hardware imports is carried on at local fairs, the principal being held at Raigram in Narail. It is interesting to note that Baboo Sitanath Ghose, an educated young gentleman of that place, in company with others, do much to instruct and amuse the people who gather to this market. They deliver scientific lectures, exhibit interesting specimens and experiments, patronise gymnastics, pony races, shows of cattle and produce, giving medals and prizes to those who compete. It is added that last year the Baboo exhibited an improved weaving machine invented by himself and an improved plough, and that the operations of gilding, silver-plating, dyeing, polishing gold and silver articles, and making lucifer matches, were shown and explained to the common people. The Lieutenant-Governor requests that the Commissioner will specially convey to Baboo Sitanath Ghose an expression of the pleasure with which His Honor has learnt of these efforts made by him to instruct and improve his countrymen and neighbours.

12. As to the state of public feeling on general or special subjects not much is said. The proceedings of the 1st January excited in most districts a certain amount of local enthusiasm, especially among the educated classes. No special remarks are made this year on the Native Press in the 24-Pergunnahs. Jessore has now no local paper, and in Nuddea there is only one, said to be generally harmless and not remarkable for ability. The Collector of Nuddea thinks that he sees an improvement in the tone of the Vernacular Press. The Collector of Moorshedabad, on the other hand, remarks that the "predominant tone of the papers (of that district) is hostile not only to the English Government, but to the English race, and English newspapers are ransacked for discreditable stories, which are translated and presented by the native editors to their readers with satirical comments."

13. Under the head of administrative arrangements both the Commissioner and the Collector of Nuddea urge that the Bench system has hitherto thrown difficulties in the way of the quick disposal of work, though the Commissioner hopes that soon Honorary Magistrates may be trusted to act by themselves and try petty cases. A good deal of this has, the Lieutenant-Governor thinks, been due to the way in which the system has been worked. A full-powered officer has frequently been placed with two Honorary Magistrates to try petty thefts. The better way of working would be to associate a second-class salaried Magistrate with one or two Honorary Magistrates, and to set them to the disposal of cases of real importance which the second-class Magistrate by himself could not take up. There can be no doubt that in many districts Benches of Honorary Magistrates might even now be trusted to sit by themselves to dispose of petty cases. This subject will be considered in the Judicial Department.

14. As regards criminality Moorshedabad appears the worst, and Jessore the best, district of the division, the 24-Pergunnahs and Nuddca being about on a par. There was, however, a general decrease of heinous or cognizable crime throughout the division, the figures having fallen from 18,953 to 17,529. The decrease was most marked in serious offences against the person and against property. It was specially satisfactory in dacoity, which is returned at 17 cases only against 31 in 1875-76. The decrease is particularly marked in Moorshedabad, and attributed to the careful supervision of bad characters lately introduced there. All the Magistrates report an improvement in the police, while the introduction of the Village Chowkidari Act of 1870 has done much to strengthen the hands of the police and district officers.

15. There seems to have been a large increase in civil litigation, the causes of which are probably to be sought in the increased prosperity of the people during the year, and the necessity of filing suits for rents due from the famine year in order to save limitation.

16. Of the land revenue of the year, 91·8 per cent. was realized before its close against 90·1 per cent. in 1875-76. In permanently settled estates the collections were 94·9 per cent. of demand; in temporarily settled 86·9 per cent.; and in Government estates 61·5. These extremely unfavourable results in Government estates will no doubt be fully analysed in the Board's Revenue Report; but it is explained generally by the Commissioner that many of the so-called Government estates are petty estates bought in by Government at sales for arrears in the absence of private bidders, many of which are not traceable, and the demand on which is really nominal, and has eventually to be written off. Again, it is noticed that arrears in Government estates appear high, because the year ends in March, and the ryots have not then sold all their crop. Many payments are made in April and May.

17. The excise revenue of the division for the year was Rs. 18,97,218, or Rs. 13,010 in excess of last year. The increase came mainly from country spirits, and is attributed to the working of the system of auction sale of licences. Along with the increased revenue consumption fell from 205,064 gallons to 191,853, owing to the enhanced cost of country spirits. The consumption of ganja, however, is said to have increased from the same cause. The full excise demand of the year was realized before its close—a most satisfactory result.

18. In stamps the revenue rose from Rs. 47,14,023 to Rs. 49,72,693. Of the increase the whole came from telegraph stamps, and was accounted for to a great extent by the Imperial Assemblage at Delhi.

19. There is much need for greater vigilance in the matter of stamp administration. Only eleven prosecutions for fraudulent evasions of the law took place in the year, though it is the general belief that the stamp laws are regularly and systematically evaded to a very considerable extent. There is, however, much truth in the remark that these evasions come most frequently before the civil courts, and until they are compelled to take due cognizance of such illegalities, the executive officers of Government can do little.

20. The Government Savings Bank appears to be more popular in Moorshedabad than in any other district. The money-order system was not very extensively utilized in any of the districts of this division, probably owing to the great facilities for getting currency notes. The Collector of Jessore says it is a public grievance that these notes are not supplied there to the extent required by the public. The Government, while willing to give all fair facilities of this kind, cannot undertake to perform the general functions of a bank, and supply the means of remittance to the public irrespective of its own requirements.

21. It is satisfactory to observe that the funds raised by the road cess are fully utilized in each district. The Lieutenant-Governor is particularly anxious to see more attention paid to village roads, which bring home more immediately to the mass of the tax-payers the fact that they get an equivalent for their money.

22. The reductions which it was necessary to make in the educational grant last year somewhat hampered operations in many districts; but there seems to have been progress notwithstanding, especially in primary education. It is noted that good results have been obtained in Nuddea by placing village patshalas under the chowkidari punchayets. This plan might be more generally tried. The members of the punchayets are ordinarily the leading men of the village, and their quasi-official status may enable them and encourage them to do much good.

23. All the Magistrates, save Mr. Stevens, speak favorably of the working of their Road Cess Committees. A committee is very much what a district officer chooses to make it. If encouraged and invited to assist, they frequently do good and useful work. In the case of municipalities, where local knowledge comes more freely into play, it seems to be generally admitted that the committees are as a rule both intelligent and hard-working.

24. The working of the cattle-pounds brought in a surplus to Provincial Reserve of Rs. 40,868 during the year. The Commissioner endorses a recommendation of the Magistrate of Nuddea that more systematic arrangements are desirable for their control and inspection. The Lieutenant-Governor will be glad to have a special report on this matter. It is one that calls for attention on both moral and financial grounds. There is at present much speculation and there might be more profit.

25. The medical charities of the division are numerous, and receive much attention, especially in Moorshedabad, where the Commissioner says both the Civil Surgeon, Dr. Shircore, and the sub-divisional officers showed peculiar interest in these institutions, and where they are deservedly popular. In the 24-Pergunnahs nineteen dispensaries relieved 60,450 patients. In Nuddea, at nine dispensaries, only 19,219 attended. In Jessore, at ten dispensaries, 28,512 patients were treated; while in Moorshedabad, with only six dispensaries, as many as 33,955 persons were relieved.

26. The work of the Court of Wards in this division is peculiarly heavy. The details are dealt with in a separate report, but it may be noted here that attached to the 24-Pergunnahs are seven estates, including the great Paikpara property. The management of Satkhira and Goberdanga has hitherto not been satisfactory. In Nuddea, the estate of the Rajah is the only one of any importance, and it has been well and economically administered. In Moorshedabad there were nine estates under the Collector, and their management was found during the year to have been inefficient and lax to a degree: radical changes and improvements have been made, the results of which ought soon to be manifest. Jessore has three Wards and five Attached estates. The management of Narail has called forth the animadversions of Government; but here, too, changes have been made which will it is hoped improve matters.

27. The conduct of the zemindars has been with few exceptions worthy of praise. There were no serious quarrels with tenants in any district. In Nuddea the zemindars have shown great interest in education and in the future of the Kishinaghar College. Mr. Stevens names Baboo Bamundass Mookerjee of Debogram, Baboo Jugut Chunder Mookerjee of Moragutchia, Mollah Khodadad Khan, Baboo Prasanna Chunder Rai of Kurulgutchia, Baboo Hira Lall Saha of Amla, Baboo Srinath Chowdri, and Moonshi Amir Biswas as practically active in educational matters. Messrs. Sibbald, P. Smith, A. Hills, Macnaughten, Jones, and Sherriff are specially noticed as good landlords.

In Moorshedabad Rao Jogendro Narain Rai of Lalgola is distinguished for charity to the poor and kindness to his tenantry, while the name of Maharani Swarnamoyi stands foremost in Bengal for works of charity. Baboo Gopilal Paurey and Mr. Gilchrist are unfavorably noticed as giving constant trouble by their disputes and cases.

In Jessore the management of the estate of Rajah Boradakant Rai is unfavorably mentioned.

28. Mr. Buokland left a memorandum in which he speaks well of all his district officers, and makes discriminating and useful remarks about the rest of his subordinates. These will be communicated to the Appointment Department of this office.

Character of officers.

By order of the Lieutenant-Governor of Bengal,

A. MACKENZIE,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE ANNUAL ADMINISTRATION REPORT OF THE RAJSHAHYE AND COOCH BEHAR DIVISION FOR 1876-77.

GENERAL DEPARTMENT.

Calcutta, the 18th September 1877.

READ—

The Annual Administration Report of the Commissioner of the Rajshahye and Cooch Behar Division for the year 1876-77.

LORD ULIOK BROWNE has throughout the year been in charge of the division as Commissioner, and submits the annual report, which touches in a general way upon all the prescribed topics, and follows in its outlines that submitted for the preceding year. Several, however, of the more important sections would have been much improved by the inclusion of a certain amount of statistical detail. It is not of course desirable to overload the annual general report with figures, but some figures are certainly necessary to enable the Government (which has not at this time the various departmental reports before it) to appreciate fully the very general remarks made by the Commissioner under such heads as land revenue, excise and stamps, crime and education. A report of the kind should also be self-contained, and should not necessitate reference to other past or coming reports.

2. Both the Commissioner and the district officers appear to have done their duty in the way of moving about their jurisdictions in the cold season.

3. The rainfall registered at the head-quarters of each district during the year compares thus with the average fall:—

Weather and crops.

			Average of years.		
		Inches.	Inches.	Years.	
Darjeeling	...	128.11	112.47	14 to 17	
Julpigoree	...	118.95	125.66	7 „ 8	
Dinagopore	...	69.89	78.70	13 „ 16	
Rungpore	...	82.12	83.73	14 „ 16	
Bogra	...	68.45	79.85	12 „ 15	
Rajshahye	...	76.38	60.33	14 „ 17	
Pubna	...	74.57	64.00	9 „ 10	

4. The season was on the whole favourable, and in every district, save Rungpore, the rice harvest was a full one. In parts of Rungpore insufficient rain in July, and an unduly heavy fall in October, did some damage to the aman crop. The outturn of jute was above the average in every district save Pubna. It would have been interesting had the report given some information as to the area now under jute in the various districts of the division, and the extent to which its cultivation has diminished or increased. In future reports special attention should be given to this subject, and also to that of the cultivation of tobacco. A merely formal note that a crop of this kind gave a fair yield is of very little value either to Government or the public.

5. The report of the Sanitary Commissioner proves that the year of report was throughout Bengal healthier than last, and it is admitted that this was the case in the Rajshahye Division. But cholera was largely prevalent in every district save Bogra, which enjoyed a singular immunity from the disease after having suffered severely in 1875. The outbreaks seem to have been specially serious in Rajshahye

Public health and condition of the people.

and Darjeeling. Small-pox was successfully met by the vaccine operations in Bogra, but was bad in Pubna and Rajshahye. Fever is endemic in every district of the division, and no special outbreaks are noticed in the report.

6. The fears expressed last year by the Collector of Pubna that natural causes and the silting up of the rivers were rendering that district year by year more unhealthy have not apparently been confirmed by the special investigation conducted under the orders of the Irrigation Department. The Collector now writes that the level of the district turns out to be higher than might have been expected, and has a tendency to rise very rapidly. If this be so, probably the closing of the mouths of the dead rivers will simply convert their beds into lakes, without bringing about any special water-logging of the country.

7. The reports of the district officers confirm the fact already noticed by the Lieutenant-Governor that a marked amelioration in the material condition of the people is to be observed in most of the districts of Bengal. The effects of the famine have in this division entirely passed away. Good harvests and high prices have enabled the ryots to pay up their arrears of rents and of famine advances, and the only fear now is that the improved condition of the peasantry, and their consequent independence, may make them act unfairly towards their landlords.

8. Throughout this division the demand is for labour, and not for land; hence there is no direct emigration to other parts.

Labour and prices.

The cultivating classes are substantial and well-to-do, and great bodies of hired labourers annually come in from Behar and Nepal seeking work, which they readily obtain. Neither local labourers nor skilled artizans are to be found save at very high rates. And yet there are no symptoms of any immigration of permanent settlers, save into some tracts near Darjeeling, where Nepalese are forming here and there small colonies of garden coolies. Some Nepalese, too, seem to be settling down as permanent cultivators in the Hills.

9. Prices were high in the early part of the year, but fell owing to the abundant harvest, rising again as the extent of the demand for the famine districts of Madras made itself felt. This is one of the sections of the report where a few figures for each district would have thrown great and much needed light upon the general statements of the report.

10. The silk factories of Rajshahye did a better business during the year than they had done for some years past, owing to the short supply of silk from Japan. No information

Manufactures and mines.

is, however, given of the actual outturn either of silk or indigo. Of the latter staple, it is merely said that "it is manufactured somewhat largely by European firms in Rajshahye, and to a slight extent by native capitalists in Rungpore; but it has ceased to be a flourishing industry. It has been given up entirely in Bogra." It would have been interesting to know something of the extent of the cultivation during the year of report, the character and quantity of the crop, and the relations subsisting between the planters and the ryots in the indigo tracts.

11. Tea cultivation is said to be spreading rapidly in the Dooars, where there are now 44 gardens in various stages of progress. Labour is reported to be easily procurable at moderate rates, and the only drawback is the unhealthiness of the climate. Some information as to the acreage under tea in the Dooars would have been useful. In Darjeeling the outturn of tea was 4,000,000lbs, as against 4,600,000lbs in the year preceding; but the better quality of the tea and the high rate of exchange made up for any deficiency in the quantity.

12. The prospects of the division as regards coal and copper-mining are as yet uncertain. The subject must continue to receive attention locally.

13. The information given under the head of trade and commerce is of the most general kind. Trade is said to have been

Trade and commerce.

generally flourishing, and prosperous; rice export brisk at profitable prices (the rates not stated); jute and tobacco export also brisk in Dinagapore, Rungpore, and Julpigoree, but not so good as usual in Pubna. The imports of jute into Serajgunge were one-third less (the quantity not given) than in the previous year, owing to shortness of crop, to competition of Naraingunge, and the growing tendency to ship direct to Goalundo or

Calcutta. The unfavourable position of Serajgunge during the dry months, when the floating bazar has to move some miles away from the town, has doubtless much to say to its decreasing trade. Trade between Darjeeling and Thibet and Nepal is said to be growing.

14. The assumption by Her Majesty of the title of Empress, the durbar held by Sir Richard Temple on the Northern Bengal Railway in November 1876, and the death of Maharajah Sir Jung Bahadoor, were the three chief events of the year in this division. The demonstrations of loyalty called forth by the first-named circumstance were very satisfactory.

15. The Native Press is not strong in this division. One paper, the *Dik Prakash*, exists only for the purposes of the amlah of the Kakina zemindars; while the other, the *Hindu Ranjika*, is said to be moderate in tone and chiefly interested in theological topics.

16. The extension of the Village Chowkidaree Act of 1870 has here, as elsewhere, been found useful. It is noted that the Mahomedan Marriage Registration Act is likely to be appreciated, but nothing is said of the extent to which it has yet been introduced or put in force.

17. The statistics of trade registration have been brought together in a very comprehensive report which is now before Government. The remarks made on this subject in paragraphs 43 and 44 of the present report confirm the impression that the figures thus procured, though large, are very far from reliable.

18. The police are said to have worked with fair efficiency and success, while there has been a satisfactory decrease in heinous crimes against person and property. Dacoities were only 22, against 52 in the year preceding. House-breaking also shows a marked falling off. The improvement is attributed to the measures taken against bad characters. The Lieutenant-Governor has in a recent circular expressed an opinion that proceedings against bad characters have not been everywhere conducted in a judicious manner, but have been too often made use of to screen the inefficiency of the police. The subject is now before Commissioners for special report.

19. Good harvests have had their usual effect upon civil litigation. Suits have increased, and the moonsifs are said to be overworked. Measures for their relief are under consideration.

20. It is highly satisfactory to know that the division has during the year been exempt from all serious agrarian disputes; that the ill-feeling between ryots and zemindars has been considerably allayed; and that, contrary to all expectation, amicable settlements have in most instances been come to between the contending parties. There is only one notable exception, in the case of the zemindars of Salop, in Serajgunge, upon whom police have been quartered until the civil court settles the future management of their estate.

21. The collections of land revenue are reported to have been punctual, sales for arrears were few, and settlement work both in Julpigoree and Darjeeling made fair progress. In the absence of more detailed information, this review of the land revenue administration of the year may be accepted as satisfactory.

22. In excise revenue a slight increase was obtained, but illicit distillation and ganja smuggling are believed to prevail in Dinagore and Pubna. The Lieutenant-Governor has issued fresh orders to the Board on the subject of excise management, with special reference to illicit distillation. The whole subject of ganja has also come recently under review. The Board's attention will, however, be drawn to these paragraphs of the Commissioner's report.

23. The stamp revenue has also grown to an extent not specified, but described as 'fair'; land registration cases have done much to bring about this result, which is also partially due to increased litigation. A more careful watch is kept now to detect frauds against the stamp revenue, and prosecutions have increased with good results. The practice of remitting by insufficiently stamped hoondies or bills of exchange from Assam will receive special attention on receipt of the Board's stamp report.

24. The briskness of trade has stimulated the use of currency notes for purposes of remittance. The issue of money orders is said to rise and fall with the supply of small currency notes, dealers preferring to take the risk of remitting notes to the

trouble of drawing a money order and paying commission. No figures are given to show either the working of the money order system or of the savings banks.

25. The Commissioner notices the approaching completion of the Northern Bengal Railway, which is expected to be open as far as Julpigoree in the course of 1877-78. But as regards district roads, he is not satisfied that these have been everywhere pushed on so energetically as might have been desired. The Rungpore Cess Committee seem, however, to have done good work upon the southern emigration road to Assam. In Pubna, Julpigoree, and Dinagepore the road work requires more careful supervision and direction.

26. The account given by the Magistrate of Dinagepore of the state of education in his district is very unsatisfactory. Primary education is said to make no progress, and middle class education is but little better, the average daily attendance at all the schools (287 in number) being only 4,874. There is nothing in the circumstances of Dinagepore to account for its showing so badly in this respect. The special attention of both the Commissioner and Director should be given to this matter. In Rajshahye, Rungpore, and Pubna results are more promising, though in the absence of statistics a precise comparison cannot be instituted. No great progress has been made in Bogra, owing to the inefficiency of the late Deputy Inspector. In Julpigoree and Darjeeling education is backward, owing to the character of the population.

27. The Lieutenant-Governor is not satisfied to learn that Mr. Rees is the only officer in the division who acknowledges that he derived assistance from local committees of every kind. The successful working of committees does no doubt depend very much on the presiding officer; but it depends on him in this way, that a good officer, with tact and a proper knowledge of the mode of dealing with native gentlemen, will manage to get out of his committees always valuable advice and frequently much useful work. It is generally those officers who try to reduce their committees to nonentities that complain most of their getting no assistance from them. It is absurd to suppose that an isolated European Magistrate can work more efficiently without than with the co-operation of intelligent Native gentlemen of local experience and thorough knowledge of the people and country. Where local committees fail to be useful, it is the result either of a bad selection of members, or of want of ability to utilize their services to the best advantage.

28. The conduct of the zemindars has, with one or two exceptions, been good. In Rajshahye Baboo Kristendro Rai, of Bolohar, is specially mentioned by the Collector as a liberal-minded gentleman. The Lieutenant-Governor has noticed with extreme regret the way in which the representative of an old Rajshahye family has brought himself lately before the criminal courts. The zemindars of Rungpore, especially Baboo Nobin Chunder Roy, of Bancondanga, showed great liberality in connection with the celebrations of the 1st of January. In Pubna the Tagore family were, as heretofore, foremost in good works.

29. The Commissioner at the close of his report declares that the district administration of his division is deteriorating yearly, owing to the growth of work and the insufficiency of the district staff. The unhealthiness of several of the districts in this Commissionership has no doubt a tendency at times to leave Collectors short-handed, and a special passing pressure is caused by such measures as the Land Registration Act. But the staff of officers in the Rajshahye Division has not been kept disproportionately low as compared with other districts of Bengal; and certainly nothing in the Commissioner's previous communications to Government, or in his present report (apart from this paragraph at its close), would lead to the conclusion that the work of his district officers had been found by him inferior in quality. The Commissioner himself, in his confidential report, speaks in the highest terms of nearly all his district officers, and of very many of their covenanted and uncovenanted subordinates. No doubt all officers have quite as much work as they can do, and possibly if they had more leisure could turn out better work, but the most must be made of establishments as they exist. It is in the power of Commissioners to

relieve officers a good deal by restricting their demands for returns and reports and information to really important subjects, and avoiding all calls upon their time and attention which are not really necessary.

30. The Lieutenant-Governor is glad to notice the very intelligent interest in the work of his district evinced by Mr. Rees in his report. The remarks made by the Commissioner with reference to the officers serving under him will be communicated to the Appointment Department of this office.

By order of the Lieutenant-Governor of Bengal,

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

RESOLUTION ON THE GENERAL ADMINISTRATION REPORT OF THE ORISSA DIVISION FOR 1876-77.

GENERAL DEPARTMENT.

Calcutta, the 18th September 1877.

READ—

The General Administration Report of the Orissa Division for 1876-77.

THE past agricultural season appears to have been a fairly good one for Orissa generally, and an exceptionally fortunate one for the district of Balasore. In all districts the rains set in late. The early months of 1876 had been indeed exceptionally dry, and some apprehension was felt as to the prospects of the year in many parts of the division, but eventually timely showers in Cuttack and Pooree, and heavy rain in Balasore, removed all fears. The following table shows the actual rainfall of 1876-77 as compared with the average annual and monthly supply. The figures for Cuttack and Pooree, taken in connection with the actual outturn of the harvests, prove that timely distribution of rainfall is more important than its absolute quantity.

MONTHS.	CUTTACK.		POOREE.		BALASORE.	
	Rainfall of 1876-77.	Average rainfall.	Rainfall of 1876-77.	Average rainfall.	Rainfall of 1876-77.	Average rainfall.
April 1876	15	106		156	852	294
May " " " " " "	334	187	208	237	632	430
June " " " " " "	560	980	245	885	540	1200
July " " " " " "	980	1131	683	925	2077	946
August " " " " " "	366	1054	730	1143	1639	1203
September " " " " " "	983	901	961	942	1595	1276
October " " " " " "	489	651	664	782	1032	761
November " " " " " "		107		166	08	089
December " " " " " "		61		074		011
January 1877 " " " " " "	61	045	04	000	146	101
February " " " " " "	123	061	313	130	185	122
March " " " " " "	133	102	68	008	84	179
Total	4046	5425	3376	5555	8277	6730

Owing to the heavy rain in Balasore after July, the rivers rose to overflowing, and repeated inundations occurred; but none were sufficiently violent or protracted to cause material damage to the crops. On the 9th October 1876, again, a violent gale, an offshoot of the Vizagapatam and Bimlipatam cyclone, swept over the district, but the scanty rainfall of June had made the crop late, and the rice was not in flower at the time of the gale. Thus, notwithstanding these visitations, Balasore had a harvest unequalled within the memory of the present generation.

In Cuttack and Pooree, in spite of the marked deficiency of the rainfall, the general outturn is stated to have been a fair average, except in an area of about 60 square miles around the Chilka Lake, where at one time there were apprehensions of distress and relief works were actually opened. They failed, however, to attract labourers, except in the case of some small village works in which the people took a personal interest, and the crops of the surrounding country fully made up for the local failure.

2. Although cholera prevailed to some extent all the year round, causing 5,044 deaths in this district, and breaking out severely in February 1877, the public health of Cuttack seems to have been fairly good during the year. Serious outbreaks

Public health and condition of the people.

of cholera also occurred in Pooree and Balasore. In the former district the deaths numbered 4,428, the heaviest mortality being in and about Pooree itself. In Balasore the deaths amounted to 7,361, being most numerous in Baondebpore thana and in the port of Chandbally, which was exceptionally crowded in consequence of the rapid growth of the grain trade. The registered mortality from all causes in the three districts was as follows :—

Cuttack	21·14 per mille.
Pooree	23·24 „
Balasore	26·45 „

The apparent increase over the mortality of previous years is attributed partly to improved registration, and partly to the local prevalence of cholera; but it may be doubted whether the figures are sufficiently accurate to form the basis of any trustworthy conclusion.

3. It should be observed that, in so far as cholera is traceable to the movements of large bodies of pilgrims, Orissa appears to be more generally exposed to the disease now than was formerly the case. With the opening up of good roads through the Tributary States and the adjoining district of Sumbulpore, fresh streams of pilgrims pour in from Central India and the North-Western Provinces, while large numbers come by sea to Chandbally or False Point, making their way thence to Pooree by various internal routes. Thus, although cholera is by no means so severe as it used to be along the line of the Trunk Road, and large bodies of labourers are no longer collected on irrigation works, a wider area of the province is exposed to the influences which tend to produce or disseminate the disease.

4. The Commissioner notices a curious hysterical affection called “surukumari” or “jhunjhima” which entered Orissa from Madras in June 1876, disappearing in the north of Balasore towards the end of August. This appears to be identical with the “surukumari” or “kotkotea” mentioned in the report of the Health Officer of Calcutta as prevailing near Atchipore in October. The chief symptom in both cases was supposed to be a violent tingling in the toes, which gradually crept up the body; but in Calcutta it was believed that death would follow if the tingling were allowed to spread, and the remedies adopted were tight ligatures and cauterizing. In Orissa the result was a fainting fit of an hour’s duration, which might, it was thought, be averted by taking a pill made of the undigested food found in the stomach of a black she-goat. It is believed that the initial symptoms of this delusion superficially resemble those of a serious disease which prevails in Southern India; but its hysterical character is placed beyond a doubt by the fact that the epidemic entirely ceased in the 24-Pergunnahs after the discovery that a string tied round the great toe might be relied on as a sure prophylactic.

5. The last ten years have witnessed a striking development in the means of communication between Orissa and the outside world. The Trunk Road is no longer the sole highway of the province. Good roads have been extended into the Tributary States and the Central Provinces; steam communication has been established twice a week between Calcutta and Chandbally; the mail-boats of the British India Steam Navigation Company touch regularly at False Point, and many of the richer pilgrims to the shrine of Juggernath are landed at Pooree itself. During 1876-77 the steamer *Celt* ceased to run between Balasore and Calcutta, and the number of arrivals and departures of passengers from Balasore has consequently fallen from 2,467 to 3. The following statement shows the number of persons arriving at and leaving Chandbally in the last two years :—

					Arrived.	Departed.
1875-76	30,606	30,017
1876-77	33,762	33,118

Assuming that the number of pilgrims entering and leaving Orissa is about the same in any given year, it would appear from these figures that the stream of Ooriya emigrants seeking service in Bengal is nearly balanced by the number of those who return to their homes, and that the mean population of the province is unaffected by any causes beyond its natural rate of increase. Emigration

to more distant countries is unknown, and immigration of Telugu labourers from Madras has gradually fallen off since the completion of the canal works. During the year of report 62 emigrants were registered under Bengal Act VII of 1873 in Cuttack, four in Balasore, and none in Pooree. Of those registered in Cuttack, nearly all were Telugu labourers from Ganjam, who, failing to find work, agreed to emigrate to Assam.

6. The exceptional demand for rice from the famine districts of Madras caused a continuous rise of price in all three districts of Orissa throughout the year. In the month of April 1876 rice was selling in Cuttack at 29·8 seers to the rupee, but in March 1877 it had risen to 18·6, the average price of the year being 22·8, or 4½ seers higher than the average of the division calculated for the last sixteen years. In Pooree the April price of 27·9 seers had risen by the following March to 17·1; the average of the year was 21·15, or 5·25 more than the divisional average. In Balasore, rice went up from 32 seers to the rupee in August 1876 to 20 seers in February 1877, but according to the district return it fell again in March to 30 seers, or very little above the point at which it started. It will be observed that the price rose most rapidly, and to its greatest height, in Cuttack and Pooree. Both are purely town areas producing nothing locally, but drawing their supplies from the country round. These supplies were sensibly curtailed by the demand from Madras, which attracted rice to the sea-coast and thus raised the prices in the towns. Pooree was also a port of shipment, and the popular discontent at the high prices there was aggravated by the sight of the grain stored for export on the beach, and by the operations of the wholesale merchants, who established a cordon round the town and bought up all rice as it was being carted in. The result was that the supply, even at the enhanced prices, was somewhat scanty; and the people took advantage of the absence of the European officers at the Cuttack Durbar on the 1st January 1877 to plunder grain to the value of nearly half a lakh of rupees. The riot was suppressed after two days, and more than half of the rice recovered. The case of Balasore is different. It is not a regular town like Cuttack and Pooree, but a group of straggling villages, where cultivation alternates with bazars, and most people grow their own rice. Moreover the exports from Chandbally are drawn from the interior of the district, and do not affect the supply of Balasore town. In Jajpore and Kendraparah, which are mere villages, the average price of the year was 35 seers; while in Bhuddruck the difficulty of communication with Chandbally kept the average as low as 41·10. Khoordah shows an average of 25·1, but there is some doubt whether a regular rate can be arrived at, as the tract is purely agricultural, and there are no markets large enough to afford a trustworthy index of price.

7. Doubtless the enhanced cost of their chief article of food was a real hardship to those dwellers in towns who have fixed incomes and do not participate in the increased profits which accrue to the agricultural population; but a little providence in storing when grain is cheap would, and usually does, do much to mitigate this. The exceptionally high rates now ruling will fall with the cessation of the Madras demand; but there is reason to believe that the extension of the trade of Orissa, which has taken place in the past year, will produce permanent effects in a sensible increase of the normal price of rice throughout the province, and add greatly to its wealth.

8. The wages of unskilled labourers have risen, especially at the places of export; but skilled labour is not more in demand than hitherto within the province itself. Large numbers, however, of Ooriya artizans find employment in the factories of Calcutta.

9. The chief manufacture of Orissa is salt. In the tract north of the Brahmini, *punga* salt is made by the process of boiling; but in the southern portion of Orissa, between the Ganjam frontier and the Kushbhudra river, the kind of salt called *kurkutch* is produced by solar evaporation. This industry, which now affords employment to the indigent population of the borders of the Chilka Lake, is threatened with extinction by the competition of similar salt manufactured by the Madras Government under regulations more favourable to the wholesale dealers, and imported in large quantities from Ganjam. Salt manufacture has almost disappeared from Cuttack; and in Pooree large stocks are left unsaleable in

Manufactures.

the manufacturers' hands. The following statement illustrates the present condition of the salt industry in Orissa :—

DISTRICTS.	Total adults.	Total population.	Amount of salt manufactured.	Consumption in district.	Salt revenue levied in Bengal.	Consumption by adults per head.	Consumption per head of population.
			Mds. S. Ch.	Mds.	Rs. A. P.		
Cuttack	978,723	1,494,794	10,043 10 0	2,07,898	77,752 8 6	87	59
Pooree	507,303	768,674	2,32,187 28 0	98,770	3,04,816 13 6	712	52
Balasore	502,640	770,232	1,31,739 16 0	99,606	4,95,562 0 0	714	53
Total	1,988,675	3,034,690	2,73,970 14 0	4,06,274	8,78,131 6 0	53	55

10. It will be seen that, while Cuttack with a population of a million and a half consumed 2,07,898 maunds, it produced only 10,043 maunds within its own area, yielding to the Bengal Government a revenue of only Rs. 77,752. In fact only 5 per cent. of the salt consumed in Cuttack paid revenue in Bengal, the remainder having already paid revenue to Madras. In Balasore, where *punga* or salt made by boiling is chiefly used, a population of 770,000 or half that of Cuttack consumed 99,606 maunds, but produced 1,31,739 maunds, and paid Rs. 4,95,562 duty to this Government. The Pooree manufacture amounted to 2,32,187 maunds, but the merchants were disappointed of their usual market in Cuttack, and a large proportion of the stock is now stored at Pooree. The following figures of the salt revenue in Orissa for the last four years show clearly that the manufacture of *kurkutch* or sun evaporated salt is declining :—

					Receipts—Salt revenue.			
					1873-74.	1874-75.	1875-76.	1876-77.
					Rs.	Rs.	Rs.	Rs.
Cuttack					1,34,003	50,349	42,519	77,752
Pooree					6,88,765	5,74,069	3,85,446	3,04,816
Balasore					4,56,285	4,47,677	4,93,514	4,95,562
Total					12,79,043	10,71,685	9,11,479	8,78,130

The Government of India have been requested to sanction a reduction of the duty on *kurkutch* salt in Pooree from Rs. 2-4 to Rs. 2 per maund, and the question is still under their consideration.

11. The extraordinary demand for rice from the distressed districts of Madras, which has already been noticed, has exercised a considerable effect upon the export trade of Orissa, which had indeed for some years previously been growing at a rapid rate. The following statement shows the imports and exports of each of the three districts for the last seven years :—

DISTRICT.	Year.	Imports, value.	Exports, value.
		Rs. A. P.	Rs. A. P.
CUTTACK.	1870-71	10,32,355 0 0	6,69,766 0 0
	1871-72	9,00,133 0 0	4,75,700 0 0
	1872-73	8,49,647 0 0	8,21,429 0 0
	1873-74	11,42,893 0 0	10,00,432 0 0
	1874-75	9,11,689 0 0	17,00,471 0 0
	1875-76	13,80,653 0 0	12,71,576 0 0

POOREE.	1870-71	22,947 0 0	2,23,922 0 0
	1871-72	73,540 0 0	1,83,449 0 0
	1872-73	74,959 0 0	1,05,533 0 0
	1873-74	36,237 1 0	3,15,034 5 0
	1874-75	54,361 1 3	5,52,259 4 0
	1875-76	20,259 7 0	2,99,183 12 0
	1876-77 { Indian produce Rs. 29,225 Foreign merchandise „ 49 Treasure „ 72,000	1,01,274 0 0	7,32,570 0 0 { Indian produce ... 7,32,570 0 0 Foreign merchandise Treasure
BALASORE.	1870-71	8,00,785 0 0	4,43,070 0 0
	1871-72	6,14,327 0 0	5,47,242 0 0
	1872-73	2,51,488 0 0	3,90,208 0 0
	1873-74	17,18,168 8 6	16,31,708 14 8
	1874-75	26,36,836 12 11	21,38,305 0 11
	1875-76	20,72,282 1 8	16,99,956 4 4
	1876-77 { Indian produce Rs. 6,81,270 Foreign merchandise „ 15,15,061 Treasure „ 12,39,553	34,86,884 0 0	40,31,395 12 0 { Indian produce ... 31,44,863 14 0 Foreign merchandise 4,825 12 0 Treasure 8,73,206 2 0

It is unfortunately impossible to distinguish the amounts imported as treasure in the earlier years of the statement. There can, however, be no doubt that there has been for some time past an annually expanding trade between Orissa and the outside world, which will, the Lieutenant-Governor hopes, be the means of placing the prosperity of that province on an assured basis. It is understood that the Orissa rice is now known and appreciated in Southern India, Ceylon, and the islands of the Indian Ocean, and this view is confirmed by the number of ships entering and leaving the Orissa Ports as shown in the statement below :—

DISTRICT.	Year.	ENTERED.		CLEARED.	
		Vessels.	Tonnage.	Vessels.	Tonnage.
Cuttack	1870-71	105	50,744	110	61,522
	1871-72	86	72,525	86	70,023
	1872-73	75	60,999	80	70,325
	1873-74	106	86,597	101	84,545

13. A full and interesting account of the trade of Balasore is given in an extract from the Collector's report. It appears that, on the first signs of the failure of crops in Madras and Bombay, a large number of Marwari and Telugu merchants flocked into this district and began to purchase grain direct from the actual cultivators, and to export it through Balasore, Chandbally, and Luckimpore. In consequence of their operations, the number of mercantile telegrams so increased that an extra signaller had to be appointed. The whole neighbourhood of the port of Balasore became one large rice market, and as many as 25 ships of heavy burthen were at one time anchored outside the Balasore

buoy, and loading from boats which had brought cargo by a tedious and expensive journey 23 miles from the town. At the beginning of December the trade began to be seriously hindered by the lack of specie to carry on purchases from the cultivators. The surplus coin in the Balasore treasury had been exhausted in the encashment of currency notes, money orders, and supply bills: no steamer was then running between Balasore and Calcutta, and it was practically impossible for private persons to import treasure by road. Notes consequently became inconvertible even at a discount of 5 per cent., and copper money was hardly to be had at a discount of one anna in the rupee. In the first week of January, however, the steamer *Jumna* began to run, and brought three lakhs of coin from Calcutta in her first two trips.

14. A similar expansion of trade took place at Chandbally, where English and foreign ships and native sloops took in cargoes of grain for the Madras and Bombay ports, the Mauritius, Ceylon, and the Maldivé and Laccadive Islands; while large consignments of grain were sent by river to False Point for shipment on vessels which were too large to make their way up the Byturnee. As Chandbally had steamer communication with Calcutta throughout the year, the trade was not hindered by the supply of cash running short. The extreme activity with which the business of exporting rice was carried on is evidenced by the following comparison between the exports of that staple in 1875-76 and 1876-77:—

			Quantity. Mds.	Value. Rs.
1875-76	{ Rice in the husk	...	2,67,989	2,12,015
	{ Rice not in the husk	...	5,37,329	8,68,355
1876-77	{ Rice in the husk	...	99,381	72,499
	{ Rice not in the husk	...	14,12,967	25,80,475

The export of grain to Madras and Bombay in the past year exceeds by 50 per cent. that of 1874-75, the year of the Behar scarcity; besides this Ceylon, the Maldives, and the Mauritius took grain worth Rs. 1,96,858 on which customs duty amounting to Rs. 18,224 was levied. It is a good omen for the permanence of the trade that the native sloops hitherto employed in the export trade have been in great measure displaced by foreign ships of considerable burthen specially chartered for the purpose.

15. As compared with the ports of Cuttack and Balasore, the open roadstead of Pooree, where goods have to be landed through the surf, is at a serious disadvantage. The total exports amounted to Rs. 7,32,570, and the imports to Rs. 1,01,274, as has been noted above. The chief article of export was rice, 3,07,200 maunds in quantity, valued at Rs. 7,04,187; and the chief imports 133,990 gunny-bags, valued at Rs. 26,381, and Rs. 72,000 in cash. The traffic carried by road between Ganjam and Pooree, and registered at the inter-provincial station of Rumbha in Ganjam, appears, if the figures are trustworthy, to be more important, both in quantity and value, than the sea-borne traffic. According to the trade registration returns, 78,500 maunds of rice, 5,10,500 maunds of paddy, and 74,200 maunds of pulses were exported from Pooree into Ganjam. The same returns, however, give the salt imported as only 13,400 maunds, which is believed to be less than the real amount.

16. The diminution in the value of the imports into Cuttack, shown in paragraph 11, does not probably represent a real decline in the trade, but merely a partial diversion of its course from False Point to Chandbally, which is situated on the borders of Cuttack and Balasore, and receives indifferently goods destined for either district.

17. The Durbar held at Cuttack by the Commissioner for the purpose of reading the Imperial Proclamation was largely attended by the leading natives of the province.

State of public feeling

It is suggested that they had a somewhat imperfect comprehension of the meaning and objects of the ceremony in which they were taking part; but the mere fact of their willing attendance is not without value as an expression of the loyalty which is said to distinguish the Ooriyas, mindful to this day of the oppressions of the Mahrattas. Some signs of discontent were shown in Pooree, and to a less extent in Cuttack, at the increased export of rice. In Pooree, too, considerable anxiety is felt on account of the decline of the local manufacture of salt; and in the southern portion of the district some opposition is beginning to be shown to the pending settlement of the large Government estate of Khoordah. It is hoped, however, that the feeling against the assessment

may, by judicious management, be set at rest as readily as the objections which were formerly raised to the preliminary survey. On the whole, it may be said that, with the exception of some passing discontent in Pooree, and a certain amount of grumbling at the fees demanded under the land registration Act, the state of public feeling in the province generally has been quiet and contented during the past year.

18. The Officiating Commissioner, while considering it desirable that the Orissa districts should be administered by officers

Administrative changes.

having special knowledge of the province, urges that it is a mistake to allow young officers to spend all their time in Orissa only, as their experience thus becomes narrowed and local. There is doubtless much force in what Mr. Beames says upon this point, and the matter will receive attention.

19. The results of irrigation in Cuttack, the only district to which the system of canals has yet been extended, are shown thus—

	1875-76.			1876-77		
	Rubbee acres.	Khurreef acres.	Total acres.	Rubbee acres.	Khurreef acres.	Total acres.
Leased area ...	4,410	18,991	18,401	4,233	26,000	30,233
Receipts—	Rs.			Rs.		
Water rates	20,330	40,378
Miscellaneous	4,692	6,088
Total		25,022			46,466	
Cost of collection		25,998			21,699	

20. In consequence of the lateness and uncertainty of the rainy season, water leases were taken over a much larger area, and the receipts on account of water-rates are nearly double of what was collected last year. At the same time there has been a slight reduction in the cost of collection, so that, for the first time since the canals have been in operation, their receipts have exceeded the collection expenses. In 1874-75 there was a deficit of Rs. 11,650; in the following year the deficit came to Rs. 550, while 1876-77 shows a surplus of Rs. 24,767. Doubtless, too, it is a satisfactory sign that the entire increase in the area under leases is for the winter rice, which forms the staple crop of Orissa, and not for the comparatively unimportant spring crops. But the Lieutenant-Governor is not disposed to attach much weight to the proposition that when once a ryot has taken water and felt the benefit of it he is very likely to take it again. The experience of Midnapore shows that as yet the ordinary ryot has not learned the value of irrigation as an insurance against possible loss, and that a single season which yields results unfavourable to irrigation will neutralize in the cultivators' minds the most palpable benefits that they may have derived from canal water in previous years. The Commissioner's remark that no distributaries have as yet been constructed on the second and third ranges of the high level which traverse a dry and waterless country will be communicated to the Irrigation Branch of this Government. It is satisfactory to know that for the current year a much more extended demand for water has arisen.

21. The returns of cognizable crime for the calendar year 1876 show an increase in the number of cases reported in Orissa (6,275) over the average number (4,652) reported in the five previous years. But the Commissioner may perhaps be right in attributing this increase to more complete supervision, and to greater readiness on the part of the people to have recourse to the courts for the settlement of their disputes. The rough patriarchal authority of the zemindars to decide cases on their own estates is continually growing weaker, or is being transformed into a legal shape by the extension of the powers of Honorary Magistrates to all landlords who are fit to be entrusted with them. Sufficient measures appear to be taken to check the tendency to satisfy private grudges through the medium of the criminal courts. In cognizable crime, out of 6,275 cases reported, no less than 2,135 were found at the outset to be false; and in non-cognizable charges, although process issued against 6,467 persons, only 4,006 appeared in court, and only 2,921 were actually tried. On the whole, the Lieutenant-Governor is glad to find that Orissa maintains its

Police and justice.

immunity from organized professional crime; that the indigenous rural police do their work efficiently; and that the regular police, if somewhat less active than in other provinces, are less disposed to harass the people needlessly. A separate communication will be made to the Commissioner on the subject of the jurisdiction of the Moonsif of Jajpore.

22. It is anticipated that the number of petty rent-free holdings in Orissa will prolong the work of registration under Act VII (B C.) of 1876 over a period of several years. The following table shows the number of applications for registration that have been received in each district of Orissa:—

District.	Revenue-payable estates	Rent free holdings	Number of officers who have powers under the Act
Cuttack	7,271	62,995	6
Pooree	901	20,351	3
Balasore	2,193	38,263	4

The Commissioner observes (in paragraph 39) that the better class of landholders are convinced of the necessity of the Act, and also predicts that the fixity of titles which will ultimately result from it will act as a check upon litigation.

23. The revenue derived in Orissa from land, salt, stamps, and excise during the last five years is shown at one view in the subjoined statement—

	Land	Salt	Stamps	Excise	Opium	Total
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1872-73	17,36,841	12,84,353	1,06,842	2,23,414	1,44,69	35,57,793
1873-74	17,1110	1,73,046	1,84,016	2,12,910	1,07,03	30,42,788
1874-75	17,1110	1,071,846	1,08,742	2,02,117	1,81,536	15,81,889
1875-76	1,71,711	9,11,479	2,22,100	2,31,705	1,92,061	11,91,734
1876-77	17,16,106	8,78,130	2,13,10	1,10,101	2,01,00	31,81,900

Collections of land revenue were made punctually, and the outstanding balances are trifling. Four estates were sold in Cuttack, and the same number in Balasore, for arrears of revenue. The aggregate revenue of the four Balasore estates was only Rs. 26, and it is stated that the sales were probably intentionally brought on by the defaulters, in order that their estates might be sold with an undoubted title, and the expense of registration might be saved. The settlement of an important Government estate in the town of Cuttack has been completed, and its revenue has been raised from Rs. 8,087 to Rs. 10,638. (The decrease of land revenue in 1875-76 was only apparent, and due to a re-arrangement of the instalments made in that year.)

The decrease under the head of salt has been commented on above. Stamps show an increase of Rs. 21,440. There were eleven prosecutions for offences against the stamp laws, in all of which the offenders were punished by fine.

24. The excise revenue of the year, as compared with the average revenue on this account in the previous five years, was as follows:—

Comparative Statement of the Excise Revenue of 1876-77, and the average of five years

	AVERAGE REVENUE OF FIVE YEARS				REVENUE OF 1876-77				DIVISIONAL RESULTS	
	Cuttack	Pooree	Balasore	Total	Cuttack	Pooree	Balasore	Total	Increase	Decrease

Opium	61,28	17,619	81,012	1,60,653	81,806	23,177	1,04,480	2,10,963	44,404	.
Miscellaneous	30	.	.	30	3	.
Total	1,20,560	22,172	92,711	2,55,443	1,40,525	53,533	1,16,411	3,10,469	55,026	194

During the five years from 1870-71 to 1874-75 the average amount of opium consumed in the whole of Orissa was 241 maunds 3 seers. In 1875-76 the actual consumption rose to 257 maunds 29 seers, and the consumption of the past year to 264 maunds 20 seers, being an increase of 6 maunds 31 seers since 1875-76, and of 2 maunds 16 seers upon the general average noted above. The consumption of ganja indicates an increase of 66 maunds 29 seers over the average of the five years ending in March 1875, and of 21 maunds 31 seers over the actual consumption of the past year. On the other hand, although the consumption of country spirit is 1,673 maunds higher than it was last year, it is still 2,137 below the average. This is stated to have been due to the introduction of the auction system last year, but in any case the demand by natives of Orissa for country spirits appears to be trifling, mainly for the reason that the stimulants to which they are chiefly addicted are opium and ganja. An attempt has recently been made by Dr. V. Richards, in the columns of the *Indian Medical Gazette*, to show that habitual opium-eating is by no means so injurious as is popularly believed, and that, even when taken in excess, opium is far less deleterious than ganja. The Lieutenant-Governor believes that it is quite possible that Dr. Richards is right in his conclusion that opium, if taken in moderation, may be beneficial in districts where fever and other diseases are prevalent and food is scarce; at all events his views are accepted by many men of practical experience; but Mr. Eden is sure that the increase in the consumption of ganja is a matter for much more serious regret than the rise in the consumption of opium.

25. It should be observed that the consumption of the former drug does not appear to have been affected by the enhanced price which now stands at Rs. 26 per seer in Pooree, and Rs. 27 in Cuttack and Balasore, and at Rs. 25 in the adjoining district of Midnapore. In fact the only result of raising the price appears to be that ganja is used to mix with the opium and augment the quantity of the stimulant at the expense of its quality. The Lieutenant-Governor has already announced his intention of increasing the duty on ganja, and the Board of Revenue should consider whether the price of opium might not be raised, not only in Orissa, but other districts in which the demand shows a tendency to increase.

26. The report shows that there was a deficiency of both notes and cash at one time or other in both Balasore and Cuttack. The growing trade of Orissa evidently renders a revision necessary of its currency note and treasury arrangements, and the matter is now under the consideration of the Accountant-General, who has proposed an arrangement which it is believed will meet the public convenience in respect of the supply of silver, so far as this can be met without causing actual loss to Government. The enormous development of the money order system due to the same cause is also very noticeable.

27. In respect of roads and means of communication, Balasore is stated to be better provided than the other districts of Orissa; but the Lieutenant-Governor understands that the very important road from Bhuddruck to Chandbally is impassable in the rains. The District Road Cess Committee should be instructed to take this matter in hand at once, as it is essential to the development of Chandbally as a port that ample means of communication should be opened up with the interior of the district. As regards the road from Cuttack to Chandbally, the proposal to establish rest-houses for the convenience of pilgrims seems a good one; but the Lieutenant-Governor is not prepared to admit the maintenance of the road as a charge upon Provincial Funds, though he is prepared to consider any reasonable proposal for a grant-in-aid of local funds for the construction of

Roads and communications

main lines of road leading to ports. In a district so backward as Pooree, it may be doubted whether the policy of having "few roads and good" can be literally adopted without needlessly delaying the advance of trade, and the Officiating Commissioner remarks that while the roads are few they are certainly not good as yet. The Lieutenant-Governor is glad to find that the road connecting Balasore with Mohurbhunj is being creditably executed, and will soon be completed.

28. The chief feature of the educational administration of the year was the introduction into Balasore of that system of payment by results in primary schools which has been apparently so successful in Midnapore. Large numbers of the private pathsalas, which are indigenous to Orissa, and which have long refused aid under the old system from dislike of Government interference, have enrolled themselves for examination, and the number of aided pathsalas has consequently risen from 189, with 4,842 pupils at the beginning of the year, to 1,413, with 19,093 pupils at its close. It is proposed to introduce the system into Cuttack, and it should be considered whether the success which has attended its working in the Oriya-speaking portion of South Midnapore would not warrant its extension to the whole of Orissa. There can be no doubt that, whatever objections may be urged against the system, the genuine village pathsalas of long standing prefer it to the grant of stipends, as under it the guru's income is not definite enough to induce the villagers to withdraw their customary contributions. It is true that the standard of education is not nominally so high as in the stipendiary pathsalas; but this may possibly be raised by fact, and in any case the benefits of education are more widely diffused. The Lieutenant-Governor observes that a large number of girls are stated to have attended the village schools at Pooree. Further details should be given in the educational report. The fact that fifteen pupils from the Cuttack Collegiate School, and five pupils from the Pooree Zillah School, passed the Entrance Examination seems to indicate an advance in higher education in Orissa. No students passed from Balasore. The Lieutenant-Governor is glad to find that the appointment of a native of Orissa as Joint-Inspector has had a good effect upon the administration of the department during the year.

29. Mr Eden has much satisfaction in hearing that the Honorary Magistrates have conducted their work well and given general satisfaction. The names of Rajah Shamanud Dc, Koomar Baikunth Nath Dc, Baboo Nemai Churn Bose, Baboo Koilash Chundia Roy, Mahashoy, and Baboo Mudun Mohun Dass. are mentioned by the Commissioner for their liberality and public spirit.

30. For nearly nine months of the year the province was administered by Mr. T. E. Ravenshaw as Commissioner, and benefited by his intimate knowledge of its requirements and long experience of its people. Mr Ravenshaw speaks favorably of the services of all the officers working under him.

By order of the Lieutenant-Governor of Bengal,

A. MACKENZIE.

Offg. Secretary to the Govt. of Bengal

RESOLUTION REGARDING SETTLEMENT OF THE SONTHAL PERGUNNAHS.

REVENUE DEPARTMENT—LAND REVENUE.

Calcutta, the 15th September 1877.

READ—

A letter No. 2012R, dated 20th August 1877, from the Commissioner of Bhagulpore, submitting a report on settlement work in the Sonthal Pergunnahs during the year ending 30th June 1877.

Read again—

The Resolution of this Government, dated the 25th of September 1876, on the report of the above-operations for the year 1875-76.

THE work in connection with the settlement of the Sonthal Pergunnahs has grown as the operations proceeded. Fresh difficulties have arisen, or further inquiries have from time to time been found necessary; and now, again, at the close of another year's operations, it has to be recorded that there were still, on the 30th June 1877, 912 villages remaining for settlement, besides a good deal of important detail in connection with villages in which the rates and rental have been nominally fixed. The Lieutenant-Governor fully recognizes that no blame attaches to the settlement officer, Mr. Wood, for these delays. Mr. Wood has been most diligent, and has shown throughout how thoroughly qualified he is by experience and tact for managing these delicate operations; but the detailed ryotwari settlement found to be necessary in the Bengali villages lying in the pergunnahs, and the special difficulties which cropped up in Deoghur, have combined to prevent an early completion of the work. The outcome of the year is, notwithstanding all this, in itself most creditable, the returns showing that Mr. Wood settled himself 1,310 villages, besides revising the settlements of 225, and examining and confirming Mr. Smith's work in 1,591. There seems now to be good ground for believing that all will be finished during the ensuing field season.

2. The settlement work done during the year was conducted apparently on the principles laid down in the orders of Government and explained in former reports. As far as possible existing rents have been maintained, and the circumstances under which in certain cases an apparent increase or decrease was permitted are set forth in the Commissioner's report. From Statements B and C of the settlements made during the year, it would appear that the settlement officers' gross jumma came to Rs. 1,31,949 against a nominal jumma of Rs. 1,13,734 paid to the zemindars, and of Rs. 1,20,434 collected by the mustajirs. In many instances throughout this settlement, what appears an increase arises merely from the inclusion in the settlement of lands held nij-jote by the mustajirs, and the actual realizations from the ryots by this class of farmers were frequently much greater than the jumma shown in the returns. That the settlement will be a boon to the ryots cannot be doubted, looking to the facts stated in the report as to the manner in which landlords and farmers, both Native and European, were wont to run up the rents on short leases and exact illegal cesses. On the other hand, the settlement will benefit the zemindars by giving them an assured income, and preventing that system of making over their lands to money-lenders, which is shown to have deprived so many of the old ghatwals of all property in their ancestral holdings.

3. The Statement E (of appeals) appended to the report shows that Mr. Wood disposed of 322 cases out of 402 on his file during the year, while the Commissioner only disposed of 25 cases out of 131; and as 25 cases were pending at the close of the preceding year, the Commissioner, in fact, only cleared off in 1876-77 the balance of cases of the year before, and did not take up any of the fresh cases instituted. This is not satisfactory, and the Lieutenant-Governor must request that no time will now be lost in disposing of these cases. It is very undesirable, under the circumstances of the Sonthal Pergunnahs, to keep appeals pending so long.

4. The Resolutions on past reports have repeatedly called for information as to the progress made in realizing the large arrears of rent claimed by zemindars on account of former years. Last year's Resolution called for a tabular statement and report in connection with this very important matter. These do not appear to have been submitted up to date, and in the present report the subject is not even mentioned. The Lieutenant-Governor requests that the Commissioner will explain his failure to attend to the orders of Government, and report now precisely how the facts stand for each sub-division of the district.

By order of the Lieutenant-Governor of Bengal,

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

From—HORACE A. COCKERELL, Esq., Offg. Secretary to the Government of Bengal,
To—The Commissioner of the Patna Division.

I AM directed to acknowledge the receipt of your letter No. 299G, dated the 28th August 1877, in which you state that the Maharanee Rajroop Kuar in establishing, with the sanction of the Lieutenant-Governor, a charitable dispensary at Tikari, in the Gya district, intended that it should commemorate the assumption by Her Majesty the Queen of the title of Empress of India; and you intimate the Maharanee's desire that her object in this manifestation of her liberality should be announced officially.

2. In reply, I am to say that, in compliance with the wish expressed by Maharanee Rajroop Kuar, this letter will be published in the Supplement to the next *Calcutta Gazette*, in continuation of the correspondence published in the Supplement of the 1st August 1877.

STATEMENT SHOWING THE STOCKS OF RICE IN AND AROUND CALCUTTA.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

ABSTRACT OF REPORTS ON DISTRICT STOCKS OF RICE &c., AND MOVEMENTS OF PRICE IN BENGAL, RECEIVED UP TO THE 18TH SEPTEMBER 1877.

N. B.—No reliance can be placed on the accuracy of figured estimates of stocks in the interior; at best a rough approximation is all that can be expected.

Burdwan, 15th September 1877.—This week the imports to Burdwan and other stations on the line have been smaller, owing to the heavy rains. Exports to Calcutta by rail and boat have likewise been smaller. Prices stationary nearly everywhere, except in Jehanabad, where they have risen considerably. The stock of rice in Burdwan town is about 25,000 maunds.

Bankoora, 15th September 1877.—About 5,000 maunds of rice have been exported from the district during the week.

Beerbhoom, 15th September 1877.—The price of rice in the different marts varied during the week from 12½ to 15½ seers per rupee, being 14 seers at Soory. There is thus no change in prices. Exportation is going on without any apparent diminution, but no statistics have been obtained from the railway, nor any reliable information from any other source.

Hooghly, 15th September 1877.—The imports to, and exports from, Chandernagore and other places on the Hooghly were about equal during the last week, being about 7,000 maunds. The stock in hand in these places may be estimated at about 55,000 maunds. Prices stationary with a tendency towards a fall. Coarse rice is selling at 11 to 11½ seers per rupee.

Howrah, 15th September 1877.—Prices have hardly changed since last week, and the export has not been sufficient to materially reduce the stocks as previously reported.

21-Fergunnahs, 15th September 1877.—Export of rice to Calcutta from Diamond Harbour, Busseerhat, Satkhira, Barripore, and Barraekpore sub-divisions is going on; 15,296 maunds of rice and 8,244 maunds of paddy from Diamond Harbour, 4,139 maunds of rice from Busseerhat, were exported during the week. The price of common rice is—at head-quarters, 9½ seers; Diamond Harbour, 12½ seers (old); Busseerhat, 14-5 seers (new rice); Baraset, 10 seers old, and 12 seers new, rice per rupee.

Nuddea, 15th September 1877.—6,648 maunds of rice were imported into the Kooshtea sub-division, and 5,075 maunds were exported from it by rail during the week. From Moherpore 5,500 maunds of wheat and gram were exported to Calcutta. The Kissengunge toll-office passed 175 maunds of rice, 140 maunds of barley, and 1,895 maunds of pulses. The Nuddea toll-office passed 600 maunds of wheat and 1,275 maunds of gram to Calcutta. From Ranaghat rice is being exported to Calcutta from three thanas. From Bongong 1,605 maunds of rice were exported. From Choondanga the exports have been little or nothing. The Sudder sub-division imported 172 maunds of rice, and about 110 maunds of cereals and pulses; but it exported 1,167 maunds of rice and 731 maunds of pulses. The price of coarse rice varies from Rs. 2-8 to Rs. 3 per maund, the average not being far from the latter figure. Throughout the district prices have a tendency to rise.

Jessore, 15th September 1877.—Prices continue firm. The food-supplies of the district are ample. The Khoosha registration office shows 7,676 maunds of rice exported from the district during the week.

Moorshedabad, 15th September 1877.—The prices of fine rice vary from 10 to 12 seers, of common rice from 12 to 13½ seers, of coarse rice from 12½ to 15½ seers, of wheat from 14 to 15 seers, and of gram from 16 to 20 seers the rupee. Exports were less during the week. The Bhagiruthee river returns show—Exports, 18,935 maunds, namely, rice 15,600 maunds, paddy 1,000 maunds, gram 200 maunds, wheat 300 maunds, &c.; imports, 22,262 maunds, namely, rice 18,190 maunds, paddy 1,400 maunds, gram 356 maunds, wheat 256 maunds, &c.

Dinagopore, 15th August 1877.—The Collector gives the following memorandum of prices of common rice from April to August 1877:—15th April, 28 seers; 1st May, 28 seers; 18th May, 30 seers; 1st June, 28 seers; 15th June, 25 seers; 1st July, 24 seers; 16th July, 20 seers; 31st July, 19 seers; 14th August, 22½ seers. The price in the second week of August 1876 was 24 seers, and in the corresponding period of 1875 the same.

The 14th September 1877.—Price of rice is still rising.

Rajshahye, 15th September 1877.—The export of rice from the several marts and gunges, amounted to 3,502 maunds, the greater part of which was sent to Calcutta, and small consignments went to Furreedpore and Serajgunge. The stock available for export is a little over 5½ lakhs of maunds. At beginning of week common rice sold at 14½ seers, on the 11th at 13½ seers, and on 15th September 14½ seers per rupee.

Rungpore, 14th September 1877.—During the week rice has become much dearer at head-quarters. At Kurigaon there is no further rise of prices, and no great amount of exportation is going on. From Garbanla sub-division the export of rice was 1,500 maunds to Goulpara, Gowhatti, and Calcutta, and 5,500 maunds to Serajgunge. No rice, either by rail or river, was exported from Bagdogra sub-division. Stocks all over the district are believed to be ample.

Bogra, 15th September 1877.—About 5,300 maunds of rice were exported to Calcutta and 1,800 maunds were imported from Dinagopore. The price has risen a little. The local supply is plentiful.

Pubna, 15th September 1877.—Coarse rice sells at Pubna town at Rs. 2-4, and Poorbee at Rs. 2-8. At Dulai as is 18 seers and aman 20 seers a rupee (kutchu weight). At Mothura, rice is 15 or 16 seers; at Chatmohur 18 seers (kutchu weight). At Shazadpore rice sells for

Rs 2-12, and at Ullapara Rs. 3 per maund (puaka weight). At Raigunge *amun* is Rs. 3-5-6 and *aus* Rs. 3; 1,200 maunds of rice were exported from here to Calcutta. At Serajunge the retail price of common rice is 12 seers a rupee.

Darjeeling, 15th September 1877.—The prices of food-grain rose slightly during the past week owing to the bhadoi crop having fallen short, but no great inconvenience has been experienced, and the stock continues to be ample for the wants of the district.

Julpigoree, 15th September 1877.—No exportations from Boda during the week. Slight exportations to Cooch Behar from Fallacotta market. New rice is selling at Koochabari near Alipore at 20 seers; at Salbari at 22 seers; and at Alipore at 18 seers the rupee. General stock ample for local requirements, although the bhadoi rice-supply this year will last a shorter time than usual. No distress is anticipated.

Cooch Behar, 13th September 1877.—The price of rice rose to Rs. 3-12; new bitri sold at Rs. 3. This rise is believed to be temporary. No exportation is reported to have taken place during the week. The prospects of *hymanthi* dhan having much improved, no deficiency of supply is apprehended.

Dacca, 15th September 1877.—Exports by boat from Naraingunge to Calcutta and Goalundo were 16,175 maunds; and by Eastern Bengal Railway steamer 8,500 maunds. Markets are not well supplied owing to the high winds that have prevailed, and this has raised the prices; but they are expected to fall with the return of fine weather. The prices are—in Maniokgunge, Rs. 3-2 to Rs. 4; in Naraingunge and Dacca, Rs. 2-12 to Rs. 3-2; at Mirpore, Rs. 2-15 to Rs. 3-5. Paddy is 20 to 25 seers.

Furreedpore, 15th September 1877.—Prices are still rising, the average not being more than 11 seers per rupee. Imported rice is coming in in stinted measures. There is no exportation to speak of. Local stocks are believed to be low, and very small quantities of rice are being brought to market from them.

Backergunge, 13th September 1877.—The great exportations in the earlier months of the year have greatly diminished the stock of food usually in store at this season; also the gross produce of last *amun* harvest was less than usual. The prices of rice are—at Bhola, Rs. 3-8 to Rs. 3-10; at Burisal, Rs. 3-8 to Rs. 4-8; at Nulchitty, Rs. 4; Gournuddy, Rs. 3-8; Perozepore, Rs. 4-4; and Mirzapore, Rs. 5. There has been so great a depletion of food stocks that rice is being constantly imported. The importations during the week were 20,079 maunds, and the exportations to Calcutta 2,130 maunds. The Collector, however, thinks these figures incorrect. It is believed that prices will rise higher; but there is enough food in the district to meet the requirements of the people till the next *amun* is out.

Mymensingh, 12th September 1877.—No alterations since date of last report, except that prices have risen still higher.

Chittagong, 13th September 1877.—Large importations last week have eased rates, which now vary from 13 and 14 seers in the town to 6 seers per rupee in Toknaaf. No exportation of rice to Calcutta.

Noakholly, 13th September 1877.—Prices of food-grains are about the same as reported last week. Coarse rice is about 13 or 14 seers a rupee in the mainland markets, which are fairly supplied in the north of the district. Prices continue higher in the islands, viz the south. There is practically no exportation, though a little has been going from Bamni to Chittagong.

Tipperah, 14th September 1877.—Prices of rice vary from Rs. 2-9 to Rs. 3-4 in the various marts of the district. The large amount of exports keeps prices high. Stocks in hand, roughly calculated, may be 15 lakhs.

Hull Tipperah, 13th September 1877.—The markets continue to be well supplied. Rice is in some places imported from the adjoining districts, but to a small extent. The *aus*, now being gathered, will afford ample local supplies. Prices are almost stationary.

Patna, 15th September 1877.—Prices have risen at Barh owing to purchases for export, but easier elsewhere, especially in Behar.

Gya, 15th September 1877.—In the Sudder Bazar the imports were—rice, 2nd quality, 40 maunds, rice, 3rd quality, 879½ maunds, common rice 45 maunds, wheat 160½ maunds, barley 13 maunds, gram 89 maunds, &c; the exports consisted of 342 maunds of rice, 3rd quality, to Patna. From Nowadah sub-division only 25 maunds were exported to Sheikhpooora, and from Aurungabad 850 maunds to Shahabad and Patna. The imports in the former sub-division amounted to 157 maunds, and in the latter nil. No information received from the other sub-divisions.

Shahabad, 15th September 1877.—Prices have fallen everywhere.

Mozufferpore, 15th September 1877.—Prices have risen during the past fortnight. Small exportations continue to be made.

Sarun, 15th September 1877.—The imports during the week amounted to 9,125, the exports to 1,500, and the local consumption to 15,545 maunds. The stocks in hand amounted to 28,494 maunds. The imports were from Shahabad, Patna, and Fyzabad. Exports are almost at a standstill. The grain dealers are purposely holding back stocks in some places. The prices are—wheat 14½ seers, barley 19½, best rice 9½, common rice 11½, gram 20½, paddy 20½ seers per rupee.

Chumparun, 15th September 1877.—Prices have fallen in Motihari, but generally risen slightly. No exports.

Monghyr, 15th September 1877.—The stock of food-grains for sale at the different marts during the week amounted to—rice, 14,158 maunds; dhan, 8,707 maunds; wheat, 38,008 maunds; gram, 62,353 maunds, &c.

Bhagulpore, 16th September 1877.—Trade quiet. Imports from the interior to sudder entirely stopped by the flooding of roads.

Purneah, 15th September 1877.—The late rain has been most beneficial to the crops, and has allayed the fears of scarcity which had begun to be expressed in some quarters. Many of the people who were last week hoarding their stocks have now brought them out, and though the prices are still high, owing to demand elsewhere, they will continue to fall. The mahajuns have not been exporting largely.

Maldah, 15th September 1877.—Prices are still rising; average price of coarse rice is 15½ seers per rupee against 16½ seers last week. No other change.

Sonthal Pergunnahs, 16th September 1877.—The supply of food-grains in the several marts of the Deoghur sub-division was as follows:—Paddy 24 maunds, wheat 32 maunds, common rice 661 maunds, best rice 42 maunds, Indian-corn 7 maunds, and gram 30 maunds. 302 maunds of rice were exported to Calcutta, and 100 maunds to Monghyr. The prices were—common rice Rs. 2-7 to Rs. 2-14, and wheat Rs. 2-6 to Rs. 3 per maund.

Cuttack, 15th September 1877.—From all sides the report is that there are ample stocks till the next crops come in. Export is, however, going on briskly, and it is rumoured that very large advances have been given by some of the exporting merchants for the ripening crop. From Jajpore it is reported that there is at least sufficient rice in store for the consumption of the population for the next six months. Now that the Baitarni is in flood, there is export to Calcutta *via* Chandballi, and the rise in price from 16 to 14 seers is attributable to that cause. In those parts of Kendrapara where coarse rice was 22 Cuttack seers per rupee the week before last, it is now 16 seers only. The reason is the steady purchase of rice for export. It has, however, been ascertained that there are ample stocks to carry the people on till the saradh harvest, after allowing a liberal margin for export. The actual export at False Point during the week has been 1,838 maunds only.

Pooree, 13th September 1877.—Rice is obtainable in all parts of the district, but the price in the city is very dear. The export to Madras is brisk *via* the Ganjam road, the Chilka, and the Bay. Prices vary from 10½ to 18½ seers the rupee.

Balasore, 14th September 1877.—During the past week the export has consisted of 12,986 maunds of rice and 1,112 maunds of paddy from Chandbally to Madras, 2,404 maunds of rice to Calcutta, besides a small export by land towards Contai. Prices have remained almost stationary. Cleaned rice sells at Balasore for Rs. 2-6 6, and in Chandbally for Rs. 2-7. Stocks held for export at Balasore amount to 81,300 maunds, and in Chandbally to 64,893 maunds.

Hazarcebagh, 14th September 1877.—Markets are well supplied. The late rain has caused a slight fall in the prices of wheat; gram and common rice are slightly dearer than last week. Makai continues to come freely into the market, and is selling at a low rate.

Lohardugga, 14th September 1877.—Bazars well supplied. Prices lower at head-quarters, and have not changed at Palamow.

Singbhoom, 14th September 1877.—The supply of food-grains continues plentiful. No changes in their prices. Exportation *nil*.

Mumbhoom, the 15th September 1877.—The heavy rain in the early part of the week interfered with the movement of grain in the district. Along the bridged roads exportation has gone on as before. The supply of food grain continues generally good. Prices will be somewhat abnormal, owing partly to export and partly to the blight in the rice.

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 15th September 1877.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.			
<i>Western Districts.</i>			
BURDWAN DIVN.	1 Burdwan, Sept 15 '77	1.55	Rainfall at Cutwa has been 5.79 inches, at Bood-Bood 4.39, at Raucgungu 7.22 and at Jehanabad 1.31. Crops are doing very well. <i>Aus</i> paddy and jute are being cut. Some injury has been done by floods near the Dwarakessur river. Fever is prevalent.
	2 Bankoora, „ 15 „	9.11	Very heavy rain fell during the early part of the week. The weather has been fine since the 12th instant. The crops continue to promise well. Little or no damage was done by the heavy rain, although the rivers rose to an almost unprecedented height.
	3 Beerbhoom, „ 15 „	8.76	Very heavy rain during the week, and the district can now very well do without more for the present. Crops are doing very well. The rice is as forward as it ought to be, and a good average harvest may now be fairly counted on.
	4 Midnapore, „ 15 „	7.76	Weather—seasonable. Prospects of the crops on the whole are very fair. Fever is generally prevalent, threatening a return of the epidemic.
	5 Hooghly, „ 15 „	4.04	Weather—cloudy, with copious rain on the night of the 11th instant. About one-half of the early rice crop has been already harvested, and the estimated outturn is 14 annas. Jute and <i>amun</i> are being reaped. Late rice and all other crops on the ground are doing well. The rain of the 11th has been very beneficial. Public health is normal.
PRESIDENCY DIVN.	Howrah, „ 15 „	5.02	Very heavy rain on the 10th instant; fair rain till the 12th; since then beneficial sunshine. Prospects of the crops continue good.
	<i>Central Districts.</i>		
	6 24-Pergunnahs, Sept 15 '77	6.98	Rain with high wind during a greater part of the week. Harvesting of <i>aus</i> is going on, and prospects of <i>amun</i> are favourable. Crops on the low lands are said to have been somewhat injured by the heavy fall of rain, but the injury is not great, crops on the high lands, on the other hand, have been benefited. Public health is generally good.
	7 Nuddea, „ 15 „	1.08	There has been a good deal of rain accompanied by wind in some parts. The weather is now clear and settled. Early rice has almost all been gathered satisfactorily. The rain which has fallen has been very advantageous to late rice. Chillies, sugarcane, and <i>arkur</i> , are promising. The rivers have risen much during the last few days.
	8 Jessore, „ 15 „	5.33	Weather—wet and cloudy during the first part of the week; at present hot. Rain fell on five days at the Sudder Station. It was very heavy on the night of the 11th instant. The 14th and 15th were bright sunny days. Bagerhat had 6.30, Narail 6.97, and Khoolna 9.17. <i>Aus</i> has been cut in the greater part of the district. Prospects of <i>amun</i> are good. It has been benefited by the late rain.
RAJSHAHY AND COCH BEHAR DIVN.	9 Moorshedabad, „ 15 „	6.27	Weather—seasonable. 8.37 inches of rain registered at Jungypore and 3.06 inches at Lalbagh. The heavy rain which fell during the week has greatly benefited the <i>amun</i> crop, but some damage to the <i>khadoi</i> is reported from Jungypore. Prospects continue favourable.
	10 Dinagapore, „ 14 „	12.03	Heavy and almost incessant rain during the week, 11.72 inches registered at Roygunge up to 12th instant. State and prospects of the winter crop are much improved. <i>Bhadai</i> is being harvested, and is estimated to be a fourteen-anna crop.
	11 Rajshahy, „ 15 „	5.15	There has been heavy rain all over the district, which has done much good to the winter rice crop, and has in a great measure compensated for the absence of the inundation water. The <i>aus</i> harvest is nearly over; the yield has been an average one. Jute is still being cut. The Ganges is rising.
	12 Kungpore, „ 14 „	13.32	Weather—very cool. Rainfall at Gaibanda 7.9 inches and at Kuigram 6.38. Since the 8th instant the rain has been accompanied by a high wind. Up to the morning of the 12th it blew steadily from the north-east with occasional gusts of violence. About the middle of the day there was a lull, but in the evening it commenced again with redoubled violence. On the afternoon of the 13th there was a perfect calm which was followed in an hour by a strong westerly wind. About 5 P.M. there was again a dead calm for about half an hour, after which a strong northerly wind began to blow; then it changed gradually to north-east, and at about 6 P.M. it blew in a most peculiar manner coming from the north-east and blowing into a twist towards the east and south; then it became calm at 6.30 P.M., and has been so since, with two showers of rain on the morning of the 14th. The heavy rain was much wanted for the <i>amun</i> crop and has been of great service to the country, but some fine weather is now required. It is reported from the Kuigram sub-division that 6.5 inches of rain have fallen during the week, and the prospects of the <i>amun</i> crop are thought to have now been assured; that in any case an average crop is pretty certain; that with some rain at the right time next month there will be an excellent crop; and that the <i>aus</i> and jute crops having both been good, the year bids fair to be a very prosperous one for the ryots there. Small-pox is reported in thana Barabari, but no fatal cases have occurred; otherwise the public health is fair.

No.	District, and date of return.	Rainfall at Sudder Station in inches	Character of the weather, state and prospects of the crops, and state of health at date
BENGAL.—(Continued.)			
Central Districts.			
RAJSHAHY AND COOCH BEHAR DIVY.	13 Bogra, Sept 15 '77	8.82	Weather—cloudy and rainy during most part of the week. On the 12th instant a strong gale accompanied by rain passed over the station damaging some houses, trees, &c. <i>Amun</i> and other standing crops are doing well. The rain that has fallen during the week has much improved the condition of these crops. It is reported from Panchbibe police station that some of the low land <i>amun</i> in its jurisdiction has been flooded, and that <i>arhar</i> also is more or less being damaged by the rain. Fever is not quite so prevalent as last week.
	14 Pubna, „ 15 „	7.24	Weather—favourable; cloudy and cool. Heavy rain on six days during the week. The rivers have swollen a little, but are still low for the time of year. <i>Amun</i> is expected to derive much benefit from their rise. <i>Aus</i> has been completely reaped. Jute is partially cut. The outturn of both crops is anticipated 12 annas. Fever is still prevalent.
	15 Darjeeling, „ 14 „	8.34	There has been a heavy fall of rain during the week, and there are signs of more. The rain has been of great benefit to the <i>kaimunti</i> rice, which will probably now give a fair yield.
	16 Julpigoree, „ 15 „	5.59	Weather—still cool. A violent east wind prevailed during the week, which is unseasonable and has proved unhealthy. Rainfall at Alipore 6.21 inches. The recent rain has proved too late to influence the outturn of <i>bhadoi</i> . Final reports show that an eight to ten-anna crop has been reaped throughout the district. In Boda alone the outturn is rather less. The transplanted <i>kaimunti</i> paddy looks fresh and healthy: the rainfall was in time to save this crop. It is too soon to estimate the outturn, but about twelve annas of the land usually cultivated have been sown with <i>kaimunti</i> . <i>Til</i> and <i>kalas</i> are flourishing, and jute shows a fair outturn.
Dacca Divy.	Cooch Behar, „ 13 „	16.05	Weather cloudy, rainy, and cool with a very unpleasant east wind. Mekligunge had 17.81, Mathabhangra 14.89, and Dinhatta 18.91. The copious rainfall of the week has improved the prospects of <i>kaimunti dhan</i> . The seedlings transplanted before are already looking better, and the transplanting which remained to be done is being vigorously pushed forward. Jute is being cut, and there will now be no want of water for steeping them in. The tobacco seedlings on the ground will probably be spoilt, but there is time for sowing seeds again. A break in the rains is now desirable. Public health is reported to be good.
	Eastern Districts.		
	17 Dacca, Sept 15 '77	6.95	Rain every day up to 13th instant. It was very heavy on the 12th and 13th. 4.95 inches registered at Manickgunge, and 11.96 inches (up to 13th) at Moon-sheegunge. The week has been favourable for the rice crop. The rivers have slightly risen (partly owing to high wind), and the heavy rain has given moisture to plants which were suffering. The prospects are better than they were last week.
	18 Furreedpore, „ 15 „	3.20	There was heavy rain during the greater part of the week. Madaripore had 7.72 inches. The last two days have been dry, and the weather is becoming hot again. The rivers have again begun to rise, though the water is not yet as high as it was before the fall. The rise in the rivers and the rainfall have been of some benefit to the rice, but under no circumstances can a full crop be expected; and unless the rise continues, and rain falls abundantly, the outturn will be very deficient. Jute and sugarcane are reported to be good.
CHITTAGONG DIVY.	19 Backergunge, „ 13 „	6.75	Weather—windy with copious rain everywhere. Prospects of the crops are good. Transplantation of <i>amun</i> is proceeding vigorously, and the area of land left uncultivated in the wave-stricken tracts will not probably be considerable. The district is healthier than it ever has been this year. Save in two thanas, the cattle are healthy.
	20 Mymensingh, „ 14 „	9.78	Weather—rainy. No change about the crops since last report. The outturn of <i>aus</i> rice has not been so good as was expected; that of jute has been exceptionally good.
	21 Tipperah, „ 14 „	10.54	Weather—very rainy throughout the week. 3.59 inches registered at Brahmunbariah. Prospects of the winter rice crop are good.
	22 Chittagong, „ 13 „	13.15	Very heavy rain. On the morning of the 12th instant a whirlwind passed through the stations unroofing houses and blowing men about. The last 18 hours have been fair and sunny. <i>Aus</i> is nearly all reaped. <i>Amun</i> is being transplanted. Heavy rains may have done some injury which is not yet known.
	23 Noakholly, „ 13 „	11.17	Incessant rain during the week accompanied by strong wind. The reaping of early rice and transplantation of <i>amun</i> crop still continue. The late rain has done much good to the <i>amun</i> cultivation. Public health is fair.
	24 Chittagong Hill Tracts „ „	...	Return not received.
	Hill Tipperah, „ 13 „	5.50	Heavy rain since last report. The rivers have risen and flooded the low lands on their banks. Reports from Kailashur and Odoypore state that floods have caused much damage in the northern and southern parts of the district. More damage is likely to be caused by the rain which has since fallen. <i>Aus</i> is being harvested, but the operation is impeded by the floods. The rice crop in the hills will be shortly cut. Cotton and <i>til</i> are promising.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.			
PATNA DIVISION.	26 Patna, Sept. 15 '77	1.29	Weather—hot with west wind during the last three days. Rainfall at Barrh 2.57, at Behar 6.34, and at Dinapore only .35. In the Behar sub-division plenty of rain has fallen and the small rivers have flooded the country. Prospects of both <i>khurreef</i> and <i>bhadoo</i> crops are good. There have been less rain and flood in Barrh, but <i>khurreef</i> and <i>bhadoo</i> prospects are fair. In the Sudder and Dinapore sub-divisions the rice crop on the high lands is lost, and they are now being ploughed for <i>rubbee</i> . More rain is wanted for the rice on the low lands. <i>Bhadoo</i> crop is good. Canal water is being given where possible. Health is good.
	26 Gya, „ 15 „	8.36	Weather—clear since the 11th and moderately cool. Maximum thermometer in the shade 93.2°. Rainfall at Nowada 7.67, at Aurungabad 1.72. The Jehanabad officer has omitted to give figures, but says “more rain is wanted for <i>dhan</i> crops.” A good outturn of <i>bhadoo</i> crops in that sub-division is expected. The heavy rain where it has fallen has done great good. More is wanted in Aurungabad. The <i>bhadoo</i> crops are being cut, and ploughing is going on for <i>rubbee</i> sowings.
	27 Shahabad, „ 15 „	1.25	Weather—clear and hot; west wind blowing and no further prospects of rain at present. Rain at Sasseram has been 5.17, at Buxar 1.47, and at Bhabhooh 4.2. It has been extremely beneficial everywhere, and has quite changed the aspect of affairs. The dying crops have been restored to life, except those already withered on high lands. Transplantation is being effected where want of water had prevented it before. Water is being largely distributed from canals, chiefly in the eastern part of the district.
	28 Durbhunga, „ 15 „	1.88	There has been rain throughout the district during the week, but in the Madhoobani sub-division the fall was heavier than elsewhere, 10.5 inches having fallen at the sub-divisional head-quarters. The rain has been of much service in Tajpore, but more is still wanted for the rice crop there. The <i>bhadoo</i> crop throughout the district will probably not exceed two-thirds of an average crop. Prospects of winter rice in the Durbhunga and Madhoobani sub-divisions continue very favourable.
	29 Mozuffepore, „ 15 „	.40	Weather—cool and cloudy during the greater part of the week, but now hot and clear. Rainfall at Hajeehpore has been .77 and at Seetamurhee .40. The weather has been very favourable for <i>bhadoo</i> crops. Those sown early are being reaped, and the late sown crops are coming on well. Rice crop has been much improved by the rain of the 6th instant, and is now in fair condition, but wants more rain.
	30 Sarun, „ 15 „	.28	Weather—hot and dry. The sky is constantly overcast, but nothing comes of it. .17 of rain at Sewan. State and prospects of <i>bhadoo</i> are not good. The harvest has commenced and the produce is very partial. Heavy rain is wanted, for the rice, which at best will be but a small crop. It is to be hoped that, as last year, after a still drier September the weather may break up at the equinox.
BHAUGULPORE DIVN.	31 Chumparun, „ 15 „	.43	Weather—rainy and damp in the early part of the week; hot and sultry towards the close. From the east and north-east it is reported that no rain has fallen, and that both the <i>bhadoo</i> and <i>aghani</i> crops are in a bad way. In the north-west (except across the Gunduck to the west) there has been generally fair rain and the prospects are improving. In the Bettiah sub-division there has been good rain, which has much benefited the <i>makai</i> crop. From the south-east abundant rain and good prospects are reported. A good deal more rain is still wanted. Cholera is decreasing.
	32 Monghyr, „ 15 „	6.61	Heavy rain alternating with hot weather. 6.06 inches registered at Begusserai and 7.82 inches at Jamui. Crops may be considered for the present safe. Rice crop has been everywhere planted out.
	33 Bhagulpore, „ 16 „	8.19	Heavy and continuous rain from 8th to 12th instant. The rain has been general. Every rice field is flooded. The rivers are over their banks, and all store places for water filled. A bumper crop is almost certain now.
	34 Purneah „ 15 „	13.97	Heavy rain during the first part of the week. 14.33 inches registered at Kissen-gunge. Weather now clear and hot. The heavy rain has been of immense benefit in every way. Much of the transplanted rice will be saved. The winter crop sown broadcast should be very good. It is reported that the heavy floods which caused so much damage in July in Dhurum-pore left a large deposit of silt, which will enable the ryots to sow an unusually large acreage in <i>rubbee</i> .
	35 Malduh, „ 15 „	16.22	Copious rain till the morning of the 13th instant. State and prospects of the crops are quite satisfactory. Much fever about Bolahat, and a special native doctor has been sent out with medicines.
	36 Sonthal Pergah „ 16 „	9.12	One great rain cloud passed over the district and kept rainy for about a week, from 7th to 14th instant. 8.39 inches fell at Daghur, 7.61 inches at Godda, and 14.4 inches at Rajmehal. Now the weather is bright and hot. All prospects are as good as possible. Fields as well as tanks are all full of water. Two more good falls of rain well placed will give a bumper season.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
ORISSA.			
ORISSA DIVN.	37 Cuttack, Sept 15 '77	1 85	Weather—seasonable. Rain and sunshine alternating. Heavy rain and very high winds on the coast. The reports of the crops are excellent. <i>Beali</i> is half gathered. <i>Sarkd</i> is in most favorable condition, especially where irrigation is available. Cholera is frequent and persistent in the town. Cattle disease here and there in the district.
	38 Pooree, „ 13 „	1 44	Weather—hot and occasionally cloudy. Rainfall at Khoordah 2·71 inches. The rain has been general, and weeding and transplanting are going on on low lands. The high lands which were not flooded have begun to suffer from want of sufficient rain. Cattle disease has appeared.
	39 Balasore, „ 14 „	3 73	There has been abundance of rain, and the winter crop promises well. The people are busy weeding it. Cholera has ceased. Cattle plague reported from several places.
CHOTA NAGPORE.			
South-West Frontier Agency.			
40	Hazareebagh, Sept. 14 '77	3 93	Rain commenced on the 7th and continued with breaks till the 11th. Prospects of the crops have much improved by the rain, which has fallen throughout the district but unequally, 9·17 inches being registered at Pachumba between the 6th and 12th. Millet is being reaped.
41	Lohardugga, „ 15 „	3 87	In the head-quarters sub-division the weather has been seasonable, and the prospects of the crops and public health are good. The sub-divisional officer of Palamow reported on the 11th instant that a week of seasonable weather had come at last during which 10·10 inches of rain had fallen at Daltongunge, and the fall was believed to be very general, as the rivers had been in full flood for four days. The <i>bhados</i> crop is now secure, and should be a fair average one. The transplanted <i>khurreef</i> had been saved, and the transplanting remaining will now be completed, but the delay will cause the yield to be half the average.
42	Singbhoom, „ 14 „	4 01	Weather—seasonable. Prospects of the crops continue favourable. Highland paddy, which is being reaped, is reported to be very good. The district is healthy.
43	Manbhoom, „ 15 „	Not given.	Heavy rain in the early part of the week; weather fair for the last few days. Prospects of the crops are pretty favourable. Towards the centre of the district the blight of <i>khori</i> will affect the outturn of rice. From the south it is reported that a worm at the root of the crop has appeared. The heavy rain has damaged the <i>biri kalai</i> to some extent.

The mean pressure of the seven days 29.704
The average pressure of the corresponding period for 20 years 29.656

The mean temperature of the seven days 80.8
The average temperature of the corresponding period for 20 years 83.4
The extreme variation of temperature during the seven days 15.0
The maximum temperature during the seven days 89.9
%

The mean humidity during the seven days 89
The average humidity of the corresponding period for 24 years 86

The total fall of rain from 9th to 15th September 5.78
The average fall of the corresponding period for 24 years 2.86
The total fall from 1st January to 15th September 58.62
The average fall of the corresponding period for 24 years 54.50

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h. and 22h.; the maximum and minimum temperatures from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard (Newman's No. 86) at the Surveyor-General's Office.

The hygrometric elements are obtained from tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modification of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, *g* gloomy, *d* drizzling, *p* passing temporary showers, *t* thunder, *l* lightning, *lr* lightning reflection.

JOHN ELIOT, M.A., Meteorological Reporter to the Government of Bengal,
for Meteorological Reporter to the Government of India.

METEOROLOGICAL OFFICE, INDIA, the 17th September 1877.

Abstracts of the Results of the Meteorological Observations taken at the Alipore Observatory in the month of August 1877.

	Inches.	Date.	Hour.
The mean pressure of the month	29.588		
The average pressure of 24 years	29.598		
The highest pressure during the month	29.835	24th	10h.
The lowest pressure during the month	29.384	9th	16h.
The range of pressure during the month	0.451		

The mean temperature of the month	81.5		
The average temperature of 24 years	83.1		
The highest temperature during the month	90.9	6th	16h.
The lowest temperature during the month	73.0	21st	6h.
The range of temperature during the month	17.9		
The mean daily range of temperature during the month	9.6		
The greatest range of temperature in one day during the month	18.8	21st	

The mean humidity during the month	91		
The mean vapour tension during the month	0.976		
The average humidity of 24 years	86		
The average vapour tension of 10 years	0.999		
The mean cloud proportion of the month	7.60		

The total rainfall of the month	16.02		
The average fall of 49 years	13.98		
The greatest fall in 24 hours	8.17	16th	

The number of rainy days in the month	24		
The average number of rainy days of 24 years	25		

The mean maximum equilibrium temperature of solar radiation of the month	144.8		
The mean difference of sun and air temperatures	56.7		
The greatest sun temperature	159.8	22nd	
The greatest excess of sun over air temperature	71.7	2nd	
The mean temperature of nocturnal radiation thermometer on woollen cloth	77.1		
The mean depression of nocturnal radiation thermometer below the minimum of air	1.4		
The greatest depression of nocturnal radiation thermometer below the minimum of air	3.3	12th	

The mean velocity of the wind per day	147.0		
The greatest velocity of the wind	361.0	30th	
The number of observations under each of the 8 points N12, NE10, E13, SE8, S19, SW22, W9, NW31, calm 0.

Reports of Fluctuation of Traffic on the Tirhoot State Railway for the Month of August 1877.

TIRHOOT STATE RAILWAY.

TRAFFIC DEPARTMENT.

Statement showing the Fluctuation in the Principal Staples of Traffic for the month of August 1877

Staples.	Increase.		Decrease.	
	Up. Mds.	Down. Mds.	Up. Mds.	Down. Mds.
Rice	237	2,344	...
Pulses	7,057	23
Other food-grains ...	215	76
Oil-seeds	1,595	321	...
Salt	5,283	...
Piece-goods, cotton (European)	1,097	...

W. M. JOHNSTON, *Asst. Traffic Superintendent, Tirhoot State Railway.*

Reports of Fluctuation of Traffic on the East Indian Railway for the Month of August 1877.

EAST INDIAN RAILWAY, TRAFFIC MANAGER'S OFFICE, JUMALPORE, THE 10TH SEPTEMBER 1877

Remarks on Traffic of East Indian Railway for four weeks ending 25th August 1877.

The approximate figures for the period are as follows:—

		Coaching.		Goods	
		Mds.	Rs.	Mds.	Rs.
		Total.			
		Rs.			
1877		4,78,300	5,06,874	5,006,708	21,42,067
1876		4,13,351	4,75,389	2,501,900	10,80,779
Increase		64,958	11,485	2,444,739	10,61,288
Decrease	

In merchandise traffic the increase is most remarkable; the figures are, it will be seen, almost exactly double those of the same period last year.

About one half of this increase is in food-grains and one-fifth in seed, as will be seen by the table enclosed

The noticeable fluctuations are—

Increases.		Decreases.	
Commissariat beer.	Iron.		
Coal.	Salt.		Piece-goods
Cotton.	Saltpetre.		For Railway material.
Ghee.	Seeds.		
Government stores	Sugar.		
Grain.	Tobacco.		
Gunny.			

Increases.			
Coal—Upward, increase	...	Mds. 1,94,805	Rs. 73,148
Downward, decrease 41,405	.. 6,119
Net increase 1,50,400	.. 67,029

There is a small decrease in the downward coal traffic but of no importance; while the increase in the upward coal is more than 100 per cent.

Cotton Mds. 3,092 Rs. 14,199

We have been able to help the loose cotton traffic a little more of late, after the difficulty it has been subjected to.

Grain Mds. 15,85,778 Rs. 5,51,198

This is a *fivefold* increase over 1876.

Wheat.—Towards the end of the month prices advanced in the North-Western Provinces owing to the continued drought; this checked export from Calcutta, and the wheat traffic is at a stand for the present.

The very high prices of food-grains in Western and Southern India turns all attention to those markets.

The demand for carriage *via* Jubbulpore is at present unlimited, while we are restricted to one hundred wagons a day for the famine district, the Great Indian Peninsular being unable to deal with more.

The rise of prices in the North-Western Provinces owing to drought has also had some effect, as was shown by the very heavy rush of grain into Agra last week.

Prospects however are better in the North-Western Provinces and Rajpootana in the last few days; and as it becomes clear to traders that they cannot hope to get carriage into the famine districts by rail for all the grain awaiting despatch, no doubt much of it will flow into its natural channel again.

Meanwhile we are still doing a large traffic into Howrah, and delivering some 3,000 tons of general merchandise there daily.

The traffic in seed is filling up to a great extent the gap made by the temporary lull in the grain traffic.

Gunny Mds. 42,996 Rs. 44,138

This kept up all through the month, and the fact that over a quarter of a million of bags were sent up country from Howrah in the last week of August shows what a large quantity of produce it is expected to deal with.

Hides Mds. 4,501 Rs. 4,402

The hide traffic has been very steady this year, showing an increase throughout the season, although, like other staples, it has been exposed to some obstructions by the overwhelming pressure of the grain traffic.

Salt Mds. 1,47,683 Rs. 36,869

The despatches from Howrah during the month showed an increase of about 17,000 maunds with an increase in earnings of Rs. 10,000, but the bulk of the increase is in the traffic from the R. S. Railway at Agra, where there had been a slight check previously.

Seeds Mds. 4,06,106 Rs. 2,11,223

The increase of weight in each of the four weeks under review was—

							In tons.
W. E., 4th August	2,790
" 11th "	3,490
" 18th "	3,730
" 25th "	4,920

showing an expansion from week to week, as the decline of the excessive speculation in wheat left room for the seed trade to take its usual place

In eight months of this year we have carried 186,000 tons of seeds as against 144,000 tons in the same period of 1876, and the fact that this has been done in the face of the immense demand for grain, will serve as one indication of the way in which the traffic has been carried on.

Sugar Mds. 21,723 Rs. 6,508

This increase of 50 per cent. over last year's figures has been a steady one for some months.

Tobacco Mds. 5,837 Rs. 3,307

This staple also keeps up its increase continuously month after month, and is more and more taking to the rail. The great bulk of it is carried upward from Behar, and being thus in the opposite direction to the general stream of trade, it has always found carriage freely.

Decreases.

The only noticeable decreases are—

Piece-goods Mds. 9,569 Rs. 10,514

This showed an increase of 70,000 maunds in the first six months of this year, and now the extra stocks are telling.

For Railway material Mds. 7,143 Rs. 8,440

There were some large despatches of rails to Agra and Lahore in August 1876 for the State Railways, which are not now taking any.

The train mileage for the period has been—

						Coaching.	Goods.	Total.
1877	1,71,703	4,39,082	6,10,785
1876	1,70,381	2,09,802	3,80,183
Increase	1,322	2,29,280	2,30,602
Decrease

Earnings per train mile.

						Coaching.	Goods.	Total.
						Rs. A. P.	Rs. A. P.	Rs. A. P.
1877	3 4 10	4 14 1	4 7 0
1876	2 12 7	5 2 5	4 1 6
Increase	0 8 3	...	0 5 6
Decrease	0 4 4	...

Jubbulpore line.

						Coaching.	Goods.	Total.
						Mds.	Rs.	Rs.
1877	22,467	53,075	2,05,337
1876	15,425	39,339	73,176
Increase	7,042	13,736	32,159
Decrease

The enormous increase in the goods earnings is mainly due to the through traffic to the famine districts.

2,783 loaded wagons passed on to the Great Indian Peninsular Railway during the month, or an average of close on 100 daily.

Annexed is a statement of grain and seeds sent to Howrah and sent via Jubbulpore during the month, from which it will be seen that the 2,783 wagons above referred to carried 19,230 tons of food-grain (besides other goods) into Western India, while the goods carried to Howrah comprised over 20,000 tons of wheat for export, and a like quantity of rice and other cereals besides, a great part of which would be for despatch to Madras and the Coast Station for famine relief.

N. ST. L. CARTER,
Offg. Traffic Manager.

Statement of grain and seeds sent to Howrah and via Jubbulpore during four weeks ending 25th August 1877.

		Wheat.	Pulses.	Other grains.	Seeds.	Total.

PART I.

Orders and Notifications by the Lieut.-Governor of Bengal,
the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

REVENUE AND GENERAL DEPARTMENTS.

No. 4875A.

GENERAL.—*The 4th September 1877.*—Mr. O. H. Swinden, Officiating Sub-Deputy Collector, Rajmehal, is appointed to act as a Deputy Magistrate and Deputy Collector, and is posted to Pakour, in the Sonthal Pergunnahs.

The 15th September 1877.—Baboo Kali Sunker Sen, Special Sub-Deputy Collector, Chittagong, is allowed leave for forty-two days, under the rules in Chapter VII of the Civil Leave Code, with effect from the 1st October 1877.

Mr. O. F. Manson, Deputy Magistrate and Deputy Collector, Mudhoobunnee, is allowed leave for three months, under the rules in Chapter VII of the Civil Leave Code, with effect from such date as he may avail himself of it.

Mr. F. St. C. Grimwood, Assistant Magistrate and Collector, Shahabad, is appointed to have charge of the Mudhoobunnee division of the Durbhunga district during the absence, on leave, of Mr. O. F. Manson, or until further orders.

The 16th September 1877.—Baboo Gobind Mohun Ghose, Deputy Magistrate and Deputy Collector, Sarun, is allowed leave for two months and seven days, under the rules in Chapter VII of the Civil Leave Code, with effect from such date as he may avail himself of it.

The 18th September 1877.—Mr. F. H. Barrow, Sub-Divisional Officer of Soopool, Bhagulpore, is allowed leave for two months and ten days, under the rules in Chapter VII of the Civil Leave Code.

Mr. Charles James O'Donnell, Officiating Joint-Magistrate and Deputy Collector, Second Grade, is appointed to act until further orders in the First Grade of Joint-Magistrates and Deputy Collectors.

Mr. G. A. Grierson, Officiating Joint-Magistrate and Deputy Collector, who was, under orders of the 8th ultimo, transferred to the Bhagulpore Division, is posted to Begoo Serai, in Monghyr.

Moulvi Abdool Hye, Deputy Magistrate and Deputy Collector, in charge of the Begoo Serai division of the district of Monghyr, is transferred to Soopool, in Bhagulpore.

The 19th September 1877.—Baboo Annada Prosad Sen, Sub-Deputy Collector, Jhenida, in the district of Jessore, is allowed leave for three months, under the rules in Chapter VII of the Civil Leave Code.

Baboo Pran Krishna Bass is appointed to act as a Sub-Deputy Collector of the Second Grade at Jhenida, during the absence, on leave, of Baboo Annada Prosad Sen, or until further orders.

The 20th September 1877.—The leave granted to Baboo Rakhal Das Haldar, First Special Commissioner, Chota Nagpore Tenures' Act, under the orders of the 1st ultimo, will have effect from the 9th, instead of from the 3rd, instant, as previously notified.

The Collector of Rajshahye is appointed, under Section 2, Act XXI of 1856, to be Superintendent of Ganja Revenue in those border villages of Bogra and Dinagepore in which the cultivation of ganja is carried on.

The orders of the 18th instant, transferring Moulvi Abdool Hye, Deputy Magistrate and Deputy Collector from Begoo Serai to Soopool, are cancelled.

Mr. G. A. Grierson, Officiating Joint-Magistrate and Deputy Collector, Bhagulpore Division, is posted to Soopool, in the district of Bhagulpore.

This cancels the orders of the 18th instant, posting Mr. Grierson to Begoo Serai.

Mr. F. W. Badcock, Officiating Joint-Magistrate and Deputy Collector, Backergunge, is allowed furlough for two years, under Section 12 of the Civil Leave Code, with effect from the 8th December next, together with subsidiary leave for a period not exceeding thirty days, under Section 24 of the Code.

The 22nd September 1877.—Mr. Geo. Baptiste, Deputy Magistrate and Deputy Collector, is vested with the powers of a Collector under Act X of 1870 in the district of Durbhunga.

The 25th September 1877.—Mr. C. R. Marriott, Assistant Magistrate and Collector, in charge of the Seetamurhee division of the Mozufferpore district, is vested with the powers of a Collector under Act VII (B.C.) of 1868.

This cancels the orders of the 4th instant, vesting Mr. C. R. Marindin with those powers.

POLICE.—*The 19th September 1877.*—Mr. G. B. Havelock, Officiating Assistant Superintendent of Police, Dinagepore, is transferred temporarily to Darjeeling.

REGISTRATION.—*The 25th September 1877.*—Baboo Pran Kristo Chatterjee is appointed to act as Special Sub-Registrar of Rungpore during the absence, on leave, of Baboo Abinash Chunder Mitter, or until further orders.

EDUCATION.—*The 20th September 1877.*—Baboo Srikrishna Chatterjee, Head Master, Gya Zillah School, is appointed to be Head Master of the Bhagulpore Zillah School, *vice* Baboo Bani Madhub Dey, transferred.

The 25th September 1877.—The following gentlemen are appointed to be members of the District School Committee of Howrah:—

NOTIFICATION.

The 25th September 1877.—Under Section 4 of the Provincial Public Works Act, 1877, the Lieutenant-Governor is pleased to direct that the cess leviable under the said Act shall take effect in the districts of Chittagong and Darjeeling from the 1st October 1877, and that the rate at which the cess shall be leviable for the year following the said 1st October shall be one-half of an anna in the rupee of the annual value of the lands in the said districts

A. MACKENZIE,

Offg. Secy to the Govt. of Bengal.

[First Publication.]

The 22nd September 1877.—The Lieutenant-Governor is pleased to order the publication of the following notification for general information:—

NOTICE TO MARINERS, No. 1.

BAY OF BENGAL, EAST COAST.

CHITTAGONG.

Intended alterations in the beacons at entrance to the Chittagong or Kurnafoolee River.

THE following information regarding the shifting of the Norman's Point lights is published for the guidance of masters of vessels and other seafaring people frequenting the port of Chittagong.

The two beacon lights situated on the southern shore and entrance to the Kurnafoolee river, latitude $22^{\circ} 12' 0''$ north; longitude $91^{\circ} 51' 30''$ east, are to be removed shortly to a new site "2,417 yards" due south of their present position. The beacons, when in the position selected for their removal, will be 40 yards apart; the inner or eastern light will be exhibited from a tripod structure, and the outer or western light from a mast, and both structures will be painted white. The inner light will be placed about 10 feet higher than the outer or western one, and both will be visible seven miles in clear weather over an arc of 160° , ranging from north-west by north to south by east, when seen from seaward. The beacons will intersect at south-east by east- $\frac{1}{2}$ -east, and the lights will appear one above the other at that bearing. During southerly winds, sailing vessels coming from south-west or southward and westward (especially those that are some distance in the offing) should not come to the northward of the lights; but with the western or outer light bearing east- $\frac{1}{2}$ -north should run in and anchor in five fathoms or $2\frac{1}{2}$ miles west- $\frac{1}{2}$ -south of the outer light, and there anchor and wait for daylight. The beacons intersect at south-east by east- $\frac{1}{2}$ -east, and the *Hill* flagstaff (latitude $22^{\circ} 14' 06''$ north, longitude $91^{\circ} 52' 56''$ east), bearing north-east, will place a vessel about half a mile to the westward of the bar buoys, where the bar and river buoys will be seen distinctly, and the services of a local pilot will always be obtainable. Vessels should not attempt to cross the bar without a pilot, as the channel is long, narrow, and somewhat intricate.

Temporary lights will be shown from the present position of the Norman's Point beacons from the 20th September to the 19th October 1877, after which date the lights will be exhibited from the new site.

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 24th September 1877.—It is notified, for general information, that the Lieutenant-Governor has been pleased to add the following rule to the introductory rules for the examination of, and grant of certificates of competency to, masters, mates, and engineers of foreign-going vessels, published on page 1240 of the *Calcutta Gazette* of 12th September 1877:—

Additional Rule.

XV. All candidates for examination for masters' or mates' certificates shall pass a test examination as to their ability to distinguish the following colors, which enter largely into the combinations of signals by day or night used at sea, namely, black, white, red, green, yellow, and blue.

The examiners will be furnished with cards and glasses of these several colors, and before proceeding to the regular examination of the candidate, they must satisfy themselves that he is able to distinguish correctly each of the colors referred to. In the event of his failing to do so in even one of these colors, the examiner must decline to proceed to the regular examination, and must forward to Government a special report of the case.

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

The 18th September 1877.—The following Regulations for the Examination of Candidates for the Civil Service of India to be held in April 1878 are published for general information :—

EXAMINATIONS FOR THE CIVIL SERVICE OF INDIA.

REGULATIONS FOR THE OPEN COMPETITION OF EASTER, 1878.

N.B.—The Regulations are applicable to this Examination only.

1. On April 9th, 1878, and following days an Examination of Candidates will be held in London. At this examination not fewer than Candidates will be selected, if so many shall be found duly qualified. Of these, will be selected for the Presidency of Bengal [for the Upper Provinces, and for the Lower Provinces,] for that of Madras, and for that of Bombay.*—Notice will hereafter be given of the days and place of examination.

2. Any person desirous of competing at this examination must produce to the Civil Service Commissioners before the 1st of February 1878 evidence showing—

- (a) that he is a natural-born subject of Her Majesty;
- (b) that his age on the 1st March 1878 will be above seventeen years and under twenty-one years. [*N.B.—In the case of Natives of India this must be certified by the Government of India, or of the Presidency or Province in which the Candidate may have resided*];
- (c) that he has no disease, constitutional affection, or bodily infirmity unfitting him, or likely to unfit him, for the Civil Service of India;†
- (d) that he is of good moral character.

He must also pay such fee as the Secretary of State for India may prescribe.‡

3. Should the evidence upon the above points be *prima facie* satisfactory to the Civil Service Commissioners, the Candidate will, upon payment of the prescribed fee, be admitted to the examination. The Commissioners may, however, in their discretion, at any time prior to the grant of the Certificate of Qualification hereinafter referred to, institute such further inquiries as they may deem necessary; and if the result of such inquiries in the case of any Candidate should be unsatisfactory to them in any of the above respects, he will be ineligible for admission to the Civil Service of India, and if already selected, will be removed from the position of a Probationer.

4. The examination will take place only in the following branches of knowledge :—

	Marks.
English Composition ...	500
History of England—including that of the Laws and Constitution ...	500
English Language and Literature ...	500
Language, Literature, and History of Greece ...	750
" " " Rome ...	750
" " " France ...	375
" " " Germany ...	375
" " " Italy ...	375
Mathematics (pure and mixed) ...	1,250
Natural Science: that is (1) Chemistry, including Heat; (2) Electricity and Magnetism; (3) Geology and Mineralogy; (4) Zoology; (5) Botany ..	1,000
** The total (1,000) marks may be obtained by adequate proficiency in any two or more of the five branches of science included under this head.	
Moral Sciences: that is, Logic, Mental and Moral Philosophy ...	500
Sanskrit Language and Literature ...	500
Arabic Language and Literature ...	500

Candidates are at liberty to name before February 1, 1878, any or all of these branches of knowledge. No subjects are *obligatory*.

5. The merit of the persons examined will be estimated by marks, and the number set opposite to each branch in the preceding regulation denotes the greatest number of marks that can be obtained in respect of it.

6. No Candidate will be allowed any marks in respect of any subject of examination, unless he shall be considered to possess a *competent knowledge* of that subject. §

7. The examination will be conducted by means of printed questions and written answers, and by *visd voce* examination, as may be deemed necessary.

* The number of appointments to be made, and the number in each Presidency, &c., will be announced hereafter. It will probably be about half the usual number.

† Evidence of health and character must bear date not earlier than the 1st January 1878

‡ The fee for this examination will be £5, payable by means of a special stamp according to instructions which will be communicated to candidates.

§ " Nothing can be further from our wish than to hold out premiums for knowledge of wide surface and of small depth. We are of opinion that a Candidate ought to be allowed no credit at all for taking up a subject in which he is a mere matterer."—Report of Committee of 1854. A deduction of marks will be made under each subject, including *Mathematics*.

8. The marks obtained by each Candidate in respect of each of the subjects in which he shall have been examined will be added up, and the names of the Candidates who shall have obtained a greater aggregate number of marks than any of the remaining Candidates will be set forth in order of merit, and such Candidates shall be deemed to be selected Candidates for the Civil Service of India, provided they appear to be in other respects duly qualified. Should any of the selected Candidates become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled up or not. In the former case, the Candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a selected Candidate. A selected Candidate declining to accept the appointment which may be offered to him will be disqualified for any subsequent competition.

9. Selected Candidates before proceeding to India will be on probation for two years, during which time they will be examined periodically, with a view of testing their progress in the following subjects:—*

	Marks
1. Oriental Languages—	
Sanskrit	500
Vernacular† Languages of India (each) ...	400
2. The History and Geography of India ...	350
3. Law	1,250
4. Political Economy	350

In these examinations, as in the open competition, the merit of the candidates examined will be estimated by marks, and the number set opposite to each subject denotes the greatest number of marks that can be obtained in respect of it at any one examination. The examination will be conducted by means of printed questions and written answers, and by *vide roce* examination, as may be deemed necessary. The last of these examinations will be held at the close of the second year of probation, and will be called the "Final Examination," at which it will be decided whether a selected Candidate is qualified for the Civil Service of India.

10. Any Candidate who at any of the periodical examinations shall appear to have wilfully neglected his studies, or to be physically incapacitated for pursuing the prescribed course of training, will be liable to have his name removed from the list of selected Candidates.

11. The selected Candidates who at the final examination shall be found to have a competent knowledge of the subjects specified in Regulation 9, and who shall have satisfied the Civil Service Commissioners of their eligibility in respect of age, health, and character, shall be certified by the said Commissioners to be entitled to be appointed to the Civil Service of India, provided they shall comply with the regulations in force at the time for that service.

12. Applications from persons desirous to be admitted as Candidates are to be addressed to the Secretary to the Civil Service Commissioners, London, S. W., from whom the proper form for the purpose may be obtained.

June 1877.

The Civil Service Commissioners are authorized by the Secretary of State for India in Council to make the following announcements:—

(1.) *Selected Candidates will be permitted to choose,† according to the order in which they stand in the list, resulting from the open competition, as long as a choice remains, the Presidency (and in Bengal the Division of the Presidency) to which they shall be appointed, but this choice will be subject to a different arrangement, should the Secretary of State, or Government of India deem it necessary.*

(2.) *No Candidate will be permitted to proceed to India before he shall have passed the final examination, and received a certificate of qualification from the Civil Service Commissioners, or after he shall have attained the age of twenty-four years.*

(3.) *The seniority in the Civil Service of India of the selected Candidates shall be determined according to the order in which they stand on the list resulting from the final examination.*

(4.) *It is the intention of the Secretary of State to allow the sum of £50 after each of the three first half years of probation, and £100 after the last half year, to each selected Candidate who shall have passed the required examinations to the satisfaction of the Commissioners, and shall have complied with such rules as may be laid down for the guidance of selected Candidates.*

(5.) *All selected Candidates will be required, after having passed the second periodical examination, to attend at the India Office for the purpose of entering into an agreement binding themselves, amongst other things, to refund in certain cases the amount of their allowance in the event of their failing to proceed to India. For a Candidate under age a surety will be required.*

(6.) *After passing the final examination, each Candidate will be required to attend again at the India Office, with the view of entering into covenants. The stamps payable on these documents amount to £1.*

(7.) *Candidates rejected at the final examination of 1880 will in no case be allowed to present themselves for re-examination.*

* Full instructions as to the course of study to be pursued will be issued to the successful candidates as soon as possible after the result of the open competition is declared.

† Including, besides the languages prescribed for the several Presidencies, such other languages as may, with the approval of the Commissioners, be taken up as subjects of examination.

‡ This choice must be exercised immediately after the result of the open competition is announced, on such day as may be fixed by the Civil Service Commissioners.

CIVIL SERVICE OF INDIA.

FORM OF APPLICATION TO BE FILLED UP BY CANDIDATES.

** * This Form must be sent so as to be received at the Office of the Civil Service Commission before the 1st of February 1878.*

Date _____

SIR,

I BEG to inform you that I desire to be a Candidate at the forthcoming Examination for the Civil Service of India.

As required by the Regulations, I transmit herewith—

(1) If a General Register Office certificate cannot be obtained, the instructions printed on the other side will show what evidence should be supplied. If evidence is already in the hands of the Commissioners, strike out "A certificate of my birth," and insert "Evidence is already in the possession of the Commissioners."

- (1) a certificate of my birth, showing that I was born on the _____ day of _____ 18____, and that therefore my age on March 1, 1878, will be above 17 years (complete) and under 21 years ;

(2) The terms indicated by the marks of quotation must appear in the certificate, which must be given after personal examination, and bear date not earlier than 1st January 1878

- (2) a certificate signed by _____

of my having "no disease, constitutional affection, or bodily infirmity unfitting me for the Civil Service of India ;"

(3) Two testimonials must be sent, bearing date not earlier than 1st January 1878. One of them should be given by an intimate acquaintance (not a relative) of not less than three or four years' standing; the other, if the candidate has recently left school, should be given by his late school-master, or, if he has had employment of any kind, by his late employer. If the candidate has been at any University, he should send a certificate of good conduct from his college tutor.

- (3) proof of my moral character, viz.—

1—A testimonial from _____

2—A testimonial from _____

(4) If mathematics be named, state whether pure or mixed, or both are intended; if natural science be mentioned, state which branches

- (4) a statement of the branches of knowledge in which I desire to be examined, viz.—

I have also to state, with reference to Section 2, Clause (a) of the Regulations, that I am a natural-born subject of Her Majesty.

I am, SIR,

Your obedient Servant,

Name in full _____

Address _____

To the Secretary,

Civil Service Commission.

EVIDENCE OF AGE TO BE REQUIRED FROM CANDIDATES FOR THE CIVIL SERVICE
OF INDIA.

I.—EVERY Candidate born in England or Wales should produce a certificate from the Registrar-General of Births, Marriages, and Deaths, or from one of his provincial officers. The certificate may be obtained at Somerset House, or from the Superintendent Registrar of the district in which the birth took place.

II.—A Candidate who is a native of India must have his age certified by the Government of India, or of the Presidency or Province in which he may have resided.

III.—Every other Candidate *not producing the certificate* mentioned in Clause I must prove his age by Statutory Declaration, and should also, if possible, produce a record of Birth or Baptism from some official register; under which term may be included the Parochial Registers of Baptisms, the non-Parochial Registers of Baptisms and Births deposited at Somerset House under Acts of Parliament, the Register kept at the India Office of persons born in India, &c., &c. This Regulation applies—

1. To all Candidates not born in England or Wales.
2. To Candidates who, though born in England or Wales, cannot produce the Registrar-General's certificate.

The Civil Service Commissioners reserve to themselves the right of deciding in each case upon the sufficiency of the evidence produced, but they subjoin the following general rules for the guidance of Candidates:—

- (a) The Declaration should specify precisely the date and place of birth, and should, if possible, be made by the father or mother of the Candidate. If made by any other person, it should state the circumstances which enable the Declarant to speak to the fact. If an entry in a Bible or other family record be referred to, the Bible or other record must be produced at the time of making the Declaration, and must be mentioned in the Declaration as having been so produced.
- (b) If the Candidate was born in England or Wales, the Declaration must contain a statement that, after due inquiry, no entry has been found in the books of the Registrar-General; or a separate Declaration must be made to that effect.
- (c) If no extract from any register is produced, the Declaration must contain a statement that, after due inquiry, no such record is believed to exist; or a separate Declaration must be made to that effect.
- (d) Statutory Declarations must be exactly in the form prescribed by the Act of 5 and 6, William IV., c. 62. A printed form, if required, will be supplied on application to the Civil Service Commissioners.

N.B.—Clergymen, as such, are not qualified to take Declarations.

HORACE A. COCKERELL,
Offg. Secy to the Govt. of Bengal.

NOTIFICATION.

The 17th September 1877.—Under the provisions of Section 83, Act V (B.C.) of 1870 (an Act to appoint Commissioners for making Improvements in the Port of Calcutta), the following Bye-laws for landing and delivery of goods at the jetties, as proposed by the Commissioners, are published for general information, in supersession of the Notification dated the 20th February 1872, which was published at page 551 of the *Calcutta Gazette* of the 21st February 1872 and in the two subsequent issues:—

Bye-laws to be observed at the Port Commissioners' Jetties.

THE allotment of jetties shall be entirely at the discretion of the Commissioners, but as a general rule vessels shall be accommodated in the order of their arrival off the jetties. Vessels discharging or loading at the jetties shall move from one jetty to another when ordered.

2. The master of every vessel lying alongside any of the Commissioners' jetties shall provide at least one way gangplank not less than two feet six inches wide, and of sufficient length, thickness, and strength to form a convenient communication between the jetty and the gangway of the vessel, and such gangway plank shall be properly and securely placed between the gangway of the vessel and the jetty during the whole time the vessel remains alongside the jetty.

3. Masters of vessels about to discharge at the jetties shall not break bulk until a copy of the manifest or the masters' copies of the bills of lading have been deposited in the Jetty Office. The copies of the bills of lading, if deposited, shall be returned after discharge of the inward cargo.

4. Ships lying at the jetties shall not discharge cargo into boats, if such cargo is to be subsequently landed on the Calcutta bank of the river between Chitpore Canal and Tolly's Nullah.

5. Packages of cargo shall be slung in the hatchway, and under no circumstances whatever shall the cranes be employed in breaking out cargo or removing it from under the combings.

6. Single packages over three tons shall not be hoisted until the correct weight shall have been ascertained, and when packages weighing more than three tons are being hoisted, the Superintendent of the cranes shall invariably be present.

7. Masters of vessels shall furnish special notice to the shed officers before landing packages containing articles liable to ignition or explosion, or which are otherwise dangerous.

8. Packages shall not be opened for appraisement except in the presence of the consignee or his representative, and under an application to the shed officer from the appraiser endorsed on the bill of entry.

9. No person shall remove from the wharf any goods other than those covered by the Customs bill of entry and the jetty chullan. In the event of any person removing goods not covered by such documents, the Commissioners may detain any goods of such person until all questions connected with the erroneous removal shall have been adjusted, and all moneys due to the Commissioners paid.

10. Smoking and the use of any unprotected fire or light in any office, shed, or warehouse within the jetty enclosure is strictly prohibited.

11. Excepting persons passing to and from ships lying at the jetties, no person shall be allowed inside the jetty enclosure after twilight.

12. No person, unless duly permitted by the Commissioners, shall take inside the jetty premises carpenters' tools or instruments used for opening cases, and no cooper shall be allowed to work in the sheds without license from the Commissioners.

13. Any person committing an infringement of any of the foregoing bye-laws shall be liable for the first offence to a fine not exceeding Rs. 100, and for continuance of that offence, after notice shall have been given him by the Commissioners of his having committed the offence, to a further fine of Rs. 50 per day.

14. Goods landed at the jetties shall only be delivered on production of the bills of lading accompanied by a delivery order from the master or agent of the vessel, and no delivery orders unsupported by the bills of lading will be accepted.

15. When discharging iron, drainage pipes, or other goods, which, from their description or want of proper distinguishing marks, there will be difficulty in delivering correctly to consignees, the master of the vessel shall separate before landing, or in course of landing, the various marks and consignments, failing which the Commissioners will refuse to receive the goods.

16. When iron, drainage pipes, or other goods, from their want of description or want of proper distinguishing marks, or from any other cause, are landed in a mixed condition, the

master or agent of the vessel will be allowed two clear days to sort and make over the goods to the Commissioners and, until the goods have been made over and the usual receipt granted, they will remain on the wharf at the risk of the vessel. Such goods, if not made over to the Commissioners within two clear days, will, at the expiration of that time, be subject to wharf-rent at the schedule rates, the rent incurred being payable by the vessel. After receipt of such goods by the Commissioners, consignees will be allowed two clear days to take delivery before incurring wharf-rent charges. This exemption shall not be extended to goods the consignees of which refuse or neglect to forward their invoices within 24 hours after the vessel commences to discharge.

17. Packages containing jewellery, precious stones, or specie, shall be taken delivery of by consignees direct from the jetties as soon as they are landed.

18. All goods transhipped from one vessel to another without being landed, and without the assistance of the jetty cranes, are exempted from all charges, provided notice of transshipment is given by consignees or vessels' agents to the Jetty Superintendent immediately after the vessel hauls alongside a jetty to discharge. If goods for transshipment are landed on the jetties, they will be allowed to remain in the sheds free of wharf-rent for five clear running days.

19. Masters of vessels are responsible for the proper slinging of cargo on board, and for directing the crane-drivers when discharging or loading.

20. The special sanction of the Commissioners shall be necessary to work the jetties before and after regular hours and on Sundays and authorized holidays; and no overtime work shall be performed by any of the servants of the Commissioners without permission. In order to facilitate discharge of vessels, they will be allowed to work on holidays, so long as accommodation can be conveniently provided for cargo in the jetty sheds, on payment of double jetty hire and the usual overtime fees to the establishments employed.

21. The sanctioned holidays recognized by the Commissioners shall be—

	Days.		Days.
New Year's day ...	1	Juggodhatree ...	1
Sree Panchoomy ...	1	Christmas ...	2
Good Friday ...	1		—
Queen's Birthday ...	1	Total ...	20
Doorga and Luckhoe Poojah ...	12		—
Kally Poojah ...	1		

22. Working hours shall be from 6 A.M. to 6 P.M. All fees for overtime work and for working on holidays shall be regulated by the sanctioned pay of each employé. The rule shall be one and a half hour's pay for one hour's work, working days being calculated at 26 days in the month, and for holidays or part of a holiday one day's pay. All fees for overtime work shall be paid to the Commissioners.

23. Two clear days, exclusive of Sundays and the holidays recognised by the Commissioners, shall be allowed to consignees for the removal of goods from the jetty sheds.

24. Consignees applying for delivery of goods shall fill up the jetty chullan showing the quantities, weights, or measurements, and the landing charges payable thereon. This form, accompanied by the Custom House bill of entry, shall be presented at the office of the Commissioners, where the amount of the landing charges will be received and a receipt granted in original and duplicate, if required. The jetty chullan, accompanied by the bill of lading and delivery order from the master or agents of the vessel, shall then be handed to the shed officer, who will examine the documents, and on being satisfied that they are in order, will grant delivery and authorize the gate officer to pass the goods.

25. Permission to consignees from the Collector of Customs to open packages shall be countersigned by the Superintendent of the Jetties. The opening of any package without the condition of the package being previously questioned will be treated as delivery of the goods by the Commissioners to the consignee, and no claim for loss or damage subsequently discovered will be admitted.

26. Damaged goods for which a claim is brought against the ship shall not be charged wharf-rent until the fourth day after landing, provided notice of survey is given to the Jetty Superintendent within 48 hours after the goods have been received from the ship.

27. Goods taken delivery of, but not removed from the jetty compound, shall lie at the risk of the owner, consignee, or agent.

28. The following goods will not be received in the sheds in course of shipment, nor will any receipt be granted for such goods by the Commissioners, viz. asafoetida, catch, safflower, camphor, turmeric, aniseed, hogslard, ghee, all oils, India-rubber, molasses, myrabollams, treacle, and wet sugar. Such goods will only be allowed inside the jetty compound on the production of an order from officer of the ship that they are to be received on board the same day.

29. Shippers of goods shall fill up the jetty chullan showing the quantities, weights, or measurements, and the shipping charges payable thereon. This form, accompanied by the Custom House shipping bill, shall be presented at the Office of the Commissioners, where the amount of the shipping charges will be received and a receipt granted in original and duplicate, if required. The jetty chullan, accompanied by the stamped shipping order and ship-

ping bill, shall be handed to the shed officer, who will examine the documents, and, on being satisfied, that they are in order and all charges paid, will authorize the gate officer to pass the goods in at the jetty gate.

30 Every package, bale, or case sent for shipment at the jetties, shall be entered in a cart ticket in the form prescribed, and no goods unaccompanied by this ticket will be allowed to pass into the jetty enclosure. Every cart ticket shall contain the date, name of vessel on which the goods are to be shipped, the exporter's name, the marks, quantity and description of articles shipped, and the current license number of the cart.

31. Exporters must provide their own coolies for unloading carts. Carts will be allowed to unload in the order in which they pass in at the gate.

32. The Commissioners do not undertake to receive goods into the jetty sheds until the jetty charges have been paid, and the jetty chullan, the shipping order, and the Custom House shipping bill have been deposited with the shed officer.

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 18th September 1877.—In supersession of Rule 4 of the Rules for the management of the zemindari dāk under Act VIII (B.C.) 1862, which were published at page 1003 of the *Calcutta Gazette* of the 15th August 1877, the following rule is published for general information :—

"4. The Sub-Inspector of Post-offices will annually, on or before the 1st October, prepare, under the instructions of the Magistrate, an estimate of the total cost of the establishments and contingencies required for the year commencing on the 1st April following. The Magistrate, after including in this the cost of his own office establishment, and any extra provision necessary for keeping up communications with his own camp while on tour, will forward the budget to the Post-Master-General, who will, after passing or modifying it (in communication with the Magistrate), return it to the Magistrate for insertion in the budget of the estimated balance at the close of the current year, and the total sum necessary to be levied with reference to the provisions of Section 10 of the Act, with a note of the rate at which he proposes to levy the cess.

"Having thus completed the budget estimate, the Magistrate will forward it for the approval and sanction of the Commissioner, who, after passing it, will forward it to the Accountant-General not later than the 15th November of each year."

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 11th September 1877.—An estimate, amounting to Rs. 24,486, for metalling Grey's Wharf from the Hooghly Bridge to Ahcerectollah Ghât, having been submitted by the Port Commissioners with their Vice-Chairman's letter No 2218, of the 7th September 1877, the Lieutenant-Governor is pleased to sanction the execution of the work under the provisions of Section 35 of Act V (B.C.) of 1870.

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION—(1.)

Police and Municipal jurisdiction of the Suburbs of Calcutta.

Dated 10th September 1877.—In modification of the boundaries declared in the Government notifications dated 17th October 1867, 5th June 1869, 30th March 1868, and 22nd September 1870, and published respectively in the *Calcutta Gazettes* of the 23rd October 1867, 16th June 1869, 1st April 1868, and 28th September 1870, the following are declared to be the revised boundaries with effect from the 1st October 1877.

Northern Boundary.

Commencing from the north-west angle at Paramanick Ghât on the River Hooghly, the boundary follows the northern side of Paramanick Ghât Road eastwards to its junction with the Cossipore Road; thence northwards along the western side of the Cossipore Road till its junction with Dhareabagan Road; thence eastwards along the northern side of the Dhareabagan Road till it meets the Barrackpore Trunk Road, which it crosses; and thence continues along the northern side of the north Sinthee Road eastwards till it meets the Eastern Bengal Railway line, crossing to the eastern side of the said line at No. 2 bridge, north of the Dum-Dum station.

Eastern Boundary.

The boundary on the east follows the eastern side of the Eastern Bengal Railway line southwards till it meets the bridge over the new canal at Ooltadangah; from thence it follows the eastern bank of the new canal till it joins the Balliaghatta Canal at the Dhappa toll house; thence crosses the Balliaghatta Canal to its southern bank; thence westwards along the southern bank of the Balliaghatta Canal till it meets Paugladanga Canal Road; thence along the eastern side of the Paugladanga Canal Road to its junction with the Paugladanga Road; thence along the eastern side of the Paugladanga Road till it meets the Chingreeghatta Road; thence southwards to the Puchannogram iron boundary pillar; thence southwards along the eastern side of an unmetalled road till it meets the municipal tramway; thence it turns westwards along the southern boundary of the municipal tramway till it meets the south Tangrah Road; thence it follows the eastern side of the Tangrah Road till it meets Christopher's Lane and Topseeah Road; thence along the eastern side, and afterwards along the southern side, of the Topseeah Road till it joins the Tilljullah Road; thence along the southern side of the Tilljullah Road to No. 4 bridge of the Calcutta and South Eastern State Railway line; thence along the eastern side of the line of railway till it meets the Kankilay Road; thence westwards, crossing the railway, it follows the southern side of the Kankilay Road till it meets the Gurreehat Road; thence southwards along the eastern side of the Gurreehat Road till it meets the Mollahatty Road.

Southern Boundary.

Leaving the Gurreahat Road, the boundary runs westwards along the southern side of the Mollahatty Road till it meets the Russapaugla Road ; thence northwards along the western side of the Russapaugla Road till it meets the Tallygunge Bridge Road ; thence along the southern side of the Tallygunge Bridge Road westwards to Tallygunge Suspension Bridge.

where it crosses Tolly's Nullah; from thence it runs along the southern side of the Tallygunge, Shapore, Goragatchee, and the Taratalla Roads, which latter passes through the villages of Dowlutpore No. 441, Indree No. 446, and Durreepin No. 383; thence westwards along the southern side of the Circular Garden Reach or Moocheekhollah Road to the point where the Durreepin boundary crosses it; and thence along the southern side of the Paharpore Road, which diverges from that point through the villages of Singerathee No. 444, Futtehpore No. 430, and Ramasathee No. 482; and thence northwards along west side of the above road, through the villages of Futtehpore No. 430, and Ramessurpore No. 300, till it joins the western boundary line at the junction of the boundary villages Ramessurpore and Garden Reach; the boundary then proceeds northwards for a short distance up to Garden Reach Road, following the boundary common to Moodially, Dhobapara, and Dum-Duma on the one side, and Garden Reach on the other, up to the Dum-Duma drain; thence along the eastern cut of the Dum-Duma drain in a straight line to the River Hooghly.

Western Boundary.

Starting from the trijunction of the village of Dum-Duma, Garden Reach, and River Hooghly, it proceeds along the southern bank of the River Hooghly as far as Hastings' Bridge; it thence follows the northern bank of Tolly's Nullah up to Jerut Bridge; thence along the northern approach to the bridge to the Lower Circular Road; thence along the southern and eastern side of the Circular Road up to Manicktollah Road; thence eastwards along the northern side of the road to a point where the Marhatta Ditch touches the Manicktollah Road; thence along the Marhatta Ditch northwards till it meets the Upper Circular Road; thence northwards along the Circular Road to the point where it meets the Halseebagan Road; thence along the northern side of the Halseebagan Road eastwards till it meets the Marhatta Ditch (which is the boundary between Halseebagan and Goureebere), which it follows till it meets the Ooltadangah Road, following the southern side of the said road till it joins the Upper Circular Road, and follows the eastern side of the same road, and the eastern and northern banks of the Marhatta Ditch, till it joins the River Hooghly at Permit Ghât; thence it proceeds along the eastern bank of the Hooghly River up to the Paramanick Ghât.

1. *Note.*—All railways, canals, tramways, drains, lanes, &c., (with the exception of the Calcutta Circular Road and Marhatta Ditch) situated on the above boundaries are included in the Suburbs of Calcutta, together with the drains on both sides of all such roads and lanes.
2. *Note.*—The villages of Nyenan, Neej-Nyenan, Nyenan (east), and Neej-Senthee, situated north of the northern boundary line of the Suburbs as above defined, are attached to thana Burraunggur, of district 24-Pergunnahs.
3. *Note.*—The portion of village Neemuckpooktan situated east of the Paugladanga road is attached to thana Tallygunge, of district 24-Pergunnahs.
4. *Note.*—The village of Govindpore and parts of villages Aruckpore, Selimpore, and Dhacoreas situated west of the Gurreah Hât Road, and north of the Mollahatty Road are included in the Police and Municipal jurisdiction of the Suburbs of Calcutta.

HORACE A. COCKERELL,

Offg. Secy. to the Govt. of Bengal.

NOTIFICATION—(2).

The 10th September 1877.—The boundaries of the local jurisdictions of the Suburban Police Courts at Alipore and Sealdah shall agree with the local limits of the Police jurisdiction of the Suburbs of Calcutta as defined by a separate notification of this date. The boundary common to the two Courts shall be that described as the western boundary of the Sealdah Police Court in notification dated 6th October 1869, published in the *Calcutta Gazette* of the 13th October 1869.

HORACE A. COCKERELL,

Offg. Secy. to the Govt. of Bengal.

NOTIFICATION—(3).

North Suburban Municipality.

The 10th September 1877.—In supersession of the Notification dated 20th February 1869, published in the *Calcutta Gazette* of the 24th idem, it is hereby notified that the North Suburban Municipality, for the purposes of Act V (B.C.) of 1876, will include the villages of Arriada-Kamarhatti, Bon Hooghly, Dukinassur, Burraunggur, Belghorea, Palpara, Nowpara, Basdebpore, Nyenan, Neej-Nyenan, Nyenan (east), and Neej-Senthee, which are exterior of the northern boundary line of the Police and Municipal jurisdiction of the Suburbs of Calcutta.

The boundary will be as follows:—

On the North—The northern boundaries of villages Kamarhatti and Basdebpore.

On the East—The eastern boundaries of villages Basdebpore, Belghorea, Nowpara, and Neej-Senthee. Thence—

On the South—The southern limit of the village of Neej-Senthee westward to the Eastern Bengal Railway line; then the northern boundary of the Suburbs of Calcutta.

On the West—The River Hooghly.

HORACE A. COCKERELL,

Offg. Secy. to the Govt. of Bengal.

NOTIFICATION—(4).

The 10th September 1877.—In supersession of the Notification dated 21st August 1873, and published in the *Calcutta Gazette* of the 27th idem, it is declared that the boundaries of the local jurisdiction of the Small Cause Court for the Suburbs of Calcutta shall be conterminous with the revised local limits of the Suburban Police jurisdiction as defined in a separate notification of this date.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 10th September 1877.—It is hereby notified for general information that, under Section 78 of the Bengal Municipal Act, V (B.C.) of 1876, the Lieutenant-Governor has been pleased, on the recommendation of the Commissioners of the Municipality of Baraset, in the 24-Pergunnahs district, made at a special meeting, to sanction the imposition from the 1st October 1877 by the Commissioners, under Section 122 of the Act, of a tax on carriages, horses, and other animals mentioned below at the rates specified against them respectively :—

			Per quarter.		
			Rs.	A.	P.
For every four-wheeled carriage drawn by two horses	4	8	0
" " " drawn by one horse or a pair	1	2	0
" of ponies under thirteen hands	0	12	0
For every two-wheeled carriage	2	0	0
" horse	0	6	0
" pony under thirteen hands and for every mule and	6	0	0
donkey	2	0	0
For every elephant			
" camel			

The Lieutenant-Governor has been also pleased to sanction, on the recommendation of the Commissioners at a meeting, the registration by them, under Section 133 of the Act, of all carts kept or habitually used within the Baraset Municipality, and the levy under Section 134, from the 1st October 1877, of a half-yearly fee of Re. 1 upon every cart for such registration.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 8th September 1877.—It is hereby notified for general information that, on the recommendation of the Commissioners of the Municipality of Bydabatty, in the district of Hooghly, made at a special meeting, the Lieutenant-Governor has been pleased, under Section 78 of Act V (B.C.) of 1876, to sanction the registration by the Commissioners, under Section 133 of the Act, of all carts kept or habitually used within the Municipality and the levy, from the 1st October 1877, of a fee upon every cart for such registration at the rate mentioned below :—

For every cart kept or habitually used within the Municipality, Rs. 4 per annum, or Rs. 2 per half-year.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 8th September 1877.—It is hereby notified that, under Section 7 of Act III of 1877 (the Indian Registration Act), the Lieutenant-Governor has been pleased to sanction the abolition of the Sub-Registry Office at Belgachi, in the district of Furreedpore, and the re-attachment of thana Belgachi to the Registration sub-district of Goalundo. The changes will have effect from the 1st October 1877.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 2nd September 1877.—The following bye-laws, framed by the Municipal Commissioners of Purneah at a meeting, under Section 313, Act V (B.C.) of 1876, having been confirmed by the Lieutenant-Governor under Section 314 of the Act, are hereby published for general information :—

For Regulating the time and Mode of Collecting the Taxes.

1. Every collecting officer shall be provided with a certificate of his authority to collect, and every such certificate shall bear the seal of the Municipality and the signature of the Chairman. Every collecting officer at the time of demanding payment shall be bound to show the certificate, if required.

2. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish, shall send such schedule or return to the office of the Commissioners within one week from the date of the service of the requisition, in the manner described in Section 367 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs. 5 for the omission, and to a penalty not exceeding Rs. 2 for every day the omission shall, after warning, continue. Any person submitting a false or incorrect schedule or return shall be liable to a penalty of Rs. 20; provided that nothing in this bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code, should the fact appear to warrant such a proceeding.

3. Payment of purchase-money for property sold, and delivery of the property, shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer, at his discretion, to sell the property again on the same or any other day, and the first purchaser shall in such case be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

For Regulating the Conduct of Persons employed by the Commissioners.

4. All persons employed by the Commissioners whose services may be no longer required shall be liable to discharge after receipt of previous notice or pay in advance for the period of one month, and no such person shall withdraw from the duty of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

5. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix; and any person failing to furnish such security within reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment, and may be removed from office.

For Regulating the Disposal of Offensive Matter, Rubbish, and Dead Bodies of Animals.

6. Every person within whose premises any animal may die shall, within four hours after its death, or, if death occurs at night, within two hours after daylight, either remove at his own expense the carcass to such place as may be set apart by the Commissioners for the reception of such carcass, or report its death to the conservancy overseer of the division within which such premises may be situated, and in such latter case shall pay to the said overseer the expense of removing the carcass at such rate as the Commissioners may determine; and in cases where the said person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense, and such expense shall be recoverable as a debt due to the Commissioners. No overseer when called upon shall neglect to remove a carcass.

Penalty for infringement, Rs. 10.

7. No person shall deposit, or cause to be deposited, any carcass, or any part of a carcass, in any place other than such places as may from time to time be appointed by the Commissioners for the reception of such carcass.

Penalty for infringement, Rs. 10.

For the Regulation and Management of Privies.

8. Every owner or occupier of any house, land, or premises from which offensive matter is not removed by the said owner or occupier shall give free access to the servants of the Municipality to his house, land, or premises, for the removal of any night-soil or filth, within such hours as may have been fixed on by the Municipal Commissioners.

Penalty for infringement, Rs. 5.

9. Every person shall construct his privy above ground, and shall provide his privy or premises with a suitable moveable receptacle of metal or earthenware.

Penalty for infringement after notice, Rs. 20.

10. On receipt of a notice from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well-privy or other noxious or improperly constructed privy may be situated shall fill up, close, or otherwise alter the construction of the said privy as may be directed in the notice; and if the orders contained in the notice be not carried out within fifteen days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expense incurred in so doing shall be recoverable as a debt due to the Commissioners.

11. No owner or occupier of any house, land, or premises in or on which a privy may be situated shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, watercourse, river, tank, hollow, or excavation (or any place containing waste and stagnant water), or into any other receptacle but one of the nature described in bye-law 9.

Penalty for infringement, Rs. 20.

12. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cesspool into any river, tank, khal, water-course, or receptacle for water, or dispose of the above-mentioned kind of offensive matter in any other way than as the Municipal Commissioners may from time to time direct.

Penalty for infringement, Rs. 20.

13. The Municipal Commissioners may direct the use of lime, coal-tar, carbolic acid, or other deodorants or disinfectants in any privy or premises if at any time it seem to them necessary for the preservation of public health, or for the prevention of infection or spread of disease: provided that the Municipal Commissioners shall be bound to supply such deodorants, &c., at cost price, and the price shall be recoverable as a debt due to the Commissioners.

14. No person shall carry night-soil through the streets otherwise than in a closely covered receptacle of such description and pattern as shall be required from time to time by the Municipal Commissioners, and between such hours as the Municipal Commissioners may from time to time direct.

For Regulating Traffic in the Streets.

15. Every carriage or cart plying in the streets after one hour after sunset shall carry a light or lights.

Penalty for infringement, Rs. 5.

16. No owner of any carriage shall allow it to be drawn by a driver under 14 years of age.

Penalty for disobedience on the owner's part, Rs. 10.

17. No person shall, without the permission of the Commissioners, take an elephant along any of the public roads within the limits of the Municipality, except by such routes as shall be fixed for the purpose by the Municipal Commissioners.

Penalty for infringement, Rs. 20.

18. Every cart laden with bamboos shall not use the public road within the limits of the Municipality, except the cart is attended with a driver and another man.

Penalty for infringement, Rs. 2.

For Regulating or Prohibiting the use of Fire-balloons, Fire-works, Fire-arms, or Missiles in the vicinity of Public Roads.

19. No one shall let off any fire-balloons, fire-works, fire-arms, or any missile in or near a public street without the consent of the Municipal Commissioners previously obtained.

Penalty for infringement, Rs. 10.

General Bye-laws.

20. No person shall put, or cause to be put, on any house or other buildings any spout or other thing intended for the conveyance and discharge of water, which shall be so placed that the water discharged therefrom shall be thrown or fall upon any public road or thoroughfare, and the Commissioners shall have power to take down and alter any such spout now in existence, and to recover the cost as a debt due to the Commissioners.

Penalty for infringement, Rs. 5.

21. No persons shall construct, or place over, or by the side of any public drain, any bridge, platform, building, or structure of any kind, except by, and with the written permission of the Commissioners, and in such manner as they shall direct.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 3 daily.

22. If any house, wall, or other erection, or any part thereof, fall upon any public highway or into any public drain, the owner of such house, wall, or erection shall remove it after notice within the time prescribed by the Commissioners.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 5 daily.

23. No person shall prepare any channel, or convey water by any channel, across any public thoroughfare, except in such manner as shall have been first approved by the Commissioners.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 2 daily.

24. No person shall steep in any river, khal, tank, or ditch within municipal limits any jute, hemp, bamboos, or other vegetable matter likely to render the water of such river, khal, tank, or ditch offensive or noxious to the neighbourhood.

Penalty for infringement, Rs. 5; penalty for continued infringement after notice, Rs. 2 daily.

25. No person shall, without the written permission of the Commissioners, set up any obstruction in any nullah or watercourse, and the Commissioners may order the removal of any such obstruction on grounds of public health.

Penalty for infringement, Rs. 10 ; penalty for continued infringement after notice, Rs. 4 daily.

26. Every owner, occupier, or farmer of any bazar shall, within 14 days after receipt of notice from the Commissioners, provide such latrines and urinals as in the opinion of the Commissioners may be necessary to secure the cleanliness and health of the bazar.

Penalty for infringement, Rs. 20 ; penalty for continued infringement, Rs. 5 daily.

27. The owner or occupier of any part of the bank of any nullah or water-course shall keep it free from filth, dense vegetation, or other obstruction, and shall at all times allow the Commissioners, or any of their servants duly authorized, to have access to such nullah or water-course for any purpose of public conservancy.

Penalty for infringement, Rs. 10 ; penalty for continued infringement after notice, Rs. 5 daily.

28. No person shall let loose, or cause or allow to be let loose, or allow to get loose, any diseased or worn-out animal on any highway, or into any place whence such animal can escape into any highway.

Penalty for infringement, Rs. 20.

29. No person shall bury, or cause to be buried, any corpse, or part of a corpse, in any burial ground, in a grave constructed of masonry, in such manner that the top of the coffin, or the body where no coffin is used, shall be at a less depth than five feet from the surface ground.

Penalty for infringement, Rs. 10.

30. No person shall bury, or cause to be buried, in any burial ground any corpse, or part of a corpse, in a grave not constructed of masonry which shall be less than six feet deep.

Penalty for infringement, Rs. 10.

31. No person shall build or dig, or cause to be built or dug, any grave in any burial ground at a less distance than two feet from any other existing grave.

Penalty for infringement, Rs. 20.

32. No person shall build or dig, or cause to be built or dug, a grave in any burial place in any other line than that marked out by the Commissioners.

Penalty for infringement, Rs. 20.

33. No grave once used shall be opened for the burial of another body without the permission of the Commissioners.

Penalty for infringement, Rs. 20.

34. No one shall carry a corpse, or part of a corpse, through any highway unless it be decently covered and totally concealed from public view.

Penalty for infringement, Rs. 10.

35. No person shall picket animals, or collect carts, or form any encampment upon any public ground without the permission of the Commissioners.

Penalty for infringement, Rs. 10.

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

PUBLIC WORKS DEPARTMENT,—BENGAL.

ESTABLISHMENT.

The 18th September 1877.

No. 253 — *Posting*.—Mr. P. J. Neuville, Executive Engineer (temporary rank), Second Grade, is attached to the Third Calcutta Division as a temporary measure, or until further orders.

* Bengal Government (Public Works Department) Notification No. 232, of the 4th September 1877.

This cancels* the appointment of Mr. Neuville to officiate as Executive Engineer, Ganges and Darjeeling Road Division.

LOCAL—COMMUNICATIONS.

The 25th September 1877.

No. 254.—*Declaration under Section 6, Act X of 1870 of the Government of India*.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz. for the site of a serai in the village of Komarbag, pergunnah Ameerabad, zillah Maldah, it is hereby declared that for the above purpose a piece of land measuring, more or less, 2 beeghas 5 cottahs of standard measurement, bounded on the north by Tilakgeer's garden ; on the west by the Nemaserai Road ; and on the south and east by Chandra Mohun Shah's garden, commonly known as Modun Mohun Shah's garden, is required within the aforesaid village of Komarbag.

2. This declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

G. A. D. ANLEY, C.E.,
Asst. Secy. to the Govt. of Bengal, P. W. D.

DISTRICT ROAD FUND.

NOTIFICATION.

No. 255.

The 25th September 1877.

UNDER Section 89 of Act X (B.C.) of 1871, the following annual accounts and reports of the Road Cess Committees of the Cuttack, Pooree, and Balasore districts of works done and in progress during the past cess year 1875-76, together with the remarks thereon of the Commissioner of the Orissa Division, are published for general information.

G. A. D. ANLEY, C.E.,
*Asst. Secy. to the Govt. of Bengal
 in the Public Works Dept.*

No. 271, dated Cuttack, the 12th December 1876.

From—J. BEAMES, Esq., Collector and Chairman, Road Cess Committee, Cuttack,
 To—The Commissioner of the Orissa Division, Cuttack.

I HAVE the honor to submit the annual report of road cess operations for the year ending 30th September 1876.

2. As directed in section 88 of the Act, the accounts for the year under report were referred to a sub-committee consisting of the Vice-Chairman and three other members, by whom they were audited and found correct. The sub-committee's report has this day been laid before a general meeting of the committee, duly considered, and passed. The accounts so passed are now submitted to you, as prescribed in section 89, with the following report.

3. The income of the fund for the year was Rs. 40,906-5-8, including a surplus of Rs. 8,840-6-5 from the preceding year, and the expenditure Rs. 32,730-14-0, leaving a balance in hand of Rs. 8,175-7-8 to be carried to the credit of the fund for the following year. The income fell short of that of the year 1874-75 because we had been realizing our cess in advance; and the Board having ruled in their No. 189A, dated 28th August 1875, that the cess was payable in arrear, only one of the two yearly instalments was collected during the year. This diminution of our funds necessitated a corresponding reduction in our works.

4. *Original works.*—A double-roomed inspection bungalow with out-offices was constructed at Sukeepara at the 26th mile of the Chandbally road. This was much needed, as there was no bungalow between the 15th and 37th miles, which is too great a distance for an overseer to supervise from either end. The bungalow is well built and will be very useful.

5. A sum of Rs. 500 has been handed over to the Executive Engineer, Mahanuddy Division, for improvement of the tidal creeks leading to False Point harbour. That part of the country being swampy and intersected by rivers, no roads could be made. All the traffic is carried on by boats; the improvement of the creeks is therefore a legitimate method of expending the road fund money.

6. On village roads Rs. 594 were spent, mostly in small sums, for petty local improvements. The Jajpore Branch Committee have laid out Rs. 300 in constructing four small pathways connecting several populous villages with the town of Jajpore. No village roads were made in Kendraparah, but the approaches to a bridge on the Golora Hât road, which had been injured by floods, were repaired and strengthened. Kendraparah does not require many village roads, as it possesses good water communications and has several district roads running through it.

7. The Chouliagunge nursery garden is maintained for the purpose of supplying trees to plant along roadsides, and continues to be very efficient. 1,200 trees have been sent out this year. The first seven miles of the Toldanda road have now a handsome avenue of trees. Jajpore, Kendraparah, and False Point have also been supplied, and the work of making a continuous avenue along the Chandbally road, 66 miles long, has been begun.

8. *Repairs.*—It is unnecessary to give details of all the work done under this head. These will be found in the accounts herewith submitted. All the roads in the district have received their due share of attention, and the earthwork, metalling, bridges, culverts and causeways are at present in a fair state of repair.

9. The Gopianulla bridge on a branch of the Chandbally road leading towards the town of Kendraparah, which had been almost entirely destroyed by floods, has been repaired—indeed, it may almost be said to have been reconstructed—at a cost of Rs. 1,880. This is a very useful work.

10. Two roads in the Jajpore sub-division, that leading to Binjharpore and that leading to Kuakhia, have been seriously injured by floods. These roads run across low swampy grounds and suffer severely every year. Considerable repairs have been executed, and what remains to be done will be carried out during the current year. I fear, and the District Engineer agrees with me, that these two roads will never stand the yearly floods; it may, however, be hoped that the ancient now being constructed across the Byturnee river will have a good effect in reducing the force of the spill-water which every rains pours over the country to the south of Jajpore.

11. With reference to paragraph 3 of Government circular No. 50, dated 23rd July 1873, I have the honor to state that the following works are proposed to be undertaken during the ensuing year:—

The construction of a road cess office adjacent to the Collector's office at Cuttack.

Ordinary repairs and construction of village roads whenever they may prove to be required.

Planting trees on district roads as far as funds will permit.

Ordinary maintenance and repairs of all district roads, including bridges and causeways.

Extension of the metalled portion of Toldanda road up to 7th mile.

Reconstruction of bridges washed away or injured by floods on the roads Nos. 4, 9, 16, and 29 in Jajpore sub-division.

12. Mr. Glasson, the former District Engineer, having been dismissed, the committee elected Mr. W. W. Serres, whose appointment was confirmed by Government. Mr. Serres has worked very well during the year.

13. Mr. Beck, Overseer, is a very intelligent officer and has rendered valuable assistance, he is energetic and well acquainted with engineering. Mr. D'Souza, the other Overseer, has not given satisfaction, and an enquiry into his conduct is now being held by the Deputy Collector of Jajpore, upon the result of which his retention or dismissal will depend.

14. Very great credit is due to Baboo Gunnesh Prosad Sing, the Head Clerk of the Road Cess office. He is a young man of respectable family, and has conducted the somewhat intricate work of the department with great ability and regularity.

15. I regret that I cannot report so favorably of the sub-overseers. They take a great deal of looking after and are apt to shirk their work. I hope they will improve in time.

16. The Committee at Cuttack held four meetings, that at Jajpore four, that at Kendraparah one. The meetings in Cuttack were in general well attended, but the non-official members, as a rule, have never visited any part of the district except that which lies between their homes or estates and Cuttack, and as they mostly traverse this distance at night in a palkee with closed doors, their opportunities of observing the state of the roads are not so extensive as might be desired.

17. I have every reason to believe that the road cess has now passed into the sphere of established things about which no one grumbles. The cess was lightly laid on at first and quickly understood, and it is not now in way unpopular.

APPENDIX A.

Abstract of particulars regarding meetings of District Road Committees for the year 1875-76.

CUTTACK ROAD CESS OFFICE,
The 1st November 1876.

JOHN BEAMES,
Chairman.

Explanatory notes.

(A). The figures given in this column have been taken from the revised estimate submitted with this office No. 35, dated 24th February 1876, and approved by the Commissioner in his letter No. 378RC, of the 27th idem.

(B). Rupees 3,960 was originally shown in the budget, and it was reduced to Rs. 3,460 in accordance with paragraph 2 of Government resolution No 1883A of the 27th April 1876.

(C). The excess is attributable to the amount of cess being paid during the year on account of advance for the next cess year.

(D). This amount is less than what was estimated in the budget, owing to some of the *kists* not having been paid before the close of the year under review, as also to Rs. 200 spent on repairs to boats having been excluded under Commissioner's letter No. 87, dated 17th July 1876.

(E). The receipts under this head have exceeded the amount estimated in the budget. A sum of Rs. 426-8-11 was transferred from provincial fund to this heading by order of the Accountant-General, Bengal; see his No. 883TE, dated 25th November 1875.

(F). Rupees 2,000 was first allotted in the budget under this head, and Rs. 383-1-11 was transferred from "reserve" (vide Commissioner's No. 190RC, dated 3rd November 1876).

(G). Rupees 4,578 was allotted in the budget, of which Rs. 600 was transferred to Gopianulla bridge (vide Commissioner's No. 87, dated 17th July 1876).

(H). Rupees 600 was first allotted in the budget, of which Rs. 150 was transferred to Gopianulla bridge (vide Commissioner's No. 87, dated 17th July 1876).

	Rs. A. P.
(I). Original allotment	3,061 0 0
Add subsequently transferred from reserve (vide Commissioner's Nos. 33 and 87, dated 4th May and 17th July 1876)	588 0 0
Total	3,649 0 0
Deduct the amount again transferred to Gopianulla bridge (vide Commissioner's No. 87, dated 17th July 1876)	150 0 0
Balance	3,499 0 0
(J). Originally sanctioned as per budget	1,000 0 0
Received by transfer from following heads (vide Commissioner's No. 87, dated 17th July 1876)	
From Tools and Plant Rs. 100	
„ Chandbally road „ 600	
„ Toldanda „ 150	1,000 0 0
„ Madhab „ 150	
Total	2,000 0 0

(K). An allotment of Rs. 2,013-11-11 was provided for in the budget under this head, out of which Rs. 971-1-11 have been transferred to the following heads:—

	Rs. A. P.
Toldanda road (vide Commissioner's Nos. 33 and 87, dated 4th May and 17th July 1876)	588 0 0
Chouliagunge garden (vide Commissioner's No. 190RC, dated 3rd November 1876)	383 1 11
Total	971 1 11

(L). Rs. 100 was allotted in the budget under this head, but as the whole amount was transferred to the head of Gopianulla bridge (vide Commissioner's No. 87, dated 17th July 1876), nothing has been shown under this head in the present return.

J. BRAMME,
Collector and Chairman.

No. 560, dated Pooree, the 5th December 1876.

From—J. S. ARMSTRONG, Esq., Collector of Pooree,

To—The Commissioner of the Orissa Division, Cuttack.

I HAVE the honor to submit the local improvement report for the cess year ending 30th September 1876. I was absent on furlough during the whole year, and I am obliged to compile this report from the records.

2. The undermentioned gentlemen were members of the committee during the year under review, and the subjoined table shows the number of meetings attended by each :—

Names of Members.	Number of meetings attended.	Number from which absent.	Total.
J. F. Stevens, Esq.	1	6	7
F. G. Millet, "	1	6	7
A. Manson, "	4	3	7
F. F. Handley, "	4	3	7
J. Macmillan, "	...	7	7
F. Bond, "	...	7	7
Rev. J. Bailly	...	7	7
Baboo Nobin Krishna Sircar	2	5	7
" Umbice Churn Roy Chowdry	5	2	7
Mahant Narayan Dass	7	...	7
Baboo Ram Gopal Chatterjee	4	3	7
Khetrabar Bhugwan Rat Sing	2	5	7
Madhu Sudan Khuntia	4	3	7
Baboo Lokenath Roy	3	4	7
" Akil Nath Roy	3	4	7
Adhikari Raahbehari Dass	4	3	7
Rughunandan Ramanuj Dass	1	6	7
Ramkisto Patjooi Mohapater	2	5	7
Ramkisto Ramanuj Dass	2	5	7
Baldhur Mohapatra	1	6	7
Baboo Ram Chand Add	2	5	7
Rajah of Parikud	...	7	7
Shaik Jamiloodin Mahomed, Jagirdar	...	7	7

Baboo Nobin Krishna Sircar, the late Vice-Chairman, went on leave at the end of last January, and Mr. Handley was elected Vice-Chairman in his place.

3. The aggregate receipts of the year under the several heads amounted to Rs. 24,165-9-5, viz.—

	Rs.	A.	P.
Cash in hand	11,391	1	0
Advance outstanding	127	2	6
Cess on land	12,494	11	10
" houses	16	0	0
Fines and refunds	25	2	0
Miscellaneous receipts	111	8	1
Total	24,165	9	5

4. The total expenditure amounted to Rs. 9,780-4-3. Details of expenditure are given below :—

	Rs.	A.	P.
Office establishment	1,620	10	9
Temporary "	205	6	4
Contingencies	757	5	10
Repairs to district roads	3,250	5	4
Village roads	1,332	8	7
Original work	28	1	0
Field establishment	2,388	8	6
Tools and plant	154	6	0
Refunds	48	4	11
Total	9,780	4	3

Repairs.—The following roads and bungalows were completely repaired during the year under review. The amount expended on each item is set forth below :—

	Rs.	A.	P.
Balighai to Madhab road	847	4	5
Piplee to Khoordah "	1,061	0	6
Khoordah to Bolgar	1,124	0	11
Balugan and Banpore	111	15	6
Inspection bungalow situated on Khoordah and Kantilo road	108	0	0

6. A sum of Rs. 1,332-3-7 was spent in repairing certain village roads situated in thanas Pooree, Piplee, and Gope Khoordah, Tangy, and Banpore, out of Rs. 6,000 allotted for that purpose by the committee in their budget of 1875-76. In allotting this large sum for the repair of village roads, it was anticipated by the committee that there would be numerous applications for the village roads, so that the inhabitants of the whole of the district might feel that they had an interest in the disbursement of the road cess; but this object has not been fairly obtained, as is shown by the small expenditure made out of the grant of Rs. 6,000. The villagers made no applications for small grants under Rs. 100 for village roads. They wanted raised roads and applied for larger sums, though a public notification was given in inviting them to ask for village road grants. The larger landholders generally submit applications for grants of large sums for raised roads, which cannot be entertained unless the roads are entered on the regular list of district roads prepared under section 66 of the Road Cess Act. This is already full and will require some years to carry out. This year a regular printed form is to be supplied to applicants, and circulars have been issued calling upon the public to make applications for any repair to village roads in which they are interested. There appears to be an unwillingness on the part of the public to take any grants for repairs to be executed by themselves; they wish the work to be done by the committee's own agency, which is impossible. A sum of Rs. 2,000 was paid to the Chairman of the Khoordah Branch Committee for repair of village roads in Khoordah subdivision. He advanced the whole of this grant to the villagers for the commencement and completion of work within the year in question, but accounts and completion reports were not submitted within the road cess year; so that Rs. 930, the balance, has lapsed to the fund, and the original expenditure will be debited to the accounts of the current year.

I give below the list of village roads repaired during the year:—

	Rs.	A.	P.
Simakhala village road...	7	2	6
Alaidihi	115	0	0
Bhadro	28	3	4
Harikristopore	10	2	9
Revetment of Satyahadi bridge	12	11	0
Trilochanpore	20	0	0
Raikhandi	22	0	0
Jankdripore	11	8	0
Bentpore	35	8	0
Jajjharsingh to Garjang	440	0	0
Benapanjri to Toraboi	100	0	0

Khoordah	45	0	0
Bridge on Khoordah road	5	0	0
Small gullet between Harisahi and Santrapore	10	0	0
Chiria Marimi Sahi to Gobindji muth	70	0	0
Nyapokhri road	30	0	0
Bolgar	50	0	0
Changir	20	0	0
Juriapara	50	0	0
Jhatiapatna	40	0	0
Ditto to school-house	40	0	0
Balugan Debipatna	70	0	0
Nemai Mal	40	0	0
Balabhadrapore	30	0	0
Total	1,332	3	7

7. *Original.*—The only expenditure under this head was Rs. 28-1 in taking levels of the Balighai and Madhab road. A sum of Rs. 6,000 was allotted for remodelling the Balighai and Madhab road and Bhoobaneswar road. The work could not be taken up, as the estimate was not received in time. The working establishment entertained by the committee began their duties in November last and was kept employed on the repair works.

8. The expenditure of the committee under the several heads shown in the annual account has been kept down to the sum allotted for them, except the cost of collection and temporary establishment, which have exceeded by Rs. 122-10-9 and Rs. 7-6-4 respectively, on account of the pay for September having been disbursed on 21st idem, in anticipation of the Doorga Pooja holidays. The excess amount paid will be recovered from the budget of the current year.

9. I give below the list of the works proposed by the committee to be carried out during the year 1876-77:—

	Repairs.	Rs.	A.	P.
Khoordah to Kalapather	...	1,868	0	0
Piplee to Khoordah	...	1,000	0	0

Salt roads					422	0	0
Erection of a building for road cess office...					4,000	0	0

No. 589, dated Pooree, the 15th December 1876.

From—F. F. HANDLEY, Esq., Vice-Chairman, Road Cess Committee, Pooree,
To—The Commissioner of the Orissa Division, Cuttack.

WITH reference to this office annual account of the year 1875-76, I have the honor to state that the cash balance on 1st October 1875, as exhibited in the account, is Rs. 11,518-3-6, but the balance shown in the account of previous year was Rs. 11,872-11-4, thus causing a difference of Rs. 354-7-10. This sum was spent by the Executive Engineer, Orissa Division, in excess of the advance made to him in the year 1874-75, and omitted from the account of 30th September 1875 by the Examiner of Accounts in his No. 14409, of 6th November 1875.

APPENDIX A.

Abstract of particulars regarding meetings of District Road Committees for the cess year 1875-76.

ROAD CESS OFFICE, POOREE,
The 15th January 1877.

F. F. HANDLEY,
Vice-Chairman.

Explanation accompanying the annual account for the year 1875-76.

No. 6, Part II.—*Establishment on collection of revenue.*—A sum of Rs. 1,498 was only sanctioned under this head, but the expenditure has amounted to Rs. 1,620-10-9 under the circumstances explained in this office No. 560 of 5th December 1876. The excess charges will be recovered from the budget of the current year as stated in the said letter.

No. 6, Part II.—*Temporary establishment.*—The excess charges incurred under this head is Rs. 7-6-4. This will be recovered from the budget of the current year as reported in this office letter referred to above.

Contingency.—Rupees 824 represents the following items:—

	Rs.
As per last year's budget	524
Transferred under Commissioner's No. 164, of 7th October 1876	300
Total	824

Inspection bungalow. Repairs.—Rupees 106 was transferred under Commissioner's No. 2RC., of 4th April 1876.

Village roads—Rs. 2,000.—Rupees 2,000 was assigned to the Branch Committee of Khoordah for the village roads of the undermentioned zillahs—

	Rs.
Zillah Khoordah	800
„ Banpore	600
„ Dandimal	600
Total	2,000

But the Chairman of the Branch Committee allotted the said amount to the village roads under block thanas of Khoordah sub-division in Khoordah, Tanghy, and Banpore. A supplemental statement under section 68 was submitted under this office No. 341, of 17th July 1876.

Tools and plant.—Rupees 210 transferred under Commissioner's No. 85RC., of 14th July 1876.

No. 123, dated Balasore, the 10th November 1876.

From—T. NORMAN, Esq., Chairman,

To—The Commissioner of Orissa, Cuttack.

I HAVE the honor, on behalf of the Road Cess Committee of this district, to submit a copy of the accounts of the receipts and expenditure of the District Road Fund during the road cess year 1875-76, as required by section 89 of the District Road Cess Act, 1871.

2. In compliance with the requirements of the Act, the accounts have been examined by the Vice-Chairman and a sub-committee appointed in its behalf by the committee, and were submitted to, and passed by, a general meeting of the committee held this day.

3. The year's operations, so far as concerns the District Road Fund, consisted, firstly, of the repair and maintenance of the district roads, and secondly, of the provision of suitable boats for the district ferries. The following table A shows the particulars of each work in full detail, specifying the nature, amount, rate, and cost of each undertaking, and including general remarks explanatory of its scope and object.

19	Barang to Basdehpur	144	Earthwork Recti work Contingencies	92,730 c. ft. 15 miles	1 12 0 per 1,000 c. ft. 9 0 0 " mile	163 4 90 134 0 0 3 12 0 Total 300 0 0 300 0 0	Ditto	ditto.

The span of arch is 5 feet.
			<i>Timber Bridges.</i> Concrete in foundation Brick masonry in lime mortar Bark plaster Sunk woodwork Iron work Contingencies ..	1,183 c. ft. 6,389 " 2,066 s. ft. 615 c. ft. 45 "	17 0 0 per 100 c. ft. 17 0 0 " 100 " 3 0 0 " 160 s. ft. 1 8 0 per c. ft. 2 0 0 "	186 13 9 1,120 2 0 60 5 9 1,012 8 10 98 8 3 117 13 6 Total... 17,931 0 6 2,606 0 1	Same remarks as against culvert. Altogether three timber bridges have been constructed. No. 1 is one span of 10 feet; No. 2 is two spans of 19 feet each; and No. 3 is two spans of 18 feet each.

5. The funds from which these three latter works have been constructed have not been road cess funds, but have been sums handed over to the committee from different sources. The sum of Rs. 18,000, as noticed in last year's report, was placed at the disposal of the committee by the Central Famine Relief Committee after the cyclone of the 15th October 1874. The work upon which it has been expended, the reconstruction of the Busta and Baliapal road, is one of the highest utility and importance. It is at the same time a work of difficulty, the line being frequently swept by the flood-spill of the Subarnarekka river. It is satisfactory to be able to state that under the able supervision of Mr. Vertannes, the Executive Engineer, Balasore survey division, it has at length been successfully accomplished.

6. A second very important work, the Phulwar and Kalama road, has made good progress, but is not yet completed. The design of this road is to connect Baripada, the capital of Mayurbhunj, by far the most wealthy and extensive of the tributary estates of Orissa, with the town of Balasore. The completion of this work, towards which the Rajah has very properly handed over to me the sum of Rs. 7,000, will confer an immense mutual advantage on regulation and non-regulation territory alike. Mr. Vertannes has been good enough to design and to supervise the construction of this road, which is entirely new.

7. The third road constructed from extraneous funds is the Barpoda to Moraigang road. This work has been undertaken from the balance of the Soso relief fund, collected to relieve apprehended distress in 1873. Its design is to connect Bhadrakh with the tributary estate of Keonjhar and the upper reaches of the Byturnee. It will form a portion of the route between the forests of Keonjhar, with their varied produce, and the port of Chandbally.

8. The small sum at the disposal of the committee for ordinary repairs was expended to the best possible advantage. Details are fully given in table A above. The roads have been maintained in fair condition throughout the year, and many improvements have been effected.

9. The people are by no means inappreciative of the objects and advantages of the cess. They come forward with the utmost freedom to represent their wants, and show plainly that they consider themselves to possess a vested interest in the matter.

10. The rate has now been raised to the maximum, and is double that assessed previously. This was effected without exciting any discontent or opposition, as it seemed to be well understood that the payers of the tax would get the benefit of it.

11. The number of general meetings of the committee was twelve. The attendance of the members was as follows:—

Names.	Number of meetings attended.
The Chairman	11
The Vice-Chairman	10
The senior covenanted assistant under the Magistrate and Collector	5
Rai Shamanand De, Bahadur	3
Babu Barada Kant Mazumdar	7
„ Boikunth Nath De...	9
„ Madan Mohan Das	1
„ Purusottam Das	2
„ Ram Mohan Das	0
„ Radharaman Das	0
„ Bhagaban Das	3
Rajah Huri Krishna Bhunjee	3

12. What it is proposed to do during the road cess year 1876-77 is as follows:—

The rate of cess having been doubled, it is estimated that the year's income will amount to Rs. 27,030. After due provision for all other charges, the sum allotted to works is Rs. 20,009. This sum has been rateably distributed among the roads of the district, 26 in number and 161 miles in length, excepting an allotment reserved for village roads. The largest allotment made to any road is that assigned to the Chandbally road, a communication of provincial importance, and amounts to Rs. 3,300. A careful survey is first made of each road, and detailed estimates are then drawn up to include such works either of improvement or of maintenance as may be decided upon. A large portion of these estimates has been already laid before the committee and sanctioned, while surveys of some of the roads are still in progress. It is also contemplated to effect a survey of a line some 12 miles in length during the road cess year 1876-77 with the object of constructing a new road in a subsequent year. The points which it is proposed to join are the trunk road at Jamjhar and the port of Churaman.

No. 261RC, dated Camp Conthlo, the 22nd February 1877.

FROM—T. E. RAVENSHAW, Esq., Commissioner of the Orissa Division,

TO—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honor to submit the following report on the works of local improvement carried out in this division during cess year 1875-76.

2. The annual reports and accounts of the several districts are herewith forwarded for publication in *Calcutta Gazette* under section 89 of the Road Cess Act.

3. The total receipts of the year from tolls, cesses, &c., was Rs. 49,626-12-6, grant-in-aid from Provincial Fund Rs. 12,000. The opening balance on 1st October 1875 was Rs. 21,046-15-9. Thus the total income amounted to Rs. 82,673-12-8, and the total expenditure on original works, repairs and establishment Rs. 57,798-1-8, leaving a balance of Rs. 24,875-11-0 unexpended at close of the year.

4. The total receipts, expenditure and balance of each district are specified below :—

1875-76.	Cuttack district.	Pooree district.	Balasore district.	Grand total.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Total receipts	40,906 5 8	24,165 9 5	17,801 13 2	82,673 12 8
.. expenditure	32,730 14 0	9,780 4 3	16,286 16 0	57,798 1 3
Balance at the close of the cess year 1875-76	8,175 7 8	14,385 5 2	2,314 14 2	24,875 11 0

5. It will be observed that the balance unexpended in Cuttack and Pooree districts is large. No satisfactory explanation of failure to work up to estimates is afforded, and I am sorry to notice that Pooree expenditure is not one-half of the annual receipts, indicating a want of executive vigour.

6. The following works were carried out—

IN CUTTACK DISTRICT.

Original works.—A doubled-roomed inspection bungalow with out-offices constructed at Sukerpara, at the 26th mile of the Chandbally road; Rs. 500 were laid out on improvement of tidal creeks leading to False Point; Rs. 594 spent on village roads; Rs. 300 in constructing four pathways connecting populous villages with the town of Jajpore; 1,200 trees were sent out from Chouliagunge nursery; and the work of making a continuous avenue along the 66 miles of the Chandbally road commenced upon.

Repairs.—Necessary repairs were executed to all roads, bridges, culverts and causeways in the district. An important bridge on Gopianulla on the Chandbally road which was almost entirely destroyed by flood has been repaired. Two roads in the Jajpore sub-division—the one leading to Binjarpore and the other to Kuakhia, and which are subject to annual inundations—have been thoroughly repaired. The Collector, however, apprehends that these two roads will never stand the yearly floods, until the force of the water which spills over the country to the south of Jajpore is reduced by completion of the anicut in course of construction across the Byturnee river.

7. The undermentioned works are proposed to be undertaken during the ensuing year :—

The construction of a road cess office at Cuttack.

Ordinary repairs and construction of village roads.

Planting trees on district roads.

Repairs of all district roads including bridges and causeway.

Extension of the metalled portion of Toldanda road up to 7th mile.

Reconstruction of bridges washed away or injured by floods on the roads Nos. 4, 9, 16, and 29 in Jajpore sub-division.

8. The Committee at Cuttack held four meetings during the year, that at Jajpore four, and that at Kendraparah one. The meetings were in general well attended. The maximum rate has been voted for 1876-77.

9. The subordinates employed under the Road Cess Committee seem to have worked well, with the exception of the lower subordinate establishment, which needs re-organization and improvement.

POOREE DISTRICT.

10 No original works were here carried out during the year under report. A sum of Rs. 28-1 only was spent in taking levels of the Balighai and Madhab road.

Repairs.—The following district roads and bungalows were completely repaired at the cost mentioned opposite each :—

			Rs.	A.	P.
Road from Balighai to Madhab	817	4	5
Ditto Piplee to Khoordah	1,061	0	6
Ditto Khoordah to Boleguruh	1,124	0	11
Ditto Baligan to Banpore	111	15	6
Inspection bungalow situated on Khoordah and Kontillo road	106	0	0

A sum of Rs. 1,332 3-7 was also spent in repairing village roads in thanas Pooree, Piplee, Gope, Khoordah, Tanghy, and Banpore.

In the budget of the year, Rs. 6 000 was provided for the repair of village roads, and the Collector thus accounts for the expenditure under this head being small :—“The villagers made no applications for smaller grants under Rs. 100 for village roads; they wanted raised roads and applied for larger sums. The larger landholders generally submit applications for grants of large sums for raised roads, which cannot be entertained, unless the roads are entered on the register list of district roads prepared under section 66 of the Road Cess Act. This is already full, and will require some years to carry out. Again, there appears to be an unwillingness on the part of the public to take any grants for repairs to be executed by them; they wish the work to be done by the Committee's own agency, which is impossible.”

11. There appears to be difficulty in getting villagers and landholders to carry out petty works. There is a great want of unanimity and self-government among Pooree village communities, and this leads to more discussion than work. The larger landholders seem to have applied for works of greater magnitude than properly fall under petty village roads and improvements; some of these applications might, I think, have been complied with in a modified form and at reduced cost in place of being summarily rejected; and I also think that aid might be afforded in the matter of supervision by the district staff at the Committee's disposal.

12. The object of maintaining an expensive working establishment by the Road Cess Committee is to carry out all works of local improvement by their own agency. I have no doubt that villagers as well as landholders will ultimately co-operate with the committee, if their requisitions be judiciously complied with. The larger landholders who submit applications for works involving considerable expenditure are probably also members of the committee; and if so, they will no doubt ultimately vote for the maximum rate and for strengthening the district engineering staff.

13. The committee propose to undertake the following works during the cess year 1876-77 :—

Repairs.

			Rs.
Road from Khoordah to Kallapather	1,868
Ditto Piplee to Khoordah	1,000
Ditto Bagmari to Boleghurh	1,284
Ditto Balighai to Madhab	1,098
Ditto Balugan to Banpore	150

Original works.

Construction of a road from Kakatpore to Actrung	2,000
Ditto of a causeway in Piplee and Khoordah road	500
Extension of Balugan and Banpore road to Banpore	250
Improving and bridging Bhoobaneswar road	4,000
Survey of proposed lines	350

Village roads.

In thana Pooree	1,349
Ditto Gope	758
Ditto Piplee	843
Ditto Khoordah	1,110
Ditto Tanghy	225
Ditto Banpore	515
Salt roads	422
Erection of a building for road cess office	4,000

The Committee held seven meetings. Mahunt Narain Dass is an honorable exception to the general irregularity of attendance.

BALASORE DISTRICT.

14. There were no original works executed during the year from this District Road Fund. The year's operations consisted of repair and maintenance of roads and provision of suitable boats to district ferries,—vide detailed statement A appended to Collector's report. The

Committee have carried out several other works of comparatively greater importance and usefulness from special funds. These have been fully detailed, and described in paragraphs 5, 6, and 7 of the Collector's report. Of these three works deserve special mention :—

1st.—Reconstruction of the Busta and Baliapal road. This road has been on several former occasions swept away by spill of the Subarnarekka river, but this year has been substantially constructed under the able supervision of Mr. Vertannes, the Executive Engineer, Balasore survey division. Funds were provided by a grant from the late Famine Relief Committee in order to afford maintenance and work for people of Busta and Baliapal, who suffered severely from last season's cyclon e.

2nd.—The Phulwar and Kalana road. This has made very good progress, but is not yet completed. The object of this road is to connect Baripada, the capital of Mohurbhunje, by far the most wealthy and extensive of the tributary estates of Orissa, with the town of Balasore. The Maharajah of Mohurbhunje very liberally contributed a sum of Rs. 7,000 towards completion of this road.

3rd.—The road from Barpada to Moraigaon. The object of this road is to connect the town of Bhadrakh with the tributary estate of Keonjhur and upper reaches of the Byturnee. Funds were supplied by the Maharajah of Keonjhur to continue this road to Anandpore.

15. The number of general meetings of the committee was twelve. The attendance of the members was fair. The people are reported to take much interest in administration of road cess funds, and represent their wants with the utmost freedom. The rate of cess in Balasore has now been raised to the maximum, and the income of the year 1876-77 is estimated at Rs. 27,030. Setting aside Rs. 6,921 for all other charges, Rs. 20,009 have been allotted to works. The works proposed to be undertaken during 1876-77 are detailed in the budget estimate submitted with this office No. 151RC, of 31st August 1876.

16. There appear to be indications generally in Orissa that landholders and people are beginning to feel greater interest in improved roads and communications, and with judicious encouragement from Magistrates and local committees, this feeling ought to be maintained and turned to good account. I have heard no complaint anywhere in connection with assessment or realization of the road cess.

17. Considerable difficulty has been experienced in procuring competent executive staff to carry out works, and with reference to the large balances unspent in Cuttack and Pooree, it would seem that work has not been pushed on as it should be.

Balasore has displayed the most vigour and efficiency.

18. Cuttack Committee has not been brought to show much interest in its work. The number of meetings has been small and attendance meagre.

19. In Pooree, though attendance is a little better, there has been more discussion than work.

IRRIGATION.

NOTIFICATION—ESTABLISHMENT.

The 19th September 1877.

No. 306.—*Notifications.*—With reference to the orders marginally noted, Mr G. H. Faulkner, Executive Engineer, Second Grade, made over charge of the Cuttack Workshops to Mr. J. Macmillan, Executive Engineer, First Grade, Mahanuddy Division, on the forenoon of the 8th September 1877, and left Cuttack for Madras on the 12th idem.

PART II.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Hazareebagh, will be put up to sale at the Hazareebagh Collectorate on the fourth day of the month of October 1877, corresponding with 12th Assin 1285 Faslee.

The purchasers will be subject to the following conditions of sale:—

Conditions of sale.

1. The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2. The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3. If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4. If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if this day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

Number in statement of Government estates	Number on the district roll.	Name of estate and pargunnah.	Approximate area in acres.	Government revenue assessed	Upset price	REMARKS.
			Acres. Chans.	Rs.	Rs.	
106	193	Ghoserhasko Gad; Gawan, pargunnah Khurrukdiha.	130 66	15	60	The village has been settled directly with the ryots for twenty years. This settlement will expire on the 30th Bhador 1298 (F.S.) corresponding with September 1881. After settlement the whole village was leased to the present farmer. This lease will expire on the 30th Bhador 1298 (F.S.), corresponding with September 1881, simultaneously with the settlement made with the ryots.

H. M. BODDAM, Colonel, Deputy Commissioner.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Hazareebagh, will be put up to sale at the Hazareebagh Collectorate on the fourth day of the month of October 1877, corresponding with 12th Assin 1285 Fusesle.

The purchasers will be subject to the following conditions of sale :—

Conditions of sale.

1. The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.
2. The sale to be subject to existing leases and the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.
3. If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.
4. If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

High Court Notice

In the matter of the Trust for the Creditors of Radha Nauth Bosc

NOTICE is hereby given that Radha Nauth Bosc of N. Bhubanipore, in the suburbs of Calcutta, executed, on the 19th day of June 1877, a deed of trust and assignment whereby he assigned all his property, credits and effects to the Official Trustee of Bengal in trust for the benefit of his creditors.

All property, assets, and debts belonging or due to the estate of the said Radha Nauth Bosc on the said 19th day of June last should be forthwith made over and paid to the Official Trustee of Bengal, who is alone entitled to grant effectual receipts and discharges for the same. All persons having claims prior to the said 19th day of June last against the said estate are requested to communicate with the undersigned, and to forward affidavits or solemn declarations duly verified of their claims supported by vouchers or other proofs without delay.

The deed in question, which was registered on the 3rd of September instant, can be inspected on application to the undersigned.

F. J. FERGUSON, *Official Trustee of Bengal.*

OFFICIAL TRUSTEE'S OFFICE, TOWN HALL.
CALCUTTA, the 11th September 1877. (1489—f.n.)

Bank of Bengal.

NOTICE is hereby given that the Bank of Bengal and Public Debt Office will be closed on the following days, viz.—

On Saturday, the 6th October, on account of Hindoo festival "Mohalaya."

From Thursday the 11th, to Monday the 22nd October, both days inclusive, on account of Doorga and Luckhi Poojah holidays.

All Government acceptances that may fall due between Thursday the 11th and Monday the 22nd October will be paid by the Bank on and after Monday, the 8th idem.

By order of the Directors,

W. D. CRICKSHANK,

Offg. Secretary and Treasurer.

CALCUTTA, 18th September 1877, (1504—2)

In the goods of Julia Smith, deceased.

PURSUANT to the Trustees and Mortgagees Powers

Act, 1866, notice is hereby given that all creditors and other persons having any claims against the estate of Julia Smith, late of Dhurrumtollah Street, in the town of Calcutta, widow, deceased, and probate of whose last will and testament was granted by the High Court at Calcutta in its Testamentary and Intestate Jurisdiction on the 24th day of July 1877, to Allan McDougall Clark, of Calcutta aforesaid, a partner in the mercantile firm of Messrs. J. H. Fergusson and Company and one of the Executors in the said will named, are hereby required to send in writing the particulars of their claims to the said Executor at his place of business, No. 4, Clive Street, in the town of Calcutta aforesaid, on or before the first day of November next, after which date the said Executor will distribute the assets of the said Julia Smith, deceased, amongst the parties entitled thereto.

Dated this 8th day of September 1877.

CHAUNTELL, KNOWLES AND ROBERTS,
(1481—3) *Solicitors for the Executor.*

Annette Wyatt, deceased.**STATUTORY NOTICE TO CREDITORS.**

PURSUANT to "the Trustees and Mortgagees Powers

Act, 1866," being Act XXVIII of 1866 of the Governor-General of India in Council, notice is hereby given that all creditors and other persons having any claims or demands upon or against the estate of Annette Wyatt, late of the Rue Generale Martin in the French town and settlement of Chandernagore, widow, who died at Chandernagore aforesaid on the 11th day of June 1877, and letters of administration of whose property and credits were duly granted to John Alphonse Melany of No. 7, Sudder Street, in the Town of Calcutta, one of the sons and next of kin of the said Annette Wyatt, deceased, by the High Court of Judicature at Fort William in Bengal, in its Testamentary and Intestate Jurisdiction on the 19th day of September 1877, are hereby required to send in writing the particulars of their claims or demands to the said John Alphonse Melany at his residence No. 7, Sudder Street, in the Town of Calcutta, on or before the 31st day of December 1877, and notice is hereby also given that at the expiration of the last mentioned day the said John Alphonse Melany will be at liberty to distribute the assets of the said Annette Wyatt or any part thereof amongst the parties entitled thereto having regard to the claims of which the said John Alphonse Melany has then had notice, and that the said John Alphonse Melany will not be liable for the assets or any part thereof so distributed to any person of whose claim the said John Alphonse Melany has not had notice at the time of such distribution.

Dated this 22nd day of September 1877.

DIGNAM AND ROBINSON, *Attorneys for the said*
JOHN ALPHONSE MELANY.
7, OLD POST OFFICE STREET, CALCUTTA. (1512—1)

TO be peremptorily sold pursuant to a decree of the High Court of Judicature at Fort William in Bengal in its Ordinary Original Civil Jurisdiction in suit No. 648 of 1876 [wherein Sreemutty Nobo Runghiney Dassoo is plaintiff and Konnoy Loll Mitter is defendant] dated the 29th day of January 1877, by the Registrar of the said Court in his sale-room at the court-house on the 20th day of September instant, at the hour of 12 o'clock at noon, the undermentioned property, that is to say—

All that brick-built messuage, tenement, or dwelling-house, No. 52 (formerly No. 43-2), Sham Bazar Street, in Calcutta, together with the piece or parcel of land or ground therunto belonging and on part whereof the same is erected and built, containing by estimation four cottahs, more or less, situate and being on the north of the dwelling-house of the late Kassynauth Persaud Mitter, and on the east of a lane, and of the west by the late Ramnaram Chowdry's dwelling-house, and on the south of Ramkisto Persaud Mitter's dwelling-house.

The conditions of sale and abstract of title may be seen at the office of the Registrar, High Court, Original Side, and at the office of Messieurs Watson and Sen, at No. 6, Old Post Office Street, on any day before the sale, and will be produced at the sale.

R. BELCHAMBERS, Registrar

WATSON AND SEN, Plaintiff's Attorney, Calcutta.

HIGH COURT ORIGINAL JURISDICTION, REGISTRAR'S OFFICE, the 17th day of September 1877. (1509—1)

TO be peremptorily sold by the Registrar of the High Court in his sale-room in the Court-house on Saturday, the 29th day of September instant, at the hour of 12 o'clock, at noon, pursuant to a decree of the said Court made in suit No. 327 of 1874 (wherein Koylash Chunder Day is plaintiff and Beebe Busscerunnessa is defendant) and dated the 2nd day of July 1874, the following properties, namely—

Lot No. 1.—All and singular all that demi-upper-roomed brick-built messuage, tenement, or dwelling-house together with the piece or parcel of land thereunto belonging, and whereon the same is erected and built, containing by estimation six cottahs, be the same a little more or less, situate at and being No. 24 (formerly No. 20), in Moonshee Dedar Bux's Lane, in the town of Calcutta, and butted and bounded as follows, that is to say, on the north by the tenanted land of Mr. Barber; on the south by the public lane called Moonshee Dedar Bux's Lane; on the east by the tenanted land of Jham Khan; and on the west by the house and land of Moulvie, the late Professor, Mohamed Wajheer.

Lot No. 2.—And also all those three several houses, viz. an upper-roomed house No. 1, an upper-roomed house No. 2, formerly No. 1-1, and a demi-upper-roomed house No. 3, formerly No. 2, together with the piece or parcel of land thereunto belonging and whereon the same respectively are built, and also the piece or parcel of land with tank numbered 4, the whole situate at Moonshee Dedar Bux's Lane in Calcutta, containing by estimation one beegha and eleven cottahs or thereabouts, and butted and bounded in manner following, that is to say—on the north by Moonshee Dedar Bux's Lane; on the south partly by the land of Moulvi Fuzle Hossain, partly by the land of Rohun Bux Darogah, and partly by the land of Mahbuss Sircar; on the east by the tenanted house of Meayan Butcher; and on the west by the property of Moulvie Earnly and others.

The abstract of title and conditions of sale may be seen at the office of the Registrar of the High Court, Original Side, and at the office of Messrs. Swinhoe, Law and Co., on any day before the sale, and will be produced at the sale.

R. BELCHAMBERS, Registrar.

SWINHOF, LAW AND CO., Attorneys.

HIGH COURT, ORIGINAL SIDE,

The 17th September 1877.

RESOLUTION ON THE GENERAL REPORT OF THE DACCA DIVISION FOR 1876-77.

GENERAL DEPARTMENT.—MISCELLANEOUS.—No 2751.

Calcutta, the 21st September 1877.

READ—

The General Report of the Dacca Division for 1876-77.

THE report is submitted by Mr. F. B. Peacock, who has been Commissioner during the whole period of review. Mr Peacock's management of his division during a year of exceptional difficulty and trial has been both thorough and able, and he has now drawn up a very comprehensive and interesting report.

2. The officers of this division seem to have been very active in moving about in the interior. Besides attending to his ordinary inspection duties, the Commissioner was

Tours in the interior.

himself one of the first to carry succour and supplies to the tracts devastated by the cyclone-wave. As regards the tours of the district and sub-divisional officers, the Commissioner writes that each of them "visited schools; inspected thanas, distilleries, registration offices and dispensaries; saw to the condition of roads and bridges; considered and devised plans for the improvement of internal communications; took interest in the relations between landlord and tenant, and interposed between them whenever intervention was possible to allay ill-feeling and to overcome combined opposition, while the people had ample opportunities

of making known their grievances, their wants, and their complaints." Certainly, if each officer in the Dacca Division acted up to this programme, the main object of these tours has, as Mr. Peacock declares, been thoroughly well secured there.

3. In every district save Mymensingh the rainfall was above the average, and in every instance it was far above the fall of either of the two preceding years. Rain fell throughout the division in every month of the year except December. It was indeed a season of quite exceptional rain and frequently recurring storms. The district of Backergunge fared worst, for, on the night of the 31st of October, there broke over it the cyclone with its attendant 'waves' which destroyed in Dukkhin Shabazpore and Patuakhali no fewer than 74,000 human beings on shore, besides doing enormous damage to cattle and other property, and drowning a floating population the number of which is even now unknown. (In Tipperah and Furreedpore the same storm inflicted serious injury on the dwellings, cattle, and betel trees, though there was no great loss of human life.) This was followed by a heavy gale of wind on the night of the 23rd November, which lasted throughout the next day, doing much damage to the crops, particularly in the tract already devastated by the waves. Again, on the 4th of February, another furious storm burst over this district, destroying many boats on the larger rivers. In Tipperah the Goomtee rose in flood, and in July and August topped its embankments (a thing unknown before within the memory of man), threatening the district with a vast calamity, which was only averted by unceasing labour night and day until the waters fell. On the 8th of February this district also was visited by a furious storm, in which many cattle perished in the open pastures of Brahmunbariah. In Mymensingh storms were frequent in Kishoregunge, and hail did damage to the millet crops of Attia.

4. Notwithstanding, however, all these calamities, the harvests of the division were finer than they have been for years. In Dacca the ryots had an exceptionally full crop. In Furreedpore the rice was unusually fine, and the outturn of sugarcane and date-trees excellent. In Backergunge the loss caused by the cyclone was serious in Dukkhin Shabazpore and Patuakhali, but the Sudder and Perozepore sub-divisions had an average crop. In Mymensingh the rice crop was full, but jute was rather below the average. In Tipperah, notwithstanding the storm, the *amun* was an average crop, while the *aous* and *boro* were decidedly good. The damage done to the betel-nut trees was perhaps the loss that most affected the pockets of the ryots.

5. As regards the public health, the year was a good one in Dacca and Mymensingh. In Furreedpore cholera prevailed as an epidemic, causing 12,000 reported deaths. In Backergunge, throughout December and January, this disease raged in the wave-stricken tracts, and carried off, as now reported, 29,537 of those left by the cyclone; making the gross mortality in Backergunge from these two calamities according to the latest figures 103,451, besides the unknown numbers who perished in boats.

6. Generally, Mr. Peacock holds, there can be no doubt that the material condition of the agricultural portion of the population is one of great and increasing prosperity, and, as a consequence, of rapidly advancing independence. The growth of the jute cultivation is assigned as the chief cause of this. The Magistrate of Dacca states that the amount of jute grown in that district alone and sold at Naraingunge put a sum into the ryots' hands enough to pay the whole rental of the district and leave a surplus over of 8 to 15 lakhs. A similar state of things is found in Furreedpore, Mymensingh, and Tipperah. "The style of living of the peasantry has quite changed. They are well-housed, well-fed, and well-clothed; their women and children wear ornaments; their utensils are of metal instead of, as formerly, earthenware; they sleep on platforms instead of mats, and are covered with quilts well stuffed with cotton in place of the rags of cloth that in former years sufficed for this purpose." It is said that the professional and petty trading classes have not shared in this prosperity, and felt the high prices of necessaries. They will probably, however, be able in time to raise the rate of their own remuneration.

7. Of Backergunge the Commissioner treats separately. Up to the 31st October last the most prosperous ryots in all Bengal were those of Backer-

gunge, and amongst them the ryots of Dukhip, Shabazpore were better off than all their brethren. In one night they lost their cattle, most of their crops, and a large section of their population. After which came a pestilence sweeping off thousands of the survivors and crushing the spirits of those who still remained. Yet, notwithstanding all these unprecedented misfortunes, the country is already recovering from the shock. Houses have been re-built, cattle imported, and it is hoped that even this year there will be hardly any land left fallow from want of men to cultivate it. The suspension of the Government demand, the loans advanced, and the relief afforded by private subscriptions to the absolutely destitute have been sufficient to give the people the start they needed. In the rest of the district the ryots seem hardly at all to have felt the damage done.

8. Prices were lower during the year than they had been for some years past, though towards the close the demand for

Prices and labour.

the famine districts was causing a rapid rise. Labour, both skilled and unskilled, is dear and scarce throughout these eastern districts owing to the generally prosperous condition of the agricultural classes, and but for the annual influx of labourers from Behar things would be still worse.

9. The manufactures of the division are not important, and have been described in former reports. The growth of the

Manufactures and trade.

fish-curing industry at Goalundo is, however, noticeable, 4,835 maunds of fish having been salted in 1876 against 1,363 in the year preceding. The sugar-makers of Furreedpore and Backergunge had a good year.

10. The river traffic has been abnormally active owing to the demand for rice for export. More than twice the usual amount was exported from Dacca, and Mr. Lyall thinks 18 to 20 lakhs of maunds at least were shipped from that district. Backergunge, in the calendar year 1876, sent to Calcutta 35 lakhs of maunds. The jute crop was also, taken as a whole, large. The Commissioner finds that he cannot put the total quantity of jute sent out from his division at less than 30 lakhs of maunds. The trade in safflower is, on the other hand, dying out. Hides continue to form a large item of trade, though fewer were exported than last year, the figures for Dacca shipments being 1,281,280 against 1,650,091.

11. Under the heading of public feeling on topics of general interest,

Public feeling and the press.

Mr. Peacock refers to the loyal demonstrations of the 1st of January, to the gratitude with which the people of Backergunge speak of the assistance rendered them by Government after the cyclone, and to the excitement caused in Furreedpore by an agrarian outrage, the murder of a local zemindar, Poornoo Chunder Roy, by his ryots. It is satisfactory to learn that the fears at one time felt as to the bad effects likely to result from the acquittal of the defendants in this case have not been realized.

12. The Native Press is very active in Dacca, and there are newspapers also in Mymensingh and Tipperah, but none in Backergunge or Furreedpore. The Commissioner says—"It seems to be an impossibility for any native paper to exist for any length of time without becoming either scurrilous or offensive. They are great on politics, news in regard to which they gather from a variety of sources. They discuss local topics with great vigour, if not with much power, and they criticise the conduct of public officers often with greater freedom than judgment. So long as their attacks are confined to Europeans they do not much signify; but they are very apt to intimidate native officials (some of whom appear to have a morbid dread of appearing in print), and in this way are likely to do harm. Their influence on the mass of the people, not one in a thousand of whom knows of their existence, is absolutely nil."

13. The Commissioner reports that the Act for the registration of Maho-

Registration of Mahomedan marriages and other special subjects.

medan marriages has not met with any success in this division, to meet the requirements of which it was principally passed. The sub-divisional officer of Patuakhali (Mr. K. G. Gupta), in asking some Mahomedan villagers why they did not register their marriages, was informed that they did not do so "because registration was optional, and they did not like to spend money when they were not compelled

to do so; secondly, they knew, and so did the women, that if a marriage was once registered, it was irrevocable, at least so far as the wife was concerned, as she had no power of divorce; and if she ever afterwards had occasion to repent of her marriage, or fell in love with another and wanted to run away, she could not hope to be free *simply as now by denying the marriage*, but in order to get rid of the husband she must do away with him altogether. Cautious husbands would therefore act wisely in not removing all element of doubt from their marriage and refrain from tempting the wife to strong measures!" Mr. Peacock says that the general feeling, both among officials and Mahomedans, is that the Act should have made registration compulsory, notwithstanding the probable consequences 'to the husbands of unfaithful, but determined, wives.' As it is, the Act has had no effect whatever upon offences relating to marriage, which are as common as ever in the eastern districts.

14. The work of introducing the Village Chowkidaree Act is progressing, and road cess operations have been finished in Backergunge, a task of extraordinary difficulty and magnitude owing to the extreme subinfeudation and sub-division of holdings. Mr. Barton, the Collector, deserves the highest credit both for this and for his arrangements in connection with cyclone relief.

15. The vital statistics of the division and the registration of river traffic, to which the Commissioner devotes some interesting paragraphs, have been separately reviewed by Government and need not be further referred to. One interesting fact, however, may be noted, viz. that the mortality caused by the cyclone and cholera has been far greater among the women than among the men, and now in some parts, such as the Rabnabad islands in Backergunge, there are only 22 women for every 62 men. It appears further that the people of these islands always went to Dukhin Shabazpore and the other islands of the Megna for wives, but those places are all suffering from a similar calamity, and the ryots cannot hope to get wives from the mainland until they have saved enough to pay for dowers and marriage feasts.

16. There has been a slight decrease in heinous crime during the past year owing, it is said, to greater vigour in repressive action, and more firmness in dealing with false charges. But riots, for which the division is notorious, have been steadily on the increase since 1873, being 736 last year against 589 in the year first named; and yet it is said that feuds likely to lead to violence are closely watched, ring-leaders bound down to keep the peace, and extra police quartered on offending villages and zemindars, while convictions were obtained in 68 per cent. of the cases sent up for trial. The feuds which end in these riots are attributed by Mr. Barton to deficiencies in the administration of civil justice. The population is rude and turbulent and well-to-do. Irritated by the delays and expenses of the civil courts, they take the law into their own hands—zemindars to collect their rents, ryots and others to settle their disputes. One of the crying wants of these eastern districts is, Mr. Peacock says, a summary procedure enabling zemindars to collect their rents.

17. The relations between landlords and tenants have, during the past year, decidedly improved, though they are still far from satisfactory. The enhancement question has not, it is feared, been settled, but merely postponed. In Mymensingh the ryots have generally paid their rents, being wonderfully prosperous; and there has been an unprecedented increase in the number of leases and counterpart registered, which, Mr. Peacock thinks, is indicative of the determination of both parties to settle their differences in court. In Tipperah both parties are quiet, suffering from the expenses of prolonged fighting. Elsewhere there has been no material change. The Government is now considering a plan for enabling zemindars to realize rents more speedily, which will, it may be hoped, become law this year, and may do something to prevent any future outbreak of lawlessness.

18. The land revenue of the year has been realized with punctuality, save in the tracts where suspensions have been permitted. The system of direct management of Government estates has been extensively introduced in this division, and will, it is believed, succeed when the estates are sufficiently close together to be properly supervised.

19. The excise revenue of the division shows a slight increase of Rs. 6,571, and stands at Rs. 5,21,145. It is probably very far from being at a reasonable maximum. There is decreased consumption under opium, country-spirits, and ganja, accounted for by increased duties and calamities of season; but there is, there is reason to fear, a very large illicit consumption, which can only be checked by an improved system of prevention and inspection.

20. The year was marked by an extraordinary stagnation in banking business at Dacca, caused by a series of commercial failures. This in its turn affected the stamp revenue by reducing the sales of hoondee stamps. This is, however, to some extent balanced by the growth of the postage stamp sales, which indicates everywhere the advance of intelligence and demand for intercommunication. The Commissioner's remarks in paragraph 91 of his report on the subject of the currency chest, and in paragraph 92 *seq.* as to the bank's dealings with currency notes and the propriety of raising the limit for money orders, will be referred to the Accountant-General for consideration and report.

21. There is nothing new to report with reference to the Eastern Bengal Railway, save that Goulundo is becoming more and more a great inland port. The traffic this year has been abnormally large. The remarks in paragraph 100, about the possibility of improving water-routes in Furreedpore, will be referred to the Irrigation Department.

22. The local officers and committees of most districts appear to be doing good work with the funds at their disposal for expenditure on roads and communications. There is a little grumbling in one or two places, because schemes which looked promising locally have been professionally condemned; but there is still an ample field left for profitable expenditure, and if funds are left unutilized, the local authorities have themselves to blame. There is work enough lying to their hand on village roads alone to absorb more money than they are ever likely to have available.

23. Education is also reported to have made progress, and an improvement in the qualifications of the gurus of primary schools is perhaps its most satisfactory feature. In Tipperah and Furreedpore female education has taken a wonderfully good start, the number of girls having risen in Tipperah from 146 to 1,431 in the year, and in Furreedpore having more than doubled. There are now 4,270 girls attending school in this division.

24. Mahomedan education seems to be retrograding in spite of all the efforts made to stimulate it. The number of successful scholars has fallen off, and no explanation is given of the fact. The district officers must be urged to interest themselves more generally in this very important matter.

25. All the local committees worked smoothly and without friction, and are said in some places to have taken a really intelligent interest in the business brought before them. They are useful, as the Commissioner remarks, at any rate as a medium of communication between the executive and the people.

26. The pounds brought in a nett profit of Rs. 23,230. The Lieutenant-Governor would be glad to see the Magistrate of Dacca's plan for farming pounds in certain places. There can be no doubt that much revenue is lost at present from inefficient and dishonest management.

27. As regards the conduct of the zemindars during the year, there has been nothing special to remark in Dacca. The Furreedpore zemindars are chiefly non-resident, and are characterised mainly by endeavouring to get as much as possible out of their tenants at the least possible trouble to themselves. In Mymensingh, Srimati Bisheshwar Debya, Hurq Doorga Chowdhurani, and Baboo Kashi Kishore Roy have distinguished themselves by liberality to a medical charity.

28. In Backergunge, with the honorable exceptions of Nawab Ahsanoolah, Baboo Mohini Mohun Das, Rajendro Chunder Roy, and Doorga Mohun Das, not a single zemindar took the smallest interest in his tenantry or did anything material to assist them after the cyclone. Few of the talookdars or haoladars have done anything to help the distressed peasantry. In Tipperah honorable

mention is made of Roy Anunda Prosad Roy Bahadoor, of Cossimbazar, of Nawab Ahsanoolah, Baboo Ishan Chunder Roy, and Baboo Ram Dullal Roy. The general management of the Tipperah Rajah's estates is said to be wanting alike in method and firmness.

29. Mr. Peacock speaks with well-deserved praise of his district officers and of many of the subordinate officials. His remarks will be noted in the Appointment Department of this office.

By order of the Lieutenant-Governor of Bengal,

A. MACKENZIE,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE GENERAL REPORT OF THE BHAGULPORE DIVISION FOR 1876-77.

GENERAL DEPARTMENT—MISCELLANEOUS—No. 2820,

Calcutta, the 25th September 1877.

READ—

The General Report of the Bhagulpore Division for 1876-77.

THE report is submitted by Mr. G. N. Barlow, who has been Commissioner throughout the year. It is both full and interesting, though perhaps a little discursive in style. The district of Maldah was transferred to this division during the year with effect from November 1876.

2. The preparations for the Durbar of the 1st of January, and heavy rain in February, interfered to some extent with the cold-weather tour of the Commissioner; but, on the whole, sufficient attention was paid to this duty by both district and sub-divisional officers, except in the Sonthal Pergunnahs, where pressure of case work kept all officers at their desks. This is especially to be regretted in the Sonthal Pergunnahs, where the success of the administration depends upon free intercourse between the officers of Government and the people in their villages. It is hoped that recent orders as to the use of stamps in suits, and the early conclusion of the settlement proceedings, may so far relieve the district staff as to admit of their moving about more freely in the ensuing field season. The Lieutenant Governor has already noticed the tendency in the Sonthal Pergunnahs to make the administration there too little of the rough and ready outdoor administration that it was intended to be. Mr. Eden has pointed out the extent to which it is said that native clerks are now allowed to intervene between the officers and the people.

3. The Lieutenant-Governor observes that the Magistrate of Purneah speaks of riding along "a high-bunded road in the Kushba-Amtour thana made without a single opening for ten miles by the Special Public Works Famine Department." The Commissioner is requested to enquire and report whether any obstruction to the district drainage has been caused by this, or whether Mr. Kemble had any special reason for mentioning the fact.

4. The rainfall of the year was favourable and sufficient. Not only were all field crops unusually good, but the Aghan rice especially yielded a heavy outturn. The mango crop was abnormally large; and *mahua*, on which the poorer classes much rely in the southern parts of the division, was also plentiful. There was a marked difference between the rainfall of the districts north and south of the Ganges, as shown below:—

	Inches.
Muhghyr	50.47
Bhagulpore	54.19
Sonthal Pergunnahs	59.17
Purneah	70.40
Maldah	67.06

This is, it is believed, a phenomenon of frequent recurrence.

5. The health of the people in all the districts except Purneah was fairly good, though cholera, small-pox, and fever appeared at different times in different places. In Purneah, cholera was epidemic in the early months of 1877, originating apparently from the Nekmurd Fair. Again, in March, it broke out on the borders of Maldah and Dinagepore, and swept across the district in a capricious course, but causing many deaths. Fever was, as usual, very prevalent in Purneah, the people of which are described by the Magistrate as weak and sickly.

6. Fine crops at home and high prices abroad made the year a prosperous one for the cultivators. The Commissioner writes—"The people are advancing, though slowly, in intelligence and wealth: they look happy and contented. Marriages are numerous, and fairs and religious festivals well-attended. Coolies cannot be as easily obtained as formerly, and the prices of labour are supposed to be going up." In Purneah the trade in jute and oil-seeds has added largely to the ryots' means, while Maldah has specially benefited, though it is to be feared only temporarily, by the higher prices of silk cocoons.

7. The Commissioner attributes the reluctance which the people show to emigrate to their want of enterprise and their content with the competence which they can now secure at home. Monghyr is the only district that seems to have sent out any considerable number of emigrants (2,056 against 1,592 last year); and this is said to have been due mainly to the recruiting zeal of the Magistrate, Mr. Lockwood, who held strongly the opinion that the only way really to benefit the country was by "drafting off the people by hundreds of thousands" to the colonies, and accordingly never lost an opportunity of urging them to emigrate. Mr. Lockwood was also in favour of deporting all bad characters to Assam instead of to the district jail. The only other district which sent out an appreciable number of emigrants was the Sonthal Pergunnahs, in which 381 persons were recruited for the tea districts and the colonies.

8. Food was generally cheap throughout the year, rice ranging from an average of over 19 seers per rupee in Bhagulpore to 24 seers in Purneah. There was, however, a rise in the price of wheat owing to the large demand for Europe, and to the fact that the crop suffered to some extent from excessive moisture. Prices would have been higher everywhere in this division had not the want of rolling-stock on the East Indian Railway prevented free exportation of rice and other cereals.

9. In his report for 1875-76, the Commissioner gave a comprehensive sketch of the chief manufacturing industries in the division. Of these indigo is still the foremost. All the district officers were last year agreed in thinking that, though indigo-planting was by no means in so flourishing a position as formerly, there was yet, on the whole, a good understanding between the planters and ryots. In Purneah this was said to be particularly well marked, owing to the fact that most of the planters there were resident gentlemen, who had lived in the district for years and held jotes and putnees of their own, as well as farms for terms of years. In the present report the Commissioner further notes that in the Purneah district the ryots cultivate indigo on their own account, though they will not sell to outside factories. The report goes also somewhat fully into the state of indigo matters in Maldah, which are found to be on a far less satisfactory footing. There are four indigo concerns in this district, with all of which the district officer had some trouble during the year, the blame of which he (Mr. Mosley) attributes to the ryots. The Commissioner is apparently not convinced of the correctness of Mr. Mosley's conclusions in this matter. Mr. Barlow fears that if the reports of other informants are to be trusted, the relations between planters and ryots are not by any means amicable at present on either side. It is stated that the same system of cultivation which prevailed in Tirhoot is common in Maldah, and the ryots are, in fact, described as being in a state of very unwholesome excitement. The Commissioner has directed the present district officer, Mr. Rees, to make careful inquiries as to the true state of things, and this should be reported to Government without delay.

10. Silk, which in Maldah is an important staple, was more profitable during the year both to the manufacturers and the rearers of cocoons, but it is evident from the reports of other divisions that the Commissioner's remark that "the silk business stands upon a thoroughly sound basis" is a mistaken one, and that the industry is really in an extremely precarious state.

11. The principal trade of the division lies in the export of country produce, and the fine crops of the year, coupled with the high prices at Calcutta, would have had a great stimulating influence on this but for the long-continued block on the railway. Even as it was, Soopool, which in 1875-76 had to import to feed itself, exported in 1876-77 one lakh and a half of maunds of rice to Calcutta. Eventually the traders of Bhagulpore and Purneah had to get up steamers to carry off the grain which the railway were unable to take. The trade of Maldah is said to be now in a stationary condition. There is a good deal of internal traffic, but the district has fallen from the importance which it must have had in former days. It is noted that the deep stream of the Ganges has returned to Rajmehal—a fact which ought to lead to a considerable development of the trade in stone.

12. The introduction of the Village Chowkeedaree Act of 1870, and of the land registration law, are the measures that have chiefly interested the people during the year. The Commissioner is apparently not altogether in favour of the former Act; but if the experience of other districts can be trusted, there can be no doubt that, properly worked, it is a most useful measure, especially in tracts where the chowkeedars are not provided with service lands. The evidences of loyalty to the throne called forth by the ceremony of the 1st January were everywhere satisfactory.

13. In the Sonthal Pergunnahs the settlement operations have been going on throughout the year, and, as far as the field work of the Government officers is concerned, will soon be at an end. But the task of distributing the village lump assessment among the cultivators by means of punchayets has still in a great measure to be carried out; and until this is done the benefits of the revised assessments and fixity of tenure will hardly be appreciated by the mass of the people. There has been no fresh development of the semi-religious movement reported in former years. Originally started by a well-known Sonthali intriguer named Bhagirut, who was imprisoned in 1868 for spreading rumours of rebellion, it took the form of a promiscuous slaughter of all pigs and fowls (in itself a symptom of the general spread of Hindu notions), coupled with a threatened withholding of rents, wild talk of a Sonthali raj, and a sort of deification of Bhagirut himself. The efforts of the local officers and the posting of military at Nya Doomka put a speedy stop to any dangerous manifestation of excitement, and the rent question has apparently been settled for the present. But the followers of Bhagirut still, it is said, keep themselves aloof as purer than their fellows, and pay great veneration to the influence of their leader, notwithstanding his being now in jail in default of security for his good behaviour. The Sonthals are so ignorant, and so easily led away by the wild talk of designing men, that it is peculiarly necessary to watch closely all movements of this kind. The Commissioner is sanguine that the present movement will cool and die out in time. Meantime it would be well, as already remarked, if the officers could be more about among the people than they have been for the last year or two. The measures adopted for checking drunkenness among the Sonthals appear to have been fairly successful and should be persevered in. In this connection the Commissioner lays stress on the good effects of personal influence exercised by the local officers, and refers to a proposal of his that the officers employed in the Sonthal Pergunnahs should be formed into a separate 'commission' and be kept there throughout their service. The Lieutenant-Governor has already said that the requirements of the Sonthal Pergunnahs are not sufficient to warrant the maintenance of a special service, but he agrees that officers, especially of the uncovenanted service, when once posted there should be as far as possible kept there. It is very necessary that we should have men intimate with the language, the people, and the system, but it is not possible to engage never to move Sonthal officers, and an occasional infusion of new blood gives vigour to the local administration.

14. The one newspaper which existed in this division, known as "*The Bird of Solomon*," expired during the year. The Commissioner does not regret the absence of any local newspaper, and says there is no want felt for an organ of this kind. There are printing presses, however, both at Bhagulpore and Monghyr, which confine their attention entirely to job-work.

15. Under Mr. Lockwood's administration considerable attention has been paid in Monghyr to experimental gardening and municipal farming. The public gardens at that station have been now allowed a grant from the Estates' Improvement Fund, and are said to be remarkably well kept up, while the lands used for the deposit of town sewage are described as really model gardens, which let for Rs. 30 per acre, and yet bring the lessee a very handsome profit. Other towns would do well to note these facts.

16. In the general working of the police there has been, the Commissioner notes, a steady improvement, as evidenced by the returns of convictions. There was an increase in the number of cases reported, but this was chiefly in petty crimes, and was in itself matter for congratulation if the suspicions mooted as to the general concealment of cases in Bhagulpore have any good foundation. The districts stand thus in order of criminality with reference to population:—

Sonthal Pergunnahs	1	to	376
Maldah	1	to	443
Monghyr	1	to	650
Purneah	1	to	691
Bhagulpore	1	to	831

The results in every hundred cases of cognizable crime stood thus—

	False or not enquired into.	Successful.	Unsuccessful.
Sonthal Pergunnahs	3	24	73
Maldah	27	21	52
Monghyr	34	33	39
Purneah	27	23	50
Bhagulpore	53	17	30

These figures are most unfavourable to Bhagulpore. The extraordinary number of unsuccessful cases in the Sonthal Pergunnahs is said to be due to the local mode of treating cases, shown in other districts in the first column as false or not inquired into. The decrease of dacoity in Purneah, and the successful management of border crime in that district, are both very creditable to Mr. Kemble, the Magistrate.

17. There has been a marked increase in civil litigation, and complaints are made that Subordinate Judges are wanted for both Monghyr and Maldah. The case of Monghyr has already been decided. The conveniences of communication afforded by the railway make any increase of establishment unnecessary there at present. The case of Maldah will be referred to the Judicial Department for consideration.

18. The revenue demand of the year was everywhere fairly collected, except in Monghyr, where the current balance was allowed to be 6.5 per cent. of the demand, while the arrear balance was heavier than at the close of the preceding year. This is a state of things not at all creditable to the late Collector, Mr. Lockwood, and is apparently attributed to his peculiar views on the subject of *khas* management. The Commissioner must give special attention to the land revenue administration of this district. The failure in collections should have attracted notice in the quarterly returns.

19. In his report for 1875-76 the Commissioner drew attention to the gradual break up of many of the old zamindari families owing to accumulated debts and mismanagement, and also to the mischievous effects of the farming system as worked in many parts of this division. In the present report a lamentable account is given by the sub-divisional officer of the state of things in the Banka sub-division, two-thirds of which are leased out in farm to non-resident speculators, while in the remaining one-third at least half of the landlords are also non-resident. The farms run usually for seven years, and are only renewed on the payment of a heavy and increasing premium which falls entirely on the ryots. The tenants are said to have no rights, to be subject to the exaction of forced labour, to illegal distraint, and to numerous

illegal cesses, while the collections are made, by an unscrupulous host of up-country peadahs. Rajah Lilanund Sing's zemindari is said to be one of the worst. The Commissioner hopes the picture may be overdrawn, but the further facts stated as within Mr. Barlow's own knowledge go to show that there is only too much truth in it. The establishment of a moonsiffiee at Banka may do something to improve matters by bringing a civil court to the door of the ryots; but the tract requires close and careful watching by an efficient sub-divisional officer by whom all attempts at illegality should be summarily repressed and punished. From a later paragraph of the report, it appears that the relations between Rajah Lilanund Sing and his son threaten again to plunge his estate in pecuniary difficulties, while they must of course aggravate the troubles of the tenantry. The Lieutenant-Governor would be glad to hear the results of the steps taken to move the civil courts to place this estate under the Collector. Meantime the Commissioner should, if further inquiries bear out the facts alleged with reference to this and other estates in Banka, address on the part of Government a very strong remonstrance to Rajah Lilanund Sing and to the other landlords concerned, warning them that, if the illegalities and oppressions reported to exist continue, Government will have to adopt special means to protect the tenantry and secure their rights.

20. The excise revenue of the division has fallen from Rs. 6,82,311 to Rs. 6,59,154. This can only be due to maladministration, seeing that in most other places there has been a marked increase. In fact it is admitted by the Commissioner that "one general and chief cause in operation was the fraudulent combination of the Government ministerial excise officers and the licensed vendors." Some steps have been taken to remedy this; but the fact that it was allowed to exist or continue so as to affect thus seriously the revenue of Government is by no means creditable to the district officers. The attention of the Board of Revenue will be specially drawn to this section of the report. The decrease in the Sonthal Pergunnahs may be accounted for by the special measures adopted there for checking drunkenness, and if that be so, it is not to be regretted; but in the other districts there certainly would seem to have been serious errors of management. In Maldah the feature most worthy of notice is that there is an increase of opium revenue which counterbalances the loss on country spirits and ganja. The Commissioner remarks that in Purneah and Maldah, north of the river, the popular taste runs after drugs, while south of the river it prefers spirits. This may, to some extent, be accounted for by the more damp and feverish climates of Maldah and Purneah.

21. The stamp revenue of the division was Rs. 7,72,301 against Rs. 6,44,900 last year. The Commissioner attributes the growth of this branch of revenue to "improved management," but nothing is said to show in what special way this was manifested. The real cause is no doubt mainly—what has raised the revenue elsewhere—the increased civil litigation following a year of prosperity, and the effect of the Land Registration Act.

22. There was a slight increase in the receipts and issues of currency notes, but the supply was not equal to the trade demand, and hence there was also an increase in money orders.

23. The number of railway accidents on the East Indian Railway was large. In nine cases persons were run over entirely through their own carelessness; in five instances railway employes were injured either through their own carelessness or accident. There was one serious attempt to de-rail a train, in which the guilty parties escaped, and one slight collision, in which the driver was fined. In four cases of theft of railway spikes the culprits were convicted and sentenced to long terms of imprisonment.

24. The road cess being in force in all the districts of the division save the Sonthal Pergunnahs, communications are gradually improving, and in some parts very considerable progress seems to have been secured. Good use is made apparently of the gratuitous services of planters and other local residents for laying out kutchra roads; but expenditure on village roads was this year somewhat restricted, owing to the call made upon the District Road Fund, to recoup certain sums advanced by Government in the famine year.

25. Education made fair progress, except in Maldah, where not only was the zillah school in bad order, but the middle-class English schools of the district are generally pronounced a failure owing to the incompetence of the teachers. The Lieutenant-Governor believes that serious injury has been caused to middle-class education by the indiscriminate way in which English schools have been set up where there was no sufficient demand for them, and no adequate provision of funds made locally to secure proper teachers. Orders on this subject are now under consideration.

26. The Commissioner has had a census taken of the unaided schools throughout the division with the following results:—

DISTRICT.	Area in square miles.	Population.	Predominating castes of residents.	NO. OF SCHOOLS ACCORDING TO LANGUAGES TAUGHT.							NO. OF PUPILS READING							BOYS		GIRLS		Total number of pupils.	Total number of well-to-do residents in the village in which pathshala exists.	REMARKS.		
				English schools.	Hindi pathshalas teaching Kathi only.	Maktabs.	Pathshalas teaching both Hindi and Bengali.	Bengali pathshalas.	Sanskrit tols.	Benzah and Persian.	Total.	Hindi Kathi only.	Persian and Arabic.	Sanskrit only.	Hindi and Bengali.	Bengali only.	English.	Bengali and Persian.	Total.	Who can read and write manuscript.	Who cannot read and write manuscript.				Who can read and write manuscript.	Who cannot read and write manuscript.
Monghyr	3,913	1,812,986	Hindus	1	343	179	523	4,004	1,206	4	5,214	917	3,930	3	17	4,974	3,700				
Bhagulpore	4,327	1,976,290	Do.	4	323	106	438	3,478	862	74	216	1,634	1,601	2,748	81	68	4,481	3,859				
Purneah	4,966	1,714,795	Do.	5	222	72	65	43	4	411	2,006	659	65	825	408	66	1,029	833	3,193	2	1	4,029	1,804			
Maldah	1,813	676,426	Do.	1	...	19	...	182	...	202	...	197	2,550	43	2,790	530	2,260	2,790	1,051			
Sonthal Pergunnahs.	5,488	1,259,287	Sonthals	2	65	3	12	145	2	1	230	935	18	41	80	1,507	20	15	2,016	508	2,081	2	25	2,810	928	* Both set Hindi
Total	20,506	7,130,784	Do.	13	953	378	77	371	11	1	1,804	10,123	2,942	180	906	4,173	349	15	13,287	1,340	14,218	90	100	18,780	11,142	

It is reported that some system is to be introduced for bringing the unaided primary schools under control and for raising their status. Under this system (says the Commissioner) the district will be divided into small circles, consisting each of a group of pathshalas (aided and such unaided ones as will make returns and submit to our inspection), and the best of the stipendiary gurus in the circle will be denominated the "chief guru." His duties will be—

- to communicate to the gurus in his circle notices about gatherings for examination, returns, &c.;
- to make payments of stipends or reward to all the gurus in his circle;
- to visit occasionally the pathshalas in his circle and help the gurus to teach themselves and their more advanced pupils. For this work the chief guru will get allowances.

27. The working of the various local committees is said, truly enough, to depend very much on the district officers. It rests entirely with the district officers to make their committees useful or the reverse, and the amount of success or failure which attends a Magistrate's efforts in this direction is generally not a bad test of his capacity for administration. Municipal Committees seem to be on the whole the best attended. More use should be made of the Branch Road Committees in this division.

28. The largest Wards' properties in this division are those belonging to Durbhunga, which is under the Commissioner of Patna. The Commissioner of Bhagulpore has, however, a good deal of Court of Wards' work, and some heavily encumbered properties to manage. It is satisfactory to see that the Phulberrea estate in Monghyr, the Pachgarhea estate in Bhagulpore, and the Soorjapore estate in Purneah, were all recovering under Government management. The Chunchal estate in Maldah also continues to show good results.

29. The Commissioner speaks well of many of the zemindars and native gentlemen of his division, but specially singles out Raja Ramnarayan of Monghyr as a model landlord. "His management is good, and what is so unusual in his case is that, although he is young and succeeded to a heavily encumbered property, he is almost free from debt, which is a very uncommon state of things in this division." The

Lieutenant-Governor regrets to observe that Maharaja Sir Joymungal Sing, K.C.S.I., has been on bad terms with his ryots. The Commissioner should take any opportunity of giving good advice to him and the other zemindars in whose estates signs of discontent have been manifested: The condition of Raja Lilanund Sing's estates has been already noticed.

30. The Commissioner speaks in high terms of his district officers and many of their subordinates. His remarks will be communicated to the Appointment Department for information.

By order of the Lieutenant-Governor of Bengal,

A. MACKENZIE,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE REGISTRATION DEPARTMENT DURING THE YEAR 1876-77.

REGISTRATION.

Darjeeling, the 18th September 1877.

READ—

The Report on the administration of the Registration Department during the year 1876-77.

Read again—

The Report for the previous year, with the orders of the Government passed thereon.

THE returns of the past official year show that, although registration in the aggregate has not retrograded, the increase has been small compared with the great strides made in the four years immediately preceding it. This circumstance is wholly due to a great falling off in registration in the populous and opulent districts of Backergunge, Noakholly, and Chittagong, which ordinarily contribute largely to the aggregate operations of the province, but which suffered so severely from the cyclone and storm-wave of the 31st October. The subjoined table exhibits the leading statistical data connected with registration during the past twelve years:—

YEARS	NUMBER OF REGISTRATIONS				Total receipts.	Total expenditure.	Surplus.	Number of registration offices.
	Affecting immovable property.		Other Registrations	Total.				
	Compulsory.	Optional.						
1865-66	40,910	20,590	27,683	96,183	3,25,049	3,25,966	99,123	178
1866-67	101,422	49,546	31,591	182,559	3,19,754	3,25,951	93,903	183
1867-68	119,700	41,335	26,815	187,850	3,34,956	2,50,181	84,775	187
1868-69	125,438	42,794	45,739	213,968	3,67,371	2,99,099	68,172	172
1869-70	160,920	52,014	39,239	252,193	4,13,707	3,14,834	98,873	173
1870-71	150,963	49,862	31,988	241,713	3,65,689	3,11,825	76,863	180
1871-72	158,077	55,431	31,763	245,270	3,73,139	2,80,961	92,175	158
1872-73	174,788	67,130	37,183	279,099	4,35,519	3,04,783	1,30,537	165
1873-74	203,519	79,400	45,441	328,360	4,82,509	3,39,431	1,43,078	321
1874-75	250,340	98,970	74,523	423,833	5,52,525	3,84,953	1,65,572	346
1875-76	275,265	106,629	85,757	467,651	5,54,505	4,17,402	1,37,103	290
1876-77	208,125	104,430	95,013	407,568	5,60,882	4,30,768	1,30,114	310
Increase over previous year	2,860	...	7,266	7,923	10,577	12,766	...	20
Decrease ditto	3,193	12	2,399

The registrations effected in Backergunge, Noakholly, and Chittagong during the past two years appear in the following statement:—

	1875-76.	1876-77.	Decrease.
Backergunge	38,635	34,080	4,555
Noakholly	21,461	17,951	3,510
Chittagong	27,482	21,708	5,774
Total	87,578	73,739	13,839

It will be observed that, even had registration remained stationary in these three districts, the grand total for the year would have been 479,413 instead of 465,574, giving an increase of 21,762 instead of 7,923 on that of 1875-76.

2. Classified according as they refer to moveable or immoveable property, and, under the second head, according as their registration is compulsory or optional, the number of documents registered in each of the past two years was as follows :—

		<i>Compulsory.</i>		1875-76.	1876-77.
Registrations affecting immoveable property	Instruments of sale, &c., of immoveable property of value Rs. 100 and upwards	31,290	31,390
	Instruments of mortgage of immoveable property of value Rs. 100 and upwards	34,545	34,647
	Perpetual leases	109,399	102,747
	Other leases under section 17, clause 4...	87,096	95,016
	Other compulsory registrations	2,935	3,785
	Total compulsory registrations affecting immoveable property	265,265	268,125
	<i>Optional.</i>				
	Instruments of sale, &c., of immoveable property of value less than Rs. 100	71,100	67,765
	Instruments of mortgage of immoveable property of value less than Rs. 100	28,684	29,604
	Leases for one year and less	2,649	2,140
Registrations other than that affecting immoveable property.	Miscellaneous documents	3,896	4,927
	Total optional registrations affecting immoveable property	106,629	104,436
	Total registrations affecting immoveable property	371,894	372,561
	Obligations for payment of money	65,610	69,017
	All other registrations	18,544	22,234
		Total of above	...	84,154	91,281
		Number of wills registered	...	1,556	1,681
		Number of written authorities	...	47	51
		Total registrations	...	457,651	465,574

It appears from this table that there has been an increase of 17 per cent. in registrations affecting immoveable property, and of 8·4 per cent. in other operations. In compulsory registration the increase has been 1·07, and in optional registration 2·6. The total increase compared with 1875-76 has been 7,923, or 1·7 per cent. The increase is chiefly remarkable in Jessore, Chumparun, Mymensingh, Bhagulpore, Maldah, Monghyr, Furreedpore, Rungpore, Patna, and Rajshahye. The decrease appears most markedly in the returns for Chittagong, Backergunge, Noakholly, Tipperah, Lohardugga, and Midnapore. The explanations given for most districts will be noticed under the various heads. None, however, can be offered for Lohardugga, as the annual report of the Registrar had not reached the Inspector-General on the 19th July. The Lieutenant-Governor desires that Major Walcott's explanation may be submitted to Government when it is received. The different provinces under this Government contribute to the total operations of the department in the following proportion : Bengal proper, 78·1 ; Behar, 17·8 ; Chota Nagpore, 2·2 ; and Orissa, 2·0 per cent. The percentage of Behar was only 14·1 in 1875-76. The increase is in part only nominal, owing to the transfer of the district of Maldah from the jurisdiction of the Commissioner of Rajshahye to that of the Commissioner of Bhagulpore. In part it is attributable to special circumstances in Chumparun, which will be noticed further on.

3. The first remarkable feature in the comparative table above given is the decrease of 6,652 in the number of perpetual leases registered. The progress of the popularity of this class of engagement has been watched by Government for some years with interest. Since 1871-72, when the number registered was only 47,181, it has rapidly extended without any check until the year which has just elapsed. Though the system appears to be gradually making its way in Central and Western Bengal, it can only be said to have taken deep root in Jessore and the south-eastern districts of Backergunge, Furreedpore, Noakholly, and Chittagong. During the past year there was a considerable increase in 24-Pergunnahs, Nuddea, Moorsshedabad, Maldah, and Furreedpore, and a very large increase in Jessore, while the three districts which suffered most from the cyclone show an aggregate decrease of 13,144, or nearly double the net decrease throughout the province. Whether this falling off is entirely due to the destruction of property and the general confusion and distress caused by the great physical calamity, or whether the anticipations expressed last year by the Regis-

trars of Chittagong and Noakholly, that the system had nearly reached its limit, have been realized, cannot now be accurately determined. The Registrars would have found some basis for a calculation in a comparison of the figures for the first seven months of each year, when the material condition of the people was normal. It is obvious that there must be some limit to the grant of perpetual leases in any one district; but, in the absence of special proof, Mr. Eden is not prepared to accept the figures as showing that it has yet been attained in either of these districts. While the adjoining districts of Dacca and Tipperah, both of which suffered to some extent from the cyclone, show a slight decrease, those of Furreedpore and Jessore, in which some damage was also caused, show, the former a slight, and the latter a very considerable increase. As Mr. Bourdillon remarks, Government will have to wait another year before it can pronounce definitely on the progress of these leases in Eastern Bengal. Their extension in Central Bengal, to which allusion has already been made, appears to be a matter for great satisfaction. It shows that the cultivators are beginning to obtain a closer and more lasting interest in the lands which they till, and that security of tenure, without which extensive improvements and full production cannot be looked for, is becoming more generally appreciated and demanded. The remarks of Mr. Smith, the Registrar of Jessore, on this subject are worthy of attention. They show that the fixity of tenure which is being gradually conceded is likely to play an important part in the reclamation of the waste lands of the littoral. "Perpetual leases are increasing from year to year. The cause of them is the ryot's unwillingness to take a lease for a short time, especially in respect of such lands as require much labor and outlay to reclaim, such as the large *beels* in the centre, and the Soonderbun jungles in the south, of the district. In most of the leases of this class it is found that the landlord reserves his power to measure and to enhance the rent; the ryots prefer such a stipulation to a lease for a short term. Where a premium is given it is a sufficient inducement to a needy landlord to give a perpetual lease." It is perhaps not too much to hope that the practice, which is extending westwards, will be gradually developed until all the ryots of the deltaic districts enjoy that stability of interest in the soil which is the index of the prosperity of the cultivating classes in Eastern Bengal.

4. The number of term-leases of small value registered during the year rose from 87,096 to 95,616. It is to be expected that registration under this as under other heads will year by year show some expansion. Disturbing local causes, however, will not unfrequently be found to account for more or less violent fluctuations in some districts. Thus, the increase of 51 per cent. in Chumparun during the past year is explained by a sudden combination among the ryots of an indigo factory, followed by the formal renewal of their engagements on more favourable terms, and the expiry and peaceful renewal of the indigo leases under two other large factories in the district. In Rajshahye, where the increase was nearly 81 per cent., the stimulus was caused by some new settlements and by the opening of two new rural offices. The prosperity of the people is adopted by the Registrar of Bhagulpore as an explanation of the increase, and by the Registrar of Midnapore as one of the decrease, of registration. The Inspector-General does not pronounce between them. In Mymensingh, the increase, which is considerable, is attributed by the Registrar to the fact that written engagements between landlord and tenant are taking the place of the informal agreements of former years, a most satisfactory solution of the long pending differences between two contending parties whose real interests are identical. In Tipperah, it is said, "the decrease is explained by a reference to the customs of the district, in which it is usual for the landlord to grant leases for long periods of time;" and the Inspector-General accepts this explanation. To the Lieutenant-Governor it seems that the circumstance referred to would explain a general lowness in the number of leases annually registered in Tipperah; but, unless for some reason large numbers are given or renewed in any one year, and this is not asserted, it does not appear why a common practice of granting long leases, any more than one of granting short leases, should create sudden fluctuations. In point of fact, however, the whole explanation is vitiated by a reference to the returns, which show that, in 1875-76, Tipperah stood first, and in 1876-77 fourth, on the list of all the districts in the province for the number of leases of this class registered.

5. The statement extracted in paragraph 2 shows that the decrease in optional registrations of immoveable property is almost solely noticeable in the returns of small sales. The fall is chiefly observed in the Presidency and Burdwan Divisions, where the people were the most ready to avail themselves of the reduction in the stamp duty on deeds of gift. It appears that it was formerly the practice to evade the payment of the stamp duty by describing gifts as sales for a nominal consideration.

6. In 22 out of 42 districts there has been an increase in the optional registrations of bonds, and the gross number registered in the province was 69,047 against 65,610 in 1875-76. The net increase, however (3,437), is less than the increase in the one district of Jessore, where more than half the total number were registered, and where the registrations increased from 31,452 to 35,694. The registration operations of Jessore are rightly described by Mr. Bourdillon as phenomenal. No explanation appears possible of the vast difference in the extent to which the safeguards of registration are utilized in this and in the surrounding districts. The decrease in the registrations under this important head in nearly half the districts of the province is disappointing.

7. In the minor operations of the department there has been a general increase. A small but steady advance is shown in the number of wills registered. The Lieutenant-Governor agrees with Mr. Bourdillon in thinking that any great expansion under this head is improbable. Some explanation should have been procured and submitted of the circumstance that in no instance were documents presented, or, at any rate, received, for registration by the District Registrar in Chumpan, the Sonthal Pergunnahs, Pooree, or Singbhoom. In paragraph 17 of his report Mr. Bourdillon gives several instances of curious, and in some cases most improper, deeds being presented for registration. The Lieutenant-Governor would wish to know something more of the Nuddea case in which a deed of gift of a female child was executed by its mother in favour of a prostitute. The case would appear from the description given to fall under section 372 of the Penal Code.

8. In 13 cases only during the year did the civil courts give notice to the registering officers of the presentation of registered documents which the courts discredited. The Lieutenant-Governor has recently invited the co-operation of the High Court in this important matter, and the Hon'ble Judges have responded by the issue of a circular directing judicial officers to give notice in all cases in which there is strong *prima facie* evidence of fraud having been committed. Mr. Eden has no doubt that this order will have a salutary effect during the current year. The prosecutions instituted during the year numbered 38, and 35 persons were punished with imprisonment and 12 with fine for offences against the Registration Act. The Lieutenant-Governor is glad to learn that heavy sentences were passed in the most heinous cases. The result of the prosecution in Sarun was satisfactory, and severe punishment was inflicted on the offender.

9. The financial condition of the Registration Department has recently engaged the serious attention of Government. It has been found that of late years, though the receipts have considerably increased, the expenditure has advanced even more rapidly, and that the surplus at the disposal of Government is gradually diminishing. The subjoined statement shows the receipts and expenditure of the past four years calculated on the principle hitherto adopted:—

				Receipts.	Expenditure.	Surplus.
				Rs.	Rs.	Rs.
1873-74	4,82,509	3,29,431	1,53,078
1874-75	5,52,325	3,86,953	1,65,372
1875-76	5,50,505	4,17,402	1,39,103
1876-77	5,66,882	4,30,168	1,36,714

It now appears, however, that the amount given as the total of expenditure in each year does not include the charges for paper and for printing and binding the registers and forms. These charges aggregated Rs. 34,445-10-6 during the past year. It is also reported that the Public Works Department expended during the year Rs. 23,294 on behalf of the Registration Department. Although the greater part of this sum was expended on major works and was accordingly taken from money provided in the Public Works Department

budget, it is obvious that no calculation which excludes it will show how far the Registration Department affords a revenue to the country after defraying its own current charges. The net surplus during the past year was, therefore, only Rs. 78,973-9-6. Mr. Bourdillon, in a special report recently submitted upon this subject, recommended an enhancement of some of the *ad valorem* fees levied on documents presented for registration, and the Lieutenant-Governor has approved some of his proposals. Mr. Eden, however, is strongly of opinion that an immediate check is required on the rapidly growing expenditure of the department. That growth has undoubtedly been chiefly caused by the remarkable expansion of the rural sub-registry system. Mr. Eden does not underrate the immense influence which the extension of that system has had in rendering registration popular among the people and in making its advantages accessible to them. But the returns show unmistakeably that in some districts of Bengal the system has been overdone, and that offices have been opened and sub-registrars on large percentages of the fees appointed in places where they cannot be supported. This has been conspicuously the case in Burdwan. The number of offices in that district rose from 10 in 1874-75 to 22 in 1876-77. At the same time the number of registrations effected fell from 23,869 to 22,972, and the receipts from Rs. 26,558 to Rs. 24,835. The expenditure was simultaneously increased from Rs. 16,998 to Rs. 20,025, and the surplus was accordingly reduced from Rs. 9,560 to Rs. 4,810. It is clear that there has here been a great loss to the department without any gain whatever to the people of the district. It may even be apprehended that the very small salaries produced by even 75 per cent. of the fees may have resulted in laxity and mismanagement in some of the offices presided over by underpaid sub-registrars. Mr. Bourdillon reports that ten of them realize an average income of Rs. 48 per mensem, and that in some instances their aggregate receipts are as low as Rs. 43 and Rs. 45, out of which they have to pay their establishment. Mr. Eden's opinion, formed after careful consideration of the whole subject, is that the rural system should not for the present be further extended in Bengal, though it should not be extensively contracted. In one or two instances it may be found necessary to amalgamate offices which are not fairly self-supporting with others which have been longer established; but, as a rule, Mr. Eden would leave existing arrangements undisturbed.

10. The Lieutenant-Governor's attention has also been directed to some cases in which special sub-registrars on high salaries are retained at the headquarters of districts to do less work than is elsewhere performed by Assistant or Deputy Magistrates in addition to their own duties. In some instances the services of such officers are indispensable, but in others they are certainly not required, and Mr. Eden will take an early opportunity of providing them with other employment.

11. There were altogether 310 offices open at the close of the year, against 290 at the close of 1875-76. Eighteen of the new offices were placed under rural sub-registrars in the interior. Two new sub-district offices were opened and ten sub-district offices were transferred from the charge of the sub-divisional officers to that of rural sub-registrars. Mr. Eden considers this measure one of questionable expediency. He sees no reason why a sub-divisional officer should be relieved of his registration any more than of his treasury work. To obtain rural sub-registrars who will be competent to supervise the preparation of the sub-divisional indexes, high proportions (generally 75 per cent.) of the fees must be granted. If the system were carried out in all sub-divisions the expenditure of the department would be very largely increased. At the same time that they are more expensive, rural sub-registrars at sub-divisions should be really less efficient than ex-officio sub-registrars, for they cannot have the same authority over the other rural sub-registrars of the sub-district that the officer in executive charge must enjoy. In few sub-divisions are there more than five or six deeds presented for registration in a day. These documents must afford an intelligent officer a considerable insight into local customs and a general grasp of the principles on which, and the extent to which, dispositions of the various descriptions of property are made. Such information must be exceedingly valuable in many parts of the country where important questions connected with rights in the soil and the systems of cultivation are constantly arising. Mr. Eden regrets very much to hear of

sub-divisional officers that "with a few exceptions the work is carried on with delay and irregularity." The Lieutenant-Governor desires that sub-divisional officers should understand that Government will insist on their registration work being carefully and thoroughly done, and he trusts that the report for the current year will show a great improvement in this respect. A special report should be submitted on the alleged gross failure of the sub-divisional officer of Bhaboah to attend to this part of his duties. Mr. Eden also hopes that district registrars will generally take more interest in this important department. The amount of knowledge required to enable him to make a proper inspection of a sub-registry office is not more than a thoroughly efficient district officer can easily acquire and should always possess.

12. The experiment of issuing printed forms of agricultural leases and their counterparts and of bonds for small amounts has not been found successful; indeed the forms of leases and engagements vary so in different parts of the country, and even in different parts of the same district, that any large demand for printed forms is most unlikely to arise, and the Lieutenant-Governor has restricted it to a few specially selected districts in order to obtain materials for a judgment upon its working before sanctioning a general extension of the scheme.

13. The Lieutenant-Governor is not yet in a position to pronounce definitely on the working of the Mahomedan Marriage Registration Act, but the reports hitherto received have not been generally favourable. At the close of the year the Act had been extended to 14 districts, and 77 offices were at work. Only 2,234 ceremonies were registered during the year. The Act will not be extended to the districts of Central and Western Bengal or to Behar until Government is in a position to judge of the measure of success attained in the Eastern districts.

14. The Inspectors appear to have performed their duties zealously. Mr. Eden notices with pleasure the terms in which the Inspector-General is able to speak of the assistance rendered to the department by several district registrars, and the satisfactory manner in which the ex-officio and rural sub-registrars named by him have performed their duties during the year. To Mr. Bourdillon himself the Lieutenant-Governor is indebted for his excellent administration of the department, and for an interesting and complete report.

By order of the Lieutenant-Governor of Bengal,

HORACE A. COCKERELL,
Offg. Secy. to the Govt. of Bengal.

REPORT ON EMIGRATION TO BRITISH AND FOREIGN COLONIES DURING THE YEAR ENDING 31st MARCH 1877.

EMIGRATION.

Darjeeling, the 5th September 1877.

READ—

The Report of the Protector of Emigrants on Emigration to British and Foreign Colonies during the year ending 31st March 1877.

Read again—

The Reports of the two previous years, with the orders of Government thereon.

In colonial, as in inland, emigration the operations of the past year show a remarkable falling off compared with the results of previous years. The number of emigrants despatched to the colonies was 24,569 in 1873-74, 20,230 in 1874-75, 9,251 in 1875-76, and only 7,734 in 1876-77. The stimulus experienced in the two former years was undoubtedly owing to the scarcity, which was to some extent felt in all the districts from which the great majority of the recruits for transmarine emigration are collected; but, on the other hand, the plentiful harvests of the past two years will not entirely account for the remarkable slackness in colonial emigration which has since supervened. The last annual report of the Superintendent of Emigration shows that Assam is beginning to compete successfully with the colonies in procuring labourers from Behar and the Upper Provinces. Unfortunately, the statistics show that, with increasing demand for labour both in this country and abroad, and competition among recruiters, the supply, though practically unlimited, is becoming less and less accessible, and that greater inducements are year by year becoming necessary to prevail on the people to leave their homes. The Lieutenant-Governor wishes that those interested in either form of emigration would recognize the fact that this is the result of excessive eagerness, not unfrequently accompanied by unscrupulous fraud, on the part of the recruiters, and that the surest way of increasing the available supply of labourers is a rigid enforcement of the checks which the law provides for the control of the subordinate agency.

2. Mr. Eden considers that the decrease in the number of emigrants to the colonies is a matter for regret. He believes that it would be a great gain to the country if the yearly demands of the British colonies at least could be fully met. The greatly improved circumstances of the many labourers who return to their homes with considerable savings, enlarged ideas, and some education, show how great are the advantages to the Indian emigrant of a short residence in the colonies. Dr. Joubert reports that one emigrant recently returned from a stay of twelve years in Trinidad with savings amounting to nearly Rs. 17,000, besides a quantity of valuables. During the past year no less than 254 persons again emigrated, and in addition to these, 14 paid their own return passages to Demerara and 8 to Trinidad. There can be little doubt that, if recruiting operations were generally conducted with ordinary moderation and honesty, the full number of labourers annually required for the British colonies could be procured.

3. The subjoined table shows the most prominent results of the year's operations compared with those of the two previous years:—

		1874-75.	1875-76.	1876-77.
Number of emigrants required by the colonies	14,760	12,965
„ „ admitted to the depôts	...	23,393	11,126	9,417
„ „ despatched to the colonies	...	20,230	9,251	7,734
„ „ returned from ditto	...	3,534	2,674	2,931
„ rejected or released from depôts	...	1,560	826	1,155
Percentage	...	6.6	7.41	11.84
Number absconded from depôts	...	1,178	660	5.09
Percentage	...	5	5.93	5.21
Death-rate per cent. in depôts	...	33	26	41

4. Altogether 306 licenses were granted during the year to the emigration agents of six colonies, against 326 to six agencies in the previous year.

In 1876-77, 12 licenses were cancelled, against 21 in 1875-76. The Lieutenant-Governor regrets, however, that he cannot accept this as evidence of an improvement in the conduct of those employed in collecting emigrants. The nature of their business and the very extensive area over which their operations are conducted have rendered it impossible for the emigration agents to exercise anything like efficient local control over their recruiters. They have been compelled to employ sub-agents to look after their interests in the principal recruiting centres. The existing law contains no provision for the recognition and control of these persons. Nevertheless, their employment is absolutely necessary, and it is by their honesty and vigilance, rather than by the goodwill of the emigration agents, that the operations of the recruiters can be effectually controlled. Hitherto, unfortunately, these qualities have not been exhibited by them, and they have in many instances taken advantage of their irresponsibility under the law to countenance, if not to suggest, malpractices on the part of the recruiters. Mr. Eden has recently decided that, pending the amendment of the law, these sub-agents should be made amenable to control by requiring them formally to take out licenses as recruiters. At the same time, Magistrates have been instructed not to enforce in their respect the section of the law which requires recruiters to wear badges. The Lieutenant-Governor has every reason to believe that if emigration agents were to exert themselves to procure for these posts respectable men who would work honestly under the supervision of the Magistrates, the results would be very different. The want of co-operation on the part of Magistrates, of which the agents so often complain, is attributable to a not unnatural distrust and suspicion of the subordinate agency now employed.

5. The returns for the past year, which have been abstracted above, show that the action of the local sub-agents has been positively mischievous. Out of 9,755 persons received in dépôt, including 338 remaining from the previous year, no less than 1,155, or 11·84 per cent., were either rejected by the medical inspector or emigration agents, or released from their engagements by the Protector. These figures bear evidence of great abuses in the process of recruiting. The percentage of rejections and releases ranges from 4·96 in the Natal agency to 17·11 and 17·49 in those of Trinidad and Guadeloupe respectively. In explanation of the high percentage at the Trinidad dépôt, Dr. Joubert states that only thoroughly good emigrants are despatched to that colony, as, in consequence of its popularity, labourers are easily procurable for it. This, however, is no excuse for the recruitment of labourers who are certain to be rejected. If the standard is raised so high and the facilities are so great, there should be the less temptation on the part of recruiters to swell the number of their recruits by persons who are not qualified to meet the requirements of the colony. This is a matter which should be fully within the control of the Emigration Agent for Trinidad. The Lieutenant-Governor would like to know if any of the labourers rejected at the Trinidad agency were afterwards accepted at any of the other colonial dépôts. No explanation has been offered of the high percentage of rejections and releases among the labourers recruited for Guadeloupe. Mr. Eden considers it highly discreditable to all concerned. His Honor will have occasion to remark further on upon some unsatisfactory features connected with emigration to this French colony. The increasing number of coolies released or rejected at the dépôts appears to Mr. Eden to call for the adoption of special measures against the recruiters and sub-agents concerned. He desires that in future the Superintendent will note carefully the name of the recruiter and sub-agent through whose hands each labourer who absconds on the way to Calcutta or from the dépôts, or who is rejected or released, has passed. It will be necessary to suspend the licenses of all who are shown to have participated in the recruitment of any large number of labourers who are subsequently found unfit or unwilling to emigrate. A warning to this effect should at once be conveyed to all emigration agents.

6. In the resolution on the report for 1875-76, Sir Richard Temple noticed the neglect of the registering officers in the interior to report to the Superintendent all registrations effected by them. It appears that during the past year there has been no improvement in this respect. The total number of emigrants received in dépôts actually exceeded by 1,342 the number shown

by the Magistrates' reports to have been originally registered. It is clear that without a knowledge of the number originally recruited, and of the number who abscond on the way to Calcutta, it is impossible for Government to gauge the extent to which improper recruiting is practised. It appears that the Emigration Agents are disinclined or unable to give the desired information. It was pointed out in the last resolution that the law requires Magistrates on registering emigrants to submit to the Protector copies of the entries made by them. The attention of all district officers in Bengal will now again be directed to this important matter, and other Governments will be addressed with a view to the issue of similar orders. Meanwhile, the Superintendent will be good enough to compare the statements received with the number of persons admitted to depôt, and to report from what districts those emigrants came regarding whom no reports were received.

7. Of the labourers received in the depôts 5·21 per cent. absconded. This result is chiefly to be attributed to the large number (14·22 per cent.) of desertions among the coolies recruited for Mauritius. Dr. Joubert explains that intending emigrants are allowed great liberty while awaiting embarkation at this depôt, and that the privilege is apparently abused. This explanation is somewhat hesitatingly offered, and the Lieutenant-Governor is unable to accept it as satisfactory. Depôts should not be looked upon as prisons, and under the law every emigrant has full liberty to change his mind up to the time when he enters formally into his engagement. After making allowance for the number of persons who accompany recruiters merely to secure a free journey to Calcutta, the Lieutenant-Governor cannot but recognise in the large number of labourers who absconded from the Mauritius depôt unmistakable proof that many were improperly recruited.

8. Altogether 40 deaths, or 4·2 per cent., occurred among the coolies after admission to depôt. As the average duration of detention in depôt was only 29·2 days, the death-rate amounts to 52·8 per mille per annum, which, as the Superintendent observes, is high for a class supposed to be specially selected. It is not stated whether all the deaths occurred after the labourers had been seen and passed by the medical inspector or not, and it is obviously important that this should be known. Out of the 40, 7 died of "chest affection" and 6 of "other diseases." In the absence of special explanation, it would appear that these persons should not have been passed by the medical officers of the districts in which they were recruited.

9. Dr. Grant, who held the office of Protector throughout the year, expresses himself as perfectly satisfied with the cleanliness of the depôts and with all the arrangements made for the health and comfort of the emigrants. The emigration agents all reside at their depôts, and the Lieutenant-Governor believes that Dr. Grant's remarks on the excellence of their management are quite deserved. Judged by the returns, it would seem that the operations of the Natal agency were most satisfactorily conducted. That depôt shows by far the lowest percentage of rejections and releases and of desertions, and no deaths occurred among the 806 emigrants admitted to it.

10. Emigrants were detained on the average 29·2 days in the depôts, so that the provisions of Rule 17, which requires the despatch of emigrants within one month of admission to depôt, if possible, were in most instances complied with. In the Mauritius agency, however, the average length of detention was 41 days. No explanation is offered on this point. Possibly the excessive number of desertions from this depôt may be attributed in some degree to the length of time passed by the intending emigrants in idleness and comparative confinement and inability to improve their condition.

11. At the beginning of the year the Mauritius, Demerara, and Guadeloupe agencies had still a number of women to despatch in order to make up the required proportion of 40 per cent. The Mauritius agency made up its deficiency in full during the year; that of the Demerara agency was reduced from 115 to 40. No surplus of women was despatched to Guadeloupe, and the deficiency remained at 192 at the close of the year. It has, however, been brought to the Lieutenant-Governor's notice that special efforts have since been made to complete the number required by the rule.

12. The following table shows the number of statute adult emigrants required by the different colonies during the past year, and the number of emigrants actually despatched :—

COLONY.	Number of statute adults required.	NUMBERS DESPATCHED REPRESENTED AS	
		Statute adults.	Souls.
Demerara	8,000	3,867½	3,092
Trinidad	1,500	1,507½	1,801
Mauritius	1,385	915	1,027
Natal	2,730	715	781
Guadeloupe	1,860	383½	368
Total	12,965	7,138½	7,734

13. It will be observed that Jamaica, which has hitherto taken a regular annual supply of labourers, did not require any during the past year. Emigration to Cayenne, or French Guiana, was stopped during the past year, in consequence of the unsatisfactory reports received of the condition of the Indian immigrants in that colony. The prohibition on emigration to Surinam, or Dutch Guiana, was still in force during the year: it has since been partially removed. Trinidad was the only colony which succeeded in obtaining the full number of emigrants required. To Demerara and Mauritius not much more than half of the number which those colonies sought to obtain was despatched. Natal could only procure 715 out of 2,730 indentured for. This colony has obtained a number of labourers from Madras, but in Bengal it appears unable to compete with Mauritius and the West Indian Colonies, which are better known to the people. The latest information shows that, since the Commission of 1872 submitted its report, the condition of the Indian labourers in Natal has been most satisfactory. A retired Indian officer has been appointed Protector of Immigrants, and many of the labourers who have worked out their term of indenture have adopted lucrative trades in the neighbourhood of the chief towns. It is probable that, as its excellent climate, comparative proximity to India, and general prosperity are more generally known, Natal will have no difficulty in procuring the labourers it requires. The condition of Indian subjects in Cayenne and Guadeloupe is a matter for grave concern. One of the great inducements to labourers to proceed to those colonies has hitherto been the promise of a free return passage after five years of service. Recent reports, however, show that this advantage is not really enjoyed. On the 25th February 1876 there were 13,543 adult Indian immigrants in Guadeloupe, of whom a large number must have completed their term of indenture and become entitled to return passages. During the year 1875 no less than 1,200 immigrants terminated their engagements. It is stated that all these renewed their engagements, but the Lieutenant-Governor thinks that some special explanation is required to account for the fact that during the past five years no Bengal emigrants have returned to their homes from Guadeloupe. In Cayenne it appears that the coolies only labour 14 days in the month. There must clearly be something wrong in the system of tasks and payment for work, for Mr. Eden believes that no labourer works more willingly than the Indian if it is made his interest to do so. The experience of the other colonies shows that, with liberal rates of wages, the coolies are excellent and industrious labourers. The result of the system pursued in Cayenne is that the immigrant's first indenture for five years, or 1,560 days, cannot expire until he has passed some ten years in the colony, and that he is as poor at the end of the term as he was at the beginning. But this is not all. It appears that the privilege of a free return passage is withheld after it has been earned. The British Consul reports that throughout the years 1875 and 1876 there were 238 immigrants awaiting an opportunity to return to India, yet that not one was able to leave the colony, though it is evident that the number was sufficient to fill a vessel if one had been chartered for their use. There are at present nearly 4,000 Indian labourers in Cayenne, and it is feared that the condition of all is far from satisfactory. Mr. Eden would be glad to see a specially selected officer deputed to report on the condition of Indian immigrants in all the colonies to which they have been despatched. At present the Indian Governments have no complete

information on the subject. The state of things in the French colonies appears to have been unsatisfactory for some years, yet it is even now but imperfectly understood. The affluence of some of the emigrants who return from the British colonies bears testimony to the general prosperity of the class. But the Lieutenant-Governor thinks that we should not be absolutely dependent upon the sometimes meagre reports of officers of the imperial Foreign or Colonial departments for information regarding the welfare of our Indian fellow-subjects in these distant lands.

13. The death-rate on board those vessels whose arrival in the colonies has been reported was not high, averaging only 1·38 per cent. The highest mortality, 2·75 per cent., occurred among the emigrants despatched by the *Jorawur*; more than half the deaths in that instance were caused by measles and their sequelæ. The Lieutenant-Governor has inquired into the case, but it does not appear that any blame attaches to the medical inspector under whose superintendence the emigrants embarked.

14. Altogether 2,931 emigrants returned from the colonies during the year. The average savings of those from Trinidad amounted to Rs. 379-5-6, and the general average was Rs. 178-0-1. In no instance was the death-rate on board the return vessels exceptionally high, though of course many of the passengers were invalids. Dr. Grant's remarks on the subject of pauper emigrants, who are sent back to India after having been incapacitated for earning their livelihood, will be separately considered.

15. Separate orders will also be passed upon the financial statement which Dr. Joubert promises to submit.

16. The Lieutenant-Governor has much pleasure in recording his sense of the care and assiduity with which Dr. Grant has discharged the duties of Protector of Emigrants during the past year.

By order of the Lieutenant-Governor of Bengal,

HORACE A. COCKERELL,

Offg. Secretary to the Government of Bengal.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

ABSTRACT OF REPORTS ON DISTRICT STOCKS OF RICE, &c., AND MOVEMENTS OF PRICE IN BENGAL, RECEIVED UP TO THE 25TH SEPTEMBER 1877.

N. B.—No reliance can be placed on the accuracy of figured estimates of stocks in the interior; at best a rough approximation is all that can be expected.

Burdwan, 22nd September 1877.—Stocks in hand of dealers amount to about 40 000 maunds in Burdwan and 60,000 in Raneeunge. Exports to Calcutta during the week were about 50,000 maunds. Prices are slightly higher.

Bankoora, 22nd September 1877.—About 12,000 maunds of rice were exported during the week, of this 5,000 maunds passed through the district from Maubhoom.

Beerbhoom, 22nd September 1877.—Prices have been practically unchanged, ranging from 13 to 13½ seers per rupee. Exportation is still going on very freely indeed, and not only by the road and rail, grain also is carried along the Ahmedpore-Cutwa road to Laghatta, close to the Labpore police-station on the little Koosee nuddi, which falls into the Bhagiruthi. The recent cessation of the carrying business of the railway has re-established here a boat traffic between Laghatta and Calcutta.

Hooghly, 22nd September 1877.—About 4,000 maunds of rice were imported to Chander-nagore and other places on the Hooghly, and about 22,000 maunds exported from them. The stock in hand at these places may be estimated at 37,000 maunds. There was a slight rise in the prices of all food-grains. Coarse rice sells at Hooghly at 11 seers per rupee. The price of wheat has increased from Rs. 3-2 to Rs. 3-8, and of gram from Rs. 2 10 to Rs. 2-14 per maund.

Howrah, 22nd September 1877.—Prices have hardly changed during the week. Export has been rather more active, and the returns show a decrease in stocks everywhere except in Sibpore.

24-Pergunnahs, 22nd September 1877.—Exports to Calcutta continue from Diamond Harbour, Barripore, and Satkhira. 15,279 maunds of rice and 5,162 maunds of paddy were exported from Diamond Harbour. An unusual export of new *aus* rice is reported from Satkhira. Prices still high and firm, but stocks are considered sufficient.

Nuddea, 22nd September 1877.—Not much change is to be noticed since last week. Generally speaking trade in food-grains seems to have been rather more active. From Kooshtea 10,342 maunds of rice were exported; of this 6,594 maunds went by rail to Calcutta. From Moharpore 5,000 maunds of wheat and gram were exported to Calcutta. From Ranaghat 5,421 maunds of rice and 110 maunds of gram were exported; this probably includes 1,304 maunds of rice exported from Bongong to Calcutta. About 600 maunds of eastern rice were imported into Chooadangah, but there is very little stir in the grain markets of this sub-division. In the sudder sub-division the imports were 10,379 maunds of rice, 340 maunds of cereals, and 5,252 maunds of pulses; while the exports came to 1,847 maunds of rice and 2,888 maunds of pulses. The Collector, however, doubts these figures. There has been very great variation in the prices this week. Coarse rice varies from Rs. 2-2 to Rs. 3-2 per maund. Upon the whole, however, the prices have slightly fallen.

Jessore, 22nd September 1877.—Prices are rising, and rice is being exported throughout the district. 8,075 maunds were registered through Khoolna during the week.

Moorshedabad, 22nd September 1877.—Exports continue on a considerable scale. The river returns show:—exports—rice 5,050 maunds, paddy 1,000 maunds, wheat 3,050 maunds, gram 625 maunds, barley 200 maunds, &c; imports—rice 22,760 maunds, paddy 2,000, wheat 433 maunds, gram 705 maunds. Prices seem to be somewhat on the rise. Best rice sells from 10 to 12 seers, common rice from 11 to 13, and coarse rice from 13 to 14 seers the rupee.

Dinagopore, 19th September 1877.—The exports from Dinagopore and the stocks in hand are thus shown: Exports in July 16,23,214 maunds, August 67,697, and September up to 19th 69,688 maunds. Stock in hand at end of July 2,90,554, at end of August 70,346, and on 19th September 92,000 maunds.

Rajshahye, 22nd September 1877.—The exports of rice during the week from the district amounted to 4,213 maunds. This does not include Nowgong, from which no returns have been received, and which, in the previous week, exported 4,730 maunds. 150 maunds of wheat were exported to Calcutta from Lalpore. The stock available for export is a little less than 5½ lakhs of maunds. The price of common rice has fluctuated from 13½ seers on the 16th, 14½ seers on the 19th, to 13½ on the 22nd instant. New *aus* sells at 24 seers the rupee.

Rungpore, 21st September 1877.—On account of the rain prices remain much the same as in last week. 22,273 maunds of rice were brought into the market during the week. From Gaibanda 7,000 maunds were exported to Assam, Calcutta, and Serajgunge. From Kuri-gram 2,000 maunds of rice and paddy were exported during the first week of the month to Serajgunge, Manickgunge, Naraingunge, and Dacca, besides what was sent direct to Calcutta.

Bogra, 22nd September 1877.—During the week 13,600 maunds were exported chiefly to Calcutta, and 600 maunds were imported from Dinagopore. In the three western thanas the price of rice has risen from 18½ to 15½ seers per rupee, in four marts the price is the same, and in Bogra itself it has slightly fallen.

Pubna, 22nd September 1877.—At Pubna there has been no rise in the price during the week owing to the rising of the river, which has benefited importation from several places. Coarse rice sells at Rs. 2-3-6, Poorbee Rs. 2-8, and paddy Rs. 1-14 per maund. At Dulyo

amun dhan is 30 seers a rupee, *am dhan* 35 seers, *amun rice* 16 seers, and *am rice* 18 seers. At Mathura, coarse rice is 17 seers, and coarse *dhan* 36 seers a rupee (kutchu weight). At Chatmohur *dhan* is a rupee a maund, and coarse rice 19 seers. At Serajgunge *amun rice* is Rs. 3 to Rs. 3-3 a maund, and *am* from 2-14 to Rs. 3, *amun dhan* 35 or 36 seers per rupee, and *am dhan* a maund per rupee. At Shazadpore *dhan* is Rs. 1-10, and rice Rs. 2-10 per maund. At Ullaparrah coarse rice is Rs. 3 per maund. At Raigunge rice is 17 seers and *dhan* 35 seers.

Darjeeling, 21st September 1877.—Prices have continued to rise during the week, and may go up a little higher owing to the bhadoi rice crop having fallen short considerably. But a timely rain has saved the *haimanti* rice, and the present stock will hold out until the winter crop is gathered.

Julpore, 22nd September 1877.—No exports were made from Boda during the week. The price of rice there and at Alipore has slightly risen. Stocks are everywhere adequate. In Mynagoori the ryots are being benefited by the increased price of rice which is bought largely for the tea gardens. Slight exportation continues from the frontier hâts to Cooch Behar.

Cooch Behar, 19th September 1877.—The weather being cleared up, the price of rice has come down to Rs. 3-8. *Bitri* rice still sells at Rs. 3. No exportation is reported to have taken place during the week.

Dacca, 22nd September 1877.—Exports from Naraingunge to Goalundo and Calcutta by boat, 19,850 maunds, by Eastern Bengal Railway steamer from Naraingunge and Dacca 14,000 maunds, 5,005 maunds of paddy and 2,350 of rice have gone to Chittagong, Backergunge, and Noakholly. There have been considerable supplies of *dhan* from Mymensingh coming into Manickgunge, prices having in consequence fallen a little. In Dacca and Naraingunge the price is from Rs. 2-11 to Rs. 3, in Manickgunge from Rs. 2-8 to Rs. 3-10. At Mirpore rice is 13 to 14 seers and paddy 23 to 24 seers the rupee.

Furzedpore, 22nd September 1877.—The state of the markets continues to be the same as last week. The average price of coarse rice all over the district is about 11 seers per rupee. Importations are short, and owners of stocks hesitate to bring their supplies to the market for fear of a deficient winter harvest and a further rise in prices. There is no exportation.

Mymensingh, 21st September 1877.—Exportation is slack.

Chittagong, 20th September 1877.—Prices still at 13 to 14 seers in town and north, and at 5 and 6 seers in Teknaaf. No exportation of rice to Calcutta.

Noakholly, 29th September 1877.—Prices of food-grains are about the same as reported last week. Coarse rice is 12 or 13 seers per rupee. The mainland markets are fairly supplied. Prices continue high in the islands. A little exportation is going on from Bamui to Chittagong and from Chowmohany to Calcutta.

Tipperah, 21st September 1877.—Prices continue high owing to the large export of rice, and range from Rs. 2-10 to Rs. 3-6 for rice of the better sort. People of the poorer classes are feeling the effects of the present high prices, especially in the pergunnahs in the south of the district which suffered most from the cyclone of last October. There is plenty of rice in stock, but dealers hold back hoping to realize still higher prices.

Chittagong Hill Tracts, 11th September 1877.—Rice is at present sold at Rangamatee at Rs. 4 a maund, but at Cox's Bazar sub-division at 6 seers the rupee. At Ramghur it is sold at Rs. 2-8 to Rs. 3 per maund.

The 18th September 1877.—Rice is now sold at Rangamatee at Rs. 4 a maund, but at Mahalsury at 16 seers the rupee. At Ramghur it sells at Rs. 2-8 per maund.

Hill Tipperah, 19th September 1877.—The state of the markets continues as previously reported. No exportation.

Patna, 22nd September 1877.—Prices are rising owing to purchases for export. In Patna City rice is 9 seers and wheat 14 (retail). The poor people are beginning to complain of these prices.

Gya, 22nd September 1877.—From Sudder bazar 1,257½ maunds of rice, 3rd quality, 20 maunds of rice, 2nd quality, 20 maunds of gram, and 188½ maunds of wheat were exported to Patna. From Nowada sub-division 100 maunds were exported to Gya and 30 maunds to Jumooee. From Jehanabad sub-division 4,000 maunds were exported to Patna. In Gya and Jehanabad prices have generally risen.

Shahabad, 22nd September 1877.—Owing chiefly to exportations to North-West and Calcutta high prices prevail throughout the district, and the poorer classes in Sasseram are suffering much from dearth of food and want of demand for labour.

Durbhunga, 21st September 1877.—Prices in the Durbhunga markets rose during the week very considerably owing to purchases for exportation. The new crop not having yet come into the market, the exceptional demand on old stocks forced rice up to 10 seers per rupee. This rate checked buyers, and by the end of the week the market was recovering its tone.

Mozufferpore, 22nd September 1877.—Prices remain stationary. Very large exportations of grain, principally maize and sheeta, are being made from Hajeeepore sub-division.

Sarun, 22nd September 1877.—The quantity of food-grain imported during the week amounted to 3,150 maunds; the exports consisted of 1,500 maunds of wheat to Calcutta, besides 5,000 maunds of rice, 5,000 maunds of barley, and 500 maunds of gram to Fyzabad. The stocks in hand amount to 13,607 maunds. The prices have been—wheat 12½ seers, barley 18, best rice 8½, and common rice 10½ seers per rupee. There has thus been a great

rise in prices. In a few cases complaints have been made that the dealers are unwilling to sell even at 7½ seers. Even with such high prices the exportation is more than the resources of the district can stand.

Chumparun, 22nd September 1877—100 maunds of grain were exported from the south-east of the district, and some Marwari merchants have come to Motihari with, it is said, Rs. 50,000 for buying and exporting grain.

Monghyr, 22nd September 1877.—The stock of food-grains for sale at the different marts and gunges in the district of Monghyr during the week, consisted of rice 21,765 maunds, paddy 10,215, wheat 47,696, rahar 8,877, gram 26,460, &c.

Bhagulpore, 23rd September 1877.—Prices still kept high in consequence of large exportation by private dealers who are very close about their dealings, any information afforded by them being intentionally false.

Purneah, 22nd September 1877.—The rice which has been collected in the southern marts is now being taken away by traders to Calcutta. There seems to be but little importation from the northern markets. Prices are rising a little.

Maldah, 22nd September 1877—Prices are somewhat easier. The price of coarse rice varies from 20 to 14 seers per rupee. The average price is 17 seers. No other change.

Southal Pergunnahs, 23rd September 1877.—The supply of food-grain in the different markets of Deoghur sub-division during the week ending 20th September consisted of paddy 50 maunds, wheat 40, common rice 449, best rice 8, and Indian-corn 35 maunds. The total export was 224 maunds of rice.

Cuttack, 22nd September 1877.—There is no great alteration in the stock market. Export is going on and prices are slowly and steadily rising. The *beal* is coming into the market. The export from False Point during the week was 8,433 Cuttaek maunds.

Poorce, 15th September 1877.—In the Khoorda sub-division the crops on high lands have suffered very much, and will yield only a small outturn; and in the low lands the crops are backward, but generally healthy, and will yield at least an eight-anna outturn. In the south of the sub-division, bordering on the Madras frontier, and to a certain extent in other parts also, the poorer classes, and those who have no lands, are suffering privations from want of sufficient food. The stocks of grain are very few, and the holders prefer to sell to exporters, from whom they get a higher price than in the local markets. Very coarse rice is selling at an average price of 11 seers. There is a scanty supply of a small cereal called *mandia*, and the poorer classes are chiefly living on this. The repairs of the Madras Trunk Road have afforded employment to very large numbers, who, without this aid, would have suffered very severely.

The 20th September 1877.—The supply of rice to inland markets on the north-eastern extremity of the district adjoining the sea has slightly decreased, and the prices there have consequently risen to 10½ seers a rupee. In other places rice is obtainable, but the rates are high. Prices vary from 11 seers 13 chittucks to 18 seers 6 chittucks. Export to Madras continues, though it is not so brisk as it was last week.

Balasore, 21st September 1877.—During the past week there was no export from Balasore. From Chandbally the exports were 4,694 maunds of rice and 2,252 maunds of paddy to Calcutta. The small export by land towards Contai continues. Stocks held for export in Balasore town amount to 8,57,000 maunds, and in Chandbally to 76,852 maunds. Prices are stationary, but with a downward tendency. At Balasore the price ranged from Rs. 2-9 to Rs. 2-6, and in Chandbally from Rs. 2-7 to Rs. 2-5-6.

Hazareebagh, 21st September 1877. The markets are well-supplied with food. Large quantities of the coarse grains, the principal food of the people, are daily coming into the market, and prices are consequently falling.

Lohardugga, 21st September 1877—The bazars are well supplied, and prices have not changed, but the upland crop of rice has come into the markets and is sold at 2½ seers per rupee, whereas old coarse rice sells at 20 seers, as before.

Singbhoon, 21st September 1877.—The supply of food-grains continues to be plentiful. No change in prices. Exportation of rice to Midnapore district is reported from all the markets in Dalbhoon, but owing to weather it is insignificant.

Munbhoon, 22nd September 1877.—Exportation of rice continues as before. Prices are rising, and there are some signs of competition amongst buyers for export. The supply of food-grains generally is sufficient. The harvest of Indian-corn, on which the poorer classes subsist at this season, has been pretty good.

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

H.B.—The periods taken in the Statement represent roughly the distribution of rainfall most necessary to the agriculturist. The fall to the end of April may be called 'the ploughing fall,' that to the end of June 'the sowing fall.' The fall between June and August matures the *arab*, and is essential to the transplantation of the *arab*. The fall in September matures the *arab*, while that after September fills out the ear of the *arab*, rice and late-maturing crops of the *arab*.

STATISTICAL DEPT.,
The 25th September 1877.

A. MACKENZIE,
Offg. Secretary to the Govt. of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 22nd September 1877.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date
BENGAL.			
<i>Western Districts.</i>			
BURDWAN DIV.	1 Burdwan, Sept 22 '77	Nil	Return from Jehanabad not received. No rain in the other sub-divisions. The paddy crops are doing well, but more rain is wanted. Some damage has been done by floods on the right bank of the Damoodar river. Fever is prevalent.
	2 Bankoora, " 22 "	88	Weather—dry all the week until the night of the 21st, when there was a heavy shower. The prospects continue favourable. A little more rain will ensure a first-rate crop.
	3 Beerbhoom, " 22 "	1.71	Heavy rain fell on the 20th and 21st instant. State and prospects of the crops continue to be very fair.
	4 Midnapore, " 22 "	Nil	No rain in the district during the week. Prospects are very good if rain falls in a few days. The heavy rain in Bankoora and Beerbhoom last week brought down floods which have inundated a few miles of Chetwa. Fever, though not of a very severe type, is abnormally prevalent.
	5 Hooghly, " 22 "	Nil	Weather—dry and hot. The harvesting of early rice is going on. Late rice is doing well and the land is being weeded. Public health is normal.
	Howrah, " 22 "	Nil	Weather—seasonable. The reaping of <i>amun</i> is nearly completed. The prospects of <i>amun</i> are good, but some loss has been caused in Khanakool and Amta by floods from the Roopnarain and Damoodar.
<i>Central Districts.</i>			
MEERUT DIV.	6 24-Pergunnahs, Sept 22 '77	13	Weather—hot and dry. The dry weather is so far reported to have done no harm to the crops. The <i>amun</i> harvest is still in progress. The prospects of <i>amun</i> are very good. Health on the whole is good.
	7 Nuddea, " 22 "	Nil	A little rain almost everywhere in the district, but the weather has been generally bright and sunny. Late rice in some places requires more moisture, but a fair crop may be looked for. <i>Arhar</i> , chillies, sugarcane, and turmeric, are all good so far.
	8 Jessore, " 22 "	Nil	Weather—hot and dry. 11 of rain at Bagerhat and 2.78 at Magorah. The prospects of <i>amun</i> are good at present, but rain will be required in October, or the crop will be damaged considerably. Fever is very prevalent.
	9 Moorsshedabad, " 22 "	15	Weather—somewhat hot and close. Rainfall at Jungypore up to 20th 1.45, and at Kampore Hat up to 21st 86. The prospects of <i>amun</i> rice and other standing crops are good. Lands are being ploughed for <i>rubber</i> crops. General health is good.
	10 Dinagepore, " 21 "	15	Weather—cloudy with heavy showers at intervals. 7.05 registered at Roygunge during the week ending 19th. State and prospects of <i>amun</i> rice are much improved owing to the late heavy rain. <i>Bhadra</i> is being harvested, and the estimated outturn is 14 annas.
	11 Rajshahye, " 22 "	58	Slight rain fell during the week in some parts of the district. <i>Amun</i> rice in some parts will suffer for want of inundation water; otherwise the prospects are good. <i>Ropa dhan</i> in the Bhurind is thriving and promises a good outturn. Fever is still prevalent. Two cases of cholera have been reported from thana Beaulah.
RAJSHAHYE AND COOCH BEHAR DIV.	12 Rangpore, " 21 "	4.63	Rainfall at Gelbanda 2.81 and at Kurigram 5.28. The heavy rain of last week was followed by fair dry weather of only short duration. Heavy rains have again set in since the last three days, and the sky is now covered with dense masses of clouds. The state and prospects of the crops continue to be good. The recent heavy rain will be very beneficial to the rice crop, the transplanting of which has now nearly been completed with every probability of its yielding a good crop. The sowing of tobacco, however, is being seriously delayed on account of the rain. In Kurigram the prospects of the <i>amun</i> crop continue excellent. The recent rain has enabled the higher lands to be planted. Planting out has been going on in the sub-division until quite recently. Fever of the intermittent and mild remittent types is prevalent, otherwise the general health of the season contrasts favourably with that of previous years.
	13 Begra, " 22 "	2.58	Weather—hot and cloudy with rain at intervals. There was heavy rain on the night of the 21st accompanied by high wind. The crops are good throughout the district, and have received great benefit from the late rain. It is reported from Badalgachi police-station that some of the <i>amun</i> seedlings and <i>amun</i> plants in its jurisdiction have been submerged by the rain. The sugarcane crop has suffered slightly from the rain. Public health is good for this season of year except at Panobibi and Badalgachi, where there is a great deal of fever.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—(Continued)			
Central Districts.			
RAJSHAHY AND COOCH BEHAR DIV.	14 Patna, Sept. 28 '77	50	Weather—fine and favourable. <i>Amus</i> crops are not favourable owing to the unusual lowness of the river, but heavy rain has fallen in the interior which will undoubtedly do good.
	15 Darjeeling, „ 21 „	2.15	Not much rain fell during the week but enough for the crops. There has been a good deal of heavy mist. The timely rain has saved the <i>Aaimanti</i> rice crop. A 12-anna outturn is expected. The <i>dhadoi</i> rice just gathered has fallen short considerably, but no serious want is experienced.
	16 Julpigoree, „ 22 „	8.96	Very heavy rain fell on the 18th. The weather is cool, and the abnormal east wind has entirely subsided. The favourable report of last week is confirmed. The <i>Aaimanti</i> transplantation is going on steadily, and prospects are improving every day. Potatoes, tomato, and chillies, are being sown, and the ground prepared for tobacco and mustard. Health is not good, and cattle disease is very prevalent.
	Cooch Behar, „ 20 „	4.90	Weather—cloudy and rainy during the first portion of the week; the weather has since cleared up. Rainfall at Mekligunge has been 5.94 inches and at Mathabhanga 5.62 inches. The prospects of <i>Aaimanti dhan</i> have much improved, though a good outturn cannot be expected. All apprehensions about a total failure have been removed. The heavy rains have injured the tobacco seedlings; fresh seeds will however be again sown. The outturn of jute is expected to be good.
Eastern Districts.			
DACCA DIV.	17 Dacca, Sept. 28 '77	Nil	Weather—fine. The rivers have not fallen during the week, and even if they do, the crops are not likely now to suffer much.
	18 Furreedpore, „ 22 „	Nil	There has been very little rain during the week. The weather was cool for some days but has become hot again. Madaripore had 1.09. The rivers have begun to fall again. There is no hope of a good crop of winter rice, but with abundant rain there may be a tolerable harvest. Certainly not more than a ten-anna crop can be expected.
	19 Backergunge, „ 20 „	1.97	All is well.
	20 Mymensingh, „ 21 „	.78	Weather—seasonable. The prospects of winter crops are fair at best. Crops on the low lands have been injured by the rain.
	21 Tipperah, „ 21 „	.17	Weather—fine in the Sudder, but rainy in most other parts of the district. Rainfall at Brahmanbaria 2.96 inches. The prospects of winter rice are good.
CHITTAGONG DIV.	22 Chittagong, „ 20 „	.18	Weather—fine and seasonable. <i>Aus</i> has been reaped with fair outturn. <i>Amus</i> in the low lands has been injured by the last rains, but the extent of injury is not yet reported.
	23 Noakholly, „ 20 „	2.47	Weather—fair. The reaping of early rice is nearly completed, and the transplantation of <i>amus</i> crops is going on actively. Public health is good.
	24 Chittagong Hill Tracts, „ 18 „	6.38	Occasional rains throughout the week. Weather excessively hot. The <i>joom</i> paddy on the top of the hills is being reaped and gathered, but is much wasted by the heavy rain of last two occasions. This crop sown on the low lands is totally destroyed by water. The cotton plants are thriving well. The retransplanting of paddy plants is begun by the plough cultivators, those previously transplanted having been destroyed by the late flood.
	Hill Tipperah, „ 19 „	2.21	It rained on the night of the 12th, but the remainder of the week was dry and very close. The floods have subsided. Favourable reports have come from Oodypore and Kailashg. The transplantation of <i>amus</i> seedlings continues. The cutting of <i>aus</i> crop is nearly completed. Other crops are promising. Health is good.
BEHAR.			
PATNA DIVISION.	25 Patna, Sept. 22 '77	.03	Slight rain fell during the week. The weather is very hot and dry. It is good for harvesting early <i>dhadoi</i> , but has damaged late <i>dhadoi</i> and rice on dry lands. No further transplanting is now possible. Rain is much wanted. Health is good.
	26 Gya, „ 22 „	Nil	Weather—clear and hot. Maximum thermometer in the shade 100.5°. No rain in the district during the week. In Jehanabad and Aurungabad the want of rain is very great, also in the north of the Sudder sub-division. Some rice lands have been ploughed up for <i>rubber</i> sowings. (Rainfall at Jehanabad for the week ending September 15th, 1.28.)
	27 Shahabad, „ 22 „	Nil	No rain throughout the district. In Buxar the <i>dhadoi</i> and <i>aghani</i> crops are drying up, but may be saved by canal irrigation. Sugarcane is looking well. In Bhuboonh the general prospects of the <i>aghani</i> crop are good, but rain is wanted. The <i>dhadoi</i> crop is harvested. In Sasaram the paddy crops have suffered much injury, and the <i>dhadoi</i> crop is scanty. The sub-divisional officer says: "Matters look grave everywhere except where canal water is available." Paddy in some places is being cut for fodder. Throughout the district there have been hot and dry winds till the last two days neutralizing the good effects of previous weeks' rain. If rain does not fall within a few days the standing <i>dhan</i> will be utilized as fodder. Prospects on the whole are rather gloomy.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.—(Continued.)			
PATNA DIVISION.	28 Durbhunga, Sept. 21 '77	38	Later accounts confirm the estimate of the <i>bhadoi</i> crop outturn—two-thirds of the average—reported last week. Winter rice in the Sudder and Madhoobani sub-divisions is in good condition, but in the Tajpore sub-division it is much in want of rain.
	29 Mozufferpore, „ 22 „	Nil	Weather—cool and clear in the early part of the week; hot and cloudy at the close. The reaping of the <i>bhadoi</i> crops proceeds slowly, and the harvest generally will be a late one. An average 12-anna outturn will be obtained for the district. The rice crop in parts of the Seetamarhee sub-division has been greatly benefited by floods from the Baghmuttere and Adhwara rivers, and on the right bank of the Baghmuttere in the Mozufferpore sub-division 20 square miles of country have been well irrigated from the sluices made last year in the Toorkee embankment. In other parts of the district the crop is very greatly in need of rain.
	30 Sarun, „ 22 „	Nil	Weather very hot and dry. West wind prevailing. 03 of rain at Sewan. The week has been most disastrous. Scorching sunshine and dry west winds have materially injured the crops. Still it is hoped that the maize crop will on the average reach six annas. The rice crop is almost nil, though very heavy rain might still save a good deal. The wind shifted to the eastward on the morning of the 22nd, and there seems to be some chance of rain. The sugarcane and cotton crops however are reported good in places, but very much depends on the October rainfall.
	31 Chumparun, „ 22 „	Nil	Weather—generally clear and hot. Unless there is ample rain in the Hatia, which should begin on the 25th instant, the rice crop will be almost ruined, besides the great injury to the ensuing <i>rubbies</i> , of which the prospects chiefly depend on the moisture then taken into the soil. For the rice crop (of which however the area is comparatively small) there should already have been a great deal more rain. The <i>makai</i> and <i>kodo</i> (the staple crops of the season over a large part of the district) would have been (especially the latter) much benefited by moderate showers, though they do not need much; and these showers have been very partial, leaving many places with not more than 8 or 10 annas even of these crops, and still less of the minor grain crops, as <i>murwa</i> , &c. No report received from Bettiah. From one place (Shikarpore) 4 inches of rain is reported by the police, but this is very doubtful indeed.
BHAGULPORE DIV.	32 Monghyr, „ 22 „	Nil	Weather—hot with occasional threatenings of storm. 17 of rain at Beguserai and 81 at Jamui. The sub-divisional officers of Beguserai and Jamui are crying out about the crops, but from what the Collector can discover, rain enough has fallen and a good outturn in the <i>hatia</i> will give an 8-anna rice crop.
	33 Bhagulpore, „ 23 „	Nil	Weather—hot and sultry with little or no wind; exactly the proper weather after the heavy rainfall of last week. <i>Bhadoi</i> crop is yielding well. One more rain wanted in 15 to 20 days to secure an unprecedentedly fine <i>aghani</i> crop.
	34 Purneah, „ 22 „	03	Weather—cloudy and rain threatening: 1.11 at Kissengunge and 12.04 (including the rain of last week) at Arrareah. The <i>bhadoi</i> harvest is nearly over with 10 to 12 annas outturn. More rain is wanted for the winter crop.
	35 Maldah, „ 22 „	14	Heavy rain fell in the north of the district. State and prospects of the crops are good. Fever is still prevalent.
	36 Sonthal Perga, „ 22 „	1.32	No rain at Deoghur, and Godda. Bright mornings and stormy evenings with thunder and lightning in Doomka look rather like the wind up of the rains; but the weather is still so hot that there is hope of a good deal more rain. If not another drop of rain fell about three-fourths of the low land rice would be saved and about one third of the rest, giving about a 10-anna crop. All <i>bundhs</i> and tanks are very full of water. With good rain in the next three weeks an excellent harvest may be expected.
ORISSA.			
ORISSA DIV.	37 Cuttack, Sept 22 '77	42	Weather—fine, with showers. Excepting round Cuttack, the reports are very favourable. About Cuttack it is said that the <i>sarad</i> on the higher lands has suffered by the stoppage of the rain. <i>Rubbies</i> sowings have commenced.
	38 Pooree, „ 20 „	52	Weather—very hot and occasionally cloudy. There was not sufficient rain during the week; 84 at Khoordah. The <i>sarad</i> rice plants on the high lands are suffering, and those on the low lands are not progressing well. The state of the crops in the tract between the Chilka and the sea is worse than before. Unless the later rain comes in abundance there will be great distress among the small population of Andkiri, Paricood, Malood, and Bagrakot. Cattle disease is very rife in Mauikpatna, a place between the Chilka and the sea, and the number of deaths is very great. It also prevails in the sub-division of Khoordah to a serious extent. No cholera reported.
	39 Balasore, „ 21 „	02	Weather—hot. The early crop is being out with a good outturn. The late crop is doing well, though more rain will very shortly be wanted. Cattle plague still prevails to some extent.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
CHOTA NAGPORE.			
	<i>South-West Frontier Agency.</i>		
40	Hazarobagh, Sept. 21 '77	Nil	Weather—settled fine; very warm. Every thing is promising well. Indian corn, <i>goondli</i> , <i>murwa</i> , and <i>bkadoi</i> crops in general, are being rapidly harvested with good outturns. Cattle disease is diminishing.
41	Lohardugga, „ 22 „	Nil	There has been no rain at Ranchi since the 11th instant, but most of the rice fields of the main crop are still flooded and prospects are good. The break has probably been general throughout the district. The sub-divisional officer at Palamow reported on the 18th that there had been no rain there during the preceding week, but that the prospects of the <i>khurraf</i> crop were not very bad. Public health is good.
42	Singbhoom „ 21 „	54	Weather—seasonable. A disease called <i>ratah</i> has attacked very extensively the sown paddy in the embanked fields, and is reported to be likely to affect the harvest yield when ready. The prospects of the transplanted paddy continue favourable. The district is reported to be healthy.
43	Manbhoom, „ 22 „	53	Weather—unseasonably hot for this time of year. There had been only one shower of rain during the week. The prospects of the rice harvest are on the whole fair. In the north there will probably be a short harvest. Sugarcane and cotton are looking very well. Rain will be required a little further on in the season.

Velocity of wind in miles per hour.

CALCUTTA.
The 22nd September 1877.JOHN ELIOT, M.A.,
Meteorological Reporter to the
Government of Bengal.

Abstract of Observations as received in the Meteorological Office, Calcutta, during the month of June 1877.

N.B.—The Barometric data are reduced for temperature and not for height above sea-level.

NOTE.

Barometric Pressure.—The pressures in column 2 of the above table for all stations below 500 feet are reduced from those given in column 3 of the table on the previous page, by adding the weight of a column of air of the temperatures given in column 17. For stations above 500 feet elevation the reduction is made by Captain Allan Cunningham's table,—“Prof. papers on Indian Engineering, No. CXIII.” The temperatures at the sea-level are taken from column 3 of the above table.

Temperature.—The temperatures in column 3 are reduced from those in column 17 on the preceding page, by adding 1° Fahrenheit for every 450 feet.

Wind Resultant.—The resultant wind direction and its comparative predominance are calculated from the whole number of wind observations recorded during the month. The relative predominance in the direction of the resultant is given as a percentage of the whole number of observations. The direction is computed in the usual way by Lambert's formula.

Cloud.—This column gives the average proportion of clouded sky, a cloudless sky being indicated by 0, and one completely overcast by 10.

The above being all comparable, afford the data for constructing a meteorological chart for the month which shall show the isobaric and isothermal lines and the resultant wind directions, which last may be represented by arrows of varying length, proportioned to the prevalence of the wind. To these may be added the rainfall from the previous tables.

JOHN ELIOT, M.A.,

Meteorological Reporter to the Govt. of Bengal.

CALCUTTA,
The 22nd September 1877.

Results of the Meteorological Observations taken at the Alipore Observatory from 16th to 22nd September 1877.

Inch.

The mean pressure of the seven days ... 29.810

The average pressure of the corresponding period for 20 years ... 29.675

☉

The mean temperature of the seven days ... 83.9

The average temperature of the corresponding period for 20 years ... 83.0

The extreme variation of temperature during the seven days ... 12.5

The maximum temperature during the seven days ... 91.5

%

The mean humidity during the seven days ... 84

The average humidity of the corresponding period for 24 years ... 86

Inch.

The total fall of rain from 16th to 22nd September ... 0.03

The average fall of the corresponding period for 24 years ... 2.62

The total fall from 1st January to 22nd September ... 58.65

The average fall of the corresponding period for 24 years ... 57.12

The mean pressure, temperature, &c, are deduced from observations made at 6h, 10h., 16h and 22h.; the maximum and minimum temperatures from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard (Newman No. 86) at the Surveyor-General's Office.

The hygrometric elements are obtained from tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modification of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, *g* gloomy, *t* thunder, *p* passing showers, *lr* lightning reflection, ☉ lunar corona.

JOHN ELIOT, M.A., Meteorological Reporter to the Government of Bengal,
for Meteorological Reporter to the Government of India.

METEOROLOGICAL OFFICE, INDIA, the 24th September 1877.
